The textile industry has witnessed robust demand over the last few years and this trend continued through the first half of the last financial year. During the second half, demand started to slacken off leading to decreased end product prices and lower margins. Overall, sales were higher by 12.1% as compared to the year ending June 2013 with a gross margin of 12.1% as compared to 14.1% in the previous year. In spite of inflationary pressures, distribution and administrative expenses were controlled and were more or less unchanged as a percentage of sales relative to last year. The operating margin in the period under review was 7.6% as compared to 9.1% for the year ended June 30, 2013. The State Bank adopted a slightly looser monetary policy during the first half of the year and then changed its stance to neutral. As a result, the average mark-up rates paid by the company were slightly lower than the previous year. Owing to this and strong cash flows, financial charges as a percentage of sales were 2.0% in the period under review as compared to 2.3% for the previous period. Overall, the net margin for the year was 5.0% as compared to 7.7% for the year ended June 30, 2013.

DIVIDEND

The Board of Director's has approved a final cash dividend of 10% which translates to Rs. 1 per share.

FUTURE OUTLOOK

Global growth is expected to improve slightly in the next year. However, the largest mature and emerging economies still face many structural flaws and policy constraints that hinder more investment and faster productivity growth, making the global medium term outlook more uncertain.

The outlook for textiles is also uncertain as there are several positive and negative factors facing the industry. On the positive side there is stronger growth in the developed economies and the depreciation of the rupee against the US\$, high cost of cotton in China, and rising Chinese labour cost. On the negative side is the slow down of the Chinese economy and the end of China's cotton stockpiling policy. The slowing economy will lead to reduced end product demand and lower margins, while the end of stockpiling could lead to price volatility and increased probability of inventory impairment. Apart from the market dynamics, the other negative is the energy shortage plaguing the country. The industry is being subjected to extensive gas load shedding even in the summer months and therefore must place greater reliance on electricity from the national grid where load shedding has been as high as 12 hours a day. Owing to loss of productivity because of energy shortages, the perpetually rising cost of power and inflationary trend in other inputs and slowing demand, we expect margins to come under pressure. However, we feel that this pressure could be eased if raw material prices stabilize at current levels which are significantly lower than last year.

The Management will continue to strive to minimize the impact of the uncertain economic environment through improved efficiency and productivity and sound, low risk decision-making. However, to ensure long term success these efforts must be supported by strong growth of global economies, availability of reliable and competitively priced energy, and improved law and order.

REVIEW REPORT TO THE MEMBERS ON THE STATEMENT OF COMPLIANCE WITH THE CODE OF CORPORATE GOVERNANCE

We have reviewed the enclosed Statement of Compliance with the best practices contained in the Code of Corporate Governance (the Code) prepared by the Board of Directors of CRESCENT FIBRES LIMITED (the Company) for the year ended June 30, 2014 to comply with the requirements of Listing Regulation No. 35 of Karachi Stock Exchange Limited, Lahore Stock Exchange Limited and Islamabad Stock Exchange Limited, where the Company is listed.

The responsibility for compliance with the Code is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Code and report if it does not and to highlight any non-compliance with the requirements of the Code. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Code.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Code requires the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention, which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the best practices contained in the Code as applicable to the Company for the year ended June 30, 2014.

The Company expects that the adoption of the above amendments and interpretations of the standards will not have any material impact and therefore will not affect the Company's financial statements in the period of initial application.

4 SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the presentation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

4.1 Property, plant and equipment

a) Owned

These are stated at cost less accumulated depreciation and impairment losses, if any, except freehold land which is stated at cost.

Depreciation is charged to income applying the reducing balance method at the rates specified in the respective note and after taking into account residual value. Leasehold land is amortized over the term of lease.

Depreciation on additions during the year is charged on pro-rata basis when the assets are available for use. Similarly the depreciation on deletion is charged on pro-rata basis up to the period when the asset is derecognized.

The assets residual values and useful lives are reviewed, and adjusted if significant, at each balance sheet date. Maintenance and normal repairs are charged to income as and when incurred. Major renewals and improvements are capitalized.

Gains and losses if any, on disposal of property, plant and equipment are included in income currently.

b) Leased

Finance leases

Assets held under finance leases are recognized as assets of the Company at their fair value at the date of acquisition or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation.

Financial charges are allocated to accounting periods in a manner so as to provide a constant periodic rate of charge on the outstanding liability.

Depreciation is charged at rates used for similar owned assets, so as to depreciate the assets over their estimated useful lives in view of certainty of ownership of the assets at the end of the lease term.

Income arising from sale and lease back transactions, if any, is deferred and amortized equally over the lease period.

Operating leases

Lease payments under operating leases (net of any incentives received from the lessor) are charged to profit and loss account on a straight line basis over the respective lease term.

c) Capital work in progress

Capital work in progress represents expenditure on property, plant and equipment which are in the course of construction and installation. Transfers are made to relevant property, plant and equipment category as and when assets are available for use. Capital work in progress is stated at cost less any identified impairment losses.

4.2 Intangible assets

An intangible asset is stated at cost less accumulated amortization and impairment loss, if any. Amortization is charged to income applying the straight line method over the useful life of the asset. Amortization is charged on additions during the year from the month in which the asset is acquired and in respect of disposals during the year upto the month in which the asset is disposed off.

Cost associated with maintaining intangible assets are recognized as an expense as and when incurred.

Gains and losses if any, on disposal of intangible assets are included in income currently.

The carrying value of intangible asset is reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying value exceeds the estimated recoverable amount, the asset is written down to its recoverable amount.

4.3 Impairment losses

The carrying amount of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such indications exist, the assets recoverable amount is estimated in order to determine the extent of impairment loss, if any.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that is largely independent from other assets and group. Impairment losses are recognized as expense in profit and loss account.

The recoverable amount is the higher of an assets fair value less costs to sell and value in use.

4.4 Investments in associates - equity method

Entities in which the Company has significant influence but not control and which are neither its subsidiaries nor joint ventures are associates and are accounted for by using the equity method of accounting.

These investments are initially recognized at cost and thereafter, the carrying amount is increased or decreased to recognize the Company's share of profit and loss of associates. Share of post acquisition profit and loss of associates is accounted for in the Company's profit and loss account. Distribution received from investee reduces the carrying amount of investment.

The changes in the associate's equity which have not been recognized in the associates' profit and loss account, are recognised directly in the equity of the Company.

4.5 Stores, spares and loose tools

These are stated at lower of cost and net realisable value. Cost is determined using moving average method. Items considered obsolete are carried at nil value. Items in transit are valued at cost comprising invoice value plus other charges paid thereon. Adequate provision is made for slow moving and obsolete items.

4.6 Stock in trade

These are valued at the lower of cost and net realizable value applying the following basis:

| | |
|------------------|------------------------------|
| Raw material | - At weighted average cost |
| Work in progress | - Average manufacturing cost |
| Finished goods | - Average manufacturing cost |
| Waste | - Net realizable value |

Goods in transit are stated at invoice price plus other charges paid thereon up to the balance sheet date.

Cost of work in process and finished goods comprises of cost of direct material, labour and appropriate portion of manufacturing overheads. Adequate provision is made for slow moving and obsolete items.

Net realizable value signifies the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs necessary to make the sale. Estimates of net realizable value are based on the most reliable evidence available at the time the estimates are made of the amount the inventories are expected to realize.

4.7 Trade debts and other receivables

Trade debts and other receivables are carried at original invoice amount being the fair value of the consideration to be received in future. An estimated provision is made against debts considered doubtful of recovery, whereas debts considered irrecoverable are written off.

4.8 Taxation

Current

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years and tax credit, if any.

Deferred

Deferred tax is recognized using the balance sheet liability method in respect of all temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and carry-forward of unused tax losses and tax credits to the extent that it is probable that future taxable profits will be available against which deferred tax asset can be utilized, except where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability that, at the time of transaction, affects neither the accounting nor taxable profits.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax asset and liability is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

4.9 Cash and bank balance

Cash in hand and at bank are carried at nominal amounts.

4.10 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Company.

4.11 Provisions

A provision is recognized in the balance sheet when the Company has a present legal or constructive obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provisions are determined by discounting future cash flows at appropriate discount rate where ever required. Provisions are reviewed at each balance sheet date and adjusted to reflect current best estimate.

4.12 Borrowings and their cost

Borrowings are initially recorded at the proceeds received. In subsequent periods, borrowings are stated at amortized cost using the effective yield method.

Borrowing costs are recognised as an expense in the period in which these are incurred except to the extent of borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs, if any, are capitalized as part of the cost of that asset.

4.13 Employee retirement benefits

a) Defined contribution plan

The Company operates an approved provident fund scheme covering all its permanent employees. Equal monthly contributions are made both by the Company and the employees in accordance with the rules of the Scheme.

b) Compensated absences

The liability in respect of compensated absences of employees is accounted for in the period in which the absences accrue.

4.14 Revenue recognition

Sales are recorded on dispatch of goods. However, export goods are considered sold when shipped on board.

Scrap sales are recognized when delivery is made to customers.

Rental income is recognized on accrual basis.

Income from bank deposits, loans and advances is recognized on accrual basis.

Dividend income is recognized when the right to receive is established.

4.15 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purpose of cash flow statement, cash and cash equivalents consist of cash in hand, cash in transit and balances with banks.

4.16 Financial instruments

4.16.1 Financial assets

All the financial assets are recognized at the time when the Company becomes a party to the contractual provisions of the instrument. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item. Any gain or loss on de-recognition of the financial assets and financial liabilities is taken to profit and loss account currently.

The Company classifies its financial assets in the following categories: at fair value through profit or loss, loans and receivables, held to maturity and available for sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

- Investments at fair value through profit or loss

A non-derivative financial asset is classified at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Investments are designated at fair value through profit or loss if the Company manages such investments and makes purchase and sale decisions based on their fair value. Upon initial recognition, attributable transaction costs are recognized in profit and loss when incurred.

Investments at fair value through profit or loss are measured at fair value, and changes therein are recognised in profit or loss.

- Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These are included in current assets, except for maturities greater than 12 months after the balance sheet, which are classified as non-current assets. The Company's loans and receivables comprise 'trade debts', 'loans and deposits', 'other receivables' and 'cash and cash equivalents' in the balance sheet.

- Held to maturity

Held to maturity financial assets are non-derivative financial assets with fixed or determinable payments and fixed maturity with a positive intention to hold to maturity.

These investments are stated at amortised cost. Amortisation of premium / discount, if any, on the acquisition of investments is carried out using the effective yield method.

- Available for sale

Available for sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. These are included in non-current assets unless the investment matures or management intends to dispose of the financial assets within twelve months of the balance sheet date.

Other investments not covered in any of the above categories including investments in associates in which the Company has no significant influence are classified as being available for sale and are stated at fair value, with any resultant gain or loss being recognized directly in equity. Gains or losses on available for sale investments are recognised directly in equity until the investments are sold or disposed off, or until the investments are determined to be impaired, at that time cumulative gain or loss previously reported in the equity is included in current year's profit and loss account.

All investments classified as available for sale are initially recognized at cost inclusive of transaction costs and subsequently quoted investments are marked to market using the last quoted rate at the close of the financial year. Fair value of unquoted investments is estimated based on appropriate valuation method if it is practicable to determine it.

Fair value of listed securities are the quoted prices on stock exchange at balance sheet date.

The Company follows trade date accounting for regular way of purchase and sales of securities, except for sale and purchase of securities in futures market, which are accounted for at settlement date.

4.16.2 Financial liabilities

All financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instrument.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in respect of carrying amounts is recognized in the profit and loss account.

4.17 Offsetting of financial assets and financial liabilities

Financial asset and financial liability is offset and the net amount is reported in the balance sheet if the Company has a legally enforceable right to set-off the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

4.18 Foreign currency translation

Transactions in foreign currencies are translated into Pak rupees at the exchange rates prevailing at the date of transaction. Monetary assets and liabilities that are denominated in foreign currencies are translated into Pak rupees at the rates of exchange prevailing at the balance sheet date.

Foreign exchange differences are recognized in the profit and loss account.

4.19 Related party transactions

All transactions with related parties are carried out by the Company at an arms' length price method and the transfer price is determined in accordance with the comparable uncontrolled price method.

4.20 Share capital

Share capital is classified as equity and recognized at the face value. Incremental costs directly attributable to the issue of new shares are shown as a deduction in equity.

4.21 Dividend and appropriation to reserves

Dividend and appropriation to reserves are recognized in the financial statements in the year in which it is approved by the shareholders.

4.22 Earnings per share

The Company presents earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by weighted average number of ordinary shares outstanding during the period.

4.23 Segment

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the Company's other components. All operating segments' results are reviewed regularly by the Company's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. The Company has only one reportable segment.

4.24 Significant accounting judgements and critical accounting estimates / assumptions

The preparation of financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The matters involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are as follows:

a) Property, plant and equipment

Management has made estimates of residual values, useful lives and recoverable amounts of certain items of property, plant and equipment. Any change in these estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with corresponding effect on the depreciation charge and impairment loss.

b) Stores, spares, loose tools and stock-in-trade

The Company has made estimates for realizable amount of slow moving and obsolete stores, spares, loose tools and stock-in-trade to determine provision for slow moving and obsolete items. Any future change in estimated realizable amounts might affect carrying amount of stores, spares and stock-in-trade with corresponding affect on amounts recognized in profit and loss account as provision/reversal.

c) Provision for taxation

The Company takes into account the current income tax law and decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by the Income Tax Department at the assessment stage and where the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

| | | <u>87,290,169</u> | <u>86,361,209</u> |

26.1 The Company has obtained short term finance facilities from various commercial banks. The aggregate facilities under mark-up arrangements amounted to Rs. 797 million (2013: Rs. 672 million). The rate of mark up on these finance facilities ranges between 1 month and 3 months KIBOR plus 1% to 3.5% per annum (2013: 3 month KIBOR plus 1% to 4% per annum) and is payable quarterly.

The Company also has a facility for opening letters of credit under mark-up arrangements amounting to Rs. 200 million (2013: Rs. 200 million) from a commercial bank. The unutilized balance at the end of the year was Rs. 200 million (2013: Rs. 182.908 million).

These financing facilities are secured by way of pledge and floating charge over the current assets and personal guarantee of Directors and lien on import documents.

26.2 During the year, the management of the Company have determined that the liabilities relating to short term borrowings and markup accrued thereon amounting to Rs. 12.000 million and Rs. 20.385 million up to June 30, 2012, respectively, were payable to a financial institution (now Samba Bank Limited). No provision for markup has been recorded on this balance since June 30, 2012. The Company has received a nil balance certificate from the Bank and no claim has been received in respect of the amount outstanding from this financial institution or third party. Management considers it necessary to retain the balance outstanding in the books as no settlement has taken place. The facility was subject to discounting charges at the rate of 8.00% (2013: 8.00%) per annum and is secured against personal guarantee of Directors and demand promissory note.

45 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

45.1 Risk management policies

The Company's operations expose it to financial risk mainly due to changes in foreign exchange rates. Risk management is carried out by the management under policies approved by Board of Directors. The Board provides principles for overall risk management, as well as policies covering specific areas like foreign exchange risk, interest rate risk and investing excessive liquidity.

45.2 Credit risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counter parties fail to perform as contracted and arises principally from trade and other receivables. The Company's policy is to enter into financial contracts with reputable counter parties in accordance with the internal guidelines and regulator requirements.

Exposure to credit risk

The carrying amounts of the financial assets represent the maximum credit exposures before any credit enhancements. The carrying amounts of financial assets exposed to credit risk at reporting date are as under:

| | 2014 | 2013 |
|-------------------|--------------------|--------------------|
| | Rupees | Rupees |
| Deposits | 30,859,215 | 33,285,655 |
| Investments | 128,480,483 | 112,629,344 |
| Trade debts | 357,821,427 | 291,906,713 |
| Loans | 268,700 | 10,000 |
| Other receivables | 614,351 | 614,351 |
| Bank balances | 138,833,507 | 70,080,006 |
| | <u>656,877,683</u> | <u>508,526,069</u> |

The aging of trade receivables at the reporting date is:

| | | |
|---------------------|--------------------|--------------------|
| Not past due | 213,633,386 | 225,794,982 |
| Past due 1-30 days | 64,821,242 | 56,083,998 |
| Past due 30-90 days | 60,840,663 | 6,524,087 |
| Past due 90 days | 18,526,136 | 3,503,646 |
| | <u>357,821,427</u> | <u>291,906,713</u> |

To manage exposure to credit risk in respect of trade receivables, management performs credit reviews taking into account the customer's financial position, past experience and other factors. Where considered necessary sales made to certain customers are secured through letters of credit.

The exposure to banks is managed by dealing with variety of major banks and monitoring exposure limits on continuous basis. Rating of banks ranges from A-3 to A1+.

Concentration of credit risk

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligation to be similarly affected by the changes in economic, political or other conditions. The Company believes that it is not exposed to major concentration of credit risk.

Impaired assets

During the year, no assets have been impaired other than store, spares and loose tools amounting to Rs. 48.988 million and trade debts amounting to Rs. 361.583 million against which impairment amounting to Rs. 1.741 million (2013: Rs. 0.992 million) and Rs. 3.762 million (2013: Rs. 3.062 million) respectively has been recorded.

45.3 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stress conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The following are the contractual maturities of financial liabilities, including interest payments and excluding the impact of netting agreements, if any:

| | Carrying Amount | Contractual Cash Flows | Six months or less | Six to Twelve months | One to two years | Two to five years | Over five years |
|------------------------------------------------------|--------------------|------------------------|--------------------|----------------------|--------------------|--------------------|-----------------|

45.4 Market risk

Market risk is the risk that changes in market price, such as foreign exchange rates, interest rates and equity prices will effect the Company's income or the value of its holding of financial instruments.

a) Currency risk

Foreign currency risk is the risk that the value of financial asset or a liability will fluctuate due to a change in foreign exchange rates. It arises mainly where receivables and payables exist due to transactions entered into in foreign currencies. The Company exposure to foreign currency risk as follows:

| | 2014 Rupees | 2013 Rupees |
|------------------------------|-------------------|------------------|
| Outstanding letter of credit | <u>61,170,000</u> | <u>9,604,000</u> |

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate exposure arises from long term loans and short term borrowings. At the balance sheet date the interest rate profile of the Company's interest -bearing financial instruments is as follows:

| Financial liabilities | 2014 Effective rate (In percent) | 2013 Effective rate (In percent) | 2014 Carrying amount Rupees | 2013 Carrying amount Rupees |
|---------------------------|----------------------------------------|----------------------------------------|-----------------------------------|-----------------------------------|
| Fixed rate instrument | | | | |
| Long term finance | 11.20% | 11.20% | <u>24,309,999</u> | <u>32,413,333</u> |
| Short term borrowings | 8% | 8% | <u>12,000,000</u> | <u>12,000,000</u> |
| Variable rate instruments | | | | |
| Long term finance | 11.20%-13.13% | 12.07%-16.30% | <u>233,586,700</u> | <u>255,992,383</u> |
| Short term borrowings | 11.33%-12.46% | 15.23%-19.05% | <u>75,290,169</u> | <u>74,361,209</u> |

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased / (decreased) profit for the year by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for prior year.

| | Profit and loss | |
|-------------------------------------------------------------|--------------------|--------------------|
| | 100 bp increase | 100 bp decrease |
| As at June 30, 2014 | | |
| Cash flow sensitivity - Fixed rate financial liabilities | (363,100) | 363,100 |
| Cash flow sensitivity - Variable rate financial liabilities | (3,088,769) | 3,088,769 |
| As at June 30, 2013 | | |
| Cash flow sensitivity - Fixed rate financial liabilities | (444,133) | 444,133 |
| Cash flow sensitivity - Variable rate financial liabilities | (3,303,536) | 3,303,536 |

The sensitivity analysis prepared is not necessarily indicative of the effects on (loss) / profit for the year and assets / liabilities of the Company.

c) Market risk

Market price risk

The risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices of securities due to a change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market.

Exposure

The Company has exposure to market price risk in available for sale securities.

Risk management

The Company's policy is to manage price risk through diversification and selection of financial instruments within specified limits.

| | 2014 Rupees | 2013 Rupees |
|-------------------------------------------------------------------------------------------------|--------------------|--------------------|
| As at June 30, 2014, the fair value of equity securities exposed to price risk were as follows: | | |
| Held for trading investment | 62,839,529 | 45,202,852 |
| Available for sale investment | 62,348,523 | 63,799,733 |
| | <u>125,188,052</u> | <u>109,002,585</u> |

The following analysis illustrates the sensitivity of the profit for the year and the share holders' equity to an increase or decrease of 5% in the fair values of the Company's equity securities. This level of change is considered to be reasonably possible based on observation of current market conditions. The sensitivity analysis is based on the Company's equity securities at each statement of assets and liabilities date, with all other variables held constant.

| | 2014 Rupees | 2013 Rupees |
|-------------------|------------------------|------------------------|
| Price sensitivity | <u>6,259,402</u> | <u>5,450,129</u> |

46 FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties, in an arm's length transaction.

47 CAPITAL MANAGEMENT

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board of Directors monitor the return on capital, which the Company defines as net profit after taxation divided by total shareholders' equity. The Board of Directors also monitor the level of dividend to ordinary shareholders. There were no changes to the Company's approach to capital management during the year and the Company is not subject to externally imposed capital requirements.

48 DATE OF AUTHORIZATION FOR ISSUE

These financial statements were authorized for issue on September 29, 2014 by the Board of Directors of the Company.

49 NON-ADJUSTING EVENTS AFTER THE BALANCE SHEET DATE

Subsequent to the balance sheet date, the Board of Directors of the company in their meeting held on September 29, 2014 has recommended cash dividend for the year ended June 30, 2014 at 10% i.e. Rs. 1.00 per ordinary share subject to approval of shareholders in Annual General Meeting of the Company to be held on October 31, 2014.

50 GENERAL

50.1 Corresponding figures have been rearranged and reclassified, wherever necessary for the purpose of comparison, the effect of which is not material.

50.2 The number of employees as at year end were 1,033 (2013: 995) and average number of employees during the year were 1,015 (2013: 982).

50.3 Figures have been rounded off to the nearest rupee.
