POPULATION CENSUS OF PAKISTAN 1961

DISTRICT CENSUS REPORT
NOAKHALI

PARTS I—V

GENERAL DESCRIPTION, GENERAL TABLES, HOUSING TABLES
POPULATION TABLES, AND VILLAGE STATISTICS

COMPILED AND PUBLISHED UNDER THE AUTHORITY

OF

A. RASHID Esq., CSP
CENSUS COMMISSIONER, PAKISTAN

AND

EX OFFICIO JOINT SECRETARY, MINISTRY OF HOME AND KASHMIR AFFAIRS
HOME AFFAIRS DIVISION

CENSUS ORGANISATION, PAKISTAN

OFFICE OF THE CENSUS COMMISSIONER, KARACHI

Mr. M. H. Sufi, C.S.P., Census Commissioner	15-6-59	to 22-10-59
Mr. R. D. Howe, M.B.E., S.Q.A., C.S.P., Census Commissioner ...	23-10-59	to 5-3-61
Mr. A. Rashid, C.S.P., Census Commissioner and *Ex-officio* Joint Secretary	6-3-61	to ...

CENSUS ADVISER

Col. E. H. Slade, M.B.E., M.C., F.I.S.	3-2-61	to 12-6-62
Mr. Lowell T. Galt	13-6-62	to ...

DY. CENSUS COMMISSIONER

Mr. N. Shamsi	24-7-59	to 31-8-62

O.S.D. (CENSUS)

Mr. Mohammad Hafiz Sheikh	3-9-62	to ...

DIRECTORATE OF CENSUS, EAST PAKISTAN

Mr. A. Rashid, C.S.P., Provincial Director of Census	14-3-60	to 2-3-61
Mr. H. H. Nomani, S.K., E.P.C.S. (Retd.), Provincial Director of Census	4-4-61	to ...
Mr. P. A. Nazir, C.S.P., Joint Director of Census, Chittagong Zone ...	24-3-60	to 15-5-61
Mr. B. Ahmad, E.P.C.S., Joint Director of Census, Dacca Zone and H.Q.	3-11-59	to ...
Mr. M. B. Alam, E.P.C.S., Dy. Director of Census, Rajshahi Zone ...	5-4-60	to 31-5-61
Mr. A. K. Choudhury, E.P.C.S., Dy. Director of Census, Jessore Zone	15-4-60	to 23-2-62
Mr. Ruhul Amin, E.P.C.S., Dy. Director, Machine Sorting Centre, Dacca	6-12-60	to ...

DIRECTORATE OF CENSUS, WEST PAKISTAN

Mr. Aslam Abdullah Khan, C.S.P., Provincial Director of Census ...	2-11-59	to ...
Mr. S. M. Sharif, P.C.S., (Retd.), Dy. Director of Census, Head Quarter	15-1-60	to ...
Mr. K.M.A. Samdani, C.S.P., Joint Director of Census, Peshawar Zone	6-4-60	to 31-5-61
Mr. A. Majid, P.C.S., Joint Director of Census, Hyderabad Zone ...	29-2-60	to 30-6-61
Mr. Ghulam Hussain, Dy. Director of Census, Quetta Zone ...	29-2-60	to 31-3-62

DIRECTORATE OF CENSUS, KARACHI

Mr. Agha Mustafa Qasim Qizilbash, Dy. Director of Census, Karachi	4-2-60	to 1-1-62

MACHINE SORTING CENTRE, KARACHI

Mr. W. A. Abbasi, Asstt. Director, Machine Sorting Centre, Karachi ...	15-9-60	to ...

FOREWORD

The "district" in Pakistan is the basic unit of administration and the focal point of all social, cultural, economic, administrative and developmental activities. This administrative reality was made the key-note of the publication programme of the 1960 Housing Census and 1961 Population Census. Accordingly, a separate report for each of the 62 districts and 6 Agencies was included in that programme. The idea originated in June 1960 with my predecessor in office Mr. R. D. Howe, MBE, SQA, CSP, ably supported by his Deputy Mr. N. Shamsi. As initially conceived the District Census Report was to have been in 8 parts, namely :-

Part	I	... Geography and brief history of the administrative district.
Part	II	... General Information.
Part	III	... Housing and Household Statistics.
Part	IV	... Vital Statistics.
Part	V	... Cottage Industries.
Part	VI	... Population Statistics.
Part	VII	... Village Lists.
Part	VIII	... Maps.

It was intended that the Village List should also include the complete location code number of every Village and a fairly complete description of each block. Part VIII-Maps was intended to include, besides the maps of the district, all urban area maps which have been collected and made up-to-date during the Census operations. Recognizing that it was a very big task, Mr. Howe, while asking for the views of the Provincial Directors of Census, frankly said : "admittedly, it is an ambitious project, but in my opinion the labour involved will not be out of all proportion to the tremendous value of the end product".

The first reaction of the Provincial Directors was not favourable. They thought that the Zonal Officers did not have the time and necessary background to do justice to Part I—'Geography and brief history of the administrative district'. Meanwhile, Mr. S. M. Ikram, CSP, Member, Board of Revenue, West Pakistan, got interested in the District Census Reports and he hoped that "in spite of obvious difficulties the District Census Report should be enlarged and converted into handy and business-like District Decennial Gazetteers". Mr. Ikram's idea was pursued for some time but when it was found that the re-writing of Gazetteers involved far greater effort, outlay and much longer time than Census could afford, the Census Organisation reverted to the original plan of a brief narrative for Part I.

It was planned that the Zonal Census Officers would write short notes on the history, geography and a few administrative activities of the district after the Big Count was over in 1961. The Zonal Census Officers were actually busy in the field collecting the preliminary reports and consolidating them for inclusion in the provisional census results of Pakistan. The work on the writing of the descriptive part was not therefore started until the middle of March, 1961. I took over from Mr. Howe in the beginning of March, 1961 and, although, initially, like Mr. Aslam Abdullah Khan, Provincial Director of Census, West Pakistan, I was myself hesitating from a sense of inadequacy to undertake such a big project, it did not take me long to be convinced about the tremendous value of presenting the district in all its aspects in a handy volume for the use of planners, administrators and the

general public. After much consideration and consultation the scope of the Reports (except for the Agencies) was narrowed down to the following five parts only :—

Part I ... General Description
Part II ... General Tables
Part III ... Housing Tables
Part IV ... Population Tables
Part V ... Village Statistics.

For various administrative reasons the reports for Agencies will be much shorter without the Housing Tables and Village Statistics but they will contain information about different Tribes and their social and economic life.

It was actually Part I—General Description, which called for the greatest amount of labour, research and co-ordination by the Census Officers at various levels. As stated earlier, there were some views that this part should have been more or less an up-to-date version of the encyclopaedic District Gazetteer. As against it, there were advocates in the Census Organisation of cutting it to the bare bones and present only a short description of the geography, natural resources and the administrative system of the district. I found it necessary to strike a middle course between these two extreme views and after much consideration the "General Description" was planned to contain the following chapters :—

Chapter I ... History, Geography and Administration
Chapter II ... People and Their Environments
Chapter III ... Important Places.
Chapter IV ... District Headquarter Town.

I must admit that the inclusion of the last three chapters is my idea as I felt that this would constitute a special contribution of the Census Officers to the total information about the districts. Population Census is admittedly the most comprehensive national stocktaking that a country embarks upon from time to time. The main object of census is no doubt taking an accurate count of the people according to their various demographic and social characteristics. In the process of census taking, however, a mass of related and ancillary information is collected, directly or indirectly, by the census taker. The 'Census Officer', to use the generic term applied to all those who were appointed to take the census, travelled widely and observed closely all manners of men and lands, thereby gaining valuable knowledge of the physical features, agriculture, industry, public health, communications, housing and above all the way of life and cultural pattern of the people. I had no doubt in my mind that these officers could pool their knowledge and write out a short account of the people and their environments, the important places they saw and the district headquarter town in which they work with great deal of confidence and accuracy. Despite various limitations, particularly lack of reference material and shortage of time, the Zonal Census Officers wrote out the draft Reports in time.

Part I—General Description—of these Reports is essentially a compilation rather than a fully original writing. The very nature of the assignment left hardly any choice but to make the well-documented and authoritative District Gazetteers the main source of this compilation. The sections on physical features, geography, geology, climate, river and mountain systems, flora, fauna and history are largely adaptations from the relevant District Gazetteers. These have, of course, been modified, revised and enlarged wherever necessary to make the information up-to-date and factual. The Zonal Officers also toured

the districts extensively and consulted revenue and executive officers as well as well-informed local people about facts and statistics given in every section. The sections on Agriculture, Irrigation, Communication, Industry, Administration, Medical and Health, Education and Land Reforms are mostly original writings but did not fail to include relevant information from District Gazetteers not rendered obsolete by passage of time. The section on the Basic Democracies is an entirely new feature giving a brief pen-picture of the revolutionary concept of national and local administration as working in practice. The reports drafted by the Zonal Officers were sent to the respective Deputy Commissioners for scrutiny and comments. The object of routing the reports through the Deputy Commissioners was to ensure the accuracy and completeness of the facts and figures. The Deputy Commissioners busy as they were with their multifarious co-ordination and developmental activities, found time not only to check the drafts but in almost all cases also to add their personal contributions in several sections, thereby making definite improvements in the text.

The chapter on "The People and their Environments" is an attempt at a sociological and demographic study of the district. This was added in September, 1961 when the Zonal Officers had already left the scene. As no specific instruction was given to the Zonal Officers earlier in this regard, their treatment of the demographic features was casual and incidental. The Deputy Commissioners were, therefore, asked to re-write the sections on races and tribes, dress, dwelling houses, food and health, betrothals and marriages, births and deaths, religion, customs and usages, main and subsidiary occupations, and cultural pattern of the people. In these sections the District Gazetteers again played an important part but from their intimate knowledge of the district the Deputy Commissioners and their Revenue Assistants threw new and interesting light on the life and activity of its people. In several dsitricts these sections have been entirely re-written.

The chapter on the District Headquarter town was added much later and the help of the Assistant Directors of Census in charge of Hand Sorting Centres was very much welcomed at that stage for writing a brief account of these towns. This chapter is, in fact, an original contribution of the Census Officers.

It was not found administratively feasible to include in these Reports all the maps that the Census Organisation had collected during the census operations. I quite realise that the inclusion of urban area maps would have enriched these volumes but due to the overriding considerations of economy and time these had to be left out. Maps are, however, an integral part of any report that claims to present a comprehensive picture of the district and keeping this point in veiw two maps of the district have been included in these Reports. One of the maps is in colour showing the district by sub-divisions/Tehsils and such details as railways, roads, canals, rivers, hills and mountains, district, sub-division and Thana headquarters and important places. The other map is in black and white showing the industrial establishments and agricultural products of the district in symbols and letters. There is one feature in the District Census Reports which, to our knowledge, has not been included in any previous census or gezetteer publications. I refer to the photographs of the people and the land in which they live and work. Simultaneously with my request

to the Deputy Commissioners for the report on the "People and Their Environments," they were asked to take suitable photographs of the people, young and old, their activities in the field and at home, the typical landscapes and the places of historical importance and of scenic beauty. The photographs thus collected are in themselves a store house of information and provide ample material for a general study of demographic and economic characteristics of the country. For lack of space, we have been able to reproduce only a part of the photographs but we hope they are fairly representative of the people and their surroundings.

All the officers engaged in the original drafting of the various sections and chapters of Part I "General Description" of these reports gave commendable performance. It is no reflection on the merit of their work that despite their sincere and wholehearted work these drafts had to be thoroughly edited at the level of the Provincial Directors and Census Commissioner. The Provincial Directors have in their 'Introduction' related their experience in revising, enlarging or condensing, adjusting and checking the wealth of information already supplied in these draft reports. While doing so, they undertook extensive tours of the districts and brought their knowledge and experience to bear upon the final shape of the information given. I also felt it necessary to take extensive tours in the different sectors of our big and widely separated country and made demographic and economic investigations into representative facts. The District Census Reports of West Pakistan came under the thorough scrutiny of Mr. Aslam Abdullah Khan, Provincial Director of Census, while I gave only general editorial guidance. So far as East Pakistan Reports are concerned, I am glad to take the responsibility of large scale editing of the various chapters and sections. I was emboldened to do so by the fact of my association with the district and subdivisional administration of that Province for nearly a quarter of a century and also by the knowledge I had acquired during my extensive tours of every single Census district of the Province in the year 1960 in connection with the organisation of the census.

For a small census organisation consisting of barely half a dozen officers at the top publication of a District Census Report for each of the sixty-two districts and six Agencies is undoubtedly a huge undertaking. We are painfully conscious of our shortcomings and limitations. None of my Civil Service colleagues who produced the General Description of the Report claims to be a scholar "with a flair for penmanship"—a quality which Mr. Ikram desired in a writer of gazetteers—yet all of them took up the challenge cheerfully and did their very best to complete the job once undertaken. Ours is a modest effort which by no stretch of imagination can replace the excellent gazetteers. We were at one stage tempted to call Part I of the Report—a Brief Gazetteer, but we saw the peril in time and named it—General Description—which it really is. I would request the readers not to look for the details or merits of a gazetteer in these volumes but I do hope that until gazetteers are extensively re-written, these will be found useful as up-to-date reference material.

Mr. Aslam Abdullah Khan shook off his initial hesitation and in spite of his full-time occupation as Secretary, Basic Democracies, West Pakistan, thoroughly revised the descriptive portions of the Reports. In particular, his intimate knowledge of the Frontier areas and the districts of Quetta and Peshawar Divisions has enriched the reports

of these districts. Mr. H.H. Nomani, M.A., S.K., who has varied experience of the district administration of East Pakistan as District Magistrate and Deputy Commissioner has also taken pains to go through the reports closely and give his valuable suggestions for their improvement. Mr. Aslam Abdullah Khan and Mr. H.H. Nomani stood solidly by me at all times of strain and stress and I am deeply grateful to them for their valuable help. I must also place on record my deep appreciation of the energetic, intelligent and painstaking editing of all the District Census Reports of East Pakistan by Mr. Bahauddin Ahmad, Joint Director of Census, East Pakistan. He brought to bear in his writing and compilation a sharp insight and wide research into the history, geography and lives of the people of the districts. Mr. Shaikh Mohammad Sharif, Deputy Director of Census, Headquarters, West Pakistan, did an equally good job in the preliminary editing of these reports and in helping his Director by collecting reference material. I have also great pleasure in thanking Messrs P. A. Nazir, CSP, K. M. A. Samdani, CSP, A. Majid, PCS, B. Ahmad, EPCS, M. B. Alam, EPCS, Ghulam Husain and A. K. Chowdhury, EPCS, Zonal Census Officers who laid the foundation of this unpretentious but laborious work of census reporting. As Karachi did not form part of the West Pakistan Province until some time after the conclusion of enumeration the descriptive part of the Karachi report was compiled independently by Mr. Agha Mustafa Qasim Qizilbash, Deputy Director of Census, Karachi. He undertook a very laborious research in order to collect accurate and up-do-date information about the various aspects of Karachi life. His task was rendered all the more difficult by the fact that no separate Gazetteer for Karachi as such had been ever written before. He continued to display devoted enthusiasm and gave much material help for this report even after his reversion to his parent department. I must thank him for his deep devotion to duty and his unfailing co-operation. I also highly appreciate the services of Mr. Mohammed Hafiz Shaikh, Officer on Special Duty, Census, who gave me material support in recasting and editing this report. Mr. Ruhul Amin, Deputy Director of Machine Sorting Centre, Dacca, and Mr. W. A. Abbasi, Assistant Director of Machine Sorting Centre, Karachi, showed a high degree of technical skill and organising ability in producing the Housing Census Tables with such mass of details. I highly value their contribution to the success of the District Census Reports and extend to them my heartiest thanks. Messrs Akhlaque Husain Kazi and Jalaluddin Ahmed Chowdhury, Assistant Directors of Compilation Centres, Lahore and Dacca, played a similar important role in giving the final shape to the population Tables. Part IV of this report bears ample testimony to their ability and hard work. The Statistical officers, Mr. Haq Nawaz Shaikh at Lahore, and Mr. Riaz Uddin Ahmad at Dacca also made substantial contribution to the accuracy of the population tables by their steady, painstaking and intelligent statistical work. The Assistant Directors of Hand Sorting Centres who compiled the report for the district towns deserve my special thanks as they were asked to do something which was beyond the normal call of their duty and they did it without the slightest murmur. My special and grateful thanks are due to Colonel E. H. Slade, MBE, M C, F I S, who had been with the Census Organisation as Census Adviser till May, 1962, for his ungrudging help in planning the final get-up of the District Census Reports. I feel at a loss

to think what I would have done without his active guidance in the preparation of the coloured and black and white district maps as well as in selecting the proper symbols for the local details included in the Village Statistics. Besides being a distinguished statistician he was also an artist cartographer. He drew out the master copies of the maps with his own hand and wrote out the instructions for their printing. He had to leave us before the Reports came out in print but I hope he will be satisfied with the result. We are immeasurably indebted to him for his wise counsel and help. I am also thankful to his successor, Mr. Lowell T. Galt, head of the United States Statistical Advisory Service to Pakistan, for his keen personal interest in these reports and his encouraging comments and suggestions.

I have no words to adequately thank the officers and staff of the Central and Provincial Governments, various Ministries and Departments, the district and sub-divisional officers and a host of other public-spirited men and women of our country who gave unstinted support, help and encouragement in the planning, preparation and publication of these Reports. In particular, I gratefully acknowledge the substantial help that the Chief Secretaries of the two Provincial Governments gave us by agreeing to let us have the photographs of the districts through their official photographers free of cost and by letting the District Officers write out the chapter on the "People and Their Environments". I am particularly happy to record that all the District Officers, in many cases assisted by their Revenue Assistants and Additional Deputy Commissioners, enthusiastically took up this additional and unscheduled responsibility. The Secretaries, Information Departments, and the Directors of Information of both the Provincial Governments rendered invaluable service in the matter of obtaining suitable photographs from far-flung corners of the districts. The Directors of Land Records and Surveys made our task easier by supplying up-to-date road and place maps of the districts as well as area figures. The Surveyor General of Pakistan has been equally generous with the supply of topographical and administrative maps. I also acknowledge with great pleasure our indebtedness to various newspaper articles, learned societies, journals, periodicals, university professors, social scientists, geographers and historians for the valuable information we collected from them for inclusion in the reports. I would also like to thank Mr. N. H. Khandker, Controller of Printing and Stationery, and Mr. Qasim Ali, Deputy Controller of Printing and Stationery, and the various printing presses, particularly the Ilmi Press, Lahore, for their technical know-how, unhesitating advice and prompt service at all stages of the printing of these Reports. Lastly, I must thank the staff of the Census Organisations in the Centre and the Provinces who worked untiringly to edit, check and verify these Reports statistically and aesthetically. The Statistical Section of my Office did a fine job in this regard and were ably assisted by a very good team of Draftsmen who produced the cover plates and the maps inside. In particular, I am grateful to Mr. Hasan Akhtar, Statistical Officer and Mr. Din Mohammed, Investigator, for a careful and painstaking checking of the narrative portions of all the districts.

A. RASHID, CSP,
Census Commissioner, Pakistan
& Ex-officio Joint Secretary.

INTRODUCTION

The District Census Report of Noakhali is one of the seventeen similar reports being published separately for each district of East Pakistan.

In the past Censuses it was found adequate to publish provincial Census Reports in several volumes. But in recent times the extensive development activities undertaken by the Government for smaller areas have made it imperative that data in greater details for smaller administrative units be made available to the administrators, planners, experts and all others connected with the development activities. The main Census Report for the province apart from being too voluminous for use in connection with smaller geographical units, also fails to provide data for local use. The data which are collected during the Census operation for smaller areas are merged and lost in statistical totals for largera reas which form the basic geographical break down for the provincial Census Reports and Tables.

The first step to present important information on the smaller geographical areas on a limited scale was undertaken in 1951 Census when a complete list of all villages containing total population, literates, number of houses and some other local details for each village was published in separate volumes called "Village List" for each district of East Pakistan.

The District Census Report is the product of a much more ambitious project which also includes the village list with greater details than its 1951 predecessor. This Report is in five parts, namely, Part I—General Description, Part II—General Tables, Part III —Housing Census Tables from the 1960 Housing Census, Part IV—Population Census Tables from the population Census, 1961 and Part V—The Village Statistics.

In Part I an attempt has been made to give a general picture of the district on the lines of the old District Gazetteers, though within a much shorter compass, incorporating the changes which took place since the time the Gazetteers were last published. The general description includes brief paragraphs on geography and geology, flora and fauna, climate, brief history, administrative set up, health and education, communication, basic democracies, agriculture and industries, land reform, the population and its composition, ethnological and demographical features, cultural pattern of the people and important places etc. It also contains a brief description of the district head quarter town. Besides, this part contains maps and pictures which have been provided to enable the readers to have a clearer perspective of the district and its people.

Part II includes tables giving general information provided by sources other than

census. Inclusion of this part was considered necessary in order to bring within one volume some general statistical informations which, like Census data are commonly required by planners, experts and administrators. The general information tables include data on rainfall, temperature, irrigation, industries, Dak Bungalows, educational institutions, hospitals, roads, basic Democracies, etc.

Part III, contains the Housing Census Tables of the district as collected and compiled by the Census Organisation. The housing census tables provide very valuable information about the housing condition in both urban and rural areas, the number of occupied and unoccupied houses, congested houses, size and structural characteristic of housing units, size of family, size of house-holds, etc.

Part IV contains the population Tables which are based on data collected during the Big Count in January, 1961. The pouplation tables provide data about population of geographical units by sex up to thana level, urban and rural population, the composition of the population by age, sex and marital status, literacy and mother tongue, birth place and main economic activities. It may be noted that detailed cross classification of the non-agricultural labour force by occupation and industry has been left to be done by machine sorting and the results will be published separately in a set of tables especially designed for the purpose.

In Part V, a complete list of villages of the district has been arranged by sub-divisions, thanas and unions. The village statistics gives, for each village, the jurisdiction list number, total population by sex, total literates, total number of houses and households. Besides the above, local details showing the existence, if any, to tube-wells, Schools, Posts and Telegraph Offices, Railway Stations, Steamer Ghats, Police Stations, Union Council Offices, Dak Bungalows, Dispensary etc. have been shown by appropriate symbols.

The first draft of Part I, general description, was prepared by Mr. P. A. Nazir, Zonal Joint Director in change of Chittagong Zone which included Noakhali within it. This draft was based largely on the old district Gazetteer. Mr. Nazir left the Census Organisation soon after the field work was over. The later decisions regarding the scope and content of this part of the District Census Report had to be carried out by Mr. Baha uddin Ahmad, Joint Director, Headquarters. Others who made notable contributions in giving this part of the report its shape are the Deputy Commissioner, Noakhali and Mr. K. A. Islam, Assistant Director of Census, Chittagong Hand sorting Centre. The Deputy Commissioner vetted the report and wrote the chapter on the "People" and Mr. K.A. Islam wrote the note about the District Headquarter Town. Mr. Bahauddin Ahmad, had to summarise certain portions, omit certain materials, include certain others and had to recast the entire material according to the decision of the conference held in Dacca to discuss the District Census Report. Mr. Ahmad also helped me a great deal in editing the report. Mr. A. Rashid, C.S.P., Census Commissioner finally edited the report and gave very valuable suggestions for improvement which were duly carried out. I am grateful to all these genetlemen for the ungrudging help and co-operation I received from them. The maps of Noakhali were drawn in the statistical section of my office. The statistical officer and his draftsman deserve my thanks for preparing the useful maps. In collecting photographs for this report we received encouraging co-operation from the Deputy Commissioner of Noakhali

and the Director of public Relation, Government of East Pakistan and I am grateful to them.

The General Tables for Part II of this report were collected from the Government Departments and Directorates concerned and also from the District Offices subordinate to the different Directorates. The data supplied by these sources were carefully scrutinized. Whenever any discrepancies were found in the reports efforts were made to reconcile them after reference to the authorities. In some cases up-to-date figures were not available as they were not compiled or officially released by certain departments. However, I must express my gratitude to the heads of different Departments and Directorates and their District officers for the prompt response received from them and I must also thank the Statistical Officer, Mr. Riazuddin Ahmad and his Assistants for the hard work they had put in for the collection and compilation of these tables.

The Housing Census Tables which form Part III of this report were entirely processed in the Machine Sorting Centre, Dacca. All the housing census scheduls were sent by the District Census officers direct to the machine sorting Centre. As a preliminary to machine sorting, punched cards were produced for each household in urban areas and for every tenth household in the rural areas. Besides sorting, compilation and tabulation were also carried on in the same Machine Sorting Centre by separate set of compilers, Mr. Ruhul Amin E.P.C.S., Deputy Director in charge of the Machine Sorting Centre did a very fine job. His duties were hard and strenuous but because he took keen interest he managed to finish all stages of machine work efficiently. In fact he has now become an expert in machine sorting work. I must thank him for his thoughtful planning and efficient work.

The population Tables which are printed as Part IV of this report are the relevant part of the Provincial Tables in respect of this district. These are based on information regarding age, birth place, marital status, nationality, mother tongue, literacy, education etc. collected by the field workers such as the Enumerators, Supervisors, Charge Superintendents and the District Census officers. These tables, therefore, represent the combined labours of them all. I wish I could mention each one of them individually. But I would be failing in my duty if I do not mention Mr. Abdur Rashid III and Mr. S. M. Yussuff, both of the East Pakistan Civil Service (Executive) who worked with great success and credit as District Census officers in the two Census districts of Noakhali.

Part V, Village Statistics was compiled in the Hand Sorting Centre, Chittagong under the guidance of Mr. K. A. Islam E.P.C.S., Assistant Director. During scrutiny at Dacca, it was found that local details of villages were not incorporated. These were, however, collected later on through the sub-divisional officers and incorporated in the village statistics. In obtaining local details we had received good co-operation from the Basic Democratic Institutions and the local administration. I am thankful to them for their support and co-operation. The other details in the village list were, of course, obtained during the housing and population census operations but it was really an ardous task to compile them.

Mr. Hamid Hossain, Deputy Controller and Mr. Rajab Ali Khan, Assistant Controller, Printing and Stationery, Government of Pakistan, Dacca and the various printing presses here did a fine job in the matter of printing and publication of District Census Reports. But for their active and whole-hearted cooperation, timely publication of these reports might not have been possible and they deserve my thanks.

I must place on record my deep sense of gratitude to Mr. A. Rashid, C.S.P., Census Commissioner of Pakistan, without whose guidance, inspiration and untiring zeal the District Census Report in this form and in such detail would never have seen the light of day. It was entirely his conception, his planning and his ungrudging advice and guidance at all stages that made it possible to present this report in its present shape.

H. H. NOMANI, S.K.,
Director of Census,
East Pakistan.

DISTRICT CENSUS REPORT

NOAKHALI

NOAKHALI DISTRICT AT A GLANCE

1.	AREA	1855 sq. miles
2.	POPULATION	23,83,145
3.	DENSITY	1,285
4.	SEX RATIO	973 Females per 1000 Males.
5.	* LITERACY	24·7 p.c.
6.	CLIMATE	Humid and Moderate.
7.	MAIN LANGUAGE SPOKEN ...	Bengali.
8.	TRIBES, IF ANY	None.
9.	MAIN CROPS	Rice, Jute, Chillies, Linseeds and Sugar-cane.
10.	ECONOMY	Mainly Agricultural
11.	LABOUR FORCE :—	
	(a) Agricultural Labour Force	8,00,729
	(b) Non-Agricultural Labour Force ...	84,114
12.	UNIVERSITY, COLLEGES AND SCHOOLS :—	
	(a) University	Nil
	(b) Colleges	2
	(c) High Schools	88
	(d) Middle Schools	90
	(e) Primary Schools	1202
	(f) Others	301
13.	COMMUNICATION :—	
	(a: Roads :—	
	(i) Metalled	68½ miles.
	(ii) Unmetalled	30
	(b) Railways :—Main P. E. R. line from Sharishadi to Muhuriganj Branch—from Laksam to Noakhali.	

* Percentage of Literacy has been worked out on the basis of Population age 5 years and over

14. INDUSTRIES :—

(a)	Government and Local Fund Factories ...	Nil
(b)	All other Factories	I
(c)	Engineering	Nil
(d)	Minerals & Metals	Nil
(e)	Food, Drink and Tobacco	Nil
(f)	Chemicals and Dyes	Nil
(g)	Paper & Printing	I

15. IMPORTANT PLACES :—Bajra, Amishapara, Chagalnaya, Chaumuhani, Laksmipur, Bhowaniganj, Ramgati, Hatiya, Companiganj, Mira Shaheb' Dargah at Kanchanpur, Basikpur, and Dalal Bazar.

16. ADMINISTRATIVE DIVISIONS :—

(a)	Names of Sub-Division :—Noakhali Sadar and Feni	
(b)	Number of Thanas	13
(c)	Number of Union Councils ...	175
(d)	Number of Villages	1862

CHAPTER I

HISTORY, GEOGRAPHY AND ADMINISTRATION

1-1. NAME

The name of the district of Noakhali is derived from the name of a Khal known as Noa (New) Khal (channel) on which the district headquarter once stood.

1-2. LOCATION

The district lies between 22-06. and 23-17. north latitude and 90-38. and 91-35. east longitude. It is on the southern Zone and borders the Bay of Bengal.

1.3. BOUNDARY

To the north of the district lie the district of Comilla and Tripura (India). To its east are the Tripura State (India) and Chittagong district, the Baro (big) Feni river marking its boundary with Chittagong district. The river Meghna forms the western boundary of the district and the Bay of Bengal forms its southern boundary.

1.4. GEOGRAPHY

(a) **Area** :—Total area of the district is 1955 square miles. Due to the existence of large rivers around the islands to the south and due to the almost constant alluvial and diluvial action of the rivers the area figure of the district requires constant adjustment. In terms of area the district is 15th in East Pakistan and 57th in Pakistan.

(b) **Physical Features** :—Except for a small area of little hillocks the entire land surface including the islands consists of plain lands. The main land of the district is about 55 miles long from east to west and is between 20 and 22 miles from north to south. The northern part of Feni-Sub-Division is wedged in between Comilla and Tripura State (in India) in the shape of a thin long triangle tapering towards north. It is in this portion of the district that the hillocks and the narrow hill streams can be seen.

The area of the mainland particularly of the Sadar Sub-Division is low lying. This accounts for the large number of tanks which are excavated to raise the level of the ground for building residential houses in villages.

All the islands, big and small, lie to the south of the district. The biggest of the islands is Hatiya. The smaller islands are constantly changing their boundary and position due to the alluvial and diluvial action of the rivers. The old Char Islands like Hatiya have all the features of the main land but a newly formed island is generally a sheet of paddy lands without any trees on it.

1.5. GEOLOGY

Except for a portion to the north of Feni town the rest of the district is an alluvial formation and geologically not very old. The soil consists of sand and clay in varying proportions in different parts. In the southern portion of the main land the soil is impregnated with salt. The soil of the northern triangle lying between Comilla and Tripura State (India) is dull reddish in colour.

1.6 RIVER SYSTEM

The main rivers are the Meghna on the western boundary and Baro (big) Feni on the eastern boundary. The smaller Khals (Channels) that flow through the district

The BHAWANIGANJ Khal :—The next tributary of importance is the Bhawaniganj Khal which rising in the north of Lakshmipur thana passes by Lakshmipur and through Begumganj to the great estuary. It is not navigable by boat throughout the year.

The Noakhali Khal rising near Begumganj in the centre of the district flows past the former town of Noakhali and is navigable during the rainy season.

The little Feni or Dakatia river rising in the hills of Tripura (India) passing through the plains near Comilla enters the Noakhali district near Sikanderpur and flows through the western portion of the Feni Sub-Division and is navigable throughout the year by shallow country boats.

ALLUVION AND DILUVION

The district is a comparatively recent one. From the old records it appears that Sandwip, Hatiya and Bamni might have formed one island or at least might have been divided by very narrow channels and they probably became inhabited before the main land. As late as in the year 1819 Mr. Watters found Bamni still separated from the main land by a narrow channel. Sandwip was found a single island 12 miles from Chittagong coast and 8 miles from Bamni measuring 14 miles from north to south and 12 from east to west. In 1850, Sir Joseph Hooker wrote that the main land of Noakhali was extending gradually seawards and had advanced 4 miles within 23 years. The elevation of the land was in his opinion caused by the overwhelming tides and south-west hurricanes in May and October, which carried to the waters of the Meghna and the Feni back over the land in a series of tremendous waves that covered islands of many hundred acres and rolled 3 miles on to the main land. Char Jabbar seems to play an important part dividing the waters of the Meghna. It throws on strong stream on to the coast of main land and another on to north Hatiya. Noakhali town stood in the danger of being destroyed since the early part of this century. In 1948-49 ultimately Noakhali district headquarter was washed away by this stream.

1.7 FLORA

Due to the contiguity of the Bay of Bengal the flora of the district have all the peculiarities of the vegetation of other districts in the southern region of East Pakistan. The abundance of various types of palm trees is a most notable feature. Of the different type of palms the growth of Superi (betel nuts) is most luxuriant. The western portion of the district has vast areas growing Superi which wears the appearance of planned forest. Next to Superi (areca catechu) is cocoanut palm which also grows in abundance. The date palm (Khejur) and toddy palm are also found all over the district. Mangoes, almonds, the banyan, the pipal, Neem, Gab, Jam, tamarind, Bel and Jalpai (Olive) are the other varieties of trees which grow in almost all parts of the district. Mangoes are of very poor quality but almonds of different varieties, though not abundant in quantity, are quite good in quality. Except for a little quantity of Chaplash and Garjan timber that grow in part of the Feni Sub-Division there is no valuable timber most of which is imported from other areas.

1.8 FAUNA

Large carnivora are now very scarce but tigers and leopards sometimes descend from the Tripura State (India). Spotted deer and

hog deer are occasionally seen in the eastern portion of the district. Flocks of bar-headed geese, wild duck and snipe are found in southern parts of the district in winter. Crocodiles and no less than five varieties of Cobra, namely Phanak, Khoia, Ranka, Dudhgabahar and Tilakyabahar are found in this district. Other poisonous snakes are Sankani, Jangaliabora, Urgabora and Kucha bora.

1.9 CLIMATE

This district gets a heavy rainfall, and its temperature and humudity are even throughout the year. Due to its proximity to the sea it does not have extremes of either heat or cold. Normal meteorological data on average maximum and minimum temperatures as—dnsplied by the Meteorological Department is furnished below :—

TEMPERATURE

Season	Maximum mean.	Minimum mean.
Summer		
(i) Dry Summer (March to June)	87.9 °F	75.7 °F
(ii) Monsoon (July to October)	86.2 °F	78.3 °F
Winter		
(November to February)	80.3 °F	61.6 °F

1.10. NATURAL PHENOMENA

Due to the contiguity of the main land of the district to the sea and also due to the comparatively low level of the land surface, the district, particularly its southern part, witnessed very severe tidal bores which swept away thousands of human beings and cattle, bringing in its wake untold miseries to those who survived. The district also witnessed some of the most destructive cyclones. Some of the cyclones were followed by tidal bores to make the devastation most telling for people of vast areas of the islands and southern parts of the district.

One of the most devastating cyclone was that of 1779. The other big cyclones and floods were those of 1822, 1825, 1848 and 1867. The cyclones and tidal bore of 1876 surpassed all previous natural calamities in its ferocity. The entire southern area was completely washed away. Only a few pucca buildings in the town area could stand its ravages. An estimated population of 36,000 were drowned and the epidemic which followed took a toll of about 49,000 lives. Another devastating cyclone occurred in 1893. As it took place during day time the toll of human lives was not very heavy. Nearly 5,000 cattle were lost and crop was seriously damaged. Cyclones continued to cause serious damage to life and property in the district at regular intervals. The cyclones of 1895, 1899, 1937, 1941 and 1958 deserve special mention.

The recent cyclones on the 10th and 31st of October, 1960 were the most severe and devastating in living memory. The cyclones were accompanied by heavy rains and tidal bore badly damaging the 'Char' areas of Shudharam, Senbagh, Companiganj, Begumganj, Lakshmipur, Feni, Parasuram and Chagalnaiya areas and the islands of Hatiya and Ramgati.

Hardly before recovery from the shock of the cyclone of 9th October, 1960 the district was ravaged by another cyclone on 31st October, 1960. The occurence of two cyclones in such quick succession is an unprecedented event in the history of the district.

The extent of damage and loss to lives and properties due to the October' 60 cyclones was as follows according to the estimates of the Divisional authorities.

Damage and Loss	By cyclone of 10th October, 1960.	By cyclone of 31st October, 1960.
I—Casualties		
(i) (a) People lost	3,311	1,227
(b) People missing.	146	150
(ii) Cattle, Buffalo, sheep and goat lost—	1.04,448	4,231
Approximate value—	Rs. 34,69,574/-	Rs. 5,37,169/-
II-Houses damaged		
Fully	59,879	5,871
Partly	2,92,142	5,245
Approximate value :—	Rs. 1.80,28,591/-	Rs. 9,91,894/-
III-Damage to crops		
Early Aman	1,86,317 areas	18,315 areas
Late Aman	2,26,128 "	92, 985 "
Approximate value :—	Rs. 98,98,680/-	Rs. 46,66,140/-

The House numbering operation of the 1961 Census was almost completed. Preparations were made to start Housing Census Operation which was due to begin from the eighteenth October, 1960. The natural calamity of the tenth October completely upset the programme in Noakhali district. Sixty percent of the houses were either completely washed away or partly damaged and most of these could not be rebuilt at the time of population Census which took place in January, 1961.

1.11 HISTORY

The land which is now known as Noakhali does not have very old history. The description of the Eastern land in the Ramayana does not help to identify Noakhali. It is difficult to say who were Noakhali's first settlers.

According to Hindu tradition Biswambbar Sur, ninth son of Raja Adi Sur on his way back from Chandranath in Chittagong was passing through Noakhali. He saw in a dream that Goddess Barahi ordered him to make sacrifices with the promise of bestowing the sovereignty of the land in return. At the time of sacrifice the sky was cloudy and sacrificial animal was kept facing the wrong direction. As sun reappeared the mistake was apparent and he exclaimed "It was wrong" (Bhulhua) This is supposed to be the origin of Noakhali's older name 'Bhulhua'.

Biswambbar is believed to be a comtemporary of Bakhtiar Khilji. Adi Sur was supposed to have some Rajput blood. But Biswambbar and his successors, perhaps because of intermarriage were Kayesthas. The Sur Kings of Bhulua acknowledged the suzerainty of the kings of Tippera and received due consideration from their overlords. Most famous in the line of the Sur Raja was Lakshman Manikya who was a contemporary of Isa Khan and one of the twelve Bhuiyas of Bengal. It is said that Lakhman was the victim of treacherous murder by a neighbouring chief. His son and successor revolted against the authority of the Tippera kings but was eventually overwhelmed and defeated.

It is not known for certain when Muslim settlement of Noakhali began. It might have started during the last quarter of the 13th. century when Mohammad Tughral aided Ratna Manikya to occupy the throne of Tippera. Further wave might have come during the attack of Ilias Shah, Governor of Sunargaon on Tippera kingdom. Further Muslim incursions might have taken place during the reign of Fakhruddin Mubarak, founder of the independent line of Muslim kings in Bengal, who ruled over the whole territory from Sylhet to Chittagong. During the Mughals Noakhali and islands to its south were at least nominally treated as part of the empire. It is difficult to say how far effective was the control over the area until the subjugation of Tippera in the 18th Century.

Among the rather monotonous account of successive rulers of Tippera the story of the rise and fall of Shamsher Ghazi is of absorbing interest. Shamsher was the posthumous son of a poor cultivator of Dakhinsik in Feni Sub-Division. From infancy he showed signs of exceptional ability. He was brought up with the children of the upper classes and aspired to marry the daughter of the local Talukdar. To escape the wrath of the Talukdar for such audacious proposal he fled to the jungle, organised a band of hooligans and attacked and killed the Talukdar and his sons and married the Talukdar's daughter. This was the beginning of an ambitious career. Taking advantage of the chaos in the Tippera court Shamsher was able to capture a large area both by force and stratagem and sacked the capital of the king at Udyapur. For a time he was the virtual ruler of the whole area to the east of Meghna. But he was essentially a bandit and plunder was his method. He failed to enlist the support of the Nawab of Murshidabad. On Raja Krishna Manikya's appeal Nawab Mir-Kasim's force captured Shamsher and took him a prisoner to Murshidabad where he was .put to death after sometime.

The history of the British rule over Noakhali begins with the conferring of Diwani (revenue administration) to the East India Company in 1765. The islands except Swandip (which was part of Chittagong) were part of Bakerganj and the mainland was a part of Dacca district. In 1787 this area was placed under the Collector of Mymensingh district. In 1790 whole of the mainland formed part of the new district of Tippera. The district as it is constituted now was created in 1821 under a separate collectorate known as Bhulua. The district began to be known as Noakhali from 1868. In the next year a major territorial adjustment took place by which the island of Daskhin Shahbazpur to the east of Meghna was transferred to Bakerganj district. Further changes took place in 1875 and 1876 which resulted in adjustment of areas with neighbouring Tippera and Chittagong.

Noakhali has been a district of Chittagong Division since 1829 when Divisions were formed and Commissioners appointed.

From the early correspondence of the revenue officials of the district it transpires that they had to contend with a group of turbulent Zamindars. Taking up the direct control themselves they found an equally turbulent tenantry to tackle. The Revenue administration always sought the assitance of magistrates who continued to exercise both executive and judicial powers.

Politically however Noakhali has passed through a period of unbroken peace since the establishment of British rule. Even during the Freedom Fighting in 1857 this district remained absolutely silent though both Chittagong and Tippera (Comilla) were active participants.

The district has gone through process of boundary adjustments several times since 1876. In 1876 Feni Sub-Division was formed and thanas Chagalnaiya of Comilla district and Mirersarai (which was formerly known as Mirkasarai) of Chittagong district were included in it. The islands of Sandwip and Hatiya continued to be part of Chittagong district until 1821. Sandwip was again transferred to Chittagong in 1955. Mirersarai was transferred back to Chittagong soon after its inclusion with Feni. Only Hatiya island and Chagalnaiya P.S. continued to form part of Noakhali district.

Noakhali played its due part in the political movement of the 20th century which culminated in the achievement of independence.

The Muslims who are in overwhelming majority joined the Pakistan Movement almost to a man and gave their unqualified support to Quaid-E-Azam. In the election preceding the Independence Muslims registered their unanimous support for Pakistan.

1.12. ADMINISTRATION

The Deputy Commissioner is the head of the civil administration of the district. He combines the functions of District Magistrate, Collector of Land Revenue and Co-ordinates activities of all the nation building departments. In the Administration of criminal law he is assisted by an Additional Deputy Commissioner, Sub-divisional Officers and a few Extra Asstt. Commissioners who are also trying magistrates.

The district is divided into two sub-divisions and each sub-division is again divided into several Police Stations as shown in the following tables :—

Name of Sub-Division	Number of Police Stations.
1. Noakhali Sadar	9
2. Feni	4
Total	13

For each of the Sub-divisions there is one Sub-divisional officer who, to a large extent exercises the powers and functions of the Deputy Commissioner within the area of the Sub-Division. Each Sub-divisional Officer is assisted by a few Extra Asstt. Commissioners and Circle Officers for the administration of criminal justice, general and development activities and the administration of the Basic Democracies Institutions.

The police force of the district is under the general control of the Superintendent of Police who is assisted by a Deputy Superintendent. For Police administration the district is divided into 13 Police Stations. In each police station there is a small force headed by an Officer-in-Charge of the rank of Sub-Inspector.

In revenue matters the Deputy Commissioner is assisted by a Joint Deputy Commissioner who exercises practically all the powers of the Deputy Commissioner in revenue matter except a few specific functions.

In each sub-division there is a Sub-divisional Manager directly responsible for revenue administration. He works under the general supervision of the Sub-divisional Officer. There are 70 tehsils (rent collecting offices) in the district, 51 of them at Sadar and 19 at Feni Sub-division.

The other offices located at the district Head Quarter are listed below :—

Name of the Deptt/Office (in full)	Designation of the Officer-in-Charge of the district Office.
1. Agriculture Office.	District Agriculture Officer.
2. Animal Husbandry Office.	District Animal Husbandry Officer.
3. Co-operative Department.	Asstt. Registrar of Co-operative Societies.
4. EPWAPDA, Division.	Executive Engineer, EPWAPDA Division.
5. C & B Department.	Executive Engineer, C & B.
6. Public Health Department.	District Health Officer.
7. Medical Department.	Civil Surgeon.
8. Education Department (Secondary).	District Education Officer.
9. Education Department (Primary).	District Inspector of Schools.
10. Food Department.	District Controller of Food.
11. Fishery Department.	District Pisciculture Officer.
12. Noakhali Municipal Committee.	Sub-Divisional Officer, Ex-officio, Chairman.
13. District Council.	Dy. Commissioner, Ex-officio, Chairman.
14. Postal Department.	Supdt. of Post Offices (Noakhali Division).
15. Public Health Engineering.	District Supervisor, P.H.E.
16. Ansar Organisation.	District Adjutant of Ansars.
17. Small Savings Department.	District Savings Officer.
18. Physical Education.	District Inspector of Physical Education.
19. Publicity.	District Public Relations Officer.
20. Industries.	Asstt. Director of Industries.
21. Central Excise & Customs	Supdt. of Central Excise & Customs.

1.13. BASIC DEMOCRACIES

The Basic Democracies were introduced by an order promulgated by the President called the Basic Democracies Order, 1959. With 5 tiers, namely the Union Council, the Thana Council, the District Council, the Divisional Council and the Provincial Council (the Provincial Development Advisory Council).

The object of the Basic Democracies is to associate the people through their representatives with administration in general and make them take part in development work for the progress of the country.

Election to the Basic Democracies were held in 1960. Election to the Union Councils were held on adult franchise. In this tier the number of nominated members is half of the number of elected members.

The councils have been given powers for taxation on certain matters. They also receive Gov rnment grants. These Councils are responsible for various kinds of development works withintheir respective jurisdiction. The spheres of development works are education, health, sanitation, roads, irrigation, water-supply, cottage industry etc., and various other social works.

As a result of introduction of this system great change has been taken place in the thinking and outlook of the people towards the administration and the country. They have begun to realise their responsibilities for the development and welfare of the country. The spirit of patriotism is taking firm root in their mind.

The number and composition of the three tiers of Basic Democracies are given below :—

Name of Council	No.	Total number of members. Elected	Appointed.
1. District Council	1	—	28
2. Thana Councils	14	—	171
3. Union Councils	171	1950	930
4. Town Committees	1	6	3

The name of only Municipal Committee of Noakhali District with structure and composition is given below :—

Name of Municipal Committee	No. of Union Committees	Total number of memebrs	
		Elected	Appointed
Noakhali Municipality	3	18	9

The District Council consists of 28 members of whom 12 are appointed official and 16 are nonofficial members. The representatives of all the Departments in the district are members of the District Council.

1.14. IRRIGATION

Irrigation plays rather an insignificant part as an aid to agriculture.

According to figures available from the agriculture Department only about 1,500 acres of land had been irrigated in 1959.

1.15. AGRICULTURE

On the extreme east of the district the country is slightly undulating and intersected by numerous hill streams flowing from the north and the east. The rest of the district is plain rising slightly towards banks of the Meghna and the Feni river on either side. The soil is a rich alluvial deposit yearly inundated and fertilized by the overflow of the rivers and with great capacity for retaining moisture. Salt deposits are not unknown but they have done no serious damage owing to the heavy rainfall and the annual inundation. Crops can be raised in the rainy season on the lands that show a saline efflorescence in the winter. Rice is the main crop of the district, Oil seeds like mustard, linseed and sesame are also grown. Jute is also grown extensively. Among the pulses 'Mug', Mas Kalai, Khasari, Orhar, are chiefly grown in this district. Mula (Radish), cucumber, pumpkin, gourd, brinjal, tomato, beans, among the vegetable crops are grown. Chillies, turmeric, onions, garlics are main spices grown in the district.

The area and production and yield per acre of important crops for the year 1959-60 are shown in the table below :—

Name of Crops	Area in Acres	Production (in tons)	Yield per Acre (in maund)
1. Rice	7,68,200	3,14,565	11
2. Jute	27,851	98,205 (bales)	17
3. Chillies	19,500	4,575	6
4. Lin-seeds	6,500	920	4
5. Sugar-cane	4,200	66,110	430

The soil of the district is generally very fertile and little effort is required to prepare it for sowing. Manure is not extensively used. Rice lands require little manure. Jute land and high lands for all varieties of pulses require some manuring. Cow-dung is still the most popular manure, though chemical fertilisers are being increasingly used.

The cultivators use the simple implements which have been in use since the dawn of civilisation. They consist mainly of a plough and a pair of bullocks to draw it. Scientific farming on a wide scale does not appear to be possible unless co-operative farming is introduced. At present land is the private property of small owners who zealously stick to their proprietory rights.

1.16. HORTICULTURE

The main fruits grown in the district are :— banana, mango, melon and watermelon, litchis, papaya, limes, pomes, pineapple. The total area under orchards in the district was 2,300 acres (1959-60). In addition to the kitchen gardens the area under vegetables in the district was about 1000 acres (1959-60).

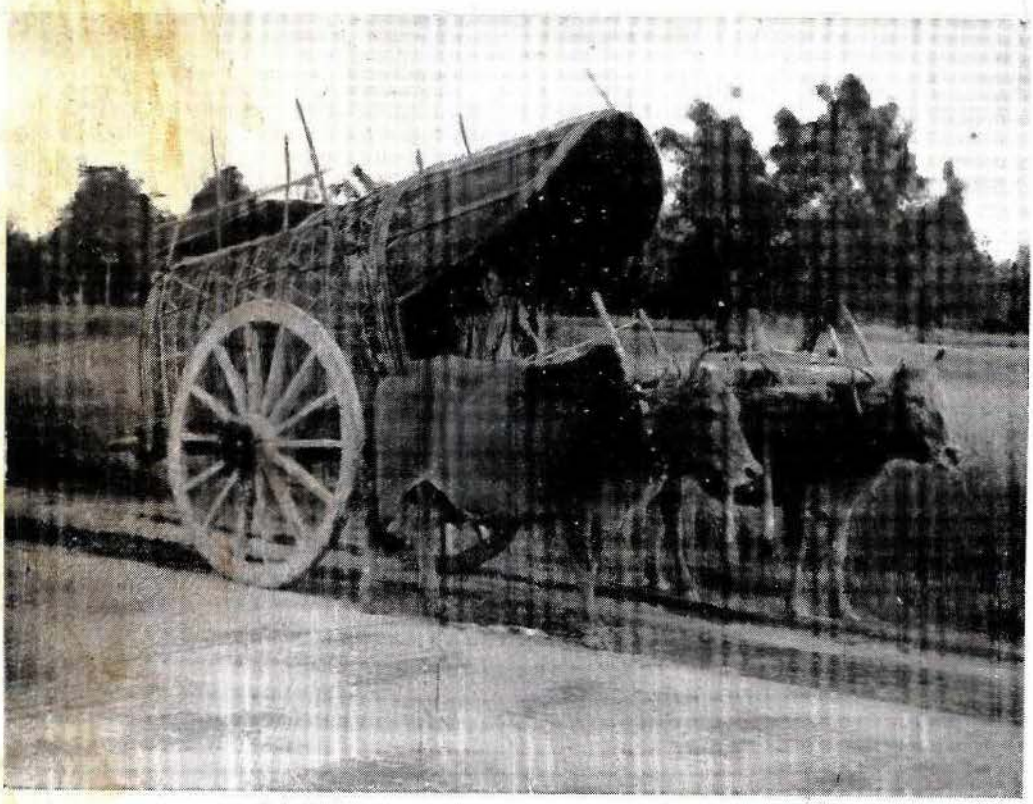

A dwelling hut in Noakhali.

Village market at Bazra.

Lakshimpur market.

A bullock cart, an age old means of transportation.

1.17. MEDICAL

Common diseases in the district are malaria, influenza, cholera, dysentery and anteric fever. Due to frequent inundation and the consequent polution of tanks which used to provide the only source of drinking water a couple of decades ago, cholera was a recurring phenomenon. Sinking of tubewells in large number has partly solved this problem.

There is a great shortage of properly equipped hospitals in this district and the dispensaries are also too few. There is a proposal to establish rural health centres with hospitals in the near future.

The names of important hospitals :—

(1) Noakhali Sadar Hospital.
(2) Sub-Divisional Hospital feni
(3) T. B. Segragation Hospital, Noakhal.

1.18. COMMUNICATION

Noakhali is now well connected by roads. The Provincial Trunk Road from Dacca to Chittagong passes through the centre of Feni Sub-Division.

The district is very well connected with Sub-Divisional headquarters and similarly the Sub-Divisional headquarters are well connected with the thana headquarters. There are hardly any U. C. which is not approachable by a Jeep in the Feni Sub-Division. To a lesser extent this is true of the Sadar Sub-Division as well.

The Dacca-Chittagong Trunk Road 14 miles of which lie in the Feni-Sub-Division, is a concrete road and looked after by the C & B Department. under the provincial Government. A bridge over the Feni river at Suvapur takes the traffic to Chittagong district direct. Next in importance is the 26 mile long Feni-Noa-khali road. This is also a concrete road starting from the headquarters station. It goes in a north-eastern direction until it meets the Chittagong Trunk Road at Feni. A 16 mile long Kutcha road runs from Feni to Parasuram in the northern lip of the Sub-division. Captain Leake's road connects Parasuram with Chagalniaya and thence by the Chittagong Trunk road to the Big Feni river.

Begumganj forms a junction of roads. One road runs from here to Sonaimuri, another to Sonapur via Maijdi Court. The third road goes to Lakshmipur and Raipur in the west and the fourth road is the main Noakhali-Feni road going east.

The table below gives an indication of the metalled and unmetalled roads in the district:-

Name of Road	Milege	
	Metalled	Unmetalled
1. Chittagong Trunk Road;	14	—
2. Begumganj-Maijdee-Noakhali Road.	8½	—
3. Court Station Road.	1	—
4. Begumganj-Daganbhuya-Feni Road.	22	—
5. Feni-Chagalniaya-Suvapur Road.	16	—
6. Chagalniaya-Muhurigonj Road	—	7
7. Begumganj-Matabi Road.	2	10
8. Matabi-Raipur Road	5	13
9. Bhabaniganj Road.	—	18
10. Capt. Leakes Road.	—	16
TOTAL	68½	64

Besides the roads, river communication in this district is fairly important. All the islands are approachable by boats.

Hatiya island is also served by steamers running from Chittagong to Barisal. The Assam Bengal Railway line (at present Pakistan Eastern Railway) from Chittagong to Laksam passing through Feni was opened for traffic in 1896. In 1903 a branch line was constructed from Laksam to Noakhali and another branch line was opened later from Feni to Belonia. On the border of Tripura State (India) in 1936. The main railway station on the Feni Chittagong line are Rukunganj, Fazilpur, Feni and Shanshadi and on the Noakhali-Laksam Line, Sonaimuri, Bozra, Chowmuhani, Maijdee and Harirampur.

1.19 INDUSTRIES

Industrially Noakhali is still backward. Except a few oil mills located at Chowmuhani and Feni, there is practically no industrial unit. A jute mill is proposed to be established at Chowmuhani.

Among the notable items of cottage industries in this district handloom weaving, hosiery, basket and cane and bamboo products deserve mention.

1.20 LAND REFORMS

The land revenue system introduced by the early British rulers was inherited after Independence in 1947. The Permanent Settlement introduced by Lord Cornwallis in 1793 which made the proprietors the permanent Government agents for collection and payment of fixed amount of revenue needed changes under the changed conditions. The interim measures passed for the benefit of the raiyats, the most important of which was the Bengal Tenancy Act of 1885, did not prove to be of much help.

By a legislation known as the East Bengal Estate Acquisition and Tenancy Act 1950 all proprietary rights of the middle men i.e. the Zamindars and other sublessees were abolished and all agricultural tenants were given permanent, heritable and transferable rights in their lands. They were entitled to use the land in any way they liked. They were to pay rent direct to the Government and the amount of rent was in no case to exceed $\frac{1}{10}$ of the value of the annual gross produce. Thus direct relation was established between Government and the majority of the people and the tillers of the soil became also its real proprietors.

Current revenue demand for the district for the year 1960-61 is Rs. 31,79,379 while that before Estate Acquisition in 1950-51 was Rs. 12,11,793.

CHAPTER II

PEOPLE AND THEIR ENVIRONMENT.

2.1 POPULATION

The total population enumerated in 1961 Census was 23,83,145 out of which 12,07,964 were males and 11,75,181 females. The population enumerated in 1951 Census was 20,73,380 out of which 10,86,954 were males and 9,86,426 females. The percentage increase during the 10 years between 1951 and 1961 works out to 15 ; the percentage of increase amongst the males 11 while those of females being 19. The subjoined table indicates the population growth in the district for the period from 1901 to 1961 :—

TOTAL POPULATION AND VARIATION
From 1901—1961

	1901	1911	1921	1931	1941	1951	1961
Population	11,42,912	13,03,441	14,72,786	17,06,719	22,17,402	20,73,380	23,83,415
Increase/ decrease of population over preceding Census	—	1,60,529	1,69,345	2,33,933	5,10,683	1,44,022	3,09,765
Percentage of increase / decrease over preceding Census	—	14.0	12.9	15.8	29.9	6.4	15

(1) Population figures for 1951 and 1961 exclude Non-Pakistanis.
(2) Adjusted to apply to present boundaries wherever necessary.

2.2 DENSITY

The average density of population per square mile in the district works out to 1,285 ; excluding large estuaries the density goes up to 1486 per sq. mile. The position of th edistrict in order of population is 14th in Pakistan and 11th in East Pakistan. In order of density the district stands 4th in Pakistan and 3rd in East Pakistan.

Due to the heavy density of population in this district the pressure of population on land is very high. As a result there had been some migrations from this district to other districts of East Pakistan. A good number of inhabitants of this district can be found all over the world particularly as sailors. Colony of Noakhali people has sprung up in far off places like London and Saudi Arabia.

2.3 URBAN/RURAL POPULATION

The urban/rural distribution of the population is indicated below :—

	1961	1951	Percentage 1961
Total	23,83,145	20,73,380	100
Rural	23,48,909	20,51,72	99
Urban	34,236	21,628	1

Note :—Population figures for 1951 have been adjusted due to transfer of some areas from Noakhali district to Chittagong district.

The area classified as urban in the district in the 1961 Census were :—Noakhali Municipality, Chowmohani Town, and Feni Municipality. In respect of urbanisation the district has registered an increase of 58 percent over the decenial period, which shows the extent of mobility of the population.

2.4. LANGUAGES :—The principal mother tongue of the district is Bengali. The other important languages spoken in the district are Urdu & English. The percentage of people speaking different languages in the district is indicated in the table given below :—

Name of Language	Both Sexes	Males	Females	Percentage
1. Bengali	23,82,800	12,07,771	11,75,029	99.98
2. Urdu	2,420	19,627	793	.86
3. English	19,631	17,525	2106	.82

2.5. LITERACY AND LEVELS OF EDUCATION

The number of literates recorded in the 1961 Census is 4,80,490 out of which 3,60,349 are males and 1,20,141 females which gives an over-all percentage of 20.16. Considering the literacy figures by sex, the percentage of literacy amongst males is 29. 83 and females 10.22.

The position of the district in respect of literacy in Pakistan is 10th and in East Pakistan 5th.

The educational level of the literate section of the population is further analysed below :—

	Both Sexes	Males	Females
1. Post Graduates	297	293	4
2. Graduates	1084	1069	15
3. Under-graduates	1910	1860	50
4. Matriculates	12707	12,456	251
5. Primary Passed	36,313	28507	7806
6. Below Primary	287,370	203,796	83,574
8. No Formal Education	67,673	43971	23,702

The number of persons holding degrees or diplomas in technical and professional education is given below :

	Education	Medicine	Engineering	Law	Agriculture	Commerce	Other Professions
1. Persons holding Certificates	2967	339	122	—	70	—	—
2. Persons holding Diplomas and Professional Degrees.	294	93	33	116	19	27	39

2.6 ETHONOGRAPHY, RACES AND TRIBES—PHYSICAL AND MENTAL CHARACTERISTICS

There is no tribal population in the district. Some of the Muslims who form the great majority claim their origin to Arab settlers who came by sea to this coastal district after they had established their commercial settlement at Chittagong, and some to Pathan and Moghul settlers who came to this part of the country while it was under Moghul Empire and Pathan Rulers of Bengal. The Hindus belong mostly to the trading classes, like Shahas and craftsmen like Jugies (weavers) and Kumers (Potters) and low classes like Namasudras and Koibortas (Fishermen). The Christians are mostly local converts, some of whom claim descent from the Portuguese settlers. There are a few Budhists whose origin is not known.

The people in general are of medium built with dark hair, black eyes and dark brown complexion. Muslims generally keep beard and it is highly unlikely to see a Muslim past his middle age without a respectable tuft of beard. The people are highly enterprising, adventurous and resourceful with plenty of drive and initiative and are ready to work anywhere at anytime for a decent wage. They make excellent seamen who roam the seven seas as deck, engine and cabin crews. The district has also provided a considerable proportion of industrial labour in and around Chittagong, Dacca and Khulna.

2.7. DRESS

The Muslims generally put on Lungi or Paijama and Shirt with cap as a head-dress. Lungi is by far the most common dress. A cotton vest or shirt is worn when going to market or visiting others. A white cotton cap is an inseparable item of a Muslim's dress and an adult Muslim is seen to wear it even when working in the field. The Hindu males do not wear any head dress and generally use Dhuti instead of Lungi and Paijama. Since Independence many educated Hindus have started wearing Paijamas and Lungis and they also dress their girls in Salwar and Kamiz. The working dress is shorter, being generally up to the knee from waist. On the occasion of festivals all classes of people try to put on better dress and well-to-do Muslims bring out their Sherwani and Jinnah cap. The Mullahs, Moulvis and Imams of mosques wear a big turban on Fridays and cremonial occasions. The Moulvis, the Madrassah students and elderly people with a religious bent of mind usually wear their collarless shirt long reaching far down the knee, sometimes a few inches above the ankle. Both the Muslim and Hindu women wear Sari, but the poorer classes prefer coloured ones, generally dark blue or green which do not easily show up the dirt from the damp earth vegetation and thus save them the trouble and expense of frequent washing. The middle-class children generally wear half pants, shirts and frocks. As winter is mild, warm clothing is a middle-class luxury. The common man makes do with cotton shawls. Shoes are worn by few; wooden sandals are common footwear in every home. In the rural areas children are scantily dressed. The women generally wear silver and glass bangles and sometimes cheap artificial jewellery but richer classes use gold ornaments which consist of ear-rings, chooris, necklace, bangles and various other pieces.

2.8. DWELLING HOUSE

The dwelling houses in a village are not clustered together at a particular site, but are isolated from each other by cultivated fields or orchards. In a homestead, dwelling houses are grouped round a courtyard and there are separate ponds and latrines for the use of male and female members. The houses are generally surrounded by orchards of betelnut and cocoanut palms, intermingled with fire wood, timber and mango trees. There is some outer yard in each homstead, where a guest house, called "Katchari Ghar" is put up to receive visitors and to put up guests. The cow-shed is kept on one side of this outer-yard and, in most cases, the family graveyard is also located somewhere adjoining the outer-yard. The huts have a sloping cottage type roofs which are largely thatched. Well-to-do people use C.I. sheets for roofing. The walls are generally of bamboo matting without much opening for window. Pucca or brickbuilthouses are very rare and only the rich can afford it. The roof of the poor people's houses are thachted and the wall are of dried jute sticks.

Rich or poor, the people have a taste for keeping their dwelling houses neat and clean.

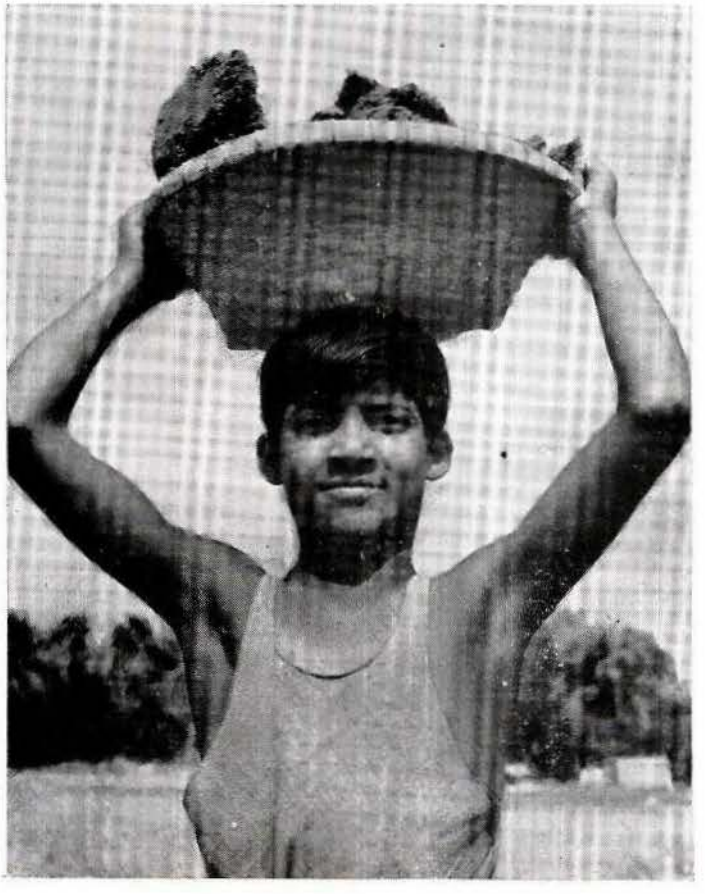

Girls in festive dress, Noakhali.

A village girl

A mother with her boy.

A village boy at work, Noakhali

In the yard and the open land around the house hibiscus crotons and other flowering plants lend charm and beauty to the surrounding. Inside the dwelling houses they have sometimes fine cane work of artistic designs for docoration. From the side beams of the dwelling rooms are, generally, hung net-like contrivances called "Sikka" which being generally multi-coloured, serve as decoration of some sort, and are very useful as hanging shelves for domestic articles and cooking utensils as well as quilts, rugs, pillows, etc. of the household. The 'Sikkas' are made of jute fibres by the female folk of the family. Small 'Sikkas' made of fine multi-coloured cotton yarn are used as shelves for oil and spice bottles and also as pieces of interior decoration

2.9. FOOD AND HEALTH

Rice is the staple food of the people and the dish commonly accompanying a bowl of rice is prepared of fish, vegetables and pulses. Milk, fowl and egg are occasionally taken as and when available from family stock. Beef and mutton are becoming popular in recent years and are purchased from the regular weekly hats and bazars. For the poorest sweet potatoes sometimes serve as substitute for rice. Jack fruits, molasses, and dry cocoanut meal are very popular with hardworking field workers. Hindus hardly take any meat but some like the taste of carb. Polao, Korma, Kalia, Shami Kabab, Kopta, roast, curds, sweets, are the luxury food of the richer classes of Muslims generally. Of late different varieties of preparation of atta and flour also have become popular breakfast item with all classes of people.

The general health of the people is good Malaria is hardly any problem in this district, but due to bad drinking water dysentry, diarrhoea, typhoid are common diseases and occasional cholera and small-pox epedemics take toll of human lives.

2.10. BETROTHAL AND MARRIAGE

The people are generally monogamous, Muslims regard marriage as a very sacred obligation and a part of religion. When girls attain the age of 12 and boys of 18 their parents grow anxious for giving them away in marriage. Muslim marriage is solemnised according to the Shariat Law. The marriage is negotiated by the parents with the help of some match-maker and courtship in the Western sense is wholly unknown. It is the boy's father who looks about for a suitable bride in his social circle usually not too far distant from his locality. When the match-maker succeeds in narrowing the likely choice to one, a meeting is arranged between the parents and relatives of the boy and girl for a preliminary discussion called 'Panchini' or' Fard' for settling the terms for marriage. In this ceremony the important items to be fixed are the dowyr, the gifts and the date of marriage. Very seldom a marriage once arranged in this manner is broken off or fails to take place. On the day of the marriage the boy goes to the girl's house with his parents, relatives and friends. Amongst the well-to-do and upper classes of Muslims the reception of the bridegroom's party is sometimes arranged on a grandoise scale. The bridal party is accompanied by well-dressed "Barkhandaz" and "Paiks" (footmen and messenger). They are received by a similar party from the bride's side a quarter mile or so from the bride's house. These little 'armies' of 'Barkhandaz' and 'Paiks' carry decorated spears, long bamboo staffs, festoons and garlands in the fashion of opposing forces. They raise slogans and counter-slogans declaring the virtues, power and glory of their respective patrons Finally, dancing, shouting and merry-making the

bridal party is led into the bride's house gaily decorated, for the occasion and entertained to a sumptuous feast. Such extravaganzas are however becoming a thing of the past due to economic distress and the abolition of "Zamindars". The feast are still there as a social obligation and more often than not leaves behind them a long train of debt and ruined families. The 'Status symbol' on such ocasions is the number of cows slaughtered for feeding the guests.

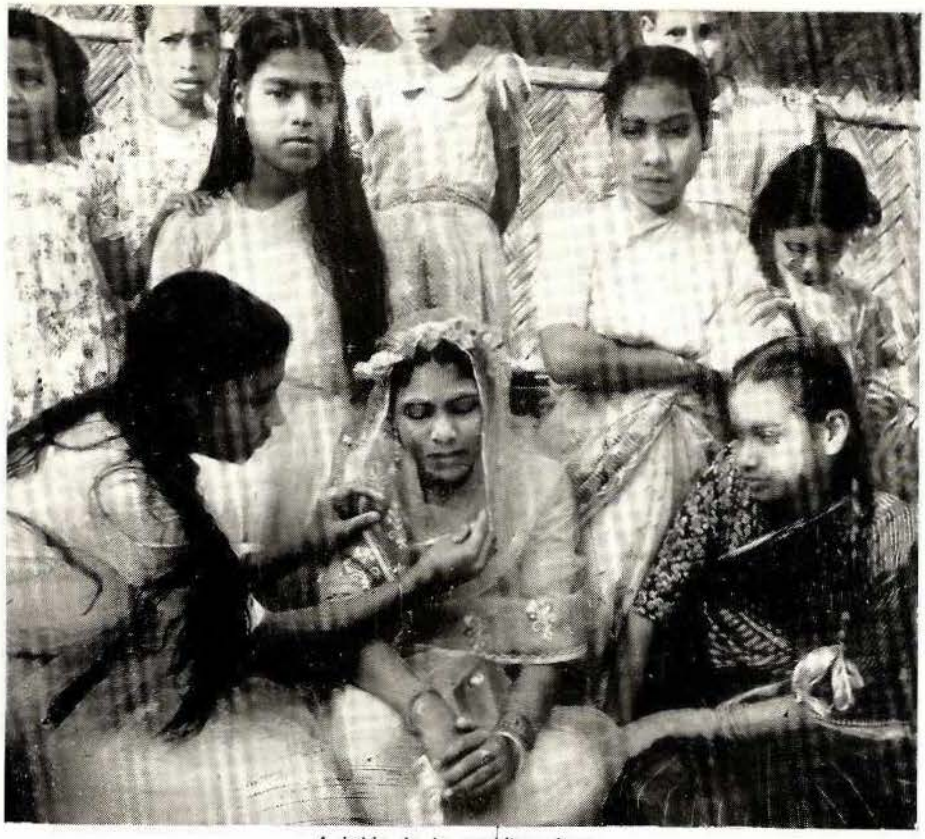

The normal time for a marriage party or 'Barat' to arrive at the bride's house is after dusk. Sometimes the boy's party is not received all at once by the bride's party but is made to wait quite a distance from their house and pass a good portion of the night "dozing off". This ancient custom is known in Noakhali dialect as "Jhurani". This is supposed to soften up the bridegroom by giving him a lesson in patience and a fair test of the treatmenthe is likely to receive at the hands of his better-half if he does not behave properly. These preliminaries over, the marriage is solemnised after recitations from the Holy Quran and the boy returns to his house with his bride next morning. The expenses of marriage fall heavily on the bridegroom to be more exact, on his parents. Besides looking after himself and the Walima feast in his house on return, he has to pay for the wedding dress and the jewellery of the bride. Mohar or dowry to the bride is fixed according to social standing of the parties concerned and it ranges from a couple of hundred rupees to about 25,000 in the case of rich persons. Dowry system prevalent amongst the Hindus in the shape of cash and kind as an obligatory payment to the bridegroom is making itself menacingly felt among the well-to-do and educated sections of the Muslim society. Divorce is not entirely uncommon and its incidence is greater amongst the poorer section of the people. The exercise of this right, however, is no longer the monopoly of the Muslim husbands only. Polygamy is not uncommon but even in such cases more than two wives are hardly ever come across.

Hindu marriages in the like manner are an arranged affair where the boy and the girl have very little say. As already stated one important consideration in the marriage of a Hindu girl is the amount of dowry she can bring. The marriage ceremony is performed in the bride's house and a Hindu wedding is a sacred religious rite where the bride and the groom go round the sacred fire seven times and utter their marriage vows in Sanskrit. A Hindu wedding is attended with local native bands consisting of **dholak,** cymbols, pipes, flutes, etc. making a great deal of noise and show.

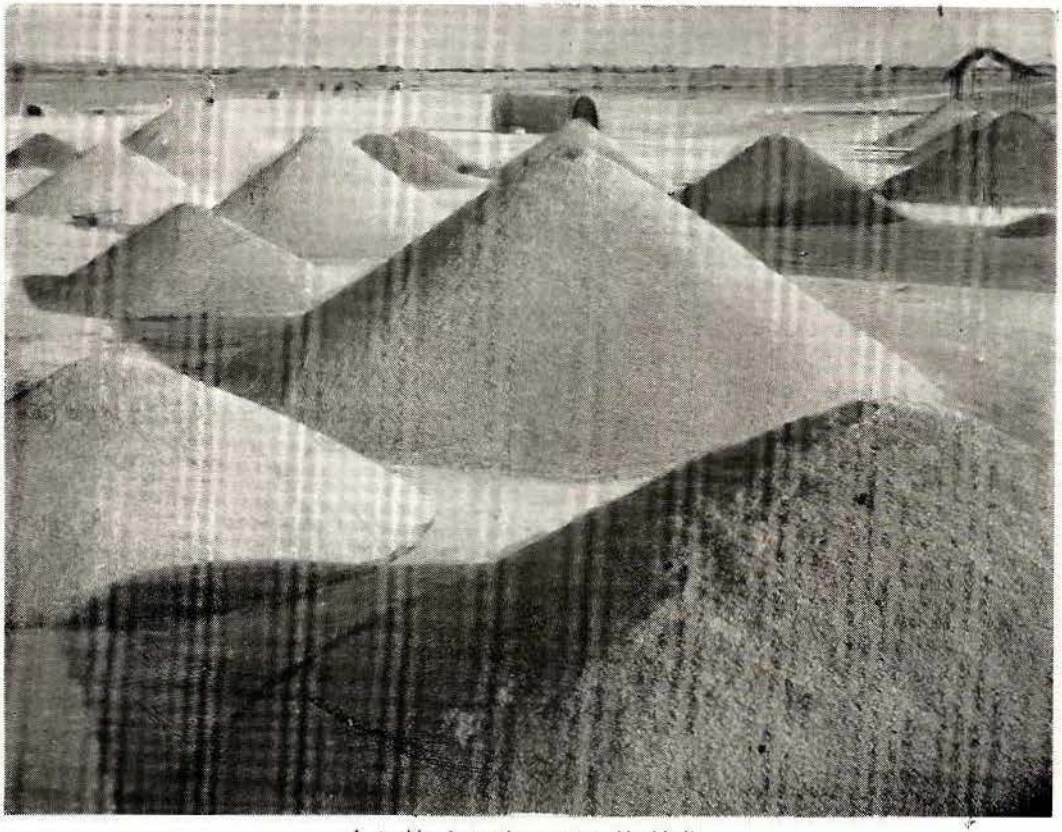

2.11 BIRTHS AND DEATHS :—

Births are still unrestricted in a normal sense. But due to financial difficulties, marriages are somewhat delayed, and large number of people of this district having to live away from home for jobs elsewhere, do not beget children so frequently. In Muslim families 'Aquika' ceremony is performed on the seventh or 21st day of child birth by sacrificing goats (one for a girl, two for a boy). On this occasion the child is given a formal Arabic name after consultation with Mullahs or Moulvis.

Death is regarded as an inevitable act of God and Muslims are enjoined not to cry loudly over the death of a friend or relation. Muslims bury their dead with all religious ceremonies and prayers and a feast is given on the fortieth day for the peace of the departed soul. Hindus burn their dead and observe 'Sradh' ceremony after a few days. The 'Jagi' or weaver class amongst the Hindu, sometimes bury their dead.

A bride is in wedding dress.

A paddy importing centre Noakhali.

2.12. RELIGION

The overwhelming majority of inhabitants are Muslims. "The district Gazetter observes that generally, the Muslims were more enterprising in the field of agriculture than their Hindu neighbours and were quick to take up the reclamation of new alluvial formations and therefore, pre-dominated most of the islands and the areas along the shore". The people of Noakhali (Muslims and Hindus) are generally God-fearing and essentially religious. Muslims are almost all Sunnis of Hanafi School. About the middle of the last century they came under the influence of reforming Mujahid named Moulvi Imamuddin. Due to his influence a large number of Muslims of this district became 'Farazi' who abhorred all innovations (Bidaat) and the adoration of the saints was regarded as 'Shirk' (partneraship of God.) The influence of Moulana Karamat Ali in the reorientation and rejuvenation of religious thoughts and beliefs and performances of Noakhali Muslims has beenprofound and lasting. Moulana Keramat Ali taught the Muslims the essence of Islam and the country side was swept with an urge for practising in every day life what Islam stood for. People found in his teachings the true values of Islam and rallied round his banner for self-less service to the humanity Each household became a stronghold of Islamic culture and prayers, fasting, Zakat and Haj were made the pillars of their activities. He died at Munshipara Mohalla of Rangpur town on 30th may 1870, Traditionally, therefore, religion plays a very important part in the conduct and behaviour of the Muslims of Noakhali and is a very real thing to them. Prayers are punctually offered by most of them at the appointed times. Every village has its own mosque and it is rarely that one can find a grown up adult not responding the call of prayers (the Azan). It is considered a great act of piety to contribute handsomely to the construction of new mosques and to the maintenance of old ones. In every household the holy Quran is read in the morning by those members who can read Arabic and whenever there is a religious lecture in the neighbourhood people walk miles to attend the function leaving aside all their earthly pursuits. Even little children invariably greet passerby, relation or elder in the true Islamic manner saying" Assalamo Alaikum". Moulvis and Hafizes (those who have committed the Quran by heart) form a veryl arge section of the community and they run a number of private Madrassas (schools for religious learning). Noakhali Moulvis proudly claim to have kept the banner of Islamic learning flying in all corners of the province for generations. Before Independence a large number of them went for higher religious learning to ancient cities of learning like Daoband, Jhonpur (U.P., India) as well as to the famous Al-Azhar University of Cairo. Pilgrimage to Mecca is an ambition of every Muslim of the district and each year the contingent from Noakhali is fairly large.

2.13. CUSTOMS AND USAGES

After the harvest of paddy, no one will take the new rice without offering a sweet preparation (payas or khir) of that rice to Mosque or Darga by the Muslims, and to deities by the Hindus. Similarly, milk of a new cow is not taken by the family before it is given to some holy man or to some shrine.

As usual, 'Mazar-Zeyarat' (visit to a Holy shrine), 'akika' and 'circumcision' are in vogue among the Muslims throughout the district.

mong the Hindus 'Annaprasan', which is the first feeding of a baby with rice, takes place at about the age of 6 to 9 months of the baby.

Until recently music in any form vocal, instrumental or orchestral was strictly forbidden in a Muslim house or a social gathering. The impact of the Second World War which fell heavily on this district which was an important war front has been felt heavily and the events that followed no doubt made some chinks in this impenetrable religious armour. Cinema houses, orchestral and vocal music have of late made their appearance in the few urban localities of the district. But they are still forbidden arts and their devotees are none too well received in the conservative societies for that matter Long before Independence when perhaps the whole of Bengal wore Dhoties as festival dress it was in Noakhali (as also in Chittagong) that not a single respectable Muslim would even have thought of wearing a Dhoti. The dress of a male was strictly a **Paijama** or **Lungi** with a collarless shirt. The hair was never kept long but cropped short in front. If it was kept long at all it was in the fashion of 'Babbri', hanging in locks at the back Dancing in any form was a dead taboo. The only type of music that could be heard ringing out from the fields was the high-pitched songs sung in chorus by a row of workers transplanting seedlings in knee deep water. The other form of music which is not oconsidered music by the 'old guards' is the sonorous drawl of the Punthi readers. Punthi has been and still is the literary form in which a village poet writes about local problems, historic events and the great romances past and present. The Punthi is liked and patronized widely. As a matter of fact, Punthi is so popular that one can see large groups of people avidly. hearing Punthi recitations in street corners on busy market days. There is of course music on festive occasions particularly on wedding days. Amongst the Muslims this is confined to women folk who sing witty, stimulating and insinuating songs mostly related to the union of two young hearts. It is, however, enjoined by the elders that the songs thus sung must not be heard by the male folk and the voices must be controlled not to penetrate to the outer-yards.

There is however one form of music which is not generally frowned upon even by the orthodox society. These are the "Murshadya" or "Fakiri" which are devotional songs dedicated to the praise of the all-powerful, benevolent and merciful God. A sect of "Dar vish-e:" who are devotees of the shrine of "Maizbhandar" in Chittagong also love to sing spiritual songs occasionally accompanied with ritual dances called "Halqa".

Music is, however, a part of the religious observances of the Hindus. Their "Pujas" will be incomplete without the right kind of music and one can hear the incessant clanging of bells and cymbals morning and evening, while prayers are being offered by Hindus in their big temples. The rural itinerant theatrical parties known as "Yatras" composed entirely of male actors provide perhaps the only entertainment in the rural areas. The audiences are pre-dominently Hindus but younger sections of the Muslims a'so occasionally join in to the great annoyance of the elders.

Religion has also played its part in the sphere of sports and games. Strong views were held until lately about the position of games and sports in an Islamic society. All organized games like foot-ball, cricket, Ha dudu etc. not to speak of indoor games like cards and **shatranj** were held to be against the teachings of Islam. Gradually, however, after years of controversy the outdoor games have been more or less accepted as healthy recreations for the young people.

Religion conditions the life of a Muslim from his early childhood to his last days. Education begins only with 'Sabaq' i.e. "first

instruction" in the Quran. The boy after 12 is obliged to follow his father to the mosque to say his daily prayers. They must also conform in every way to the interpretation of Islam given by the elders in society led by the local Moulvi or Moulana. This has deeply imbued the Noakhali Muslim with the higher values of life and made him generally conscious of his obligations to his neighbours and to the humanity at large. Islam has given him the inspiration to respect himself, to be enterprising, self-reliant and to stand by his fellow men in time of need. The impact of Western civilization has not failed to make it felt on the lives of Noakhali Muslims too; Whether Western educated or Madrasa educated he is standing on the cross-roads and as seen today the culture of Noakhali is bound to be a synthesis of all that is best in Islam interpretated in the light of his present and future requirements.

The observance of Purdah by Muslim women of Noakhali is undoubtedly one of the strictest in the Indo-Pakistan sub-continent. Only a few years ago it was unthinkable to see a woman of any respectability coming out into the open before any male. Those in the higher strata of society would not even allow their woman folk to come out in Burqa (veil). It was common to see women being led to a railway compartment with a mosquito-net being held over her head as a complete protection from male gaze. The barriers of such rigid Purdah have broken down considerably amongst the educated. It is significant that although Noakhali is amongst the leaders in male literacy, female literacy and education lag far behind. Purdah is still observed more or less rigidly amongst common people and a poor Muslim woman who is forced by circumstances to come and walk on a village road holds up an open umbrella in front of her as protection from the inquisitive eyes of other passers-by.

2.16. FESTIVALS, FAIRS, MELAS ETC.

Shab-e-barat, Id-ul-Fitr and Id-ul-Azha are performed by the Muslims, irrespective of age or sex with great pomp and solemnity. They are at their best, as regards food and dress, on these occasions so also is the case with the Hindus on the occasion of Durga and Swaraswati Pujas. Winter in Noakhali is a season of Melas and fairs which are held in Dudmukha under companyganj P.S., Maijdee under Sudharam P.S., Kanchanpur, Shampur, Kachua under Ramganj P.S. Nandanpur under Lakshmipur P.S. on the occasion of 'Urs' in the respective shrines. Birth anniversary at Maijdee and death anniversary at Chawmuhani of Sri Sri Ram Thakur are observed with great pomp and grandeur by the Hindus every year, attended with fairs and **melas.**

2.17 ARTS AND HANDICRAFTS

Pati and **chati** (fine and coarse reed mats) making, Bamboo-matting, potteries and earthen idols by the Hindus, are the most important handicrafts of the district. In the field of arts beautiful engravings of Quaranic verses in the mosques are not uncommon. Calligraphy both in Arabic and Bengali characters was developed to some extent during the nineteenth and early twentieth centuries. Fine specimens of Arabic calligraphy may be found in the handsomely bound Quran Sharip and old Persian and Arabic classics still preserved with care in ancient families. The notable instances of Bangali Calligraphy may be seen in some of the classical **Punthis**. Though not structly falling within the category of formal calligraphy, the neat, even and delicately executed hand working in some of the old documents bear evidence of rare merit as pieces of art.

2.18 PERSONALITIES

(a) Moulana Keramat Ali

Maulana Keramat Ali, a great preacher of Islam was born on 18th Muharram, 1215 Hijira corresponding to 1795 A.D. in Jaunpur (U.P.) in India. He came to Bengal at the age of 25 and preached Islam in Bengal, Bihar and Assam provinces up to his 50th year. His powerful preaching in these provinces including U.P. had tremendous appeal to the people thereof and he was responsible for establishing many mosques and madrassas. He came to Noakhali in the middle of his career and made this district the centre of his preaching activities. He died in Munshipara mahalla of Rangpur town of East Pakistan on 30th May, 1870 A.D. Khankaye Keramatia building in memory of the Maulana still stands in that Mahalla where annual celebration takes place on the occasion of the Fateha Doaj Daham. He was a great scholar and wrote more than 40 books on religion. His father Velayet Ali brought him up in the Wahabi tradition. Later he gave himself out as belonging to the "Reformed Hanafi School" and held that the reading of the Jumma and I'd prayers in this country was lawful.

The Maulana married his fourth wife in Lakshmipur P.S. in a family known as Diara Bari of Noakhali district and his decendants through this wife are still living at village Sanu close east to Bajra Railway Station, Begumganj P.S. District Noakhali. His 3 grandsons Moulana Wali Uddin, Maulana Abdul Jaher and Maulana Baker Ahmed are still alive. Their dwelling houses consist of 2 nice pucca buildings and other tin sheds including a prayer house and a Madrasa within the homestead promise Moulana Karamat Ali during his sojourn in Noakhali district used to live at his father-in-law's house at Lakshmipur and sometimes lived in a **bajra** (big boat) with his family.

(b) Pagla Mian

He was a well-known Fakir and may be said to be the patron saint of Feni. It is said that about a century ago when Mr. Nabin Chandra Sen, the famous poet, was the Sub-Divisional Officer of Feni, Pagla Mian, as his name implies, used to go about doing things which were considered by the ordinary people as madness. Mr. Sen, however, found in his actions and doings the evidence of spiritual greatness and treated him with respect and courtesy. In his biography Mr. Sen describes interesting events of his association with Pagla Mian. After the death of the saint his mazar came to be widely respected and every year thousands of people visit the Dargah.

CHAPTER III

IMPORTANT PLACES

3.1 BAJRA

This is a village within Begumganj Thana about 6 miles to the north-west from Begumganj connected by a kutcha road open to wheeled traffic throughout the year. It is also connected by the rail and there is a railway station at Bajra. The importance of the village lies in the fact that it is considered to be the first spot in the district where Muslim divines came for preaching Islam in about the 15th Century. There is a mosque built, it is said, by archietects sent from Delhi by the then Muslim emperor at the request of the preacher. The design and architecture of the mosque is significant in that it is claimed to be the only mosque in East Pakistan designed and constructed on the model of those commonly found around Delhi in the early Muslim period. There are also few mazars (graves) of Muslim saints who had come to this place for the purpose of preaching Islam. The place is held in high respect and it attracts visitors from far and near every year.

3.2 AMISHAPARA

Famed for its antiquity, Amishapara is connected by a kutcha road with Bajra to the east. Where Bishwambar Sur son of Raja Adi Sur, king of Mithila established his capital and founded a temple for the worship of Barahi Devi containing a stone image of that goddess. The temple is the oldest structure in the district and feeble from ages According to legend Biswambhar Sur while returning from a pilgrimage to Candranath through Noakhali saw goddess Barahi who promised him power and glory if he would worship her. The Raja obliged and built the temple for the worship of the Devi.

3.3 CHHAGALNAYA

It is about 9 miles from Feni, the Sub-divisional town to the east on Chittagong-Dacca Grand Trunk Road. It is a Thana Headquarter now and has many other public instituions. It has magnificient panoranic view of the Tripura Hills which lie close to the east and north-east. Historically also it has its importance being at one time the headquarters of Shamsher Ghazi renowned and valiant son of this district, who founded a principality by curving out a part of present Tripura State in India and parts of several parganas now in Noakhali district.

3.4 CHOWMUHANI

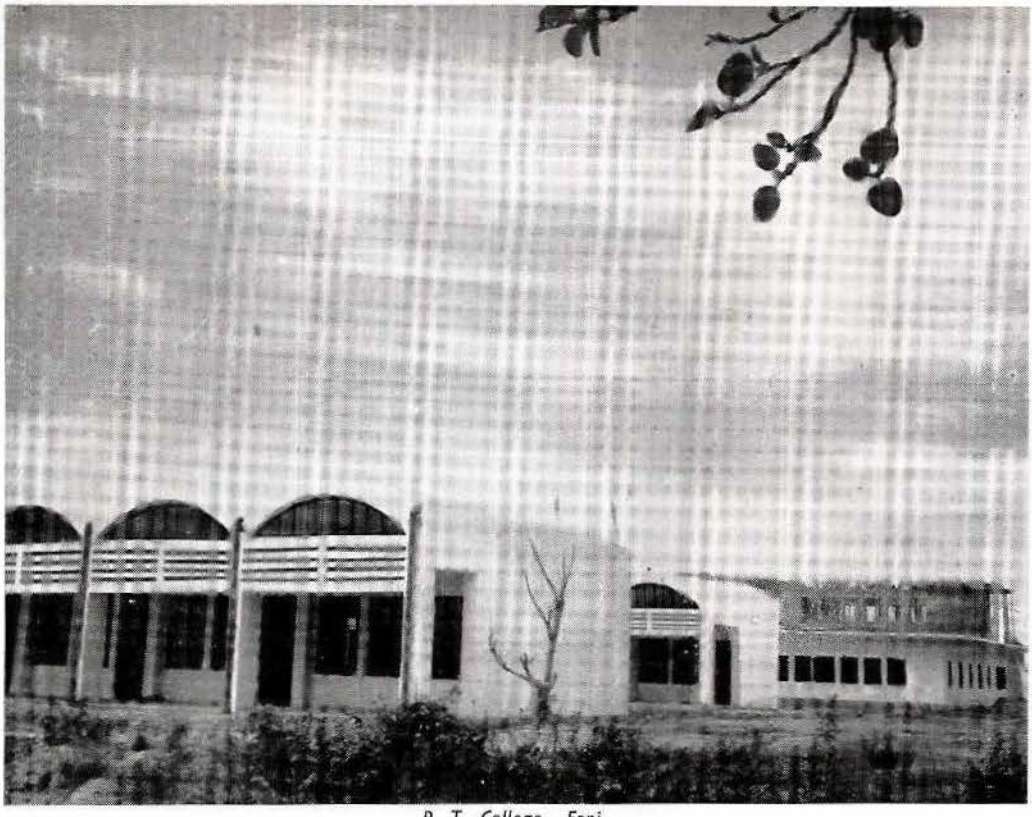

This is the biggest flourishing trading centre of the district. It is on the rail head and connected by metalled road with Maijdee, the district headquarters, Feni and Chandpur, an inland port of considerable importance in the district of Comilla. It has a first Grade College and several other educational institutions. Several big industries are growing up at this place. Supplies of essential commodities and daily necessaries to western part of Noakhali district are made from here. It has beautiful mosques and temples. It has an **Asram** of a famous Hindu saint Ram Thakur where thousands of people from almost all over parts of East Pakistan and elsewhere assemble once a year during the celebration of the birth anniversary of the said saint. It is significant that this Hindu saint was not cremated but was buried at this place.

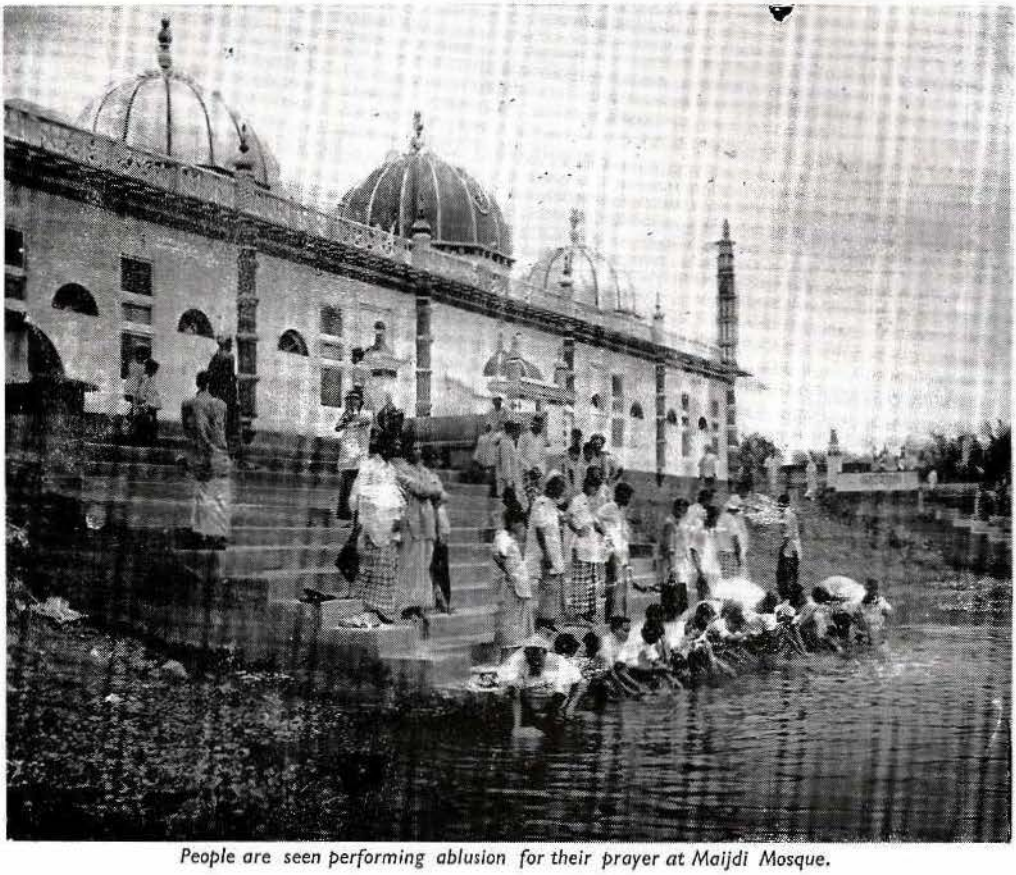

Mosque at Bazra.

Feni High School.

P. T. College, Feni

People are seen performing ablusion for their prayer at Maijdi Mosque.

3.5 LAKSHMIPUR

It is about 21 miles to the west of Chowmuhani on Chandpur-Chowmuhani high-way. It is a flourishing trading centre next in importance to Chowmuhani. Sales of betelnuts and cocoanuts worth several lakhs of rupees are transacted here annually. At present, it is a Thana headquarter with several educational institutions, such as High Schools for boys and girls, P.T. Institute, charitable dispensary, District Council Dak Bungalow etc. Construction of a Rural Health Centre at this place is in progress. Lakshmipur is connected with the Meghna by a channel, which facilitates transport of merchandise from the neighbouring trading centres of Comilla, Barisal and Chittagong districts. Being situated near the coastal belt of the district not far from the mouth of the Meghna and noted **char** area, the place presents a scenic beauty which attracts large number of visitors.

3.6. BHOWANIGANJ.

It is 5 miles to the south of Lakshmipur. This is the only place which connects Noakhali with Barisal by motor launch service. Formerly it was an important steamer station on the Barisal-Chittagong route as it then stood right on the Meghna. Now the Meghna has receded far from Bhowaniganj resulting in the formation of vast tracts of land to the south connecting Ramgati formerly an island with the main land of Noakhali Sadar Sub-division. It has an E.P. WAPDA Rest House and a Bazar and few educational institutions. The scenic beauty of this place is so attractive that visitors to Noakhali do not like to leave without paying visit to Bhowaniganj. The dam across the Meghna and the vast tracts of land to the south add to its beauty. Before the advent of the rail and metalled roads Bhowaniganj used to be the most important trading centre of the district.

3.7 RAMGATI

Once an island at the mouth of the Meghna it is about 18 miles to the south of Lakshmipur connected by a kutcha road. It was one of the two important islands of the district in the past. At present Ramgati is part of the main land as the Meghna has shifted its course throwing up vast tracts of sandbanks connecting Ramgati with the mainland. This place is noted for palm **gur** (malasses) and paddy. It has a Thana Headquarter with several public institutions like High Schools, dispensary, Dak Bungalow and Bazar. It is almost on the estuary of the Meghna and is noted for its fish trade. The southern and western part of Ramgati presents a magnificient view of lush green date palms and cocoanuts edged by a vast expanse of water of the Meghna estuary. It can be developed as an important and attractive tourists' resort with little expense. The Badamia Ghat whərefrom one has to take boats for going over to Hatiya, the only island of importance in the district is only a mile's distance from Ramgati.

3.8 HATIYA

This is the only island of Noakhali district of considerable importance because of its size and location in the Bay of Bengal. The embankments constructed around Hatiya by E. P. WAPDA has added to the economic welfare of the place. The lush green island with cocoanuts and date palms presents a magnificient and attractive scenic beauty. There are several kutcha roads through out the length and breadth of this island over which vehicles can ply. There are several spots in the island which can be developed as tourists' resort with little effort. The island is noted for its big output of paddy, fish and palm **gur**. Hatiya township is at present a Thana headquarter and has a Munsif's

and a Magistate's Court. It has also several public institutions like Model High School, Orphanage, Government food godowns, and EPWAPDA establishments.

3.9 COMPANYGANJ

This is to the south-west of Feni. Once it was an important steamer station on Barisal-Chittagong route. As the Meghna receded further south leaving sandbanks between Sandwip and Companyganj, the place has lost its importance as an inland port. The very name of the place indicates that it was established as a **Ganj** during the rule of British East India Company. Sea going vessels, it is learnt, used to call at this inland port in the past for export of salt which was manufactured in large quantities in this district. The vast expanse of land to the south fringed by cocoanut, date and palm trees make it an attractive place for tourists, particularly in view of its proximity to the confluence of the two rivers viz. Bara Feni and Chhuta Feni. This is a Thana headquarter at present with many other public institutions like High Schools for both boys and girls, Dak Bungalow dispensary and Thana level offices of Government. It is only 6 miles by a kutcha road from Daganbhuiyan which is on the main pucca road from Feni to Maijdi. It is noted for its large contribution to the strength of different merchant navies of the world as Serang, and Sukanies, Tendal (Deck and Engine crews) as well as cabin crews and other laskars.

3.10 MIRA SHAHEB'S DARGAH AT KANCHANPUR, BEGUMGANJ P.S.

Mira Shaheb is said to have come to this place about 800 years ago. According to traditions, Mira Shaheb feeling thirsty asked for drinking water. Some one gave him green cocoanut water to drink. Through his blessings Kanchanpur has become one of the biggest producers of cocoanuts which are justly famous for their size and sweetness.

3.11 BASIKPUR

This village in Lakshmipur Thana is reputed to be biggest stronghold of the Arabic educated Maulvis and Maulanas. It is claimed that there are over one thousand such divines still living in this village.

3.12 DIGHIES

Bijoy Singh Dighi near Feni town is famous for its high banks while Kaiara Dighi in Chhagalnaiya thana is famous for its clear transparent water. Khoasagar Dighi at Dalalbazar in Lakshmipur thana is said to be the biggest dighi in the district.

3.13 DALAL BAZAR

It is in Lakshmipur Thana and was the stronghold of big Hindu Zamindars till recently. Several fine buildings, temples and tanks testify to their wealth and artistic tastes. It was an important place during heydays of indigo cultivation when the ancestors of the Zamindars served as dalals or brokers and middlemen of the British indigo-planters.

CHAPTER IV

NOAKHALI TOWN

4.1 AREA OF THE TOWN WITH BOUNDARIES

The old town at Sudharam having been washed away by the Meghna river, the new town was shifted on a temporary basis to Maijdee Court which is about 4 miles from the old washed away town. The new town with the surroundings has been formed into a Municipality having an area of 3½ sq. miles.

On the south of the new Municipal town is the vast char (sandy) areas, formed by the recession of the Meghna river in recent years.

On the east, the main boundary is the Pakistan Eastern Railway line, and on the west the boundary is more or less the C & B road and on the north area some villages, mainly lying outside the Maijdee Railway Station Road.

Total population of this town is 19,745 (males-10, 998 and females-8747).

4.2 CLIMATE

The climate is generally fair from the middle of November to middle of February. The place is visited by the thunder squalls which generally come from north-west or north, occasionally reaching a speed of 40 to 60 miles per hour during the months of March to June, storms which form in the Bay of Bengal in the month of May, June and October strike the costal areas some of them with violent force accompanied by the tidal bore.

The temperature is moderate, the average varies from 77° to 80°F. The annual range of temperature or the differences between average of the warmest and the coollect months is usually less than 15° F. Daily range of temperature in winter month is usually15° to 20° F. Daily range of temperature in summer months varies between 7° and 12° F. Mean maximum temperature does not exceed 90' F. and mean minimum is 57° F. Humidity is very high. The rainfall is very heavy, the annual average being 115 inches. Much of the rainfall is received in the month from June to September.

4.3 EDUCATION

About 36% of the people living in the town are literate. The general level of education of the adult males is Matriculation in English and Degree standard in Arabic. There are six high schools and one madrassah, but no college in the town.

4.4 MEANS OF TRANSPORATION

Noakhali-Begumganj C & B road is the main road passing through the town. Bus, auto-rickshaw and bullock carts are available for transportation in this town.

4.5 HOSPITAL, PARK, HOTEL etc.

There are one hospital, one veterinary hospital, 2 parks, 31 hotels, 142 restaurants and one town hall.

4.6 OFFICE

There are Government Offices such as Deputy Commissioner's Office, Superintendent of Polices Office, Treasury, Jail, Sub-Divisional Officer's Office, Civil Surgeon's Office, District Inspector of Schools' Office, District Controller of Food's Office, Executive Engineer and the EPWAPDA's Office,

District Public Relations Office, Agriculture Office, District Animal Husbandry and the District and Sub-Divisional Ansars Offices situated in the Town area. District Council and the Municipal Offices are the Semi-Government Offices.

4.7 SHOPPING CENTRES AND LOCAL PRODUCTS

There are two shopping centres, one at Maijdee court and another at Sonapur. Rice, cloth, fish and pulses, iron and steel, finished products, wooden articles, shoes and fruits are the main articles of trade ; paddy, jute and vegetables are the main local products which are marketed in the town area.

4.8 DWELLING HOUSES

The dwelling houses are mostly of C.I. sheets roong and either bomboo or C.I. Sheet wall. Being a temporary district headquarter nothing substantial has so far been constructed in this town. Even considered generously the town does not have the look of a modern urban area except for the congestion of housing and the tempo of public and business life.

4.9 MAIN OCCUPATIONS

The main occupations of the town dwellers is commerce, trade or the various professions like lawyer, Mukhtar, clerks, doctors and officers connected with civil administration.

4.10 TOWN ADMINISTRATION

The town area is administered by the local Municipal Committee.

APPENDIX TO PART III

Copy No. 1

[To be handed over to the Supervisor after Housing Census and then to be secured back and retained by Enumerator until after 3-2-1961.]

HOUSING CENSUS REGISTER, 1960

Admn. Distt.	Census Distt.	Charge	Circle	Block

Instructions to the Enumerators.

1. Study again the summarized House Numbering Procedure which you received with the list of your duties for the first phase of the Census.
2. Read these instructions repeatedly until you are completely familiar with them.
3. Study the Dummy interview sheet carefully and see if there are any particular types of houses/households in your block which are not included therein, or if there is any aspect of it which you do not understand so that you may get your difficulties resolved in the Training Classes.
4. Always carry your letter of appointment and introduce yourself by means of it, explaining to each Householder briefly the objects of the Census and the fact that all true information gained in the Census is strictly confidential in respect of all persons and can never be used in any manner against their interests.
5. Remember that the "Household" is the smallest unit in the Housing Census and enter the necessary information about each and every Household on a separate line in the Housing Census Schedule.
6. Ensure that every Building in your Block has been numbered.
7. Carry out completely the Housing Census and Cottage Industry Enquiry. The Housing Census Schedule to be completed in duplicate and only one copy of the Cottage Industry Enquiry Form.
8. The entries are required to be made of the total number of each sex regardless of age, who are "normal residents". At this stage no effort will be made to include figures of floating population like visitors to households, homeless folks etc., Hotels, Serais, Boarding Houses and Hostels will however, report the average number of their total occupants (staff, permanent guests and temporary visitors) as their normal inhabitants. Persons living regularly in Boats, Tents etc., will be included where they are found.
9. Be ready at all times for a visit of inspection by your Circle Supervisor.

Instructions to the Enumerators—Contd.

10. *DEFINITIONS* :—(a) *Household* is a collection of persons living and eating in one mess with their dependents, relations, servants and lodgers who normally reside together.

(b) *Normal Resident or Usual Inhabitant* is a person to whom the house is his or her permanent home or regular lodging place. *Floating Population* means homeless folks or regular itinerants, visitors to households etc.

(c) *Room* is broadly a compartment of House large enough to be slept in.

(d) *Cottage Industry* : For purposes of this enquiry, a "Cottage Industry" is one which is carried on wholly or mainly with the help of the members of a household working whole-time or part-time on a handicraft or in manufacturing articles of utility, decorative or artistic value for sale mainly outside the village or *Mohalla* where they are manufactured. This will exclude repair and maintenance services, and will normally exclude village artisans such as the Lohar, Tarkhan, Kumhar, etc., unless they do special work so as to fall within the above definition.

DO NOT DETACH ANY PAPER FROM THIS REGISTER. IF THERE ARE MORE THAN 150 HOUSEHOLDS IN YOUR BLOCK STITCH IN EXTRA SHEETS, WHICH WILL BE SUPPLIED BY YOUR SUPERVISOR, IN THE MIDDLE OF THE REGISTER AFTER PAGE EIGHT. KEEP THIS REGISTER NEAT & CLEAN.

I have made the entries of all households in my block.	I have checked 5% of the entries in this register.	I have checked ——— entries in this register.
Signature of Enumerator and Date.	*Signature of Supervisor and Date.*	*Signature of Charge Superintendent and Date.*

METHOD OF RECORDING PARTICULARS IN THE ENUMERATOR'S REGISTER FOR THE HOUSING CENSUS :

1. You have been given two copies of this Register, one of which (Copy No. 1) contains Cottage Industry Schedule which is also to be completed while taking the Housing Census. Even if there is no Cottage Industry in your Block the Cottage Industry Form should still be returned with the word "BLANK" written across it.

2. Your "Location Code" should be completed on each copy of the Housing Census Schedule and on the Cottage Industry Form at home before going out in your Block to fill up the Schedule & Form. This copy of the Housing Census Schedule and the Cottage Industry Form (Copy No. 1) should be completed while out in the Block carrying out the actual Housing Census. The second copy (Copy No. 2) of Housing Census Schedule may be filled up at home by copying out neatly in ink on it each evening the entries you have made on the original (Copy No. 1), during the day.

Column (2) of Housing Census Schedule : The "Census House Number" given to the building or house should be recorded in this column. In a building there can be many houses. In such a case the building number should be recorded first underneath the No. of the building, the No. of the house therein should be recorded separately. It should be remembered that in case more than one households are living in the same house, the particulars of each of the households will be recorded on a different line by writing "Do" in this column.

Column (3) : Enter the number of one of the eight types of material used in walls and in case where more than one material has been used in different portions of the house, enter the number of the principal material used in outer walls of the Major portion of the house.

Column (4) : Enter the relevant number as in column 3.

Column (5) : If a household is living in a boat or in tent etc., then put the relevant No. (1, 2 or 3) in this column Columns (3) & (4) will then be blank.

Column (6) : Give serial numbers to the households resici in the same house whose particulars are to be recorded on different lines.

Column (7) : If the household is living in "owned", "rented" or "free" house enter the relevant No. (1, 2 or 3 in this Column. In the case of servant quarters, etc., allowed free of rent, write the No. of Free (*i.e.* 3).

METHOD OF RECORDING PARTICULARS IN THE ENUMERATOR'S REGISTER FOR THE HOUSING CENSUS—Contd.

Column (8) : Name of the head of the household has to be entered for all occupied houses. For institution, hotel, etc., enter its name. For any unoccupied dwelling write "Vacant Residential" or "under construction residential" etc. For non-residential buildings write Mosque, Primary School, Office, Ware House, Shop, "Vacant Shop" etc., "Under Construction Shop" etc., as the case may be.

Columns (9) to (16) : Write the number in the appropriate column.

Columns (17) to (18) : For making entries in column to 17 and 18 the head of the household should be specifically asked to state separately the total number of males and females included in the household. This will serve as a check on any possible discrepancy due to the under-reporting of females which must be continually guarded against.

Column (19) : Write the number of rooms occupied by the household [*See* instruction 10 (c) *ante* for definition of "room"].

Columns (20) to (25) : Write the number in the appropriate column.

DACCA

EXPLANATORY NOTES ON TABLE 1.

1. Population figures for 1961 and 1951 are for Pakisatni nationals only.

2. Persons per square mile in 1951 have been worked out on the basis of area figures supplied by the office of Surveyor General of Pakistan in 1961. In some cases there are big margin of difference between the area figures supplied by the office of Director of Land Records and Survey, East Pakistan in 1951 and the same by the office of Surveyor General of Pakistan in 1961. Figures supplied by the office of the Surveyor General of Pakistan have been adopted in the present Census.

3. According to Census definition Urban areas include Municipalities, Civil Lines and Cantonments not included within Municipal limits etc. and any other continuous collection of houses inhabited by not less than 5,000 persons which the Provincial Director of Census decided to treat as urban for Census purposes. As special cases a few areas which had urban characteristics but had less than 5,000 population were also treated urban areas.

(1) Excludes 22434 males 19333 females children under & 12 years reported as attending School in Table No. 21 and 24 but not claiming to be literate.

"In some districts for the age group below 10 years of age, the number of educated persons is smaller than the number of persons 'attending' educational institutions for 1951. This is due to children who had been attending School for less than one academic year and thus could not be treated as educated."

Census of Pakistan, 1961

ENUMERATOR'S BOOKLET

This CENSUS, or NATIONAL STOCKTAKING is being conducted to secure information of the highest value to the general public, the business community and Government. YOU are the key man in it.

We count on you to give evidence of your good citizenship by doing this job efficiently, so as to ensure a Census of the highest quality.

POPULATION CENSUS OF PAKISTAN, 1961

Pocket Instructions for Enumerators

General:

1. Read, mark and learn this Booklet so that you may be ready to assist respondents who have any difficulty in choosing their answers.

2. Fill in the Location Code at the top of each schedule at home before you start Enumeration. The following is an example of how these 5 boxes should be filled up by an imaginary Enumerator whose Block Location Code number is 334060312.

Admin Distt.	Census Distt.	Charge	Circle	Block
33	4	06	03	12

3. The remainder of each schedule is to be completed in the field at the actual time of enumeration. Please write clearly and definitely, using your presentation Ball-point pen.

4. Be sure to include all persons enumerated in Cols. 8 to 16 of the Housing Census Schedule who are still present. Also satisfy yourself that all *INFANTS* and all additions made in the household until the time of Enumeration are properly reported. People usually forget to get all the *female members* enumerated, so take special care to see that *every female* in the household is enumerated.

5. Always introduce yourself by showing your letter of Appointment which you should carry with you.

6. Should any person object to answering any Census question you should explain that the information collected is STRICTLY CONFIDENTIAL, that it will not be communicated to any person whatsoever, and that no use will be made of it, which can in any way injure the respondents interests.

7. Spoiled Schedules should *not* be removed from the pad, but should be clearly cancelled with a cross on both sides. If a wrong entry is made by mistake under any question, it may be neatly cancelled by a cross (x) and the right entry made.

Whom to Count:

8. The object is to *include in the Census* all persons who are normally residents of Pakistan and all visitors to Pakistan during the Enumeration Period. The Census is to be complete and the motto should be "catch every person", but *no one should be counted more than once.*

9. Therefore *visit each and every house* during the Enumeration Period, missing no place in your Block. Write a schedule for every person you find there who is a Normal Resident, and also for visitors, travellers and wanderers in accordance with these instructions.

10. *A Normal Resident* in a house is a person who has his or her present regular residence or lodging place there. If you have any doubt as to whether a person is truly a normal resident, you should fill in a schedule for him or her and make a note to consult your Supervisor.

11. *Absent members of the household.*—The object of the *Preliminary Questions* is to ensure that persons who are temporarily away from their present normal residence for *part* of the Enumeration Period, are enumerated in the locality in which they normally reside. This will be part of your job.

Persons who are absent from their Normal Residence during the *whole* Enumeration Period will be counted at the place where they have gone and you need not worry about them.

12. *Temporary visitors* who have not already been enumerated, should be enumerated where they are found no matter where they come from, unless they will be back at their normal place of residence in Pakistan at some later time during the Enumeration Period. If you enumerate them you must warn them not to allow themselves to be enumerated again. But if you do *not* enumerate them you should ask them to get themselves enumerated at their normal place of residence when they return there before 31st January, 1961.

Post Enumeration check:

13. In addition to normal Supervision and Checking during the Enumeration Period, a percentage of the Enumeration Schedules will be completely checked soon after the "BIG COUNT" in order to assess the accuracy of the Census. Every Census Officer should try to ensure that no defect is discovered in his work at that stage.

Questions.	How to write answers.
PRELIMINARY QUESTIONS :	
House No.	Write in the box.
Household No. (within the house).	Write in the box. (This will nearly always be "1" save in cities).

Have you been enumerated already ?	If "NO" ask question (a).
(a) Is this your present REGULAR residence or lodging place ?	If "YES" carry out enumeration in full. If "NO" ask question (b).
(b) Will you be BACK in your normal residence before 31st JANUARY, 1961 ?	If 'NO' or doubtful, carry out enumeration. If "YES" do not fill in this form, but carefully warn the person that it is his/her duty to see that a form is made out at his/her normal residence.

Q. 1. NAME ?	Write it out. If a tribesman put name of tribe, clan and section of tribe after the person's name in the Quetta and Kalat Divisions and in the area between the Durand Line and the settled Districts in the Peshawar and Dera Ismail Khan Divisions. In the Chittagong Hill Tracts, put name of Tribe.

Explanation.—Statistically names have no significance and the record of names will be later destroyed. The reason for the recording of the name is to assist you in obtaining correct information and in preventing double counting. If a child has not been named enter "Son of———" "Daughter of ————————". If any person is hesitant to let you know the names of female members of his household, do not insist upon knowing the name but write down "Wife of———", "Daughter of———" and so on. Similarly if the respondent is a woman, do not insist upon knowing the name of her husband or any such person whose name she is reluctant to give in view of any prevailing custom.

Relationship to HEAD OF HOUSEHOLD ?	Write it out.

Explanation.—For Head, write "Head". For wife or husband, son or daughter of Head, enter "wife", "Husband", "son", "daughter" as the case may be.

For non-relatives enter "Servant", "Guest", "Friend" and so on, as the case may be.

Q. 2. SEX ?	Ring round "male" or "female".

Explanation.—Every person will be classed either as male or female. Eunuchs will be recorded as males.

Q. 3. AGE ?	Write the number of *years completed* on the 31st January, 1961.
For infants under one year.	Write number of *completed months* in box "Under one year", *i.e.*, 0 to 11.

If not, what is your NATIONALITY ?	Write it out.

Explanation.—Write down exactly what the respondent says. People know quite well whether they regard themselves as Pakistanis or not and it is their opinion that has to be recorded.

For non-Pakistanis record the name of the country of which they claim to be Nationals.

Afghan Powindahs.—If an Afghan does not know whether he is a Powindah, ask him how long he is staying in Pakistan. If he is only here for the winter, treat him as a Powindah.

Q. 7. RELIGION ?	Ring round the appropriate number.

Explanation.—Accept respondent's own classification. The last blank box is intended for persons who claim a religion other than those recorded on the schedule, when the religion claimed should be written in the blank box. If a person claims no religion, write "None" in the blank box.

Q. 8. DISABLED ?	If totally blind, ring round "1" under "Blind". If deaf and dumb, ring round "2" under "Deaf and Dumb". If crippled ring round "3" "under Crippled".

Explanation.—A person will be treated as blind if he cannot count the Enumerator's fingers held up about one foot in front of his face with or without spectacles, and as "Crippled" if he is permanently unable to use one or both of his arms and/or legs. A person who is deaf but *can* speak, or dumb but *can* hear will *not* be counted as "deaf and dumb".

IF NOT DISABLED PUT A CROSS IN THIS BOX.

Q. 9. MOTHER TONGUE ?	Ring round the appropriate number under languages.

Explanation.—One of the last blank columns is intended for persons whose mother tongue is not one of those named on the schedule ; when that is the case write the name of the language in the blank heading and then ring the number underneath. Every person must have a mother tongue. In the case of a young child who is as yet unable to speak, or of a deaf-mute, the language to be entered would be that principally spoken at the present time in the home by the parents or guardians. A person cannot have more than one mother tongue and for this reason there should be *only one* entry in this column.

Q. 10. OTHER LANGUAGES YOU CAN EASILY SPEAK ?	Ring round the appropriate number under languages.

Explanation.—The respondent should not claim to speak any language unless he can easily converse in it. If he claims to be able to speak languages which are not provided on the schedule write the names in the blank columns and ring the number in the appropriate box. The language already ringed as mother tongue in the preceding question should *NOT* be ringed again in this question which deals only with *OTHER* language spoken.

Q. 11. LITERACY ?

(i) Are you able to *read and write* a simple letter ? If so, in what languages ?	Ring round the number under appropriate languages against "Write and Read".
(ii) Are you able to *read with understanding*, but not write ? If so, in what languages ?	Ring round the number under appropriate languages against "Read only".
(iii) Are you able to read the Holy Quran *without understanding* ?	If yes, put a ✓ mark under Arabic in box 9 against "Read only".

IF CANNOT READ OR WRITE AT ALL, DRAW A CROSS RIGHT THROUGH THESE BOXES.

Explanation.—A ring round 9 under Arabic against "Read only" will mean that the respondent can read Arabic and the Holy Quran *with* understanding. A ✓ in this box will clearly mean ability only to read the Holy Quran *without* understanding. Languages already ringed for "Write and Read" should *not* be ringed again for "Read only".

Q. 12. SCHOOL OR COLLEGE ATTENDANCE ?

Are you *NOW* ATTENDING A SCHOOL OR COLLEGE OR AN INSTITUTE OF EDUCATION ?	If attending a school or college of General or Professional Education ring round "G". If attending an Institution of Technical Education ring round "T". If attending a Maktab ring round "M".

IF A PERSON IS NOT AT PRESENT ATTENDING ANY SCHOOL OR COLLEGE, PUT A CROSS IN THE BOX "NOW GOING TO SCHOOL OR COLLEGE".

Explanation.—For the purpose of Census a person is regarded as regularly attending school or college, or a technical institution regardless of any temporary break in attendance due to sickness or holiday, etc. The terms "School" and "College" cover institutions imparting General or Professional Education below and above matriculation standard respectively without regard to the names of the institutions.

Technical Institutions include Polytechnics, Technical High Schools, etc.

Maktab or Madrasa includes places where the Holy Quran and often elementary Urdu or other local languages are taught by an Imam, Maulvi or other teacher.

Q. 13. EDUCATION ?	(This applies both to those who are now attending school/College, and to those who have completed education).

Highest Grade Passed in Gen, or Prof. Education

1 2 3 4 5 6 7 8 9 M. Int. D. HD. O. Cert. Dip.

FIELD

Educ. Med. Engin. Agri. Com. Law. Others

1 2 3 4 5 6 7

(i) WHAT IS THE HIGHEST GRADE YOU HAVE PASSED IN SCHOOL OR COLLEGE?

(a) *For below matriculation* :
Ring round the appropriate number, from 1 to 9 for the highest class completed at School.

(b) *For Matriculation and above.*

Ring "M" for Matriculate.

Ring "Int" for Intermediate Passed.

Ring "D" for Degree Holder.

Ring "HD." for Higher Degree such as Master's or Doctor's Degree, and

Ring "O" for others including Oriental Degrees.

(ii) In which *FIELD OF PROFESSIONAL (INCLUDING TECHNICAL) EDUCATION*, if any, have you passed ?

Ring round "1" under "Educ" for Education.

Ring round "2" under "Med" for Medicine.

Ring round "3" under "Engin" for Engineering.

Ring round "4" under "Agri" for Agriculture.

Ring round "5" under "Com" for Commerce.

Ring round "6" for Law.

Ring round "7" for Others.

Cert.—If passed "middle" or the 8th class in School or higher, and hold a Certificate awarded by a recognised Educational Institution after at least 6 months full time attendance in the field of Educ., Med., Engin. or Agri., ring "Cert" and the number of the appropriate Professional (including Technical) field, as well as the highest grade in general education. *E.g.*, a certificated Nurse who has passed "middle" or the 8th class would have 3 rings round "8", "Cert" and "2" under "Med." field. Certificates will not be recorded if general education has not passed "middle" or the 8th class.

Dip.—If passed Matriculation or higher and hold a recognised Diploma, ring "Dip" and the number of the Professional (including Technical) Field, as well as the highest grade in general education, *e.g.*, a Diplomaed Teacher who has passed Matric, will have 3 rings round "M", "Dip" and "1" under Education Field. No Diploma will be recorded unless the holder has passed Matric or higher in general education.

Field.—The Professional (including Technical) Field should only be ringed in the case of those who hold a recognised Professional (or Technical) Certificate or Diploma, or a Professional Bachelor's, Master's or Doctor's Degree.

22	Total No. of children born alive	Total years remained Wed.

IF A PERSON HAS NOT PASSED ANY GRADE AT ALL PUT A CROSS IN THE BOX.

Q. 14. OWNERS OF AGRICULTURAL LAND. DO YOU OWN AGRICULTURAL LAND IN PAKISTAN ?	Ring round "Yes"or "No" as appropriate.

Explanation.—(1) Agricultural land *includes* land producing crops and also banjar. It *excludes* building sites and land reserved for residential purposes such as 'Abadi deh'.

(2) *Owner* of Agricultural land *includes* one shown as such in the Revenue records (khewat or khata). But it also *includes* Lease purchasers, mortgagees with possession, Refugees and other persons who have been given provisional or permanent allotment of Agricultural land and Grantees of land in Colonies on instalment payment or other bases (including those who became owners after Land Reforms).

(3) *Owner excludes* those who are mortgagees *without* possession and adult sons of landowners who work their parents' land, with or without their own ploughs. It excludes also all occupancy and other tenants and share croppers.

REMAINING QUESTIONS ARE TO BE ASKED ONLY OF PERSONS TEN (10) YEARS OLD AND ABOVE.

Q. 15. ECONOMICALLY ACTIVE UN-EMPLOYED AND INACTIVE.	
Are you *WORKING FOR PROFIT* or to *EARN WAGES* or *SALARY* or do you HELP ANY MEMBER OF YOUR FAMILY ON THE FARM, ETC. ?	If "Yes", ring round (1).
If not working at present, are you LOOKING FOR WORK for salary or wages or profit, etc.	If "Yes", ring round (2). If "No'., ring round (3).

Explanation.—(1) If the respondent is *not* a tiller of the soil, this question should be put with specific reference to "WORKING", or "NOT WORKING BUT LOOKING FOR WORK" *during the last week, i.e.,* a non-agricultural *worker* who has not been working, but looking for work during the last week will be ringed "2", but if he has done any work for profit, etc., during the week, he will be ringed "1".

(2) "Inactive" is a person who is not working to earn his livelihood nor is he in search of any work. Students and House-wives doing *only household duties* are to be treated as "Inactive". But persons who are helping any member of their family in his profession or trade, even if they are not paid for such work in cash or kind, are to be classed as "Working". Persons not working and living on rent or pension *only* are also to be treated as inactives. Beggars and Prostitutes are also to be classed as inactives, because, although they do earn, they are not helping in the production of economic goods.

(3) In the case of "Inactives" questions 16 to 20 will *not* be asked but the details of their categories will be ascertained from Question No. 21 and recorded accordingly.

Questions 16 to 20 to be asked only of persons who are "WORKING" OR "LOOKING FOR WORK", *i.e.,* who are ringed (1) or (2) in Q. No. 15.

Q. 16. WHAT IS YOUR MAIN OCCUPATION ? (What kind of work do you do) ?	If a TILLER OF THE SOIL, ring round "T" and move on to Q. 18. Otherwise write the OCCUPATION.

Explanation.—A tiller of the soil is one who himself works on the land or gets it cultivated under his direct personal supervision. Information regarding "Main Occupation" is required only if the person is "WORKING" or, if not working is "LOOKING FOR WORK". It is essential that a person's occupation be recorded in such a way that it may provide an adequate description of the work he is doing, or is looking for. In the case of a person looking for work for the first time, enter "NONE YET".

For your guidance a list of descriptions of occupations which are not acceptable without qualification is given below. This list is not comprehensive but gives an idea of the precision required.

Administrative Officer.—State whether Government Administrative, City Council Administrative Officer, etc.

Clerk.—State whether accounts clerk, correspondence clerk, stores clerk, solicitor's clerk, tally clerk, time keeper, etc.

Driver.—State whether lorry driver, bus driver, taxi driver, car driver, tractor driver, railway engine driver, crane driver, bulldozer driver, etc.

Conductor.—State whether bus conductor, band conductor, railway conductor, etc.

Engineer.—State whether civil engineer, electrical engineer, mechanical engineer, mining engineer, motor engineer, etc.

Factory Worker.—State the exact nature of work done & the kind of factory.

Inspector.—State whether fire inspector, health inspector, labour inspector, police inspector, traffic inspector, ticket inspector, railway inspector, vehicle inspector, etc.

Labourer.—State whether dock labourer, earth moving labourer, godown labourer, transport labourer, etc.

Manager.—State whether finance manager, personnel manager, general sales manager, textile retail manager, owner or partner (stating nature of business), etc.

Mechanic.—State whether motor mechanic, radio mechanic, lift mechanic, etc.

Owner Proprietor.—State nature of business owned.

Salesman.—State whether retail shop salesman, insurance salesman, ticket salesman, newsboy, street vendor, wholesale commodities salesman, broker, auctioneer, etc.

The description should be appropriate to the actual work done irrespective of educational, professional, or technical qualifications achieved by a person. Vague, incomplete and ambiguous descriptions like *"service"* "Labourer" "Mulazmat" should be avoided.

For *PERSONS NOT RINGED "T" IN QUESTION NO. 16.*

Q. 17. NAME AND TYPE OF INDUSTRY, BUSINESS OR SERVICE?	Write it out.

Explanation.—Enter the name of the *Industry, Business* or *Service* in which the person is working.

The entry has to be made *only* if the person is working, or if not working, has been previously working and is at present looking for work. In the case of a person who is looking for work for the first time, enter "X" against this question.

Industry refers to the activity of the firm, establishment or department in which the person is employed or to the kind of business the person operates. The following are examples of Industry/Business descriptions :—

Stock-raising, forestry and logging, fishery, biscuit making, clothes making, furniture making, brick manufacturing, pineapple canning, cotton ginning, cotton textiles, jute textiles, woollen textiles, tannery, leather products, black-smithy, motor repairing, road making, fish retailing, boot and shoe retailing, banking, insurance, architecture, advertising, cinema, restaurants, hotels, laundries, hair-dressing, etc.

Railway transport, motor taxi service, motor cycle rikshaw service, air transport, postal services, primary school, technical school, university, Governmental medical services, private medical services, social welfare services, legal services, domestic services, armed services, etc.

The list is not comprehensive but it should indicate the variety of descriptions and the degree of precision required.

Q. 18. AGRICULTURAL STATUS? Only *for persons ringed "T" in question No.* 16.

(i) Do you OWN ALL OR PART OF THE LAND you till ?	If yes, ring round "1" under "owner cultivator".
(ii) TENANT—Do you pay rent in cash or kind for ALL OR PART OF the land you till ?	If yes, ring round "2" under "Tenant".
(iii) Are you UNPAID FAMILY HELP ?	If yes, ring round "3" under "Family help".
(iv) Are you an AGRICULTURAL LABOURER working for others for wages in cash or kind?	If yes, ring round "4" under "Agricultural Labour".

Explanation.—All persons classed as Tillers in Q. 16 *must* have a ring round one or more of the numbers in this question. For instance a man who owns a little land which he cultivates himself, who also has some land on rent, and who in his spare time works for reward in agriculture for others, will have rings round numbers 1, 2 and 4.

Q. 19. STATUS IN BUSINESS, TRADE INDUSTRY OR SERVICE ? *For persons Not ringed "T" in question 16.*

(i) In your main occupation do you EMPLOY OTHERS ?	If yes, ring round "1" under "Employer".

(ii) or Are you an EMPLOYEE ?	If yes, ring round "2" under "Employee".
(iii) or An INDEPENDENT worker ?	If yes, ring round "3" under "Independent worker".
(iv) or UNPAID FAMILY HELP ?	If yes, ring round "4" under "Unpaid family help".

Explanation.—Every non-agriculturist who is economically active must be classified under one and *only one* of the above categories.

Note that the whole question concerns the main occupation given in question No. 16. Persons who employ others in their profession or business will be classed as "Employer". No one will be classed as "Employer" merely because he employs domestic servants. For example, a cook is classed as an employee in his occupation, but if he is cooking for, let us say, a civil servant, the latter will *not* be shown as an employer on that account. Similarly a Company Director for instance, although he may have power to appoint and discharge Company staff, will not be classed as "Employer", because he himself is an employee of the Company. An independent worker is his own master in his trade or business who does not employ others. An unpaid family help is a member of the family who assists directly in the trade or business of another member but receives no separate payment in cash or kind.

Q. 20. HAVE YOU ANY SUBSIDIARY MEANS OF LIVELIHOOD ? IF SO, WHAT ?	Write it out.

IF A PERSON HAS NO SUBSIDIARY OCCUPATION, PUT A CROSS IN THE BOX.

Explanation.—Enter the name of Subsidiary Occupation in full, or at least, in sufficient detail to ensure identification from the Main Occupation.

In order to claim "Subsidiary Occupation", a person must be following two occupations, the second being pursued in addition to or alternatively to the "Main Occupation".

This may be either a secondary source of income pursued throughout the whole year or an alternative means of livelihood adopted at times when the main occupation cannot be followed. This distinction, however, need not be recorded, and it is only necessary for the Enumerator to say what, if any, is the secondary or alternative means of livelihood of the respondent.

In rural areas the Subsidiary Occupation (if any) of cultivators will generally be one of the agricultural occupations such as poultry, bee keeping, etc., or a cottage industry. Service on roads or in the militia may be a normal subsidiary occupation in some areas. When Cottage Industries are given as subsidiary occupation, they should be described as "Home weaving", "Home pottery making", "Home mat making", etc.

Q. 21. DETAILS OF INACTIVES ?	*Only those persons who are ringed as "3" in question No. 15 should be asked :*
(i) Do you work as HOUSE WIFE, *i.e.*, perform house hold duties only ?	Ring round number "1".
(ii) Do you receive any kind of RENT, PENSION, *etc.* ?	Ring round number "2".

(iii) Are you an INMATE OF MENTAL ASYLUM, JAIL or other such Institution or are you a beggar ?	Ring round number "3".
(iv) DEPENDENT and others.	Ring round number "4".

Explanation.—More than one of the numbers in this Question may have to be ringed.

Q. 22. ONLY FOR WOMEN WHO ARE OR HAVE BEEN MARRIED?

(i) *During your whole married life :*

How many CHILDREN have been born ALIVE altogether ?	Write under "Children born" total number of children born alive to her.

(ii) *During your whole life :*

How many years you REMAINED MARRIED altogether ?	Write under "years Wed" total number of years.

Explanation.—Include any infant born alive who may have died since.

If a woman has been married more than once the two questions should cover the whole period she remained married from the date of her first marriage. For example a woman married for the first time and after 5 years was divorced. Some years later she remarried and her (new) husband died 10 years later, since when she has remained a widow. In this case "Total years remained wed" is 5+10=15 years.

After filling up a Schedule for each member of the household, you should check again that no one in the household (particularly daughters-in-law) has been over-looked. Also that no one normally resident in the household is temporarily absent and expected back before the 31st of January, 1961.

Progress Reports :

Carry out the enumeration of your area progressively every day. Don't leave the work to be done towards the end of the Enumeration Period. In order to ensure this, report regularly to your Supervisor in the prescribed forms regarding the percentage of the work completed on the dates shown in the Calendar. The first round of your visits to all the houses in your Block should be completed during the 1st two weeks. Then during the next three days carry out a 2nd round and enumerate the Households that might have been left out during the 1st round, and also those normal residents who were temporarily absent, but have since returned and have not been enumerated elsewhere. Two days before the last date (*i.e.*, 29th January, 1961) make an announcement in your Block that persons left out may kindly report to you at an agreed place and get themselves enumerated. Continue the checking for omissions during the last two days and then on the actual Census Night (Night of the 31st January) you must make a rapid and thorough examination of the whole Block. All new arrivals, travellers, wanderers, homeless folk and others

who are found then anywhere within your area must be questioned and, if they have not been enumerated before, a slip must be prepared for each of them.

The End of the Work :

When you are sure that you have properly enumerated every person in your Block, and your last check-up has been completed as above, you should recount all your valid schedules in each Pad and check the totals which you will have recorded on the back covers thereof, showing males, females and literate persons separately. These totals on the back covers should then be added up and the grand totals recorded in your Report Sheet reproduced as a detachable form at the end of this Booklet. This Report sheet should then be removed and handed over to your Supervisor along with the used and partially used pads of Schedules and the Supervisors receipt should be obtained in the form below :

Copy No. 1 of the Housing Census Register should also be handed over to the Supervisor at this time which should be before 3rd February, 1961.

SUPERVISOR'S RECEIPT

Mr. (name).....
the Enumerator of Census Block No.....
has today (3rd February, 1961 or earlier) handed me.....pads of Individual Census Schedules properly completed to cover.....(No.) Persons.

Date.....

Signature of Circle Supervisor.

ENUMERATOR'S REPORT FORM

I....., hereby certify that I have taken the Census in the whole of Block No.....in accordance with the official.

(Write the Code No.)
instructions.

Herewith are handed over..... (No.) pads of completed Enumeration Slips containing records concerning.... males and.....females, *viz.*,..... (total) persons of whom.....are literates.

Date.....

Signature of Enumerator.

DUTIES OF THE CENSUS OFFICER UNDER CENSUS ORDINANCE, 1959

1. To ask all authorised questions from all persons in the limits of the area for which he has been appointed.

[Sec. 7(1).]

2. Not to ask any improper or unauthorised question, nor ask any authorised question in an offensive manner. Therefore he should always be most courteous in the discharge of his duties.

[Sec. 13(b).]

3. Not to disclose any information collected by him during the Census to any unauthorised person as all such information is to be regarded as confidential.

[Secs. 10 and 13 (b).

INTRODUCTION

The village statistics contain, for the each village of the district, the jurisdiction list numbers (J.L. No.), area in acres, total population, population by sexes, total literates, the number of houses and households. The name of the village is given in Englilsh as well as in Bengali. The J. L. Nos. relate only to revenue villages commonly known as 'mouzas.' A mouza is sometimes composed of two or more villages. Component villages included within the mouzas have no J. L. Nos. Under column "Name of Village", local details showing the existence, if any, of Tube-wells, Schools, College, Madrasah, Post Office, Telegraph Office, Railway Station, Steamer Ghat, Police Station, Union Council Office, Dak-Bungalow, Dispensary, Hospital, Historical Monuments or sites and Electricity Supply have been shown by appropriate symbols.

The data presented have been arranged by Sub-divisions, Police Stations and Unions (*i. e.* union council areas) in the same order as the census location code numbers as far as practicable. The District Summary gives the total population and population by sexes rounded to the nearest thousand for the district as well as for each Sub-division. It also gives the number of Thanas, Unions and Villages. Similarly the Sub-divisional summary gives the total population, population by sexes, number of unions and number of villages for each thana (Police Station) within the Sub-division. The totals for each union are given at the top of the villages which constitute that union.

The Village Statistics for this district were compiled in the Chittagong Hand Sorting Centre. This was checked and edited in the office of the provincial Director of Census. The population figures in the Village Statistics were obtained from the results of circle sort of the Hand Sorting Operation. These figures were carefully checked and verified with abstracts and summaries prepared by Charge Superintendents and Circle Supervisors. The literacy figures were obtained from the provisional summaries and abstracts prepared immediately by the Census Circle Supervisors. The number of houses and households were compiled from the Housing Census Registers which were prepared by field Officers in the Housing Census of 1960.

The local details of each village were obtained from the local authorities and the Institutions of Basic Democraries. The Deputy Commissioner of Chittagong and the Sub-divisional Officers collected the details from the Union Councils. Town Committee and Municipal Authorities through their Officers. These details were further verified and checked with other available data. The area figures were supplied by local Settlement offices under the Director of Land Records, East Pakistan.

I must express my thanks and appreciation to all the Heads of the Departments of East Pakistan Government, the Deputy Commissioner, Chittagong, and his Sub-divisional Officers, the Chairmen of the Union Councils, Municipalities and other Basic Democrats who rendered all possible help to make our efforts successful. My thanks are also due to the Director of Land Records, East Pakistan and the Deputy Surveyor General of Pakistan, Dacca, who ungrudingly supplied necessary data whenever we asked for them. The work of original compilation and consolidation of village statistics figures was done under the guidance and supervision of Mr. K. A. Islam EPCS, Asstt. Director of Hand Sorting Centre Chittagong. It is my pleasant duty to thank him and his staff for the useful work they have done and the pains they have taken to make the figures and local details accurate and up-to-date. I must also record my deep sense of appreciation for the hard and careful work put in by Mr. Riazuddin Ahmad, Statistical Officer and his staff in correcting and editing the Village Statistics.

H.H. NOMANI, S.K,
Director of Census,
East Pakistan, Dacca.

EXPLANATORY NOTES

1. The Village Statistics includes persons who claimed nationality other Pakistani,

2. Thana figures include those of urban areas, if any, within its jurisdiction.

3. Figures for Municipal and Town Committees are given separately under respective thanas within which they are located. But figures for urban areas not included within a Municipal or Town Committee are not shown separately.

4. Number of houses mean only occupied residential houses. Household means a collection of persons living and eating in one mess with their dependents, relations, servants and and lodgers who normally reside together. Figures for houses and households for rural areas may not tally with those shown in part 3 of District Census Reports as these figsres have been obtained by machine sorting on the basis of 10% sample.

5. Area figures for thanas, sub-divisions and district have been taken from those supplied by Deputy Surveyor General, Dacca in order to have uniformity with the figures published in Final Census Reports, 1961. As area figures for villages and unions were not available with Deputy Surveyor General, these figures have been taken from settlement offices under Director of Land Record East Pakistan.

Area figures for villages and unions do not necessarily add upto thanas, sub-diviisons and districts, as these two departments adopted different methods of survey.

6. Number of literates has been taken from Charge Superintendents Abstracts (provisional results of census published in January, 1961). These may not tally with the final figures to be published in Final Reports later on.

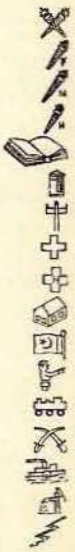

Literates have been defined as persons having "ability to read and write" *i.e.* the ability to write a letter in any language natually includes the abilities to read with understanding the same language(s).

7. Number of Unions in Summaries include all Union Councils, Union Committees and Town Committees.

8. The local details of village are based on data supplied by Union Councils through local administration. In some case these ldetails are not comprehensive and up-to-date. We have however incorporated every item that were supplied by the local administrations.

9. Only one symbol for each tupe of Institition has been used irrespective of the number of such Institutions within a Village. The symbols used to denote local institutions are :—

(1)	College or University	...	কলেজ বা বিশ্ববিদ্যালয়	...
(2)	Primary School	...	প্রাইমারী স্কুল	...
(3)	Middle School	...	মিড্‌ল স্কুল	...
(4)	High School	...	হাই স্কুল	...
