# Chairman's Message

I feel honored in sharing this year's unprecedented results with our shareholders, who have demonstrated their full trust in us by investing their hard-earned capital in our shares.

This year has a very special importance for us. 2006-2007 is the year, when NetSol Technologies Ltd. has come out of its incubation, and now stands as a mature organization, serving to global blue-chip clients around the world. We now have more than 800 people working for us globally. Our commitment towards quality has helped us achieve the highest quality standard in the software industry, Capability Maturity Modeling Integration (CMMi) Level 5. Moreover, NetSol was the very first software company to achieve ISO 9001: 2000 certification in 1998. We are pretty much sure that our efforts towards achieving ISO 27001 certification, which is a globally recognized standard for Information Security Management, will help us reach another level pretty soon.

LeaseSoft, our flagship product, and a world renowned solution for the leasing and finance industry is by far the most sought after Leasing and Finance product in the Asia Pacific. We have had many major successes last year with LeaseSoft, and have grown our portfolio through adding more names to our bluechip customers' list. We will now be taking our product to North American and European markets as well. These markets offer higher value for our products and services.

Talking of geographical expansion, in order to furthermore increase our penetration in the Asia Pacific market, we will soon be opening an office in Thailand, which would result in better market penetration and would also help us serve our Thai customers in a better manner.

Outsourcing is an area of focus now for NetSol. We are now focusing on outsourcing activities using our current facilities in San Francisco and London. In the local market, NetSol has built goodwill in the government as well as the private sector by providing high quality work.

By the grace of Almighty Allah, the business of NetSol is growing rapidly both in local and global markets. To keep pace with the growth in business, we are right now in the process of expanding our physical infrastructure.

As far as my vision is concerned, I wish to see NetSol as an unchallenged leader of Pakistan IT industry in terms of both products and services. Also, I wish to see NetSol as a major global IT solutions and services provider.

### General Overview & Future Outlook

We feel immense pleasure to inform you that your company has achieved a record performance in its history with the highest ever revenues and profits. During the fiscal year under review, Pakistan economy continued to perform strongly with all the macro-economic indicators showing a positive trend. The rising GDP growth rate has positioned Pakistan as one of the fastest growing economies in the world. As a result we are experiencing and expecting sizeable investments in information technology sector not only from the private sector but also by the public and defence sector. Your company is one of the beneficiaries of this expansion and has won some significant projects in the areas of E-Government and Ministry of Defence. During the fiscal year 2006-2007, we have won some lucrative local projects such as Automation project for Ministry of Health, Ministry of Population, Motor Transport Management Information System (MTMIS) and customization and implementation of legislative Assembly Automation System etc. After successful implementation of Motor Transport Management Information System (MTMIS) Lahore, the Government of Punjab has given us the mandate to roll out this project in all the remaining districts of the province of Punjab. We have won the pilot project for Land Revenue Management Information System (LRMIS) in Punjab a World Bank funded initiative. There is a major upside in Punjab with implementations in 34 districts. Moreover, opportunities exist in Sindh and Islamabad Capital Territories (ICT).

Our world renowned flagship product "LeaseSoft" is rapidly gaining popularity in the international market especially in the growing economies of Asia Pacific. Leading automobile companies have implemented this suite in their facilities across the globe. During the year under review, we have won eight more projects of LeaseSoft adding the names of five fortune 500 companies on our profile including Nissan, Fiat, & CNH. China and Australia continue to be our hottest markets with major business coming from these countries. We recently added a new product Fleet Management System (FMS) to the existing LeaseSoft suite. A prototype of FMS has been developed and demonstrated to few potential prospect customers recently.

To further strengthen our presence in the Asia-Pacific market, and to provide exclusive services to our clients, we are in the process of establishing a support office in Bangkok, Thailand. This office is located at a prime location in Bangkok and suits all LeaseSoft clients in Thailand. The core responsibilities of this office would be to enhance business through targeting potential customers, and to provide technical support to our existing clients in Thailand.

Our outsourcing business with the UK partner Innovation Group PLC (IG) is also flourishing with the passage of time. Outsourcing is an upcoming business in Pakistan and there is lot of potential in this area. Initiated with a 10 person outsourcing team in Lahore in February 2005, this arrangement has extended to a 120 person team in June 2007 with the additional resources catering to the increased influx of outsourcing of configuration and testing assignments from IG. Prominent IG's customers being serviced from Lahore include global insurance giants like Allstate Insurance Canada, Avis Budget Car Rental Group USA, Norwich Union UK, Hertz UK, Aviva Canada, Erinaceous UK and many others.

Future outlook of your company seems very promising. We have a robust sales pipeline for our product LeaseSoft. In local business, there is a good potential to win lucrative projects in the areas of E-Government, Ministry of Defence and Land Revenue Management Information System (LRMIS). The Wold Bank has already allocated huge funds to finance LRMIS implementation across Punjab on the completion of pilot project. In the Defence Sector, we have made some initial breakthroughs in certain areas which we are expecting to be developed gradually during the years to

come. This is another major area in which we have invested heavily during the last 2 years to develop the requisite competencies and capacity. During the last year, NetSol had invested in the area of Business Intelligence & Information Security and have now established consulting practices to offer related services and products to a potentially large market in Pakistan which is relatively untapped right now.. For Information Security practice, we have established a business partnership with Internet Security System (ISS) which is an IBM company and a global leader in Information and Network security products. Similarly we have alliances with Sungard and BusinessObjects on Business Intelligence offerings and solutions. Both these areas have started showing reasonable results and we expect to have some significant breakthroughs in the coming years.

# **Awards & Recognition**

EPS - basic & diluted

On 11 August 2006 your company achieved **CMMI Level 5 rating** which is the highest standard for software development worldwide. We are the only company in Pakistan with this rating and join a select group of about 100 global IT giants including IBM, Lockheed Martin, Tata, Raytheon, InfoSys, Wipro, etc. This indeed is one of the most significant milestones accomplished in the 11 years history of your Company.

Your Company has won FPCCI award as well as 7th NCR National IT Excellence Award for highest software exports for 2005-06.

Due to our focus to create highly conducive professional work environment and HR best practices, your Company has won the **Best IT Employer award** from Pakistan Software Houses Association (PASHA).

Finally it is a pleasure to share with you that during the year our Chairman & CEO Mr. Salim Ghauri was appointed as Honorary Consul for Australia in Punjab.

# **Election Of Directors**

Election of Board of Directors of your company was held on December 29, 2006 in the Extra-Ordinary General Meeting. In accordance with the provisions of section 178 & 180 of the Companies Ordinance, 1984 and Article 70 of the Company's Articles of Association, following directors were unanimously elected for the term of next 3 years commencing from January 01, 2007:

Mr. Salim Ullah Ghauri

Mr. Najeeb Ullah Ghauri

Mr. Naeem Ullah Ghauri

Mr. Irfan Mustafa

Mr. Sajjad Hussain Kirmani

Mr. Shahid Javed Burki

Mr. Zahid Bashir Mirza

Subsequent to the election of directors, the newly formed board then elected Mr. Salim Ullah Ghauri as Chief Executive Officer and Chairman for the term of three years in accordance with the provisions of section 199 of the Companies Ordinance, 1984. The new constituted board comprises persons from various spheres of life including sponsors, businessmen, economist and marketing personnel. The Board also places on record its gratitude for the services rendered by Mr. Abdul Rashid and Mr. Eugen Beckert, the outgoing directors, during their tenure with the company.

# **Web Presence**

In order to give fair and clear view to our valued shareholders and general public at large, the management decided to change the web portal of the company from www.netsoltek.com/pakistan to www.netsolpk.com. After getting formal approval from Securities & Exchange Commission of Pakistan as well as from Karachi Stock Exchange, we informed this change to our shareholders and general public through advertisement in the newspapers. This new web portal is being updated regularly for obtaining of information by the Shareholders, General Public and other concerned Authorities.

### ISO 27001:2005 Certification

ISO 27001:2005 is the international standard for information security. This Standard has been prepared to provide a model for establishing, implementing, operating, monitoring, reviewing, maintaining and improving an Information Security Management System (ISMS). NetSol being the IT Company has been very much keen in implementing the suitable information security and data protection measures to provide comfortable level to our valued customers and other regulatory bodies. In this context the management took a decision to get the company ISO 27001 certified. We are in the process of implementing the requirements of this standard and are hopeful to get the requisite certification by the end of the current calendar year.

# **SOX 404 Compliance**

Sarbanes-Oxley is a US law passed in 2002 to strengthen Corporate Governance and restore investor confidence. SOX 404 section of Sarbanes-Oxley requires from management to certify the suitability of design & effectiveness of internal control system whereas external auditors are required to give their opinion on management's assertions of internal control. Compliance of SOX 404 is mandatory for all the US based listed companies and their subsidiaries. NetSol Technologies Inc., the ultimate holding company of NetSol Group, being listed on NASDAQ is required to comply with the requirements of SOX 404. We have taken the initiative of implementing the requirements of SOX 404 in our company and are hopeful to be SOX compliant by June 2008.

### Dividend

The Board of Directors is pleased to announce final stock dividend of 22% bonus shares. This is in addition to the interim stock dividend of 15% Bonus shares already declared by the Board in their meeting held on April 27, 2007. Thus total pay out during the fiscal year 2006-2007 comes to 37%.

# Construction of 2nd NetSol Tower

Due to continuous growth of your company during the last two to three years, we had to hire the appropriate number of human resources to meet the challenge of delivering the products and services to our valued customers in time. Keeping in view our current space utilization and the future growth potential, we believe that our current facility will be out of space. In this context the board of directors has decided to construct another seven storey NetSol Tower adjacent to the current facility. For this purpose, we have already hired the services of a professionally qualified architect and initial paperwork regarding design has been completed and now we are ready for filing of papers with the local authorities for their necessary NOC and approvals. We expect this project to be completed within two (2) years timeframe and will have state of the art facilities to accommodate about 1,000 employees.

# Review Report to the Members on Statement of Compliance With Best Practices of Code of Corporate Governance.

We have reviewed the statement of compliance with the best practices contained in the code of Corporate Governance prepared by the Board of Directors of NetSol Technologies Limited to comply with the Listing regulation No. 37 of the Karachi Stock Exchange (Guarantee) Limited where the company is listed.

The responsibility for the compliance with the Code of Corporate Governance is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Code of Corporate Governance and report if it does not. A review is limited primarily to inquiries of the company personnel and review documents prepared by the company to comply with the code.

As part of our audit of financial statements, we are required to obtain an understanding of the accounting and internal control system sufficient to plan the audit and develop an effective audit approach. We have not carried out any special review of the internal control system to enable us to express an opinion as to whether the Board's statement on internal control covers all controls and the effectiveness of such internal controls.

Based on our review, nothing has come to our attention, which causes us to believe that the Statement of Compliance does not appropriately reflect the status of the company's compliance, in all material respects, with the best practices contained in the Code of Corporate Governance as applicable to the company for the year ended June 30, 2007.

CHIEF EXECUTIVE

### 1 Legal Status and Nature of Business

NetSol Technologies Limited incorporated in Pakistan on August-22, 1996 under the Companies Ordinance, 1984 as a private company limited by shares later converted into Public limited company on November-05, 2004. The company has been listed on Karachi Stock Exchange on August 26, 2005. The business of the Company is development and sale of computer software and its related services in Pakistan as well as abroad.

### 2 Basis of preparation

These Financial Statements have been prepared in accordance with the requirements of the Companies Ordinance, 1984 (the Ordinance) and approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards as notified under the provisions of the Ordinance. Wherever the requirements of the Ordinance or directives issued by the Securities and Exchange Commission of Pakistan (the SECP) differ with the requirements of these standards, requirements of the Ordinance or the requirements of the said directives take precedence.

Standards, interpretations and amendments to published accounting standards adopted in Pakistan that are not yet effective:

Amendments to existing IAS 1 (Presentation of Financial Statements - Capital Disclosure) have been published that are mandatory for the accounting periods beginning on or after January 1, 2007. Adoption of these amendments may only impact of disclosures presented in the financial statements.

### 3 Summary of Significant Accounting Policies

### 3.1 Accounting convention

These Financial statements have been prepared under the historical cost convention, except for revaluation of certain Financial instruments at fair value.

### 3.2 Property and equipments

Property and equipment are stated at cost less accumulated depreciation.

Depreciation is charged by applying reducing balance method to write off the cost over the remaining useful life of the assets. Rates of depreciation are stated in note 4.

Depreciation on additions to property and equipments is charged for the month in which an asset is acquired or capitalised while no depreciation is charged for the month in which the asset is disposed off.

The Company charged full year depreciation on additions, while no depreciation was charged in the month of disposal. During the year Company has changed its accounting method in compliance with IAS 16 "Property Plant & Equipment" of charging depreciation, whereby depreciation is charged from the month in which assets are put to use upto the month before the disposal of asset. Such change, being a change in accounting estimate, has been accounted for prospectively to conform to the treatment prescribed by IAS 8 "Accounting Policies, Change in Accounting Estimate and Errors". Had there been no change in the estimate, the profit for the year ended 30 June 2007 and un-appropriated profit would have been reduced by Rs. 18.65 Million

Maintenance and normal repairs are charged to income as and when incurred. Major repairs and improvements are capitalized.

Gain or loss on disposal of assets, if any, is charged to income.

### 3.3 Assets subject to finance lease

Assets acquired under finance leases are capitalized and are stated at the lower of present value of minimum lease payments under the lease agreements and the fair value of the assets. The related obligations of the leases are accounted for as liabilities

Assets acquired under finance lease are amortized over the useful life of the assets on reducing balance method at the rates given in note 4.

Amortization on additions to property and equipment is charged for the month in which an asset is acquired under the finance lease while no amortization is charged for the month in which the asset is disposed off.

The Company charged full year amortization on additions, while no amortization was charged in the month of disposal. During the year Company has changed its accounting method in compliance with IAS 16 "Property Plant & Equipment" of charging amortization, whereby amortization is charged from the month in which assets are put to use upto the month before the disposal of asset. Such change, being a change in accounting estimate, has been accounted for prospectively to conform to the treatment prescribed by IAS 8 "Accounting Policies, Change in Accounting Estimate and Errors". Had there been no change in the estimate, the profit for the year ended 30 June 2007 and un-appropriated profit would have been reduced by Rs. 3.33 Million

The company assesses at each balance sheet date whether there is any indication that the operating fixed assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amounts. Where carrying values exceeds the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment charge is recognised in income.

### 3.4 Intangible assets

There are two components of intangible assets:

- In-house developed intangible assets
- ii Intangible assets acquired from market

### i In-house developed intangible assets

The Company capitalizes certain computer software development costs in accordance with IAS 38 Intangible Assets and USA SFAS No. 86, Accounting for the Costs of Computer Software to be sold, leased, or otherwise marketed. Costs incurred internally to create a computer software product or to develop an enhancement to an existing product are charged to expense when incurred as research and development expense until technological feasibility for the respective product is established. Thereafter, all software development costs are capitalized and reported at the lower of unamortized cost or net realizable value. Capitalization ceases when the product or enhancement is available for general release to customers.

The Company makes ongoing evaluations of the recoverability of its capitalized software projects developed inhouse by comparing the amount capitalized for each product to the estimated net realizable value of the product. If such evaluations indicate that the unamortized software development costs exceed the net realizable value, the Company writes off the amount by which the unamortized software development costs exceed net realizable value. Capitalised software costs are amortised on a product-by-product basis. Annual amortisation is charged by using straight-line method over the remaining estimated economic life of the product including the period being reported on. Amortisation starts when the product is available for general release to customers.

### ii Intangible assets acquired from market

Intangible assets acquired from market are stated at cost less accumulated amortization.

Amortization is charged by applying reducing balance method to write off the cost over the remaining useful life of the intangible assets. Rates of amortization are stated in note 4.

### 3.5 Foreign currency translation

Transactions denominated in foreign currencies are translated in Pak Rupees at the foreign exchange rate prevailing at the date of transaction. Assets and liabilities in foreign currencies are translated into Pak Rupees at the foreign exchange rates prevailing at the balance sheet date.

All exchange differences are charged to profit and loss account.

### 3.6 Financial instruments

### Financial assets

All financial assets have been stated in accordance with the requirements of IAS-39 (Financial Instruments: Recognition and Measurement). Financial assets are initially recognised at cost which is the fair value of the consideration given at initial recognition. Subsequent to initial recognition, financial assets are carried at fair value except for any financial assets whose fair value cannot be estimated reliably.

### **Financial liabilities**

All financial liabilities are initially recognised at cost, which is the fair value of the consideration received at initial recognition. Subsequent to initial recognition financial liabilities are carried at fair value, amortised cost or cost as the case may be.

### 3.7 Account receivables

Account receivables from local customers are stated at cost while foreign debtors are stated at revalued amount by applying exchange rate applicable on balance sheet date.

### 3.8 Creditors, accruals and provisions

Liabilities for creditors and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for the goods and / or services received, whether or not billed to the company.

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events and, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

### 3.9 Investments

Investments in subsidiary is classified as available for sale and are stated at cost.

### 3.10 Revenue recognition

### License sale

The Company recognizes revenue from license contracts without major customization when a non-cancellable, non-contingent license agreement has been signed, delivery of the software has occurred, fee is fixed or determinable, and collectibility is probable.

Revenue from sale of license with major customization, modification, and development is recognized on percentage of completion basis

### Rendering of Services

Revenue from software services includes fixed price contracts and is recognized in accordance with the percentage of completion method. An output measure i.e. Unit Completion Method is used to determine the percentage of completion. Unit completed are certified by the Project Manager and EVP IT/ Operations.

### Maintenance

Revenue from maintenance is recognized on time proportion basis.

### Sale of hardware and third party software

Revenue from sale of hardware and third party software is recognised when delivery has occurred and invoices are raised to customers.

The Company's revenue recognition policies are in compliance with all applicable accounting regulations including IAS 18 "Revenue" & US AICPA SOP 81-1 and SOP 97-2, "Software Revenue Recognition "as amended by SOP 98-4 and 98-9.

### 3.11 Segment reporting

A segment is a distinguishable component within a company that is engaged in providing products and under a common control environment (business segment), or in providing products within a particular economic environment (geographical segment), which is subject to risks and returns that are different from those of other segments.

### 3.12 Cash and cash equivalents

Cash and cash equivalents comprise of cash in hand and cash at current and/or deposit accounts held with banks.

### 3.13 Staff retirement benefits

Company's retirement benefit plans comprise of provident fund schemes for eligible employees. The company operates contributory provident fund for all its staff. Equal contribution is made by the company in the provident fund on monthly basis.

### 3.14 Off-setting

Assets and liabilities are offset and the net amount is reported in the financial statements only when there is legally enforceable right to set-off the recognised amount and the Company intends either to settle on a net basis, or to realise the assets and to settle the liabilities simultaneously.

### 32.1 INTEREST RATE RISK EXPOSURE

The company is exposed to interest / mark - up rate risk on some of the financial assets and obligations. Rates of interest / mark - up and their maturities are given in the respective notes.

### 33 CONCENTRATION OF CREDIT RISK

Credit risk represents the accounting loss that would be recognised at the reporting date if counter-parties failed completely to perform as contracted. The Company does not have significant exposure to any individual customer. To reduce exposure to credit risk the Company has developed a formal approval process whereby credit limits are applied to its customers. The management also continuously monitors credit exposure towards the customers and makes provision against those balances considered doubtful of recovery.

### 34 FOREIGN EXCHANGE RISK MANAGEMENT

Foreign currency risk arises mainly where receivables and payables exist due to transactions entered into foreign currencies. The Company is exposed to foreign currency risk on revenues and borrowings that are entered in a currency other than Pak Rupees.

### 35 LIQUIDITY RISK

Liquidity risk reflects an enterprise's inability in raising funds to meet commitments. The company follows an effective cash management and planning policy to ensure availability of funds and to take appropriate actions for new requirements.
