GOVERNMENT OF PAKISTAN

PREFACE

The hand book of Population and Housing Census Data of Sindh Province is a useful document which provides data for economic and social development planning at the local level of district and tehsil/taluka. This short and handy data is not readily available in any other publication already released. We, therefore, believe that this hand book shall serve as a reference guide for policy makers, research workers, academic community and other data users.

2. It comprises 60 statistical tables (50 population and 10 housing) covering all useful information released through regular census publications. These tables mostly give rates, ratios and percentage to provide a quick understanding regarding the trends/changes.

3. The officers and staff of Population Census Organization, Islamabad and Karachi who worked with great zeal and diligence to accomplish this work, deserve my appreciation.

4. I hope this publication shall go a long way in disseminating census data to all kind of users. Comments and suggestions, if any, from the readers for improvement of this publication, will be welcomed.

(ABDUL QADIR HAYE)P.S.P.
Chief Census Commissioner
