PREFACE

The Fifth Population and Housing Census, initially due in March 1991, was conducted from 2-18 March 1998 throughout the country including Federally Administered Tribal Areas, Northern Areas and Azad Kashmir. During the first three days i.e., from 2nd to 4th March houselisting was carried out wherein each house was physically numbered and registered as an inventory for conduct of the census from 5th to 18th March. The inventory served as a guideline for the supervisors besides ensuring complete coverage, during the census operation.

There were 3 separate questionnaires used for houselisting and collection of information on population and housing characteristics. Form-1 (Annex-A) was used for houselisting. Form-2 i.e., short form (Annex-B) was used for collection of information about all persons on core questions such as name, relationship with the head of the household, residential status, sex, age, marital status, nationality, religion, mother tongue, literacy, educational attainment and possession of national identity card, number of rooms, tenure, period when constructed, construction material of walls and roofs and source of drinking water-inside or outside, source of light, fuel used, type of kitchen, bathroom and toilet facilities and watching of TV and radio and reading of newspapers.

Form-2-A i.e., long form (Annex-C) was used for obtaining additional information about migration alongwith its reasons, field of education, economically active population, fertility, disability and inoculation of children against 6 diseases were asked on sample basis. About 8 percent single stage stratified sample was drawn with slightly more representation given to small provinces, districts and urban areas to make it a representative sample. Necessary definitions and concepts relating to the above mentioned questionnaires/forms are given at (Annex-D) for information of the readers.

The report mainly consists of three sections viz write up which carries general description of the district and some analysis of population and housing data, second section comprises tables while third section provides additional information about these sections in the form of annexures.

The write up section contains three main parts viz (i) general description about the district, (ii) broad analysis of population census data and (iii) broad analysis of housing census data. The general description covers location, boundary, area, geography, climate, rainfall, ethnicity, administrative set-up, agriculture, flora and fauna, health, industries, communication system, infra structure beside introducing the district. The broad analysis of population census data deal with population size, growth and distribution, other demographic and socio-economic characteristics.

The broad analysis of housing census data throw light on housing units/households, in terms of information on number of rooms, population density per housing unit and per room, tenure, period since constructed, construction material used on walls and roofs, source of drinking water, source of lighting, cooking fuel used in kitchen, availability of kitchen, toilet and bathroom facilities and assessment of media reach etc.

The report comprises 52 tables in all, 40 relate to population data, 12 to housing data. Of 52 tables 27 are based on complete count information while remaining on sample count information. Because of space problem the tables on occupation and industries are given in coded form. Therefore, after mentioning occupation and industries in coded form on the tables the detail occupational groups and industry divisions and district/sub-division map are appended at Annex-E, F & G respectively.

Census taking was a gigantic task which involved the whole nation in one way or the other which is commendable as a team work. The role of Provincial Governments was very vital and with out their active cooperation, the operation would not have been successful. The meritorious services rendered by the field staff in addition to their own jobs, are also appreciable. The services rendered by the staff and officers of Federal Bureau of Statistics in training and data processing was helpful. I am personally indebted to the Federal Government who inculcated in me a sense of responsibility to conduct the census in March 1998, and releasing the data as early as possible for the benefits of all users.

The Armed Forces supported the Population and Housing Census work on hundred percent basis therefore, I extend my gratitude to their officers/staff involved in this operation.

I also thank the International Agencies like UNFPA, UNDP, UNICEF for their financial assistance in acquiring equipment & machinery and technical support in the form of consultancy services, training and study visits abroad.

Finally I thank the officers and staff members of the Population Census Organization for their relentless efforts to complete the census successfully.

PART - I
GENERAL DESCRIPTION OF THE DISTRICT

1 GENERAL DESCRIPTION OF THE DISTRICT

1.1 GEOGRAPHY

1.1.1 Name, Location, Boundary and Area

The district Karachi West was carved out in 1974 from the city of Karachi. It derives its name from its location in the Karachi division. The district is situated in the west of Karachi division. It has sizeable katchi abadies and rural area.

The district Karachi West lies between 24° - 50' to 25° - 14' north latitudes and 66° 42' to 67° - 16' east longitudes.

The district is bounded on the north and north-west by Lasbella district of Balochistan province, on the north east by Malir district, on the east by Karachi Central, Karachi East and Karachi South districts, and on the south by Arabian Sea.

The total area of the district is 929 square kilometers.

1.2.1 Physical Features/Topography

The topography of the district is dominated by ridges, plains and coastal belt; the area which at one time was predominantly under agriculture is now crowded with new colonies and township like Hawksbey, Moach Goth, Baldia, Orangi, Qasba Colony and Ittehad Town. The landscape of district west is characterized by hills, plain, wide valley mostly eroded islets and a long sea beach. The district can be divided into following areas.

1. Moach and upper Layari Plain.
2. Mangho Pir and Orangi Hills.
3. Hub River valley.
4. The Coastal Belt.

i) Moach and Upper Layari Plain

The Moach plain is located in south of Moach and Orangi ridges. The plain is drained by empheral streams. The plain is covered by weathered rocks and wind blown deposits. The upper Layari Plain is covered by alluvium weathered rocks and wind blown materials. The rammanants of fluvial terraces are found in many places. Taiser Hills are the largest point of this area.

(ii) Mangho Pir and Orangi Hills

A series of hills and ridges extend from Cape Monze (shore of Arabian sea) to Mangho Pir. Near the Cape Monze Bol the heights are 750 feet and 705 feet above the sea level which are identified as Orangi Ridge, Ghoialakki Ridge and Mangho Pir Ridge. The deep and scarp slopes are prominent.

(iii) Hub River Valley

Hub river marks the western boundary of the district. It is erosional valley. The flood plain is composed of alluvium and pleistocene ocean deposits, conglomerate terraces are an important feature of the flood plain.

(iv) The Coastal Belt

The Coastal Belt of the district is barren and flat with occasional dunes. The terrain rises gradually with low flat topped paralled hills. Sub-paralled ridges with wide intervening plain is categorised as marine denudation plain sand dunes and marine terraces are the important physical features of Hawksbay and Mauripur. The level shows a generally rising tendency from the sea which has gradually driven back. At one time however, it made in roads and several island were formed viz Manora, Keamari, Mauripur, etc. There are few small islands Manora, Baba Bhit and Shams Pir.

1.1.3 Rivers and Streams

Hub river is the main river which marks the western boundary of the district. Hub river is a perennial stream. Layari Budnai and Orangi *nalas* flow in the thickly populated areas of the district and fall in the Arabian Sea at Keamari.

1.1.4 Climate

On the whole the weather of Karachi is pleasant and District West also enjoys the same though it is occasionally sultry. The temperature is moderate but the relative humidity is high in some months and varies form 58% in December which is the driest month to 85% in August, which is the moist of all. For the greater part of the year, cool evening sea breeze is a great boon to the inhabitants of this area. The hottest months are May and June when the mean maximum temperature generally exceeds to 34°C. The daily temperature at Manora Island and Hawksbay vary appreciably . At times when the chilly Quetta winds blow from the north-west, temperature drops even below 5°C but such periods are rare. For almost half the year including the monsoons, the winds blow south west to west. The average annual rainfall

is approximately eighteen millimeters. In certain years the rainfall is as high as ninety two millimeters. The rainy season stretches from July to August, during which the atmosphere remains practically cloudy.

The mean maximum and minimum temperature and precipitation recorded at PAF Masroor is given below :-

1.1.5 Flora

The location of District Karachi West is intermediate between tropical India and temperate Iran, and so the variety of plants is under its influence. Coastal types of algae, sea weeds and rose tangles grow in littoral areas. Fresh water vegetation is found in the river valleys and a few date palms have grown near springs though not so well as in the interior due to the influence of the sea. Gardens and fruit trees also thrive in the green belt. Dry hill vegetation is noticeable in the form of algaes, cactus and castor plants.

1.1.6 Fauna

Wild life, in the district is almost non-existent. The district is unique and famous for green turtle found on its coast. Among birds the common crow, kite and pigeon are found.

1.2 AGRICULTURE AND RELATED SECTORS

1.2.1 Agriculture

There is no agricultural activity in the district.

1.2.2 Irrigation

Karachi West is primarily an industrial district and there is no canal irrigation except for about 2000 acres. Karachi Municipal Corporation (KMC) manages one modern Sewerage Water Treatment plant at Mauripur with the purpose of providing permanent source of manure and water for cultivation. To meet the increasing demand of water for drinking, washing, industrial and for irrigation purposes a dam has been built on the river Hub at a distance of 35 miles from Karachi. The dam is 151 feet high and 46,264 feet long. The water storage capacity of the dam is 857,000 acre-feet. Today it is the main source of water for the people of Orangi, Surjani, Qasba, Baldia and SITE areas of the district.

1.2.3 Horticulture

The soil and climate conditions are best suited for papaya cultivation which grows in abundance in this district. Mangoes, chikoo, dates and guavas are also grown here.

1.2.4 Forestry

In spite of the fact that there is a vast rural area in the district, there is no forest. The District Municipal Corporation (DMC), West is maintaining nurseries at different places, where plants are made available for road side and other plantations.

1.2.5 Livestock

There are a large number of dairy farms in the district. At one time large number of poultry farms existed which have drastically reduced now. The table below, is showing number of livestock in the District West.

Karachi West is the hub of sea fishing. There are excellent fishing spots near the coast. The favourable condition of shallow continental shelf, the clear sun light, mingling of salt and fresh water, sea weeds and occasional seasonal ocean currents help to supply rich plankton. Shoals of edible fish are found not very far from the coast. Salmon, Pomfret and sardine are the usual varieties available. Prawns are specialty. In 1950 the government constructed a modern fish harbor occupying an area of 380,000 square yards. The harbor was originally designed to accommodate 300 to 400 medium size boats but is now loaded with 1227 mechanized boats. The Marine Fisheries Department (MFD) which is well equipped with marine research has planned to establish another similar organization on the reclaimed land of the harbor to expand the existing facilities. The Karachi Fishermen's Cooperative Society (KFCS) provides guidance to its members and gives monetary advance for necessary purchase of nets and trawlers. Karachi Fish Harbor is the main source of foreign exchange through export of sea-food. There are about 25 modern processing plants that exports fish, prawn, crabs and lobsters to U.S.A and Europe.

1.3 INDUSTRY AND TRADE

1.3.1 Industry

There are more than 5000 industrial units in the district giving employment to about a million people. The industrial units vary from small scale industry to big giants like, Siemens, Philips, Karachi Shipyard and Engineering Works. Sindh Industrial Trading Estates

(SITE) hosts numerous categories of industries like engineering,textile, printing, designing, match boxes, paper, graphite, fiber, packaging, marble handicraft etc. Besides, there are industrial units which deal in leather, pencil and ball point pens, tooth brushes, printing, papers, flour, oil, glass, rubber and plastic, food and beverages, soap, pharmacheutical etc. The major manufactured items are textile, hosiery, towels, leather and leather goods and ready made garments.

1.3.2 Mining

There is no mine or mineral activity in the district.

1.3.3 Trade and Trade Centres

All sorts of commodities are available in the district. The big trade centres are Orangi, Pak Colony, Sher Shah etc. SITE is the hub of all major industrial products. Fisheries at West Wharf is the main centre for sea food products.

1.3.4 Communication

The importance of Karachi in a large measure lies in the net work of its communication systems. Transport facilities by air, sea and land are available. Buses provide the cheapest mode of conveyance in the District West. Out of the total of 87 routes 28 have been allotted to the public sector and 59 routes to private sector, and 9 big routes start from District West. There are approximately 500 miles of metalled and 300 miles of unmetalled roads in the district.

There are about 30 Post Offices and Telegraph Offices. The circular railway track runs along the outer perimeter of the populated and industrial area of the district.

The Harbor is one of the best inland harbors of the world and all types of ships can be berthed here. The berthing facilities have been expanded considerably, but ships still have to wait for days outside the harbor for their turn to dock. Ocean streamers from India and the Persian Gulf find good berthing here.

1.4 HISTORY, ETHNICITY/TRIBES AND CULTURE

1.4.1 History

Karachi has a short recorded history of about one hundred years from a tiny fishing village to a British military settlement and later as an important commercial and shopping

centre for the western part of the sub-continent. It became an important military base during the course of the second world war. But the real growth and development of Karachi started with the partition of the sub continent in 1947 and its transformation into the federal capital. It is generally believed that Karachi represented Debal or Dewal, meaning temple, the legend being traced from the Debal Temple at Manora. Some historians still think that Karachi was a port described by Nearchos as "Alexander's Heaven" or "Krouala" named in his voyage down the Indus as far back as 325 B.C. There was a sea port town named Kharak Bander on the other side of the Hub river about 16 miles from District West, where Seth Bhojumal Naomal's great grand father conducted a roaring business in the beginning of the 18th century. Unfortunately the port became unsuitable for shipping purposes as its mouth became sand blocked. Bhojumal and his companions went out in search of another port and discovered this tiny fishing village, then known as Kalachi's Kun or Kalachi Jo-Goth. The port attracted enterprising traders from the adjoining areas and with the silting of Shah Bandar, another port town, scores of people migrated to Kalachi Jo Goth. By 1782 A.D.when Seth Bhojumal died, this port had a respectable population. The town with its independent administration was headed by some top Hindu businessmen who governed it for years. Soon the Kalhoras of Sindh swayed their power over this town but later on it was given to the Khan of Kalat by the Kalhoras as "Blood Money" for one of the Khan's brother who had been killed by Kalhoras in a battle. Fateh Ali the first Talpur ruler of Sindh sent an expedition to conquer Karachi but could not succeed. He made another attack in 1795. The Khan of Kalat being himself in difficulties surrendered Karachi to the Talpurs who ruled Sindh from their capital at Hyderabad. They built the Manora fort in 1797 as a defence against attack from the sea side.

The British rulers of India from the very beginning had an envious eye on the Sindh province. During the incursions of Sir Charles Napier in Sindh, Captain Preddy with a band of about 300 British Soldiers and a few hundred locals, managed to subdue the sardars and officers of the Talpurs in a bloodless coup and thus Karachi passed on to the British on the 17th February, 1843. After the victories at Miani and Babo, Sir Charles Napir was appointed the first Governor and Commander of the British Forces in Sindh. The centre of government was also shifted by him from Hyderabad to Karachi.

Sir Charles Napier brought forth speedy development in Karachi making it a great military centre. Napier Barracks were built for the British soldiers and sanitoriums at Gizri and Clifton for them. The Karachi Harbour was developed and 120 feet high Light House was constructed at Manora, visible from a distance of about 16 miles out in the sea. General Sir Charles Napier resigned in August, 1847. Thereafter, Sindh became a part of Bombay Presidency and a Chief Commissioner was appointed in place of the Governor. In 1936 Sindh taken out of Bombay Presidency and declared a separate province. Sir Lamcelot Garham was appointed the first Governor of the new province with Karachi as its capital. On the 14th

August, 1947, on the eve of independence Karachi became the capital of the newly born state of Pakistan. Quid-e-Azam Muhammad Ali Jinnah took oath of the office of the Governor General in this historic city. The Government of Pakistan took over the administration of Karachi from the Government of Sindh on 23rd July, 1948, and appointed an administrator to look after it. The headquarters of the province of Sindh also continued to remain at Karachi.

In 1952 the status of Karachi was raised to that of a Chief Commissioner's jurisdiction and was later called the Federal Capital Area. In 1959 an Administrator again replaced the Chief Commissioner to control the affairs of the federal territory of Karachi. After the merger of provinces of NWFP, Punjab, Balochistan and Sindh into one province of West Pakistan on October 1, 1955 also known as "One Unit", Karachi was politically considered to be a part of West Pakistan given representation in the West Pakistan Assembly but administratively it continued to be the federal territory under the Central Government till an alternative site for the country's capital was selected. After dismemberment of "One Unit" and the restoration of four provinces on the 1st July, 1970, Karachi again became the capital of Sindh.

In 1974 district Karachi West was created out of Karachi division.

1.4.2 Ethnicity and Tribes

After independence Karachi became the economic and financial capital of Pakistan and attracted a large number of entrepreneurs from all over the country. Karachi is truly a Cosmospolitan city. People of all races, clans, regions and religions live here. The fishermen community is mostly concentrated in the village of Baba Bhit, Manora in Karachi West. Among the minority communities there are Parsis, Christians and Bangies. Parsis came to Karachi as businessmen and trader with the British army. The bulk of the Christians are Goans who originally came from Goa. They are of mixed decent and distinguished by Portuguese surnames. Bangies belong to scheduled castes. They are from Hyderabad, Tharparkar and Sanghar districts and from the Punjab.

1.4.3 Culture, Custom and Tradition

Besides being the financial and trade centre, Karachi West is also multi-religious and multi culture district. The diversification in cultural and religious heritage has followed a Kaleidoscopic pattern which has developed a mosaic culture. It is here besides Karachi South that the real culture and the history of land breathe and pulsate with all their ancient smells, noises and colours.

The people of the district, as a rule, are tolerant of religious and diversity. Be it Eid, Christmas, Nauroze, Holi or Devalli- the underlying message is peace, love and joy. Apart from being a religious tradition in Islam, Eid-ul-Fitr and Eidul Azha, enjoys a great cultural history among Muslim. The most charming scene during the entire Eid festivities is the traditionally romantic "Chand Rat" when the Eid Crescent is spotted. People, especially young boys and girls, express their love and sentiments not only for their beliefs but also for their relationships. Notwithstanding social taboos, the young unvariably manage to steal a few moments of joy.

Hindus observe their centuries-old rituals in the most colourful and romantic manner. Holi the Hindu spring festival is celebrated on the full moon day of phalguna (February - March). In localities where they are in sizeable number, the celebrations are marked by ribald language. Dewali is celebrated over a fine day period from the 13th day of the dark half of the Hindu month Asvina to the second day of light half of Kartikka (in October). During this festival small earthenware lamps filled with oil are lighted and placed in rows along the perapets of temples and houses.

Though the Sikh population in the district is miniscule, they participate in their religious activities with zeal and traditional enthusiasm. In April's, they celebrate their most important religious festival called *Baisahki*. Christians, celebrate Christmass to mark the birth of Jesus Christ. The celebrations begin by participating in the customary midnight mass and services held in churches.

Parsis observe *"Nauroze"* as their most remarkable joyous and religious festival. It is observed in the spring season i.e., March-April which also starts their calendar year.

The population of the district consist of many ethnic groups, having their own culture and traditions which are still being followed and practised. The rapid changes in the social and cultural values supplementing the elaborate rite and tradition to simple and more homogenous ceremonies. The religious-cum-traditional custom of *pardah* among Muslim women has lossened its hold and most of the girls and women are found free from such taboo. The Ismaili, Parsi and Christian ladies do not, as a rule observe *purdah* as observed among Muslim families.

The community of Anglo-Indian never fitted in the local milieu as their culture was completely different. Having inherited the legacy of the British, the Anglo Indian do not give up their traditions and customs. Dance parties, alcohol and gambling are very much a part of their life.

The Parsis tend to keep their link with the western values more than any other community, but they don't imitate the vulgar aspects of that culture. They have adopted a western living style, but there is a strong family bondage in their community.

1.4.4 Food

The staple food is wheat bread *(chapati)*. The Punjabis, Pathan, Sindhis, Makranis, Balochis love *roti or chapati* moistened and enriched by the gravy of meat curry. Vegetables are also favourite as food articles. Rice is common dish of the residents of the district. The muslim prefer rich food as *Shami Kabab, Chicken Tikka* etc. Fish is a boon to Kerachites. Local prawns and shrimps are highly preferred. The *Gajar Halwa* in winter is whole some sweet dish. The *Karachi Halwa* is an other speciality which is carried home by visitors from up-country.

1.4.5 Dress and Ornaments

The elder group of the migrants wear *Sherwani and Kurta* straight or *Pajama*. Colourful clothes and *Qameez* along knee length and collarless shirt, are favourite with the women folk. Besides, *ghararas, Kamiz and Shalwar* are commonly worn with a *dupatta (head scarf)* Migrants from eastern and southern India prefer *Sari* which has now become a sophisticated dress. Ornaments, like *nath, jhoomar, and pazeb* are also worn.

1.4.6 Dwelling

The new dwellings in the District West are generally made of reinforced cement and concrete. The architectures of the old Karachi is marked with tiled houses with deep wide verandahs enclosed by latticed wooden screens. Karachi Metropolitan Corporation has played an important role in providing suitable land for the new colonies in District West like Baldia Town, Saeedabad, Mauripur, Shershah, Pak colony, Manghopir, Ittehad Town etc.

1.4.7 Occupation

Karachi West is an industrial and commercial district having multi occupations. The main occupation of the people is business and trade. The other major portion of the population consists of labour class including skilled and unskilled labour. There are large number of people involved in Fishery industry. The remaining small portion of the population having different occupations including government and private services. The women also assist their men in the economic activity in different fields of business, service, education and other institutions. Mostly the women are serving in schools, colleges and hospitals.

1.4.8 Betrothal and Marriage

Marriages in most families are s till arranged by the parents. The betrothal ceremony is called *'Mangni'*. It is the formal engagement of a boy and girl. The betrothal

ceremony is the declaration of engagement on the part of the two parties in which the relatives and friends from both sides assemble at the bride's house. The betrothal ring is presented by the bride's parents to the bridegroom. The customs amongst the Sindhi families of playing drums and Shahnai at least a week before the marriage is universal. Four or five days before the marriage the bride sits in seclusion. The ceremony is called Manja or Wanwah. A day before marriage *Mehndi* ceremony is performed at the bridegroom's house. The ladies apply *henna* on the hands and feet of the bride. Paste of sandal wood, haldi and urad are applied by seven *sohagans*, happily married ladies, among the girl's relatives to bring her good luck. After the ceremony, the girl steps down from the bajot into two empty lamps containers tied together with a red thread and breaks the thread with accompaniment of songs, music, laughter's and teasing. On the marriage day the bridegroom is taken in a procession on a horse back or a car accompanied by relatives, guests and friends. The marriage is then solemnized by the *moulvi* who recites *Nikah*. The amount of *Meher*, the dower money is fixed and is made known to the wedding party. Dry dates and sweets are distributed and the marriage feast (refreshment) is served. The bridegroom gives a feast called *valima* at his residence usually on the following day. Ismaili boys and girls generally marry young. The majority of the marriages are arranged by the parents. There is a common taboo that the bride should not see the groom after the wedding has been fixed.

The Parsi marriage, though simple and short is nevertheless a complicated affair having its own customs and traditions. Marriage among the Parsis is a sacrament. Before the ceremony takes place presents are exchanged between the two parties. The marriage ceremony is short and simply performed by two priests one each from bride and bridegroom's party. They recite the prayers which are in old Avastic language and closed by blessing the couple. The bride and the bridegroom are then taken to the fire temple where a sacramental fire is kept burning day and night, say short prayers and offer sandal wood to the fire. Then they return to the bridegroom's house for a feast (refershment) and merry making.

1.8 IMPORTANT/HISTORICAL PLACES

1.8.1 Custom House

Built in 1920, it houses the offices of the Pakistan Custom Department overlooking the massive import and Native Jetty. It has 6 floors and provides full facilities to the businessmen and importers.

1.8.2 Port Trust Building

Karachi Port Trust building is a crescent shaped building built in the renaissance style adjacent to the Custom House. It is situated on the corner of M.A. Jinnah Road and Edulji Dinshaw Road at a short distance from Merewether Tower. A new fly-over has been built over the Native-Jetty bridge.

1.8.3 Karachi Sea Port

Karachi is a very good natural harbor in the entire region. Sir Charles Napier the first British Governor of Sindh, took personal interest in the town and port. In 1847, when he left Karachi, a monument was raised in his memory near the Napier Mole, the construction of which was the first step in the improvement of the harbor. At first the port afforded anchorage for Native Jetties only. No vessel drawing more than 10 to 12 feet of water, could enter the harbor safely. There were no wharves for passengers or goods. The Karachi Port Trust, which replaced the previous Harbor Board, constituted by the Act of Bombay Legislature in 1886, it constructed 13 berths for ocean-going ships by 1910. Thereafter, it added Keamari Groyne, East, Pier, China Creek bridge, Manora Break Waters, Ship piers such as, Merewether, West Wharf, Light House, Oil pier, and Dry Docks. By 1917 the Karachi harbor boasted of 17 berths and 2 moorings for ocean-going vessels drawing up to 27 feet at the lowest tide.During world war-II the port of Karachi assumed strategic importance and called upon to handle the enormously increased volume of imports because of war. To cope with this sudden increase in traffic, additional cranes, lighters toughs, etc. were acquired and ship repairing facilities at the port was extended. As the premier Sea Port of Pakistan, it continued to receive high priority for further improvements in its berthing, navigational and equipment facilities. It has recently added a Dry Dock and Ship Yard to enhance its value as a first class port. Besides being a port of call for both ocean-going and coastal vessels, it is also the home port of the bulk of Pakistan Merchant Fleet and Pakistan Navy.

1.8.4 Hawksbay

Hawksbay is situated, a few miles from Mauripur and is linked with the city both by road and by sea. It is a lovely holiday resort with a row of beach huts comfortably equipped for overnight stay. The crescent shaped beach about two miles long offers good sea-bathing facilities to lovers of red sand, bright sun and salt water. It attracts a large number of visitors on week-ends and other holidays. Foreigners love the spot and often go there for swimming.

1.8.5 Manora

At a little distance from Karachi harbor at Keamari lies the island of Manora with its imposing light house welcoming the incoming ships from the high seas. It is said that the ancient Arab traders coming into the port of Karachi had named this tiny island as "AL-MUNAWIRA" the lighted one, on account of an old light house. With the passage of time this island came to be known as Manora. It is a popular tourist resort for the up country visitors. It has a long beach but not very good for sea bathing because of high waves and deep sea front. The attraction of Manora, however, lies mainly in the sea view that it offers to the visitors. In ancient time a fort was built by the Talpur family at Manora to guard the harbor from attack from the sea side, but the fort has now vanished. There is also a temple on the island which is often referred to as the old temple Debal which was attacked and conquered by Muhammad Bin Qasim. Pakistan Navy has built several bridges connecting Manora with Mauripur but this long route is, however, not open to general public. The only transport between the city and the island is a large number of launches and sail boats. Manora island houses a workshop of the Karachi Port Trust, a light house and a naval training establishment.

1.8.6 Manghopir

Traces of a small pre-historic settlement were discovered 10 miles north of Karachi on the eastern foot of the hillock on which the tomb of Pir Mango stands. The site is dotted with remains too fragmentary and scanty to enable us to visualize the actual plan of the settlement. All that is left of the site at present has been encroached upon by the inhabitants of the locality, who have built here the Pir's tomb and also have been burying their deads in the adjacent graveyard. The Manghopir Dargah with its renowned alligator ponds is one of the initial sign marks of Karachi.

1.8.7 Orangi Town

The barren and rugged region across the ridge to the north of Karachi industrial area is Orangi. Here, a mile to the west of the 7th mile stone on the Karachi Manghopir road,

KARACHI PORT TRUST

BABA MANGHOPIR MAZAR

is a groove of date-palms enclosing a stone lined spring. To the south east of the spring amidst the barren and sandy land, small pieces of chart flakes and bits of pottery, weathered and devoid of any decoration now, have been discovered which suggests the existence of a pre-historic settlement here called Orangi. Its true character is difficult to determine at present without excavation. Organgi Town is the biggest katchi abadi of Asia with a population of 3.5 million. Dr. Hameed Akhtar Khan of Orangi Pilot Project had provided vocational training to thousands of girls for the last two decades.

1.8.8 Karachi Ship-Yard

The Karachi Ship-Yard was established in 1957. It is spread over an area of about 70 acres and is located along with east and west Arabian sea routes. It is laid out on modern lines with the latest machinery and experienced and skilled personnel. At present about 5,000 persons are working in the Ship-Yard. It is in a position to meet the requirements of shipping and engineering industries. The principle activities carried out in the Ship-Yard is ship-building, ship repairs, general engineering and foundry.

The fluctuation of sex ratio at various age brackets is the indication of un-even distribution of population by sex and age which may be due to number of factors like age misreporting, comparatively under or over reporting of either sex, etc.
