1981 DISTRICT CENSUS REPORT OF D. G. KHAN

FEBRUARY, 1984

POPULATION CENSUS ORGANISATION
STATISTICS DIVISION
GOVERNMENT OF PAKISTAN
ISLAMABAD

PREFACE

The fourth decennial Population Census was conducted from Ist to 15th March, 1981. This preceded by the first ever fullfledged Housing Census from Ist to 15th December, 1980. In the Population Census, two questionnaires were used; a short one (Annexure–A) containing questions on names of household members, their relationship to head of household, sex, age, marital status, religion, literacy, ability to read the Holy Quran (for Muslims only), educational attainment and language spoken in the household and a long one (Annexure–B) which included all questions of the short questionnaire and some more namely, field of education, district of previous residence, duration of residence at present district, activity, employment status, occupation, industry, disability, etc. The long questionnaire was used for households selected on probability basis. The sample covered 4.9 per cent of households in rural areas and 19.1 per cent in urban areas.

This report comprises four parts. In part–I, general description of the district and the main findings of the 1980 Housing Census and the 1981 Population Census have been highlighted. Part–II and Part–III consist of Statistical Tables of the Housing Census and the Population Census respectively. In Part–IV, various annexures mentioned in the text of this report have been given.

The tabulation of topics common in both the questionnaires pertains to complete enumeration, whereas tabulation of additional topics in the long questionnaire are the estimates based on the sample data.

The number and scope of statistical tables have been extended and cover data from the Housing Census (Annexure–D) also. Definitions and concepts of the topics in the questionnaires and tables are given at annexure–E. Map of D. G. Khan district is at annexure–I.

Population census, conducted once in a decade, is a gigantic operation of immense national importance. This report gives a demographic profile of the district. Thousands of field and office workers have contributed in producing this report. Our Organisation owes a deep debt of gratitude to all those who worked at different stages of census operations and made their inputs for this final output. We hope that the data presented in this report will be used for planning the progress of the people of this district.

Dated: February 5, 1984

Part—I

GENERAL DESCRIPTION OF THE DISTRICT
AND
MAIN FINDINGS OF THE CENSUSES

SECTION 1—GENERAL DESCRIPTION OF THE DISTRICT

1.1 Location

The district is named after its headquarters town Dera Ghazi Khan, which was founded some five hundred years ago by one Ghazi Khan Mirrani.It lies between 28°—25′ and 31°—20′ north latitudes and 69°—20′ and 70°—51′ east longitudes. It is bounded on the north by Dera Ismail Khan district of N.W.F.P. and Tribal Area adjoining D. I. Khan district, on the east by the Indus river across which lie Muzaffargarh and Rahim Yar Khan districts, on the south by Jacobabad and Sukkur districts of Sind Province and on the west by Kohlu Agency and Loralai district of Baluchistan Province. Dera Ghazi Khan is the only district of the Punjab Province which lies entirely west of the river Indus and has a common border with the other Provinces as well as FATA. The district is spread for more than 300 kilometres from north to south and about 50 kilometres in the middle of the district from east to west.

The total area of the district is 24,240 sq.kms.

1.2 Topography

Dera Ghazi Khan district may be divided into two main parts, the mountainous area in the west and the plain area in the east. The western half of the district is covered by the hills of the Suleiman mountains. Most of these hills are found in the tribal area known commonly as the De-Excluded area or Pahari tehsil. The hills are higher in the north where they rise to peaks as high as 3,000 metres above the sea level. In addition to the main range in the west there are two smaller chains parallel to each other between the main range and the plain in the east. The height of these ranges gradually decreases south-wards. The highest peaks towards the centre of the district are Ekbhai (2,274 metres) Fort Munro (1,916 metres) and Dragul (1,640 metres). The mountains are formed of sandstone with occasional autcrops of limestone. They are bare of trees except some of the higher summits in the north of district.

The plain area of the district may be subdivided into three natural tracts namely, the piedmont area, the canal-well irrigated plain area and the riverain area. The piedmont area stretches along the base of the hills. The cultivation in this area depend on the flow of hill torrents. The canal or well irrigated plain area forms the intermediate zone between the piedmont and the riverain area. The riverain area lies close to the Indus river. The cultivation in these areas depend on the spill of the river Indus.

1.3 Climate

The climate of the district is exceedingly dry both in the hills and plains and in summer as well as in winter. The summer season starts in April and continues up till October. May, June and July are the hottest months. The mean maximum and minimum temperatures for this period are about 42°C and 28°C respectively. The winter season

The area and production figures of major crops grown during 1980-81, are given below:-

Crop	Area (hectares)	Production (tonnes)
Wheat	170,000	209,800
Cotton	61,900	105,100
Jawar	40,500	21,100
Rice	30,000	40,100
Rape-seed & Mustard	16,625	9,994
Pulses	11,027	4,071
Bajra	9,500	5,600
Sugarcane	6,300	203,800

Source: Punjab Development Statistics, 1981, Bureau of Statistics, Government of Punjab, Lahore.

1.5 Industry

There are 45 major industrial units of cotton ginning and pressing, cotton textiles, and vegetable oils. D. G. Khan and Jampur are well known for lacquered articles such as wooden electric lamps, frames of looking glasses, flower vases, bowls, dressing tables and several other articles of decoration.

1.6 Communications

The District Headquarters D. G. Khan is connected with metalled roads to all its tehsil headquarters. The eastern and south-eastern belt of the district is comparatively developed in metalled road transportation. A metalled road also connects D. G. Khan with Loralai district of Baluchistan province. There are 650 kilometres of metalled and 727 kilometres of unmetalled roads.

There are 855 telephone connections, 1 telegraph office and 12 post offices in the district.

The district is also served by railway line which runs along the main metalled road of this district from Taunsa Barrage to Sahiwal in Rajanpur tehsil across which it goes to Jacobabad district. Except tehsil headquarters Taunsa other tehsil headquarters, i.e., Jampur and Rajanpur are connected by rail with the district headquarters D. G. Khan.

2.4 Construction Material of Outer Walls and Roofs

The main construction material of outer walls was unbaked bricks, which was used in 69 per cent housing units, baked bricks/stones with mud bonding were used in 14 per cent. In rural areas, unbaked bricks were the main construction material used in 73 per cent, whereas in urban areas the main construction material was baked bricks/stones with mud bonding used in 48 per cent housing units.

Girder/beam and baked bricks were the main construction material of roofs used in 79 per cent housing units. In urban areas, R.C.C./R.B.C. was used in four per cent housing units.

2.5 Source of Drinking Water

Most of the households (55 per cent) used hand-pump water for drinking. Fifteen per cent households used well water and six per cent piped water for this purpose. In urban areas, hand-pump was mostly used (63 per cent households) for drinking as compared to the same facility mostly used (54 per cent households) in rural areas.

2.6 Source of Light

Eighty-five per cent households used kerosene for lighting, ten per cent used electricity and the remaining used other sources. In urban areas, 65 per cent households used electricity and 34 per cent used kerosene. In rural areas, 91 per cent households used kerosene and four per cent used electricity.

2.7 Cooking Fuel Used

Wood/brush-wood was used by 96 per cent households. Three per cent households used dung-cakes and only one per cent used other fuels. In rural areas, 96 per cent households used wood/brush-wood and three per cent households used dung-cakes; whereas in urban areas, 94 and three per cent households used wood/brush-wood and dung-cakes respectively.

2.8 Availability of Kitchen, Bathroom and Latrine Facilities

The data on availability of kitchen, bathroom and latrine facilities were collected from urban areas only. Separate kitchens and bathrooms were available in 28 and 25 per cent housing units. Four and five per cent households were sharing kitchen and bathroom facilities with others. Sixty-eight and 70 per cent housing units had no kitchen and bathroom facility. Eighty-six per cent housing units had latrine facility but without flush.

The population of 15 years and above was 837,745, out of which 16.7 per cent were never married, 77.6 per cent currently married, 0.2 per cent divorced and 5.5 per cent widowed.

3.3 Literacy and Educational Attainment

The literacy ratio was 16.3 per cent. It was 42.3 per cent in urban and 12.8 per cent in rural areas. The male literacy ratio was 23.2 per cent as compared to 8.1 per cent of females.

The Muslim population of 10 years and above was 1,026,231, out of which 26.0 per cent could read the Holy Quran – 13.0 per cent males and 13.0 per cent females.

The population of 5 years and above was 1,316,103, out of which 3.8 per cent were attending educational institutions. The enrolment ratios for rural and urban areas were 2.6 and 12.8 per cent respectively. For age group 5–19 years, it was 7.5 per cent –10.2 per cent for males and 4.2 per cent for females. The enrolment ratios for age groups 5–9. 10–14, 15–19 and 20–24 years were 3.7, 12.7, 7.7 and 2.8 per cent respectively.

There were 133,245 persons who had passed primary and above levels of education, out of them 51.9, 23.9, 15.6, 4.1, 2.1 and 0.6 per cent had completed primary, middle, matriculation, intermediate, graduation (general education) and post-graduation respectively.

3.4 Civilian Labour Force

The labour force (persons working and looking for work) constituted 28.0 per cent of the total population. The labour force participation rates for urban and rural areas were 24.9 and 28.4 per cent respectively. These rates for males and females were 74.4 and 5.4 per cent respectively.

The un-employment rate was 1.6 per cent – 2.6 per cent in urban and 1.5 per cent in rural areas. The male and female unemployment rates were 1.5 and 4.6 per cent respectively.

The major occupation group was "Agricultural, animal husbandry and forestry workers, fishermen and hunters", which constituted 64.9 per cent of the total labour force. The other important occupation groups were "Production and related workers, transport equipment operators and labourers" and "Sales workers" which were 18.6 and 6.0 per cent respectively of the total labour force.

The major economic activity in the district was Agriculture, forestry, hunting and fishing", which absorbed 66.5 per cent of the total working population. The other important economic activities were "community, social and personal services" and "wholesale and retail trade and restaurants and hotels", which employed 10.1 and 6.9 per cent respectively of the total working population.
