NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2002

1. LEGAL STATUS AND NATURE OF BUSINESS

First Imrooz Modaraba (the Modaraba) was formed under the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980 and the Rules framed thereunder and is managed by A R Management Services (Private) Limited. The Modaraba issued its certificate capital to the general public on February 1, 1994, and the commercial operations were commenced from March 1, 1994 the date on which the minimum subscription certificate was issued by the Registrar Modaraba.

The Modaraba is a perpetual modaraba, initially floated for the specific purpose of trading in approved commodities and other products. However, the Registrar Modaraba Companies and Modaraba, as per letter dated August 08, 1998 accorded approval for conversion of the Modaraba from specific to multi purpose modaraba. The Modaraba is currently engaged in financing, investing and domestic and international trading activities. The Modaraba is listed on the Karachi Stock Exchange.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

These financial statements have been prepared in accordance with the requirements of the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980, and Modaraba Companies and Modaraba Rules, 1981 and International Accounting Standards (IASs) as applicable in Pakistan.

2.2 Accounting convention

These financial statements have been prepared under the historical cost convention except for the revaluation of certain financial instruments.

2.3 Staff retirement benefits

The Modaraba operates an unfunded gratuity scheme covering all permanent employees. Provision to cover this obligation is made annually and is calculated on the basis of last drawn salary and length of service of the employees.

2.4 Accounting for leases

First Imrooz Modaraba and all the other modarabas are required to enter into the lease contracts in accordance with the principles of Sharia'a and form approved by the Modaraba Religious Board. The principles of Sharia'a, prohibit the modarabas from undertaking any interest based transactions. The application of these principles have profound implications on the accounting treatment for leases which are divergent from

the accounting treatment pronounced by the International Accounting Standard (IAS) 17, Leases, which is explained as follows:

- (i) Although all the leases entered into by the Modaraba are full pay out leases but, in accordance with the principles of Sharia'a, substantial risks and rewards incident to ownership of leased assets remain with the Modaraba as a lessor and are not transferred to the lessee.
- (ii) The method of income recognition of finance lease prescribed by IAS 17 is interest based which is against the injunctions of Sharia'a.

In view of the above anomalies and in accordance with injunctions of Sharia'a, the Modaraba and most of the leasing modarabas account for the assets leased out and acquired on leases as operating leases.

Assets leased out are stated at cost less accumulated depreciation. Depreciation is charged to income applying the annuity method whereby the depreciable values of assets are depreciated over the lease period. Therefore, the net income from leases is effectively the same as in case of leases recorded as finance leases in accordance with IAS 17.

Payments against operating leases are charged to income.

2.5 Tangible fixed assets and depreciation

Fixed assets for own use are stated at cost less accumulated depreciation. Depreciation is charged to income applying the straight-line method whereby the cost of an asset is written off over its estimated useful life. Full year's depreciation is charged on additions while no depreciation is charged on deletions.

Maintenance and normal repairs are charged to income as and when incurred. Gains and losses on disposal of fixed assets are included in income currently.

2.6 Stock-in-trade

These are stated at the lower of cost determined on the weighted average cost basis and net realizable value. Net realizable value signifies the selling price in the ordinary course of business less costs necessarily to be incurred to make the sale. Goods in transit and in bonded warehouse are stated at invoice value plus other charges incurred thereon, where applicable.

2.7 Investments

2.7.1 Initial measurement

Investments in securities are recognised on a trade-date basis and are initially measured at cost.

2.7.2 Subsequent measurement

Held-for-trading

These are securities which are either acquired for generating a profit from short-term fluctuation to prices or dealer's margin, or are securities included in a portfolio in which a pattern of short-term profit taking exists.

Held-for-trading investment are measured at subsequent reporting dates at fair value. Unrealised gains and losses are included in the net profit or loss for the period.

2.8 Taxation

2.8.1 Current

Provision for current taxation is based on taxable income of the year at the current rates of taxation after taking into account tax credits available, if any, except for items covered under presumptive tax regime, for which provision is made according to the presumptive tax rates provided in the Income Tax Ordinance, 1979.

2.8.2 Deferred

The Modaraba accounts for deferred taxation using the liability method on all significant temporary differences. However, as a matter of prudence, the Modaraba does not recognize net deferred tax debit balance in the accounts.

2.9 Foreign currency transactions

Transactions in foreign currencies are translated into Pak rupees at the rate of exchange ruling on the date of transaction.

Monetary assets and liabilities in foreign currencies are translated into Pak rupees at the rate of exchange ruling at the balance sheet date, while those covered under forward exchange contracts are valued at the contractual rates.

Exchange gains and losses are included in income currently.

2.10 Revenue recognition

Sales are recognized on dispatch of goods to customers.

Lease rental income is recognized when rentals become due.

Income from musharika investments is recognized on accrual basis, taking account of the duration of placement of funds and the estimated profit rate.

Capital gains or losses arising on sale of investments are taken to income in the year in which they arise.

Dividend income is recognized when the right to receive dividend is established.

Profit on PLS savings account is recognized on receipt basis.

20. CREDIT RISK AND CONCENTRATION OF CREDIT RISK

20.1 Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Policies and procedures have been established by the Modaraba with the objective of protecting against unacceptable credit losses, including credit worthiness of counter parties and limiting transactions with specific counter parties. The modaraba does not have significant exposure to any individual customer.

The financial assets in which the Modaraba is exposed to credit risk are as follows:

	2002 Rupees	2001 Rupees
Trade debts	18,219,009	17,586,390

Other receivables	459,671	406,198
	<u>18,678,680</u>	<u>19,470,188</u>

September 13, 2002

REVIEW REPORT TO THE CERTIFICATE HOLDERS ON STATEMENT OF COMPLIANCE WITH BEST PRACTICES OF CODE OF CORPORATE GOVERNANCE

We have reviewed the Statement of Compliance with the best practices contained in the Code of Corporate Governance prepared by the Board of Directors of A R Management Services (Private) Limited (the Modaraba Company) representing First Imrooz Modaraba (the Modaraba) to comply with the relevant Listing Regulations of the Karachi Stock Exchange where the Modaraba is listed.

The responsibility for compliance with the Code of Corporate Governance is that of the Board of Directors of the Modaraba Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Modaraba's compliance with the provisions of the Code of Corporate Governance and report if it does not. A review is limited primarily to inquiries of the Modaraba personnel and review of various documents prepared by the Modaraba to comply with the Code.

As part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We have not carried out any special review of the internal control system to enable us to express an opinion as to whether the board's statement on internal control covers all controls and the effectiveness of such internal controls.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Modaraba's compliance, in all material respects, with the best practices contained in the Code of Corporate Governance.
