PREFACE

The Budget in Brief is a summary of the Federal Budget 2010-11. It is designed to provide essential budgetary information about the revenues and expenditures at a glance. Detailed information is available in other budgetary documents.

The federal budget is being prepared in accordance with the budgeting and accounting classification system that has been approved by the Government of Pakistan as an integral part of the New Accounting Model.

The three years medium-term indicative budget ceilings for the current and development budgets as approved by the Cabinet were issued to all Principal Accounting Officers of the Federal Government. A new budget preparation method, called the 'Output Based Budgeting' has been introduced, which presents the federal budget by services and effects of services on target population and links these with performance indicators and targets over the three years period. Medium Term Macroeconomic Indicators covering a period of three years have been included in this document.

For the convenience of readers, some additional information regarding subsidies, loans and advances has been shown separately. Another facility is that after approval of the Parliament, the Annual Budget Statement, Explanatory Memorandum and Estimates of Foreign Assistance will be placed on the Ministry of Finance website www.finance.gov.pk for unrestricted access by all.

I hope that this document will prove to be useful and handy portal into the Budget 2010-11.

CHAPTER - 9

MEDIUM TERM BUDGETARY FRAMEWORK (MTBF)

9.1 Government of Pakistan has initiated budget reforms under Medium Term Budgetary Framework (MTBF). MTBF will assist in improving the overall quality of the planning and budgetary processes and also enhance the quality and effectiveness of public expenditure. Three year budget horizon provides the ministries the space and flexibility they need to formulate, plan and implement policies that focus on public service delivery or 'outputs'.

9.2 The MTBF is designed to focus on two important components; the 'strategic' component and the 'output based budgeting' component.

9.3 Under the 'strategic' component the Budget Strategy Paper is developed. The Budget Strategy Paper (BSP) is developed by two working groups; the macroeconomic working group and the budget strategy working group. These groups have representations from the Finance Division (including Principal Economic Adviser Wing and Debt Policy Coordination Office), Planning & Development Division, Federal Board of Revenue, Federal Bureau of Statistics and State Bank of Pakistan. The macroeconomic working group finalises the Financial Programming Framework; which is a macroeconomic forecasting tool. The BSP is a two-staged process. BSP1 is developed before the start of budget preparation cycle each year, while the BSP2 is developed to update figure. The BSP requires political endorsement. This component will help in enhancing fiscal discipline and linking the Government's strategic priorities with the budget.

9.4 The 'output based budgeting' component is designed to enhance efficiency and effectiveness in Government's spending. 'Output based budgeting' is the new method of budget preparation introduced by the Finance Division. Using this method, the federal Ministries present their budget by services and effects of the services on target population and link these with performance indicators and targets. A system that links Ministerial policy with the budget and performance indicators, when monitored on regular basis, results in improving service delivery performance.

9.5 This year, the Cabinet, in its meeting of 10th February 2010, approved the BSP1 and issuance of three year indicative budget ceilings of the current and development budgets to all Principal Accounting Officers. The BSP2 will be presented in the Cabinet with the budget.

9.6 Under the MTBF, the Priorities Committee was also further strengthened. The committee is chaired jointly by Secretary Finance, Secretary Planning & Development and Secretary Economic Affairs Division. In addition, the committee reviewed both the current and development budgets to focus on service delivery. The current budget was also discussed during the Annual Plan Coordination Committee.

9.7 This year, the Finance Division will present 'Medium Term Budget Estimates for Service Delivery' or 'Green Book' 2010-13 that will explain the services (outputs) provided by a Ministry, the budget to deliver those services and performance indicators and targets for the entire Federal Government.

9.8 Ministry of Finance is planning to take additional steps to further strengthen the MTFB including improving linkages with PIFRA reform (Project to Improve Financial Reporting and Auditing), introducing output based monitoring mechanism, further improvements in harmonisation of current and development budgets, introduction of organic budget law and embedding MTBF training courses in civil services induction and training institutes.

This book gives break up of Foreign Loans and Grants (Plan & Non-Plan) provided to Federal Government, Provinces and Local Bodies. The detail of loans and grants have been given project-wise as well as lending country/agency-wise.

External resources mainly comprise (i) loans and credits from friendly countries and specialized international agencies and (ii) grant assistance under specific country programmes. The Foreign Aid (Loans, Credits and Grants) is broadly categorized as project aid, commodity aid and other aid.

Project aid generally takes the shape of foreign loans and grants for procurement of project equipment and supply of services etc.

Commodity aid is utilized for commercial imports. Goods imported under this aid are generally industrial raw materials, equipment, consumer goods, chemicals, fertilizers and such other commodities as may be specified or generally agreed to or, if the aid is untied, as the country may actually need. Commodity aid also helps to generate rupee funds which augment the country's rupee resources to meet its development needs.

The assistance under "Other Aid" comprises loans and grants from non-traditional sources generally by way of balance of payment support.

P R E F A C E

The Annual Budget Statement containing estimated receipts and expenditures for financial year 2010-2011 is being tabled in the National Assembly of Pakistan and transmitted to the Senate of Pakistan as required under Article 80(1) and 73 (1) of the Constitution of Islamic Republic of Pakistan.

This 'Explanatory Memorandum on Federal Receipts' is also being tabled alongwith the Annual Budget Statement, as additional information, in order to help the readers understand the details of the receipts included in the Statement. The Memorandum distinguishes revenue from capital receipt. Revenue receipt is further categorized as tax and non-tax receipt. The section on capital receipt provides information on public debt and external resources, which are further explained in a separate publication titled 'Estimates of Foreign Assistance'. A brief overview of self-financing of the Public Sector Development Programme by the Provinces is also included in this Memorandum.

With the aim of helping the readers form a comprehensive view of the federal resources that have determined the formulation of the Budget for 2010-2011, the nature of receipts has been explained, wherever considered appropriate. I hope that this document would be useful for a more comprehensive understanding of the Annual Budget Statement.

Salman Siddique
Secretary to the Government of Pakistan

Finance Division,
Islamabad, 5 June, 2010

2. FEDERAL TAXES

2.1 Tax revenue collected by Federal Board of Revenue (FBR) comprises of direct taxes and indirect taxes. Direct Taxes are imposed on income while indirect taxes are levied on transactions and commodities.

2.2 Detailed analyses of individual taxes are highlighted below :

2.3 **Direct Taxes:** The Direct Taxes comprise of Income Tax, Capital Value Tax and Workers Welfare Fund (WWF) Workers Participation Fund (WPPF) collected by the Income Tax Department on behalf of M/o Labour, Manpower and Overseas Pakistanis Division. Final estimates of the budget target of Direct Taxes for 2009-2010 are Rs.540.4 billion envisaging growth of 21.38% over 2008-2009.

2.4 During the first ten months of the current financial year i.e. upto 30.04.2010, Direct Tax collection stood at Rs.387.8 billion with growth of 16.33% as compared to the collection of the corresponding period of the preceding year. If current pace of the collection continues with 20% growth in the months of May and June, 2010, Direct Tax collection may ultimately end at Rs.540.4 billion.

2.5 Taking into account the current inflation and GDP growth, Direct Taxes targets can safely be estimated at Rs.657.7 billion by taking 15% growth over last year. However, this does not include any financial measures to be introduced in the Board for Financial year 2010-2011.

2.6 The Capital Value Tax (CVT) is leviable on purchase of commercial, non-commercial property, residential flats etc. The estimated increase in CVT for 2009-2010 could not be achieved due to multiple reasons. Due to non-documentation of economy, particularly at the level of Tehsil & District.

2.7 Workers Welfare Fund (WWF) and Workers Participation Fund (WPPF) is leviable under the Workers Welfare Act. The revised estimates for receipts in 2009-2010 are Rs.15,600.0 million and estimates for budget 2010-2011 is Rs.20,000.0 million.

2.8 The estimates given for 2010-2011 are bit conservative based on the past experience, however, with introduction of some financial measures and composite audit, the figures can be stretched safely to Rs.657.7 billion.

2.9 The budget and revised estimates for 2009-2010 and budget estimates for 2010-2011 on account of direct taxes are tabulated as under:

3.3 A brief description of customs, sales tax, federal excise duties, other taxes (ICT) and airport tax is given in the following pages.

3.1 CUSTOMS

3.1.1 During the first 10 months of FY 2009-2010 (July-April), net customs duty collection is Rs.125.8 billion which is 7.5% higher than duty collected during corresponding period of FY 2008-2009 which is despite the fact that dutiable import value has decreased by 2% during the same period. This increase is mainly due to improvements in administrative measures which contributed Rs.8.2 billion in the total customs revenue till April 2010.

3.1.2 If dutiable imports show considerable increase during remaining period, the revised target of Rs.164.9 billion can be achieved. The collection of customs revenue during FY 2010-2011 will be based upon imports during FY 2010-2011. If the increasing trend in international commodity prices continues during FY 2010-2011, the target of Rs.180.8 billion for next FY may also be achieved.

3.1.3 It may be appreciated that customs revenue is primarily based upon dutiable value of imports which in turn depends upon over all national and international economic and trade variables. The above projections are also subject to these variables which imply that any increase or decrease in dutiable import value will accordingly impact the customs duty collection during FY 2010-2011.

3.1.5 Item-wise detail of budget and revised estimates 2009-2010 and budget estimates 2010-2011 in respect of customs duties is given in the following table:

3.2 SALES TAX

3.2.1 Sales tax is a tax on consumption, levied on manufacturers & retailers with an annual turnover of more than Rs.5 million, as well as on the importers, wholesalers, distributors, dealers and specified services @ 16%. However, few commodities are subjected to sale tax @ 18% and 21%. However, all the exports and other goods/items mentioned in the Fifth Schedule to the Sales Tax act, 1990 or in a notification issued under section 4 of the Act are chargeable to tax @ zero percent. The items mentioned in the Sixth Schedule or in a notification issued under section 13 of the Sales Tax Act, 1990 are exempt from the levy of sale tax. Exemptions mostly include basic foodstuff, agricultural produce (not subject to any further process), medicines, books, and life animals, etc. The tax is levied in VAT mode i.e. on value addition basis with the entitlement of inputs tax adjustment.

3.2.2 The scope of tax was initially restricted to manufacturers, but the tax base was gradually broadened and later extended to the importers (in 1997), wholesalers, dealers, distributors & retailers (in 1998) and to specified services (in the year 2000) vide Provincial Sales Tax Ordinances which include services such as advertisements on TV and radio, clearing agents, stevedores, hotel & restaurants..

3.2.3 During the period July, 2009 to May, 2010 of current fiscal year revenue collection on account of Sales Tax has been Rs.461.84 billion as against Rs.396.90 billion collected in the corresponding period of 2008-2009. This shows a growth of 14.9% in revenue collection. The budget estimates for fiscal year 2009-2010 were Rs.499.4 billion, which have now been revised upward to Rs.540.3 billion. Budget Estimates for the fiscal year 2010-2011, budget are likely to be Rs.674.9 billion.

3.3 FEDERAL EXCISE

3.3.1 Historically, excise taxation has played a very important role in the taxation structure of Pakistan. Excises are normally levied to systematically regulate the consumption of luxury goods. Before partition, different commodity-specific excise regulations which were amalgamated into the Central Excises and Salt Act 1944, which was adopted by the government of Pakistan at the time of independence.

3.3.2 Ever since the creation of Pakistan excise duties and sales tax have co-existed. Currently, all the commodities chargeable to excise duty are also liable to sales tax. In order to increase the compatibility between excises and Sales Tax, the government took a historical step in the Budget 2005-06 and introduce an entirely new version of excise legislation in the shape of Federal Excise Act 2005. Under the new excise legislation, the expression "central excise" duty was replaced with "Federal Excise Duty". Positive schedule is attached to the Act for excisable goods and services with conditional exemptions schedule separately. Cost-free registration has taken over traditional licensing regime with no fee or removals and sales tax registrations is valid and applicable for excise purposes as well. Fiscal control has been replaced with self-assessment and self-compliance.

3.3.3 The standard rate of excise duty is 15% chargeable on both domestic production and imported substitutes of excisable goods. This rate is applicable even on excisable services. However, the effective rate of excise duty is prescribed in the First Schedule to the 2005 Act. Effective rates differ from the standard statutory rate in the POL products and cement are generally charged to fixed amounts of duty (specific rate of duty) and cigarettes are charged and excise duty on higher rate with composite duty structure on quantity-cum-price slab basis. Minimum prices of cigarettes for the purpose of duty assessment have been fixed to rule out the possibilities of market distortions and valuation malpractices. The excise classification was transposed to Harmonized Commodity Description and Coding system in 1994. A separate chapter 98 has been introduced for the classification of services. Several new services were added in chapter 98 in the Budget 2005-06.

3.3.4 In excise regime, there are six major revenue spinners which including cigarettes, beverages, POL Products, cement, natural gas and special excise duty. Almost 76% of excise duty collection (domestic) is collected from these six commodities.

3.3.5 During the period July, 2009 to May, 2010 of current fiscal year revenue collection on account of federal excise duty has been Rs.104.85 billion as against Rs.101.10 billion collected in the corresponding period of 2008-09. This shows a growth of 3.7% in revenue collection. The receipts from federal excise duty were budgeted at Rs.152.8 billion for fiscal year 2009-2010. However, the targets were revised downward to Rs.134.4 billion. The budget target for fiscal year 2010-2011 is estimated to be Rs.154.0 billion.

13.2 PUBLIC ACCOUNT DEPOSIT RECEIPTS

13.2.1 The public account deposit receipts are broadly of two types known as (i) Reserve funds and (ii) Other deposits. The reserve funds, falling in the category of renewal reserve and depreciation funds, are designed to meet the cost of renewal and replacement of assets of the commercial departments and undertakings to which they relate. These are fed by annual contribution from these departments and organizations, calculated either on commercial principles or on ad-hoc basis. The expenditure on renewal and replacement in a year is initially booked as expenditure under the relevant capital head of account but at the end of the year, it is transferred to the appropriate depreciation or renewal reserve fund per contra-credit to the expenditure head.

13.2.2 Reserve funds and deposit accounts, other than the renewal reserve and depreciation funds, are intended to provide for liabilities and requirements of funds for specific purposes for which they have been created. Like renewal reserve and depreciation funds, these are fed by regular yearly payment or ad-hoc contributions from the current revenues. Such transfers generally pass through the budget grant of the concerned Ministry or Division.

13.2.3 The reserve funds and deposit accounts in respect of which provision for contributions have been made in the revised estimates for 2009-2010 and budget estimates for 2010-2011 are tabulated on the following pages.

13.2.5 The objective of establishing this reserve fund is to secure the payment of annual contribution from general revenues, to provide funds to meet the actual cost of renewing and replacing assets. The fund also bears the cost of relieving capital of the value of an asset, other than land, which is sold, abandoned or otherwise disposed off without being replaced. Railways Depreciation Reserve Fund

13.2.6 The Railways Depreciation Reserve Fund provides for the cost of renewals and replacement of assets as and when it becomes necessary. The Fund was to provide the amount of original cost of the assets replaced and its scope was restricted to the replacement of complete units of certain classes of wasting assets. With a view to providing safeguard against over capitalization, the entire cost of the replacement of an asset including the improvement elements is charged to the Fund. Presently, the contribution to the fund is made by adopting "Straight Line Method".

Railways Reserve Fund

13.2.7 The objective of establishing this Fund is to secure the payment of annual contribution of general revenues, to provide if necessary, for arrears of depreciation and for writing off capital and to strengthen the financial position of the Railways. The Fund was also used for temporary borrowings for purposes of meeting the expenditure for which there was no provision or insufficient provision in the revenue budget. The receipts in this Fund consist of the surplus which remain out of the profit of Railways after payment to general revenues of the contribution fixed under the Convention.

Worker's Welfare Fund

13.2.8 This Fund was created for provision of housing facilities and other amenities to industrial workers. Initial contribution of Rs.100 million was made by the federal government. Further contributions to the Fund are being made in the form of Workers Welfare Tax @ 2% per annum of the total assessable income of industrial units whose income is not less than Rs.100,000/- and the amount transferred to the Fund from time to time, under clause (d) of paragraph 4 of the scheme set out in the Schedule to the Companies' Profit (Workers' Participation) Act, 1968 (XII of 1968).

Fund for exchange risk on foreign loans

13.2.9 The federal government pays the difference of exchange rate fluctuations on behalf of borrowers, and charges an exchange risk fee. The rate of this fee is different for different foreign currencies.

14. EXTERNAL RESOURCES

14.1 External resources comprise of (i) project loans (ii) loans and credits from friendly countries and specialized international agencies and (iii) grant assistance under Food Aid Convention, World Food Programme and other specific country programmes. The loans, credits and grant assistance, collectively described as foreign aid, fall into four broad categories. These are project aid, commodity aid, food aid, and other aid.

Project loans

14.2 Project loans are of two types. These are explained below :

(a) **Federal loans :**

Loans contracted by the federal government for public or private sector projects are generally termed as federal loans.

(b) **Guaranteed loans :**

Loans contracted directly by public or private sector agencies but guaranteed by the federal government for payment of interest and repayment of principal are called guaranteed loans.

14.3 Sometimes, commodities received under foreign aid generate rupee counterpart funds which either by prior agreement at the time of commitment of commodity assistance or subsequently after generation of rupee counterpart by mutual agreement, are made available for specific projects as loan or grant assistance. This is another form of project aid.

Commodity aid

14.4 Commodity aid as a rule is utilized for commercial imports of commodities. The goods imported under this aid generally are industrial raw materials, equipment & spares, consumer goods, chemicals, fertilizer and such commodities as may be specified or may have been generally agreed to or, if the aid is untied, as the country may actually need. Beside enabling the country to meet its requirements of essential commodities, commodity aid also helps to generate rupee funds which augment the country's rupee resources to meet development needs.

Other aid

14.5 Other aid comprise of loans and grants from non-traditional sources generally by way of balance of payment support.

Federal Medium Term Budget Estimates for Service Delivery 2010 - 13

Government of Pakistan
Finance Division
Islamabad

The Medium Term Budget Estimates for Service Delivery set out in this document have been prepared under the newly adopted Medium Term Budgetary Framework (MTBF) for the Federal Government. The Budget Estimates for Service Delivery (BESD) constitute a response to the growing need for adequate documentation, at the time of the presentation of the budget, of the purposes for which Parliament is being requested to appropriate funds. The BESD provide supplementary information to the details which have long been provided through the Details of Demands for Grants and Appropriations – the so-called “Pink Book”, which sets out the details of the budget by accounting budget line according to the economic and functional classifications of the Chart of Accounts.

The BESD, referred to as the “Green Book”, while presenting the same budget as the Pink Book, has a different orientation and purpose. The principal aim of the Green Book is to provide Parliament and other stakeholders with the clearest possible statement of the services which are to be delivered and the investments to be undertaken through the application of the funds appropriated by Parliament, and, equally important, the results which are expected to be achieved in terms of the achievement of goals of public sector activity and the benefits expected to accrue to different population groups from the activities of the federal Government. The publication of the Green Book marks a major step forward in enhancing the transparency of the federal budget

The Green Book represents the initial results of the adoption of the MTBF in its first year of application. Attention is drawn to the following major innovations which are included in this Green Book:

- The Green Book uses the **3-year framework for budgetary planning** which lies at the heart of the MTBF reforms. Under this process ministries make their plans and prepare budgetary estimates for a rolling 3-year budgetary horizon. This includes the base year (in this case 2010/11, which forms the basis for the appropriation of the annual budget for 2010/11 by Parliament, and two additional or “outer” years (in this case 2011/12 and 2012/13) which represent projections of budget estimates for planning purposes. The outer year estimates are not appropriated, since they are only for planning purposes;
- The centerpiece of the Green Book is the **breakdown of each ministry or division’s budget by “Outputs”**. Outputs represent major lines of service delivery of each ministry. In the preparation of the MTBF budgets each ministry has been requested to identify its main lines of service delivery and the costs associated with the delivery of each main line of service, down to the level of the individual spending unit. The presentation of the federal budget accordingly provides the

best estimate possible of what services each ministry of the federal Government is expecting to deliver in the coming one and three-year period, and the cost to public funds of each line of service delivery. The breakdown of the budget by outputs will facilitate the strategic allocation of scarce public resources to meet the highest priority areas of service delivery. It will also make it easier for Parliament and other stakeholders to assess whether the public is achieving **value for money** through the federal budget.

- Attention is drawn to the fact that, while for accounting purposes, the government budget is divided between the recurrent budget and the development budget, the delivery of outputs or main lines of service usually requires a combination of allocations through the recurrent budget (to meet the current operations costs of service delivery) and allocations through the development budget to meet expenses of a capital nature which can provide for expansion of access to services or to improvement of the future quality of services delivered. Each output is conceived as a stream of services over time requiring both current and development spending. The adoption of this framework for budgetary planning is expected to lead to a closer harmonization in ministry spending plans of the requirements for recurrent and capital spending, both of which are critical for service delivery and development in a wider sense.
- Besides identifying the lines of service delivery of each ministry, the Green Book also provides information on the **indicators** which should be used for measuring the quantity and quality of services (outputs) to be delivered. The Green Book also provides, for almost all areas of service delivery, specific **targets** for the levels of services which the ministries and divisions are expecting to achieve. Wherever possible, the targets have been set in quantitative terms. The targets are set in terms of the units of the indicators. An important purpose for adopting the system of budgetary preparation based on outputs/services, is to provide a basis, defined at the time of budget preparation, for monitoring, during budget execution, of the extent to which the results expected from public spending are, in fact, being achieved.
- In addition to defining the services (outputs) to be delivered, the Green Book also identifies the **outcomes** which are expected to be achieved through public spending. Outcomes are related to, but distinct from the outputs or services actually delivered. Outcomes refer to the effects of service delivery on the target population of each line of service delivery. Outcomes are often more difficult to measure than outputs and are typically actually measured less frequently, often using different sources of information, such as the regular censuses and surveys undertaken by the Federal Bureau of Statistics. The specification of the expected effects of public spending in terms of outcomes for the population will also support the assessment of the effectiveness and efficiency of public spending.

This is the first year of preparation of MTBF estimates by federal ministries and the procedures of implementation of output-based budgeting will need to be further strengthened in the coming budget cycles.

Composition of this document

This document presents medium-term (2010-13) budget estimates for service delivery of Federal Government by each Ministry separately. The budget 2010-11 is appropriated by the Parliament while the budget estimates for outer-years (2011-13) are provided for planning purposes. The budget estimates for outer-years are a result of a technical exercise completed by the Finance and Planning Divisions to provide predictability of resources on the recurrent and development budgets. The Cabinet at its meeting on 10th February 2010 approved the issuance of Indicative Budget Ceilings 2010-13 to all Federal Ministries for both recurrent and development budgets.

For each Ministry the following information is presented:

1. Executive Authority:

A name of an organisation/entity (e.g. Ministry / Division etc.) is provided. Each executive authority is headed by a Principal Accounting Officer.

2. Principal Accounting Officer(s):

The designation and the name of the entity (e.g. Ministry / Division etc.) are provided. Where there are more than one Principal Accounting Officers (PAOs) in a Ministry, designations and related organisations are provided separately.

3. Goals(s):

Prime Minister's Secretariat

Strategic Overview

MAJOR CHALLENGES

The gap between the originally allocated budget and expenditure even for the Employee Related Expenses was bridged through supplementary grant which put the higher authorities in an embarrassing position before forum like National Assembly at the time of seeking authorization on the supplementary grant approved for this secretariat. The allocation for the year 2009-10 is almost equal to the expenditure for the period of 2008-09. It is obvious that the same would be insufficient to cope with the situation till June 2010, when the Government had announced Adhoc relief allowance. This secretariat has also meet the expenditure on payment of secretariat allowance besides affect of price hike in different necessary items required to run the august organization like the Prime Minister's Secretariat.

Prime Minister's Inspection Commission

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-2009

- (b) Monitoring & Inspection of PWP and KPP.
- (c) Processed 20,000 complaints/petitions addressed to the Prime Minister by different complainants for redressal of their grievances.
- (d) Additional task of President's Secretariat with respect to complaints/petitions addressed to the President by general public for redressal of grievances of the complainants/ petitioners.
- (e) Inquiry into affairs of Evacue Trust Property Board.

MAJOR CHALLENGES

The PMIC faced the following main challenges during the period under review :-

- (a) Acute shortage of manpower as almost 50% posts of the Officers/Officials remained vacant upto 31-12-2008 and the shortage could be made good in the month of May/June,2009.
- (b) Lack of office accommodation for provision to the Officers/Officials.
- (c) Non-availability of required quantity of Physical Assets i.e. Machinery & Equipments, Furniture & Fixture and I.T.Items due to imposition of ban on purchase of Physical Assets.
- (d) Insufficient provision of funds under various head of accounts particularly under Establishment Charges.
- (e) Financial constraints and difficulties in hiring of technical experts/consultants.
- (f) Availability of less funds for operating expense for processing of complaints/petitions.
- (g) No funds available for sample testing of development projects especially for quality assurance.
- (h) Non availability of reliable field vehicles for spot inspection.

Despite the above mentioned constraints/difficulties, the Commission completed the assigned tasks dedicatedly and devotedly.

The following main challenges are being faced since July, 2009:-

- (a) Lack of office accommodation for provision to the Officers/Officials.
- (b) Non-availability of required quantity of Physical Assets i.e. Machinery & Equipments, Furniture & Fixture and I.T.Items due to insufficient funds as ceiling was fixed on the basis of expenditure for the year 2008-09.
- (c) Insufficient provision of funds under various head of accounts particularly under Establishment Charges.
- (d) Financial constraints and difficulties in hiring of technical experts/consultants.
- (e) Availability of less funds for operating expense for processing for complaints.
- (f) No funds available for sample testing of development projects especially for quality assurance.
- (g) Non availability of reliable field vehicles for spot inspection.

The Budget for the year 2009-10 was allocated on the basis of 50% strength. Due to said shortages as well as fixation of insufficient ceiling of budget of Rs.21.007 million, the Commission is facing great financial hardships as funds under various head of accounts have almost exhausted. Thus, the Commission had to initiate a case for Supplementary Grant of Rs.14 million under different head of accounts to meet the requirements of the Commission upto 30-06-2010. In view of above, it is requested that ceiling for the financial year 2010-11 may please be enhanced to the extent of Rs.40 million (i.e. Budget sanctioned for 2009-10 Rs.21.007 million (+) Supplementary Grant Rs.14 million for PMIC (+) Rs.5 million for Grievance Wing) to avoid initiation of cases for supplementary grant/re-appropriation of funds to meet the expenditure for the year 2010-11.

FUTURE POLICY PRIORITIES

The following are the policy priorities of the Commission:-

- (a) Redressal of public grievances.
- (b) Efficient and corruption free working in the Federal Government Organizations.

National Accountability Bureau

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

The National Accountability Bureau is Pakistan's apex anti-corruption organization. It is charged with the responsibility of elimination of corruption through a holistic approach of awareness, prevention and enforcement. It operates under the National Accountability Ordinance-1999, with its headquarter at Islamabad. It has four regional offices in the provincial capitals and one at Rawalpindi. It takes cognizance of all offences falling within the National Accountability Ordinance (NAO).

For the initial three years, the focus of its functions was directed only at detection, investigation and prosecution of white-collar crime. Those prosecuted include politicians, public service officials and other citizens who were either guilty of gross abuse of powers, or through corruption had deprived the national exchequer of millions or resorted to other corrupt practices. In February 2002, NAB launched the National Anticorruption Strategy (NACS) project. The NACS team conducted broad based surveys, studied external models of international anti-corruption agencies and involved local stakeholder. All pillars of National Integrity System were studied in detail. After identifying the causes of corruption in each pillar, a comprehensive strategy and a detail action plan was recommended. Breaking away from traditional enforcement based routines NACS has recommended a comprehensive process. Relevant amendments have been made in NAO and now NAB is empowered to undertake prevention and awareness in addition to its enforcement functions.

NAB is performing following operations:

- 1 Prosecution
- 2 Investigations
- 3 Inquiries
- 4 Recoveries

Number of inquiry cases processed / monitored, 752 cases processed out of which 148 cases completed.

Number of investigation cases processed / monitored, 469 cases processed out of which 118 cases completed.

Number of prosecution references to be processed / monitored, 870 cases processed and out of which 269 cases completed.

National Reconstruction Bureau

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

The focus of activities of the NRB was on the following:

- Improving conditions in Jails of Pakistan
- Domestic and Foreign Employment of Nurses
- Review of procedures of Equivalence of O & A Level Certificate in Pakistan
- Development of proposals/working paper to President/PM for change in Local Government System and Policing System in the country in collaboration with Commonwealth Local Government Fund
- Development of proposals for Friends of Democratic Pakistan initiative institutional Building Cluster
- Work on development of the National Reconstruction Information Management System
- Training of selected officer to handle/operate NARMIS

MAJOR CHALLENGES

The main constraint was the withdrawal of DFID from making the funds available for good governance group of the NRB. Non-availability of funds resulted in curtailment of the planned activities.

FUTURE POLICY PRIORITIES

Policy shift by a number of donors have adversely affected the on going process of decentralization reforms in the country.

In view of return of democracy after 18th February, 2008 as well as the exclusion of the Local Government Ordinances, 2001 and the Police Order 2002 from the Sixth Schedule of the Constitution, a new policy is being worked out.

Pakistan Atomic Energy Commission

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

Pakistan Atomic Energy Commission has delivered following significant output/services in specific areas during the year 2008-09:

i. Research; Training and Capacity Building

The output in the area of research training and capacity building mainly comes from PAEC's two Institutes i.e. PINSTECH & PIEAS. PINSTECH is the premier Institute of the country engaged in R & D activities in diversified Hi-Tech fields with the objectives of developing indigenous expertise to support the programme of peaceful applications of Nuclear Energy. During 2008-09, production of I-131 radioisotopes and vials of 10 different radiopharmaceutical cold kits, 99Mo/99mTc Generators were produced and supplied to various hospitals. Besides, more than 250 laser Land Leveling Systems were manufactured and delivered to the farmers throughout the country. PIEAS offered PhD MS/ M Phil and BS degrees in diverse areas of medical, Physical and engineering science. During 2008-09, 200 engineers/doctors have obtained MS degrees.

ii. Food & Agriculture Development

PAEC continued its efforts to develop new varieties for enhancing productivity. PAEC Agriculture Centres developed two varieties of wheat (NIA-Amber and NIA-Sonehri), three varieties of cotton (NIA-Ufaq, NIAB 777, NIAB 846) and one variety of Chickpea NIAB/CIM - 228 (Kabuli). These new varieties will contribute in enhancing productivity and service to the farming communities. Under Biotech/Genetically Modified (GM) crops, NIBGE, Faisalabad got NBC/EPA clearance of Bio safety for release of two cotton varieties (IR-NIBGE-1524 & IR-NIBGE 3701). These two Bt cotton varieties are under evaluation in the NCVT of Biotech Cotton system and seed will be released to the farmers after formal approval of PSC/PCCC.

iii. Public Health Services & Development

Currently, 13 Nuclear Medicine and Oncology (NM&O) Hospitals are functioning throughout the country, and 6 additional hospitals are under construction at Swat, Bannu, DI Khan, Nawabshah, Gujranwala and Gilgit. These hospitals are equipped with latest diagnostic and therapeutic facilities and are catering health services in nuclear medicine and allied diagnostic to a large number of patients across the country. Major services offered at these hospitals include Diagnostic and Therapeutic Nuclear Medicine, Radioimmunoassay, Radiotherapy, Chemotherapy, Indoor Cancer Treatment, Radiotherapy, Histopathology, Hematology and Molecular based Diagnostics. During the year 2008-09, a total of 496,578 patients were attended at NM&O Hospitals including 211,721 in Nuclear Medicine Department and 201,883 in Radiotherapy Departments. Thus there was an increase of 8 % patients as compared to the previous year. Many senior doctors and scientists of PAEC hospitals, in collaboration with post-graduate institutes and the College of Physicians and Surgeons were also engaged in teaching of students enrolled for MBBS, M. Phil, DMRD, DMRT, MCPS and FCPS degrees.

iv. Nuclear Power Programme

During 2008-09, PAEC continued to operate two nuclear power plants: Karachi Nuclear Power Plant (K-1) of 137 MWe (gross) capacity and Chashma Nuclear Power unit-1 (C-1) of 325 MWe (gross) capacity. During this period, K-1 operated at 90 MWe due to regulatory limit and generated 475.4 million kWh of electricity with capacity factor of 39.6%. C-1 generated 1142 million kWh of electricity with capacity factor of 40.1%. The low capacity factor of C-1 was due to fifth Refueling Outage (from August 3, 2008 to January 23, 2009) and maintenance jobs during March 19, 2009 - April 18, 2009. The fifth refueling was successfully made with incessant and indigenous efforts of plant personnel. Though, C-1 remained on maintenance for one month, the plant's net capacity factor and availability factor for Cycle-6 (starting from January 23, 2009) are 87.0% and 89.8%, respectively. Construction of a third plant, Chashma Nuclear Power Plant unit-2 (C-2) is in progress as per schedule. The commercial operation of C-2 is expected in 2011. Uranium exploration, field development and mining activities continued during the last financial year 2008-09. Pakistan attaches high priority to indigenization of activities related to nuclear power operation and construction. PAEC prepared a Master Plan for sustainable development of nuclear power in the year 2008-2009.

MAJOR CHALLENGES

i. Current Expenditure

PAEC submitted Budget Estimates amounting to Rs.4,019 M for 2008-09 to Government on the basis of minimum requirement of all PAEC Centres/Institutes. However, an allocation of only Rs.3,325 M (Rs.3,135 M + Rs.190 M as Supplementary Grant) was approved for the year. Due to less allocation, Research & Development activities suffered badly at PAEC Centres/Institutes and the pace of providing services to patients at Nuclear Medical Centres remained somewhat restricted.

ii. Development Expenditure

PAEC had submitted Budget Estimates amounting to Rs.42,965 M including Foreign Aid of Rs.9,077 M for 2008-09 to Planning Division against which Rs.15,330 M including Foreign Aid of Rs.2,989 M were allocated for different projects essentially the nuclear power plants. However, against the allocated amount, only Rs.13,384 M including Foreign Aid of Rs.3,900 M were

released during 2008-09. Due to less allocation / release, the pace of construction and other activities of Development projects remained slow. It is foreseen that there will be delay in completion of development projects due to less and delayed releases.

iii. Health Sector

Deficit in regular annual budget is the main challenge faced. Current budget fulfills establishment / operational expenditure only while there is an inescapable requirement of extra funds for repair & maintenance of essential equipment. Funds are not provided for medicines and emergent requirements. Another problem being faced is that the experts with FCPS/higher qualification demand high salaries while financial constraints do not allow to do so. Problem is being faced in appointment of such doctors particularly in the remote areas.

iv. Nuclear Power

Some projects related to nuclear power were delayed due to non-availability/deferment of budgeted fund and prevailing law and order situation. Pre-project activities for second nuclear power plant at Karachi and creation of an entity to manufacture fuel for nuclear power plants also got affected due to non-availability of funds. Exploration and drilling activities for Uranium were affected due to delay and shortage of funds besides the law and order situation.

FUTURE POLICY PRIORITIES

i. Agriculture/Bio-technology

PAEC's three Agriculture Centres (NIAB, Faisalabad, NIFA Peshawar and NIBGE Faisalabad have been re-strengthened through PSDP (2004-8). It is now required to re-strengthen (PC-1 submitted) the oldest Institute-NIA, Tandojam. PAEC continued its efforts to adopt new technologies like genetics engineering, molecular breeding, hybrid seed development in vegetable, vaccine production and nano-biotechnology in its four Agri/Biotech Centres. During this financial year STI conducted 105 courses and around 3000 participants have been trained. In 2009-10 an amount of Rs.41.532 million was allocated to the STI. Total number of course to be delivered was 118 with an increase of 12% over the previous year. The STI has planned to train approximately 3500 officers/officials in this year. We successfully conducted a Seminar on Human Rights Awareness & Education Program which was attended by the intellectuals and senior bureaucrats and government functionaries. This seminar was highly appreciated by the concerned quarters.

3) National School of Public Policy (NSPP):

The NSPP is primarily responsible for training of the public sector officers from BS-17 and above. Presently it is running four training courses on regular basis, these are the Common Training programme, mid-career training course, senior management course and the National Management Course.

In Four Training Courses Conducted by different institution such as (Civil Services Academy, Lahore, National Institutes of Management (All Provincial Headquarters), Senior and National Management Wing, Total no beneficiaries were 616 and 861 in 2008-09 and 2009-10

Development Fund:

The approval of setting up of an Endowment Fund under section 13 of the NSPP Ordinance has already been obtained from the Executive Committee of the Board of Governors. The amount sanctioned for this is Rs.2 Billion which is to be provided in three installments.

4) Federal Public Service Commission (FPSC):

The total budget during the fiscal year, 2008-09 was Rs.194.890 million which was duly released by the Finance Division. The released funds were spent in accordance with the planned strategy and following goals have been achieved:-

Total Number of 16 examination/tests conducted in (General Recruitment BS. 16-21, Competitive Examination, 2008, FPO Examination) and Total number of applicant appeared were 67118 and total number of recommended candidates were 1294

The Commission delivered its services satisfactorily during the year within allocated budget through re-appropriations. 2009-10 (UP TO DECEMBER 2009)

The main function of the Commission is to carry out competition and merit based recruitment/selection against BS-17 posts through competitive examination and against technical/professional posts in BS-16 & above/equivalent through General Recruitment process.

5) Staff Welfare Organization (SWO):

There is no organizational issue anticipated in the year 2010-11, however budget provision is too less as per requirement to achieve the goals by serving more number of beneficiaries (F.G. Employees). It is, therefore, suggested that budget allocation may be increased considerably.

6) Management Services Wing (M. S. Wing):

M. S. Wing carried out 90 consultancies assignments on various management issues. Management M. S. Wing also organize four training courses on various management related areas, about 90 officers from various Government organizations benefited from these courses.

MAJOR CHALLENGES

One of the main challenges faced by M.S. Wing in the delivery of services is the shortage of staff. All DG units are entitled to a specific number of officers, MS Wing faces a dearth of officers and as such the units do not have sufficient number of officers or staff. This has often led to delay in timely completion of assignments.

Since the nature of job of consultants requires frequent visits / interaction with clients and their organizations, transport plays a major role in facilitating movement of the officers from one place to another. Due to lack of sufficient vehicles, visits to client/organizations is kept to a minimum and at times avoided. Now with the purchase of official vehicles for each DG, it is anticipated that this issue will be resolved.

Office equipment such as PCs is 10-12 years old and requires frequent maintenance and repairs. There should be at least new model Pentium 4 computers provided to the desk officers for efficient and timely output of work.

The amount of funds for TA/DA of officers also needs to be revised keeping in view nature of consultancy/job which require firsthand knowledge of the problems for which officers are required to visit the premises of the organizations being studied/reported upon, which are sometimes located in other cities. Management Services Wing wants to extend the project Job Analysis Exercise.

1) Pakistan Administrative Research Centre:

An amount of Rs.42.602 million was demanded for Financial Year 2008-09 but an amount of Rs.26.957 million was allocated. During the period Esta Code was compiled, edited and printed. 3000 copies of Esta Code were got published, out of these books approximately 17 hundred books have been sold. Annual Statistical Bulletins of Federal Governments Employees 2008-2009 and Annual Statistical Bulletin of Employees of Autonomous/Semi Autonomous Bodies/Corporation under Federal Govt. 2008-09 were also published. In 2009-10 an amount of Rs.34.667 million was allocated to PPARC. During the current fiscal year , Esta Code 2010 and a manual of TA rules have been completed and ready for printing, whereas preparation of Annual Statistical Bulletin of federal government employee,2009-10 is in progress and likely to be published in the month of March or April 2010. The Statistical work of Government Employees of Federal government Ministries/Division and /Autonomous Bodies has been highly appreciated at many occasions by the government.

2) Federal Benevolent & Group Insurance Fund:

FEB&GIF provided some assured, burial charges, Marriage grant and educational stipends to the families of Federal Government Employees. Total numbers of beneficiaries were 6133 and amount paid to those beneficiaries was Rs.273.751 million.

The main challenges faced by the organization delivering of services/out puts during 2008-09. FEB&GIF obtained complete data in r/o Federal Government Employees from all the offices functioning throughout the country. This office faced challenges and risks as the data in r/o Federal Government Employees was not received in time leading to non achievement of desirable level of services. So far as the budgeted fund is concerned, it is calculated on actual basis and by the end of third quarter FEB&GIF faced shortage of funds as supplementary grant was not provided by the Finance Division, as per earlier practice. For instance Rs.273.75 million for BE 2008-09 were allocated, revised estimates up to Rs.66.077 for the said FY were also claimed by FEB&GIF due to revision of pay scales and annual increments which could not be either allocated or released by Finance Division. Secondly, if all Federal Government Offices had provided complete data of employees well in time, the question for claiming supplementary grant might not have arisen .

3) Pakistan Academy For Rural Development, Peshawar

In 2008-09, PARD planned 41 training courses in which 1025 trainees had to be trained. A total number of 38 courses were conducted during the period wherein 1047 participants were trained. However, Nine additional courses were conducted and request of other departments.

The prevailing law and order situation in the country remained a major challenge for the training programs of the PARD as the participation in different courses went down from all over the country particularly from Punjab, Sindh and Baluchistan. Budget for the year 2008-09 was disbursed on time and expenditure made in line with planned targets & goals were achieved. The latest/state of the art equipments related to trainings is being ensured to all the classrooms. Capacity building of all the Instructors, Research Associates and officers of PARD is also required to cater to the needs of the trainees of various line departments.

FUTURE POLICY PRIORITIES

- 1) To bring further improvements in training, specially achieving the planned per year training of about 1300 officers.
- 2) Launching the Degree Awarding Programme
- 3) To make the Executive Development Institute

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

Pakistan Transport Plan Study, undertaken with the technical grant assistance of Japan international cooperation agency, to formulate 20 years transport master plan up to 2025 for improvement of all modes of transport. Urban bus train developed indigenously as a low cost mass transit facility was provided to Islamabad traffic police on loan basis for creation of awareness about traffic rule and also to provide cheap commuter journey to the residents of Islamabad and Rawalpindi. A culture of imparting education regarding road safety and traffic rules awareness was introduced under which a comprehensive and well rehearsed road safety campaign was launched before checking traffic violations and imposing penalties. Both print and electronic media were used to educate the general public and to reach the common man living alongside the roads in small villages and towns through specially established mobile education units. This resulted into a tremendous success that the maximum number of road users, particularly public service vehicle drivers, responded and started behaving in a disciplined manner. Due to effective enforcement, there is a constant check on violations. Resultantly, due to traffic discipline and awareness about traffic rules, the national highway and motorway police has been able to reduce the accident rate by 70%. In order to provide quick response national highway and motorway police has established its helpline 130. Initially people could not get connected easily. The service was not available from all mobile networks and at some places area codes had to be dialed. After a series of meetings with Pakistan telecommunication limited, National telecommunication limited, Mobile Companies, etc. now help line 130 can be dialed from any network. The road users can now contact national highway and motorway police through any telephone service for help. On N-5 and Motorways except for informatory signboards there was no other mode available for the commuters and road users to seek guidance. Realizing the public inconvenience, national highway and motorway police has established guidance centers at following locations Harro toll plaza, Tarraki toll plaza, Lohianwala chowk, Shahpur interchange, Sukheki service area. At Construction technology training institute the output of graduating students has steadily increased over the years. The induction of various courses along with 2nd shift has brought a tremendous surge in output of trainees to a figure of 2211 in 2008-09. National highway authority network extended to 11,856 Km comprising of 33 national highways, motorways, express ways and strategic roads. N-105, N-110, N-120 were federalized during FY2008-09. Federalization of 12 provincial roads for transfer of their control to National highway authority was recommended by the National Highway Council for approval of the Cabinet. Despite immense gap in maintenance need and resources, national highway authority has achieved significant success in gradually increasing maintenance quality through periodic overlays, provision of rigid pavements, replacement and rehabilitation of dilapidated bridges and provision of services such as weigh-stations, lighting, overhead bridges, flyovers, service roads, bus bays, footpaths and other urban area development.

MAJOR CHALLENGES

Emergency Call booths especially on M-1 are not yet operational due to which in time help cannot be rendered to stranded vehicles. Acquisition of land for the construction of beat offices. Low funds and sanctioned strength at National highway and motorway police to cater with current security situation. The maintenance need and costs are increasing vis-à-vis available resources creating substantial backlog. Because of huge gap in operation & maintenance needs vs. resources, every year road network condition is deteriorating and maintenance backlog enhanced.

FUTURE POLICY PRIORITIES

Feasibility studies will be conducted on the traffic management and metro services related studies for a comprehensive and integrated Transport sector plan for the 10th Five year people's plan (2010-15). New training institutes will be set-up and the existing training institutes will be modernized. In order to further improve the response time to 130 calls a proposal for designing dedicated software is under consideration which would help in locating the exact position of the caller. Launching of Motorway advisory radio system under the Public-private partnership concept. Opening of more beat offices of west zone, in this regard two beats of west zone Ulthal and Winder are going to be operational with soft patrolling. National highway and motorway police enforcement on the federal roads (N-10, N-25, N-75, N-35, N-40, N-50, N-55, N-65, N-70) in a phased program. National trade corridor improvement program, for capacity up gradation, network extension and modernization of 4,250 km of national highways, expressways and motorways. To develop Pakistan as a hub of sub-regional connectivity through consolidation & up gradation of existing assets, linkage with Gwadar, high Speed North-South corridor & up gradation of existing highways.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

Ministry of Culture has the primary responsibility to preserve tangible / intangible cultural heritage, movable / immovable antiquities, promotion of arts, folk life, research, systematic collection / documentation, scientific preservation / projection and discrimination of oral tradition and other aspect of indigenous cultural heritage, roots of Pakistani cultural through re-discovery and re-interpretation to enable to project the true identity of Pakistan. Ministry of Culture have achieved these targets / goals through Department of Archaeology and Museums, Central Board of Film Censor, Pakistan National Council of the Arts, National Institute of Folk and Traditional Heritage and National Institute of Performing Arts.

MAJOR CHALLENGES

The government had allocated Rs.421.265 million in the year 2008-09 for recurring budget to this ministry which include line departments / organizations against ministry of culture demand of Rs.1,230.015 million. Due to less budgetary allocation it was very difficult to achieve the desired targets within the limited budgetary allocations.

Ministry of culture is facing same challenges of less budgetary allocation in the financial year 2009-10 as well. In the first 6 months in the current financial year the line departments / organizations have approached ministry of culture for additional allocation of Rs. 97.463 million during current financial year 2009-10 to meet shortfall under certain heads of account. Supplementary Grant of Rs.21.5 millions has ultimately been sanctioned to meet the shortfall of Pays and Allowances of line departments / organizations.

FUTURE POLICY PRIORITIES

In the medium term (2010-13) outlook of the ministry we will continue to place increased focus on providing the existing services successfully. However to encourage more cultural activities in the field of cultural heritage in the country and abroad, ministry of culture needs sufficient funds. In the past due to lack of emphasis on cultural cooperation and cultural exchange, programmes, with friendly countries, Pakistan has suffered heavily on cultural front particularly regarding its image as a civil society.

MAJOR CHALLENGES

- a. Maritime Security Agency (MSA) undertook its assigned responsibilities despite limited number of ships, aircrafts & coastal stations assets. In view of the vast area of 240,000/00 sq Kms being surveilled by MSA, the available assets are not only considered inadequate to carry out assigned tasks in rough weather due to operational limitation of corvettes.
- b. The agency could under took limited Search & Rescue operators in the rough seas of monsoon season due to lack of Search and Rescue helicopters.
- c. Financial constraints in public exchequer continue to limit capacity building programme of the Maritime Security Agency till to date including the period under review.
- d. The depreciation (23%) on exchange rate based on rupee based budget contributed negatively during the FY 2008-09.
- e. Budget constraints for organizing and participation in international seminars, conferences makes difficult for SOP to be aware of modern technology global trends in surveying and mapping.
- f. Airport Security Force (ASF) remained pitched against severe security challenges in the wake of increasing incidents of suicidal attacks, Target killings and impact of contemporary terrorism in Civil Aviation being highly vulnerable and lucrative targets for miscreants is obvious. Therefore, potential attempts for hijacking of Aircrafts, suicidal attacks, target killing and explosive laden vehicle attacks were the main challenges against delivering stream of output during 2008-09.

FUTURE POLICY PRIORITIES

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

Self-reliance in the field of Defence Production is the core mission of Ministry of Defence Production (MoDP). We have satisfactorily progressed towards this end, however, relentless efforts for an integrated approach by combining vital elements of public-private industries participation, technology advancements, IT exploitation and expertise optimization will further enhance our Defence Industries capabilities besides optimizing/supporting our armed forces coupled with boosting the export of defence products and thereby earning precious foreign exchange.

In order to enhance the foreign collaboration in the field of defence production with friendly countries a number of delegations incoming/outgoing were invited. MoDP maintained its distinction in providing administrative support to its Establishments with regard to completion of documentation etc.

MAJOR CHALLENGES

A gigantic organization namely Karachi Shipyard and Engineering Works (KS&EW) has been transferred from Ministry of Defence to MoDP, but no additional posts were allowed to be created to look-after the affairs of KS&EW.

FUTURE POLICY PRIORITIES

The Prime Minister has been pleased to declare Ministry of Defence Production as the focal Ministry with regard to Shipbuilding Industry. MoDP has to provide logistic support to the Executive Committee for Development of Shipbuilding Industry in Pakistan for provision of Ship-lift, Repair, Docking facilities to surface ships and to enhance local ship building industry.

Strategic Overview

MAJOR ACHIEVEMENTS DURING 2008-09

Under Rules of Business, EAD has the prime responsibility of mobilizing foreign funding for the development of the economy, within the legal and policy framework, in an efficient and effective manner. Major achievements during 2008-09 are as follows:

- A) During 2008-09, EAD negotiated successfully with its Development Partners and was able to garner 6,388 million \$ commitments and 4,688 million \$ disbursements of Foreign economic assistance to finance development projects / programmes.
- B) Debt Servicing of foreign loans amounted to \$3,439 million, comprising \$3,366 million central loans and \$73 million guaranteed loans. Re-payment of principal was \$2,566 million and interest payment was \$ 873 million.
- C) The tri-partite umbrella Agreement of Debt-II Health Swap VI worth Euro 40 million was signed between GoP, KfW-Germany and The Global Fund in Doha.
- D) Recovery of Foreign Re-lent Loans amounting to Rs.22,616 million, comprising Rs.15,151 million principal and Rs.7,465 million interest [inclusive of Exchange Risk Fee] was made from Provincial Governments, Autonomous bodies, Corporations, and DFIs.
- E) Guarantee Fee, amounting to Rs.36 million was also recovered.
- F) Following JMCs/meetings were held during the year:

Pak-Indonesia JMC, Pak-Morocco JMC, Pak-Oman JEC, Pak-Afghan JEC, Pak-Uzbekistan JMC, Pak-Swiss Annual Bilateral Development Consultations, Pak-EU Joint Commission, Pak-German Bilateral Negotiations, Pak-Norway Annual Bilateral Development Consultations, Pak- Iran JEC, Pak Turkey JMC, Pak -Tajikistan JMC.

- a) Foreign Aid of \$ 5.2 billion was committed during Tokyo Conference by Friends of Pakistan to be disbursed during 03 year period.
- b) Regional Economic Cooperation on Afghanistan (RECCA) was attended by 270 foreign participants from 25 countries and 13 Regional and International organizations. Different initiatives to launch some major projects were taken after the conference.
- c) An amount of \$ 350 million has been pledged for Neelum Jehlum Hydro Power Project.
- d) Under Pakistan Technical Assistant Programme (PTAP), 49 foreign Nationals have been trained.

MAJOR CHALLENGES

- A) Slow pace of utilization of funds at Federal and Provincial levels.
- B) Non- reporting of disbursement data by spending units, resulting in slow disbursements.
- C) Time consumed in processing of project proposals, vetting of loan agreements resulting in delays in securing finances from donors.
- D) Switch over from manual record keeping to electronic system to address the issue of reconciliation and timely information on disbursements.
- E) Absence of professional outfit in Debt Management Wing.
- F) Non/Inadequate provision of counterpart funds.

FUTURE POLICY PRIORITIES

- A) To help finance Development Projects and overcome Balance of Payment (BOP) difficulties, EAD has been mandated to negotiate with multilateral and bilateral Development Partners, and ensure disbursement of \$19 billion, comprising \$14 billion loans and \$5 billion grants during the next three years. Our strategy has been to secure foreign loans at concessional terms i.e. low interest rate coupled with longer maturity periods.
- B) EAD will continue to negotiate with and persuade the 'Friends of Democratic Pakistan' (FODP) for honoring pledges made by them at the Tokyo Conference and get the maximum disbursement as BOP support through Government channels rather than spending through NGOs and contractors.
- C) Debt-servicing to the extent of \$10 billion, comprising \$7 billion principal repayment and \$3 billion interest payments will be made during the next three years.
- D) Bilateral economic issues in the areas relating to trade, investment, energy, agriculture, science and technology, education, health, culture and tourism are negotiated and discussed on the platform of Joint Ministerial Commission (JMCs)/Joint Economic Commission (JECs).
- E) During the next three years 51 JMCs/JECs meetings are planned.
- F) Annual bilateral consultations with Paris Club countries are planned.
- G) Under its Technical Assistance Program, Government of Pakistan offers long-term degree program and short term training program to more than 100 countries of the world.
- H) During next three years 1146 foreign students are planned to be trained under long term degree programme.
- I) During next three years 215 foreign nationals are planned to be trained under fully funded short term training programme.
- J) About 300 trainings / scholarships are expected to be availed by Pakistan from South East Asian countries and Colombo Plan for capacity building of the Government employees.
- K) Timely reconciliation of debt-servicing/disbursement data with AGPR will be ensured for efficient and effective debt management. For correct, updated, efficient and coordinated debt management, it is planned that:
 - a) Debt Management & Financial Analysis System (DMFAS) Version 5.3 will be replaced and upgraded with DMFAS version 6.0, which is web-based and more efficient;

- b) Interfacing of DMFAS will be provided to Finance Division, State Bank of Pakistan and Accountant General Pakistan Revenues;
- c) Manual system of foreign aid data will be completely replaced with fully automated electronic data base.

Higher Education Commission

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

(1) Enhancing equitable access to higher education facilities in Pakistan:

The Higher Education Commission has significantly enhanced access to higher education of the 17-23 age group from 2.6% in 2002 to 5.1% in 2009. To enhance equitable access to students in disadvantaged regions of the country, HEC has set up campuses as well as universities in these regions. Presently, 4 women universities are operational in Quetta, Peshawar, Rawalpindi and Lahore and are being supported by HEC to expand their activities and enhance female enrolment in higher education. 4 more women universities are being established in Multan, Sukkur, AJK, and Faisalabad. As investment required to build new facilities is high - especially under the current fiscal crunch - more reliance is given to cost-effective distance learning approaches (AIU and Virtual University). These approaches also allow more flexible study options, and are used as an instrument to broaden access to a whole range of users, including students who have interrupted their studies for financial reasons, and adults. To enhance the enrollment in distance learning universities, 5 development projects were included in the PSDP 2009-10. Virtual University has established 13 sub campuses in various parts of the country, mostly in remote and far flung areas such as Badin and Sanghar in interior Sindh. The enrollment of VU & AIU has increased from 89,749 in 2002 to 339,704 in 2009 showing significant increasing trend. The HEC also developed and launched a Need Based Scholarship scheme that created an efficient transparent mechanism for assessing financial need of student and awarding scholarship to meritorious needy students. More than 3000 students have been helped through these schemes in the past 4 years.

(2) Enhancing Quality of Teaching and its alignment with National Needs:

Access to quality higher education that is relevant to the needs and requirements of the economy is a key determinant of the state of readiness of a nation to join the echelons of knowledge economies. It was recognized early that the required stock of PhD faculty - was not only modest but irrelevant for development of a knowledge economy. In a period of 55 years (1947 - 2002) HEIs in Pakistan produced only 3,279 PhDs of which almost (50%) were in Arts, Humanities, and Social Sciences subject. Pakistan was highly deficient in required skill to even run the existing structure of the economy (agriculture & livestock, manufacturing, and services sectors). In a period of 55 years locally produced PhDs in the field of Agriculture & Veterinary Sciences were only 11% (348), Engineering & Technology 0.4% (only 21), Business Education 0.3% (14 only) etc. Despite being an agriculture economy, 68% countries of the world are producing more value added per agriculture worker and Pakistan continues to import essential inputs for agriculture such as seeds and fertilizers. Addressing this national need, the Commission reinforced its Foreign and Indigenous PhD Scholarship Programs for qualified students and faculty of public and private HEIs in the key priority areas. So far, total 7,552 scholarships (4,373 scholarships under Indigenous Programs and 3,179 under Overseas Program) have been awarded. 830 scholars under Overseas Programs have completed their respective study programs and returned back. 370 scholars under Indigenous Programs have completed their studies. As a result of HEC's initiatives, locally produced PhDs over the past 7 years have shifted the focus to areas relevant to Pakistan as overall share of PhDs awarded in agriculture, sciences and engineering rising to 63% of all PhDs - with 15% (450) in agriculture & veterinary sciences, 4% in engineering & technology, 2% in business education. Numerous initiatives were taken to ensure quality in all aspects of higher education. These involved the setting up of Quality Assurance Agency to oversee the work of Accreditation Councils for program accreditation; setting up of standardized framework for an integrated and interdisciplinary curriculum in all subjects that addressed inherent weaknesses of the incoming students while also addressing industry concerns about the graduates, setting of standards for faculty recruitment, etc.

(3) Quality of Research:

HEC aims to develop and sustain a dynamic and internationally competitive research sector in Pakistan that makes a major contribution to economic prosperity, national wellbeing and the expansion and dissemination of knowledge. After the first phase of capacity building for conducting research, in the next step HEC will undertake significant work and extensive consultation with all the stake holders to improve research funding mechanism which align the Research with the national priorities. It is also important to align scientific prowess with national development priorities in energy (coal, hydropower, wind, etc), water, mineral development (saindak, etc). Allocation of research funding will be on thematic approach basis and self assessment exercises would be conducted throughout all Pakistani HEI's to identify the national priorities and on the basis a matrix would be designed. Numerous initiatives to promote and strengthen quality research has yielded exponential growth in research publications by Pakistani faculty in international impact factor journals which stood at 4300 research publications in 2009.

MAJOR CHALLENGES

Two major challenges are impacting HEC's ability to implement programs to improve quality and access of higher education facilities to people of Pakistan viz (i) the reduced and delayed release of development funds, and (ii) inadequate budgetary ceilings for recurring budget support to public sector HEIs.

(1) The reduced and delayed release of development funds:

Allocated development grant of Rs.22.500 billion for CFY 2009-10 has been reduced to Rs.18.500 billion, and out of which only Rs.11.25 billion released, so far. This has slow down the development activities in public sector universities affecting studies of various scholars under scholarship schemes launched to uplift quality of higher education.

(2) Inadequate budgetary ceilings for recurring budget support to public sector universities / institutions of higher learning:

FUTURE POLICY PRIORITIES

For next FY 2010-11, inadequate recurrent grant (just 8% increase) has been given to HEC. The %age increase does not cater for growth in enrollment, impact of completed development projects, double digit inflation, and price increase in electricity/gas, POL, etc. The ceilings would drastically affect the priority service delivery by this sub-sector, as more than 130 universities/ institutions of higher learning would be unable to operate at existing level and feed for providing higher education services to about 370,000 undergraduate / post graduate students. The inadequate recurrent funding would derail the whole process of enhancing quality of education and targeted enrollment growth at university level as ratio to the relevant population, which is already modest comparative to other developing countries in this region. The recently issued IBCs will not provide funding required to maintain programs at existing level and to meet the targets outlined by the Education Policy of the Govt. of Pakistan.

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

- a. Implementation of the Ozone Depletion Substance (ODS) Phase Out Projects:
- b. Converted 04 Chlorofluorocarbons (CFC) based projects into ozone friendly technology in foam and refrigeration sector through World Bank thereby completing the implementation of all 21 CFC-based projects.
- c. Converted 03 Carbon Tetra Chloride (CTC) based projects into ozone friendly technology in the metal cleaning and solvent sector through United Nations Industrial Development Organization (UNIDO) thereby completing the implementation of 33 projects. Remaining 03 projects are at an advance stage of implementation.
- d. Trained 150 Custom officials through the Directorate General of Training and Research (Customs) to enhance their capacity to curb illegal trade of ODS. This completed the process of training of a total number of 350 customs officials. Besides, 300 refrigeration servicing technicians were also trained through three renowned institutions namely National Institute of Scientific and Technical Education (NISTE) Islamabad, Technical and Vocational Training Authority (TEVTA) Lahore and Sindh Board of Technical Education (SBTE) Karachi. This completed the training process of 3000 technicians all over the country, which enhanced their capacity in the retrofitting of CFC based refrigerators and air conditioners into ozone friendly technology. UNIDO implemented both these projects under Refrigeration Management Plan (RMP).
- e. UNIDO in collaboration with Ozone Cell developed a mobile workshop and handed it over to TEVTA for the training of refrigeration servicing technicians in the remote areas of the province of Punjab.
- f. Ozone Cell got approved by the United Nations Environment Programme (UNEP) the CFC-based Metered Dose Inhalers (MDI) for the conversion of CFC-based Metered Dose Inhalers (MDIs) industry (Zafa Pharmaceutical Laboratories and GlaxoSmithKline, Karachi) into ozone friendly technology. The project will be implemented by the UNEP and UNDP to cater for 19.8 million people suffering from asthma and chronic respiratory diseases.
- g. Ozone Cell got approved by the UNEP the project of Hydro-chlorofluorocarbons (HCFC) data collection survey to identify the HCFC-based foam and refrigeration industry for its conversion into ozone friendly technology and mitigation of global warming. UNEP has launched the data collection survey. On the basis of this survey UNIDO will prepare a document for the HCFC accelerated phase out project and submit to the Multilateral Fund Secretariat for funding.
- h. Year 2009 was declared as "National Year" of Environment. During the year the following activities were carried out:-
 - i. Workshops / Seminars/ Media campaign (electronic & print) were conducted to enhance awareness regarding environmental issues / energy conservation etc.
 - ii. World record of planting more plants in a single day was established which was also confirmed by Guinness Book of World Records.

In pursuance of Cabinet Division's notification number SRO. 826 (1)/2002, the Ministry of Environment, Local Government and Rural Development was bifurcated and an independent Ministry of Environment was established on 22-4-2002. Ministry of Environment is the focal point on the subjects of Environment, Ecology, Human Settlement and Forests in Pakistan.

Functions:

In terms of rule 3(3) of Rule of Business, 1973 the Ministry has been entrusted with the following functions:

a. National Policy, plans and programmes regarding:-

- i. Environmental Planning, Pollution Control and Conservation of Ecology;
- ii. Physical Planning and Human Settlements including urban water supply, sewerage and drainage.

b. Dealing and Agreements with other countries / international organizations in the field of Environment, Housing, Physical Planning and Human Settlements.

c. Quaid-e-Azam Memorial Fund for maintenance of Mazar-e-Quaid.

d. Pakistan Environmental Planning and Architectural Consultant Limited.

e. Economic Planning and Policy making in respect of Forestry and Wildlife.

f. Administrative Control of:-

- i. National Council for Conservation of Wildlife in Pakistan;
- ii. Pakistan Environmental Protection Agency (Pak-EPA);
- iii. Pakistan Forest Institute;
- iv. Zoological Survey Department;
- v. Mazar-e-Quaid Management Board.

MAJOR CHALLENGES

The major challenge faced by the Ministry during the year 2008-09 was late and less release of funds for its PSDP project which resulted in non-achievement of goals/targets by the projects. The releases were made too late which resulted in non-payment of salaries of project staff. Less releases led to suspension of many project activities due to non-availability of funds. The combination of late and less disbursement of funds adversely affected achievement of desirable results and created many liabilities which had to be transferred to next financial year. This transfer of liabilities to next year would, as a result, badly effect planned expenditures and create a vicious cycle of distractions.

FUTURE POLICY PRIORITIES

The urgency of addressing Pakistan's environmental problems has probably never been greater. Conservative estimates according to recent assessment by the World Bank, environmental degradation costs the country at least 6 percent of GDP or about Rs. 365 billion per year, and these costs fall disproportionately upon the poor. Pakistan has promptly demonstrated a great deal of resilience and seriousness and formulated Mission Statement of the Ministry of Environment which stated as "Protection, conservation, rehabilitation and improvement of the environment, prevention and control of pollution and promotion of sustainable development".

The Government had announced 2009 as "National Year of Environment". In this regard, a number of activities were conducted which includes launching of national programmes for protection and conservation of environment in line with National Environment Policy, National Energy Conservation Policy and National Sanitation Policy. The most significant achievements during this year include approval of National Drinking Water Policy from the Cabinet, creation of Guinness World Record in Forestry Sector and notifying the road map for adoption of EURP-II standards in the country.

Critical issues including air and water pollutions, ozone depletion, deforestation, land degradation, lack of waste management, desertification and vanishing biodiversity have resulted in life threatening ecological imbalances all over the world including Pakistan. There is an increasing realization that many of these issues are further compounded by climate change. In line with the increasing global commitments towards environment protection, Pakistan not only ratified almost dozen of Multilateral Environmental Agreements (MEAs) but also initiated various national programmes aiming at protection of environment.

The building energy code, addressing major components of building sector like building envelope, Heating, Ventillation and Air Conditioning (HVAC), lighting etc. sets the minimum energy efficiency requirements in order to save 25-30% of energy consumption by this sector. The code developed by ENERCON in consultation with public & private sector is in the process of endorsement by respective stakeholders.

Finance Division

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

- A. In order to address the acute economic challenges Finance Division introduced tight monetary and fiscal policies and formulated policy guidelines to improve the foreign exchange reserves through stabilization of exchange rate fluctuations and attracting fresh foreign inflows. As a result of tight monetary policy Fiscal deficit decreased by 1.8% compared to 2007-08.
- B. The roll out of Budgetary Reforms under the conceptual framework of MTBF across the Federal Government (except Defense Services), commenced in line with the approval of Cabinet on 21-01-2009. For the entire Federal Government, 'Medium-Term Budget Estimates for Service Delivery - 2009-12' which presents Federal budget by outputs (services) was prepared.
- C. In order to address economic crises:
- Finance Division negotiated Standby agreement with IMF for \$7.6 billion in November, 2008 which was later augmented to around \$11.6 billion including budgetary financing. During 2008-09 \$ 3.9 billion were received.
 - Rupee dominated Sovereign Sukuk, were issued.
 - \$ 500 million deposit agreement was signed with China in January 2009.
 - Pakistan Accelerating Economic Transformation Program (PAET) with ADB was negotiated.
 - Finance Division put extra effort in November, 2009 for realization of two tranches of US\$ 200 million each from ADB's two loans that had almost lapsed due to non-compliance of agreed actions.
- D. Country Assistance Strategy for Pakistan (under IDA - 15) was negotiated with the World Bank. During the period negotiations for assistance worth US\$ 1,909 million with World Bank were completed. Out of this, an amount of US\$ 484.75 million was disbursed in March, 2009.
- E. The Agreement for establishment of SAARC Development Fund (SDF) was signed during the 15th Summit and the Charter & Bye Laws of SDF have been approved.

Revenue Division

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

- a. An Annual Audit Plan for 2009-10 was prepared and finalized after having deliberation of the same at various forums. Based on that criterion, about 900 taxpayers were selected for audit & communicated to the field formations for commencement of audits of the same, which is in progress.
- b. Successfully defended the writ petitions filed against the newly created Inland Revenue Service.
- c. Enforcement of e-filing of tax returns for all Sales Taxpayers and Corporate Income Taxpayers was achieved and coverage of e-portal was increased manifold by absorbing all Sales Tax registered persons.
- d. 13 Regional Tax Offices and 3 Large Taxpayer Units, after successful establishment on functional lines, started working.
- e. Running of special media campaign to promote tax compliant culture in the country and interaction with media to project the facilitative and educative image of FBR.
- f. Laying of Finance (Amendment) Ordinance 2009 before the Parliament which contains major changes in Capital Value Tax (CVT) and major Policy Changes regarding withholding tax.
- g. Effecting seizures in anti-smuggling activities worth Rs.1858.9 million, estimated to yield Rs.61.9 million in revenue for the exchequer.

MAJOR CHALLENGES

- a. The financial year, 2008-09 was a difficult year for the economy, therefore, almost all the macro economic targets fixed for FY 2008-09 were missed. Since revenue realization is linked with macroeconomic framework, therefore, slowdown in the growth of the economy also disturbed revenue realization to a great extent during the year. FBR was assigned a massive revenue target of Rs.1250 billion, requiring a growth of 24% over the collection of Rs.1008.1 billion during FY: 2007-08. Thus, the revenue target was revised downward to Rs.1179 billion with a reduction of Rs.71 billion against the original target of Rs.1250 billion. However, with best efforts, FBR collected Rs.1157 billion (provisional) at the end of the fiscal year, which constitutes 98% of the target.
- b. Integration of domestic taxes under one umbrella i.e. Inland Revenue was a major challenge which was successfully dealt with.
- c. The main challenges faced by the Taxpayers Audit Wing were the reaction of the taxpayers against audit which was cooled down by taking the representatives of various trade bodies & associations on board. Lack of motivation of the field formations for audit was another challenge which has been over-come gradually. The shortage of staff & resources and lack of professional expertise is yet another threat in the way of smooth functioning of the audit related activities. However, the services of ICAP members/ professional chartered accountants have been hired for conducting audit of 468 corporate cases for further improvement/boosting up the audit activities on professional lines.
- d. As in the previous years, one of the major challenge was the maintenance of balance between the enhancement of revenue through policy initiatives and not loosing the sight of taxpayer's facilitation. Formulation of amendments in the Income Tax Law and the CVT Law also posed challenges due to these conflicting aims.
- e. Obstruction in Anti-smuggling activities along the Iran and Afghanistan border areas due to ongoing military campaign as well as poor infrastructure on ground.
- f. Data reporting and analysis delays due to manual correspondence of relevant data from field formations to anti-smuggling section in FBR.
- g. Most of the potential taxpayers are not registered with tax department due to lack of proper data base. Information from various agencies are requisitioned and forwarded to field formation to confront the persons who are supposed to be on tax roll but are avoiding registration. Generation of additional source of revenue will increase tax to GDP ratio.
- h. Due to tax facilitation mode in past couple of years as a policy, enforcement of tax laws has become a problem. Strict enforcement measures are being adopted for the non-compliant taxpayers so that revenue leakage is stopped.

FUTURE POLICY PRIORITIES

- a. Implementation of VAT to increase tax to GDP ratio, reduce exemption and remove distortions in tax structure.
- b. Rationalization of tax incidence, simplification of tax laws, rationalization of Tax rates in 2nd Schedule of Part IV of the Income Tax Ordinance, 2001 and ensuring better rate of compliance through policy initiatives.
- c. Achievement of assigned targets and increase in tax to GDP ratio.
- d. Automation of tax procedures for quick disposal, development of transparent mechanisms and broadening of tax base.
- e. Introduction of electronic payment/automated refund system (EPARS) to increase efficiency in tax collection and refund.
- f. Establishment of Disaster Recovery System at Custom House, Karachi
- g. Transition from Pakistan Automated Customs Clearance System (PaCCS) to one customs to increase efficiency and transparency of Customs.
- h. Increasing the professional capacity of auditors by creating sectors specialist in Textile sector, Hotel services, Transport sector, Private construction sector, IT based forensic audit, petroleum exploration & refining, banking sector & Insurance sector.
- i. Expansion of audit coverage of large & medium taxpayers gradually and devising a separate risk based selection criteria of audit for major sectors of economy.
- j. Proper representation and early disposal of appeal cases pending before Supreme Court, High Courts, Appellate Tribunals and CIR(A) and Collector (A).
- k. Based on the results of Annual Enforcement Plans for Direct and Indirect Taxes during the financial year 2009-10 further improvements/ strategies to control the non and short filling shall be formulated and the Plans shall be modified/ updated/ improved accordingly.
- l. Configuration of information systems for VAT mode of taxation, removal of redundancies/ duplications in the existing

- software suite of FBR and establishment of enterprise Data Ware Housing.
- m. Introduction of paperless environment for immediate reporting and analysis of anti-smuggling data, through development and roll out of the AsAPRS (Anti-smuggling Activity Performance Reporting System).
- n. Empowerment of the Chief Collectors, on the same lines as the office of the FTO, to enable them to redress complaints without delay.
- o. Taxpayer awareness and education campaign on implementation of Value Added Tax in the country by organizing Seminars and Conferences with stakeholders in Large Taxpayers Units (LTUs), and Regional Tax Offices (RTOs), across the country on how to implement VAT effectively and how to adapt to the change brought about by integration of Income Tax and Sales Tax in the country.
- p. Completion of infrastructure of all Regional Tax Offices (RTOs), Model Customs Collectorates (MCCs), Taxpayers Facilitation Centers (TFCs) etc.

Planning and Development Division

Strategic Overview

Planning Commission performs as the think tank and advisory body of the Government of Pakistan in different areas of economic and social development as well as on a number of cross cutting themes and issues. Since its establishment, it has observed many institutional reforms to meet the challenges of the past five decades. The present government has focused on the fundamental restructuring of the Planning Commission to make it an effective institution, which has resulted in a paradigm shift from allocative to strategic planning with a problem solving approach.

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

Planning Commission formulated Annual Plan 2009-10 which was approved by the National Economic Council (NEC) on 4th June, 2009. The main thrust of the Annual Plan was to, ensure economic recovery, maintain momentum of agriculture growth together with support policies for revival of industries, address critical infrastructure gaps in water, power and transport for enhancing competitiveness, achieve Millennium Development Goals (MDGs) and reduce poverty through a comprehensive social protection system with an exit strategy, facilitate balanced development in the country by reducing regional disparities and rehabilitation & reconstruction of conflict affected areas.

During the financial year 2008-09, Planning Commission formulated the Approach Paper which was approved by the NEC on 14th June, 2009. This Approach Paper is the foundation for 10th Five Year Plan. In order to prepare 10th Five Year Plan, thirty three (33) working groups were constituted and members of groups are drawn from public and private sector.

Public Sector Development Programme (PSDP) is the main instrument for providing budgetary resources for development projects and programmes. The allocations in PSDP across the sectors reflect the priorities of the government. The PSDP 2008-09 was approved by the NEC at a size of Rs. 541 billion with a Federal Programme of Rs. 371 billion and Rs. 170 billion for the Provinces, with an operational shortfall of Rs. 25 billion. Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

During the year 2008-09, about 1500 metric tons hybrid seed of exotic rice hybrids was imported from China and Philippine that contributed significantly to boost rice production in the country. In order to promote balanced use of fertilizers a subsidy of Rs. 27 billion was provided that facilitated the farmers to procure diammonium phosphate (DAP) as per their needs along with urea fertilizer. Timely announcement of a very attractive support price of wheat @Rs.950 per 40kg resulted in record wheat production of about 24.03 million tons during 2008-09. Intervention prices for paddy was fixed at Rs.700 per 40kg for IRRI type varieties, Rs.1500 per 40kg for Super-Basmati and Rs.1250 per 40kg for other basmati varieties that resulted in record rice production of about 7 million tons during 2008-09 for export. In order to improve various farming practices, Benazir Tractor Scheme was initiated to provide 10,000 subsidized tractors and agricultural machinery to the farmers with a subsidy of Rs.200,000 per tractor. Farm credit worth Rs.20 billion was allocated in 2008-09 thereby enabling the growers for their inputs and operational requirements - an increase of 20%. "Indicative per acre credit limit" for major and minor crops, orchards and forestry was enhanced by an average 70 percent from 2008-09. Duty free import of pesticides and waiver of 15% sales tax was allowed to facilitate the growers.

MAJOR CHALLENGES

The development fund for the 4th quarter 2008-09 was not fully released by the finance division. The number of re-appropriation cases were not entertained by the financial advisor's organization/finance division. The saving accrued due to the above said two reasons could not be timely surrendered. Resultantly projects' targets were hampered due to non-availability of funds and suffered the overall planned targets.

FUTURE POLICY PRIORITIES

Achievement of food security for a population of 170 million growing fast @ 1.8% per annum. Maintaining rational costs of agricultural inputs - water, seeds, fertilizers, pesticides etc. and capping the prevailing prices hike trend. Alleviating rural poverty by increasing farmer's profitability and maintaining sector sustainability through judicious utilization of resources (soil, water and environment).

MAJOR CHALLENGES

Ministry of Housing & Works is the controlling authority of all the budgetary matters of Ministry and its attached departments i.e. Pakistan Public Works Department (PWD), National Housing Authority and Estate Office Management. The Ministry is facing difficulties due to non-provision of funds against the allocation made during the financial year 2008-09 and 2009-10 by the Finance Division. Resultantly the projected targets could not be achieved and completion /progress of various schemes delayed. Finance Division is also not providing funds as per requirements thereby causing delayed shortage of funds under all the Budget Grants.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

- Preparation and submission of Draft Bill for establishment of National Commission for Human Rights in the National Assembly in December, 2008.
- Establishment of National Human Rights Coordination Committee & Formation of Inter departmental Committees for provincial coordination.
- Action on 11004 complaints and news clippings regarding Human Rights violations received in all the 4 provinces was taken up with the concerned authorities/agencies in the year 2008 - 2009.
- In the FY 2008-09 financial assistance was provided to 45 human rights violation/ hardship cases from Relief and Revolving Funds.
- Preparation of draft Bill for Establishment of Benazir Bhutto Shaheed Human Rights Fund on the Prime Minister directive. The Bill has been submitted to the Cabinet for consideration before its submission to Parliament. An amount of Rs.10 million is required subject to approval of the Bill.
- Ten days activities from 10th -20th December, 2008 were carried out throughout the country by Ministry and its four regional offices in connection with International Human Rights Day.
- Effective coordination with relevant state organs for implementation of signed International treaties and coordination with International bodies on Human Rights.
- Visits to 10 Jails by Minister for Human Rights, Secretary, and other officers of the Ministry. The problems of the Prisoners and Jail Authorities were noted and taken up with concerned authorities at appropriate level for necessary action.
- Minister for Human Rights called a meeting of local Non-governmental Organizations (NGOs) and with their help, medicines, food and other necessary items were collected and furnished to Locally Displaced Persons of Swat, Malakand Division.

MAJOR CHALLENGES

- The present set up of the committee and rules regarding Relief and Revolving Funds are the main cause of delay in timely approval/disposal of financial assistance to human rights victims and in hardship cases.
- During the Military Government, the Human Rights Wing was completely paralyzed. It was upgraded to an independent Human Rights Division on 5th December, 2007, but no funds and staff were sanctioned to the newly independent Division. Even when the Division was further up-graded to an independent Ministry on November, 03, 2008, for the first six months sufficient funds were not furnished by the Ministry of Finance. The Establishment Division has not provided officers against the available posts and due to acute shortage of Officers/Officials the work of the Ministry is suffering badly.
- Sufficient funds were not available for financial relief to Victims of Human Rights violations and in hardship cases. Fourteen years ago for this purpose about Rs. 9 million were furnished by Ministry of Finance, and currently it is less than Rs.1 million. Its enhancement up to Rs. 10 million is required in F.Y 2010-11.

Ministry of IT & Telecom has primary responsibility of creation of efficient ICT enabled environment through formulation and implementation of policies and legal framework, infrastructure development, good governance practices implementation, improved public services destined to contribution in socio economic growth of country.

On IT front the Ministry of Information Technology during the last one year continued its thrust in the core areas of E-governance, IT capacity building and promotion of Pakistan's software industry. Through its attached departments (Electronic Government Directorate, Pakistan Computer Bureau and Pakistan Software Export Board), the Ministry of IT had been engaged in number of new and on-going projects with the aim of providing IT infrastructure for enhancing productivity, facilitating good governance, improving delivery of public services and contributing towards the overall socio economic growth of the country. The major activities and achievements in these areas during the last one year are detailed below:

1. E-Governance

For facilitating internal efficiency and effectiveness within the government, as well as, improving services to citizens, Ministry of IT, through its e-Government Directorate (EGD), has been engaged in the following initiatives:

Three Telemedicine Centers were launched at Holy Family Hospital Rawalpindi, Jinnah Postgraduate Center Karachi & Mayo Hospital Lahore providing quality healthcare at the doorstep. During the last one year 7000 patients of the rural areas have been provided remote consultation facility with specialists.

A fully functional computerized online Submission of Hajj Application System has been developed for Ministry of Religious Affairs which covers online submission of Hajj applications, Group/Party formation for Ballot, Ballot for Hajj Applications under Government Hajj Scheme, Flight Scheduling and accommodation booking at Hajji Camps and at Saudi Arabia. In the last Hajj season, a total of 133,000 applications were collected and processed electronically.

Project for the automation of major internal functions of Islamabad Police, providing connectivity with 13 police stations and 11 office locations of Islamabad Police. A total of about 4,012 FIRs, 220,418 driving licenses, and approximately 8,000 daily calls received by Rescue-15 were processed through this system.

A project was launched for provision of online access to a database of Statutory and Case Laws at the Supreme Court, High Court and District Bar Associations. During the past one year services of the latest Case Laws was provided to 60,000 lawyers throughout the country.

E-Office applications have been developed for the Federal Government business processes common to all Divisions. The initial pilot implementation at Ministry of IT is underway.

A project on automation of Securities and Exchange Commission of Pakistan has been launched that would enable the companies to register online with SECP, submit their returns electronically as well as track their complaints online. At present 37% of the total registered companies are utilizing these services.

Hospital Management Information System (HMIS) has been implemented at Pakistan Institute of Medical Sciences (PIMS) and CDA Hospital for delivery of improved patient services, efficient retrieval of medical record and availability of digital images (X-rays, CT-Scan etc) resulting in major cost savings.

A project aimed at establishing a GIS based data infrastructure of development activities at Federal and Provincial level has been initiated. This would provide the planners an accurate spatial view of the economic landscape of the country including roads and rail network, drainage network etc and would result in efficient management and planning of development projects. The initial pilot implementation at 5 districts is underway.

The whole environment of GoP web portal has recently been revamped to cater for the large volume of public visits. A part of its natural move towards interactive and transactional phases, EGD is incorporating citizen-services through the portal to provide a central self-services gateway to the citizens.

2. IT industry support and promotion

During the last one year, Ministry of IT, through Pakistan Software Export Board (PSEB), has put concerted efforts to increase IT and IT enabled services related to software exports through following major initiatives:

Establishment of Information Technology Park at Lahore in collaboration with M/S Shaheen Foundation with a covered area of 360,000 square feet, equipped with high speed redundant fiber connectivity, backup power supply, modern security surveillance system and other safety and security features.

Approved 708 apprentices to 13 IT companies under its 'IT Industry Apprenticeship' program whereby selected companies have been offered a financial subsidy of Rs.180,000/- per apprentice for a period of one year.

Successfully placed 1,180 fresh IT graduates as 'Interns' in IT companies across the country for a period of three months to enhance their skill set through on-job training. More than 95% Interns have secured permanent employment due to this initiative of the government.

In order to secure international quality and security certification 'ISO 27001', PSEB has increased the size of the selected companies from 5 to 10.

PSEB issued recommendatory guidelines for adoption of modern clauses for transfer of personal data from the European Union (EU) to third countries and binding corporate rules for international transfer of personal data in order to enable Pakistani IT companies to gain confidence of international outsourcing community specially the EU, and increase IT/ITeS exports of the country.

To promote Open Source Technology in the country, PSEB has conducted 17 training workshops and Seminars and trained over 590 IT professionals' in the key disciplines. In addition, 11 organizations were facilitated in migration their process from proprietary technology to open source software/technology.

Due to numerous incentives of the government, 294 new IT companies were registered including 221 Call Centers.

Pakistan's IT and IT Enabled Services export reported by the State bank of Pakistan has been increased to US\$156.518 million from July 2008 to March 2009. This is 34.36% higher than the previous year.

3. IT Capacity building

To promote IT culture and development of IT human resource in Federal and Provincial government Ministry of IT, through Pakistan Computer Bureau (PCB), has under taken various initiatives that include the following:

- Training in IT discipline to over 5,000 employees of the Federal and Provincial Government all over the country
- 175 special people were trained in the use of I.T. As a result about 40 to 50% of these special people have been able to get employment

- Technical support to Ministries/Divisions by deploying Network Administrators, Assistant Network Administrators, Software Engineers and Web Experts on full time basis for running the IT systems uninterruptedly.

- Support to the Benazir Income Support Program by facilitating the application and interview process.

The Ministry of IT has also imparted distance learning education to over 36,000 students through Virtual University. Total of 20,632 new students were enrolled the preceding year. Similarly, IPTV was launched to transmit live VU video lectures to students over the internet. The lectures were also made available to students all over the world through the University's own channel on the internationally popular video hosting service (Youtube).

MAJOR CHALLENGES

The Ministry every year undergoes a rigorous exercise in preparing the cash plan which then agreed with the planning commission and the finance division. However when the budget gets into the execution phase, the funds are not released accordingly which affect the overall objectives of this ministry. It is necessary that the process of Cash Plan may be reconsidered by the Ministry.

In previous budgeting system, all individual services and their impacts on the project level were quantified; however the overall goal of the Ministry and its impact was not clear. MTBF forms are integrated and focus on Ministry's key service areas and overall goal of the Ministry.

In the previous budgeting process, a repeated preparation of budget was carried out with changed dates and values. However through the MTBF process, the Ministry will have to prepare a three year budget considering the priority areas in true spirit.

While we appreciate the initiative of MTBF taken by the Ministry of Finance but at the same time we would like to suggest that Finance Division may honor the ceilings once they are approved.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

The Ministry of Labour and Manpower is committed to endeavour for human resource development, socio-economic uplift of the working people and to maintain harmonized labour management relations. It envisages skill up-gradation to enhance productivity, create development-based work culture, work for dignity of labour and promote decent working conditions for workers within and outside Pakistan. The Ministry works in close coordination with provincial departments, workers; and employers; organizations and concerned international agencies. To achieve its goal, the Ministry is helped by its departments / organizations / corporations i.e. Bureau of Emigration & Overseas Employment (BE&OE), Overseas Employment Corporation (OEC), National Industrial Relations Commission (NIRC), Implementation Tribunal Newspaper Employees (ITNE), Directorate of Dock Workers Safety (DDWS), Central Inspectorate of Mines (CIM), Employees Old-Age Benefits Institution (EOBI), Workers Welfare Fund (WWF), National Training Bureau (NTB), Pakistan Manpower Institute (PMI), National Institute of Labour Administration Training (NILAT), National Talent Pool (NTP) and Directorate of Workers Education (DWE).

MAJOR CHALLENGES

The government allocated Rs.6,385.998 Million of funds for the recurrent and development needs of the Division in the financial year 2008-09 under Demand No.082, 083 and 153, however Rs.6,000.000 Million allocated to Workers Welfare Fund under Demand No.083 was surrendered due to adoption of revised accounting procedure. The Division was able to attain development towards the policy goals and legislation and activities carried out with an actual spending of Rs.345.503 Million.

Some of our attached Fund Centers have experienced shortage of funds to meet their critical demands during the year 2008-09. Keeping in view the situation, some of the shortfall was met through re-appropriation of Rs.19.158 Million that became available under other units of this Division, besides, a supplementary grant amounting to Rs.24.770 Million was sanctioned by the Finance Division.

FUTURE POLICY PRIORITIES

In the medium term (2010 - 13) outlook of the Ministry, we will continue to place our focus on providing the existing services successfully. However, Ministry of Labour and Manpower shall constantly be engaged in the process of policy development and implementation support. There are three main target areas for policy intervention regarding the well being of working class, these areas encompass the creation of decent and productive employment opportunities, human resource development and labour legislation to get into synchronization with the Decent Work Country Programme.

Election Commission of Pakistan

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

As it is known to all and sundry that Conduct of Election is a Constitutional obligation of ECP. During the fiscal year, 2008-2009 the ECP conducted the Elections to the National/Provincial Assemblies Constituencies in a befitting manner, through out the country. Although, the law and order situation in the country, especially after the assassination of former Prime Minister Mohtarma Benazir Bhutto had deteriorated, yet the ECP managed to conduct the Elections in free fair and transparent manner. International, as well as, local, print and electronic media and civil society also lauded the performance of Election Commission of Pakistan, in this regard.

MAJOR CHALLENGES

The main challenge faced by the office during 2008-2009 was timely dissemination of funds and election material to DROs/ROs who further distributed the same to Polling Officers, Presiding Officers and Assistant Presiding Officers, so that the work pertaining to Elections should not suffer. Finance Division also provided sufficient funds in this regard to cater to the requirements. Therefore, no impediments were faced to achieve the desired objectives.

FUTURE POLICY PRIORITIES

The policy priorities of ECP are to organize free, fair and impartial Elections, prepare credible Electoral Rolls, delimit the constituencies in a transparent manner and to adopt measures to enhance maximum voter's participation in election process. Besides, the Capacity Building of ECP Officers/Officials to hone their skills by attending the courses in Federal Election Academy under the auspices of IFES is also the prime responsibility of ECP. Moreover, our policy priorities include overhauling of the existing ECP setup through its organization training, computerization of electoral rolls, improving election operations, including periodic consultations with political parties and proposing amendments in laws for improving the existing legal framework of elections, etc. For the purpose, Strategic Planning is being done for development Implementation Plans for, inter alia, achieving the aforesaid goals. The present strength of employees of ECP is very meager and at the time of elections of NA/PA, Local Government Elections, we have to face great difficulty. Efforts are underway to broaden the area of activity by spreading our offices upto Tehsil Level, acquiring own office buildings and conduct the entire election process through the officers/staff of ECP, which was earlier done in collaboration with Judiciary.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

In order to develop and promote the livestock sector in the country, a number of development programs at a total cost of Rs. 11.69 billion have been initiated. These development projects have focus on promoting milk and meat production and marketing; strengthening of services delivery system to livestock farmers; prevention and control of livestock and poultry diseases; up gradation of animal quarantine services and provision of veterinary services at farmer's door step. The National Veterinary Laboratory (NVL) conducted analyses of 15,963 samples for diagnosis and surveillance of animal diseases, quality control of veterinary vaccines and drug residue testing in animal products. The Animal Quarantine Department (AQD) provided quarantine services and issued 18,729 health certificates for the import of live animals, mutton, beef, eggs and other livestock products having a value of more than 201.7 million US\$. The AQD generated non-tax revenue of Rs. 54.38 million which exceeded the target of Rs. 40.00 million. The Ministry facilitated the import of livestock farming machinery and equipment by the private sector at zero percent duty. A total of 16 NOC were issued during 2008-09 in this regards. Import of semen and high yielding dairy cattle by the private sector was also facilitated and a total of 98,918 doses of semen and 2,746 exotic dairy cows were imported during 2008-09. Establishment of eight temporary quarantine stations was permitted at different locations in the country. The federal government initiated four projects at a total cost of Rs 2.9 billion that aimed at increased production of aquaculture, shrimp farming, capacity building of the stake holders and stock assessment survey. In fisheries sector, the Marine Fisheries Department (MFD) regulated export of 138,000 metric tons of fish having a value of more than 240 million US\$.

MAJOR CHALLENGES

Ministry is facing the financial constraints in the releases of allocated funds for PSDP funded projects. As a result progress on various development projects was badly affected due to non-availability of funds and suffered the overall planned targets.

FUTURE POLICY PRIORITIES

The ministry is focusing on private sector led development of livestock & fisheries sector and moving from subsistence farming to market-oriented and commercial farming covering entire value chain and entering into halal food market. The vision is promoting livestock and fisheries to ensure food security through availability of quality products at competitive prices. The priorities for future development of livestock sector revolve around increasing per unit productivity of the animals through cross breeding; improving feed and fodder availability; improving animal health coverage and marketing facilities. The objective is to exploit potentials of our livestock sector and use it as engine for economic growth and food security for the country leading to rural population empowerment and rural socioeconomic development and uplift. Similarly, the priorities for fisheries sector includes improvement of marketing infrastructure for fisherman along coastal line, restructuring management of Karachi fish harbor and up gradation of fishing boats according to international standards.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

The Present Government is extremely sensitive towards the Welfare and Development of Minority Communities in Pakistan and has taken special steps in this regard. In order to ensure their more representation in Government Services / Jobs, the present Government has allocated 05% quota for Minorities in all Federal Government Services / Jobs across the board, in addition to their participation in open merit.

The Federal Government has also allocated four (04) reserved seats for minorities in Senate (Upper House of Parliament). The Government has taken the step to mainstreaming the minorities by giving them voice in the upper house of legislature. This step is widely appreciated by minorities specifically and the people of Pakistan in general.

To recognize the contribution, services and sacrifices of minorities in creation of Pakistan, in nation building process and to highlight the vision of founding father Quaid-i-Azam Muhammad Ali Jinnah, Government has declared 11th August as a "Minorities Day".

The Ministry of Minorities has spent Rs. 8 million regarding relief package for the Minority IDPs of Swat and Malakand in addition to provision of free Food, Shelter, Health and Educational Facilities for them.

To promote tolerance, dialogue, understanding, co-operation, harmony and to remove misunderstandings among different faiths, Ministry of Minorities has launched a national campaign to promote Interfaith Harmony. This campaign will help to promote national unity and harmony in the society. Interfaith Harmony Committees are being established throughout the country at District level. 124 such Committees have been proposed. A hotline is being established in this Ministry, through which the competent staff will be posted round the clock, who would ensure the timely redressal of minority's grievances.

Skill Development Centers for vocational training for minorities being established throughout the country.

A special Development Fund for uplift and welfare of Minorities is operative in the Ministry of Minorities for small development schemes, scholarships for deserving students and financial assistance to destitute from Minorities. In order to enhance capacity of the mineral sector of Pakistan seven development projects have been executed in the area of coal, gemstone, copper-gold and metal mining deposits of Balochistan.

MAJOR CHALLENGES

Lack of logistic support and releases of funds are the major problems in the way of achievement of ministerial goals. The establishment charges of Geological survey of Pakistan are 81% of the total allocation and only 19% is available for all other activities including utilities. Geological survey of Pakistan has to meet expenditure for newly created heads from operational heads which puts tremendous pressure on technical activities of this scientific research organization.

FUTURE POLICY PRIORITIES

Review of existing National Mineral Policy which was developed in 1995 and accordingly finalization of new National Mineral Policy 2009 in consultation with provinces, special areas and other stakeholders. Initiate process for the formulation of first national coal policy of Pakistan which would facilitate private investment in coal mining and coal based power generation in the country. Promotion of LPG as a domestic fuel to replace conventional fuels like coal, firewood, kerosene, dung cake etc to ensure availability of clean fuel to all people. The Ministry is also in the process of formulating a gas theft act to control theft of gas.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

Identification of existing problems and strong actions for resolving those in order to increase port efficiency and productivity have resulted in the reduction of ship turn around. Container dwelling times have come down as a result of rehabilitation and construction of yards. The holding capacity of containers handling in the ports has increased by 11.275 % on average. In addition, 23.95 million metric tons of import cargo, 7.25 million metric tons of export cargo and 71,798 technical escort units of containers were handled in the ports during the 2008-09. As the quality and standards of training and certification of officer and sailors of ships sailing in the international water have changed and a port state control system has been introduced, entry into the sea boundary of Pakistan of defective ships and ships harmful to environment can be restricted. Laws and regulations regarding shipping have been up dated. The flag vessel (protection) ordinance has also been updated. 7% at Karachi port trust and 7.5% at Port Qasim authority has been recorded during 2008-09. 9% increase in cargo handling at Pakistan national shipping corporation.

MAJOR CHALLENGES

Absence of road and rail linkages to the hinterland and up-country which is a bottleneck in the use of Gwadar port to its full potential. Non-provision of electricity for operation of the port terminals. Use of generators is highly expensive. Non-availability of land for establishment of free zone for port related industries to augment the port business. Non-release of funds for maintenance dredging of the port and repair of its navigational aids.

FUTURE POLICY PRIORITIES

Overall operational capacity and efficiency at ports would be increased, including a reduction in port expenditure, control of pollution and ensuring safety at an international standard and to reduce ship turnaround time and container dwelling time to minimum level on average. Increase awareness of issues relating to water ways safety, to ensure safe movement of water vessels in the water ways and to intensify water transport safety administration through further strengthening of water transport safety measures. In order to meet the Pakistan national shipping corporation business demands of the agency and to increase its income, the procurement of additional ships, the construction of building, and balancing, modernization, rehabilitation and extension work on old ships will be completed. In order to accelerate economic development, new industrial zones would be established and oil storage and refining facilities would be provided. Private sector investment and trade opportunities would be created to enhance job opportunities. Establishment of essential hinterland infrastructure consisting of roads, railway and sea links is also planned.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

As per direction of the federal government regarding opening of post office at union council level and small & smart post offices at prominent places throughout the country, 176 new post offices were opened. Counter automation of 100 general post offices including computerization for data digitization has been made. Express mail track and trace system which was available at 11 stations have been extended to 03 new stations. Express mail track and trace system has also been extended to all 46 district mail offices of the country. A link has been established between express mail track and trace system and international postal system to facilitate the track and trace of international articles. Online complaints lodging facility from the web-portal of Pakistan Post has been provided to the public. 765 new motor cycles have been provided to postmen for speedy mail delivery. Brochures on urgent mail service were designed and circulated for information of the customers.

For convenience of the general public, the maximum limit of a single fax money order was enhanced from Rs.10,000 to Rs.50,000. For accurate weighing of postal articles, 3,000 electronic weighing scales have been provided to the operational offices. Fifty new vehicles have been provided to the field offices for mail/cash conveyance to enhance the efficiency. To enhance the market share and to uplift the quality of service of express products they have been revamped and re-launched with effect from 01-06-2009. Payment of pension to pensioners is being made by using computerized system. Complete web-enabled tracking and monitoring system for disbursement of funds for Punjab food support programme. This is implemented at all general post offices throughout Pakistan.

MAJOR CHALLENGES

The Finance Division/Establishment Division didn't entertain the request for creation of new posts. There is political and public pressure for opening of new post offices. Similarly un-remunerative post offices closed during the year 2008-09 were also ordered to re-open on the public representative pressure. The computerization of Pakistan post is spread over hundred locations throughout Pakistan whereas information technology human resource has been scarce.

FUTURE POLICY PRIORITIES

As per Prime Minister directive, 100 "Small & Smart" express post centers will be established. To raise infrastructure for transport of speedy collection and delivery of mail and cash conveyance and provision of mobility for inspections, a PC-1 is under active consideration. Simplification of various processes being made to improve the level of service delivery to world class standards. Incentive based policies would be devised to motivate staff and inculcate competitive culture in the organization. Carry out field operations in a professional, efficient and customer friendly manners. Media publicity campaigns would be launched to improve the image of Pakistan post.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

- One of the most prominent achievements of the Ministry of Privatisation, during 2008-2009, was the formulation of a new Privatisation Policy. This new policy was approved by the Cabinet Committee on Privatisation on 17th February 2009.
- The Cabinet Committee on Privatisation (CCoP) in its meeting held on September 29, 2008 approved highest bid of Rs.70/- per share for Hazara Phosphate Fertilizers Limited and Pak American Fertilizers Limited was declared as the Successful Bidder for issuance of Letter of Acceptance. Letter of Acceptance was issued to Pak American Fertilizers Limited on September 30, 2008.
- Privatisation Commission also received third installment amounting to US\$ 133.218 million from Etisalat against sale of PTCL shares. Therefore, total proceeds of Rs. 25.254 billion were realized.
- In less than two decades of its operation, the Privatisation Commission has successfully managed to complete approximately 167 Privatisation Transactions, while generating revenue of over \$9bn (Rs. 476,421 million).
- 80 State-Owned Entities have been identified to be incorporated in the Benazir Employees Stock Option Scheme.
- Corporatization of the State-Owned Entities established under Special Act / Ordinance by the Privatization Commission in-coordination with the Line Ministries.
- The ministry has successfully evolved the traditional privatisation policy to Public Private Partnership Policy.

MAJOR CHALLENGES

- The international scenario with non-conducive capital market position however compelled Privatisation Commission to abandon the quite ripe transactions like those of National Bank of Pakistan (NBP), Global Depository Receipt (GDR) and Small & Medium Enterprises (SME) Bank. The only transaction that was completed during the period is Hazara Phosphate Fertilizers Limited.
- There has been an almost catastrophic deterioration in Pakistan's political, economic and security situation over the last three to four years. This has had profound adverse impact on growth rates, poverty incidence and confidence in Pakistan's ability to manage crisis and its future economic outlook.
- The most alarming signs of growing economic imbalances were very sharp increases in the current account deficit of the balance of payments and fiscal deficit and unprecedented pickup in inflation and instability of the currency. Unless the situation is not settled we will not be able to attract investors to participate in Government's Privatisation Programme.
- Various privatisation transactions are on hold due to law and order situation i.e. Pakistan Tourism Development, Hotels and Motels. Privatisation of National Power Construction Company which was at the stage of bidding was stopped and investors lost their interest.

FUTURE POLICY PRIORITIES

- Benazir Employees Stock Option Scheme is one of the main features of the New Privatisation Policy. Through this scheme, the intention of the Government is to reserve a fixed percentage of shares for the workers of the State-Owned Entities that are being privatized.
- Ensuring timely privatisation of corporations approved by the cabinet.
- Ensuring transparency in the process of privatization.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

Pakistan Railways is constantly striving to make the organization commercial viable by providing economical, safe and environment friendly mode of transportation for passengers and bulk movement of cargo over long distances. To achieve this objective, efforts are made to transform Railways into a more responsive organization so as to meet public needs, Provide safe journey, operate efficiently, maximize earning and exercise control on expenditures.

To further enhance passengers and freight traffic, Pakistan Railways has engineered development/improvement in infrastructure, upgradation/dulization of Railways track and installation of modern signaling system. The progress in this regard is as under:

- i. Doubling of track between Lodharan-Khanewal (121 Km) has been completed and work on doubling of track (246 Km) from Khanewal to Raiwind is under process. Doubling of track from Khanewal to Chichawatni has been completed and is in operation.
- ii. To ensure availability of locomotives for train operations, an agreement of procurement/manufacturing of 75 Diesel Electric Locomotives has been signed with Chinese manufacturer.
- iii. A project for special repairs to 36 no. D. E. locos (GMU-30 type) are also in progress in Mughulpura Shops, Lahore and 20 D. E Locomotives will be rehabilitated during this year.
- iv. For increasing freight business, the Project for Procurement of 1300 High Capacity Wagons at last stage and 1260 numbers have been completed.
- v. The work on rehabilitation /upgradation and conversion of 400 coaches has been started during 2007-08 at Pakistan Railways Carriage Factory Islamabad and 168 coaches have been rehabilitated. The work on remaining coaches is in progress.
- vi. Pakistan Railways has entered into Private partnership to boost its economic growth and infrastructure development. Integrated Dry Post terminal facilities are being developed at Kot Radha Kishan, Prem Nagar and Multan Dry Port near Shershah Railways Station under Public Private Partnership scheme.
- vii. A total number of 36 Major Reservation/Booking Offices over the system have since been computerized for on-line reservations of tickets for various destinations.
- viii. On-line ticketing system is being implemented to ensure effective time management of the trains running on the Pakistan Railways system. This system will not only improve the performance and punctuality of the trains but will also provide information about the trains locations, arrival and departure time. With this system, Pakistan Railways will improve its train management for passengers and freight traffic.
- ix. Pakistan Railways is concentrating on freight traffic to increase its share in freight sector. Four wheeler slow moving wagons are being introduced to increase average speed thus resulting in reduction of turn round time of freight trains.

MAJOR CHALLENGES

Pakistan Railways is facing financial crises as its expenditure for the year 2008-09 was Rs. 46.0 Billions against earning of Rs. 23.0 billions thus resulting into short fall of Rs. 23.0 Billions. A subsidiary of about Rs. 9.0 billions was provided by GOP to cover gape but remaining 14.0 billion was met through borrowing from State Bank of Pakistan. Pakistan Railways slab for overdraft from State Bank of Pakistan was freezed at Rs. 35.0 billions to exercise control over expenditure which resulted into deterioration of services due to short supply of fuel, spares, for maintenance and dissatisfaction in staff due to delay in payments like salary, GP Fund, Advances, and T.A. etc. The increase in fuel prices and labour wages/pension has also and non increase in fares has worstly affected cash flow of Pakistan Railways. Payments to contractors for supply of material were delayed thus resulting in non supply of material in time. The law and order situation in the country has badly affected the movement patron for passenger traffic, exports and imports have reduced thus effecting the freight movement as well Pakistan Railways has tried to bridge the gap by concentrating on the freight traffic and reduction in turn round time of freight trains. Private sector has also been encouraged to run cargo trains by attracting freight traffic through rail.

FUTURE POLICY PRIORITIES

Pakistan Railways is a capital intensive department where lot of capital is required for the improvement which cannot be arranged through resources of GOP and Private Sectors is being encouraged to bring their rolling stock to run trains by paying track access charges. Maintenance of rolling stock and infrastructure is being out sourced to improve its reliability. Sale and checking of tickets in trains is being outsourced to reduce ticketless traveling on branch line to improve revenue of Pakistan Railways. Maximum emphasis being paid to run freight trains particularly oil trains from Karachi to increase revenue. Efforts are being made to increase the average speed of trains to reduce the turn round time, thus improving the availability of rolling stock for reloading. High capacity Wagons, Computer based interlocking with auto block system is being introduced to increase the line capacity and safety of trains. Doubling of track is being stressed to reduce journey time in addition to introduction of mechanized maintenance.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

The output/service delivery of this Ministry is Policy formulation and administrative support, to make arrangements for Pakistani Muslim Pilgrims for Hajj, visit religious shrines in India and to organize religious events etc. Following achievements were made by this Ministry during the instant year:-

- A total of 164,647 pilgrims performed Hajj-2008 through this Ministry. The Ministry arranged training of pilgrims, Special air travelling arrangements, accommodation, and medical facilitation in Saudi Arabia. The Ministry also registered and monitored Private Hajj Group Operators.
- Construction of Hajj Complex, Hayatabad, Peshawar (Phase-I) was completed within the approved project cost of Rs: 40.000 million out of Ministry's own resources i.e. Pilgrims Welfare Fund (PWF).
- National Hizf-o-Qirat Competition was arranged on 27th & 28th May, 2009 through competition. As a result the Ministry selected best Huffaz for their nomination in the international Holy Quran Competition held in Iran, Jordan, Saudi Arabia and Dubai.
- National Mehfil-e-Shabeena held on the nights of 27th to 29th Ramadhan-ul-Mubarik 1430 AH at Faisal Mosque, Islamabad.
- This Ministry has arranged the visits of 846 Zaireen to India in connection with Urses of five Muslim Saints in India.
- For standardized Islamic teaching, efforts were accelerated to get all the Madaris in Pakistan, registered in shortest possible time. So far 15,737 Madaris have been registered in the country. Moreover three model Deeni Madaris are operational in Islamabad, Sukkur and Karachi under Pakistan Madrassah Education Board (PMEB) for standard education.

MAJOR CHALLENGES

The main challenges confronted by this Ministry during 2008-09 i.e. shortage of funds is attributed to the following reasons,

- After bifurcation of the Ministry of Religious Affairs a substantial amount had been placed at the disposal of the newly created Ministry of Zakat & Ushr thus causing acute shortage of funds.
- Ulema and Mashaik Conference was held to influence public opinion in favour of the military operations against terrorism/suicidal attacks. No budget was available for this purpose.
- National Seerat Conference is a regular feature of this Ministry and is held on 12th Rabi ul Awwal every year but the major chunk of budget allocated for Seerat Conference was utilized in the Mehfil-e-Milad function arranged in the Aiwan-e-Sadar and Prime Minister's house. This was unforeseen expenditure and the Ministry did not have any budgetary allocation for the purpose.
- The Ministry hired foreign lawyers to defend a case filed by M/S Dallah Real Estate in London High Court in connection with ex-parte award of US \$ 20.588 million against Ministry/Government of Pakistan and no budgetary provision was available for payment of fee to the foreign lawyers. Therefore this Ministry had arranged payment of fee to the Lawyers through Supplementary Grant and Re-appropriation of funds.

FUTURE POLICY PRIORITIES

The following are the major priorities of this Ministry:

- On Prime Minister's directive dated 17th March, 2009 the Ministry will hold an international Conference on the topic of the Prophet (SAW) as Rehmat-ul-Alamin and initiative in this regard will be taken jointly by the Ministry of Religious Affairs and International Islamic University, Islamabad. An amount of Rs: 20.000 million shall be required for holding of above Conference in the next fiscal year 2010-11.
- The Ministry shall shift to the newly constructed block in Pak. Secretariat during 2010-11 and as such requires an allocation of Rs: 5.000 million for partitioning of new building under head "Repair of building".
- Ministry is defending a case in London and Paris courts against the International Chamber of Commerce. (I.C.C.), Paris. Award of US\$ 20.588 million has been passed against Government of Pakistan. At least Rs: 40.000 million is required for payment of British and French Lawyers engaged by the Ministry to defend the case. The fee and other expenses of these lawyers is paid in foreign currency.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

Ministry of Science and Technology (MoST) is the national focal point and enabling arm of Government of Pakistan for planning, coordinating and directing efforts to initiate and launch scientific and technological programs and projects as per national agenda for sound and sustainable base for the socio-economic development, to achieve the vision for a better Pakistan. From the areas of industrial development to renewable energy and rural development, the Ministry Suggests technological development for higher growth rates and to improve standards of living. Its principal focus being on building Pakistan's technological competence in the 21st century, as we enter new markets, developing a larger pool of human resource to reverse brain drain, and for integrating the existing technological infrastructure through for strengthening of technology institutions, effective governance and enhancing the capacity of indigenous innovation systems. A strong capacity can thus translate into accelerated industrial and economic development. Successful economies have achieved much by focusing on education and investing in research and development. S&T capacity in developing nations is not a luxury but an absolute necessity if they are to participate as full partners in the world's fast-growing knowledge - based economy.

Following are the major achievements

 - ii. Draft Bill of COMSATS University has been prepared and circulated.
 - iii. Draft Bill of Pakistan Council of Renewable Energy Technologies (PCRET) has been prepared and the summary for the approval of the Cabinet is ready for submission.
 - iv. Draft Bill of Pakistan Council for Science and Technology (PCST) is being prepared.
- e) Services to the Internally Displaced Persons (IDPs)

Science film and documentaries related various scientific topics were shown to students.
 - iv. More than 5,800 learners and 242 teachers of 31 IDPs Camps benefited from the PSFN on formal Education Programme.
 - v. A substantial amount has been contributed for the help of IDPs. Besides this the COMSATS Institute of Information Technology (CIIT) is also providing physical as well as material help to the displaced people of Swat. Twelve thousand displaced people were registered and provided fixed weekly ration containing flour, sugar and other non-perishable eatable.
 - vi. The CIIT has also decided to waive off academic fee for 2009 and spring 2010 of all students hailing from Swat.

MAJOR CHALLENGES

- a) Budget constraints due to the low funds released for Development projects. During the financial year 2009-10, Rs 3,140.377 million was allocated for MoST 122 development projects. Later due to overall financial crunch this allocation is reduced to Rs 1,500.00 million. Till mid May the releases stood at Rs 930.00 million
- b) Lack of human resource due to vacant posts
- c) Due to severe damage of Evacuee Trust due to a terrorist attack on Marriot Hotel, officers and officials of this Ministry were relocated in different locations temporarily that resulted in wastage of a lot of time and resources

- c) The Centre for Applied Molecular Biology (CAMB) will identify and enroll 75 large consanguineous families affected with recessive hereditary hearing impairment from Balochistan and N.W.F.P and to collect clinical tests to ascertain the type of hearing impairment
- d) National Institute of Electronics (NIE) will contract with Integrated Circuit fabrication facilities abroad and to get an accreditation for the testing lab from national / international bodies.
- e) Pakistan Council for Renewable Energy Technologies (PCRET) will manufacture Solar Water Heater (2,500 units), solar dryer (12,500 units) and solar cooker (25,000 units) through private sector with PCRET technical services.

Training & consultancy programme in the field of electronics, IT, Embedded Control System, IC design technologies and Printed Circuit Boards design & fabrication including internship programme will continue with full pace.
- h) Pakistan Technology Board (PTB) will forecast world markets and technologies of strategic importance essential for industrial growth and achieving a competitive advantage in global markets.
- i) MoST will offer analytical services to the public and private organization. Operation and trial runs of coal combustion

rig. Fabrication and commissioning of coal gasification rig. Local design, fabrication & commissioning of coal beneficiation rig.

j) Establishment of partial MEMS Test and Characterization Facility. Design of MEMS Pressure Sensors for low and high range applications.

k) MoST will develop an indigenous technology to upgrade important indigenous resource of fossil fuels like coal through biotechnological innovations. Prepare conjugate vaccines (which are most effective modern vaccines) against human enteric fever (typhoid) which is the 4th largest killer disease in Pakistan. Develop the synthesis of metal nanoparticles and explore their applications in biotechnology and new materials fabrication.

l) COMSATS Internet Services (CIS) will establish 20 base stations for wireless (Wi-Fi) internet and also to setup its nodes at Multan, Quetta and Gawadar. 19 Tele Health clinics will establish to provide diagnostics and health care facilities in the rural areas in the vicinity of provincial capitals, Islamabad, Multan and Gawadar.

MAJOR CHALLENGES

In the 2008-9 budget, the ministry was allocated Rs.7,139.816 million and 509.517 million for the recurrent and development activities respectively. During the year, the ministry also requested a supplementary grant of Rs 20 million for Pakistan Center for Philanthropy in order to create endowment fund as per directive of the Prime Minister. This grant was duly approved by the ministry of Finance. As for the execution of the year 2009-10 budget, it was not a good year in terms of release of the funds against allocations. Therefore, it is regretted to note that only 25% of the total recurrent budget was utilized and the remaining amount of Rs 5,377.745 million was not be released by the Finance Division. The major portion of the unreleased funds pertained to Pakistan Bait-ul-Mal and therefore the services under Food Support Program were badly suffered. As may be true with other ministries, this ministry has been facing tedious and at times frustrating, procedures for release of funds and the year 2008-09 was of no exception.

FUTURE POLICY PRIORITIES

The Ministry shall continue to provide the existing services and shall seek additional resources in the future to expand the scope as there is an insufficient involvement of the private sector in addressing the needs of special people.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

The Ministry was established in November, 2008, with an objective to accelerate implementation of the special initiatives approved by the President and the Prime Minister. The Ministry of Special Initiatives has been proactively struggling to resolve the outstanding issues and ensure fast track implementation of the projects assigned to it. Resultantly, the Ministry has been able to achieve the followings:

- i. The process of award of contracts for installation of water filtration plants in Punjab was finalized and contracts were signed by Punjab Government with contractors on 30th June, 2009.
- ii. In Balochistan, 315 Plants have been installed under CDWA Project since November, 2008, raising the total number of plants to 405.
- iii. The Project implementation in Sindh faced problems arising out of non release of PSDP funds by the Finance Department, Sindh. The issue was pursued with Sindh Government and Finance Department finally released funds in March, 2010. With removal of this impediment the project is showing a good progress. The number of filtration plants installed in Sindh increased to 248 as of 15th May, 2010. It is expected that 450 water filtration plants shall be installed upto 30th June, 2010.
- iv. Most of the plants installed under CDWI Project, in the Punjab, Sindh, Balochistan, and AJK, have been made operational with the help and cooperation of respective Provincial Governments.

MAJOR CHALLENGES

- i. The project transferred to the Ministry of Special Initiatives were suffering from serious management issues. The Pakistan Dairy Development Company had overrun its estimated operational costs, too fewer funds were being released by Finance Division, which could only bear salaries bill and operating expenses of the Company.
- ii. The work of installation of water filtration plants in Khyber-Pakhtunkhwa stood stopped due to invalid and non extension of validity of bank guarantee by the Bank of Punjab and resultant unsecure mobilization advance given to the contractor.

FUTURE POLICY PRIORITIES

The Ministry feels itself as the focal point for conceiving, initiating and implementing cross-sectoral projects of national importance in close collaboration with the relevant ministries, provinces, donor agencies and other stakeholders to create ownership at user level. We have been working to endow this Division with technical, administrative and financial expertise to conceive cost-effective, practical and sustainable projects for the benefit of public.

Currently the Ministry is working on finalizing the following future initiatives:

CDWA Extension:

- i. Cooperation with USAID: The Ministry has signed an MOU with the USAID for the capacity building of the Ministry.
- ii. Solar water distillation and desalination plants for remote areas to convert brackish water into safe drinking water. Solar pumps can be used to pump the water.
- iii. The installation of Water Filtration Plants could be extended to village level so that total population of Pakistan would get clean and safe drinking water.

Pakistan Dairy Development Company (PDDC):

- i. To establish 150 rural contractors in next three years as per approved PC-I.
- ii. To establish 70 community farms in next three years as per approved PC-I.
- iii. To prepare 288 master trainers and conduct 3450 training events in next three years as per approved PC-I.
- iv. To establish 450 biogas plants in next three years as per approved PC-I.
- v. To establish 3 breeding farms in next three years as per approved PC-I.
- vi. PDDC is targeted to establish 2 large pasteurization plants and 16 small pasteurization plants in next three years as per approved PC-I.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

The Ministry of Sports was established as an independent ministry in April 2006 as a result of bifurcation of the Ministry of Culture and Sports. The Ministry has the primary responsibility of promotion and development of sports in the country. For this purpose, Pakistan Sports Board, established under the provisions of Sports (Development and Control) Ordinance, 1962 as a corporate body, has the mandate of promoting and developing uniform standards of competition in sports in Pakistan comparable to that prevailing internationally, and regulating and controlling sports in Pakistan on national basis. In the year 2008-09, PSB has been able to organize 17 sports events at national level in 8 disciplines and participated in 84 sports activities in 23 disciplines at International level. The Board has also arranged 5 Refresher Coaching Courses and organized 5 Youth Training Camps in each province and in the Capital. The Ministry is fully cognizant of the significance of female participation in sports activities and is adopting measures to ensure their due representation in the sports activities at national as well as international level.

Another important function of the Ministry of Sports is development of Sports infrastructure in the country. During the year 2008-09, an amount of Rs.350.419 million was provided in the PSDP for the execution of 34 sports development projects. However, as a result of PSDP review, this allocation was revised to Rs.140.00 million against which the actual release stood at Rs.66.378 million. Consequently, financial year 2008-09 witnessed severe financial constraints having impact on infrastructure developmental activities. Nevertheless, 4 sports development projects comprising stadium, gymnasium and other sporting facilities were completed during the year under review.

MAJOR CHALLENGES

Pakistan being the frontline state in the war against terrorism the sports sector, like other sectors, has also been affected. Not only the foreign teams are reluctant to visit Pakistan in the prevailing law and order situation, Pakistani players are also facing problems in their participation in international events abroad.

FUTURE POLICY PRIORITIES

The Government is committed not only to create sports culture in the country to foster harmony, unity and integrity among the nation but also to revive the international sports activities in the country by projecting a soft image of Pakistan to the international community.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

1. A total of 159,193/- Afghan Refugees were repatriated with the assistance of UNHCR.
2. Based on the need-assessment surveys for a Development Program on Rehabilitation of Refugees Affected and Hosting Areas (RAHA), a joint program was formulated for five years (2009-13) in coordination with and assistance of UNHCR and UNDP and formally launched in May 2009.
3. The Ministry remained keenly involved in establishing camps and resolving the issues of IDPs.
4. The Ministry of SAFRON attaches high priority and striving to keep Socio-economic condition of population in FATA at par with rest of the Country. Eight development projects with a total cost of Rs.3569.23 million with FEC component of Rs.2023.69 million in various sectors were processed for approval of the CDWP/ECNEC. Education, Health and capacity building of Law enforcement agencies continue to remain high priorities. 2500 posts of Federal Levies in FATA and 666 posts in PATA sanctioned. 2397 posts are in final stage of approval. Efforts are in progress for up-gradation of the posts of Federal Levies at par with Frontier Constabulary.
5. Quota of FATA candidates for Admission in Medical and Engineering Colleges was ensured.
6. Frontier Crimes (Amendment) Regulation in FATA has been finalized and is under submission to the President.
7. Anti-terrorist amended law extended to FATA.
8. Benazir University established at Sherin Gal (Dir).
9. Nizam-e-Adl Ordinance/Regulation, 2009 promulgated in PATA.

MAJOR CHALLENGES

FATA Secretariat has an independent PAO since 01.7.2006 for recurrent and development budget. Budgetary funds both recurrent and development are allocated to FATA Secretariat by Finance Division directly. Therefore, FATA might/should have not been included in the medium term (2010-2013) IBCs of Ministry of SAFRON. Ministry of SAFRON has no development project.

The recurrent budget provided by Ministry of Finance for the next year 2010-11 is not sufficient to meet the requirement for effective delivery of services and to improve the operational efficiency of the Ministry.

FUTURE POLICY PRIORITIES

1. Establishment of Six Cadet Colleges in FATA.
2. Processing the laws for extension to FATA and PATA of NWFP and Balochistan.
3. Benazir Bhutto Trust/Foundation will be established for rehabilitation and education of the children affected from Terrorism/aggression especially those in FATA.
4. Further Strengthening of Federal Levies, to beef up security and creation of Posts for NWFP/FATA/PATA.
5. Preparation of Service Rules for Federal Levies stationed at NWFP, FATA/PATA and Balochistan.
6. Amendment in the rules of Acceding States (Abolition of Privy Purses and Privileges) order, 1972 (President's order No. 15 of 1972).
7. Review the existing Afghan Refugees Repatriation Policy and Strategy.
Proof of registration cards to refugees extension till 2012.
8. Tripartite agreement between GOP & Afghanistan & UNHCR.
9. Rehabilitation of Afghan Refugees Affected and Hosting Areas (RAHA) initiative.

MAJOR CHALLENGES

Budget allocation in 2008-09 was 6,419,613,000 against which expenditure of 6,553,463,000 was done. This excess was financed through supplementary grant.

FATA - Sustainable Development Plan (2006-15)

FATA sustainable development plan identifies Rs 124.108 Billion requirement (2006-15) for sustainable development of the region and also indicates total GoP committed finances of Rs 63.6 Billion. This leaves a gap of Rs 60.508 Billion unfunded. The main challenge of this Sectt would be development of the region without financial commitments as identified in the fore mentioned report.

FUTURE POLICY PRIORITIES

Prioritization of governmental policies in FATA is as under:

- I. Education, Manpower and Skill Development Services
- II. Health Care Services
- III. Infrastructure Development services
- IV. Food, Agriculture and livestock development services
- V. Administrative & Political control of FATA & Frontier Regions
- VI. Natural Resource & Energy Development Services
- VII. Social Welfare Services

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

Pakistan has a dynamic vigorous and export oriented Textile Industry that has an overwhelming impact on economy. Textile being the largest industrial sector generates the country's highest export earnings of about 64%, providing the bulk of employment (39%) to largely under utilized workforce, and contributes 8.5% to GDP. During the year 2008-09 the export of textile group increased by 4.9%, whereas exports of some of the products have almost doubled during the year. Prominent among these were export of knit-wear (13.9%), readymade garments (6.8%) and cotton yarn (4.6%). This reflects that our product base within the textiles is diversifying from the traditional cotton base.

Post quota scenario has dramatically changed the global trade patterns and increased the competition; nonetheless there is a new focus required for textile industry to increase their successive rate. Keeping this in view, a separate Ministry was created on 2nd September 2004 and assigned the responsibility to formulate strategies and programs to facilitate the textile sector for attaining sustainable growth. The Ministry is currently in the process of implementing and finalizing various initiatives like acquiring professional management skill, technological upgradation, and human resource development innovations in diverse products for maintaining standards, ensuring quality and to produce contamination free cotton to bridge the country's yawning trade gap as well. To achieve even higher objectives and to anticipate the challenges confronting the textile sector in post quota scenario, the Government of Pakistan introduced a special textile package in the form of R&D support @ 6%. This support has helped the textile garment sector to survive and sustain itself. A similar support has also been extended to home textile sector in year 2008-09. During the year Rs.18.434 billion have been disbursed through this scheme out of which Rs.14.286 billion have been paid to the garment sector.

MAJOR CHALLENGES

- a. Implementation of Cotton Standardization System all over the Cotton belt.
- b. 100% Collection of CSF.
- c. The Institute is facing budgetary constraints. The total budget allocated to the institute for the financial year 2008-09 was Rs.45.068 million out of which the institute incurred Rs.38.822 million against establishment charges and only Rs.6.246 million was left to be incurred on operational expenditures which is far behind the actual requirements to carry forward the activities of the Institute.
- d. Training of trainers abroad, Upgradation of textile processing facilities and ECO testing Lab equipment by incorporating IT/Computer aided engineering equipment is essential. It will ensure to achieve quality human resource development targets especially keeping in view the WTO challenges as the existing equipment is about 15 years old.

e. National Textile University Faisalabad provides education of highest quality & best in value in the country but also matches the international standards for which the University continuously seek to improve opportunities and resources for its scholarly activities and research.

FUTURE POLICY PRIORITIES

- a. Sustain the growth of textile sector in an increasingly competitive environment effectively responding to the challenges and opportunities provided by the globalization of trade and providing a forum to the domestic textile industry for a mutually beneficial interface.
- b. The major industrial segment i.e. textile sector in the present global scenario, post quota regime, multi fiber phase out program, high competitive market and world wide growing demand are continuously demanding for quality improvement of the entire chain of textiles. Under WTO post quota scenario the country appears to have the potential of becoming a leading force in the world wide cotton and textile market place. There is growing realization in the country that future gains are explicitly possible through qualitative improvement in raw cotton.
- c. The cotton ginning sector is the weakest link in the chain of cotton processing industry and to combat this problem establishment of Cotton Research Training Institute was imperative. The Government approved the establishment of Cotton Ginning Research & Training Institute at Multan and allocated Rs.20.000 million for the purpose.
- d. The Stitching Machine Operators Training Program (SMOT) named as SMOT program Phase-II has been recently restructured and launched. Learning from the experience of SMOT program SMOT-2 has been refined, re-organized and made more transparent.
- e. Amendment in Provincial Cotton Act 1966 for the mandatory marking of grade and staple length on each bale by the ginners.
- f. Establishment of a network of Cotton Fiber Testing Laboratories Equipped with HVIs at district level.
- g. Promotion and implementation of cotton processing system based on grade, staple length and other Fiber properties subject to premium and discount.
- h. Induction of private inspection companies for certifying the cotton quality.
- i. Campaigns for producing standardized and clean cotton.
- j. 100% collection of Pakistan Cotton Standards Institute with men and machine.
- k. Launching of education/awareness campaign to develop a quality culture in the country through print/electronic media and by conducting increased number of training courses.
- l. Provision of online (web-based) quality data to buyers to purchase cotton according to their specification and requirements.
- m. Upgradation of Research & Development Facilities at Fiber Development and Application Centre was submitted to Ministry of Textile Industry in April 2008.
- n. Commencement of classes in M.S. (Textile Engineering) in October/November 2008.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

There is an increase in the area of land under irrigation as a result of repair of flood embankment, excavation and re-excavation of drainage canals and construction and re-construction of the required infra-structures. Through the repair of existing embankments, construction of new embankments, and maintenance and forestation programmes, a big area of land out of the saline risk coastal area, has been protected against salinity. Under programmes for river bank protection and where possible, protection of towns, historical and nationally important establishments and assets, the protection of new river bank and the repair of existing river bank have been accomplished. In addition, through the construction of spurs, the properties and assets of people and important establishments have been protected from the erosion along the rivers. During the last three years, investigations on 4 physical model works and examination of samples relating to soil, concrete, silt and chemicals have been completed. In addition, 80% of the "Impact of Bending on River Flows and Morphology" project has been completed. A number of meetings of the Joint River Commission have been held with India two at minister level and one at water secretary level. One meeting has been held with China at the minister level, and 12 meetings with India at various other levels were held to resolve problems relating to the distribution of water from common and border rivers, improvement of the timing of flood forecast, the collection of data and information from upstream stations on the common and border rivers and the resolution of problems arising from protection works along river banks and other problems. Flood forecast supporting data and information is required relating to common and Border Rivers, this was received from 18 stations in India. Different reforms programme have been implemented to ensure electricity for all by the year 2020. Contracts have been signed for the installation of power plants on a short term rental basis. A 'Policy to Purchase Power from Captive Power Plants' has been framed and the 'Remote Area Power Supply Systems (RAPSS) Policy' has been approved. Tender has been invited after completion of prequalification bid for private sector power production, transmission and distribution. Seven surveys including details of power sector reforms have been completed in order to improve efficiency, ensure transparency and accountability in the power sector. In addition, a policy for the development and expansion of renewable energy has been approved.

MAJOR CHALLENGES

Progress on various development projects was badly affected due to non-availability of funds and the overall planned targets could not be met.

FUTURE POLICY PRIORITIES

In the course of the coming three years, 2010/11 to 2012/13, there are plans to undertake the construction of embankments, carry out required repair, excavate irrigation canals, excavate and re-excavate drainage out lets, construct and repair irrigation structures, construct and repair flood control infrastructure, to protect river banks, perform river dredging and construct rubber dams, bridges and culvert. During the period of the coming three years, there are plans to complete investigation works on physical model and examination of samples relating to soil, concrete, silt and chemicals. Through undertaking bilateral and multilateral cooperation related programmes; completion of water sharing agreement relating to different common and border rivers, ensuring due share of water resources, development and receipt of flood related data and

information, resolution of problems arising from embankment and bank protection works, operation of joint research and technical programmes the continuation and preparation of projects through international and regional cooperation will be assured. Transparency and accountability will be ensured through necessary reforms within the power sector. A "3-Year Road Map" and surveys on three related areas in the power sector will be implemented to provide quality and reliable power supply at an affordable price for the people. Interface meters will be installed to bring greater transparency to records maintained by the companies/agencies related to the purchase and sale of power. As a result systems loss will be significantly reduced. Under the 'Private Sector Power Generation Policy' initiatives have been taken to build new power plants. If this initiative is successfully implemented additional power will be added to the national grid, allowing a significant reduction in load shedding. In addition to these activities, initiatives have been taken to improve financial prospects and to help maintain balanced accounting under the 'Financial Restructuring and Recovery Plan'. To meet the increasing demand of the country a plan has been put in place to generate additional power in the future. This includes, establishing 3 year and 15 year rental of additional power plants. According to the contract under PDB construction works for four year, small IPP is expected to be completed by this year. Like wise to improve the distribution system a plan has been taken to install new transmission lines in the next three years. As a result the demand for power could be met to a large extent. More activities under PDB will be implemented to increase generation by renovating the existing power plants of the country.

Strategic Overview**SIGNIFICANT ACHIEVEMENTS DURING 2008-09**

The ministry of youth affairs was established as an independent ministry on 18-11-2005 as a result of bifurcation of ministry of Culture, Sports and Youth Affairs. According to the rules of business, ministry of youth affairs deals with policy and legislation on all aspects of youth affairs, interprovincial coordination, youth activities, youth exchange programmes and non-governmental organizations dealing with youth. The definition of Youth is non-student youth between the age of 15 and 29 years. Youth constitute one fourth of the entire population.

In addition to above a task of providing National Internship to the educated youth and promotion of volunteerism among the people of Pakistan has been assigned to this ministry.

National Youth Policy was approved by the cabinet and different projects/programmes proposed in the policy are being prepared/ implemented specially the programme of National Integration, encouragement of Youth through awards, computer training etc.

During 2008-09 two programmes of See Pakistan National Youth Camps for promotion of national integration were organized in which 175 youth participated. 35 National Youth Awards were given to youth to recognize their achievement s/services rendered in different fields. 85 youth were provided computer training through Mobile Computer Van. 13 best Essay Writer youth were given cash prizes.

10 youth delegations were exchanged with different countries to provide them an opportunity to see land, culture and economic development and also to exchange ideas of mutual interest of each other during the exchange of youth delegations. Pakistan is committed to active participation in the youth activities to create understanding among youth of friendly countries.

In order to provide place for cultural, recreational activities along with vocational training the ministry has started a programme for construction of Youth Development Centers in the country. Initially 8 Youth Development Centers were planned at Lahore, Multan, Karachi, Sukkur, Peshawar, Quetta, Gawadar and Gilgit. In these centers Peshawar and Quetta has been completed.

MAJOR CHALLENGES

The ministry has no organizational set up in provinces or rural areas, therefore, the main activities are carried out through the provincial Youth Affairs Departments which are also not fully operational, therefore implementations of development projects/activities are affected.

Due to war against terrorism not only foreign delegations are reluctant to visit Pakistan but Pakistani youth are also facing problems in their participation as foreign countries are reluctant to invite Pakistani youth.

Strategic Overview

SIGNIFICANT ACHIEVEMENTS DURING 2008-09

The Zakat and Ushr Wing which was the part of Ministry of Religious Affairs prior to 3rd November, 2008, has become an independent Ministry under the name of Ministry of Zakat and Ushr w.e.f. 03-11-2009. However, there was no change in its service delivery i.e., Policy formulation and administrative support services for collection and disbursement of Zakat, which contributed considerably to mitigate the sufferings of the poor segment of the society in Pakistan. About one million Mustahiqeen across the country have been benefited from Zakat fund of more than Rupees Four Billion during 2008-09 in the form of Educational Stipends, Guzara Allowance, Jehaz Fund and Health Care Sector etc. Moreover, Rs. 10 Million have been provided for the rehabilitation of the Internally Displaced Persons (IDPs) of FATA and Malakand Division and Earthquake victims of the Balochistan.

MAJOR CHALLENGES

Immediately after creation as an independent Ministry, it has faced lot of problems in the form of shortage of staff and funds. After hectic efforts Finance Division had provided additional funds of Rs. 7.825 Million for the financial year 2008-09 through supplementary grant, but said funds were not proved to be sufficient to meet the actual requirement of this Ministry. Similarly, no additional staff as per requirement of this Ministry had been provided during 2008-09.

FUTURE POLICY PRIORITIES

The following are the major future priorities of this Ministry:-

Revamping of Zakat System The Federal Cabinet in its meeting held on 03-06-2009 has constituted a committee under the Chairmanship of Minister for Parliamentary Affairs to review the existing Zakat System. Deliberations to overhaul the existing Zakat system, by the said committee, are in progress to draft new legal structure (rules and procedures).

Automation of Zakat System (MIS / IT): In order to evolve a comprehensive, fair and transparent Zakat disbursement mechanism and for a fast information flow, a project regarding automation of Zakat system with the collaboration of Electronic Government Directorate under the Ministry of Information Technology is in hand.

Overseas Pakistanis: At present millions of Pakistanis are living abroad and almost all of them are well off. They can contribute a lot towards collection of Zakat. A program is underway to persuade them to pay Zakat on voluntary basis for the welfare of their poor brethren in Pakistan.

Links with International Zakat Organization: The Government has approved the proposal of this Ministry to attain full membership of the International Zakat Organization (IZO). This membership will facilitate this Ministry to pool and maximize expertise of Muslims from various disciplines to study and seek a solution on issues regarding poverty among Islamic nations. It will also foster, promote and advance cooperation in international disaster relief works, health awareness programs and other charitable activities. In addition, the surplus collection of Zakat funds among richer Muslim countries can also be transferred to the poorer Muslim countries for disbursement among the Mustahiqeen.
