DIRECTORS' REPORT TO THE SHAREHOLDERS

Dear Shareholders,

The Directors of your Company take pleasure in presenting before you the performance review together with the audit report and the financial statements of the Company for the year ended June 30, 2017.

OVERVIEW

During the year under review yarn market sentiment remained mix. There was improvement in the demand for yarn in the local market during 1st & 3rd quarters but yarn market remained stagnant and took dip during 2nd & 4th quarters of the year. The local textile industry continued to face hurdles due to cheaper textile imports, slower export demand and lack of currency competitive. Your Management worked proactively and due to better product mix, improving operational efficiency and control over manufacturing costs, your Company has been able to post a modest profit before tax of Rs. 59.42 million during the year under review.

OPERATING RESULTS

The Company achieved turnover of Rs. 2.23 billion during the current year. While turnover growth remained flat, the gross profit margin improved to 8.08% from 5.93% during last year which depicts the increase of 36.30%. The Company posted profit before tax amounting Rs. 59.42 million as compared to a loss of Rs. 17.72 million during last year. The profitability was impacted by better control over expenditure and reduction in finance cost.

FUTURE OUTLOOK

Our textile industry is facing a number of challenges including liquidity crunch due to blockage of tax refunds by the Government, rising power and operational costs. This together with an overvalued Pak Rupee against US Dollar is increasing the cost structure in Pakistan making it further uncompetitive in the region. However the announcement of the long-awaited textile package by the Government would support the industry and would help in reversing the declining trend in exports.

With the dual aim of reducing operational expenses and increasing the yarn product range, your Management has finalized a capital expenditure for the next financial year.

EARNINGS/ (LOSS) PER SHARE

Improvement in profitability is reflected in increased Earnings per Share of the Company to Rs. 1.68 in the current year from loss per share of Rs. 0.93 in the corresponding last year.

PROFIT APPROPRIATION

The board in its meeting held on September 28, 2017 decided to recommend 10% cash dividend.

CORPORATE GOVERNANCE

We are pleased to report that your Company has taken necessary steps to comply with the provisions of the Code of Corporate Governance, as incorporated in the listing rules of the Stock Exchanges.

The statement on Corporate Governance and Financial Reporting Frame Work is given below:

ڈائریکٹرز رپورٹ برائے شیئر ہولڈرز

محترم شیئر ہولڈرز

آپکی کمپنی کے ڈائریکٹرز کیلئے یہ خوشی کا امر ہے کہ وہ آڈٹ رپورٹ بمع کارکردگی جائزہ اور کمپنی ہذا کی مالیاتی گوشوارے برائے اختتامی مدت 30 جون، 2017 پیش کررہے ہیں۔

سرسری جائزہ:

زیر جائزہ سال کے دوران سوت مارکیٹ کی صورت حال ملی جلی رہی۔ 1 (پہلی) اور 3 (تیسری) سہ ماہی کے دوران مقامی مارکیٹ میں سوت کی طلب میں بہتری آئی تھی لیکن سوت مارکیٹ مستحکم رہی اور سال کے دوسری اور چوتھی سہ ماہی کے دوران یہ مزید بہتر ہوگئی۔ مقامی ٹیکسٹائل انڈسٹری، سستی ٹیکسٹائل کی درآمدات، برآمدات کی طلب میں سُست روی اور کرنسی کے مسابقتی میں کمی کی وجہ سے مسلسل مشکلات کا شکار ہے۔ آپ کی انتظامیہ نے عملی طور پر بھرپور طریقے سے کام کیا ہے اور مصنوعات کی بہتر متنوع، آپریشن کارکردگی میں بہتری اور پیداواری لاگت میں کنٹرول کی وجہ سے آپ کی کمپنی زیر جائزہ سال کے دوران ٹیکس کٹوتی سے پہلے مبلغ 59.42 ملین روپے کا معمولی منافع حاصل کرنے کے قابل ہوا۔

آپریٹنگ (جاری کاروبار) کے نتائج:

حالیہ مدت کے دوران، کمپنی ہذا نے مبلغ 2.23 بلین روپے کا کاروبار کیا، جبکہ کاروباری اضافہ اسی سطح پر برقرار رہی، مجموعی گنجائش منافع میں گزشتہ سال کی نسبت 5.93% سے 8.08% کا اضافہ ہوا جو 36.30% اضافہ کی عکاسی کرتا ہے۔ کمپنی نے گزشتہ سال کے اسی مدت کے دوران کے مقابلے میں مبلغ 17.72 ملین روپے نقصان کی نسبت ٹیکس کی کٹوتی سے قبل منافع 59.42 ملین روپے کمایا۔ منافع کی شرح میں اضافہ کی وجوہات اخراجات میں بہتر طریقے سے کنٹرول اور مالیاتی لاگت میں کمی ہے۔

مستقبل کا نقطہ نظر

ہماری ٹیکسٹائل کی صنعت کو بے شمار چیلنجوں کا سامنا ہے، جس میں بشمول حکومت کی جانب سے ٹیکس کی واپسی میں رکاوٹ کی وجہ سے لیکیوڈیٹی کا بحران، بجلی اور آپریشن لاگت میں اضافہ ہے۔ اس کے ساتھ ساتھ یو ایس ڈالر کے مقابلے میں پاکستانی روپے کی قدر میں بڑھوتری نے بھی پاکستان میں لاگت میں اضافہ کیا ہے جس سے یہ علاقے میں مزید غیر مسابقتی ہوگیا ہے۔ تاہم حکومت کی طرف سے لمبی مدت سے منتظر ٹیکسٹائل پیکج کا اعلان اس صنعت کو سہارا فراہم کرے گا اور برآمدات کے رجحان میں کمی کو واپس اپنی سطح پر لانے میں معاون ثابت ہوگا۔

دوہرا مقصد یعنی آپریشن اخراجات کو کم کرنے اور سوت کی پیداوار کے ہدف میں اضافے کے سلسلہ میں آپکی انتظامیہ اگلی مالیاتی سال کے لئے سرمایہ کاری اخراجات مقرر کرچکی ہے۔

AUDITORS' REVIEW REPORT TO THE MEMBERS ON STATEMENT OF COMPLIANCE WITH BEST PRACTICES OF CODE OF CORPORATE GOVERNANCE

We have reviewed the enclosed Statement of Compliance with the best practices contained in the Code of Corporate Governance (the Code) prepared by the Board of Directors of Kohat Textile Mills Limited (the Company) for the year ended June 30, 2017 to comply with the rule no. 5.19.24 of Rule Book of the Pakistan Stock Exchanges Limited.

The responsibility for compliance with the Code is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Code and report if it does not and to highlight any non-compliance with the requirements of the Code. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Code.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Code requires the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the best practices contained in the Code as applicable to the Company for the year ended June 30, 2017.

Accordingly these financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984. In case requirements differ, the provisions or directives of the Companies Ordinance, 1984 have been followed.

2.4 NEW AND AMENDED STANDARDS AND INTERPRETATIONS

2.4.1 Standards, amendments to approved accounting standards effective in current year

New and amended standards mandatory for the first time for the financial year beginning from July 01, 2016:

(a) IAS 1, 'Presentation of financial statements' aims to improve presentation and disclosure in the financial statements by emphasizing the importance of

Downloaded from: www.OpenDoors.Pk

comparability, understandability and clarity in presentation.

The amendments provide clarification on number of issues including:

- Materiality – an entity should not aggregate or disaggregate information in a manner that obscures useful information. Where items are material, sufficient information must be provided to explain the impact on the financial position or performance.
- Notes – confirmation that the notes do not need to be presented in a particular order.
- Disaggregation and subtotals – line items specify in IAS 1 may need to be disaggregated where this is relevant to understandability of entities' financial position or performance.
- Other comprehensive income (OCI) arising from investments accounted for under the equity method – the share of OCI arising from equity-accounted investments is grouped based on whether the items will or will not subsequently be reclassified to profit or loss. Each group should then be presented as a single line item in the statement of comprehensive income.

All the above amendments do not have any significant impact on the Company's financial statements.

(b) IAS 19, 'Employee Benefits' This amendment as part of Annual improvements 2014 clarifies that when determining the discount rate for post-employment obligation, it is the currency that the liabilities are denominated in that is important, not the country where they arise. The Company's policy is already in line with this change.

(c) IAS 16, 'Property, Plant and Equipment' This amendment clarifies that a depreciation method which is based on revenue, generated by an activity by using of an asset is not appropriate; and add guidance that expected future reductions in the selling price of an item that was produced using an asset could indicate the expectation of technological or commercial obsolescence of the asset, which, in turn might reflect a reduction of the future economic benefits embodied in the asset. This amendment does not has any significant impact on the Company's financial statements.

2.4.2 Standards, interpretations and amendments to approved accounting standards that are effective but not relevant

The other new standards, amendments to approved accounting standards and interpretations that are mandatory for the accounting periods beginning on July 01, 2016 are considered not to be relevant or to have any significant effect on the Company's financial reporting and are, therefore, not detailed in these financial statements.

2.4.3 Standards, amendments to approved accounting standards and interpretations that are not yet effective and have not been early adopted by the Company

The following new standards and amendments to approved accounting standards are not effective for the financial year beginning on July 01, 2016 and have not been early adopted by the Company:

Downloaded from: www.OpenDoors.Pk

(a) IFRS 16, 'Leases' is applicable to accounting periods beginning on or after January 01, 2019. IFRS 16 will affect primarily the accounting by lessees and will result in the recognition of almost all the leases on the balance sheet date. This standard removes the current distinction between operating and finance leases and requires recognition of an asset (the right to use the leased item) and a financial liability to pay rentals for virtually all lease contracts. An optional exemption exists for short-term and low-value leases. The accounting by lessor will not significantly change. Some differences may arise as a result of the new guidance on the definition of lease. Under IFRS 16, a contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company has yet to assess the impact of this standard on its financial statements.

(b) IFRS 15, 'Revenue from contracts with customers' is applicable to accounting periods beginning on or after January 01, 2018. The IASB has issued a new standard for the recognition of revenue. This will replace IAS 18 which covers contracts for goods and services and IAS 11 which covers construction contracts. The new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer – so the notion of control replaces the existing notion of risks and rewards. The standard permits a modified retrospective approach for the adoption. Under this approach entity will recognise transitional adjustments in retained earnings on the date of initial application, i.e. without restating the comparative period. They will only need to apply the new rules to contracts that are not completed as of the date of initial application. The Company has yet to assess the impact of this standard on its financial statements.

(c) IFRS 9, 'Financial instruments' is applicable to accounting periods beginning on or after January 01, 2018. IASB has published the complete version of IFRS 9, 'Financial instruments', which replaces the guidance in IAS 39. This final version includes requirements on the classification and measurement of financial assets and liabilities; it also includes an expected credit losses model that replaces the incurred loss impairment model used today. The Company has yet to assess the impact of these changes on its financial statements.

(d) Amendments to IAS 7, 'Statement of cash flows' are applicable for annual periods beginning on or after January 01, 2017. The amendment requires disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes. The amendments are not likely to have a material impact on the Company's financial

(e) Amendments to IAS 12 'Income Taxes' are effective for annual periods beginning on or after January 01, 2017. The amendments clarify that the existence of a deductible temporary difference depends solely on a comparison of the carrying amount of an asset and its tax base at the end of the reporting period, and is not affected by possible future changes in the carrying amount or expected manner of recovery of the asset. The amendments further clarify that when calculating deferred tax asset in respect of insufficient taxable temporary differences, the future taxable profit excludes tax deductions resulting from the reversal of those deductible temporary differences. The amendments are not likely to have an impact on Company's financial statements.

There are a number of other standards, amendments and interpretations to the published standards that are not yet effective and are also not relevant to the Company and, therefore, have not been presented here.

3. USE OF ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. However, such differences are estimated to be insignificant and hence will not affect the true and fair presentation of the financial statements.

The assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. Judgements made by management in application of the approved accounting standards that have significant effect on the financial statements and estimates with a significant risk of material adjustments in the next year are discussed in respective policy note. The areas where various assumptions and estimates are significant to the Company's financial statements or where judgements were exercised in application of accounting policies are as follows:

(a) Staff retirement benefits - gratuity (note 4.2)

The present value of this obligation depends on a number of factors that is determined on actuarial basis using a number of assumptions. Any change in these assumptions will impact carrying amount of this obligation. The present value of the obligation and underlying assumptions are stated in note 11.

(b) Provision for taxation (note 4.4)

In making the estimate for income taxes payable by the Company, the management looks at the applicable law and decisions of appellate authorities on certain issues in the past.

(c) Property, plant and equipment (note 4.6)

The Company reviews appropriateness of the rates of depreciation, useful lives and residual values for calculation of depreciation on an on-going basis. Further, where applicable, an estimate of recoverable amount of asset is made if indicators of impairment are identified.

(d) Stores & spares and stock-in-trade (note 4.8 and 4.9)

The Company estimates the net realisable value of stores & spares and stock-in-trade to assess any diminution in the respective carrying values. Net realisable value is determined with reference to estimated selling price less estimated expenditure to make sale.

(e) Provision for impairment of trade debts (note 4.10)

The Company assesses the recoverability of its trade debts and if there is objective evidence that the Company will not be able to collect all the amount due according to

Downloaded from: www.OpenDoors.Pk

the original terms. Significant financial difficulties of the debtors, probability that the debtor will enter bankruptcy and default or delinquency in payments are considered indications that the trade debt is impaired.

4. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These polices have been consistently applied to all the years presented, unless otherwise stated.

4.1 Borrowings and borrowing cost

Borrowings are recognised initially at fair value.

Borrowing costs are recognised as an expense in the period in which these are incurred except to the extent of borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs, if any, are capitalised as part of the cost of that asset.

4.2 Staff retirement benefits (gratuity)

The Company operates an un-funded retirement gratuity scheme for its eligible employees. Provision for gratuity is made annually to cover obligation under the scheme in accordance with the actuarial recommendations. Latest actuarial valuation was conducted on June 30, 2017 on the basis of the projected unit credit method by an independent Actuary.

The liability recognised in the balance sheet in respect of retirement gratuity scheme is the present value of defined benefit obligation at the end of reporting period. The amount arising as a result of remeasurements are recognised in the balance sheet immediately, with a charge or credit to other comprehensive income in the periods in which they occur.

4.3 Trade and other payables

Trade and other payables are carried at cost, which is the fair value of consideration to be paid in the future for goods and services received, whether or not billed to the Company.

4.4 Taxation

(a) Current year

Provision for current taxation is based on taxable income / turnover at the enacted or substantively enacted rates of taxation after taking into account available tax credits and rebates, if any. The charge for current tax includes adjustments, where necessary, relating to prior years, which arise from assessments framed / finalised during the year.

(b) Deferred

The Company accounts for deferred taxation using the balance sheet liability method on temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. Deferred tax liability is recognised for taxable temporary differences and deferred tax asset is recognised to the extent that it is probable that taxable profits will be available

Downloaded from: www.OpenDoors.Pk

against which the deductible temporary differences, unused tax losses and tax credits can be utilised. Deferred tax is charged or credited to the profit and loss account except for deferred tax arising on surplus on revaluation of property, plant and equipment, which is charged to revaluation surplus.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

4.5 Dividend distribution

Dividend distribution to the Company's shareholders are recognised in the period in which these are approved.

4.6 Property, plant and equipment

Operating fixed assets, other than fire extinguishing equipment, furniture & fixtures, vehicles and live stock, are stated at fair value, based on valuations carried-out with sufficient regularity by external independent Valuers less subsequent depreciation. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of asset and the net amount is restated to the revalued amount of asset. Fire extinguishing equipment, furniture & fixtures, vehicles and live stock are stated at historical cost less accumulated depreciation. Cost of some items of plant and machinery consists of historical cost and exchange fluctuation effects on foreign currency loans capitalised during prior years. Borrowing costs are also capitalised for the period upto the date of commencement of commercial production of the respective plant and machinery, acquired out of the proceeds of such borrowings. Historical cost includes expenditure that is directly attributable to the acquisition of items. Capital work-in-progress is stated at cost.

Surplus arisen on revaluation of these assets has been credited to surplus on revaluation of property, plant and equipment account in accordance with the requirements of section 235 of the Companies Ordinance, 1984 and shall be held on the balance sheet till realisation. Revaluation is carried-out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from the fair value. To the extent of incremental depreciation charged on the revalued assets, the related surplus on revaluation of these assets (net of deferred taxation) is transferred directly to equity.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of item can be measured reliably. All other repairs and maintenance are charged to income during the financial year in which these are incurred.

Depreciation is taken to profit and loss account applying reducing balance method, except for overhauling of gas fired power plant, so as to write-off the depreciable amount of an asset over its remaining useful life. Depreciation on overhauling of gas fired power plant is charged to the profit and loss account using straight line method. The assets' residual values and useful lives are reviewed at each financial year-end and adjusted if impact on depreciation is significant. Rates of depreciation are stated in note 18.1.

Depreciation on additions to operating fixed assets is charged from the month in which an

Downloaded from: www.OpenDoors.Pk

asset is acquired or capitalised while no depreciation is charged for the month in which the asset is disposed-off.

Gain / loss on disposal of property, plant and equipment, if any, is taken to profit and loss account.

4.7 Intangible assets - computer software

Computer software is stated at cost less accumulated amortisation. Software cost is only capitalised when it is probable that future economic benefits attributable to the software will flow to the Company and the same is amortised applying the straight-line method at the rate stated in note 19.

4.8 Stores, spare parts and loose tools

Stores, spare parts and loose tools are stated at cost. The cost of inventory is based on moving average cost. Items in transit are stated at cost accumulated upto the balance sheet date. The Company reviews the carrying amount of stores, spare parts and loose tools on a regular basis and provision is made for identified obsolete and slow moving items.

4.9 Stock-in-trade

Basis of valuation are as follows:

Particulars	Mode of valuation

At mills	- At lower of moving average cost and market value.
In transit	- At cost accumulated to the balance sheet date.
Work-in-process	- At manufacturing cost.
Finished goods	- At lower of cost and net realisable value.
Waste	- At contracted rates.

- Cost in relation to work-in-process and finished goods consists of prime cost and appropriate production overheads. Prime cost is allocated on the basis of moving average cost.
- Provision for obsolete and slow moving stock-in-trade is determined based on the management's assessment regarding their future usability.
- Net realisable value signifies the selling price in the ordinary course of business less cost of completion and cost necessary to be incurred to effect such sale.

4.10 Trade debts and other receivables

Trade debts are initially recognised at original invoice amount, which is the fair value of consideration to be received in future and subsequently measured at cost less provision for doubtful debts, if any. Carrying amounts of trade debts and other receivables are assessed at each reporting date and a provision is made for doubtful debts and receivables when collection of the amount is no longer probable. Debts and receivables considered irrecoverable are written-off.

4.11 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purpose of cash flow statement, cash and cash equivalents consist of balances with banks.

4.12 Impairment loss

If any indications exist, the recoverable amounts of such assets are estimated and impairment losses or reversals of impairment losses are recognised in the profit and loss account. Reversal of impairment loss is restricted to the original cost of the asset.

4.13 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

4.14 Foreign currency translations

Transactions in foreign currencies are accounted for in Pak Rupees at the exchange rates prevailing on the date of transactions. Assets and liabilities in foreign currencies are translated into Pak Rupees at the exchange rates prevailing on the balance sheet date except where forward exchange rates are booked, which are translated at the contracted rates. Exchange differences, if any, are taken to profit and loss account.

4.15 Financial instruments

Financial assets and financial liabilities are recognised at the time when the Company becomes a party to the contractual provisions of the instrument and derecognised when the Company loses control of contractual rights that comprise the financial assets and in the case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognition of financial assets and financial liabilities is included in the profit and loss account for the year.

Financial instruments carried on the balance sheet include deposits, trade debts, other receivables, bank balances, loan from the Holding Company, long term financing, liability against leased assets, trade & other payables, accrued mark-up / profit and short term borrowings. All financial assets and liabilities are initially measured at cost, which is the fair value of consideration given and received respectively. These financial assets and liabilities are subsequently measured at fair value or cost as the case may be. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

4.16 Off-setting of financial assets and liabilities

Financial assets and liabilities are off-set and the net amount is reported in the financial statements only when there is a legally enforceable right to set-off the recognised amounts and the Company intends either to settle on a net basis or to realise the assets and to settle the liabilities simultaneously.

4.17 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably. Revenue is measured at the fair value of consideration received or receivable on the following basis:

- Local sales through agents are recorded on intimation from agents whereas direct sales are recorded when goods are dispatched to customers.
- Export sales are booked on shipment of goods.
- Return on bank deposits is accounted for on 'accrual basis'.

In practice, this is unlikely to occur, and change in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the projected unit credit method at the end of reporting period) has been applied as when calculating the gratuity liability recognised within the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

11.7 Comparison of present value of defined benefit obligation and experience adjustment on obligation for five years is as follows:

Market risk comprises of three types of risks: currency risk, interest rate risk and price risk.

(a) Currency risk

Foreign currency risk arises mainly where receivables and payables exist due to transactions entered into in foreign currencies. The Company is exposed to currency risk on import of raw materials, plant & machinery and stores & spares denominated in U.S. Dollar. The Company's exposure to foreign currency risk for U.S. Dollar is as follows:

	Rupees	U.S.$
	(Rupees in thousand)	
As at June 30, 2017		
Bills payable	257,638	2,453
Short term borrowings	72,809	693
Gross balance sheet exposure	330,447	3,146
Outstanding letter of credit	19,635	187
Net balance sheet exposure	350,082	3,333

	Rupees	U.S.$
	(Rupees in thousand)	
As at June 30, 2016		
Bills payable	9,851	94
Short term borrowings	42,761	408
Gross balance sheet exposure	52,612	502
Outstanding letter of credit	49,053	468
Net balance sheet exposure	101,665	970

The following significant exchange rates have been applied:

	Average rate		Balance sheet date rate	
	2017	2016	2017	2016
U.S. $ to Rupee	104.85	104.37	105.00	104.70

Downloaded from: www.OpenDoors.Pk

Sensitivity analysis

At June 30, 2017, if Rupee had strengthened by 10% against U.S.$ with all other variables held constant, profit after taxation for the year would have been higher (2016: loss after taxation for the year would have been lower) by the amount shown below mainly as a result of net foreign exchange gains on translation of foreign currency financial liabilities.

	2017	2016
Effect on loss for the year	(Rupees in thousand)	
U.S. $ to Rupee	33,033	5,256

The weakening of Rupee against U.S. $ would have had an equal but opposite impact on profit / loss after taxation.

The sensitivity analysis prepared is not necessarily indicative of the effects on profit / loss for the year and liabilities of the Company.

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. At the reporting date, the interest rate profile of the Company's interest bearing financial instruments is as follows:

	2017	2016	2017	2016
	Effective rate		Carrying amount	
Financial liabilities	%	%	(Rupees in thousand)	
Variable rate instruments				
Loan from the Holding Company	7.14 to 7.22	7.95 to 8.61	100,000	100,000
Long term financing	7.05 to 8.13	7.36 to 8.98	146,587	365,146
Liabilities against assets subject to finance lease	0	0	2,327	0
Short term borrowings	2.41 to 8.05	2.46 to 10.25	471,767	390,615

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the reporting date would not affect profit or loss of the Company.

Cash flow sensitivity analysis for variable rate instruments

At June 30, 2017, if interest rate on variable rate financial liabilities had been 1% higher / lower with all other variables held constant, profit after taxation (2016: loss after taxation) for the year would have been Rs.7.207 million (2016: Rs.8.558 million) lower / higher (2016: higher / lower), mainly as a result of higher / lower interest expense on variable rate financial liabilities.

(c) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from

Downloaded from: www.OpenDoors.Pk

interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instruments or its issuer or factors affecting all similar financial instruments traded in the market. The Company is not exposed to any significant price risk.

36.1.2 Credit risk exposure and concentration of credit risk

Credit risk represents the risk of a loss to the Company if the counter party fails to discharge its obligation and cause the other party to incur a financial loss. The Company attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the credit worthiness of counterparties.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

Credit risk primarily arises from long term deposits, trade debts, security deposits and balances with banks. To manage exposure to credit risk in respect of trade debts, management performs credit reviews taking into account the customer's financial position, past experience and other relevant factors. Where considered necessary, advance payments are obtained from certain parties. The management has set a maximum credit period of 30 days to reduce the credit risk. Credit risk on bank balances is limited as the counter parties are banks with reasonably high crediting ratings.

Exposure to credit risk

The maximum exposure to credit risk as at June 30, 2017 along with comparative is tabulated below:

	2017	2016
	(Rupees in thousand)	
Long term deposits	1,137	1,137
Trade debts	254,242	150,901
Security deposits	4,570	0
Bank balances	4,839	11,773
	264,788	163,811

All the trade debts at the balance sheet date represent domestic parties.

The aging of trade debts at the balance sheet date was as follows:

Not yet due	242,331	119,368
Past due - more than 30 days	11,911	31,533
	254,242	150,901

Downloaded from: www.OpenDoors.Pk

Based on past experience, the Company's management believes that no impairment loss allowance is necessary in respect of trade debts as debts aggregating Rs.133.648 million have been realised subsequent to the year-end and for other trade debts there are reasonable grounds to believe that the amounts will be realised in short course of time.

36.1.3 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach for managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

'The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to contractual maturity dates. The amounts disclosed in the table are the contractual undiscounted cash flows:

	Carrying amount	Contractual cash flows	Less than 1 year	Between 1 to 5 years
As at June 30, 2017		Rupees in thousand)

Accrued mark-up / profit	17,169	17,169	17,169	0
Short term borrowings	390,615	400,502	400,502	0
	956,207	1,042,616	647,255	395,361

Downloaded from: www.OpenDoors.Pk

The contractual cash flows relating to the above financial liabilities have been determined on the basis of interest / mark-up rates effective at the respective year-ends. The rates of interest / mark-up have been disclosed in the respective notes to these financial statements.

36.2 Fair value of financial instruments

Fair value is the amount for which an asset could be exchanged, or liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences may arise between carrying values and the fair value estimates.

At June 30, 2017, the carrying values of all financial assets and liabilities reflected in the financial statements approximate to their fair values.

37. CAPITAL RISK MANAGEMENT

The Company's prime objective when managing capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders, benefits for other stakeholders and to maintain a strong capital base to support the sustained development of its business.

The Company manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend paid to shareholders and / or issue new shares.

There was no change to the Company's approach to capital management during the year and the Company is not subject to externally imposed capital requirements except for the maintenance of debt to equity ratio under the financing agreements.
