FOREWORD

The 1961 Census of Pakistan of which this bulletin is only a partial record owes its success to the stirring message of Field Marshal Mohammad Ayub Khan, H.Pk., H.J., President of Pakistan, calling upon all classes of people—officials and non-officials—to regard Census as one of the fundamental and the most important national activities which lie at the root of all development programme. Lt. Gen. Mohammad Azam Khan, H.Q.A., Governor of East Pakistan, and Malik Amir Mohammad Khan, Governor of West Pakistan, exhorted the people repeatedly to give the highest priority and extend the fullest co-operation to Census. The Governor of East Pakistan by personally inaugurating the House numbering operations set the pattern for vigorous and enthusiastic census work throughout the province. The rank and file of census officers drew further inspiration from the direct encouragement they continuously received from Mr. Zakir Husain, Minister for Home Affairs, who has been taking keen and personal interest in all census matters. In publishing this bulletin containing the most essential information about population generally wanted by the administrators and general public, the Census Organisation feels privileged and proud to acknowledge its deep debt of gratitude to them for their kind and sympathetic appreciation of its work.

The Second Decennial Census of Pakistan was taken throughout the country from the 12th to 31st January 1961. In a few places which become snowbound and inaccessible during winter, census was taken earlier between 1st September to 15th December 1960. The final check was made on the night between 31st January and sunrise of 1st February 1961. The provisional results were published in Census Bulletin No. 1 on the 3rd of March. The task of provisional results were published in Census Bulletin No. 1 on the 3rd of March. The task of collection and compilation of the results in such a short time was no doubt big, but having regard to the urgency of satisfying popular demand for quick information regarding the growth and distribution of population in the last decade, adequate administrative measures were taken to ensure publication of the more basic facts with the least possible delay.

There were more than two lakh block enumerators in the field supervised by about 16,000 Circle Supervisors and 2,000 Charge Superintendents. 210 District Census Officers controlled the census operation within each of the census districts. The total population for the block by sex and the number of literates were counted by the Enumerator, checked by the Supervisor and sent to the Charge Superintendent who in turn made a final check and despatched the "charge" total to the district Census Officer by the 9th February 1961. The DCOs sent the results of the census districts by telegram to the Census Commissioner and the Provincial Director by the 12th February. After a hurried but careful check in the offices of the Provincial Directors and the Census Commissioner for obvious mistakes, the results were compiled, tabulated and published on the 3rd March. It will be seen from the above time-table and manner of collection of results that it was not possible to be sure that these figures tally with the information actually recorded in the enumeration slips. The results were, therefore, strictly provisional.

The individual enumeration slips have since been collected from the District Census Officers in 17 Hand Sorting Centres, 9 in West Pakistan and 8 in East Pakistan. These slips have passed through very careful scrutiny for obvious contradictions and omissions and then sorted by trained sorters according to a detailed sorting plan. The sorting is still in progress but the phases which were planned to produce tables on the total population by geographical divisions, sex, urban-rural classification and religion were completed some time ago. The

required talbes were compiled in the offices of the Deputy/Assistant Directors in charge of Hand Sorting Centres according to designs worked out by the office of the Census Commissioner. These tables went through minute and careful scrutiny under the eyes of trained statisticians in the Census Commissioner's Office before being complied into the form in which they are now published. They replaced and supersede the related information given in Census Bulletin No. 1 and can be regarded as final and verified results of the 1961 Population Census in regard to the characteristics mentioned therein.

The area figures for all geographical divisions have been supplied by the Surveyor General of Pakistan. I am grateful to him for his active co-operation in making the latest area figures of all administrative areas down to Tehsils in West Pakistan and Thanas in East Pakistan available with great speed.

The Census was organised and taken under the experienced leadership of Mr. R. D. Howe, M.B.E., S.Q.A., C.S.P., my predecessor in office and all the credit for our achievements goes to him. We are fortunate in having with us Col. E. H. Slade, M.B.E., M.C., F.I.S. as Census Adviser. Col. Slade is a distinguished demographer and statistician and has the proud distinction of being the first Census Commissioner of Pakistan in 1951. His help and advice at all stages of the difficult task of data processing have been invaluable. As a matter of fact, the entire hand-sorting plan was devised and worked out mainly by him. I am deeply indebted to him for his wise, critical and experienced advice in all technical matters. The publication of a statistical document which lays claim to final accuracy with so little time for compilation and verification imposed a heavy strain on the statistical staff in this Office. They rose to the occasion to a man and did their job well. I must also thank the Provincial Directors of Census, Mr. H. H. Nomani, S.K., and Mr. Aslam Abdullah Khan, C.S.P., the officers-in-charge of Hand Sorting Centres and their staff for the splendid support they have given me and the care and pains they have taken for the accuracy of the tables. I am happy to have Mr. N. Shamsi as Deputy Census Commissioner who has been continuously associated with the Census of Pakistan from 1951 and who contributed most to the planning of the Census and organising it in the field. He also collaborated with Col. Slade in working out the details of processing instructions. It is my pleasant duty to acknowledge with thanks his share in research and study in the writing of the brief statistical note to this bulletin. Finally, I find it difficult to say how much the Census Organization owes to the Controller of Printing and Stationery, Mr. N. H. Khandkar, and his able deputy Mr. Qasim Ali for their understanding of the urgency and importance of Census and the promptness with which the work was undertaken and executed.

A. RASHID, C.S.P.,

Census Commissioner of Pakistan,
and Ex-officio *Joint Secretary.*

STATEMENT 2-D
Percentage Increase—1961—Position of Districts

Position	Name of District	Province	Percentage increase
1.	Karachi	West Pakistan	79.7
2.	Rahim Yar Khan	West Pakistan	52.7
3.	Khairpur	West Pakistan	47.8
4.	Kohat	West Pakistan	45.0
5.	Hyderabad	West Pakistan	44.1
6.	Nawabshah	West Pakistan	41.0
7.	Bahawalpur	West Pakistan	39.3
8.	Mianwali	West Pakistan	35.6
9.	Zhob	West Pakistan	33.9
	Chittagong Hill Tracts	East Pakistan	

highest increase of 75.9 per cent. The lowest increase (7) is found to have taken place in Kalat division—two districts of which lost a good percentage of its population. The second highest percentage increase (41.2) has occurred in Bahawalpur Division, comprising an arid region but it appears to be rapidly filling up indicating irrigation facilities and other developments offering employment opportunities.

A brief comparison of the rate of growth within the two provinces indicates large scale population movements and greater development opportunities in West Pakistan and a rather immobile population with little room to shift the pressure in East Pakistan. As discussed earlier Karachi attracted the heaviest immigration shooting its population up by 79.7 per cent. Similarly, Hyderabad (44.1 per cent.), Rahim Yar Khan (52.7 per cent.), Multan (28.2 per cent.), Bahawalpur (39.3 per cent.), Khairpur (47.8 per cent.) appear to have offered sufficient employment opportunities, especially in the big urban areas included in them. It is not only within the province as a whole that the rates are poles apart; within even the same division, it fluctuates violently. In Quetta division Sibi records a rise of 2.1 per cent. but Zhob goes to the

STATEMENT 2-E—AREA AND DENSITY IN EAST PAKISTAN

Name of District	Including River Area		Excluding River Area	
	Area	Density	Area	Density
EAST PAKISTAN:	**55,126**	**922**	**51,921**	**979**

Chittagong Division	**17,032**	**800**	**16,510**	**826**
1. Sylhet District	4,785	729	4,736	737
2. Comilla	2,594	1,693	2,446	1,794
3. Noakhali	1,855	1,285	1,623	1,468
4. Chittagong	2,705	1,103	2,619	1,139
5. Chittagong Hill Tracts District ..	5,093	76	5,085	75

other extreme of 33.9 per cent. In Peshawar division Mohmand Agency ascends the dizzy height of 127.5 per cent. and Hazara district goes down steeply to 8.4 per cent. Multan and Sargodha divisions present a happier picture, the range of variation between the districts not exceeding 15 in each case.

East Pakistan, on the contrary, shows no such abrupt and wild fluctuations in the rate of increase. The highest rate of 33.9 per cent. is recorded in Chittagong Hill Tracts possibly due to the rapid opening up of its interior and the Kaptai Hydro electric project and also in Jessore district (33.5 per cent.) indicating migration from border districts of India. Sylhet shows the lowest increase of 13.8 per cent. The real variation is, however, within much closer range. Ten out of the 17 districts show an increase ranging between 15 and 25 per cent., 2 between 26-30 and 3 between 31-34 per cent.

2.6. Density

The distribution of population per square mile or the density is related to the area of the localities for which it is calculated. The areas of all geographical divisions in West Pakistan are practically the same whether rivers are included or excluded. Rivers are so large in certain parts of East Pakistan that they make a significant difference in the area and density if excluded. It may be noted that out of the total area of 55,126 square miles 3,205 square miles or 5.8 per cent. of that area is covered by rivers and foreshore. This figure (area of rivers) is based on the latest calculation of area undertaken by the Survey of Pakistan and far exceeds the figure of 360 square miles given in the 1951 Census Reports. For the purpose of uniformity and conformity to international standards, tables 1, 2 and 3 of the Bulletin give the area of localities including large and small rivers, and density has been calculated on this basis. Statement 2-E shows the comparative area and density of the districts of East Pakistan including and excluding rivers. This brings out clearly how the large rivers affect the pressure of population on the land area. This pressure is very uneven having little or no meaning for districts like Dinajpur and Chittagong Hill Tracts. The worst affected is Noakhali which has to absorb the invisible pressure of 183 persons per square mile; next comes Barisal and Dacca with an additional pressure of 182 and 141 respectively. The density of all localities in West Pakistan has been calculated making no allowance for the large mountain ranges, deserts and scrub-lands for the simple reason that their exclusion would render the figures of population distribution meaningless and distort beyond recognition the economic and social picture.

In map No. 1 the districts have been shown in the various density ranges of means of clearly distinguishable hatchings. Statement No. 2-F analyses the density ranges for easy understanding.

Statement 2-F

Density Range	No. of Distt.			Population		
Persons per Sq. Mile	Total	E. P.	W. P.	Total	East Pak.	West Pak.
0—24	8	0	8	9,84,437	—	9,84,437
25—99	11	1	10	49,89,573	3,85,079	46,04,494
100—199	9	0	9	66,64,163	—	66,64,163

1,000—1,199	8	7	1	2,72,51,444	2,47,71,757	24,79,687
1,200—1,499	1	1	—	23,83,145	23,83,145	—
1,500 and above	3	2	1	1,15,28,695	94,84,651	20,44,044
All Ranges ..	**68**	**17**	**51**	**9,37,20,613**	**5,08,40,235**	**4,28,80,378**

In East Pakistan, the highest percentage (48.7) of provincial population is in the range of 1,000—1,199 persons per square mile. The range having highest percentage of population in West Pakistan is 200—299 persons per square mile. Tables 2 and 3 summarise the density down to districts/Agencies in each Province. Statement 2-G compares the 1961 density of Pakistan and Provinces with that of 1951.

STATEMENT 2-G

Density per square mile

	1951	1961
Pakistan (1)	207	256
East Pakistan	761 (2)	922
West Pakistan (1)	109	138

(1) *Including the area and estimated population of Gwadur* (13,000 *persons*) *and also* 24,000 *persons in Mohmand Agency that were not included in the* 1951 *Census figure*.

(2) *On the basis of total area, including rivers, which differs from that in the* 1951 *Census Report*.

The average density of 256 per square mile for the whole country marks the extraordinarily wide range of variation between the two provinces and more especially between large administrative areas within the same province. For every person on a square mile of land in West Pakistan, East Pakistan has about seven. Dacca district in East Pakistan has the highest density in the country with 1768 per square mile. In four districts of West Pakistan, namely Mekran, Kharan, Zhob and Chagai covering an area of 72,000 square miles (or as big as England, Wales and Belgium) the average density does not exceed 10. In sharp contrast, 10 out of the 17 districts of East Pakistan have a density of more than 1,000 persons per square mile. Two districts—Dacca (1,768) and Comilla (1,693) have a density of more than, 1,500. There are two districts in West Pakistan with a density of more than 1000 and they are Karachi (1,506) and Lahore (1,119). The figures of 1,506 for Karachi is, of course, overwhelmingly influenced by the compact urban population of Karachi City. The north-eastern block of districts in West Pakistan, namely Lahore, Sialkot, Gujranwala, Sheikhupura, Lyallpur and Montgomery, show the highest concentration of population. Twelve out of the 51 districts of West Pakistan have a density over 400, whereas all the districts of East Pakistan except Chittagong Hill Tracts, are above that level. Briefly, the distribution and concentration of population in Pakistan make a fasicinating study bringing out in bold relief the problems of land utilisation, prospects of diversification of occupations and the trends of population movement in different zones of the country.

3. Rural and Urban Growth of Population

3.1 The distinction between an Urban and Rural population is based on the definition of what actually constitutes an Urban Population. The standards applied for distinguishing an urban area differ from country to country, and would seem to be largely based on the prevailing conditions in the country. Havinig regard, however, to the more important recommendations of the United Nations in this regard, and in the absence of universally accepted standards, *the basis used for the division between rural and urban population was population size or form of administrative organization* (Municipalities, Civil Lines and Cantonments) *or both*.

Accordingly, by the 1961 Census definition urban areas include Municipalies, Civil Lines and Cantonments not included within Municipal limits, etc. and any other *continuous collection of houses inhabited by not less than* 5,000 *persons which the Provincial Director may decide to treat as urban for census purposes*. The Provincial Directors were given further instructions to look for pronounced urban characteristics, *e g*. common utilities, roads sanitation, schools, and specially non-agricultural occuption of the people in deciding the urban character of a place. *Thus as a special case, a few areas which had urban characteristics but had less than* 5,000 *population were also declared urban areas*.

3.2 Over the last 10 years there has been acceleration in the trend towards urbanization. The process of industrial growth has involved radical shifts in the use of man-power and natural resources; it has entailed drastic alterations in the occupational structures as well as in the type and location of major economic activities. The social effects of industrialization have also been diverse. These changes in turn have tended to accentuate local inequalities in the scope of social and economic development and thus to give impetus to large scale movements of population in the country. The direction of these movements has been predominantly from rural areas to urban centres of rapid industrial expansion. Indicative of this trend are the unequal rates of growth of local populations. A number of urban areas have been gaining in population far beyond what might have been expected from natural increase alone, whereas not a few rural areas have been losing population more or less consistently.

3.3. The Trend in Rural and Urban Distribution of Population 1901—1961

Around the turn of the century Pakistan was mainly a rural country. By 1961 she had emerged as a semi-industrial country, especially in the western wing.

Rural-Urban shifts in the population over the period between 1901 and 1961 are summarised in Statement 3-A.

Statement 3-A—Rural and Urban distribution of population of Pakistan—1901—1961

Year	Numerical Distribution (1000's)		
	(1) Total	Rural	Urban
1901 ..	4,55,04	4,31,83	23,21
1911 ..	5,09,37	4,84,41	24,96
1921 ..	5,43,63	5,14,27	29,36
1931 ..	5,91,46	5,53,01	38,45
1941 ..	7,02,79	6,47,27	55,52
1951 ..	7,58,42	6,79,79	78,63
	(2)	(2)	(2)
1961 ..	9,37,20	8,14,25	1,22,95
	Percentage Distribution		
1901 ..	100.0	94.9	5.1
1911 ..	100.0	95.1	4.9
1921 ..	100.0	94.6	5.4
1931 ..	100.0	93.5	6.5
1941 ..	100.0	92.1	7.9
1951 ..	100.0	89.6	10.4
		(2)	(2)
1961 ..	100.0	86.9	13.1

(1) *Excluding Jammu and Kashmir, Gilgit and Baltistan, Junagardh and Manavadar.*

(2) *Excluding Non-Pakistanis.*

The figures presented above reflect quite adequately the historic process of urbanization in this country. The data clearly shows that the forces of industrialization and urbanization had significantly altered the distribution of population in this country. The total urban population at the 1901 Census was 2.3 millions. By 1961 it had grown to more than 5.3 times that number. The cumulative addition to the urban population over the 60-year Interval represents as much as 430 per cent of the total growth for the Nation. Over the period the rural population increased by only 885 per cent from about 43.1 million in 1901 to 81.4 million in 1961.

Statement 3-B—Rates of Rural and Urban Growth for Pakistan—1901—1961

Decade	Percentage Increase		
	Total	Rural	Urban
1901—11 ..	11.9	8.8	8.5
1911—21 ..	6.7	6.2	16.1
1921—31 ..	8.8	7.5	32.1
1931—41 ..	18.8	17.0	44.1
1941—51 ..	7.9	5.0	41.9
1951—61 ..	23.6	19.8	56.4

As Statement 3-B indicates, the rate of Urban growth in Pakistan was remarkably high in 1931-41 and 1941—51 inter-censal periods and in 1961 it has increased beyond imagination. The rate of increase in rural population, on the other hand, established at a low level. Reflecting this trend, the proportion of the total inter-censal growth accounted for by urban areas increased progressively. During the first decade of this century it was about 5.1 per cent. Rising above 5.4 per cent in the twenties. It reached 10.4 per cent in 1951 and the proportion of the total population growth reported in the Urban areas is particularly high during the 1951-61 period, when the speed of industrialization was fairly rapid.

Statement 3-C—Rural and Urban Population of Pakistan and Provinces 1951—61

Locality	RURAL					URBAN				
	1951		1961			1951		1961		
	Number (thousand)	P.C. of population	Number (thousand)	P.C. of population	P.C Change	Number (thousand)	P.C. of population	Number (thousand)	P.C. of population	P.C. Change
Pakistan	**6,79,79**	**89.6**	**8,14,25**	**86.9**	**19.8**	**78,63**	**10.4**	**1,22,95**	**13.1**	**56.4**
E. Pak.	**4,02,18**	**95.6**	**4,82,00**	**94.8**	**19.8**	**18,44**	**4.4**	**26,41**	**5.2**	**43.2**
W. Pak.	**2,77,61**	**82.2**	**3,32,25**	**77.5**	**19.7**	**60,19**	**17.8**	**96.54**	**22.5**	**60.4**

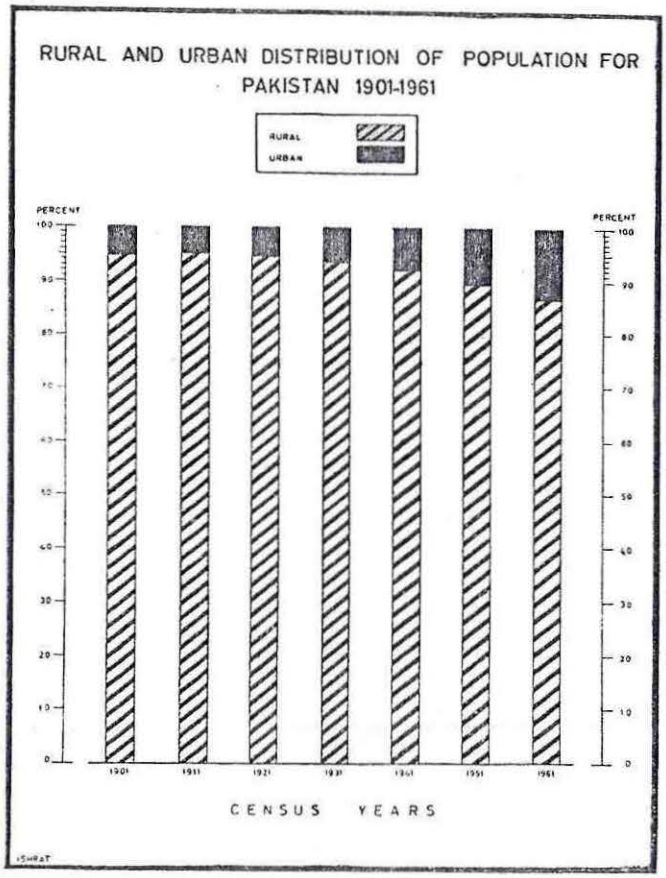

The unequal rate of growth in the two sectors of Pakistan's population are reflected in the changes in their proportion of the total from one census to another, which are shown in figure 3.1. In 1901 Census only 5.1 per cent of the total resided in urban places. In 1941 and 1951 the size of the urban population was 7.9 per cent and 10.4 per cent respectively. Then the big jump came. In 1961 Census it became 13.1 per cent.

3.4—Changes in Rural and Urban Distribution of Population, 1951 and 1961

The 1961 Census indicates a sharp contrast between rural and urban growth of Pakistan's population. It revealed that urbanization has been gathering momentum in recent years. Statement 3-C shows the trend over the last 10 years for both Pakistan and provinces. This table shows that the progress of urbanization has by no means effected in both the provinces with equal force. Wide variations between provinces in the rate of urban growth which has persisted in the past are reflected in the distribution of rural and urban population in the recent years.

3.5—Difference in Sex Ratio between Rural and Urban Population in 1961

The large scale redistribution of population in Pakistan which has been gathering momentum in recent years has served as an important factor in altering not only the size and the rate of growth of local population but also their sex structure. Since migration tends to be selective with respect to age, sex and various other characteristics of population, such drastic shifts in population distribution as were observed in Pakistan in recent years are bound to intensify the structural differences among local population. Details of the variations in the age composition as well as marital status of Pakistan's population will be presented in Census Bulletin No. 3 in April 1962. Here attention will be directed to only rural and urban differences in sex structure of the population recorded in 1961 Census.

Statement 3-D—the distribution by Sex and the Sex Ratio of population for Pakistan and Provinces—Rural and Urban—1951—1961.

Locality	1961			1951		
	Male (000's)	Female (000's)	Males per 100 Female	Male (000's)	Female (000's)	Males per 100 Female

URBAN ..	15,51	10,90	142	11,09	7,36	151
WEST PAKISTAN	2,29,60	1,99,21	115	1,81,70	1,56,09	116
RURAL ..	1,75,86	1,56,40	112	1,47,85	1,29,76	114
URBAN ..	53,74	42,81	126	33,85	26,34	129

As is shown in Statement 3-D the ratio of men to 100 women for Pakistan as a whole was 113 in 1951.

The big male excess in the urban population is largely due to the fact that there have always been more males than females among migrants. Among different types of communities the sex composition is strongly uneven. Suggesting the predominance of male migrants from rural areas to urban centres, the sex ratio was considerably higher than 100 for all the urban areas than in rural areas. The imbalance between the two sexes was most propounced in urban areas where about 29 per cent more males than females are reported in 1961 census. The contrasting excess of men over women in urban areas was much less marked, because in recent years generally males dominated migration tended to consistent in urban centres and thus to counteract the effect of this proportion of heavy male from rural to ruban areas of the country.

3.6—Growth of Cities and Towns over 1901—1961

An examination of the changes in urban population will shed some light on the details of urban growth. The data on the increase in the number of such places by size group and the changing proportions of the total population reported in various size groups between 1951 and 1961 are presented in Statement 3-E. These data, of course, tend to understate the actual urban population, because they fail to take into account the rapidly increasing sub-urban population. In course of 10 odd years, moreover, not a few have moved from one size category to another; hence the composition of each size group changed. This fact makes it impossible to assess precisely the variation in the rate of growth by size. Despite these limitations, however, the data provide at least a useful basis for examining the general pattern of population concentration among diffierent size groups as well as the shifts in the trend of urban growth.

In 1951 there were 282 cities and towns with a combined population of 78,12,750 accounting for only 10.4 P.C. of the total residents in Pakistan. Within 10 years, 111 places joined this class and bring the total number of 1961 to 393 while the population multiplied to more than 12.2 millions or 1.6 time the number in 1951. Correspondingly, the proportion of the total population of Pakistan found in these places rose to 13.1 P.C.

STATEMENT 3-E—NUMBER OF CITIES AND TOWNS AND DISTRIBUTION OF THEIR POPULATION BY SIZE GROUPS FOR PAKISTAN—1951—1961

Year	Total	1,00,000 and over	50,000 to 99,999	25,000 to 49,999	10,000 to 24,999	5,000 to 9,999	Less than 5,000
			NUMBER				
1951 ..	282	11	8	37	74	96	56
1961 ..	393	16	15	45	101	127	89
			POPULATION				
1951 ..	78,12,750 (1)	38,95,892	5,76,429	13,30,995	11,14,443	7,01,667	1,93,324
1961 ..	1,22,95,298 (1)	68,96,508	9,97,478	16,44,552	15,34,858	9,45,529	2,76,373
			PERCENTAGE DISTRIBUTION

			Per cent of Total Population				
1951 ..	10.3	5.1	0.8	1.8	1.5	0.9	0.2
1961 ..	13.1	7.4	1.1	1.7	1.6	1.0	0.3

(1) Excluding Non-Pakistanis.

The data in Statement 3-E also indicates the general trend towards the emergence of increasingly larger population agglomerations.

The trend towards increasing concentration of population of large centres implied by the figures is also indicated by the significant changes in the distribution of population among different size groups. In 1951 the distribution was more or less even among the 4 size groups given in Statement 3-F and it was some what in favour of smaller size groups of under 50,000 population. Since then, the proportion of total population living in smaller size groups tend to decline more or less consistently; whereas relative importance of all the other size groups increased, though in varying degrees.

Statement 3-F—Urban Population by Size of Pakistan—1951—1961

Size Group	1951			1961		
	Number	P. C. of total Population	P.C. of Urban total	Number	P.C. of total Population	P.C. of Urban total
Total	**282**	**10.3**	**100.0**	**393**	**13.1**	**100.0**
1,00,000 and Over ..	11	5.1	49.9	16	7.4	56.1
50,000—99,999 ..	8	0.8	7.4	15	1.1	8.1
25,000—49,999 ..	37	1.8	17.0	45	1.7	13.4
10,000—24,999 ..	74	1.5	14.3	101	1.6	12.5
5,000—9,999 ..	96	0.9	9.0	127	1.0	7.7
Under 5,000 ..	56	0.2	2.4	89	0.3	2.2

Particularly spectacular was the increase in places of one hundred thousand population and over. In the 1941 census there were 9 cities in this size group. In the last two decades other cities had moved into this size group and together have almost 6.9 million inhabitants by 1961. The population of 16 cities reported in this size group in 1961 thus accounted for 7.4 P.C. of the total population of the country and as much as 56.1 P.C. of the urban total as shown in Statement 3.F.

Statement 3-G—Population increase in the cities with a Population of 1,00,000 and above in 1961, 1951 and 1941.

City	Population			P. C. Increase		
	1941	(1) 1951	(1) 1961	1941—51	1951—61	1941—1961
Karachi	3,86,655	10,64,557	19,12,598	175.3	79.7	394.7
Lahore	6,71,659	8,49,333	12,96,477	26.5	52.6	93.0
Dacca	2,39,728	3,35,928	5,56,712	40.1	65.7	132.2
Hyderabad ..	1,34,693	2,41,801	4,34,537	79.5	79.7	222.6

Multan	1,42,768	1,90,122	3,58,201	33.2	88.4	150.9
Rawalpindi	1,85,042	2,36,877	3,40,175	28.0	43.6	83.8
Peshawar	1,73,420	1,51,434	2,18,691	12.7	44.4	26.1
Gujranwala ..	84,545	1,20,852(2)	1,96,154	42.9	62.3	132.0
Sialkot	1,38,708	1,67,506(2)	1,64,346	20.8	1.9	18.5
Narayanganj ..	56,007	68,373	1,62,054	22.1	137.0	189.3
Sargodha	36,420	78,447	1,29,291	115.4	64.8	255.0
Khulna	31,749	41,409	1,27,970	30.4	209.0	303.1
Quetta	64,476	83,892	1,06,633	30.1	27.1	65.4
Sukkur	66,466	77,026	1,03,216	15.9	34.0	55.3

Note —1. Excluding Non-Pakistanis.

2. Including population of Refugee Camp.

The trend towards heavy concentration of population in the larger cities of the country was most pronounced in the last 10 years (1951—61).

4. Religion

4.1—Recognising the importance of religion in Pakistan a question on religion was included in the Schedule of every Census. In this way a sort of case study, or population profile, is made, enabling the readers to see each religious body as a whole.

From a numerical point of view Muslims are preponderant. Next in importance are the Caste Hindus and Scheduled Castes. Christians, the fourth largest community, came far behind with 0.07 per cent of the population in 1901, but its growth in recent years is amazing.

Statement 4-A shows the percentage distribution of the population by religion in Pakistan and the two provinces according to the 1961 census.

Statements 4-A Percentage Distribution by Religions—1961

Religion	Pakistan	East Pakistan	West Pakistan
	Per cent.	Per cent.	Per cent.
Muslims ..	88.1%	80.4%	97.2%
Caste Hindus..	4.9%	8.6%	0.5%
Scheduled Caste	5.8%	9.8%	1.0%
Christians ..	0.8%	0.3%	1.4%
Buddhists ..	0.4%	0.7%	0.006%
Others ..	0.05%	0.1%	0.01%

Statement 4-B gives absolute figures and per cent of the population in each religion from 1901 to 1961.

There are more than 82.5 million Muslims in Pakistan or 88.1 per cent of the total population, and they are far more numerous than in any other country in the world. The Muslims' population shows quite rapid growth. Statement 4-B shows that the rate of increase in last 4 censuses is much higher in West Pakistan than in East Pakistan. The highest percentage of Muslims is in Kushtia district in East Pakistan and in Mekran district of West Pakistan. The lowest percentage of Muslims is in Chittagong Hill Tracts district in East Pakistan and in Tharparkar district in West Pakistan.

There are 45,90,417 Caste Hindus and 54,11,057 Scheduled Caste in Pakistan. Statement 4-B shows that the increase in Hindu population had always been poor. A big fall of Hindu population in 1951 may be attributed to the interchange of population which took place soon after the emergence of Pakistan.

It also reveals that most of the Hindus are located in East Pakistan. The highest percentage of Caste Hindus and Scheduled Caste combined is in Khulna district in East Pakistan and in some of the districts of West Pakistan their number is negligible.

Christianity has grown fastest of all religions in Pakisian. Between 1901 to 1961 Christians have increased about 23 times and their proportion to the total proportion has increased about ten times. The trend is as follows.

Year	*Number* (in '000')	*P.C. of Population.*
1901	32	0.07
1911	119	0.23
1921	214	0.39
1931	418	0.70
1941	474	0.67
1951	540	0.71
1961	733	0.78

In the last decade Chirstians have increased by 5.8 per cent in Pakistan, 39.8 per cent in East Pakistan and 34.9 per cent in West Pakistan. Most of the Christians are located in West Pakistan. Their highest number is in Lahore district. The rate at which they increased in some districts of Pakistan during the last decade is unprecedented and phenomenal. Taking some of the districts where the Christian population is large, it may be seen that it has increased by 27.7 per cent in Lahore, 35.6 per cent in Montgomery, 47.9 per cent in Multan, 40.2 per cent in Sheikhupura and 273.6 per cent, in Rawalpindi. In East Pakistan the number of Christians is smaller than in West Pakistan but the rate of increase has been faster. Chittagong Hill Tracts district shows an increase of 171 per cent, Rangpur district 160 per cent, Dinajpur district 134 per cent and Pabna district 87 per cent. These percentages are above the district average.

Buddhists have grown from 319,630 to 376,312 or by 17.7 per cent. Their growth does not appear to be unusual.

STATEMENT 4-B—COMMUNITIES IN PAKISTAN AND PROVINCES THEREIN AS RECORDED IN 1901 TO 1961 CENSUS

PAKISTAN

(In thousand)

COMMUNITIES	1901	1911	Percentage increase.	1921	%	1931	%	1941	%	1951	%	1961	%

One Lakh	—	1,00,000	= 100	Thousand

TABLES 1, 2 AND 3—URBAN AND RURAL POPULATION

These tables present an analysis of the distribution of Population by sex in Urban and Rural Areas and also shown area in sq. miles, persons per sq. mile and females per 1,000 miles.

Non-Pakistanis are excluded from these tables but Table 11 shows them in districtwise distribution.

According to Census definition urban areas include Municipalities, Civil Lines and Cantonments not included within Municipal limits, etc. and any other continuous collection of houses inhabited by not less than 5,000 persons which the Provincial Director of Census decided to treat as urban for Census purposes. As special cases a few areas which had urban characteristics but had less than 5,000 population were also treated urban areas. Details of urban areas are given in Tables 4 & 5.

The figures for area have been obtained from the Surveyor General of Pakistan and are based on his latest calculation. Gwadur which became part of Pakistan in 1958 is included. The density both for East and West Pakistan has been calculated on the area including river areas.

Figures for population of certain regions on the North-West Frontier of West Pakistan are based partly on estimates covering a small segment of population, details of which are given in Table 12.

TABLE 1—URBAN AND RURAL POPULATION SHOWING AREA, DENSITY AND SEX RATIO—PAKISTAN, 1961.

TABLES 4 AND 5 POPULATION OF URBAN LOCALITIES

These tables show the population by sex in cities and towns for each district of East and West Pakistan. They also show increase or decrease over preceding census and females per thousand males.

According to 1961 Census definition, Urban Areas include Municipalities, Civil Lines and Cantonments not included within the municipal limits etc. and any other continuous collection of houses inhabited by not less than 5,000 persons which the Provincial Director of Census decided to treat as urban for census purposes. As special cases a few areas which had urban characteristics but had less than 5,000 population were also treated as urban areas.

Every urban area having 1,00,000 or over inhabitants is described as a "CITY". Its component elements, if any, are shown below in italics.

The District totals include the population of both the urban and rural areas. The total population of all urban localities in each district is given in tables 2 and 3.

Persons claiming nationality other than Pakistanis are excluded from 1961 figures but are included in 1951 figures in both the tables.

TABLES 6, 7, 8, 9, 10 and 11. POPULATION BY SEX AND RELIGION.

These Tables analyse the distribution by sex according to religions. The information in regard to religion was obtained in reply to Census question No. 7 for which seven boxes were provided on the Census Schedule, one of which had to be ringed round by the enumerator according to the reply of the respondent. The religions printed in the schedule were (1) Muslim (2) Caste Hindu (3) Schedule Castes (4) Buddhist (5) Christians and (6) Parsi. The last blank box was intended for persons who claimed a religion other than those recorded on the schedule. If a person claimed no religion "None" was written in the blank box. The original schedules were sorted according to the rings round the religion box and were counted to produce the statistics shown in these tables.

Tables 6, 8 and 10 give totals of the main religious groups, *i.e.*, Muslims, Caste Hindus, Schedule Castes and others (total of smaller religious groups). Tables 7, 9 and 11 analyse the columns headed "Others" in Tables 6, 8 and 10 and give total of smaller religious groups, *i.e.*, Buddhists, Christians, Parsis, Tribals and Others. The column "Others" includes persons who claimed to adhere to a religion not specified in the enumeration schedule or who had no religion or who refused to report their religion.

TABLE 12—URBAN AND RURAL POPULATION OF FRONTIER REGIONS OF WEST PAKISTAN—1961.

The Census taken in Frontier Regions of West Pakistan is comprised partly of "Enumerated" and partly of "Estimated" figures. Out of total population of 34,37,939, 12,83,028 were enumerated and 21,54,911 were estimated. The process of "Estimation" was the only possible means of assessing the greater part of the Frontier Regions population in past Censuses, but the area in which it has been possible to carry out enumeration has been steadily widened and there has been a considerable improvement in 1961.

Three types of census schedules were used in this area for enumeration, namely (i) Standard Pakistan Individual Census Schedule (ii) Tribal Individual Schedule (iii) Special Family Schedule for Tribes. The designs of the schedules are shown in appendices B, C and D.

TABLE 14—NON-PAKISTANIS BY SEX AND NATIONALITY, 1961

This table gives details of those persons who reported themselves as Non-Pakistanis including Afghan Powindahs. However, Non-Pakistanis in Agencies of Peshawar and D. I. Khan Divisions are not included in this table. This information was given in reply to Census question No. 6 which asked "Are you a Pakistani; if not, what is your nationality?"

The persons included in this table are excluded from all Other Census Tables.

POPULATION CENSUS OF PAKISTAN, 1961

Pocket instructions for Enumerators

General:

1. Read, mark and learn this Booklet so that you may be ready to assist respondents who have any difficulty in choosing their answers.

2. Fill in the Location Code at the top of each schedule at home before you start Enumeration. The following is an example of how these 5 boxes should be filled up by an imaginary Enumerator whose Block Location Code number is 334060312.

Admin. Distt.	Census Distt.	Charge	Circle	Block
33	4	06	03	12

3. The remainder of each schedule is to be completed in the field at the actual time of enumeration. Please write clearly and definitely, using your presentation Ball-point pen.

4. Be sure to include all persons enumerated in Cols. 8 to 16 of Housing Census Schedule who are still present. Also satisfy yourself that all *INFANTS* and all additions made in the household until the time of Enumeration are properly reported. People usually foreget to get all the *female members* enumerated, so take special care to see that *every female* in the household is enumerated.

5. Always introduce yourself by showing your letter of Appointment which you should carry with you.

6. Should any person object to answering any Census question you should explain that the information collected is STRICTLY CONFIDENTIAL, that it will not be communicated to any person whatsoever, and that no use will be made of it, which can in any way injure the respondent's interests.

7. Spoiled Schedules should *not* be removed from the pad, but should be clearly cancelled with a cross on both sides. If a wrong entry is made by mistake under any question, it may be neatly cancelled by a cross (×) and the right entry made.

Whom to Count:

8. The object is to *include in the Census* all persons who are normally residents of Pakistan and all visitors to Pakistan during the Enumeration Period. The Census s to be complete and the motto should be "catch every person", but *no one should be counted more than once.*

9. Therefore *visit each and every house* during the Enumeration Period, missing no place in your Block. Write a schedule for every person you find there who is a Normal Resident, and also for visitors, travellers and wanderers in accordance with these instructions.

10. *A Normal Resident* in a house is a person who has his or her present regular residence or lodging place there. If you have any doubt as to whether a person is truly a normal resident, you should fill in a schedule for him or her and make a note to consult your Supervisor.

11. *Absent members of the household.*—The object of the *Preliminary Questions* is to ensure that persons who are temporarily away from their present normal residence for part of the Enumeration Period, are enumerated in the locality, in which they normally reside. This will be part of your job.

Persons who are absent from their Normal Residence during the *whole* Enumeration Period will be counted at the place where they have gone and you need not worry about them.

12. *Temporary visitors* who have not already been enumerated, should be enumerated where they are found no matter where they come from, unless they will be back at their normal place of residence in Pakistan at some later time during the Enumeration Period. If you enumerate them you must warn them not to allow themselves to be enumerated again. But if you do *not* enumerate them you should ask them to get themselves enumerated at their normal place of residence when they return there before 31st January, 1961.

Post Enumeration check:

13. In addition to normal Supervision and Checking during the Enumeration Period, a percentage of the Enumeration Schedules will be completely checked soon after the "BIG COUNT" in order to assess the accuracy of the Census. Every Census Officer should try to ensure that no defect is discovered in his work at that stage.

Questions	How to write answers
PRELIMINARY QUESTIONS:	
House No.	Write in the box.
Household No. (within the house).	Write in the box.(This will nearly always be "1" save in cities).
Have you been enumerated already?	If "NO" ask question (a).
(a) Is this your present REGULAR residence or lodging place?	If "YES" carry out enumeration in full. If "NO"ask question(b).
(b) Will you be BACK in your normal residence before 31st JANUARY, 1961?	If "NO" or doubtful, carry out enumeration. If "YES" do not fill in this form, but carefully warn the person that it is his/her duty to see that a form is made out at his/her normal residence.
Q. 1. NAME?	Write it out. If a tribesman put name of tribe, clan and sec-

tion of tribe after the person's name in Quetta and Kalat Divisions and in the area between the Durand Line and the settled Districts in the Peshawar and Dera Ismail Khan Divisions. In Chittagong HillTracts, put name of Tribe.

Explanation.—Statistically names have no significance and the record of names will be later destroyed. The reason for the recording of the name is to assist you in obtaining correct information and in preventing double counting. If a child has not been named enter "Son of————" "Daughter of————". If any person is hesitant to let you know the names of female members of his household, do not insist upon knowing the name but write down "Wife of————", "Daughter of————" and so on. Similarly if the respondent is a woman, do not insist upon knowing the name of her husband or any such person whose name she is reluctant to give in view of any prevailing custom.

Relationship to HEAD OF HOUSEHOLD?	Write it out.

Explanation.—For Head, write "Head". For wife or husband, son or daughter of Head, enter "Wife". "Husband", "Son", "Daughter" as the case may be.

For non-relatives enter "Servant", "Guest", "Friend" and so on, as the case may be.

Q. 2 SEX?	Ring round "Male" or "Female".

Explanation:—Every person will be classed either as male or female. Eunuchs will be recorded as males.

Q. 3. AGE?	Write the number of *years completed* on the 31st January, 1961.
For Infants under one year.	Write number of *completed months* in box "*Under one year*", *i.e.* 0 to 11.

Explanation:—Enter age in *completed years*, except for children less than 12 months old *e.g.*, a person who will be 20 years 10 months on 31st January, 1961, should be entered as 20 years and not 21 years. For a child less than 12 months old, enter number of *completed months*. Enter "0" months when under 1 month. If age is not known, try to ascertain the age as accurately as possible by reference to any past event which may be remembered. The estimation of age is of great importance and calls for intelligence and diligence on the part of the Enumerator. It will generally help in the estimation of ages to enumerate the children in a household starting from the youngest child.

Q.4. MARITAL STATUS?	
Single.	Ring round "1" under 'Single'.
Married.	Ring round "2" under 'Married'.
Widowed.	Ring round "3" under 'Widowed'.
Divorced.	Ring round '4" under "Divorced".

Explanation.—"Single" applies only to persons who have never been married.

"Married" includes all persons who are at present married, all persons habitually living together as man and wife and all persons living apart but still married and not widowed or divorced.

"Widowed" applies to a person whose husband or wife is dead, and who has not married again.

"Divorced" applies to both divorcer and divorcee if not remarried.

Q. 5. WERE YOU BORN IN THE DISTRICT? If not, WHERE?	If yes, ring round "Born in". For other places in Pakistan write name of the District. If born in "Azad Kashmir" or "Occupied Kashmir" the word "Azad Kashmir" or "Occupied Kashmir" should be written along with the name of District. If born in India, write "India" along with the name of District. Elsewhere write name of COUNTRY ONLY.

Explanation:—Birthplace means the country or district in which the person was born according to present political boundaries which may differ from those existing at the time of birth.

Q. 6. Are you a PAKISTANI?	If yes, ring round "PAK".
If a Powindah; ask, are you an Afghan Powindah?	If yes, write "AFGHAN" and put "*Powindah*" after it.
If a Kashmiri: Are you a national of "Azad Kashmir" or "Occupied Kashmir"?	Write one of them.
If not, what is your NATIONALITY?	Write it out.

Explanation:—Write down exactly what the respondent says. People know quite well whether they oregard themselves as Pakistanis or not and it is their pinion that has to be recorded.

For non-Pakistanis record the name of the country of which they claim to be Nationals.

Afghan Powindahs:—If an Afghan does not know whether he is a Powindah, ask him how long he is staying in Pakistan. If he is here only for the winter, treat him as a Powindah.

Q. 7. RELIGION?	Ring round the appropriate number.

Explanation.—Accept respondent's own classification. The last blank box is intended for persons who claim a religion other than those recorded on the schedule, when the religion claimed should be written in the blank box. If a person claims no religion, write "None" in the blank box.

Q. 8. DISABLED?	If totally blind, ring round "1" under "Blind". If deaf and dumb, ring round "2" under "Deaf and Dumb" If crippled, ring round "3" under "Crippled".

Explanation:—A person will be treated as blind if he cannot count the Enumerator's fingers held up about one foot in front of his face with or without spectacles, and as "Crippled" if he is permanently unable to use one or both of his arms and/or legs. A person who is deaf but *can* speak, or dumb but *can* hear will not be counted as "deaf and dumb".

IF NOT DISABLED, PUT A CROSS IN THIS BOX

Q. 9. MOTHER-TONGUE?	Ring round the appropriate number under languages.

Explanation:—One of the last blank columns is intended for persons whose mother-tongue is not one of those named on the schedule; when that is the case write the name of the language in the blank heading and then ring the number underneath. Every person must have a mother-tongue. In the case of a young child who is as yet unable to speak, or of a deaf-mute, the language to be entered would be that principally spoken at the present time in the home by the parents or guardians. A person cannot have more than one mother-tongue and for this reason there should be *only one* entry in this column.

Q. 10. OTHER LANGUAGES YOU CAN EASILY SPEAK?	Ring round the appropriate number under languages.

Explanation.—The respondent should not claim to speak any language unless he can easily converse in it, if he claims to be able to speak languages which are not provided on the schedule write the names in the blank columns and ring the number in the appropriate box. The language already ringed as mother-tongue in the preceding question should *NOT* be ringed again in this question which deals only with OTHER languages spoken.

Q. 11. LITERACY? (i) Are you able to *read and write* a simple letter? If so, in what languages? (ii) Are you able to *read* with *understanding*, but not write? If so, in what languages? (iii) Are you able to read the Holy Quran *without understanding*?	Ring round the number under appropriate languages against "Write and Read". Ring round the number under appropriate languages against "Read only". If yes, put a mark under Arabic in box 9 against "Read only".

IF CANNOT READ OR WRITE AT ALL, DRAW A CROSS RIGHT THROUGH THESE BOXES.

Explanation:—A ring round 9 under Arabic against "Read only" will mean that the respondent can read Arabic and the Holy Quran *with* understanding, A in this box will clearly mean ability only to read the Holy Quran *without* understanding. Languages already ringed for "Write and Read" should not be ringed again for "Read only".

Q. 12. SCHOOL OR COLLEGE ATTENDANCE? Are you *NOW* ATTENDING A SCHOOL OR COLLEGE OR AN INSTITUTE OF EDUCATION?	If attending a school or college of General or Professional Education, ring round "G". If attending an Institution of Technical Education, ring round "T". If attending a Maktab, ring round "M".

IF A PERSON IS NOT AT PRESENT ATTENDING ANY SCHOOL OR COLLEGE, PUT A CROSS IN THE BOX "NOW GOING TO SCHOOL OR COLLEGE".

Explanation:—For the purpose of Census a person is regarded as regularly attending school or college, or a technical institution regardless of any temporary break in attendance due to sickness or holiday, etc. The terms "School" and "College" cover institutions imparting General or Professional Education below and above matriculation standard respectively without regard to the names of the Institutions.

Technical Institutions include Polytechnics, Technical High Schools, etc.

Maktab or Madrasa includes places where the Holy Quran and often elementary Urdu or other local languages are taught by an Imam, Maulvi or other teacher.

Q. 13. EDUCATION?	(This applies both to those who are now attending School/College, and to those who have completed education).

(i) WHAT IS THE HIGHEST GRADE YOU HAVE PASSED IN SCHOOL OR COLLEGE?	(a) *For below Matriculation.* Ring round the appropriate number, from 1 to 9 for the highest class completed at School. (b) *For Matriculation and above.* Ring "M" for Matriculate. Ring "Int" for Intermediate Passed. Ring "D" for Degree Holder. Ring "HD" for Higher Degree such as Master's or Doctor's Degree, and Ring "O" for others including Oriental Degrees.
(ii) In which *FIELD OR PROFESSIONAL (INCLUDING TECHNICAL) EDUCATION*, If any, have you passed?	Ring round "1" under "Edu" for Education. Ring round "2" under "Med" for Medicine. Ring round "3" under "Engin" for Engineering. Ring round "4" under "Agri" for Agriculture. Ring round "5" under "Com" for Commerce. Ring round "6" for Law. Ring round "7" for Others.

Highest Grade Passed in Gen. or Prof. Education
1 2 3 4 5 6 7 8 9 M. Int. D. HD. O. Cert. Dip.

FIELD

Educ.	Med.	Engin.	Agri.	Com.	Law	Others
1	2	3	4	5	6	7

Cert:—If passed "middle" or the 8th class in School or higher, and hold a Certificate awarded by a recognised Educational Institution after at least 6 months full time attendance in the field of Educ., Med., Engin. or Agri., ring "Cert" and the number of the appropriate Professional (including Technical) field, as well as the highest grade in general education. *e.g.*, a certificated Nurse who has passed "middle" or the 8th class would have 3 rings round "8" . "Cert" and "2" under "Med". field. Certificates will not be recorded if general education has not passed "middle" or the 8th class.

Dip:—If passed Matriculation or higher and hold a recognised Diploma, ring "Dip" and the number of the Professional (including Technical) Field, as well as the highest grade in general education, *e.g.*, a Diplomaed Teacher who has passed Matric, will have 3 rings round "M", "Dip" and "1" under Educational Field. No Diploma will be recorded unless the holder has passed Matric or higher in general education.

Field:—The professional (including Technical) Field should only be ringed in the case of those who hold a recognised Professional (or Technical) Certificate or Diploma, or a Professional Bachelor's, Master's or Doctor's Degree.

IF A PERSON HAS NOT PASSED ANY GRADE AT ALL, PUT A CROSS IN THE BOX

Q. 14. OWNERS OF AGRICULTURAL LAND. DO YOU OWN AGRICULTURAL LAND IN PAKISTAN?	Ring round "Yes" or "NO" as appropriate.

Explanation:—(1) Agricultural land *includes* land producing crops and also banjar, It *excludes* building sites and land reserved for residential purposes such as 'Abadi deh'.

(2) *Owner* of Agricultural land *includes* one shown as such in the Revenue records (khewat or khata). But it also *includes* Lease purchasers, Mortgagees with possession, Refugees and other persons who have been given provisional or permanent allotment of Agricultural land and Grantees of land in Colonies on instalment payment or other bases (including those who became owners after Land Reforms).

(3) *Owner excludes* those who are mortgagees *without* possession and adult sons of landowners who work their parents' land, with or without their own ploughs. It *excludes* also all occupancy and other tenants and share croppers.

REMAINING QUESTIONS ARE TO BE ASKED ONLY OF PERSONS TEN (10) YEARS OLD AND ABOVE.

Q. 15. ECONOMICALLY ACTIVE UN-EMPLOYED AND INACTIVE. Are you *WORKING FOR PROFIT* or to EARN	If "Yes", ring round (1).

WAGES or *SALARY* or do you HELP ANY MEMBER OF YOUR FAMILY ON THE FARM, ETC.?	
If not working at present, are you LOOKING FOR WORK for salary or wages or profit, etc.	If "Yes", ring round (2). If "No", ring round (3).

Explanation:—(1) If the respondent is *not* a tiller of the soil, this question should be put with specific reference to "WORKING" or "NOT WORKING BUT LOOKING FOR WORK" *during* the *last week*, *i.e.*, a non-agricultural *worker* who has not been working, but looking for work during the last week will be ringed "2", but if he has done any work for profit, etc., during the week, he will be ringed "1".

(2) "Inactive" is a person who is not working to earn his livelihood nor is he in search of any work. Students and house-wives doing *only household duties* are to be treated as "Inactive". But persons who are helping any member of their family in his profession or trade, even if they are not paid for such work in cash or kind, are to be classed as "Working". Persons not working and living on rent or pension *only* are also to be treated as inactives. Beggars and Prostitutes are also to be classed as inactives, because although they do earn, they are not helping in the production of economic goods.

(3) In the case of "Inactives" questions 16 to 20 will *not* be asked but the details of their categories will be ascertained from Question No. 21 and recorded accordingly.

Questions 16 to 20 to be asked only of persons who are "WORKING" OR "LOOKING FOR WORK", *i.e.*, who are ringed (1) or (2) in Q. No. 15.

Q. 16. WHAT IS YOUR MAIN OCCUPATION? (What kind of work do you do?)	If A TILLER OF THE SOIL, ring round "T" and move on to Q. 18. Otherwise write the OCCUPATION.

Explanation:—A tiller of the soil is one who himself works on the land or gets it cultivated under his direct personal supervision. Information regarding "Main Occupation" is required only if the person is "WORKING" or, if not working is "LOOKING FOR WORK". It is essential that a person's occupation be recorded in such a way that it may provide an adequate description of the work he is doing, or is looking for. In the case of a person looking for work for the first time, enter "NONE YET".

For your guidance a list of descriptions of occupations which are not acceptable without qualification is given below. This list is not comprehensive but gives an idea of the precision required.

Administrative Officer.—State whether Government Administrative, City Council Administrative Officer, etc.

Clerk.—State whether accounts clerk, correspondence clerk, stores clerk, solicitor's clerk, tally clerk, time-keeper, etc.

Driver.—State whether lorry driver, bus driver, taxi driver, car driver, tractor driver, railway engine driver, crane driver, bulldozer driver, etc.

Conductor.—State whether bus conductor, band conductor, railway conductor, etc.

Engineer.—State whether civil engineer, electrical engineer, mechanical engineer, mining engineer, motor engineer, etc.

Factory Worker.—State the exact nature of work done and the kind of factory.

Inspector.—State whether fire inspector, health inspector, labour inspector, police inspector, traffic inspector, ticket inspector, railway inspector, vehicle inspector, etc.

Labour.—State whether dock labourer, earth moving labourer, godown labourer, transport labourer, etc.

Manager.—State whether finance manager, personnel manager, general sales manager, textile retail manager, owner or partner (stating nature of business), etc.

Mechanic.—State whether motor mechanic, radio mechanic, lift mechanic, etc.

Owner Proprietor.—State nature of business owned.

Salesman.—State whether retail shop salesman, insurance salesman, ticket salesman, newsboy, street vendor, wholesale commodities salesman, broker, auctioneer, etc.

The description should be appropriate to the actual work done irrespective of educational, professional, or technical qualifications achieved by a person. Vague, incomplete and ambiguous descriptions like "*Service*", "Labourer", "Mulazmat" should be avoided.

For *PERSONS NOT RINGED*	*"T" IN QUESTION NO.16*
Q.17. NAME AND TYPE OF INDUSTRY, BUSINESS OR SERVICE?	Write it out.

Explanation:—Enter the name of the *Industry, Business or Service* in which the person is working.

The entry has to be made *only* if the person is working, or if not working, has been previously working and is at present looking for work. In the case of a person who is looking for work for the first time, enter "X" against this question.

Industry refers to the activity of the firm, establishment or department in which the person is employed or to be the kind of business the person operates. The following are examples of Industry/Business descriptions:

Stock-raising, forestry and logging, fishery, biscuit making, clothes making, furniture making, brick manufacturing, pineapple canning, cotton ginning, cotton textiles, jute textiles, woollen textiles, tannery, leather products, blacksmithy, motor repairing, road making, fish retailing, boot and shoe retailing, banking, insurance, architecture, advertising, cinema, restaurants, hotels, laundries, hair dressing, etc.

Railway transport, motor taxi service, motor cycle rickshaw service, air transport, postal services, primary school, technical school, university, Governmental medical services, private medical services, social welfare services, legal services, domestic services, armed services, etc.

The list is not comprehensive but it should indicate the variety of descriptions and the degree of precision required.

Q. 18. AGRICULTURAL STATUS?	Only *for persons ringed "T" in question No.* 16.
(i) Do you OWN ALL OR PART OF THE LAND you till?	If yes, ring round "1" under "owner cultivator".
(ii) TENANT—Do you pay rent in cash or kind for ALL OR PART OF the land you till?	If yes, ring round "2" under "Tenant".
(iii) Are you UNPAID FAMILY HELP?	If yes, ring round "3" under "Family help".
(iv) Are you an AGRICULTURAL LABOURER working for others for wages in cash or kind?	If yes, ring round "4" under "Agricultural Labour".

Explanation:—All persons classed as Tillers in Q. 16 must have a ring round one or more of the numbers in this question. For instance a man who owns a little land which he cultivates himself, who also has some land on rent, and who in his spare time works for reward in agriculture for others will have rings round number 1, 2 and 4.

Q. 19. STATUS IN BUSINESS, TRADE, INDUSTRY OR SERVICE?	*For persons Not ringed "T" in question* 16.
(i) In your main occupation do you EMPLOY OTHERS ?	If yes, ring round "1" under "Employer".
(ii) or Are you an EMPLOYEE?	If yes, ring round "2" under "Employee".
(iii) or An INDEPENDENT worker?	If yes, ring round "3" under "Independent worker".
(iv) or UNPAID FAMILY HELP?	If yes, ring round "4" under "Unpaid family help."

Explanation:—Every non-agriculturist who is economically active must be classified under one and *only* one of the above categories.

Note that the whole question concerns the main occupation given in question No. 16. Persons who employ others in their profession or business will be classed as "Employer". No one will be classed as "Employer" merely because he employs domestic servants. For example, a cook is classed as an employee in his occupation, but if he is cooking for, let us say, a civil servant, the latter will *not* be shown as an employer on that account. Similarly a Company Director for instance, although he may have power to appoint and discharge Company staff, will not be classed as "Employer", because he himself is an employee of the Company. An independent worker is his own master in his trade or business who does not employ others. An unpaid family help is a member of the family who assists directly in the trade or business of another member but receives no separate payment in cash or kind.

Q. 20. HAVE YOU ANY SUBSIDIARY MEANS OF LIVELIHOOD? IF SO, WHAT?	Write it out.

IF A PERSON HAS NO SUBSIDIARY OCCUPATION PUT A CROSS IN THE BOX.

Explanation:—Enter the name of Subsidiary Occupation in full, or at least, in sufficient detail to ensure identification from the Main Occupation.

In order to claim "Subsidiary Occupation" a person must be following two occupations, the

second being pursued in addition to or alternatively to the "Main Occupation".

This may be either a secondary source of income pursued throughout the whole year or an alternative means of livelihood adopted at times when the main occupation cannot be followed. This distinction, however, need not be recorded, and it is only neecessary for the Enumerator to say what, if any, is the secondary or alternative means of livelihood of the respondent.

In rural areas the Subsidiary Occupation (if any) of cultivators will generally be one of the agricultural occupations such as poultry, bee keeping, etc, or a cottage industry, Service on roads or in the militia may be a normal subsidiary occupation in some areas. When Cottage industries are given as subsidiary occupation, they should be described as "Home weaving". Home pottery making", "Home mat making," etc.

Q. 21. DETAILS OF INACTIVES?	*Only those persons who are ringed as "3" in question No. 15 should be asked:*
(i) Do you work as HOUSE WIFE, *i.e.*, perform household duties only?	Ring round number "1".
(ii) Do you receive any kind of RENT, PENSION, etc.?	Ring round number "2".
(iii) Are you an INMATE OF MENTAL ASYLUM, JAIL or other such Institution or are you a beggar?	Ring round number "3".
(iv) DEPENDENT and others.	Ring round number "4".

Explanation:—More than one of the numbers in this Question may have to be ringed.

Q. 22. ONLY FOR WOMEN WHO ARE OR HAVE BEEN MARRIED?	
(i) *During your whole married life*: How many CHILDREN have been born ALIVE altogether?	Write under "Children born" total number of children born alive to her.
(ii) *During your whole life*: How many years you REMAINED MARRIED altogether?	Write under "Years Wed" total number of years.

Explanation:—Include any infant born alive who may have died since.

If a woman has been married more than once the two questions should cover the whole period she remained married from the date of her first marriage. For example, a woman married for the first time and after 5 years was divorced. Some years *later* she remarried and her new husband died 10 years later, since when she has remained a widow in this case "Total years remained wed" is 5 + 10=15 years.

After filling up a Schedule for each member of the household, you should check again that no one in the household (particularly daughter-in-law) has been overlooked. Also that no one normally resident in the household is temporarily absent and expected back before the 31st of January 1961.

Progress Reports:

Carry out the enumeration of your area progressively every day. Don't leave the work to be done towards the end of the Enumeration Period. In order to ensure this, report regularly to your Supervisor in the prescribed forms regarding the percentage of the work completed on the dates shown in the Calendar. The first round of your visits to all the houses in your Block should be completed during the 1st two weeks. Then during the next three days carry out a 2nd round and enumerate the Households that might have been left out during the 1st round, and also those normal residents who were temporarily absent, but have since returned and have not been enumerated elsewhere. Two days before the last date (*i.e.*, 29th January 1961) make an announcement in your Block that persons left out may kindly report to you at an agreed place and get themselves enumerated. Continue the checking for omissions during the last two days and then on the actual Census Night (Night of the 31st January) you must make a rapid and thorough examination of the whole Block. All new arrivals, travellers, wanderers, homeless folk and others who are found then anywhere within your area must be questioned and, if they have not been enumerated before, slip must be prepared for each of them.

The End of the Work :

When you are sure that you have properly enumerated every person in your Block, and your last check-up has been completed as above, you should recount all your valid schedules in each Pad and check the totals which you will have recorded on the back covers thereof, showing males, females and literate persons separately. These totals on the back covers should then be added up and the grand totals recorded in your Report Sheet reproduced as a detachable form at the end of this Booklet. This report sheet should then be removed and handed over

to your Supervisor along with the used and partially used pads of Schedules and the Supervisors receipt should be obtained in the form below:

Copy No. 1 of the Housing Census Register should also be handed over to the Supervisor at this time which should be before 3rd February 1961.

SUPERVISOR'S RECEIPT

Mr. (name)..... the Enumerator of Census Block (No).....has today (3rd February 1961 or earlier) handed me..... .....pads of Individual Census Schedules properly completed to cover.....(No.) Persons.

Date.....

Signature of Circle Supervisor.

ENUMERATOR'S REPORT FORM

I,....., hereby certify that I have taken the Census in the whole of Block No..... (write the Code No.) in accordance with the official instructions.

Herewith are handed over.....(No.) pads of completed Enumeration Slips containing records concerning.....males and.....females. *viz.*,.....(total) persons of whom..... are literates.

Date.....

Signature of Enumerator.

INTRODUCTION

The village is the basic unit of revenue administration and the need for basic statistics for villages is quite obvious as all planning depends on such statistics. They are also indispensable for carrying out sample surveys over limited areas and form the basis of continuous collection of statistics on different aspects of rural life and economy. The village was taken as the basic unit of enumeration if its population was 600 or it was a continuous collection of about 150 houses on an average. Where the village approximated to this size, it was constituted into a Block. A large number of villages had to be split up into a number of Blocks, but the boundaries of Census Block did not go beyond the limits of a revenue estate. All statistics pertaining to a village concerning land administration are given by "Mauza" or revenue estate and the importance of this territorial unit in our administrative set-up is unique. A "Mauza" may be defined as a parcel or parcels of land having a separate name in the revenue records and known limits. The unit of revenue administration is the revenue estate or "deh" which is usually identical with the village or "mauza". A revenue estate is a unit of area—

(*a*) for which a separate record-of-rights has been made, or

(*b*) which has been separately assessed to land revenue or would have been so assessed, if the land revenue had not been leased, compounded for, or redeemed, or

(*c*) which the Local Government may by general rule or special order declare it to be an estate.

The Village Statistics contained in this part have been compiled from Block-wise figures contained in the Summaries prepared by the Census Supervisors and Charge Superintendents. Except for data on houses and households they are based on the results of the "Circle Sort" which was carried out in the Hand Sorting Centres after the physical counting of the individual enumeration schedules. The literacy figures, however, have been lifted from the Summaries prepared by the Supervisors and Charge Superintendents.

The plan of presentation is that for each village, the Hadbast number, its name in English and Urdu and area in acres, the total population by males and females, and the number of literates in each village has been recorded.

The last two columns pertain to number of houses and households. This information is based on the Housing Census which was carried out in September, 1960. The data was collected in the first instance from the Summaries prepared after the Housing Census by the Charge Superintendents. These figures have been checked with the results of the Machine tabulation in the case of urban localities, but since only 10 per cent sample was taken for the villages, the data of villages has been extracted directly from the Household Summaries. The number of houses refers only to the "occupied" houses, while the number of households refers to the community unit the members of which live together and eat from a common kitchen. The definitions of "houses" and "households" are given in the Explanatory Note.

The "Hadbast" numbers are the numbers assigned to a revenue estate at the time of the settlement operations. They are allotted serially within the tehsil at the time of settlement. Hence the arrangement of villages in each tehsil does not follow the serial order of Hadbast numbers, but within each Patwar Circle they have been arranged serially. Where no survey and settlement operations have been carried out, this column is left blank. The area figures have been supplied by the Deputy Commissioners and are based on revenue records. Local details regarding Schools, Colleges, Post Offices, Telegraph Offices, Railway Stations, Police Stations, Rest Houses, Union Council Offices, Hospitals, Dispensaries, Electricity, Tubewells, etc., have been indicated by appropriate symbols against each village. A list of these symbols is appended. These details have been obtained from Deputy Commissioners and from the concerned Departments. The data has been presented by tehsils within each district. In each tehsil, the villages have been grouped by Field Qanungo Circles and within each Field Qanungo Circle by Patwar Circles. The name of the Field Qanungo Circle has been separated from the text by double lines and the village in which the Patwari's headquarter is located is shown in bold print.

The Village Statistics for this district were compiled in the Hand Sorting Centre, Peshawar under the supervision of Mr. A. U. Saleem, Assistant Director of Census, Incharge of Hand Sorting Centre, Peshawar. After compilation, the lists were sent by the Officer-in-Charge, Hand Sorting Centre, to the Deputy Commissioner concerned for verification and completion of figures relating to "Hadbast" numbers, area and local details. After this verification, the Village Statistics were sent to my office, where they were further checked, adjusted and consolidated before publication.

A summary giving the total population of the district and distribution by sexes to the nearest thousand has been given in the beginning. Similar summaries by tehsils and by Field Qanungo Circles within each tehsil have also been added.

ASLAM ABDULLAH KHAN, C.S.P.
Director of Census,
West Pakistan.

EXPLANATORY NOTE

1. Population in the Village Statistics includes persons who claimed nationality other than Pakistani.

2. Tehsil figures include those of urban areas within its jurisdiction.

3. Figures for Municipal and Town Committees as well as other urban localities are given separately under respective Tehsils within which they are located.

4. Household is a collection of persons living and eating in one mess with their dependents, relatives, servants and lodgers who normally reside together.

5. House is a structurally separate set of living premises, with an entrance from out side the building or from a common half way or courtyard or staircase.

6. Number of literate figures have been taken from Charge Superintendents Abstracts (Provisional results of Census published in February 1961). These may not tally with the final figures published in Part IV of District Census Report.

7. Urban Localities are grouped separately at the top of the Village Statistics of each Tehsil. The areas of Urban localities and their Hadbast numbers, being not available, have not been shown separately.

The symbols to denote local details are: —

(1) College or University	.. کالج یا یونیورسٹی	.. 
(2) Primary School	.. پرائمری سکول	..
