1998
DISTRICT CENSUS REPORT
OF
NAWABSHAH

Census Publication No. 63

POPULATION CENSUS ORGANIZATION
STATISTICS DIVISION
GOVERNMENT OF PAKISTAN
ISLAMABAD

JANUARY
2000

PREFACE

The Fifth Population and Housing Census, initially due in March 1991, was conducted from 2-18 March 1998 throughout the country including Federally Administered Tribal Areas, Northern Areas and Azad Kashmir. During the first three days i.e., from 2nd to 4th March houselisting was carried out where in each house was physically numbered and registered as an inventory for conduct of the census from 5th to 18th March. The inventory served as a guideline for the supervisors besides ensuring complete coverage, during the census operation.

There were 3 separate questionnaires used for houselisting and collection of information on population and housing characteristics. Form-1 (Annex-A) was used for houselisting. Form-2 i.e., short form (Annex-B) was used for collection of information about all persons on core questions such as name, relationship with the head of the household, residential status, sex, age, marital status, nationality, religion, mother tongue, literacy, educational attainment and possession of national identity card, number of rooms, tenure, period when constructed, construction material of walls and roofs and source of drinking water-inside or outside, source of light, fuel used, type of kitchen, bathroom and toilet facilities and watching of TV and radio and reading of newspapers.

Form-2-A i.e., long form (Annex-C) was used for obtaining additional information about migration alongwith its reasons, field of education, economically active population, fertility, disability and inoculation of children against 5 diseases were asked on sample basis. About 8 percent single stage stratified sample was drawn with slightly more representation given to small provinces, districts and urban areas to make it a representative sample. Necessary definitions and concepts relating to the above mentioned questionnaires/forms are given at (Annex-D) for information of the readers.

The report mainly consists of three sections viz write up which carries general description of the district and some analysis of population and housing data, second section comprises tables while third section provides additional information about these sections in the form of annexures.

The write up section contains three main parts viz (i) general description about the district, (ii) broad analysis of population census data and (iii) broad analysis of housing census data. The general description covers location, boundary, area, geography, climate, rainfall, ethnicity, administrative set-up, agriculture, flora and fauna, health, industries, communication system, infra structure beside introducing the district. The broad analysis of population census data deal with population size, growth and distribution, other demographic and socio-economic characteristics.

The broad analysis of housing census data throw light on housing units/households, in terms of information on number of rooms, population density per housing unit and per room, tenure, period since constructed, construction material used on walls and roofs, source of drinking water, source of lighting, cooking fuel used in kitchen, availability of kitchen, toilet and bathroom facilities and assessment of media reach etc.

The report comprises 52 tables in all, 40 relate to population data, 12 to housing data. Of 52 tables 27 are based on complete count information while remaining on sample count information. Because of space problem the tables on occupation and industries are given in coded form. Therefore, after mentioning occupation and industries in coded form on the tables the detail occupational groups and industry divisions and district/tehsil map are appended at Annex-E, F & G respectively.

Census taking was a gigantic task which involved the whole nation in one way or the other which is commendable as a team work. The role of Provincial Governments was very vital and with out their active cooperation, the operation would not have been successful. The meritorious services rendered by the field staff in addition to their own jobs, are also appreciable. The services rendered by the staff and officers of Federal Bureau of Statistics in training and data processing was helpful. I am personally indebted to the Federal Government who inculcated in me a sense of responsibility to conduct the census in March 1998, and releasing the data as early as possible for the benefits of all users.

The Armed Forces supported the Population and Housing Census work on hundred percent basis therefore, I extend my gratitude to their officers/staff involved in this operation.

I also thank the International Agencies like UNFPA, UNDP, UNICEF for their financial assistance in acquiring equipment & machinery and technical support in the form of consultancy services, training and study visits abroad.

Finally I thank the officers and staff members of the Population Census Organization for their relentless efforts to complete the census successfully.

Dated: 7th January, 2000

(KHALID LATIF CH.)
for Chief Census Commissioner.

PART - I
GENERAL DESCRIPTION OF THE DISTRICT

1 GENERAL DESCRIPTION OF THE DISTRICT

1.1 GEOGRAPHY

1.1.1 Name, Location, Boundary and Area

Nawabshah District takes its name from its District Headquarters Town. It is located between 25°-59' to 27°-15' north latitudes and 67°-52' to 68°-54' east longitudes. The district is bounded on the north by Naushehro Feroz and Khairpur districts, on the south by Hyderabad district, on the east by Sanghar and Khairpur districts and on the west by river Indus, Larkana and Dadu districts.

The total area of the district is 4502 square kilometers.

1.1.2 Physical Features/Topography

With the exception of north eastern part of Nawabshah taluka which is desert known as Gunjo thar, the rest of the district is a fertile plain formed by the Indus river. The soil is sandy with hard clay loams with negligible exception where the soil is Kallarish. Nawabshah district is that part of the Indus Valley which has benefited more than any other part of Sindh from the development of irrigation under Rohri Canal. The average elevation of the area is about 50 meters above sea level.

Geographically, most of the district is in, what is termed vaguely Vicholo or middle Sindh. Nawabshah town is indeed almost the exact center of the Province of Sindh.

1.1.3 Rivers and Streams

Indus is the only river of the district, runs along the western boundary of the district for about 90 kilometers. But the river being uncertain in its course, it is not always boundary of the district. At present it passes through Sakrand taluka of the district. It ranges in width from 480 to 1600 yards the average during low season being 680 yards. During floods, it is in same places about 2 kilometers wide. Its depth varies from 4 to 24 feet. The water derived from the snow of Himalyas, is of a dirty brown colour and slightly charged with saline ingredients. Its velocity in the freshes average 13 kilometers per hour and 7 kilometers at ordinary times. On an average the temperature of water is 10o lower than that of the air. The Indus begins to rise in March, attains its maximum depth and width in August and subsides in September.

There are no other rivers in the district but a nallah from river Indus to Sakrand lake lie in the district.

1.1.4 Climate

The climate of Nawabshah district is not uniform. It is divided very sharply into northern portion and southern portion and there is a climatic variation. The northern portion is affected by the desert and hence climatic conditions are extreme. The southern portion enjoys the advantage of sea breeze. Summer season commences from April and continues till October. May, June and July are the hottest months. Months of August and September are stuffy and suffocating. December, January and February are the coldest months. Bright sunshine in winter, makes the district one of the healthiest part of the region. The autumn sets in September and lasts for 1 1/2 months. During this period, the open water places for mosquitoes as a result of which malaria fever becomes common ailment. This period is infact, the worst of the year.

Monthly mean maximum and minimum temperature and precipitation recorded at Nawabshah is given as under:-

TABLE 1.1 : MONTH WISE 30 YEARS MEAN MAXIMUM AND MINIMUM TEMPERATURE, PRECIPITATION AND HUMIDITY.

	Mean Temperature (°C)		Precipitation	Relative
Month	Maximum	Minimum	(Millimeters)	Humidity (%)
January	24.31	5.92	1.64	59.98
February	27.06	8.72	1.88	56.00
March	33.29	14.22	3.14	50.62
April	39.25	19.71	3.05	44.66
May	43.53	24.59	1.33	42.63
June	43.23	27.67	8.35	51.81
July	40.37	27.60	51.80	62.10
August	38.60	26.33	45.41	66.06
September	38.41	23.77	10.42	62.38
October	37.14	18.18	2.87	55.16
November	31.59	12.23	1.49	59.48
December	25.53	7.39	2.73	62.47
Annual	35.19	18.00	137.79	56.03

1.1.5 Flora

A conspicuous feature is the number of gardens found in the district. Considering the character of soil and climate of the district, flora can not be of striving grandeur or beauty. The number of different kinds of grasses and other plants of low growth is considerable. But there are not more than half a dozen species of trees of spontaneous growth. Near the canals, there is a good deal of timber. Lai is found in flooded land. Its twigs are

used for making baskets, also for fences to fields and sides to houses. kikar is not uncommon along the canals. Its timber is used for agricultural implements and as fuel too. Its seeds are eaten readily by goats. The bark is used in tanning and in the distillation of native spirits. A shrub, the babul is occasionally seen. It never grows to such a size as would make its timber valuable. The bar tree is not uncommon in cultivated parts of the district. The wood is of good quality and is used in buildings. It yields a fine fuel throwing out a clear heat. Good walking sticks are also got from this tree. Kandi is always a small tree, rough gnarled and met every where in the district, where it has not been cleared away. The wood is strong and is made into agricultural implements and household furniture. It is much used as a fuel and charcoal is prepared from it. The seeds vessels known as singri are also used as an article of food. The karil (capparis aphylla) sometimes becomes a tree. It generally remain a mere shrub and found through out the district. Its wood is hard and is used for rafters and *lathis*, principally on account of its supposed immunity from the attacks of white ants. As fuel it has a high reputation. Its fruit known as dena is eaten and is a great stand by to the poor in seasons of scarcity. Certain trees are generally grown near each well. The most common are pipal (ficus religiose) and sohanjro (hyperanthera ptery gosperma) or horse-raddish tree.

Besides these other trees met within Nawabshah district are tamarisk or jhaun (tamerix dioica), villon poplar or bahan (populus euphratica), babul (acacia arabica), pilu (salavadora eleoides), siru (dalbergia sissoo), nim (melia azadirachta), acacia or sisis (acacia lebbek), temerind or imli (tamarindus indica).

There are very few plants other than trees and grasses deserving much notice. Sar is the most important which is generally found in sandy soil. It is abundant along the river and distributing channels of canals. These are of two kinds, white topped and red-topped or rather purple topped. The ropes made from the latter are much inferior to those made from the former. Every portion of this reed is used. It consists of three parts the lowest is a stout reed, about half an inch in diameter. This is called kana and is used for roofing houses, forming bund with which kachha wells are lined and pallis or circular store houses for grain are made.

1.1.6 Fauna

With the exception of such humbles species as the Jackal, wild animals may now be said to be almost non-existent. Hyenas and wolves are now hardly ever seen. Jackals are fairly common and foxes are seen in the rapidly contracting area of dry waste. Hog deer are seen along the banks of the river Indus and Pig, though much diminished by the villagers in defence of their crops, are still found in small numbers.

Nawabshah district offers a great attraction to the sportsmen. Among birds, *titur* is remarkable. Both grey and black partridges are very common in the forest planta-

tion . Most of the common kinds of wild duck and water foul are met with during the cold season. Geese are also found, penetrating to the fields of green wheat and *Kunj* are also regular winter visitor. Sand-grouse of more than one kind visit the district in the cold weather but the expansion of cultivated area is driving them away. This applies even more to the houbara or *tilur* which was in former times quite common. *Quail* are annually to be found in the spring and autumn.

Fish of many kinds are caught in the canals, particularly in deep pools that are left standing during a closure. The principal kinds of fish found are *palla, dambhro, mori, mali* and *jheenga* or *gangat.*

1.2 AGRICULTURE AND RELATED SECTORS

1.2.1 Agriculture

Roughly whole of the district except eastern portion of Nawabshah taluka which is desert, is suitable for the production of crops. Main crops during rabi are wheat, oil-seeds, berseem fodder, mutter and gram and in kharif cotton, jowar, bajra, gowar and sug-arcane. In addition to these main crops, there are subsidiary crops known as zaid rabi and zaid kharif and dobari

Area and production figures of major crops grown during 1997-98 are given below:-

TABLE 1.2: AREA, PRODUCTION AND AVERAGE YIELD OF CROPS IN 1997-98

Crop	Area(Hectares)	Production (Metric Tonnes)
Wheat	94567	282291
Cotton	65596	249048
Sugar Cane	21735	1314805
Jowar	10907	5459
Rape Seed and Mustard	10741	10096
Rice	4108	8712
Bajra	3723	2281
Maize	817	549
Barley	54	26
Masoor	28	17
Sesamum	23	11

Source: 1. Office of Director, Agricultural Extension,Government of Sindh, Hyderabad.
2. Bureau of Statistics, Government of Sindh, Karachi.

The land of Nawabshah is alluvial and productive and with the settlement of Zamindars and Haris in the district from northern parts of the province, old method of Sindhi cultivation has been blended with the Punjab method. Further improvements are being brought in by taking up mechanized agriculture.

1.2.2 Irrigation

Nawabshah district is entirely under irrigational settlements. Indus is the only river of the district and flows along western boundary of the district for about 90 kilometers of its length. Presence of river Indus is the most dominant geographical factor. How vital a role,the Indus plays in the livelihood and welfare of the people of Nawabshah district can readily be understood when it is realized that average yearly rainfall in the district is only about five to seven inches.

The irrigation in the district mainly depends on canal-water, tube wells and spill of Indus river. The main canals in the district are Rohri canal and Nasrat canals and district receives perennial water supply from these canals and their channels. The lands are flow irrigated except in the riverain tract where cultivation is raised on the river spoil. In the desert area, cultivation is raised in small patches.

1.2.3 Horticulture

A conspicuous feature of the district is the number of gardens. The indigenous vegetables in common use are cultivated in all talukas of the district. As far fruits are concerned mangoes, oranges and bananas are cultivated. All Zamindars of the district have started taking special interest in growing mangoes.

Principle vegetables grown in the district are cauliflower, tomatto, peas, carrot, spinach, lady finger and onion.

Area and production figures of major fruits/vegetables grown during 1997-98 are given below:-

TABLE 1.3: AREA, PRODUCTION AND AVERAGE YIELD OF FRUITS/VEGETABLES, 1997-98

Fruit/Vegetable	Area(Hectares)	Production(M.Tonnes)
1. Mango	2,888	22,283
2. Banana	1,248	5,141
3. Guava	358	2,134
4. Potatoes	291	291
5. Onion	645	8,030

Source:- 1. Office of the Director, Agricultural Extension, Government of Sindh, Hyderabad.
2. Bureau of Statistics, Govt. of Sindh, Karachi.

1.2.4 Forestry

Forest growth consists of four chief sorts of trees, namely Acacia arabica or babul, prosopis spicigera or kandi populus euphratica or bahan and two species of tamarisk, tamari gellica and dioica called lai and jhao respectively. Of these babul is the most useful. It yields an excellent timber used extensively for wheels, agricultural implements, building purposes and fuel. It grows when young is dense, unimixed crops, forming a covering to the ground through which very little sunlight can penetrate but becomes thinner naturally as it reaches maturity.

Kandi is next in importance. It yields a good fuel also but is of little use for building or other purposes, the pods are used as fodder for cattle, goats and camels.

Bahan grows in the immediate area of the inundations and yields wood for building and lacquer work. Tamarisk exists chiefly in new lands thrown up by the Indus river, giving a good fuel and wood for agricultural implements.

Another tree occurring occasionally in the forests is dalbergia sissoo or tali. It is found near villages and wells in revenue lands and has presumably been planted there by the people themselves because of its valuable timber which is very durable and commands a high price in market and is known as "rose-wood".

Other trees met within forest limits, including useful bushes are, zizphus jujuba or *ber*, yielding fodder for goats and camels, azadirachta Indica or *nim, pipal, kikar.*

The minor produce from forest are reeds from sar and kanh grasses. Reeds are used for blinders, shades and walls for huts and duck boards and sar grass for baskets, chairs and ropes. Other grasses are used as fodder for animals.

1.2.5 Livestock

Good breed of buffalo and cow are found in the district. Sheep, goat, camel, horse, ass and mule are also the main livestock of Nawabshah district.

The cattle of Nawabshah are among the best in Pakistan. The finest milk cows are found chiefly in tracts, wherever there is grazing and water. A rich red brown is the commonest colour with white markings occasionally and a darker shade surrounding the eyes.

The number of horses is plainly decreasing with the rise in the number of motor vehicles and in the great improvement in metalloid roads.

A livestock section established in 1938 under the control of Director of Agriculture was amalgamated with the veterinary department and placed under controls of the Director, animal husbandry from 1st November, 1950. The main responsibilities of this section were to carry out research work for the improvement of three breeds of cattle and buffaloes and to render advice to zamindars and molders in growing fodder crops, in poultry farming and dairyman for improving dairy industry.

The only poultry much bred in this district are common fowls. A few turkeys and even geese may be seen in the chief towns and a small block of ducks occasionally. Poultry thrives in this district when they are allowed free range as is customary under village conditions. But when they are bred under confined conditions, they are highly ausceptible to many diseases and casualties are heavy. The value of poultry under local conditions lies more in their egg producing qualities.

The number of livestock in the district during 1996 is given below.

TABLE 1.4: LIVESTOCK POPULATION IN NAWABSHAH DISTRICT

S.No.	Livestock	Number
1.	Cattle	327478
2.	Buffalo	355446
3.	Sheep	135751
4.	Goat	499861
5.	Camel	3895
6.	Horse	2348
7.	Mule	771
8.	Ass	19346
9.	Domestic Poultry	606933

Source:- Livestock Census 1996, Agriculture Census Organization.

1.3 INDUSTRY AND TRADE

1.3.1 Industry

There are 18 cotton ginning factories in the district of which 7 are situated at Nawabshah. The district has 3 sugar mills, Nawabshah sugar mill, Al-Noor sugar mill Jehanian and Sakrand sugar mills. These suger mills are playing a key role in the modernization of agriculture by encouraging the areas under sugarcane cultivation. A large number of skilled, semi-skilled and unskilled labour force is gainfully employed in these mills. Besides there is 1 textile mill, 4 flour mills, 1 oil mill and 1 engineering implements factory. Soap-making factories also exist here. Cotton cloth (khadi cloth) is manufactured at Nawabshah on a very small scale.

1.3.2 Mining

There are no mines and mineral resources of any importance in the district. In the past development plans, mining development was considered as a subject that should be investigated. In the report of the plan, it has been stated: No scheme has yet been worked out on mining development, mineral resources are not yet fully explored and have not been fully surveyed.

1.3.3 Trade and Trade Centers

Nawabshah basically is an agricultural district, therefore main trade relates to sale and purchase of agricultural products like wheat, sugar cane, cotton, rice, fruits, vegetables, pulses and fodder. Nawabshah town is a main trade center for these products in the district. Sakrand, and Daulatpur are also trade centers of these products in the district.

Forestry, cattle farming, poultry farming, transport, petroleum services and fishing is also prominent as major trade in Nawabshah district.

1.3.4 Communications

The important means of transport and communication in the Nawabshah district are roads, railways and water. The district is also linked with other parts of the country by air.

a) Airways

Nawabshah airport is an alternate to Karachi International Airport. It pro vides fokker service from Nawabshah to Karachi, Larkana, Sukkur and Jacobabad. Flights to and from Karachi are also accommodated at this airport in case of necessity/diversion.

b) Railways

There is a network of railways through the district. The vital railway line connecting Karachi and Lahore runs through the length of this district. The railway station on the line are as under:

i)	Nawabshah Junction	(ii)	Bucheri	(iii)	Daur
iv)	Bandhi	(v)	Kot Lalu	(vi)	Padidan Junction
vii)	Bhirya Road Junction.	(viii)	Lakha Road	(ix)	Mehrabpur

The line leaves Nawabshah district at Mehrabpur.

c) Roads:

The road communication of the district is on the whole fair. The National Highway (Karachi-Peshawar) road passes through this district. Important metalled roads in the district are as under :

	Name of Road	Distance (kilometer)
1.	National Highway	156
2.	Nawabshah - Sanghar	10
3.	Desert Area	16
4	Moro - Bhandi	35
6	Padidan - Mithiari	391
7	Bhirya - Tharaushah	20

There is a net work of other small metalled roads in the district also connecting all taluka headquarters and towns together. In addition to this kacha roads also exist in the district. As many as 160 such roads which connect all the taluka headquarters to interior rural areas are found in the district. Union councils have also constructed a good number of link/farm to market roads which have also facilitated communication.

1.4 HISTORY, ETHNICITY/TRIBES AND CULTURE

1.4.1 History

The history of Nawabshah district is almost indistinguishable from the history of Sindh which hardly begins from the Arab conquest in 711 A.D. Previous to that there had been a few picturesque episodes, but there is no connected account of the days before Arab conquest. For many centuries, the history of Sindh may be said to be episodic and not continuous. The author(Abbot) in his book titled "Sindh, a re-interpretation"(1924), has also observed that Sindh is unfortunate in her record. Inscriptions and archaeological finds have hither to add little to our knowledge of her past. Her written record leaves centuries untold and turns the truth of other centuries into fiction. Her geographical features by their apparent simplicity have perverted record and added mystery unsolved.

Much is known about pre-historic period from Mohenjo-doro civilization. By digging carefully into the soil, we can gradually reconstruct a sequence of objects and cultures which constitutes a rough and ready time-table.

After the Aryans this part of the country was ruled by Jains, Budhists, Greeks, and Arabs. It came into prominence during Arab rule in 711 A.D. Muhammad Bin Qasim conquered Sindh by defeating Raja Dahir at Brahmanabad, which is about thirteen kilome-

ters east of Shahdadpur (which formed part of Nawabshah district before 1953). After the rule of Sammas, Arghuns and Tarkhans came the Kalhora rule under Noor Muhammad Kalhora. The Kalhoras had been in power for eighty two years and Nawabshah district marked the end of Kalhora rule when Talpurs defeated Abdul Nabi Kalhora at Halani in Kandiaro formerly a taluka of Nawabshah district.

The district of Nawabshah was created with effect from 1st November, 1912. District originally comprised seven talukas i.e., Shahdadpur, Sinjhoro, Sakrand, Moro, Naushehro Feroz, Kandiaro and Nawabshah and was divided into two sub-divisions namely Nawabshah sub-division and Naushahro Feroz sub-division. The former comprising three talukas of Shahdadpur, Sinjhoro and Nawabshah, while latter comprising four talukas of Kandiaro, Naushahro Feroz, Moro and Sakrand. In 1953, when Sanghar district was created, two talukas namely Shahdadpur and Sinjhoro were taken away from Nawabshah district and given over to Sanghar district. In 1989 district Nawabshah was further deprived of taluka Naushehro Feroz, Kandiaro and half of taluka Moro which were included in newly created Naushahro Feroz district. Nawabshah district now comprises only Nawabshah, Sakrand and Daulatpur talukas.

1.4.2 Ethnicity and Tribes

The people of Nawabshah district except for aborigines and migrants from Arabia, have basically the same ethnic origin despite difference in colour, physique and language. Bhil, Kohli, Menghwar, Oad, Sami and Bagri are usually classified as aborigines.They speak a different language which is usually a mixture of Sindhi, Gujratee and Marwari.

People of this district can be divided on the basis of language into four broad groups. First group consist of those who speak Sindhi properly, Balochi speaking people from second group, people speaking Punjabi and Seraiki form third group and fourth group consists of Urdu speaking population.

The first group can be divided into those who are originally dwellers of the region and those coming from Arabia and other places. Of the original dwellers, Samats and Hindus are the prominent tribes. The castes which are usually included in Samats are Unars, Dahiry, Rahu, Koureja, Bughio, Sethar, Dahraj, Junejo, Mahar, Behan, Kalhoro, Mangria, Ghanghra, Sahta, Rajpur, Kiria, Jokia and Gopang. The prominent castes of Hindus are Wanya, Amil, Rhatia, Lohana and Menghwar. The other castes included in original dwellers are, Memon, Machi, Solangi, Khaskhely, Ujan, Channer and Phull.

Among second group prominent castes are Maree, Lund, Rind, Magsi, Khoso, Jamali, Laghari, and Hisbani. The third group speaking Punjabi and Seraiki and other allied dialects is believed to have from different parts of Punjab. The main castes in this group are Zardari, Jatoi, Jalbani, Khera, Chandia, Lashari, Talpur, Ghaloo, Arain, Jat and Siyal.

Urdu speaking people are mostly those who have migrated from Rajputana, Bombay, Delhi, Ajmer and Hyderabad Deccan. Most of these are Qureshi, Siddiqui, Rizvi, Naqvi, Jafri etc; other prominent castes of the migrants include Syed, Qureshi, Pathan, etc.

1.4.3 Culture, Customs and Tradition

When a baby is born, the father or any senior member of the family, repeats Azan (Call to Prayer) in the ear of newly born baby in order that the name of Holy God may be the first sound that it hears in this world. Immediately after this, father gives a name to the baby. The child's head is shaved with some courious ceremonies within a week. One or two goats are slaughtered and meat distributed among relatives and friends. No age is prescribed for circumcision. The father generally gives a feast to a wide circle of his friends and relatives.

Marriages in orthodox societies are always arranged by parents. Normally marriage is sought within the circle of his own family or that falling within his own tribe.

Among muslims, polygamy is permitted upto four wives which mostly confines to rich persons. Divorce is also permissible but is frowned upon. Amongst Balochis, infidelity in a wife is not dealt with by divorce but by killing her and her paramour usually called honour killing. This is regarded as the only way in which the husband can recover his tarnished honour. The custom of pardah rigidly practiced by all except the working class and westernized society.

Many Hindu customs and ceremonies differ from caste to caste. When a child is born, the first thing to be done is to communicate with the family priest (Purohit) in order that the exact time to be noted. It was part of his duty to ascertain the time astronomically. Birth of a girl is not considered propitious. However if a boy is born merry-making is done by distributing sweetmeats and calling musicians. The Chatti ceremony, at which the child receives its name, is held on the 6th after birth. Barhman after reciting mantras declare horoscope and then announces child's name.

Hindu holidays are very numerous and various castes differ much in the relative importance which they ascribe to them.

1.4.4 Food

Food of the people generally is simple. The agrarian classes eat grain which is principally produced in the part of the district to which they belong. Thus wheat, Juari, and Rice are the staple food of the people of Nawabshah district. Those who are well off do not use Juari at all. Wheat and Juari are eaten in the form of roti (Sindhi mani) with cooked vegetable or meat or fish or curd. Rice is boiled and eaten with some similar accompaniment or made into pulao with meat.

All classes eat flesh, fowl, and fish. With the Muhanas of the river bank, fish is the staple food. The wandering Jats subsist very largely on milk of their camels and people of Kacha tract on that of their buffaloes, cows, goats and sheep. Muslim eat eggs, fried or boiled. The diet of upper classes is of course more varied including pulses, fruit, rice, mutton, beaf chicken and sweetmeats as well as a greater variety of vegetables. There are ordinarily two substantial meals in the day with one breakfast (Neran) in the morning. A drink of warm milk some time after evening meal is considered beneficial for health. Use of tea is common. Biris and cigarettes are also smoked by some classes.

1.4.5 Dress and Ornaments

As the great majority of population of Nawabshah district is agricultural and rural and spends most of its time in open-air, the question of dress is not one to cause much thinking as to the suitability of or the need to change uniform. Shirt is always worn outside the trousers. Baloch wears loose garments or a long white smock. Poor man's garments are of cotton, the rich man's of silk or cotton of high quality. The sleeves of shirts are wide and some times cuffless. The ordinary cultivators wears no warm clothes even in cold weather but goes about with Ajrak thrown over his head.

Hindus usually wear white cotton vest (cholo), the waist cloth (dhoti) and a small flat red or white turban. A short coat (angarakha) fastened with tapes completes their costume.

Westernization of dress has now become more fashionable. Muslim women generally wear a cotton vest (cholo), *shalwar* and *dupatta* or shawl (rawa) thrown over head. *Parda* observing women also wear *burqa* but the working village women obviously can not afford to wear it. Hindu women wear *sari* with *jhabo* or a white vest (cholo) shorter in length, a red cotton skirt (peshgir) and a white muslin shawl (rawa). In desert, women wear a red cotton skirt, fully plaited known as *ghaghra*.

Ornaments are as indispensable to a women as clothes. The foremost in importance is the nose ring (nath), which a married women would never remove while her husband lives. Nose-ring are of many forms some suspended from either wing of the nose. Ear-rings are also common. Neckless a frontal ornament for the hair (chindi or tiko, rings on the fingers, bracelets, anklets, and armlets, kangan, kari and banh-rakhi) complete the decoration of a well-dressed lady.

1.4.6 Dwelling

The climate of the district is favourable to open air life. Rainfall is meagre and sun is for most of the year strong and piercing. It is often more pleasant to remain outside under shelter and shade than in a stoutly build dwelling. In this district, most houses are

built of mud bricks dried and hardened in the sun with flat roofs. However in the cities brick build houses, some times many storied are common.

Nawabshah district is largely still a rural area. Ordinary villagers have a low hut consisting of mud walls and a roof of thatch. The houses of well off people are usually built of sun dried bricks with a flat roof. It consists of a living room, a kitchen, a store room, bathroom etc. But to live with any appearance of respectability a householder requires also an Otak or drawing room in which he may receive male visitor and pass the day. This is a separate building and contains the best furniture he has, wealthier the owner, more ample is accommodation and better furnished.

With the rise in the whole standard of living which is observable amongst all classes, houses of burnt pakka bricks are becoming more common in the large villages than they were, and corresponding improvements appear in the arrangement and furnishing. In the big towns like Nawabshah and Sakrand houses are usually provided with necessary furniture and other luxury items. All the big villages and towns have also been provided with electricity.

1.4.7 Occupations

The main occupation of the population is agriculture in the district. This includes cultivation of lands, rearing of cattle, reaping and harvesting of produce, tending poultry and other allied subsidiary occupations. A very small proportion of the population settled on the banks of the river Indus are engaged in fishing and hunting. Some of the population is engaged as un-skilled labourers in roads, house building and other construction works. Skilled labourers are working in sugar mills, cotton mills and motor workshops, etc. There are also lawyers doctors, teachers, businessmen and other officials.

In rural areas, like other parts of the country, women and children work in the home and also do light farm work in the field like harvesting and grazing to assist their male members.

1.4.8 Betrothal and Marriages

Marriages in orthodox societies are always arranged by parents. Normally, marriage is sought within the circle of his/her own family or caste. In some cases marriages are contracted outside and this practice is now becoming more common. Betrothal ceremony is a declaration of engagement on the part of two parties in which relatives from both sides assemble at the bride's house. The ceremony consists of exchanging of gifts, distribution of sweetmeats and covering girl with a specially made *dupatta*. Betrothal ring is presented by the bride groom's parents to the bride in the presence of all guests, alongwith some golden ornaments and suits of clothes according to their status. Generally betrothal

ceremony is performed in a simple way but in some cases, it is as elaborated as a full marriage ceremony. Two days before, the date of marriage, mehndi ceremony is performed at the bride groom's house, whose relatives and friends give some cash presents. The quests are feasted and mehndi is taken in a small procession of ladies to the bride's house. Ladies of bride groom's party then apply mehndi on the hands and feet of bride. The intervening two days are spent in decorating the houses of both of the parties with colour lights. Singing and dancing in the houses of both of parties are common amusement. Before marriage, the articles of dowery given to bride are displayed to the members of respective families.

On the marriage day, the bride groom is taken in a procession (barat) on a horse-back or in a motor-car accompanied by relatives, friends and guests. Generally procession is proceeded by a band party. He is usually garlanded with rose and motia flowers. Procession terminates at the door of bride's house. Marriage is then solemnized by the nikah reader, but before doing so consent of bride is obtained through *vakils*. The amount of dower money is fixed and is made known to all wedding guests. Dry dates (choowarey) are distributed and marriage feast is held and barat returns with the bride to the bride groom's house. Among Muslims polygamy is permitted up to four wives, but is rare in practice and is mostly confined to well-to-do landlords/individuals.

In matrimonial affairs among Hindus, the first advance must come from the side of the young lady, the swain can not propose. Necessity has no law, however and where there is a dearth of marriage able girls, a young man may take the leap-year privilege, but the opposite is the proper course. When a girl comes to the marriageable age, her mother fixes her choice on an eligible young man and sends a proposal through a lady or brahman/bawa. When young man's family has accepted, the betrothal is completed.

Marriage date is fixed after consulting astrologer to find out a lucky day for the wedding. Then is the time for singing and merry making in the houses of both the parties. The process of beautifying the bride also begins and lasts till the wedding day. On the day of marriage a choi or square is made in the center of specially erected booth. The priest kindles fire and feeds it with ghee, barley and sesame. He then makes the couple sit on two stools, side by side. He recites the sapta-padi and then makes bride and bride groom walk four times round the sacred fire Joining of hands (hathailo) and circuit of fire (phera) are the essentials of marriage rite. After it is over, gifts are distributed to relatives, then the bride groom's party are fed and allowed to return with the bride.

A Hindu as a rule has only one wife but if she remains long childless, he takes another. Divorce is unknown to them. A widow is never permitted to remarry.

1.5 ADMINISTRATIVE SET UP

1.5.1 District Administration

The district is under the general charge of Deputy Commissioner who combines the functions of District Magistrate as well as Collector. He occupies the most responsible position in the district and performs a large number of functions in different capacities including co-ordination of the functions of all nation building departments working in the district.

The organizational set up of revenue officers in this district is as under :-

Deputy Commissioner	01
Add. Deputy Commissioner	01
Assistant Commissioners	02
Mukhtarkars	03

1.5.2 Police Department

Police department of the district is headed by a Superintendent of Police. He has a close co-ordination with the Deputy Commissioner of the district.

Organizational set up of Police in Nawabshah district is as under :-

Sl No.	Police Officials/Stations	Number
1.	Superintendent of Police	01
2.	Deputy Superintendents of Police	05
3.	Inspectors	11
4.	Sub-Inspectors	35
5.	Assistant Sub-Inspectors	93
6.	Head Constables	224
7.	Police Constables	1746
8.	Police Stations	21
9.	Police Check Posts	11

Source: Deputy Commissioner Office, Nawabshah.

1.5.3 Judicial System

The judicial administration of the district is under the charge of a District and Session Judge who is assisted by two Additional District and Sessions Judges, two Senior Civil Judges, two Civil Judges and three Magistrates.

1.6 HEALTH

Due to dust, excessive heat and illiteracy, the sanitary and hygienic conditions are unsatisfactory. In rural areas muddy canal water is used for drinking and bathing purpose resulting in stomach diseases. However in towns and cities drinking water is available from filtered hand pumps, open wells and tube wells.

The medical installations/facilities in the district are as follows :-

TABLE 1.5: NO. OF GOVERNMENT HOSPITALS & DISPENSARIES 1997-98

1.7 EDUCATION

People of Nawabshah district are educationally backward especially in respect of female education. The hari classes may be educated upto the primary standard but they rarely go any further. The education is making slow progress among original inhabitants of the district but most of the residents of urban areas appreciate the value of higher education and make full use of such facilities as the district can afford to provide.

The teaching staff of schools is mostly trained and medium of instruction at present is Sindhi and Urdu languages. Simultaneously a considerable progress on female

Collector's Kacheri, Nawabshah

side is also achieved. This is indeed a splendid progress.

1.8 IMPORTANT/HISTORICAL PLACES

1.8.1 Bhiro Bhango

In Nawabshah taluka about three miles in the south of village Bandhi, there exists a huge mound known as Bhiro Bhango and it appears that some ruined town is buried therein. No archaeological survey of the site has been conducted so far but from the pieces of broken pottery scattered all over the mound and from the legends of people, it is believed that definitely there was some human habitation on the spot in the past. It is also said that the site dates back to Buddhist period. This shows that the land of this taluka has remained as the cradle of the Buddhist civilization which swayed the Indus valley for several centuries.

1.8.2 Dalel Dero

There is one kachha fort in the village Dalel Dero on Nawabshah-Sakrand road which is said to have been built by Mir Dalel Khan, who was a member of the ruling Mir family.

Dalel Kot, Taluka Sakrand

PART - II
BROAD ANALYSIS OF POPULATION CENSUS DATA

2 BROAD ANALYSIS OF POPULATION CENSUS DATA

2.1 POPULATION SIZE, GROWTH AND DISTRIBUTION

2.1.1 Population Size and Growth

The Population of Nawabshah district, presently comprising three talukas, is 1071.53 thousands in 1998 as compared to 813.53 thousands in 1981 recording an increase of 31.71 percent over the last 17 years i.e. 1981-98. If we go back further the intercensal increase was 45.27, 107.11, 22.63 and 31.71 percents during 1951-61, 1961-72, 1972-81 and 1981-98 respectively. Overall the Population of the district has increased about four and a half times during the last 47 years i.e. 1951-98.

The average annual growth rate of population in 1981-98 has declined to 1.63 percent from 2.44 percent during intercensal period 1972-81. It was 6.44 percent in 1961-72 and 3.84 percent in 1951-61. If the population of the district continues to grow at its present rate i.e. 1.63 percent per annum, it will double in next 42 years. Table 2.1 gives the population and intercensal increase since 1951. Figures 2.1 and 2.2 highlight the population increase and average annual growth rate since 1951.

TABLE 2.1 : POPULATION AND INTERCENSAL INCREASE SINCE 1951

Description	1951	1961	1972	1981	1998
Population (Thousands)	220.50	320.33	663.43	813.53	1071.53
Intercensal Increase (percent)	-	45.27	107.11	22.63	31.71
Cumulative Increase (percent)	-	45.27	200.87	268.94	385.95
Average Annual Growth Rate (percent)	-	3.84	6.44	2.44	1.63

Among the three talukas of the district, more than half of the population is reported in Nawabshah taluka at 51.78 percent followed by 25.18 Percent for Sakrand taluka and 23.03 percent for Daulatpur Taluka.

The area of the the district is 4502 square kilometers yielding a population density (persons per square kilometre) of 238 in 1998.

2.1.2 Household Size

Average household size of the district is 6.0 persons in 1998. Average household size among the talukas is almost the same at 5.6 except Nawabshah taluka where it is higher at 6.4. If we compare rural/urban areas the household size is 5.6 in rural and 7.4 in urban areas.

2.1.3 Rural/Urban Distribution

The rural population of the district is 789.17 thousands constituting 73.65 percent of the total population in the district in 1998. The average annual growth rate of rural population during 1981-98 is 1.08 percent which has decreased from 2.06 percent during 1972-81. It was 6.32 percent and 3.83 percent during 1961-72 and 1951-61 respectively.

The urban population of the district is 282.36 thousands which constitutes 26.35 percent of its total district population in 1998. The average annual growth rate of urban population has declined to 3.54 percent in 1998 as compared to 4.21 percent in 1981. It had showed tremendous increase of 7.03 percent in 1972 in comparison to 3.87 percent in 1961 census. There are eight urban localities in the district; of which Nawabshah Municipal Corporaton has a population of 189.24 thousands in 1998. Figure 2.3 illuminates rural/urban proportion of population in 1998.

2.1.4 Religion

The Muslim population of the district is 96.53 percent of the total population; 94.84 percent in urban and 97.14 percent in rural areas. The important minority is Hindu constituting 2.77 percent whereas the percentages of remaining minorities have been reported quite negligible. Table 2.2 gives the percentage distribution of population by religion with rural/urban residence in 1998.

TABLE 2.2 : PERCENTAGE OF POPULATION BY RELIGION AND RURAL/URBAN AREAS 1998

Religion	All Areas	Rural	Urban
Muslim	96.53	97.14	94.84
Christian	0.33	0.10	0.99
Hindu(Jati)	2.77	2.44	3.69
Ahmadi	0.23	0.18	0.38
Scheduled Caste	0.11	0.12	0.08
Others	0.03	0.03	0.03

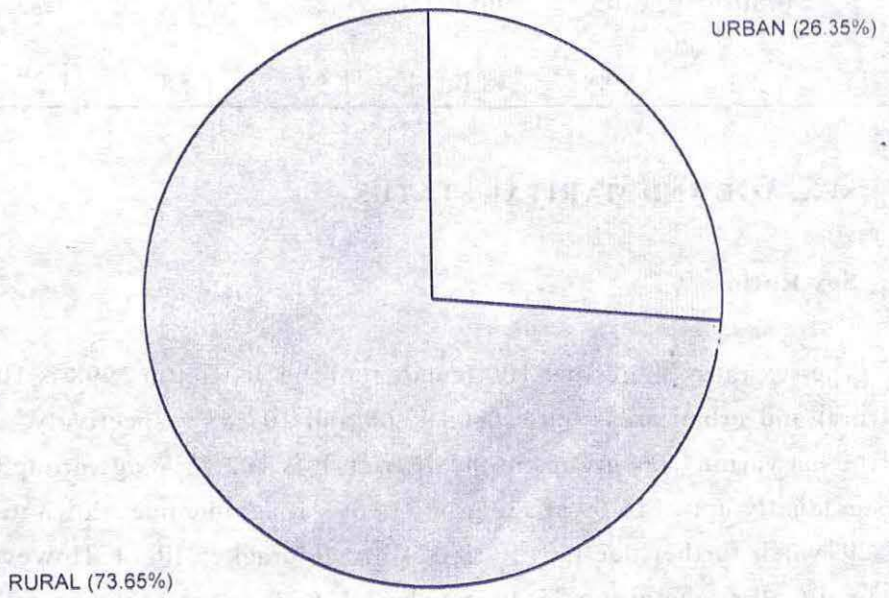

2.1.5 Mother Tongue

Sindhi is the major mother tongue which is spoken by 79.25 percent of the total population in the district. It is more predominant in rural areas at 90.44 percent as campared to 48.00 percent in urban areas.The next prominent percentages are Urdu and Punjabi speaking at 8.72 percent and 7.90 percent respectively in the district, relatively more spoken in urban areas at arround 31 percent and 16 percent as compared to their low

Fig : 2.3

NAWABSHAH DISTRICT

RURAL-URBAN POPULATION, 1998

percentages in rural areas. Balochi, Saraiki and Pashto are spoken by only 1.82, 0.88 and 0.52 percents of the population. Table 2.3 gives the percentage of Population by mother tongue with rural/urban residence in 1998.

TABLE 2.3: PERCENTAGE OF POPULATION BY MOTHER TONGUE AND RURAL/URBAN AREAS 1998

Area	Urdu	Punjabi	Sindhi	Pashto	Balochi	Saraiki	Other
All Areas	8.72	7.90	79.25	0.52	1.82	0.88	0.90
Rural	0.80	5.05	90.44	0.25	1.91	0.74	0.81
Urban	30.83	15.88	48.00	1.28	1.58	1.27	1.15

2.2 SEX, AGE AND MARITAL STATUS

2.2.1 Sex Ratio

The sex ratio (males per 100 females) of the district in 1998 is 107.72. The sex ratios in rural and urban areas varies at 107.68 and 107.83 respectively. The sex ratio widely differs at various age groups in the district. It is 102.31 at age group 0-4 and thereafter rises gradually upto 126.09 at age group 10-14. It again comes down to 107.92 at age group 25-29 which further declines to 94.21 at age bracket 40-44. However, it rises up suddenly to 106.50 at age group 45-49, touches 116.40 at age group 55-59. Thereafter it shows irregular trend at ages 60 and above.

2.2.2 Age Structure

According to the 1998 Census the adult population 18 years and above is 50.77 percent of the total population in the district with almost same percentages for males and females as well as for rural but slightly higher at 51.56 percent for urban areas. The proportion of working age groups; i.e. 15 to 64 years comes to 52.15 percent giving an age dependency ratio of 91.75 percent in the district. This ratio is 95.45 and 87.92 percents for males and females respectively. There is a significant variation in the age dependency ratios in rural at 95.02 percent as against 83.17 percent in urban areas.

The population eligible to vote i.e., 21 years and above, is 41.49 percent which varies in rural and urban areas at 40.97 percent and 42.97 percent respectively. The percentage of population by important age groups, sex and rural/urban areas is given in table 2.4. Figure 2.4 reflects the age and sex structure of the district population.

Fig : 2.4

21 Years & Above	41.49	41.46	41.53	40.97	40.70	41.25	42.97	43.56	42.32
15-49 Years	45.67	44.53	46.91	44.87	43.34	46.51	47.93	47.84	48.02
15-64 Years	52.15	51.16	53.21	51.28	49.92	52.73	54.59	54.63	54.55
65 Years & Above	2.80	2.83	2.78	2.92	2.96	2.87	2.47	2.45	2.50
Age Dependancy Ratio	91.75	95.45	87.92	95.02	100.31	89.63	83.17	83.04	83.31

The district has a broad based population pyramid indicating a high proportion of population at younger age group. The population under 5 is 16.27 percent comprising 15.87 percent males and 16.71 percent females. Overall the percentage of population below 15 is 45.05, higher at 45.80 percent in rural areas as compared to 42.93 percent in urban areas. Shape of the pyramid becomes narrower at the adult age groups and then went on to a thin peak showing a smaller proportion of population at advanced age groups.

2.2.3 Marital Status

All individuals aged 15 years and above enumerated in the 1998 Population Census were classified according to their marital status, namely, "married", "never married", "widowed" and "divorced". Out of them 27.78 percent are never married, 66.69 currently married, 5.36 widowed and nigligible i.e. 0.18 percent as divorced. The never married amongst males are 32.61 percent, which is much higher than the females at 22.76 percent. This differential is also reflected through the mean age at marriage which is 23.82 years for males as compared to 20.55 years for females.

2.2.4 Females of Reproductive Ages by Marital Status

Out of total female population 46.91 percent is in reproductive ages i.e. 15 to 49 years. The percentages for urban and rural areas are 48.02 and 46.51 respectively.

Among the females in reproductive ages, 26.10 percent are never married, 70.69 currently married, 3.00 widowed and 0.21 percent divorced. More than 14 percent of the ever married women of reproductive age group are found without any child, 11.11 percent have one, while 12.59 percent reported two and 12.05 percent as three children, 12.07 percent had four and 9.63 percent five children. The highest percentage 28.46 had six and more children.

2.2.5 Disabled Persons

The disabled persons constitute 4.39 percent of the total population of the district. Among them 58.50 percent are males and 41.50 percent females. The percentages of crippled are 11.09 for males and 9.70 for females respectively. The deaf and mute persons are 7.26 percent; 6.25 for males and 8.54 for females. About 82 percent of the disabled population suffered with some other categories of disability.

2.3 LITERACY AND EDUCATIONAL ATTAINMENT

2.3.1 Literacy

The literacy in the 1998 Census is defined as the "ability of a person to read a news paper or write a simple letter in any language". The literacy is measured in terms of literacy ratio and computed as percentage of literate persons among the population aged 10 years and above.

The literacy ratio of the district is 34.13 percent. The male literacy ratio is more than double at 47.62 percent as compared to 19.62 percent for females in 1998. There are sharp differences in the literacy ratios by sex and area. The ratio in urban areas is about double at 54.26 percent as compared to only 26.47 percent in rural areas. Male literacy ratio is about four times at 41.00 percent as compared to female at 10.89 percent in rural areas. In urban areas male literacy ratio is one and a half times at 64.95 percent against 42.69 percent for females.

Table 2.5 gives literacy ratios by sex and rural/urban residence for 1998. Figure 2.5 shows the literacy ratios by sex and area.

2.3.2 Educational Attaintment

The percentage of educated persons is 33.59 of the population aged 10 years and above including those below primary. The remaining 66.41 percent have neither attained any educational level nor attended any educational institution.

A large variation exists in the percentages of educated persons in rural and urban areas as well as for males and females. Male educated persons are much higher at 47.08 percent as against females at only 19.08 percent in the district. It is more than double at 53.77 percent in urban areas in comparison to 25.92 percent in rural areas. The figure of males is about four times at 40.40 percent as compared to 10.38 percent for females in rural areas. Another sharp difference has been reported in urban and rural areas about the educated females who are about four times at 42.07 percent in urban areas as compared to 10.38 percent in rural areas. Table 2.6 gives the ratios of educated persons by sex and rural/urban areas.

TABLE 2.6 : EDUCATED PERSONS BY SEX AND RURAL/URBAN AREAS 1998

Area	EDUCATED PERSONS AS PERCENTAGE OF POPULATION 10 YEARS & ABOVE		
	Both Sexs	Male	Female
All Areas	33.59	47.08	19.08
Rural	25.92	40.40	10.38
Urban	53.77	64.57	42.07

2.3.3 Enrolement Ratio

The enrolment ratio measured as percentage of students to population of ages 5-24 years of the district is 24.96 percent. It differs sharply for rural and urban areas as well as for males and females. It is higher for males at 31.18 percent as compared to 18.21 percent for females. The enrolment ratio is much higher in urban areas at 43.88 percent as against 17.97 percent in rural areas. There are also sharp differences between male and female enrolment ratios in rural and urban areas. In rural areas the ratio of male is more

than double at 24.81 percent to that of females at 10.47 percent. Whereas in urban areas it is higher at 48.74 percent for males as against 38.74 percent for females. Table 2.7 gives enrolment ratio by sex and rural/urban areas.

TABLE 2.7 : ENROLMENT RATIO BY SEX AND RURAL/URBAN AREAS 1998

Area	Box Sexes	Male	Female
All Areas	24.96	31.18	18.21
Rural	17.97	24.81	10.47
Urban	43.88	48.74	38.74

2.3.4 Level of Education

Of the total educated persons in the district 35.67 percent have passed primary, 15.35 percent middle and 13.98 percent matriculation. After matriculation the percentage falls to 7.57 for intermediate, 4.23 for graduates and 2.30 for post graduates.

2.4 MIGRATION

2.4.1 Migration

Migration data covers movement of population in terms of shifting residence from one district to another in the same province or from one province to another. It does not cover persons who changed their place of residence within their own district.

2.4.2 Life Time Migrants

The total in-migrants are 37401 i.e. 3.49 percent of the total population in the district. Most of them are located in urban areas at 80.27 percent as compared to 19.73 percent in rural areas. The male and female in-migrants are 3.27 and 3.73 percents respectively. The persons who have migrated into the district during the last 5 years i.e. after March, 1993 are 27.07 percent, while 14.70 percent had migrated before 5 years but after 1988. The remaining 58.23 percent had migrated 10 years earlier.

While looking for the reasons of migration most of the migrants at 46.48 percent moved with head of the household, 18.38 percent as a result of marriage, 12.39 percent due to employment/transfer, 7.40 percent due to business, 0.49 percent for study, 0.22 percent returning home, and the remaining 14.60 percent migrated due to the unknown reasons.

Majority of the in-migrants are within the Province i.e. 45.51 percent belongs to Sindh, around one and half times at 60.84 percent in rural areas as compared to 41.75

percent in urban areas. Migrants from Punjab are 16.36 percent, almost equal at 15.24 percent and 16.64 percent in rural and urban areas respectively. The percentages of migrants from NWFP and Balochistan are 5.97 and 2.73 where as the percentages of Islamabad, FATA and AJK/NA are quite insignificant. As many as of 21.19 percent have repatriated from other countries. However, only 7.85 percent had not reported their previous place of residence. Table 2.8 provides the percentages of in-migrants of the district.

TABLE 2.8 : PERCENTAGE OF MIGRANTS FROM OTHER PROVINCE/WITHIN PROVINCE BY RURAL/URBAN, 1998

Place of Previous Residence	All Areas	Rural	Urban
All Areas	37,401	7,380	30,021
	(100)	(100)	(100)
Sindh (Within Province)	45.51	60.84	41.75
NWFP	5.97	0.00	7.43
Punjab	16.36	15.24	16.64
Balochistan	2.73	10.39	0.84
Islamabad	0.00	0.00	0.00

Not reported	7.85	10.47	7.21

2.5 ECONOMIC CHARACTERISTICS

2.5.1 Economically Active Population

Economically active population comprises the persons of either sex who are engaged in some work for pay or profit including un-paid family helpers, persons not working but looking for work as well as those laid off,during the reference period. The economically active population in the district is 21.16 percent of its total population and 31.51 percent of the population aged 10 years and above. The percentage of children below 10 years is 32.83 while 6.20 percent are students and 7.89 percent all others. Among the inactive population 31.92 percent are domestic workers in the district. The activity or participation rates, percentage of population by economic categories and unemployment rates are shown in table 2.9.

TABLE 2.9: PERCENTAGE OF POPULATION BY ECONOMIC CATEGORIES, SEX AND RURAL/URBAN AREAS 1998

Economic Category	All Areas			Rural			Urban		
	Both Sexes	Male	Female	Both Sexes	Male	Female	Both Sexes	Male	Female
Labour Force	21.16	38.89	2.07	21.05	38.68	2.07	21.48	38.49	2.06
Not in Labour Force	78.84	61.11	97.93	78.95	61.32	97.93	78.52	60.51	97.94
Children Below 10 Years	32.83	32.87	32.79	33.92	34.03	33.81	29.79	29.64	29.95
Domestic workers	31.92	2.43	63.68	31.50	2.46	62.76	32.74	2.35	65.51
Students	6.20	11.13	0.89	4.84	8.81	0.56	10.01	17.60	1.82
All others	7.89	14.67	0.58	8.69	16.02	0.81	5.98	10.91	0.66
Labour Force Participation Rate (Refined)	31.51	57.94	3.08	31.86	58.63	3.13	30.60	56.13	2.94
Un-Employment Rate	11.12	11.38	5.81	10.68	10.88	6.57	12.33	12.75	3.68

The percentage of economically active population to the total population is termed as crude activity or participation rate while the percentage among population aged 10 years and above is called refined activity or participation rate.

The activity rates between males and females varies widly as it is 57.94 percent for males as compared to only 3.08 percent for females resulting in an overall low participation rate. A similar trend in respect of males and females has been reflected both in rural and urban areas respectively. Area wise activity rates have been reported almost at par i.e., 31.86 percent in rural areas and 30.60 percent in urban areas.

2.5.2 Un-Employment

The un-employment rate is the percentage of un-employed persons (those not working but looking for work and laid off) to the total economically active population in the district. The un-employment rate at 11.12 percent has been recorded in the district. It varies for males and females as well as for rural and urban areas. The un-employment rate for males is 11.38 percent and for females 5.81 percent. It is 10.68 percent in rural and 12.33 percent in urban areas. It however widely differs in respect of males and females in rural and urban areas. It is 10.88 percent for males as compared to 6.57 percent for females in rural areas. In urban areas it is 12.75 percent for males as compared to quite low at 3.68 percent for females.

2.5.3 Employed Population by Occupation

Of the total employed population in the district, 57.15 percent is in the major Occupation Group-6 "Skilled Agricultural and Fishery Workers". The next higher Occupation Group-9 comprising 26.82 percent is of "Elementary Occupations" followed by Occupation Group-5 "Service Workers and Shop and Market Sales Workers" constituting 5.16 percent in the district.

The pattern of occupational status varies between rural and urban areas. In rural areas, most of the employed persons at 75.35 percent, like in the district are associated with major Occupation Group-6 "Skilled Agricultural and Fishery Workers" followed by Occupation Group-9 "Elementary Occupations" at 15.85 percent. In urban area, more than 57 percent is engaged in major Occupation Group-9 "Elementary Occupations" followed by major Occupation Group-5 "Service Workers and Shop and Market Sales Workers" at 13.17 percent.

2.5.4 Employed Population by Industry

Around two third of the working population i.e., 62.53 percent is engaged in Major Division-1 "Agriculture, Forestry, Hunting and Fishing", with a higher percentag at 79.83 in rural areas. Major Division-5 "Construction" at 15.33 percent has been reported as second in the district. It has also been reported second at 7.84 percent in rural areas. In urban areas more than one third of the working population i.e., 36.24 percent is associated with major Division-5 "Construction" followed by major Division-9 " " Community, Social and Personal Services" at 20.54 percent.

2.5.5 Employed Population by Employment Status

Among the employed population in the district 63.15 percent is self-employed, much higher at 66.14 percent in rural areas as compared to 54.81 percent in urban areas. It is worth to mention that most of the self employed are males. The next important percentage is employees (private) at 15.08 with almost the similar percentage at 15.50 for males as compared to only 7.07 percent for females. The percentage of unpaid family helpers has been reported at 11.37 , four times females at 39.25 percent as compared to 9.91 percent males. Employees (Govt.) have been reported as 7.92 percent in the district, four times at 16.75 percent in urban areas in comparison to 4.75 percent in rural areas. Table 2.10 gives percentage of working population by employment status.

TABLE 2.10 : EMPLOYED POPULATION BY EMPLOYMENT STATUS, SEX AND RURAL/URBAN AREAS 1998

Employment Status	All Areas			Rural			Urban		
	Both Sexes	Male	Female	Both Sexes	Male	Female	Both Sexes	Male	Female
All Categories	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00
Self Employed	63.15	64.56	36.29	66.14	67.44	41.26	54.81	56.53	22.76
Employee (Govt)	7.92	7.59	14.06	4.75	4.80	3.80	16.75	15.40	42.03
Employee (Auto)	1.17	1.15	1.73	0.72	0.69	1.22	2.44	2.40	3.11
Employee(Private)	15.08	15.50	7.07	12.27	12.71	3.84	22.91	23.29	15.86
Employer	1.31	1.29	1.60	1.55	1.53	1.91	0.63	0.62	0.78
Un-paid Family helper	11.37	9.91	39.25	14.57	12.83	47.98	2.46	1.76	15.46

2.6 IMMUNIZATION

The question about immunization has been included in the 1998 Population Census for the first time to evaluate the vaccination programme launched by the Government from time to time. It is encouraging to note that 60.44 percent of the children below 10 years age have been reported as vaccinated in the district with considerably higher percentage at 74.08 in urban areas as compared to 56.15 percent in rural areas. Those not vaccinated were 11.33 percent leaving the rest i.e. 28.23 percent as not known. The percentages of vaccination among male and female children are 30.77 and 29.67 respectively. Table 2.11 gives detail of immunization by sex and area.

TABLE 2.11 : PERCENTAGE OF POPULATION (LESS THAN 10 YEARS) BY IMMUNIZATION, SEX AND RURAL/URBAN AREAS, 1998

Area	Total Population	Both Sexes			Male			Female		
		Vaccinated	Not Vaccinated	Not Known	Vaccinated	Not Vaccinated	Not Known	Vaccinated	Not Vaccinated	Not Known
All Areas	351.818	60.44	11.33	28.23	30.77	5.64	15.51	29.67	5.69	12.72
Rural	267,702	56.15	13.62	30.23	28.20	6.72	17.09	27.95	6.89	13.14
Urban	84,116	74.08	4.06	21.86	38.92	2.21	10.50	35.16	1.86	11.36

2.7 NATIONAL IDENTITY CARD

The question about National Identity Card was asked in the 1998 Population Census for the first time to see the coverage element of I.D.Cards. The question about NIC was asked from population aged 18 years and above. According to the responses to the question it was found that 62.11 percent of population aged 18 years and above have obtained NIC. It was 37.35 percent for males and 24.76 percent for females. The variation by gender and area shows that 35.60 percent of rural males have obtained NIC as compared to 22.74 percent of females. The coverage in urban areas is however, higher at 42.15 percent of males as against 30.28 percent for females. Table 2.12 gives necessary details by sex and area.

TABLE 2.12 : PERCENTAGE OF POPULATION (18 YEARS AND ABOVE) HOLDING NATIONAL IDENTITY CARD BY AGE, SEX & RURAL/URBAN AREAS 1998

Area	Total Population	Both Sexes		Male		Female	
		N.I.Card obtained	N.I.Card not obtained	N.I.Card obtained	N.I.Card not obtained	N.I.C. obtained	N.I.Card not obtained

Rural	398434	58.34	41.66	35.60	14.58	22.74	27.09
Urban	145571	72.43	27.57	42.15	9.61	30.28	17.96

PART - III
BROAD ANALYSIS OF HOUSING CENSUS DATA

3 BROAD ANALYSIS OF HOUSING CENSUS DATA

3.1 TYPE OF HOUSING STOCK

3.1.1 Level of Congestion-Persons and Rooms

Majority of the housing units at 71.25 percent in Nawabshah district are single room houses, higher at 77.84 percent in rural as compared to 47.10 percent in urban areas. Housing units, with two to four rooms are 27.37 percent in the district, much higher at 48.91 percent in urban areas in contrast to 21.49 percent in rural areas. The houses of five and more rooms are higher at 4.00 percent in urban as compared to negligible 0.68 percent in rural areas.

In the 1998 Housing Census, the number of rooms per housing unit in the district was 1.4, almost same in rural areas at 1.3 but higher at 1.9 in urban areas. Persons per room were 4.29 in the district, almost same at 4.31 in rural areas but slightly less at 3.89 in urban areas. Persons per housing unit were 6.0 in the district, lower at 5.6 in rural but higher at 7.4 in urban areas. Table 3.1 gives the indices of congestion in the 1998 Housing Census.

TABLE 3.1: INDICES OF CONGESTION IN 1998-CENSUS

Level of Congestion	All Areas	Rural	Urban
Persons Per Housing Unit	6.0	5.6	7.4
Persons Per Room	4.29	4.31	3.89
Rooms Per Housing Unit	1.4	1.3	1.9
Housing Units with one room (percentage)	71.25	77.84	47.1
Housing Units with 2-4 rooms (percentage)	27.37	21.49	48.91
Housing Units with 5 rooms and more (percentage)	1.38	0.68	4.00

3.1.2 Nature of Tenure

According to the 1998 Housing Census, 77.82 percent of the housing units in the district are owned houses, 79.01 percent in rural as compared to 73.46 percent in urban areas. The percentage of rent free houses is 17.54 in the district, 19.61 percent in rural areas which is double to that of urban areas at 9.95 percent. The percentage of rented houses is 16.60 in urban areas in contrast to a low percentage of 1.38 in rural areas. Table 3.2 gives detail of nature of tenure by rural/urban areas.

TABLE 3.2: NATURE OF TENURE BY RURAL/URBAN 1998 (PERCENTAGE)

Tenure	All Areas	Rural	Urban
	100	100	100
Owned	77.82	79.01	73.46
Rented	4.64	1.38	16.60
Rent Free	17.54	19.61	9.95

3.1.3 Period of Construction

A percentage of 46.18 of the owned housing units enumerated in the 1998 Housing Census were built more than 10 years earlier, 27.43 percent during the last 5-10 years and 25.03 percent during the last five years. Only 1.36 percent of the total houses were found under constrauction. A similar trend prevails in rural areas where as in urban areas a highest percentage of 61.00 housing units were found built more than 10 years earlier leaving the periods 5-10 years and less than 5 years at 20.38 percent and 17.34 percent respectively. Housing units found under construction remained almost at par at 1.38 percent and 1.29 percent in rural and urban areas.

3.1.4 Construction Material of Outer Walls

More than half of the housing units at 54.53 percent have walls of unbaked bricks/earth bonded, followed by standard pucca walls made of baked bricks/blocks and stone with cement bonding at 28.73 percent. Housing units having wooden walls have been reported at 13.53 percent and a little percentage of 3.21 with the material falling in the category of 'Other' in the district.

There is marked variation in the qualitative indices of construction material between urban and rural areas. In urban areas about 74 percent of the housing units have the standard pucca walls made of baked bricks/blocks and stones with cement bonding as compared to only 16.50 percent in rural areas. Conversely a higher percentage of 63.21 housing units have walls of un-baked bricks/earth bonded in rural areas as compared to 22.69 percent in urban areas. Similarly category of wooden walls is about five times at 16.37 percent in rural areas against 3.12 percent in urban areas. Table 3.3 gives the details of construction material used in outer walls of the housing units in the district.

TABLE 3.3 : MATERIAL USED IN OUTER WALLS BY RURAL/URBAN 1998 (PERCENTAGE)

Material	All Areas	Rural	Urban
All Categories	100	100	100
Baked Bricks/Blocks/Stone	28.73	16.50	73.58
Unbaked Bricks/Earth Bond	54.53	63.21	22.69
Wood/Bamboo	13.53	16.37	3.12
Others	3.21	3.92	0.61

3.1.5 Construction Material of Roofs

About 60 percent of the housing units have used Wood/Bamboo in the construction of roofs in the district. It has predominantly been used at 68.70 percent in rural areas. Housing units using cement/iron sheet in the district are at 15.40 percent, more than double at 28.80 percent in urban as compared to 11.75 percent in rural areas. Use of RCC/RBC remained at 13.35 percent in the district, about six times at 37.84 percent in urban areas as compared to 6.67 percent rural areas. A percentage of 11.58 housing units have used unspecified category of material for roofs in the district, almost same at 12.88 percent in rural areas as compared to only 6.82 percent in urban areas. Table 3.4 gives detail of material used in the construction of roofs.

TABLE 3.4 : MATERIAL USED IN ROOFS BY RURAL/URBAN 1998 (PERCENTAGE)

Roof Material	All Areas	Rural	Urban
All Categories	100	100	100
RCC/RBC	13.35	6.67	37.84
Cement/Iron Sheet	15.40	11.75	28.80
Wood/Bamboo	59.67	68.70	26.54
Others	11.58	12.88	6.82

3.2 HOUSING FACILITIES

3.2.1 Source of Drinking Water

The easy access to potable/safe drinking water is one of the basic human needs. As per information gathered in the 1998 Housing Census, more than 57 percent of the housing units are using handpump inside the houses, higher at 65.48 percent in rural areas as compared to 27.92 percent in urban areas. The facility of piped water inside the houses is available to 23.57 percent of the housing units in the district. It is much higher in urban areas at 63.03 percent as against only 12.81 percent in rural areas.

Important source of drinking water outside the houses in the district is reported handpump at 11.21 percent, higher at 13.47 percent in rural areas as compared to only 2.93 percent in urban areas. The facility of piped water outside the houses is available to 2.26 percent houses in the district, about three times at 4.40 percent in urban areas as compared to 1.67 percent in rural areas. Use of well, pond and sources falling in the category of 'Others' remained quite negligible at 0.87, 1.53 and 2.14 percent respectively in the district, with almost the same trend in rural as well as in urban areas. Table 3.5 provides percentages of housing units by source of drinking water by rural/urban areas.

TABLE 3.5 : HOUSING UNITS (PERCENTAGE) BY SOURCE OF DRINKING WATER, AND RURAL/URBAN, 1998

Source	All Areas	Rural	Urban
Source of Drinking Water			
All Sources	**100**	**100**	**100**
Inside	**81.99**	**79.40**	**91.49**
Pipe (Nul)	23.57	12.81	63.03
Hand Pump	57.43	65.48	27.92
Well	0.99	1.11	0.54
Outside	**18.01**	**20.60**	**8.51**
Pipe (Nul)	2.26	1.67	4.40
Hand Pump	11.21	13.47	2.93
Well	0.87	1.08	0.13
Pond	1.53	1.89	0.21
Others	2.14	2.49	0.84

3.2.2 Source of Lighting

The major source of lighting is electricity which is available to 75.51 percent of the housing units in the district. Its use is much higher at 93.52 percent in urban areas as compared to 70.61 percent in rural areas. The use of kerosene oil is as high as 23.21 percent in the district, higher at 28.08 percent in rural as compared to 5.34 percent in urban areas. Table 3.6 provides percentage of housing units by source of lighting.

TABLE 3.6 : HOUSING UNITS (PERCENTAGE) BY SOURCE OF LIGHTING AND RURAL/URBAN 1998

Source	All Areas	Rural	Urban
Source of Light			
All Sources	100	100	100
Electricity	75.51	70.61	93.52
Kerosene Oil	23.21	28.08	5.34
Others	1.28	1.31	1.15

3.2.3 Cooking Fuel Used

Wood as cooking fuel has predominantly been used by 83.40 percent of the housing unit, in the district, higher at 94.25 percent in rural as compared to its less than half at 43.57 percent in urban areas. Use of gas is reported at 13.07 percent in the district, more than 53 percent of the housing units in urban areas as compared to quite negligible 2.05 percent in rural areas. Use of kerosene oil and sources falling in the category of 'Others' remained quite negligible in the district as well as in rural and urban areas. Table 3.7 provides percentage of housing units by source of cooking fuel used.

TABLE 3.7 : HOUSING UNITS(PERCENTAGE) BY SOURCE OF COOKING FUEL USED BY RURAL/URBAN, 1998

Source	All Areas	Rural	Urban
Cooking Fuel Used			
All Sources	100	100	100
Wood	83.40	94.25	43.57
Kerosene Oil	1.82	1.84	1.77
Gas	13.07	2.05	53.46
Others	1.71	1.86	1.20

3.2.4 Availability of Separate Kitchen, Bathroom and Latrine Facilities

More than 19 percent of the housing units in the district have separate kitchen, more than double at 34.54 percent in urban areas, as compared to 15.09 percent in rural areas. Facility of shared kitchen is also being availed by 28.51 percent of the housing units in the district, almost with the same percentage at 27.73 in rural as compared to 31.36 percent in urban areas. None of the kitchen facility is reported by as high as 52.23 percent of the housing units in the district which is 57.17 percent in rural areas as compared to 34.10 percent in urban areas.

Separate bath room facility is available to as low as 20.21 percent of the housing units in the district, reported almost three times higher at 41.30 percent in urban areas as compared to 14.46 percent in rural areas. The percentage of shared bathroom at 43.68 is much higher in urban areas as compared to 24.29 percent in rural areas. None of the bathroom facility is reported by 61.25 percent of the housing unit, in rural areas as compared to 15.02 percent in urban areas.

Separate latrine facility is available to 22.56 percent housing units in the district, with 16.83 percent in rural areas as compared to 43.60 percent in urban areas. A percentage of 28.24 of the housing units are using shared latrine facility in the district, almost double at 44.96 percent in urban areas as compared to 23.69 percent in rural areas. More than 49 percent of the housing units have reported none of the latrine facility available in the district, the figure of which is much higher at 59.49 percent in rural areas compared to only 11.44 percent in urban areas.

TABLE 3.8 : HOUSING UNITS (PERCENTAGE) BY KITCHEN, BATH ROOM AND LATRINE FACILITIES BY RURAL URBAN 1998

Housing Facilities	All Areas	Rural	Urban
Kitchen			
All	100	100	100
Separate	19.26	15.09	34.54
Shared	28.51	27.73	31.36
None	52.23	57.17	34.10
Bath Room			
All	100	100	100
Separate	20.21	14.46	41.30
Shared	28.44	24.29	43.68
None	51.35	61.25	15.02
Latrine			
All	100	100	100
Separate	22.56	16.83	43.60
Shared	28.24	23.69	44.96
None	49.20	59.49	11.44

3.2.5 Source of Information

The question about source of information has been asked for the first time in the 1998 Population Census to assess the media coverage. More than one third at 35.31 percent of the housing units have access to T.V., more than double at 62.01 percent in urban areas as compared to 28.03 percent in rural areas. Use of radio has been reported slightly more than 26 percents in the district as well as in the rural and urban areas. Accessibility to the news paper has been reported at 22.77 percent in the district, more than double at 38.96 percent in urban areas as compared to 18.35 percent rural areas. Table 3.9 provides percentage of households by source of information.

TABLE 3.9 : PERCENTAGE OF HOUSEHOLDS BY SOURCE OF INFORMATION AND RURAL/URBAN, 1998

Area	Total Households	T.V	Radio	Newspapers
All Areas	177,522	35.31	26.70	22.77
Rural	139,493	28.03	26.64	18.35
Urban	38,029	62.01	26.89	38.96

DEFINITIONS AND CONCEPTS

Urban Areas

All localities which were either metropolitan corporation, municipal corporation, municipal committee, town committee or cantonment at the time of the census, were treated as urban.

Household

A household means a group of persons living together who have collective arrangement for eating. A person living alone was also considered to constitute a household. The distinguishing characteristic of a household is its common cooking arrangement.

Housing Unit

A housing unit means a separate and independent place of abode, inhabited by one household and, if vacant, meant for habitation by one household. It does not necessarily mean a separate building. A building may have one or more housing units. Furthermore, any place not intended for habitation but occupied by a household at the time of census was also treated as a housing unit.

Room

A room is defined as a space in a housing unit having a roof and walls from roof to floor. This includes sleeping, dining, drawing, study, children's and servant's rooms but excludes kitchen, bathroom, latrine, store, balcony, porch and motor garage.

Age

Age is recorded as of the last birthday.

Marital Status

Marital status has been classified into never-married, married, widowed and divorced. Never-married applies to persons who have never been married. Married includes all persons who are at present married and living as husband and wife as well as those married persons living apart but having a living wife/husband. Those couples, whose marriage (Nikah) had been solemnized but giving away ceremony had not taken place, were also treated as married. Widowed applies to a person whose husband or wife was dead but who had not married again. Divorced applies to both divorcer and divorcee, if not remarried.

Religion

Religion is recorded and tabulated as informed by the respondents.

Literate

A person who can read a newspaper and write a simple letter, in any language, is treated as literate.

Field of Education

(a) General Education

It includes educational programmes of primary, middle, matriculation, intermediate and bachelor's degree in arts or science.

(b) Technical/Engineering

It includes engineering educational programmes in the fields of electrical, electronic, industrial, metallurgical, mining, mechanical, agricultural, forestry, chemical, petrochemical, aviation, nautical, etc. It also includes programmes in survey, drafting and designing, all types of engineering technician programmes, all types of trade, craft and industrial programmes. Architectural and town planning programmes are also included.

(c) Medicine/Tib

It includes educational programmes of medical diagnostic and treatment techniques, medicine and surgery, medical X-ray techniques, dentistry, pharmacy, etc.

(d) Health

It includes educational programmes of public health, nursing, mid-wifery and other health related auxiliary programmes.

(e) Commerce/Business Administration

It includes educational programmes of typing, shorthand, clerical, secretarial, operation of office machines, book keeping, accountancy, electric data processing, business administration, marketing and sales, financial management and investment analysis, public administration, institutional administration, personal administration and other commercial, business and public administration programmes.

(f) Teaching

It includes all educational programmes which enable the teachers to teach all types of subjects to all categories of students. It includes education science programmes.

(g) Agriculture/Forestry/Animal Husbandry

It includes educational programmes of agriculture, forestry and fishing including general agriculture, animal husbandry, horticulture and gardening, crop husbandry, agricultural technology, food sciences and technology, veterinary, medicine, fishery science and technology, etc.

(h) Law

It includes educational programmes in jurisprudence, history of law, international law, labour law and maritime law and other laws.

(i) Economically Active Population

The economically active population comprises the persons aged 10 years and above of either sex who are engaged in some work for pay or profit including un-paid family helpers as well as those; not working but looking for work and laid off.

The Crude Activity Rate is measured as the percentage of economically active persons to the total population while the Refined Activity Rate is measured as the proportion of economically active persons among the population exposed to the risk of entering the economic life.

In collection of the data on economic activities "usual status" approach has been adopted as against the approach of labour force surveys, where data is usually collected on "current status" basis.

(j) Occupation

Occupation means the main job, profession, trade or kind/type of work usually performed by a person. In case of more than one occupation, the principal occupation is recorded. The principal occupation is that in which the person works most of the time.

(k) Industry

Industry means the activity of the organization, or business in which a person usually works.

Employment Status

(a) Self-employed

Self-employed is a person who operates his own farm, business, or industry or practices a profession but does not employ any hired help, paid either in cash or kind.

(b) Government employee

A Government employee is a person who works in any Government/Semi-Government Organization for pay.

(c) Private employee

A Private employee is a person who works, for pay, for person/farm/shop/firm/ organization/office which is not run or managed by the Federal/Provincial/Local Government/Autonomous body.

(d) Employer

Employer means a person who operates his own farm, business or industry or practices a profession and who employees one or more persons for the purpose.

(e) Un-paid Family Helper

Un-paid family helper means a person who works, without pay or profit, on family farm, business or industry.

Migrant Population

The migrant population mean those who have moved out their residence from one administrative district to another administrative district. It excludes population who have moved within a district.

Disability

Disability refers to the physical and organic handicap of a person due to natural deformity or deficient functioning of any limb resulting from accident, disease, etc. For census purposes it refers to visible malfunctioning of any organ of the body. It includes blind, deaf and mute, crippled, mentally retarded and insane.
