# **LIVESTOCK**

## **IMPORTANCE OF LIVESTOCK AND DAIRY SECTOR IN PUNJAB**

Livestock plays an important role for the uplift of rural economy by contributing 11.8% in national GDP and 55.5% in the agriculture sector's share of GDP. It is considered a source of employment generation in rural areas, helping reduce variation in income. It is central to the livelihood of the rural poor and can play an important role in poverty alleviation.

Pakistan's livestock population, out of which a majority is in Punjab, is one of the largest in the world. Small ruminants and other animals form part of rural households' food basket, provide a cushion in case of crop failures and can be sold to meet emergency expenditures. Historically it has been dominated by small holders, with 88% of livestock owners possessing six animals or less. This helps them meet their needs of milk, food security and cash income on a daily basis. They also use these animals and their progenies as a saving mechanism.

However, the productivity of the livestock sector in Punjab is low compared with international markets, in terms of meat and milk output.

## **BENEFITS OF GROWTH IN LIVESTOCK**

The Government believes that increase in livestock production can have a strong impact on the incomes of the rural poor. Productivity increase in livestock and dairy can have significant positive impact on total income in the sector as well as exports. There is substantial scope in increasing the export of high-value livestock and dairy value-added products.

## **VISION**

Sustainable Livestock Sector Development which contributes to food and nutritional security, enhance its contribution to broad based economic growth livelihood and well being of actors in the livestock sector.

## **OBJECTIVES**

- Promote per animal productivity rather than increasing livestock numbers by appropriate measures to improve the genetic potential
- Encourage the livestock farmers, to adopt improved methods of animal husbandry by demonstrating greater efficiency and better returns as compared to traditional methods.
- Divert focus to enhance the quantity and nutritional quality of feed and fodder supplies and its processing.

- Transforming of livestock business from subsistence to the commercial venture
- Reformulate regulatory regime to attract private investment
- Involve community organizations and joint ventures with foreign investors in the field of livestock production.

## **STRATEGIC INTERVENTIONS**

- Rural growth and poverty reduction through enhanced production and marketing of livestock products in Layyah, Mianwali, Khushab & Bhakkar -
- Restructuring and re-organization of breeding services
- Strengthening Buffalo Research Institute, Pattoki
- Exploration of biogas energy resources at livestock farms in holistic manner
- Provision of Rural Poultry Breeds through augmenting Research & Development.
- Up-scaling Research Center for Conservation of Sahiwal Cattle (RCCSC) Genetic Improvement Programme
- Establishment of University of Veterinary & Animal Sciences at Bahawalpur.
- Establishment of Model Veterinary Hospital at one Tehsil of each division in Punjab

# **TRANSPORT**

## **IMPORTANCE OF PUBLIC TRANSPORT**

Public transport provides an essential service to citizens, especially the poor. Mobility is considered a human right as it allows the public to reach places of work, education, commerce, services and recreation. It can play a role in increasing the size of the labour market by providing greater access to employment opportunities for those who cannot afford private transport. This impact is especially pronounced in the case of women, who can have a safer and more reliable mode of transport, allowing them to enhance their participation in the labor market.

The demand for urban transport facilities has increased manifold in all expanding cities in Punjab, while public transport has been of inadequate quality with a few exceptions. Due to lack of quality public transport, the use of private motorized transport is increasing on roads.

## **VISION**

Provision of efficient, economical, comfortable and safe transport facility for the public in Punjab

## **OBJECTIVES**

- To provide accessible and time saving travelling.
- To develop environment friendly transport system.
- To regulate, monitor and maintain a robust transport system in large cities of the province.

## **STRATEGY**

- Encourage private investment in the public urban transport sector in Public Private Partnership mode.
- In-house Capacity building for planning new projects through Transport Planning Unit.

**GOVERNMENT OF THE PUNJAB  
FINANCE DEPARTMENT**

**WHITE PAPER  
BUDGET 2014 - 15**

**June 13, 2014**

---

# PREFACE

---

This White Paper is a policy document used as a means of presenting government policy preferences and it performs the dual role of presenting government's policies while at the same time inviting opinions thereon.

White Paper is an explanatory guide through the maze of statistics and budgetary estimates given in the complicated budget books. It aims at elaborating government's policies and decisions that steer the budget formulation process. It enables even a casual reader to understand various projections and budget estimates.

The Executive Summary to the White Paper provides a brief overview of economic environment that propelled policy decisions that translated into budgetary targets. A chapter on Annual Development Programme presents salient features of the development initiatives taken and to be undertaken or continued in the next financial year. Various other Chapters have been included detailing Estimates of Receipts & Expenditures, Public Account, Over view of Fiscal Management Reforms, Debt & Contingent Liabilities, Local Revenue Authority, and Local Government Finance.

Like all budget Documents, White Paper is the outcome of a team effort of the officers and officials of the Finance Department. I acknowledge and appreciate the pain stacking efforts of Mr. Furqan Ahmad, Composer, Mr. Socrat Aman Rana, Deputy Secretary (Resources), Mr. Mahmood Hassan, Additional Finance Secretary (Budget) and Mr. Ahmad Raza Sarwar, Special Secretary Finance, in preparing the White Paper.

## EXECUTIVE SUMMARY

On the economic front, the country is facing many challenges mainly from power shortages and terrorism that are not allowing the country to achieve its true economic potential. Despite all these challenges, the national economy managed to grow by 4.14% during FY 2013-14. The country also showed significant improvement on external front as the Foreign Exchange Reserves reached a comfortable level while exchange rate remained stable.

Overall confidence on Pakistan's economy is increasing in the international markets. The Stock Exchange (KSE-100 index) which is considered a leading indicator of an economy, increased by 46% in a short span from May 2013 to May 2014 – it rose from 19,916 to 29,543 points. As a result of prudent fiscal and monetary measures taken by the Federal Government, inflation came down to single digit during July – May 2014 (8.26%) from the average of around 12% during the last five years.

Fiscal Deficit, which was 5.5% during Jul-Apr 2012-13, is reducing for the corresponding period of this year. Tax-to-GDP ratio, however, remained 9.7% which is significantly lower than the countries at similar development status. Although FBR registered a handsome growth of 16.4% in revenue collection during 11 months of FY 2013-14, the collection target has been lowered from Rs. 2,475 billion to Rs. 2,275 billion. The federal target for next year is Rs 2,810 billion, an increase of 23.5% from the revised target.

Punjab largely depends on federal transfers from the divisible pool for its expenditure plans. Any short fall in collection at the federal level has a direct impact on the revenue receipts of the province. Such a situation requires expenditure controls and is detrimental to development planning. The classical approach is of cautious financial management with an eye on cash balance. The situation is compounded by the fact the provinces cannot borrow to meet deficits which may arise in a situation of volatile revenue transfers. Despite these financial constraints, Government of Punjab completed its priority development projects without any delay.

The Government of Punjab has ambitious plans for spurring economic growth, providing quality public services, building infrastructure and protecting the vulnerable and marginalized of the province. These objectives require revenue generation for meeting development and operational expenses. Government of Punjab intends to generate revenue from provincial own resources through better tax management, in particular plugging leakages, taxing untaxed areas and rationalizing taxes in under taxed area. These measures would be complemented by tax payer

facilitation, reducing interface between the tax collector and the tax payer and promoting a culture of tax payment and compliance. It also intends to recognize and encourage tax payers through incentives and recognition. These revenue generation measures must be situated in the context of income disparities and the incidence of poverty. Government of Punjab therefore believes in equity and fair play in tax administration. Government of Punjab's tax reforms agenda is to implement an efficient tax system with transitional losses and to bring the tax rates at reasonable level by undertaking broad based tax reforms and increasing the tax base rather than transferring further burden on existing tax payers. E stamping, automation of properties through GIS mapping, elimination of redundant taxes like Bed Tax etc. are some of the measures proposed for FY 2014-15.

Punjab Revenue Authority (PRA), created in July 2012, is primarily tasked to collect Sales Tax on Services. The Authority has demonstrated promising potential of growth since its inception. It continues to expand tax base with an aim to enter a negative tariff regime in the coming years. More and more services are being brought into the tax net. The organization is building its capacity so that it can expand coverage in the major urban centers in Punjab. Its organizational strength is being further augmented through a range of subordinate legislation that will make PRA more effective in increasing the provincial own source revenues. Apart from PRA, government is also focused on improving the tax collection of Excise & Taxation Department and Board of Revenue. Without much addition in new taxes, both the organisations have planned to improve their collection by plugging the leakages through automation and computerization of their tax collection regimes. In case of non-tax levies, the existing rates which were levied more than five years ago, have been revised upwards. However, adequate safeguards have been placed for economically vulnerable.

Finance Act 2014 further brings a number of changes in the existing regimes of revenue collection. It provides for imposition of luxury tax on palatial houses and luxury vehicles. A number of changes have been incorporated in Punjab Sales Tax on Services to rationalize and bring harmony in the existing Sales Tax regime. A separate legislation is also being introduced to impose Punjab Infrastructure Development Cess. This tax will be levied on goods destined for export or imported and passing through the limits of the province of Punjab.

On the expenditure side, Punjab Government remains fully committed to curtailing avoidable expenditures and to allocate more resources for health and education & infrastructure. Current Revenue allocations in FY 2014-15 for Health & Education have been increased significantly.

Punjab's Development Budget has been formulated to trigger economic growth which would achieve the target of 8% by 2017-18. It focuses on growth that is sustainable and has the capacity to transform the socio-economic status of its citizens. The Development Budget is geared towards creating jobs and generating private investment. The poor and vulnerable of a society often do not benefit from the growth and investments. This segment needs special attention and

hand holding to protect and help them participate in social and economic life. Government of Punjab invests in social protection and welfare for such members of the communities. A number of pro-poor initiatives such as the Punjab Education Endowment Fund, subsidy on public transport and agriculture inputs, provision of free text books and stipends to girl students, availability of sufficient free medicines in hospitals and many other such interventions have been planned and adequately budgeted in the next financial year.

Energy shortage has plagued the economy and hampers it from realizing its full potential. It has not only stunted the growth of economy, but has also brought miseries for ordinary citizens who are unable to continue livelihoods and businesses. Government of Punjab has taken a number of initiatives to combat the energy crises. The establishment of Quaid-e-Azam Solar Park in Cholistan Bahawapur is a reflection of the resolve of the government to deal with power crises. Earmarking of sites for coal fired power plants in the province and exploitation of indigenous fuels such as biomass and biogas are part of Government of Punjab's priorities. Development budget 2014-15 includes a sizable allocation for energy related projects.

In recent times, Pension Management has remained a center of focus not only among the developed countries but also for developing countries. Punjab is the largest province of the country having approximately one million employees and 436,995 pensioners. In conformity with the global trend, Government of Punjab initiated a number of pension reforms in last few years. A dedicated corporate entity, Punjab Pension Fund has been established through enactment by Punjab Provincial Assembly to enhance the Fund size to meet the liabilities of Pension through prudent investments. Further, Government has also taken various measures for facilitating pensioners in pension disbursement.

Despite limited resources and severe economic crises, Government of Punjab through better administrative and fiscal management has managed to keep its debt at manageable level. Government of Punjab has a small debt liability compared to size of Gross Regional Product of the province. At end of June-2014, the Punjab's total debt was Rs. 452 billion, or 3.52% of provinces' economy.

Another window of opportunity is the interest of private sector in building public private partnership through which not only would the private sector would accrue profits but efficiency gain would be achieved through leveraging of public assets and investments too. Government of Punjab is keenly looking to work in cooperation with private sector to utilize the province's resources more efficiently.

## ESTIMATES OF RECEIPTS

### 1. ANALYSIS OF RECEIPTS – FINANCIAL YEAR 2013-14

The two components of receipts as per the Annual Budget Statement (ABS) are:

- 1) General Revenue Receipts
- 2) General Capital Receipts

The following flow chart provides various sub-categories of the receipts leading to the two major heads of receipts mentioned above.

In FY 2013-14, total receipts were estimated at Rs. 1,180,214.210 million. Revised estimate are Rs. 1,153,356.207 million. For FY 2014-15, total Receipts have been pitched at Rs. 1,349,404.205 million.

The total receipts less Food Account Receipts has been pitched at Rs. 1,095,123.832

million for the FY 2014-15 as compared to Rs. 919,314.576 million for BE 2013-14. The increase in estimates of General Revenue Receipts for FY 2014-15 is mainly attributable to expected increase of 14.5% in the Federal Divisible Pool.

Federal Divisible Pool share is estimated to be Rs.804,195.607 million in FY2014-15, compared to budget estimate of Rs. 702,120.646 million in FY 2013-14, assuming a growth in tax collection of FBR by 23.5% from the RE 2013-14. Budgetary Estimates of Provincial Tax Receipts for FY 2014-15 have been fixed at Rs. 164,680.244 million in comparison with Revised Estimates of Rs. 111,788.994 million for FY 2013-14.

For non-tax receipts, an estimate of Rs. 64,197.368 million has been fixed for FY 2014-15 against budgetary estimates of Rs. 43,129.872 million in FY 2013-14. Table below summarises the estimates of total Provincial Receipts of the Government.

The definitions, composition and analysis of different types of receipts are given below: -

## 1.1 General Revenue Receipts

The main heads according to the Annual Budget Statement are as follows:

### I) Federal Transfers:

- Share of Federal Divisible Pool of Taxes as per the 7<sup>th</sup> National Finance Commission (NFC) Award.

### II) Provincial Own Receipt:

- Provincial Tax Receipts
- Provincial Non-Tax Receipts
  - Provincial Non Tax Revenues

- Straight Transfers as per Article 161 of the Constitution and NFC Award with respect to royalties on Oil & Gas, and net proceeds of the Federal excise duty on natural gas
- Federal Development and Non Development Grants released to executing agencies. These are only pass through items
- Extraordinary Receipts

Table below shows the details of Budget Estimates and Revised Estimates for General Revenue Receipts for FY 2013-14 in comparison with the anticipated Budget Estimates for FY 2014-15. Federal Grants and Straight Transfers that form part of provincial non-tax receipts in the Annual Budget Statement (ABS) have been shown separately to furnish a clear picture of the provincial non-tax collection of the Province.

<b>Total General Revenue Receipts</b>	<b>871,953.317</b>	<b>845,169.177</b>	<b>1,033,073.219</b>

As depicted in Table above, the General Revenue Receipts for FY 2013-14 were estimated at Rs. 871,953.317 million, which subsequently decreased by Rs. 26,784.140 million on account of 8.7% less receipts of Federal Divisible Pool Taxes from the anticipated amount of tax collection by FBR. However, for FY 2014-15, the estimates of General Revenue Receipts have been pitched at Rs. 1,033,073.219 million. This increase is projected on the basis of FBR collection estimates of Rs.2,810 billion during FY 2014-15.

It is evident from the above table that major source of revenue for the Provincial Government is Federal Divisible Pool share receipt in lieu of the Federal Transfers. This is primarily because of the structure of fiscal federalism which allocates almost all buoyant taxes such as income tax, sales tax on goods, customs and excise duties to the Federation.

Figure below reflects the share of components of the General Revenue Receipts:

Heavy dependence on Divisible Pool Transfers implies that in case of a small (say 5%) shortfall in FBR revenue collection, the provincial government has to make major adjustments in its expenditures.

Figure further provides a comparison of budget estimates of different components of General Revenue Receipts for FY 2013-14 and 2014-15.

<b>Total Provincial Tax Revenue</b>	<b>126,702.799</b>	<b>111,788.994</b>	<b>164,680.244</b>

The above table shows that tax collection by the government during FY 2014-15 is pitched at Rs.164,680.244 million as compared to RE 2013-14 of Rs.111,788.994 million. In this way government expects to increase its tax collection by 47% from the Revised Estimates. The government has however taken necessary steps including expansion in scope of different taxes and improving collection efficiency with measures like e-stamping, automation of property tax record through GIS mapping of properties, plugging of revenue leakages and simplification of procedures.

The shortfall seen in the revised estimates for FY 2013-14 as against the Budgetary Estimates for FY 2013-14 can be attributed to shortfall in Board of Revenue with respect to AIT which remained less than 143% from the BE 2013-14. The same was the case with respect to Stamp Duty collection which remained 5.4% less than BE 2013-14. It is hoped that with the implementation of E-Stamping the Board of Revenue would be able to give a growth of 28.8% in Stamp Duty collection. The UIPT collection remained 36.6% less than the budgetary estimates however, with the new valuation tables coming into force in the next financial year, the same would be augmented by 13.7% from the last year. The Sales Tax on Services is clearly indicating that it will in future make unprecedented achievements increasing revenue income of the province. However, there is still a lot of potential to be tapped from this tax by extending its base and increasing efficiency of collection. At present the tax is being collected from 37 different categories of services. The government intends to include 10 more services in the next financial year in a bid to realize the full potential of this tax. The government in order to plug compliance gap arising out of the diversified interpretation of the service tax tariff has further rationalized the description so that tax evasion could be minimized.

## A. Provincial Tax Receipts Collected By Board of Revenue

The following pie chart shows the composition of taxes collected by Board of Revenue as estimated for FY 2014-15.

**Figure 1.4**  
**Board of Revenue Taxes BE 2014-15**

Board of Revenue has been assigned collection of Agriculture Income Tax, Registration Duty, Land Revenue, Capital Value Tax & Stamp Duty. Its contribution in the overall tax receipts of Province is projected to increase from Rs.37,918.950 million for FY 2013-14 to Rs. 39,789.784 million in FY 2014-15. The following measures are underway for increased resource mobilization efforts by BOR:

- Computerization of land records by December 2014
- Introduction of e-Stamping by December 2014 (Creation of PMU – ADP Allocation of Rs. 375 million)
- Enhanced monitoring and audit
- Rationalization of District Collector's Table by 30<sup>th</sup> June, 2014
- Rationalization of Stamp Duty – from 2% to 3%
- Flat rate for Registration Fee (from Rs. 500 to Rs. 1000 as per pecuniary ceiling)

For the purpose of clarity the major tax heads under BOR's preview are elaborated upon as follows:

### a) Agricultural Income Tax

Agricultural Income Tax (AIT) is an important direct tax available to provinces. AIT Act was promulgated in 1997. It envisaged payment of fixed amount per acre of land. Major amendments were introduced to this Act in 2001 and whereby holders of 25 acre irrigated land (equivalent to 50 acre un-irrigated land) were required to submit their AIT return. The income mode of the tax was, however, not practically implemented due to capacity related issues of the collectors in the field. The collection of tax, however, continued in the fixed mode and owing to the sub-division of land over-time into smaller holdings, and exemption to owners of up to 12.5 acres, the collection from this tax has been declining in recent times.

### b) Land Revenue

Land Revenue is a broad category, and includes a number of receipts related to Land Revenue functions. This category of Provincial Tax Receipt has a lot of potential and it is expected

to contribute Rs. 11,788.682 million to the provincial exchequer for FY 2014-15. During the last few years, Government has tried to tap buoyancy of this source by introducing structural reforms which included introduction of valuation table to rural areas for the purpose of mutation. Government intends to complete the automation of land revenue record under a foreign funded project named Land Record Management Information System, at the earliest. Complete automation is likely to enhance buoyancy of this tax even further.

### c) Stamp Duty

The increase in the BE 2014-15 can be attributed to revision of valuation tables/DC tables annually to reduce the gap between the value of property assessed by the DC tables & the market value of properties. Government is considering introduction of further reforms including introduction of e-stamping to land transactions to plug leakages in this tax and to ensure greater transparency in the process of transfer of property.

Further, since the private housing societies are not obliged to encourage registration of transfer deeds, therefore, the one percent levy as registration fee has been discontinued in favour of a flat rate of Rs. 500 (for property upto Rs. 500,000/-), Rs. 1,000/- (for property exceeding Rs.500,000/-) and a one percent enhancement in the stamp duty rate has been made in the stamp duty.

Keeping in view the inflationary impact the rates of stamp papers for affidavit, agreement, cancellation, contract deed, divorce, partnership, declaration and revocation of trust has been enhanced after 20 years.

The Budget Estimates of Stamp Duty for FY 2014-15 has been pitched at Rs. 18,937.262 million which is 28.8% higher than the BE 2013-14 on account of introduction of e-stamping.

## B. Provincial Tax Receipts Collected By Excise & Taxation

The following pie chart shows the composition of taxes collected by Excise & Taxation as estimated by FY 2014-15.

**a) Urban Immoveable Property Tax (UIPT)**

The UIPT is essentially a devolved tax, but for administrative convenience it is being collected by the Provincial Government and passed on to the respective TMAs as per the agreed distribution. The UIPT for FY 2014-15 stands at Rs. 7,750.000 million which is 6.8% higher than BE 2013-14.

The government has completed automation of property tax record through GIS mapping of properties in five major districts. The revised valuation tables with a 50% enhancement in rental rates and a further reduction in UIPT rates to 5% would be enforceable in FY 2014-15. This would not only improve the under-taxation of properties but would be beneficial in documenting occupied excess properties.

The tax demand would be facilitated through a property tax calculator whereby tax-payers would be able to generate their own UIPT demand and avoid interface with the tax collectors. In view of the above measures, the proceeds of this tax are likely to undergo a significant increase.

**b) Tax on Luxury and Palatial Houses**

In order to tax luxurious lifestyle the government has levied a tax on luxurious and palatial houses from the owners, occupant or transferee of a residential house notified areas.

**c) Professional Tax**

The B.E for FY2014-15 with respect to professional tax have been pitched at Rs. 583.359 million. The contribution of professional Tax is not huge, but being a direct tax, it has good potential in the long term.

**C. Provincial Tax Receipts collected by Punjab Revenue Authority**

PRA has already developed a complete system for real time monitoring of transactions in food sector services. PRA will soon apply a scheme of Restaurant Invoice Monitoring System (RIMS). In order to effectively manage the operational side of revenue automation in the province of Punjab, the government has allowed PRA to establish Punjab Government Revenue Automation Limited (PGRAL) on the analogy of Pakistan Revenue Automation Limited (PRAL). PGRAL will work in close collaboration with Punjab Information Technology Board and undertake rigorous programs for process-reengineering and automation of other provincial taxes before their regular transfer to PRA. PRA has already finalized the enforcement rules and reward rules.

After commencement of VAT-like sales tax on hotels, continuation of bed tax remains no more justified. Bed tax is therefore, being abolished. However, sales tax threshold exemptions on hotels are being reviewed so as to enlarge the outreach of sales tax and broadening of sales tax base. This will also help promote economic documentation of hotels sector in the province.

Ten new services have been incorporated in the sales tax net. Most of these services were either being partially taxed as part and parcel of taxable services of other business domains

or were failing to discharge tax liabilities in respect of the taxable component of their main business activities. Inclusion of these new services will also further bring equity in the Punjab sales tax base and also harmonize the service tax system of Punjab with other provinces.

In view of the above, the budgetary estimates 2014-15 for PRA has been pitched at Rs.95,000.000 million as against Rs. 62,350.000 million for FY 2013-14 which is 52.4% higher than last year owing to the still untapped potential in the sales tax net.

## II. Non-Tax Revenue

Non-Tax Receipts accrue mainly on account of regulatory functions performed by the Provincial Government and rates and fees charged for the provision of certain social and economic services and also include Federal Grants and Straight Transfers received from Federal Government. Table summarises the Revised Estimates for FY 2013-14 as against the initial BE for FY 2013-14. The BE for FY 2014-15 has been affixed at Rs. 38,180.368 million.

Table below shows a comparison of the Provincial Non-Tax receipts between FY 2013-14 and FY 2014-15.

**A. Non Tax Revenue – Income from Property and Enterprises**

From the table above, it is clear that this component of the non-tax revenue is an important part of Non-Tax Revenue for the province.

The Income from property and enterprises comprises of two components.

- Net hydel profit
- Income from interest on loans advanced to financial institutions, local governments, autonomous bodies and government servants etc.

**a. Net Hydel Profit to Punjab Government**

The background of the issue is that Punjab had not been receiving net hydel profits from the Federal Government since 1996-97. Punjab Government is now requesting the Federal Government to resolve the issue of payment of arrears of net hydel profit to Punjab since 2004-05 onwards in addition to regular payment of net hydel profit accruing every year. In order to have a claim over Federal Government of net hydel profit an allocation of Rs.21,000.000 million has been made in BE 2014-15.

### b. Interest on loans

Punjab Government extends loans to local governments, financial institutions and autonomous bodies under its purview for meeting their current and development expenditures. The interest from these loans is another important part of receipts of "Income from Property and Enterprises". Interest amounting to Rs. 366.844 million was received during FY 2013-14 and the interest income for FY 2014-15 has been pitched at Rs. 361.469 million. It may be pertinent to mention here that after the issuance of right shares against subscription money of Rs. 10,000.000 million by Bank of Punjab the interest payments to Government of Punjab would not be available in FY 2014-15. Hence, the interest income during next financial year is expected to be considerably lower than FY 2013-14.

**Figure 1.7**  
**Income from Property and Enterprises BE 2014-15**

### B. Non Tax Revenue – Civil Administration & Other Functions

These receipts generally accrue from the regulatory and administrative functions of the Government and pension contribution on behalf of provincial civil servants working in autonomous bodies etc. Government is expected to collect Rs. 8,759.188 million during FY 2014-15 from these sources of revenue. A break-up of these receipts is graphically elaborated below:

**Figure 1.8**  
**Civil Administration and other Functions BE 2013-14 vs. BE 2014-15**

### a) Law and Order

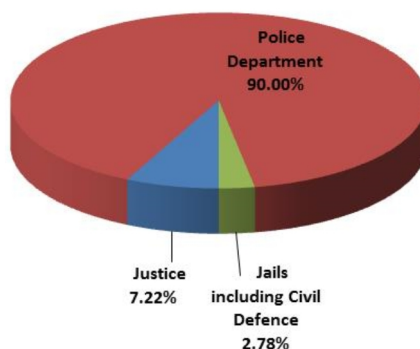

There are 3 main components of law & order receipts: -

- 1) Receipts: - namely Receipts collected by Law Department on sale proceeds of unclaimed and escheated property, court fees realised in cash, General fee, fines & forfeitures, receipt of official record room & recoveries of overpayments etc.
- 2) Receipts collected by Home Department: - include sale proceeds of articles manufactured in jail, fines, overpayments on services rendered includes supplies made by factory department to maintenance department in jail.
- 3) Receipts collected by Police Department on account of police personnel provided to Railway, Fed. Govt., Public departments, fees, fines, forfeiture, motor driving license fee, traffic fines, police land receipts and recoveries of overpayments.

The collection of police department in FY 2014-15 is expected to be around Rs. 3,703.585 million, which is 20.4% higher than last FY 2013-14 and thus the total law & order receipts are estimated at Rs. 4,114.925 million.

The following pie chart is given below to further elaborate the contributions made by the above mentioned heads of receipts in the total Law & Order receipts status:

**Figure 1.9**  
**Law and Order BE 2014-15**

### b) Community Services

The major source of income in this classification are receipts accruing from toll collection on provincial roads and bridges and through rent of Government buildings. The toll collection is expected to grow due to revision of toll tax rates. Moreover, with the inclusion of newly constructed provincial roads, the receipts with respect to toll on Roads & Bridges would substantially increase in FY 2014-15.

Figure below elaborates the break-up percentage contribution of each component of the total community service receipts estimated for FY 2014-15.

**Figure 1.10**  
**Community Services BE 2014-15**

**c) Social Services**

These receipts include general administration receipts realized through different economic regulations, examination fee realized by Punjab Public Service Commission, receipts and revenues under regulations on 'weights and measures', trades etc. The BE for FY 2014-15 has been set at Rs.1,711.637 million which is 12.2% higher than the BE 2013-14.

**Figure 1.11**  
**Social Services BE 2014-15**

**C. Non Tax Revenue – Miscellaneous Receipts**

Under the receipts from economic functions, revenue on account of Abiana (water rate for irrigation), receipts from renting out of agricultural machinery / equipment, sale of forest timber etc. are included. In the general category, other receipts such as small fees / charges on account of regulatory functions of the Government are included. Similarly, major receipts such as those accruing from arms licence fee and royalty from mines and minerals are also included under this classification as show in the following pie chart.

**Figure 1.12**  
**Miscellaneous Receipts BE 2014-15**

Under Miscellaneous Receipts, the important constituents include receipts from Forest, Wildlife & Fisheries, Irrigation and Mines & Minerals. The budgetary estimates for FY 2014-15 has been pitched at Rs. 34,076.711 million which is 14% higher than the BE 2013-14.

Another significant non-tax potential is that of Punjab Privatization Board. BE 2014-15 of Rs.2,576.629 million has been set that includes an estimate of Rs. 2,000.000 million through sale of properties by Punjab Privatization Board.

### a) Straight Transfers

Under Article 161 of the Constitution and the NFC Award, Straight Transfers to the provinces include:

- i) The net proceeds of the Federal excise duty on natural gas
- ii) Net proceeds of royalty on crude oil and natural gas assigned to the provinces under the Constitution.

Straight Transfers are reflected under the non-tax provincial receipts, yet for the purpose of clarity, the same have been shown separately under the Federal Transfers in this chapter. The Budget Estimates for FY 2014-15 have been pitched at Rs. 8,589.982 million against Rs. 6,606.242 million for BE2013-14.

**Figure 1.13**  
**Composition of Straight Transfers BE 2014-15**

### b) Federal Grants

Federal Grants, both Development and Non Development, comprise of public sector development programs (PSDP), grants from federal government as well as budget support grants received from foreign development partners. The federal PSDP grants are only pass through items. These grants are released to executing agencies for implementation of Federal Development Projects. Therefore, the estimates of PSDP grants are only made part of the revised estimates. The RE for FY 2013-14 for PSDP grants is Rs.39,447.769 million against budget estimates of Rs.3,231.145 million.

DFID has provided £30 million as frontloading in respect of PESP-II in FY 2013-14. The BE for FY 2014-15 for Foreign multilateral grants projects specific grants are pitched at Rs. 1,437.000 million, as against the Budgetary Estimates for FY 2013-14 of Rs. 1,126.000 million.

## 1.2 General Capital Receipts

### 1.2.1 Current Capital Receipts

Current Capital Receipts mainly accrue from new loans borrowed or raised by the Provincial Government and recoveries of loans which were granted to provincial establishments or their employees.

Current Capital Receipts may be credited either to the Provincial Government's Account No. I (Non-Food Account) or Account No. II (Food Account), depending on the nature of the receipt. Money raised through loans, budgetary support programme of multilaterals, recoveries of principal amount of loans advanced by the Government to its employees and autonomous bodies are credited to Current Capital Receipts (Account No. I). On the other hand, receipts from sale of wheat and financing for procurement of wheat accrue to Account No. II.

Current Capital Receipts figures for FY 2013-14 and FY 2014-15 are presented in Table below.

**Table 1.9**

In this category, Rs. 2,498.358 million are estimated to be received during FY 2014-15. It includes an amount of Rs. 112.710 million which will be recovered from District Government/TMAs

and Rs. 843.546 million from agencies like Punjab Small Industries Corporation and Sui Northern Gas Pipelines Limited etc.

It will be useful to provide a synopsis of the more significant items categorised under Recoveries of Loans and Advances.

**Figure 1.14**  
**Recoveries of Loans and Advances BE 2014-15**

#### ***b) Permanent Debt - Account No. I***

Direct debt and loans borrowed from or through the Federal Government i.e. domestic and foreign loans comprise the permanent debt of the provincial government. B.E. 2014-15 for the permanent debt (foreign) has been estimated at Rs. 21,839.834 million. The Government received budgetary support loan from World Bank under Punjab Health Sector Reforms Program, Education Sector Reform Program, Large Cities Project and Governance Reforms for Service Delivery Project from the World Bank.

#### ***c) Public Debt – Account No. II (Food Account)***

Account No.II, like Account No.I, is also maintained with the State Bank of Pakistan. The distinction, however, is that this account is meant exclusively for transactions relating to state trading in food commodities by the Food Department. Finances for food commodity purchases are raised through what is known as 'Cash Credit Accommodation'. This is currently being carried out through a consortium of banks organised with the assistance of the Bank of Punjab. Under this arrangement, wheat grain is procured directly from farmers by the Food Department, and financed by the banking consortium. Receipts from the sale of wheat are then deposited in Account No. II, from where they are utilised to retire the consortium loan.

### **1.2.2 Development Capital Receipts (Foreign Projects Assistance)**

Foreign Project Assistance may be termed as ADP financing items which comprise of loans borrowed from multilateral donor agencies through the Federal Government for specific foreign-assisted development projects. The Budget Estimates for FY 2014-15 for Foreign Project Assistance are pitched at Rs. 37,712.420 million compared to Budget Estimates 2013-14 of

Rs.29,700.000 million and RE 2013-14 of Rs. 33,474.886 million.

A complete list of projects for which the above mentioned Development Capital Receipt is to be utilized is as under:

## Chapter 2

# ESTIMATES OF EXPENDITURE

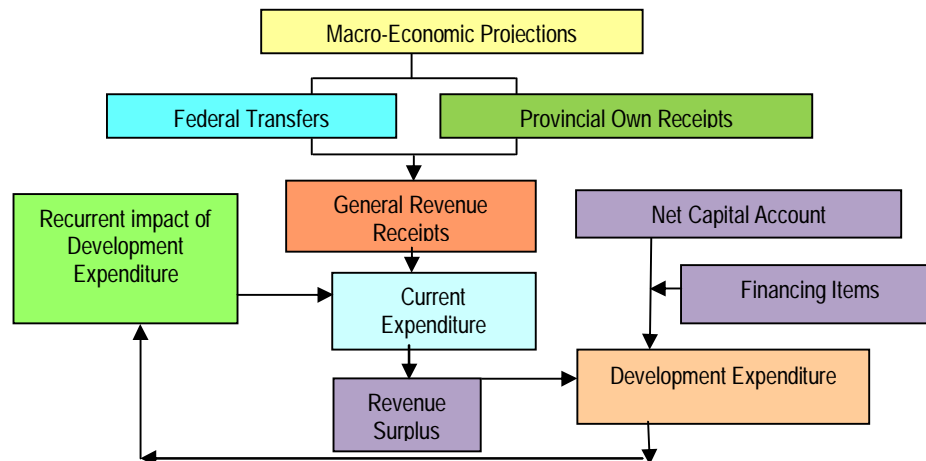

### OVERVIEW OF EXPENDITURE

The Punjab Government in the past few years has shown great commitment towards service delivery through asset creation. It was befitting thus that a simultaneous strategy to consolidate these assets was under taken timely. The Government, therefore, is tuned to consolidate its assets and leverage them to gain efficiencies. With this view enhanced allocation have been made in the Current Budget so that the infrastructure created through Development Budget is optimally and efficiently leveraged to gain value for money. The Budget 2014-15 has placed more resources in the service delivery areas, whereby, a common citizen would be able to benefit from better roads, functional hospitals, thriving schools and all other amenities of public use. The Annual Development Programme is 33% of the total outlay.

### 2.1 PROVINCIAL BUDGETARY FRAMEWORK

The budgetary framework broadly represents the total receipts of Provincial Government, which comprises Federal Transfers and Provincial Own Receipts, and Total Expenditure. After accommodating the demands of current revenue expenditure and current capital expenditure, the net surplus is available for financing the Development Expenditure, which is also financed directly through foreign aided projects. The framework of provincial budget is depicted below at Figure 2.1.

**Figure 2.1**  
**Budgetary Framework**

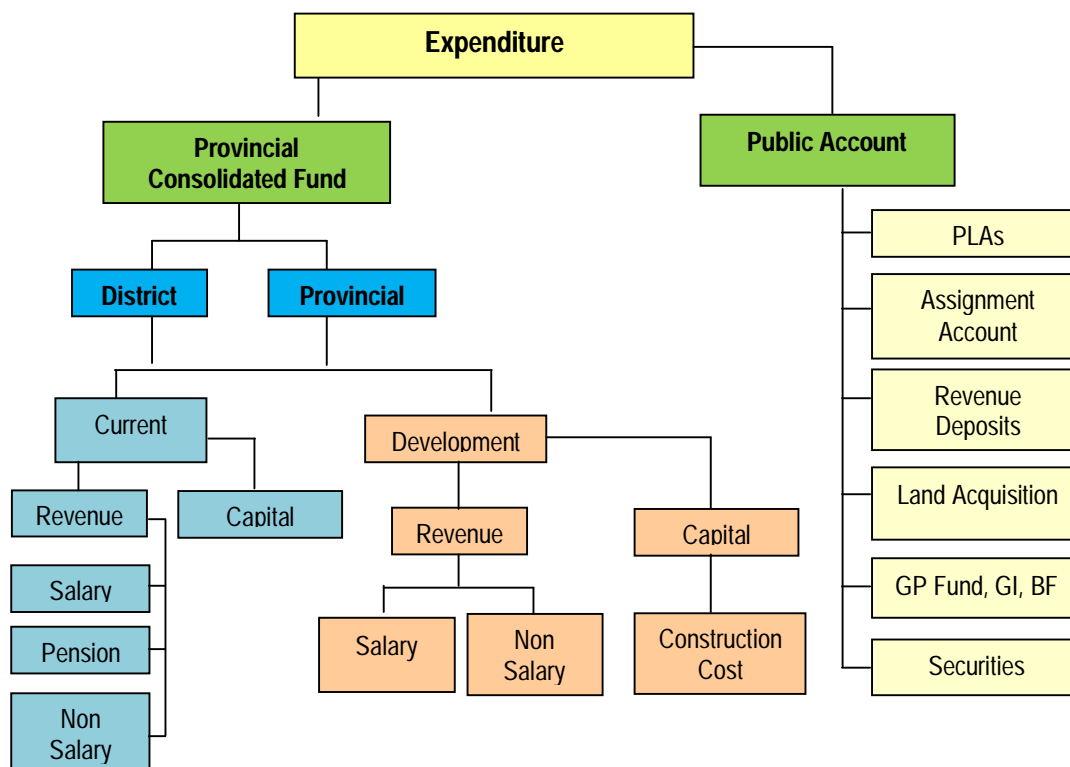

The provincial budget allocation tends to strike a balance between the competing demands of current and development expenditure. Without compromising on essential areas of current and capital expenditure, the provincial budget bids to ensure maximum surplus for Development Expenditure. Overall expenditures of the government are classified under Provincial

Consolidated Fund and Public Account of the province pursuant to the Article 118 of the Constitution of Islamic Republic of Pakistan. Components of Provincial Consolidated Fund are represented in the Figure 2.2.

**Figure 2.2**

## 3.2 RECEIPTS

### 3.2.1 ASSETS

Assets as Public Account receipts include cash and bank balances, investments, loans and advances, imprest monies, advances to employees and returns from investments and loans etc.

### 3.2.2 DEPOSITS AND RESERVES

Deposits and Reserves constitute a major part of receipts of the Public Account. Deposits and reserves include intergovernmental adjustments, remittances, suspense funds, special deposit fund, welfare fund, development fund, education & training fund, Income Tax deductions from salaries, Personal Ledger Accounts (PLAs) and most importantly, Trust Account Fund, comprising the Provident, Benevolent and Insurance Fund receipts.

Deposits and reserves include a large number of items of miscellaneous receipts and expenditure, most of which do not follow any particular pattern. This is especially true of receipts and expenditures pertaining to personal ledger accounts of autonomous and local bodies of the

Provincial Government, which are kept with Government treasuries. This is also applicable to receipts and expenditures pertaining to various suspense accounts. Whether net receipts from suspense accounts will be positive or negative depends entirely on whether misclassification in respect of receipts has been more than in respect of expenditure and vice versa. Therefore, for purposes of budgeting, the net effect of such receipts and expenditure is assumed to be nil as receipts and disbursement of equal size are shown on both sides of the account.

### **3.3 DISBURSEMENTS**

#### **3.3.1 CURRENT ASSETS**

Outflows from Assets are included under the category of Current Assets which includes cash, bank balances and receivables.

#### **3.3.2 LIABILITY**

Disbursements from Deposits and Reserves are indicated as liabilities. This is a contra item to the deposits and reserves indicated on the receipt side.

In FY 2014-15, the Public Account is showing a nil balance. The practice of using Public Account funds for financing budgetary expenditures has been abandoned since 2008-09.

## Chapter 4

# REVIEW OF DEVELOPMENT PROGRAMME 2013-14 & ANNUAL DEVELOPMENT PROGRAMME 2014-15

The mandate of any Government is to produce maximum public goods utilizing the resources generated by its revenue collection system. The public goods can either be produced using Government's existing capacity of service delivery or by enhancing its capacity to provide these services. Therefore, each year a key decision for the Government in budget making is to decide the distribution of estimated resources for next financial year between (i) service delivery through existing capacity known as current expenditure of the Government; and (ii) initiatives to enhance Government's capacity to deliver public goods known as development expenditure or Annual Development Programme (ADP). Resources allocated for ADP are divided among different sectors on the basis of their importance in the light of policies of the Government. In this way, ADP is an important instrument to expand provision of service delivery and to accelerate economic growth in the province.

The Development Programme 2014-15 is guided by the Chief Minister and his Cabinet's overarching vision for a secure, economically vibrant, industrialized and knowledge-based Province, which is prosperous and competitive wherein every citizen enjoys high quality life.

Annual Development Programme 2014-15 is anchored in Punjab's Medium Term Inclusive Growth Strategy. It represents the first year of Medium Term Development Framework (MTDF) that supports the growth strategy, a rolling plan providing development estimates for a three years period i.e. base year and the following two years. The main objectives of the Annual Development Programme 2014-15 would be:

- Overcoming energy shortage
- Export oriented industrial cum agricultural growth
- Enhance productivity and competitiveness in the production sector
- Development of human capital and skills
- Equitable regional development
- Institutional reforms and governance
- Encourage public private partnership

- Gender mainstreaming
- Effective security through better law & orders

At the same time, it must be mentioned that, in the first year of MTDf, it would not be possible to include schemes in ADP only on the basis of the economic growth strategy as such an approach would have left a number of ongoing schemes unfunded and wasted a large amount of investment already made on the ongoing schemes. Therefore, some fiscal space has been given to ensure that no wastage of public resources takes place and minimum compromise is made on achieving economic growth objectives of the Province.

The size of Development Programme 2014-15 is pitched at Rs.345 billion which includes Rs.290 billion for regular development programme and Rs.40 billion for other development initiatives and Rs.15 billion for special initiatives. The important features and new initiatives included in ADP 2014-15 are as follows:

- Focus on completion of ongoing schemes — allocation of Rs.155 billion
- Regional balance in allocation of resources with extra weight (36%) for 11 districts of Southern Punjab
- Adequate funding for foreign aided and mega projects
- Continued focus on undertaking projects that can be completed within one / two years to control throw forward
- Allocation of Rs.119 billion for social sectors investments with major focus on education (Rs.48 billion) and health (Rs.31 billion)
- Continued strategic interventions in large cities to realize their potential as engines of growth. Allocation of Rs.40.4 billion for Urban Development Sector including allocation of Rs.10 billion each for Mass Transit System for Rawalpindi and Multan.
- Enhanced allocation of Rs.35.5 billion for Irrigation Sector as compared to Rs.22 billion during 2013-14
- Allocation of Rs.31 billion for investment in the energy sector to overcome power shortages in the Province
- Allocation of Rs.30 billion for Women Empowerment initiatives over and above the combined expenditure as both male & females.
- Allocation of Rs.12 billion for District / TMA Development Programme
- Allocation of Rs.7.96 billion for Agriculture Sector and Rs.5.2 billion for Livestock & Dairy Development Sector
- An allocation of Rs.7.4 billion for Governance & Information Technology.
- Allocation of Rs.7.1 billion for Industries Sector
- Allocation of Rs.6 billion for Skills Development Programme
- Allocation of Rs.5 billion for Provision of Water Filtration Plants for clean drinking water.
- Allocation of Rs.1.3 billion for Integrated Development of Cholistan.
- Allocation of Rs.1 billion for Establishment of Punjab Police Command, Control and Communication Centers

In the following paragraphs, performance of ADP for fiscal year ending 30<sup>th</sup> June 2014 have been discussed along with the proposed allocations for ADP for FY 2014-15. The size of the provincial ADP was originally fixed at Rs.290 billion. Although resource availability for funding the development budget improved during 2013-14 however, it fell short of projections made at the time of formulation of budget estimates for FY 2013-14 leading to downward revision of Development Program to the extent of Rs.224 billion.

For execution of development schemes, funds were released in four quarterly installments during FY 2013-14. As per utilization status of development program during 11 months of FY 2013-14, an expenditure of Rs.162 billion has been reported against a release of Rs.208 billion till end May, 2014. Based on this utilization trend, it is expected that by the end of 2013-14 utilization will be approximately Rs.195 billion indicating a significant improvement in the overall development expenditure.

The historical trend of the last seven years revised ADP allocation and utilization is given in the following graph:

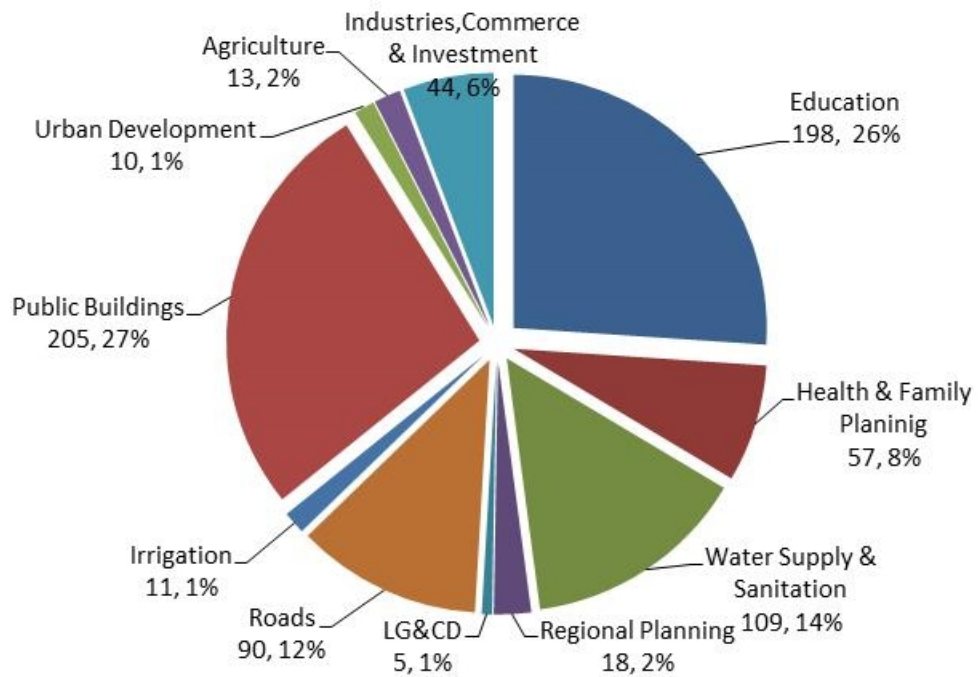

**Figure 4.1**  
**Trend of ADP Allocation (Revised) and Utilization**  
**2007-08 to 2013-14**

During the year 2013-14, a total of 3584 schemes were implemented which include 1179 ongoing and 2405 new schemes during the year. Out of these 3584 schemes, 760 schemes were completed during the year which represent almost 21% completion rate. Amongst the completed schemes 634 were ongoing schemes from the previous years.

Sector-wise breakup of 760 completed schemes is depicted in the following pie-chart:

**Figure 4.2**  
**Schemes Completed during 2013-14**

Like the previous year, concrete efforts were made to minimize the throwforward of ongoing ADP Schemes by weeding out unfeasible and slow moving schemes. Full funds were provided to schemes with the completion target during FY 2013-14, particularly during the last quarter. Provision of token allocation for new schemes has been discouraged. These interventions have helped clean up current ADP portfolio and curtail the throwforward. However, due to initiation of new projects under District Development Package / SPDP and funding of new schemes through supplementary grants, throwforward is expected to increase from Rs.278 billion in 2013-14 to Rs.366 billion in 2014-15. Still the throwforward to development budget ratio will decrease in FY 2014-15 compared to FY 2013-14.

The historical trend of revised core allocation and throwforward during the last 7 years is given in the following graph:

During the year, a special effort has been made to remove regional disparities by providing equal opportunities of growth to less developed areas of Punjab including Southern Punjab, Cholistan and the Barani areas. This includes enhanced flow of development resources and sustainability of development momentum in the less privileged areas, creation of job opportunities and mitigation of poverty of low income groups. The strategy includes increasing the overall development allocation of 11 Districts of Southern Punjab from Rs.25.7 billion in 2008-09 to Rs.93 billion in 2013-14 and launching of new south focused special development programs. During 2013-14, a three year development programme has been initiated for uplift of Southern Punjab. Under this programme 91 projects costing about Rs.19.0 billion have been started to improve socio-economic conditions of these districts. These schemes pertain to Road, Health, Water Supply & Sanitation, Education, Technical Education, Emergency and Irrigation sectors. Another programme "Punjab Economic Opportunities Programme (PEOP)" funded jointly by Government of Punjab & United Kingdom's Department for International Development (DFID) was initiated in the districts of Bahawalnagar, Bahawalpur, Lodhran and Muzaffargarh during 2010-11. Under this programme, 54,057 youth including 21,123 female trainees have been provided training in various skills. This training has been provided by engaging private / public training providers including technical training institutions and NGOs through a transparent process. This initiative has

not only been instrumental in creating employment opportunities for poorest segments of the project area but has also helped in developing the capacity and interest of private sector training providers in Southern Punjab in particular and rest of the province in general. In addition, focus of skill development strategy on funding of trainees marks a departure from the traditional approach of investing in brick and mortar adopted by the public sector in the past.

International Fund for Agriculture Development (IFAD) has joined the efforts of Government of the Punjab for maintaining regional balance and poverty alleviation by launching a new project “Southern Punjab Poverty Alleviation Project” in the districts of Bahawalnagar, Bahawalpur, Muzaffargarh and Rajanpur. The programme having a total outlay of Rs.4.1 billion will provide support to 80,000 poorest of the poor families through asset creation, vocational training, community projects and productivity enhancement in Agriculture and Livestock sectors. All these interventions have been / will be helpful in removing regional disparities and increasing employment / income generation opportunities for the poorest segments of the Punjab’s population.

Khan established in 2011-12 have been operationalized in 2013-14. Funds amounting to Rs.1.5 billion were provided in ADP 2013-14 for developing infrastructure and labs in accordance with PMDC standards. Mega projects like Purchase of Equipment for 400-Bedded Civil Hospital Affiliated with QAMC Bahawalpur (Rs.1.1 billion), Establishment of Kidney Transplantation / Dialysis Unit, BV Hospital Bahawalpur (Rs.0.59 billion), Provision of Lacking Facilities in Multan Institute of Cardiology, Multan (Rs.0.57 billion) and Nursing Health Care in Punjab in partnership with Fatima Memorial Hospital Lahore (Rs.3.2 billion) have been completed. Furthermore additional facilities have been provided in eighteen existing hospitals besides establishment of one new THQ Hospital. One RHC was upgraded to THQ hospital during the year.

Considering the success of Chief Minister's Health Initiative for attainment of MDGs efforts were made for provision of 24/7 Emergency Obstetrics & Newborn Care (EmONC) services at selected RHCs of flood affected areas in Bhakkar, Mianwali, R.Y. Khan, Layyah, D.G. Khan, Muzaffargarh and Rajanpur. Government of the Punjab has decided to replicate the model throughout the province in a phased manner starting from 2013-14. During 2013-14, 16 districts having poor health indicators were selected for implementation of EmONC services which will be extended in remaining districts of the province during 2014-16.

Government of the Punjab has also made efforts to reduce the prevalence of malnutrition among children, pregnant and lactating women. The preventive nutrition interventions are being proposed in 2014-15 for all 36 districts. The problem of acute malnutrition is being addressed by providing iron-folic acid tablets, zinc sulphate supplements, fortification of salt iodization, distribution of Multi micro-nutrient powder sachet and vitamin supplements for 12 priority districts and urban peripheries of 9 large districts of Punjab during 2014-15. Subsequently, phased extension is being proposed in the remaining districts of the province.

Minimum service delivery standards for Tertiary Care Hospitals, licensing protocols and governance mechanism have been developed. Health Care Commission has hired its management team for starting the actual work of licensing and regulating public and private health facilities in the province. Health sector strategy developed through a consultative process has been approved by the Chief Minister. The strategy addresses all major issues in health sector and suggests solutions. Reorientation of primary health care will be focused under this strategy. World Bank & DFID have expressed interest to provide support in implementation of strategy through Punjab Health Sector Reform Programme. ### **Water Supply & Sanitation**

Government of Punjab has undertaken a number of initiatives to accelerate the provision of safe drinking water and to improve sanitation facilities for the entire population of the province recognizing the fundamental human need and basic human right. Southern Punjab has been specially focused for provision of clean water and sanitation facilities to improve the condition and quality of life of general public particularly in rural areas. Government of Punjab is also committed to the Millennium Development Goals (MDGs) to extend access to improved water and basic sanitation.

### **Sanitation**

To accomplish the cherished goal of a clean Punjab, the sanitation component is being sharply focused. 'Pakistan Approach to Total Sanitation (PATs)' would be given priority through initiatives to eradicate the menace of Open Defecation which in turn would be a great step in the preventive health care programme. A sustained programme to address this problem would enable Punjab to achieve the objective of Open Defecation free Province. In addition to these steps, new initiatives regarding elimination of ponds from major villages and solid waste management in rural areas would be implemented through LG&CD Department to improve the sanitation indicators.

To achieve these targets, substantial resources are being provided to the sector by allocating Rs.17,118 million for the financial year 2014-15 as compared to the allocation of Rs.10,868 million in 2013-14.

In financial year 2013-14, 274 schemes were implemented which included 145 on-going schemes and 129 new schemes. Out of these 274 schemes, 132 were completed which represent almost 48% completion.

Annual Development Programme 2014-15 for water supply & sanitation has been formulated with an effort to minimize throw forward of on-going schemes by allocating maximum resources to the on-going schemes. Rs.11,590 million have been allocated to the ongoing schemes which is 68% of total size.

Main objectives of Annual Development Programme 2014-15 are:-

- Ensuring water quality through provision of water filtration plants.

The Department is also establishing Day Care Centers in collaboration with NGOs, NPOs in different districts of Punjab to facilitate the working women to make their workplaces women friendly.

## **Regional Planning**

The process of development in Punjab has been somewhat skewed in its impact across the regions. Less developed regions of Punjab comprising barani tracts, sandy deserts of Cholistan, Tribal areas of D.G. Khan and Rajanpur and 11 districts of Southern Punjab have not kept pace with the rest of the province in terms of development and economic progress. With scanty rainfall, these ecological zones face the challenges of acute shortage of water, mostly small land holdings and primitive agriculture techniques. Government assigns high priority to the removal of regional disparities in the Province. This objective is being achieved through direct investment in less developed areas to enhance rural household incomes and employment opportunities, improving infrastructure and providing financial support to enhance production and skill development of the target groups through participatory approach.

DFID assisted "Punjab Economic Opportunities Programme (PEOP) initiated in 2010-11 in districts of Bahawalpur, Bahawalnagar, Lodhran and Muzaffargarh has now been extended to 10 more districts i.e. Lahore, Sheikhpura, Faisalabad, Chiniot, Sargodha, Gujranwala, Narowal, Vehari, Khenewal and R.Y. Khan. Under this programme, 54,057 youth including 21,123 female trainees have been provided skills training. International Fund for Agriculture Development (IFAD) has joined the efforts of Government of the Punjab for maintaining the regional balance and poverty alleviation by launching a project "Southern Punjab Poverty Alleviation Project" (SPPAP) in 2011-12 in the districts of Bahawalpur, Bahawalnagar, Rajanpur and Muzaffargarh having a total cost of Rs.4,126 million. During the current FY around 10,000 families have been provided assets creation package in the shape of provision of Livestock animals, land to landless widows and clean drinking facilities to masses. In the next financial year 40,000 beneficiaries will be provided support to enhance their incomes.

Integrated Cholistan Development Programme at the cost of Rs.2,348 million will create a visible impact and improvement in the living quality of people of Cholistan. The package includes construction and rehabilitation of roads & water supply schemes and desiltation of Tobas in Cholistan. This has been a fundamental investment priority of the provincial government not only to address issue of water scarcity but also to mitigate potential threat to structural stability of century old water conveyance network. This is a serious concern emanating from the expected increase in frequency of super floods coupled with inter seasonal fluctuation of surface flows in the coming years due to climate change. A total of 62 schemes, 47 ongoing schemes and 15 new schemes, were included in the irrigation sector during 2013-14 covered wide-ranging water conservation, drainage and flood management, interventions along with programs envisaging irrigation system rehabilitation and development, and institutional reforms. ## **Energy**

Energy Department was established by Government of Punjab in 2011 to oversee and administer the development, growth and regulation of Energy Sector in Punjab. Whereas Department has a consistent focus on effective regulation in energy conservation and regulation, it has set up wings to facilitate power generation in the province. Punjab Power Development Board (PPDB) facilitates power generation in the province by engaging private sector. In addition to that two public sector companies i.e. Punjab Power Development Company Limited (PPDCL) and

Punjab Quaid-e-Azam Solar Power Company have been set up to expedite power generation in the province.

Total generation capacity in the province of Punjab is only 9564 MW against its present requirement of 14,000 MW which is increasing at the pace of 8% per annum. It is presumed that in the year 2018 the demand of Punjab will be 20,570 MW and by the year 2025, this demand will increase up to 35,254 MW.

During 2013-14, following meaningful advancements have been made;

- Two of the Four Hydropower Stations designed to produce 20 MW electricity from hydro under REDSIP program in 04 districts of Punjab are in final stages and scheduled to be completed by April 2015
- Feasibility Study was completed for two coal power projects 2x55 MW each for Industrial Areas in Lahore & Faisalabad
- Feasibility Study was completed to set up 2.5 MW of solar PV power plant at Islamia University Bahawalpur to provide un-interrupted power supply & research base for the university students.
- Under “CM Ujaala Program” 78,000 Solar Home Solution units have been procured to distribute among deserving school students
- To promote research in renewables, a Center of Excellence for Research in such Technologies (CERAD) has been set up at KSK Campus, UET Lahore.

During current year, 100 MW Solar Power Plant was started near Bahawalpur, under a public sector company “Punjab Quaid-e-Azam Solar Power Company”. The plant is scheduled to start power generation by December 2014. Work on enhancement of this generation capacity by another 900 MW will begin during 2014-2015 through employment of innovative capital structuring and private sector participation.

Under Coal based Power Initiatives the Provincial Government took another bold initiative to engage private sector in power generation. Under the initiative it is expected to set up 6 x 1320 MW power plants at 06 sites in Punjab in next four years. Private investors showed great interest in this initiative. This initiative will continue during 2014-15 whereby work on 2 x 55 MW coal based power plants is planned to kick-off in Lahore and Faisalabad.

FY 2014-15 will witness a major thrust towards renewable energy sources and energy efficiency and conservation initiatives. In this regard a number of projects based on Bio mass have been identified. Efforts are being focused to attract private and foreign investment in this sector to augment GoPb's development outlay and bring in management efficiencies. Work on various Public Private Partnership models has already started which will gain momentum during FY 2014-15. In order to achieve these targets, an allocation of Rs.31 billion has been provided to Energy Sector in the ADP 2014-15.

## **Public Buildings**

The Public Buildings (*Government Housing & Offices*) sector caters to provide residential and office accommodation facilities for nearly all administrative departments, mainly clustered under the Police, Prisons, Home, Judiciary, S&GAD, Provincial Assembly, S&GAD, Board of Revenue (BOR) and Communication & Works (C&W) sub-sectors.

Certain new initiatives including pilot projects for provision of comprehensive water supply system (zoning, 100% metering, supply through storage reservoirs and filtration plants/taps) would be implemented in Lahore for improved and better quality water distribution to the consumers. Moreover, projects for surface water induction for Lahore and Faisalabad have also been proposed under the programme.

Due weightage has also been assigned to intra city communication networks like dual carriageways, flyovers, underpasses, elevated expressway, metro bus services and metro train

projects. It includes the orange line metro projects of Lahore and metro bus projects for Faisalabad, Multan and Rawalpindi. In addition to the said services, preparatory study and the project for River Ravi front Urban Development Zone has also been proposed. ## Chapter 5

### 5. PENSION REFORMS AND DISBURSEMENT OF PENSION THROUGH USE OF INFORMATION COMMUNICATION TECHNOLOGY (ICT) BASED APPLICATIONS

#### 5.1 Pension Scheme – An Overview

In terms of population, Punjab is the largest province of the country. It has approximately one million employees and 436,995 pensioners, the number whereof is growing continuously. As per actuarial assessment undertaken in 2010, total pension liability estimated at 30<sup>th</sup> June 2010 was to the tune of Rs. 687.7 billion. Amount of pension paid to pensioners in FY2012-13 was Rs. 65 billion and it is expected that this figure will touch Rs. 75 billion in FY2013-14.

Government has an elaborate and well defined pension benefit scheme regulated under Section 18 of the Punjab Civil Servants Act 1974, and the Punjab Civil Service Pension Rules. The scheme entitles the pension to the employees who have either reached the age of superannuation (60 years) or have retired early after serving for 25 years. Pension Rules also prescribe ten years as a minimum qualifying service for receipt of pensionery benefits. Gross Pension is determined on the basis of last drawn pay multiplied with the number of years of service and factor 7/300. A pensioner has the option of commuting upto 35% of his gross pension at the time of retirement. Net pension is paid for the life time of the employee. After his death, his family is entitled to family pension. The Government also increases pension periodically to mitigate the effects of inflation.

#### 5.2 Need for Pension Reforms

In recent times, Pension Reforms have gained pace around the World. In conformity with the global trend, Government of Punjab also initiated number of pension reforms in last few years. To ascertain pension liabilities, an actuarial analysis was undertaken. Pursuant to this study and as an important reform agenda of Government of Punjab under its program for public sector financial management reforms, a dedicated corporate entity i.e. Punjab Pension Fund was established through enactment by Punjab Provincial Assembly. An elaborate structure for the management of Punjab Pension Fund was established with the induction of professional management. Moreover, number of committees such as management committee, investment committee, accounts and audit committee, HR committee etc. were also established to monitor and oversee the activities of the Fund. These committees are not only represented by public sector but also have an adequate representation of professionals from private sector. An elaborate oversight mechanism is also in place to review and oversee the investment policy, funding strategy and other such arrangements related to fund management. In line with the parameters laid down in the legal framework of Punjab Pension Fund, Central Depository Company (CDC) has been appointed as the trustee of the Fund.

While far reaching reforms were introduced not only to ascertain the pension liabilities but to formulate medium and long term funding / investment strategy of the Fund, it was also felt that there is a need to reform and improve the existing pension processing and disbursement system focusing on facilitating existing and future pensioners. Accordingly, it has been found expedient to conceive, develop and implement a reformed simplified pension processing and disbursement system through the use of ICT based applications. It is hoped that in addition to ease of doing business, reformed pension disbursement system will allow the pensioners to have access to more convenient modes of receipt of pension. The system is intended to be piloted first in Lahore District which has the maximum number of existing pensioners. After the successful implementation of the pilot, the same will be up scaled and rolled out to other districts of Punjab Province.

### **5.3 Pension Payments – Current Dispensation**

Pension papers with the formal sanction of Pension Sanction Authority are submitted to District Accounts Officer (DAO) / Accountant General Office (AG) for issuance of Pension Payment Order (PPO). DDO / AG Office issues PPO after due verification of pension papers. Pension is paid manually either by Treasury Officer or by National Bank. In the current system, after issuance of the PPO there is disconnect between Accounting Office and Disbursing Authority. Pensioner or his representative visits NBP / Treasury Office for disbursement of pension. Appearance of the pensioner twice a year in the NBP / Treasury Office is mandatory as a proof of his / her life. Any change in pension on account of annual revision is posted manually by NBP/ Treasury Office. The current system for pension disbursement is cumbersome and lacks transparency.

### **5.4 Reformed Pension Disbursement System – Credit into Bank Account**

Assisting pensioners in receipt of pensions by providing an option of pension disbursement through scheduled commercial banks in addition to existing mechanism of pension disbursement only through National Bank / Treasury is an important part of reformed pension disbursement system. Under this system, it has been envisaged that there would be front loading of the pensionary benefits on the analogy of payroll through pension roll system in SAP R/3 system of PIFRA. Pension would be credited directly into pensioners' bank accounts which they can withdraw through cheque, ATM/Debit Card, branchless banking network of schedule banks and bank-led model of mobile companies. Biometric enrolment, verification and biometric authentication of pensioners shall be undertaken by NADRA. Revision in pensionary emoluments announced by the Government from time to time shall be made by respective Accounting Offices and credited into pensioners' accounts in banks. For effective functioning of this system, technological integration of various offices/ entities involved in pension disbursement i.e. Accountant General / DAOs, PIFRA, NADRA and banks have also been envisaged. Moreover, for pensioners establishment of a facilitation centre has also been visualised in office of Accountant General Punjab not only for submission and tracking of pensionary documents through one window operation but also for recording and addressing the complaints relating to pension.

### **5.5 Financial inclusion Program through use of Information Communication Technology (ICT)**

The automated pension disbursement has the potential to be an important milestone in the financial inclusion program being jointly pursued by the State Bank of Pakistan and the Government of Punjab. By accessing modern banking services through this program, pensioners will find withdrawal of pension much easier in comparison with the erstwhile manual, cumbersome and non-transparent system. Greater number of pensioners to be brought in this system over a period of time will encourage banks to offer better services to hitherto uncovered population.

### **5.6 Uniqueness and impact of Innovation**

Cash withdrawal by pensioners' through branchless banking outlets and bank-led model of mobile companies is unique in a sense that it even saves them from visiting the bank. The innovation will be of great convenience to pensioners'. Further, biometric verification of pensioners' including proof of their life through NADRA will allow pensioners to get these particular recorded without visiting to NBPs/Treasury Offices and waiting in queue for verification of their particulars manually. The pensioners will also be encouraged to save as withdrawal of the money will take place when it is actually needed by the pensioner. A host of banking disbursement modes e.g. Cheque, Debit Card, ATMs, branchless banking outlets like UBL Omni and bank-led model of mobile companies will facilitate pensioners as they can withdraw anytime from anywhere in Pakistan. The automated pension disbursement will bring greater transparency and accuracy into the whole system. It will also help in reducing leakages in the system.

### **5.7 Seamless transition from a serving civil servant to a pensioner**

Reformed pension disbursement system besides offering new avenues of withdrawal of pension also focused on 'seamless transition' from a civil servant to a pensioner. The project has been designed in a manner where in collaboration with AG/DAOs and Administrative Departments, data of retiring civil servants for year 2012 and 2013 was retrieved from PIFRA system relating to Lahore district. Data cleansing exercise aimed at verification of particulars of serving civil servants recorded in the automated data on payroll was undertaken. Once this data was fully cleansed, shifting/transition of pensioners was made possible in a seamless manner. Moreover, while issuing the Pension Payment Order (PPO), retrieval and comparison of the corrected data of civil servants by AG for allowing pensionery emoluments was far easier than the current system of manual recording.

### **5.8 New Simplified Procedure of Processing and Disbursement of Pension through Pension Roll**

A major reform was introduced during the year in the form of "New Simplified Procedure of Processing and Disbursement of Pension through Pension Roll". Under this simplified procedure notified on December 18, 2012 a pensioner has to give a one page descriptive roll containing a list

of his/her family members, an undertaking for making good any established recovery and option for commutation percentage he/she wants to avail. The Department/Pension Sanctioning Authority (PSA) in return issues a one page notification order of his/her retirement which is submitted to the AG Office/District Account Officer along with a copy of his/her last pay slip, a copy of CNIC and original service book. In case of a gazetted civil servant, a service profile is also submitted by the pensioner. The AG Office/District Account Officer prepares Pension Payment Order (PPO) on the basis of these documents and does not seek any other document from the pensioner. These reforms were piloted in Lahore district and pensioners retiring in January 2013 were advised to submit their pension papers under new procedure. The Chief Minister Punjab, in a simple but impressive ceremony held on 1<sup>st</sup> January 2013 distributed PPO's to 20 civil servants retiring in January 2013. On directives of the Chief Minister, the "New Simplified Procedure of Processing and Disbursement of Pension through Pension Roll" were also introduced in districts of Chakwal, Rahim Yar Khan and Multan. During FY2013-14 "New Simplified Procedure of Processing and Disbursement of Pension through Pension Roll" are being implemented in eleven (11) more districts of Punjab namely Attock, Rawalpindi, Jhelum, Bahawalpur, Lodhran, Kasur, Sheikhpura, Nankana sahib, Khanewal, Vehari and Bahawalnagar.

Another major reform titled "Disbursement of Commutation and Monthly Pension through Pension-Roll" was notified by the Government on January 9, 2013. Irrespective of how a pension case is processed i.e. through old pension papers or through new simplified procedures, the pensioners in all districts of Punjab will henceforth be disbursed their commutation and monthly pension through pension-roll only. This reform has the effect that new pensioners are only paid pension directly into their bank account instead of pension payment through NBP under decades old legacy system. As a consequence of this initiative by the Government the process of enrolment into pension roll for direct credit of pension into bank account has picked up considerably in all districts of Punjab. A report generated from SAP R/3 PIFRA system shows enrolment of 64,934 pensioners in pension roll at 31<sup>st</sup> May 2014 compared to 8,279 pensioners enrolled in pension roll at 31<sup>st</sup> December 2012.

### **5.9 Institutional arrangements for Reformed / Automated Pension Disbursement System**

In order to accomplish specific verification needs of particulars of pensioners, NADRA and PIFRA envisage to chalk out an arrangement of technological integration of set of data being maintained by NADRA and accounting offices in automated SAP R/3 PIFRA system. This technological integration will be of great importance as its success will open new avenues for disbursement of other welfare payments by use of Information Technology tools to be employed under this system.

Commercial banks, office of the Accountant General Punjab, District Account Offices will be the key partners in reformed pension disbursement system. SAP R/3 system with its expected updated and improved version shall serve as a backbone of automated pension disbursement system. Commercial banks and telecommunication companies will partner in this initiative as the

government intends to broaden delivery modes of pension benefits through commercial banks and telecoms.

Key steps involved in the reformed pension disbursement system shall inter-alia include the following:

- (i) Creation of a dedicated project office, if warranted.
- (ii) Establishment of a Facilitation Centre at AG Punjab similar to one already functional with Project to Improve Financial Reporting & Auditing (PIFRA), Islamabad.
- (iii) Arrangements with NADRA for biometric identification and verification of pensioners at the time of account opening and subsequent proof of life, and availability of network of kiosks at banks and AG Office / DAOs.
- (iv) Capacity building of DAO's / Treasury Officers / AGs Office.
- (v) Retrieving of manual records of existing pensioners from NBP/Treasury Office and putting them into SAP R/3 after correction of anomalies in recorded data if any.
- (vi) Creating awareness of the new scheme through publicity of the scheme.
- (vii) Establishing reliable network connectivity and end-user computing stations at DAOs/Treasury offices/AG office - only where necessary.
- (viii) Setting-up a proper data archival mechanism.

#### **5.10 Planned Project Implementation and Up-scaling**

Automated pension disbursement system is being piloted in Lahore district. Once all the project parameters are in place and transition from manual to automated pension disbursement is successfully achieved, the project will be up-scaled in other districts of the Province. Successful implementation of automated pension disbursement system will encourage the Government to implement automated disbursements in other departments. It is expected that transition from manual to automated pension disbursement will be accomplished in significant number in Lahore district in FY 2014-15.

## CHAPTER 6

# DEBT AND CONTINGENT LIABILITIES

## 6.1 DEBT STOCK

Punjab Government has a small debt liability compared to size of the gross regional product of the province. At end-June 2014, the province's total debt was Rs.451.8 billion, or 3.52% percent of GSDP<sup>1</sup>. This ratio appears even smaller relative to national GDP, i.e., 1.9 percent<sup>2</sup>. Of Punjab's total debt, 6 per cent or Rs.26.1 billion (Annex-I) is domestic while 94 per cent or Rs.425.6 billion (Annex-II) is foreign (Table 6.1). Asian Development Bank (ADB) with 46 percent holding is the principal creditor of Punjab foreign debt. This is followed by the World Bank and Government of Japan with 46 percent and 6 percent foreign debt holding respectively (Table 6.2).

**Table 6.1**  
**Punjab Total Debt Stock as on June 30, 2014**

	<b>Stock</b> (Rs. in Billion)	<b>In Percent of Total</b>
Foreign Debt	425.6	94%
Domestic Debt	26.1	6%
<b>TOTAL</b>	<b>451.8</b>	<b>100.0%</b>

Note: Rs/US\$ EoP Exchange rate of 99 is used to estimate rupee value of foreign debt stock as of end June, 2014.

Punjab's foreign debt portfolio is highly concessionary and of long term maturity. In 2013-14, average explicit interest rate on foreign debt stood at only 1.47 percent with average maturity of 15 years (Table 6.2). Most of the loans have embedded fixed interest rates; only 16 loans are on LIBOR<sup>3</sup> terms (variable interest rate). Foreign debt, in terms of currency composition, is heavily denominated in US Dollars which accounts for more than two-thirds of foreign debt stock. During 2013-14, foreign debt stock increased by Rs.22.4 billion. Favorable exchange rate movements, of US Dollar and Japanese Yen, resulted in translational gains<sup>4</sup> in the foreign debt stock of Punjab

<sup>1</sup>There are no official provincial GDP estimates in Pakistan. Nominal gross provincial value added (GSDP) used for Punjab is Rs.12,822.4 billion based on Punjab MTFE estimates.

<sup>2</sup> This ratio is calculated using the nominal GDP of Pakistan in 2013-14 at factor cost that approximates to Rs.24,085.1 billion.

<sup>3</sup>London Interbank Offered Rate

<sup>4</sup> In Pakistan, external loans are contracted in various currencies but disbursements are effectively converted into Pak Rupee. As Pak Rupee is not an internationally traded currency, other currencies are bought and sold via selling and buying of USD. Hence, the currency exposure of foreign debt originates from two sources: USD/other foreign currencies and PKR/USD. This two pronged exchange rate risk is called translational gain/loss. Rs/US\$ and Rs/JPY end of period weighted average exchange rate during this period (point to point) appreciated by almost 0.1 percent and 2.8 percent respectively, causing debt stock to decline by almost Rs.3 billion.

government during 2013-14. This impact would have been the reverse, in line with its historical trend, had it not been due to appreciation of Pak Rupee against US Dollar and Japanese Yen.

\* IDA & IBRD are World Bank lending arms

In 2013-14, program loans/non-project aid constituted half of Punjab's foreign debt portfolio (or Rs.213 billion), the remaining half, of the same magnitude, came in the form of project aid. The latter category appears to be focused on Irrigation (19 percent), agriculture (8 percent), roads & infrastructure and housing & water supply (5 percent each), and education & training, governance and social welfare (3 percent each) (Figure 6.1). Program (non-project) aid, on the other hand, was primarily devoted to three sectors: education, governance, and poverty reduction.

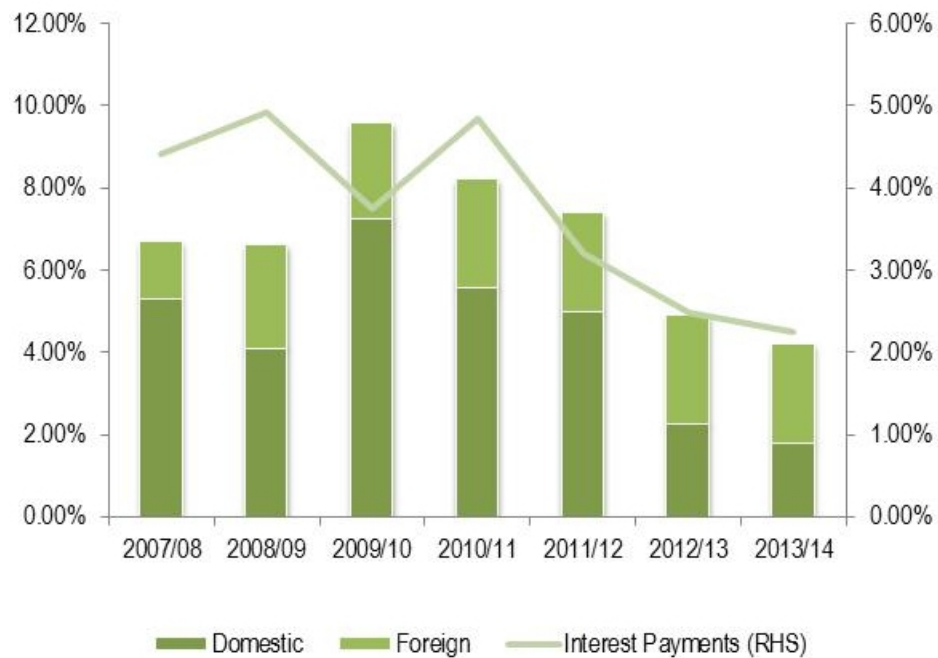

In 2013-14, Punjab's domestic debt accounted for 6 percent of total debt or Rs.26.1 billion. The domestic debt portfolio of the province is composed mainly of cash development loans (CDLs) with long-term maturities, lent by the federal government. These loans are now being repaid for past several years, thus, stock of domestic debt is declining.

Punjab's total debt service in 2013-14 stood at Rs.47.0 billion (5.7 per cent of total provincial revenues). Almost 44 percent of the servicing was on account of foreign debt, as it constitutes 94 percent of the total provincial debt (Figure 6.2). Interest payments on total debt which peaked at Rs.20.1 billion in 2009-10 have now come down to Rs.14.5 billion in 2013-14. Similarly, interest payments relative to revenues have been declining.

## 6.2 PENSION AND GENERAL PROVIDENT FUND LIABILITIES

Government has a Defined-Benefit Pension Scheme for its permanent employees. Traditionally the Pension Scheme was being managed on 'pay-as-you-go' basis i.e. pension payment during a year was made out of that year's revenues regardless of point of accrual of a particular liability. Considering the rising burden of pension payments, Government has, over the last few years, been following a more systematic approach towards assessment, reporting and funding of these liabilities.

In addition to the Pension Scheme, Government requires its permanent employees to subscribe to the General Provident Fund which is a Defined Contribution Scheme. General Provident Fund contributions are deducted from salaries of Government employees and credited to GP Fund Account which is part of the Public Account of the Province. Government has a fiduciary responsibility for these contributions. However, to avert the possibility of using Public Account balances as a borrowing window for Government expenditures, there was a need to create a separate GP Fund. Further, there was also a need to replenish the amounts earlier utilized from GP Fund Account due to the fact that the Government maintained a common cash balance for both Provincial Consolidated Fund and Public Account.

Following major steps have been taken by the Government for improving the management of its contingent liabilities:

- Actuarial Assessment of Pension and General Provident Fund liability of Government is being made on a regular basis;
- Funding strategies for meeting the Pension and General Provident Fund liabilities have been adopted and are regularly reviewed and updated; and
- Punjab Pension Fund and Punjab General Provident Investment Fund have been created to invest the funds (set aside by the Government for meeting, at least partially, its future Pension and General Provident Fund liabilities) in accordance with the investment policies approved by the Management Committee of the Funds.

During the FY2013-14, Punjab Government contributed Rs. 4.8 billion in Pension Fund and Rs. 3.347 billion in GP Fund for capitalization of these Funds. For FY2014-15, Punjab Government has allocated an amount of Rs.10 billion for capitalization of Pension Fund and Rs.4.960 billion for GP Fund. Increased contribution in Pension and GP Funds will make up for fewer contributions in earlier years.

### 6.2.1 Pension Liability

The estimated accrued pension liability of active employees and pensioners (combined) as of June 30, 2010 is Rs. 687.7 billion detailed below:-

**Table 6.3**  
**Pension Liability**

	No of employees/pensioners	Accrued Liability (Rs. in billion)
Active Employees	938,511	401.9
Pensioners	436,995	285.8
<b>Total</b>	<b>1,375,506</b>	<b>687.7</b>

Increase in pension payments over 30 years' time scale is illustrated in **Annex-III**.

Graphical representation of expected pension payments over 30 years' is as under:

**Figure 6.3**  
**Expected Pension Payments**

It may, however, be noted that despite increase in pension liability, the pension expense as percentage of total Government revenue is expected to remain within 8% of the total revenue as shown below:-

**Figure 6.4**  
**Pension Expense as Percentage of Revenue**

### 6.2.2 General Provident Fund Liability

The amount of GP Fund payment of a Government employee is the accumulated contribution deducted from his/her salary during service plus interest announced by the Government on such contributions on annual basis. As per the Actuarial Assessment carried in 2010, the accrued GP Fund liability of in service employees is expected to be Rs.141.5 billion at June 30, 2014.

Increase in GP Fund payments over 30 years' time scale is illustrated in **Annex-IV**.

Graphical representation of expected GP Fund payments over 30 years' is as under:

**Figure 6.5**

The growth in GP Fund balances (i.e. liability), assuming interest credited to GP Fund balances at a rate of 12% per annum, for the 30 years', is illustrated in **Annex-V**.

### 6.2.3 Assumptions underlying actuarial assessment of contingent liability

For the purpose of actuarial valuation of Punjab Government pension and GP Fund schemes, the following assumptions have been used:

- Rate of inflation 10% p.a.
- Rate of return of Fund 12% p.a. (Real return 2% p.a.)
- Employees' salary growth 11% p.a. (Real growth 1% p.a.)
- Pension growth rate 8% p.a. (Real growth -2% p.a.)
- GP Fund subscriptions growth rate 8% p.a.
- Govt. Revenue growth rate 10% p.a.
- Increase in employees 1% of total active employees

### 6.2.4 Funding Strategy

Funding strategy 2010-40 aims at:

- (i) Building up reasonable pension assets during the next 5-10 years with a view not only to discharge a part of pension expense as an off-budget item but also to cater for any expected or unexpected spikes in pension expenditures through the earnings of the

Punjab Pension Fund. This in turn will create fiscal space to meet partial pension pay out, if needed. The funding would be made available from provincial resources.

- (ii) The Government would transfer equivalent amount from the Provincial Consolidated Fund to the annual employees GP Fund contributions every year and in addition would amortize past arrears of GP Fund annually from the Provincial Consolidated Fund for the next 30 years.

During the initial years, contributions were relatively limited, owing to the continuing economic downturn which had a direct correlation with the tax collection efforts. Now it is expected that greater resources will be spared for funding Pension and GP Fund liabilities as the economic situation has stabilised. The table below illustrates the funding strategy for the next 5 years:

**Table 6.4**  
**Funding Strategy 2014-19**

(Rs. in billion)

Financial Year	Annual Regular Contribution deducted from Salaries	Past GP Fund Liability Amortization Instalment	Total Amount of Pension Fund Contribution	Total Contribution
2014-15	8.1	4.0	4.0	16.1
2015-16	8.9	5.1	**6.0	20.0
2016-17	9.8	6.2	**6.6	22.6
2017-18	10.9	7.4	**7.2	25.5
2018-19	11.9	8.7	**7.9	28.5

\*\* From 2015-16, in case of pensions, the funded amount will be a percentage of the estimated basic salary, which is the basis of determining, pension payments. Each year from 2015-16, 5% of the basic pay budgeted for the provincial employees will be contributed to the Punjab Pension Fund.

Punjab Pension Fund plans to carry out actuarial valuation of Pension and GP Fund liabilities at June 30, 2014. Funding strategy may have to be reviewed as a result of new estimates of contingent liabilities.

- The Fund has been switching exposure between T-bills, short-term bank deposits and National Saving Schemes in pursuit of higher rates of return.

## **FUND'S PERFORMANCE**

- Time Weighted Return (TWR) earned by the Fund is summarized as under:

\*Net Return means the return after deducting expenses incurred on management of PPF

\*\* CAGR means Compound Annualized Growth Rate

- In order to lock-in high yields for a long period of time, the Fund has invested a large proportion of its assets in long-term fixed-rate instruments consisting mainly of PIBs. At the end of May-14, around 71.8% of total portfolio is invested in PIBs.
- During FY13, the year-on-year (y-o-y) CPI Inflation rate had declined sharply, and the SBP reduced the policy rate by 3.0% cumulatively (from 12% to 9%). With the start of FY14, the newly elected government announced considerable upward adjustments in electricity, gas and petroleum prices; as a result the y-o-y CPI inflation had started to accelerate since May 2013 and peaked at 10.90% at the end of November 2013. In response, to combat rising inflation, SBP also increased its discount rate by 100 basis points to 10.00%. After touching double digit inflation in Nov 2013, y-o-y CPI softened and stood at 8.34% in May 2014. We expect that inflation for the full year FY14 will comfortably remain in single digit. We don't expect any further change in discount rate by State Bank of Pakistan during remaining part of FY14.
- The investment strategy followed over the past few years i.e. investment in long-term fixed-rate instruments at attractive yields, is now paying off. Despite lower inflation and discount rates, PPF continues to earn an attractive real rate of return over y-o-y CPI because of its high yielding portfolio of PIBs

**Yield-Curve 2014 vs. 2013**  
**Figure 6.6**

### **GROWTH IN ASSETS vs. LIABILITIES AND FUNDING RATIO**

- As per the last Actuarial Assessment Report, the present value of pension liabilities of the Government of the Punjab stood at Rs. 687.7 billion as on June 30, 2010.
- Market value of Fund's asset at May 31, 2014 stood at Rs. 24.5 billion.
- If PPF were envisaged as a fully funded pension plan, the value of its assets would match the value of the total pension liability of the Government of the Punjab, and the funding ratio (the ratio of its assets to its liabilities) would equal one (or 100%). This would mean that for the

accrued pension liabilities, the Government of the Punjab would not have to earmark any budgetary resources because these would be met by PPF from the return on its assets.

- Currently the Government of the Punjab does not have an explicit target for the Funding Ratio. The desired Funding Ratio can be inferred from the projected injections of funds in PPF by the government as stated in the Medium Term Budgetary Framework 2009-12 announced by Government of the Punjab. If the injections of funds were to stay on course and there were no withdrawals then at the current average rate of return on PPF funds, the projected funding ratio in the foreseeable future is expected to stay in the range of 1.75%-2.25%.
- When interest rates go down the rate of return on assets also go down and the pension plan needs a larger amount of assets to pay the pension liabilities promised to the employees. Thus a decline in interest rates can lower the Funding Ratio of a pension plan further.
- In order to properly manage a pension plan, two things are important.
  - Firstly, the Funding Ratio of the pension plan should be high so that sufficient assets vis-à-vis the liabilities are available. A Funding Ratio of 100% is ideal.
    - Currently, the Funding Ratio of the pension plan is around 2% which means that the current level of assets is sufficient to meet 2% of accrued pension liabilities of the Government of the Punjab. This Funding Ratio is clearly quite low and the government may consider increasing this ratio which would require a long-term and sustainable plan of gradual injection of funds into the pension plan.
  - Secondly, the Fund should preferably make long-term fixed-rate investments whose maturity is as close as possible to the maturity of pension liabilities. With fixed-rate investments the rate of return on the assets of the Fund will be less vulnerable to the fluctuations in the market rate of interest.
    - Considering the importance of long-term fixed-rate investments, PPF has invested 71.8% of its assets in long-term fixed-rate bonds at May 31, 2014 and remains ready to invest further up to the maximum allowable exposure limit of 75% of fund size in long term fixed rate bonds.

#### **6.2.6 Reporting of Pension and GP Fund Liabilities as per IPSAS 25:**

Pension and GP Funds liabilities of Government as on June 30, 2010, as per IPSAS 25 reported in the Actuarial Report, has been summarized at **Annex-VI** of White Paper.

## Chapter 7

# PUNJAB REVENUE AUTHORITY

PRA is completing its second financial year. PRA started collection of sales tax only on such services as were earlier covered under the Punjab Sales Tax Ordinance, 2000. These included hotels, clubs, caterers, advertisements on T.V & radio (including cable TV), customs agents, ship chandlers, stevedores, telecommunication, insurance and re-insurance, banking companies, non-banking financial institutions, stock brokers, shipping agents and courier services. In October, 2012, three more services were brought under Punjab sales tax net. These were franchise services, restaurant services, advertisements on hoarding boards, pole signs and sign boards. In May, 2013, the Punjab sales tax coverage was compared with Sindh sales tax regime and fourteen more services were added to Punjab sales tax. These included motels, guest houses, marriage halls and lawns, security alarm systems, international incoming calls, construction services, property development and promotion, contractual execution of work or furnishing of supplies, foreign exchange dealers including exchange companies and money changers, beauty/slimming parlors/clinics, management consultancy including fund and asset management, port services, terminal operators including public bonded warehouses and international freight forwarders. In July, 2013, more new services were added such as software or IT-based system development consultancy, technical, scientific & engineering consultancy, tour operators, manpower recruitment agency, security agency, mining & exploration services, advertising agents, share transfer agents, business support services, property dealers, fashion designers, architects, town planners & interior decorators, rent-a-car, car/automobile dealers and toll manufacturing services (industrial vending).

### **Application of Reduced Tax Rate**

Standard Punjab sales tax rate is 16%. Telecom services are chargeable to tax @ 19.5%. The services of property development/promotion and freight forwarders are chargeable to fixed rates of tax. PRA is generally not inclined to import unnecessary reduced rate schemes into Punjab sales tax on services system. So far only stand-alone caterers have been given reduced rate scheme of 5% (without input tax adjustment). Similar scheme for non-corporate marriage halls is also under finalization. These two time bound special reduced rate schemes for stand-alone caterers and non-corporate marriage halls have been proposed/adopted as a "tax bait" to attract historically delinquent regimes towards tax compliance in incremental mode. VAT does not discourage such innovative techniques to allure the obstinate segments from the business community towards tax compliance in progressive manner. Such special limited schemes eventually increase taxpayers' confidence in the fairness of the tax system.

## Registry

When PRA started its operations, its initial registry consisted of only 615 registrations, details of which were primarily transferred from FBR's system (through PRAL). Currently, there are 3762 regular registrations besides 848 compulsory registrations (total 4610). Compulsory registrations are gradually shifting towards regular regime. In addition to these, PRA has, by using multiple source data and field surveys, identified nearly 9750 service sector businesses, about which PRA thinks that majority of them is prima facie liable to be registered with PRA and pay Punjab sales tax. Particulars of all these cases have been sent to the duly empowered field officers of civil administration (up to tehsil level) with the request to follow them for registration/ compliance after necessary impartial verifications, if needed, about the character and size of their businesses.

Ever since its establishment, neither PRA nor any taxpayer has faced any problem in registration for the purpose of Punjab sales tax on services. The businesses already having NTN number (for income tax purposes) are enrolled on the basis of "same-day-principle". The businesses without NTN route their requests for NTN issuance to FBR through PRA, which is done by FBR system maximally within 72 hours and PRA's subsequent enrolment is issued instantly without any further loss of time. No fee is charged for enrolment or registration or for any amendment in registration particulars and returns/statements etc. PRA's registration base is increasing on daily basis.

## Revenue Achievements

As against Punjab's share of Rs.22 billion for the year of 2011-12, PRA collected over Rs.37 billion during 2012-13. For the year 2013-14, a target was worked out at Rs.52.2 billion which was optimistically uplifted to Rs.62.2 billion considering that PRA would be able to bridge the carried-over compliance gaps. However, during the first eleven months PRA has collected Rs.39.4 billion. The gap between targets and receipts is easily explainable. For the first eleven months, the proportionate target comes to Rs.39.87 billion, against which Rs.39.4 billion have been collected. Short fall is only of 1.19% which is likely to be made up by the end of June, 2014. The following table shows the month-wise revenue receipts followed by graphics of monthly revenue growth patterns:

## Two Distinct Revenue Streams

PRA has two main revenue streams, i.e. one is telecom and the other is non-telecom. During 2012-13, ratio between telecom and non-telecom tax receipts was 75:25. Due to sectoral saturation and sudden changes in income tax withholding rates by FBR, revenue from telecom services has stagnated rather slightly declined (reportedly in all tax jurisdictions) and is likely to remain so in foreseeable future. This year, tax receipts from non-telecom regimes have increased by 91.7%, while growth in original seventeen services is 57.6%. The total aggregated growth is 19.3% despite 35% increase in aggregate input tax adjustment. PRA is hopeful that this year, telecom-to-non-telecom tax ratio will touch somewhere around 60:40 and thereafter, it will reach at 50:50 (may be 45:55) in the next year (2014-15), where after it will be 25:75 maximally by the end of 2016-17. PRA believes that this goal is not impossible provided “under-invested” position of PRA is prudently transformed into “properly-invested” tax organization as the post-modern economics opines that on the successful path of development, nothing is created, nothing is destroyed, only wise and visionary transformation is engineered. The major two streams of taxable services had the following tax receipts:

**Table 7.3**  
**Tele and Non-Tele Comparison**

(Rupee in million)

Sector	2012-13(11-months)	2013-14 (11-months)	Change	%age
Telecom	24,816.0	23,662.6	(1,153.40)	-4.6%
Non-Tele(Total)	8,205.5	15,731.0	7,525.50	91.7%
Non-Tele(Old Services)	8,205.5	12,932.0	4,726.50	57.6%
Overall	33,021.5	39,393.6	6,372.10	19.3%

**Figure 7.3**

Despite exponential increase in non-telecom revenue receipts, PRA is fully cognizant of the fact that there are still widespread enforcement gaps in the implementation of Punjab sales tax in non-telecom services. In this regard, PRA is continuously making multi-dimensional efforts such

as effectively contesting litigations in courts, forcefully conducting exception management, pursuing the civil administration to accelerate their efforts to extract compliance from localized taxable businesses, actively coordinating with different trade bodies/associations to ensure optimum compliance from their members and responsively settling tax disputes and above all increasing its registry through identification of new taxable businesses using third party data. Audit efforts have also been commenced on limited scale.

### Services-wise Revenue Growth

Services-wise growth trends indicate that revenue from franchise services has increased more than four times. Restaurant services and withholding agents have also shown phenomenal increase. Increase from customs agents, banks, insurance and courier services is also reasonably good. Increase from other miscellaneous services is nearly two and half fold. PRA's overall thrust is to maximize collections from non-telecom tax base. Service-wise comparative tax receipts are tabulated below:

**Table 7.4**

**Figure 7.4**

Figure 7.5

The experience so far gained shows that most of the compliance problems are coming from regimes which have either remained untaxed in the past or have traditionally defied tax compliance.

### Expenditure Budget Scenario

During 2013-14, PRA obtained budget allocation of Rs.200 million. During the first 10 months, it spent only Rs.110 million. It is expected that by the end of the year, the total expenditure will be nearly Rs.167 million. Out of this, the major spending has gone to the payment of service charges to PRAL, fixed liabilities of rentals and outsourced services and acquisition of durable/capital goods. The salary component was only Rs.31 million. The balance of Rs.33 million (which also included economy cut) is being surrendered to the government. PRA believes that collection cost of sales tax on services in the province of Punjab is the lowest as compared to comparable tax organizations in the country.

### Inter tax issues

PRA is already proactive and is in consultation with FBR and other sub-national VAT organizations for earlier resolution of the issues of mutual concern/interest. Like Sindh, Punjab too agreed to sign MOU with FBR for reciprocal input tax adjustment with an inbuilt mechanism for periodical settlements of claims on the basis of a principle that "winner will compensate the loser". MOU has been signed on 13-03-2014. FBR has also issued the required notification.

### Taxpayers' education

PRA has conducted over 40 big seminars/workshops in collaboration with civil administration, trade bodies/associations, tax bar associations etc. wherein the invitees from the concerned sectors were fully enlightened about the system of Punjab sales tax. The second regular round of seminars will be undertaken by PRA after the forthcoming budget. Besides, PRA

has been using electronic and print media for the advertisements on Punjab sales tax (publicity is a continuous feature). Number of FAQs on PRA's website is gradually increasing. These FAQs carry tremendous importance for the guidance of taxpayers. Most of the taxpayers' correspondence with PRA is online. PRA replies emails within 24 hours. So far 5406 emails have been received and all stand replied. PRA's average email response time is 11.61 hours (less than 12 hours). PRA website has recorded 249,784 visits, 89,889 unique visits and 504,203 page views. These figures show a significant interaction of taxpayers/businesses/public with PRA's website.

### **IT Developments**

Modern tax management cannot be imagined without proper IT-support. Use of information technology not only enhances the neutrality of tax management besides upgrading its efficiency and service level but also exponentially economizes upon collection and compliance costs. PRA is currently availing paid IT services of PRAL for the purpose of collection of Punjab sales tax. PRA is actively working for avenues for additional ultra-advance IT-based solutions for compliance issues especially in regimes where underreporting is not an unusual feature of tax declarations. Restaurant Invoice Monitoring System (RIMS) has been designed by PRA where under through real time modem-based connectivity, the invoice data of restaurants will be captured by PRA into its system and propriety of monthly declarations of restaurants will be checked by the system on the basis of online-retrieved invoice data. The scheme also envisages reward for the diners/food eaters (customers) so that people themselves persuade and force the restaurants to issue tax invoices. The rewards shall be given through automated random balloting. In case the proposed scheme succeeds (which is definitely expected to) other vulnerable business regimes involving walk-in-customers or spot clientele will also be subjected to similar system-based watch.

### **Revenue Vision**

Based upon R&D work conducted and the experience gained during 2013-14, PRA has developed a precise and comprehensive 7-points' budget vision for the year 2014-15. These points cover abridgment of experientially identified operational gaps, rationalization of description, codification, nomenclature and classification of taxable services, inclusion of new services, indigenization of IT capacity/operations, formal launching of (non-intrusive) audit operations and systematic HR development and resource mobilization. With the materialization of these points, PRA is expecting to bring a further robust revenue growth in the year 2014-15 especially in services other their telecom.

### LOCAL GOVERNMENT FINANCE

Under the Punjab Local Government Ordinance 2001 a Provincial Finance Commission Award was envisaged as basis of allocation for Local Governments. The PFC Award established an inter-se share of various tiers of Local Governments through a system of percentage shares based on a matrix of “population – performance-need” continuum. The share of Districts/City Districts and TMAs has accordingly been prescribed under four generic categories of “tied”, “general purpose”, “development” and “equalization” grants. In addition TMAs receive Urban Immovable Property Tax proceeds and City District Governments receive additional resources to perform municipal functions. Funds are provided to Unions on fixed share basis. Cantonment Boards receive share in lieu of Octroi on the basis of their respective populations. The allocations for local governments have been growing since the promulgation of the Punjab Specification and Distribution of Provincial Resources Order, 2006. As such District Governments, TMAs and Councils received the following share:

**Table 8.1**

**Allocation to Local Governments under the PFC Award, 2006**

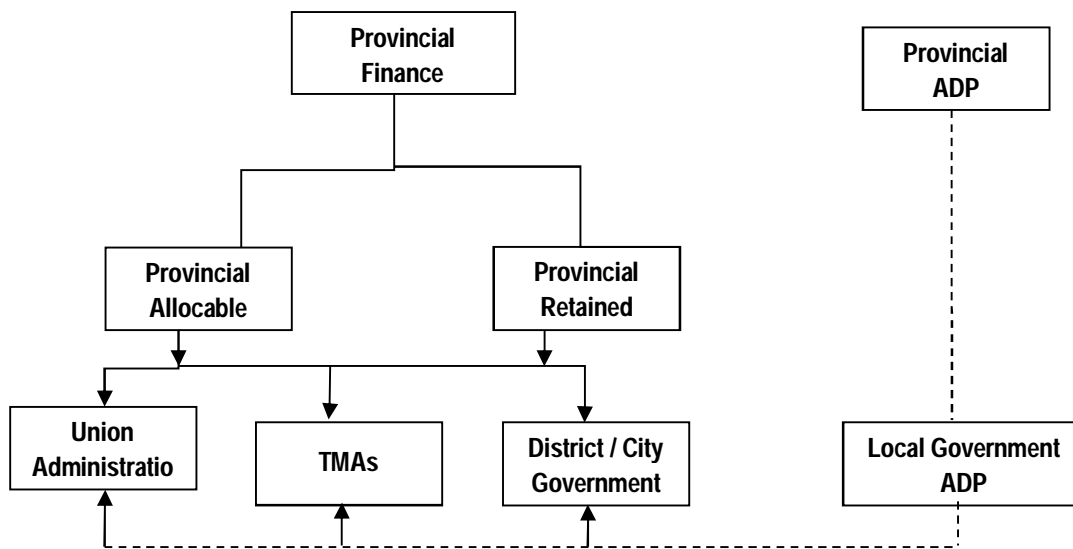

*(Rs. in Billion)*

Year	District Governments	Tehsil Municipal Administrations	Union Administrations	Cantonment Boards
2010-11	131.653	13.800	5.019	1.200
2011-12	148.000	15.570	5.019	1.200
2012-13	186.783	17.000	6.000	1.200
2013-14	214.800	17.000	6.000	1.200
2014-15	236.280	17.000	6.000	1.200

Under the PFC Award, 2006 there has been progressive increase in the allocations for Local Governments. Beginning from financial year 2010-11 the allocations for District Government has increased from Rs. 131.653 billion to Rs. 214.800 billion in financial year 2013-14. The allocation for TMAs has increased from Rs. 13.8 billion in financial year 2010-11 to Rs.17.000 billion in financial year 2013-14. Similarly, the allocation for Union Administrations has increased from Rs. 5.019 billion to Rs.6.000 billion in 2013-14 and the Cantonment Boards have been receiving a steady annual allocation of Rs.1.2 billion for the past four financial years.

In the fiscal year 2013-14, Local Government Finance experienced a special dispensation whereby Local Governments as they received greater Provincial Government allocations for better governance through special grants and packages in addition to the formula based fiscal transfers under the Provincial Finance Commission Award. These extra-PFC allocations included grants for Solid Waste Management, Bail-out packages for District Governments and TMAs, Grants for PHAs, Grants for Schools and Primary Health Care, District Development Packages, Development Grants for Large Cities, etc. A more vivid picture of transfers to Local Governments transpires when PFC and extra-PFC grants are seen in conjunction.

**Figure 8.2**  
**Allocations to Local Governments**

The above figure reflects that Local Governments receive grants under the Provincial Retained Amount and through the Annual Development Programme of the Province in addition to grants from the Provincial Allocable amounts under Provincial Finance Commission Award.

However, District Governments have been able to generate only Rs.37,196,567 million in the preceding financial year as their own revenues which averages at 0.021% percent of their overall resources. Similarly, TMAs generated a total of Rs.97,839.434 million whereas under the PFC share alone the TMAs received Rs.11,955.669 million. Thus, Local Governments remain clearly dependent on provincial allocations. This is despite the provision of an elaborate taxation regime in the second schedule of the Punjab Local Governments Ordinance, 2001. Local Governments have been able to generate the following amounts as their own source revenue:-

**Table 8.3**

## Chapter 9

# PUBLIC FINANCIAL MANAGEMENT REFORM

Public Financial Management (PFM) is a process by which governments translate public resources into public services. It is a critical tool for Government to achieve policy objectives and development goals, as defined by the policymakers. Built around the principles of transparency and accountability, it helps build bridges between the state and citizens.

PFM reforms are at the vanguard of provincial reform agenda with focus on aggregate fiscal discipline, resource allocation based on agreed priorities and efficient use of available resources for delivery of high quality public services and accountability. These are invariably very complex and long term and, by very nature, a political exercise. They require proper prioritization, sequencing and, above all, ownership of the stakeholders.

The provincial government rolled out several reforms over the past several years in the province, with varying degrees of success. The following is an account of on-going as well as contemplated reform initiatives:

### **PFM Reforms at Provincial Level:**

The Finance Department has been spearheading PFM Reforms in the province and has developed a roadmap, which broadly gives a policy direction to the reforms. With technical support from international development partners, the provincial government is implementing reforms. Sub National Governance Programme (SNG) –United Kingdom’s Department for International Development (DFID) funded programme– is supporting the provincial government in implementing PFM reforms.

#### **(i) PFM Reform Strategy**

Finance Department, with the assistance of SNG, is developing a comprehensive **PFM Reform Strategy** to properly strategize and prioritize various PFM reform initiatives. While building around the lessons and experiences from around the world and Punjab, the PFM Reform Strategy revolves around the following primary principles:

- Shift to a more medium term approach, with its emphasis on linking policy, planning and budgeting, from the traditional annual focus;

- Shift to a top-down approach, driven not only by resource availability but also by the priorities of government, from a bottom-up approach to budgeting;
- Shift towards performance based budgeting, linking inputs to outputs and outcomes, and away from input based budgeting.

The proposed PFM Reform Strategy aims to improve transparency of budgetary process, strengthen Medium Term Budget Framework (MTBF) process, improve accountability and credibility of the budget as well as need for political engagement for ownership of the PFM reforms.

PFM Reform Strategy is built around anchoring the Medium Term Budgetary Framework (MTBF) in the provincial government. MTBF is key to linking policy, planning and budgeting by providing multi-year perspective and creating linkages among outcomes, output and costs. In line with this approach, Government of the Punjab is committed to strengthen MTBF, including Medium Term Fiscal Framework (MTFF), Budget Strategy Paper and Sector Planning.

#### **(ii) Budget transparency and accessibility**

Availability of and access to complete fiscal and budgetary information is central to PFM reform. It is a stylized fact that budget transparency and accountability can accrue several dividends in terms of priorities based allocation; increased responsiveness to people's needs and reduced rent seeking. In order to benefit from this approach, a Budget Transparency Review (BTR) is in the pipeline mainly to improve budget transparency and accountability. The purpose of this study is to (i) conduct a baseline assessment of current levels of budget transparency and accessibility based on international good practice, (ii) identify areas of potential reform which if implemented would improve budget transparency and accessibility, (iii) build the capacity of the FD to assess and strengthen budget transparency and (iv) provide a basis for FD to respond to the requirements of Right to Information (RTI) legislation.

#### **(iii) Citizen Budget for Punjab**

Protection, preservation and promotion of the interests and aspirations of its masses lend basis to the existence and legitimacy of the Governments. Governments therefore, stand answerable to their citizens for 'what they do and how they do it'. Therefore, public policies and plans should be responsive to and reflective of the needs and priorities of their people. Implementation efforts of Governments and their outcomes should also be known to the citizens. On the other side, citizens have a responsibility to hold their governments accountable.

Citizens' engagement can be enhanced by 'creating preconditions' that enable people to contribute in an effective way. One most crucial precondition is that all citizens have easy and ready access to government information. Technical documents should be made available to the stakeholders in easy and understandable layout. Needless to underscore budget documents are highly technical and not user friendly. Complex concepts and terminology are mostly unfamiliar to

many. Therefore, presentation of budget information in an easy and understandable format seems imperative to ensure engagement of citizens. While providing the budget information to the common man, a Citizens Budget provides the government as opportunity to communicate its perspective and rationale behind various budgetary choices and decisions. For the first time ever, Government of Punjab is producing a Citizens' Budget 2014-15 that would present the budgetary information to the citizens in a way and layout that is easy to understand.

#### **(iv) Creating Fiscal Space**

Given that ours is a resource constrained economy, there is always a need for reforming the revenue side of the provincial finances to create fiscal space to fund better public services. SNG is trying to assist in creating fiscal space by expenditure savings or generating additional revenue. In this regard, areas of technical assistance such as tax surveys for broadening of tax bases, automation of tax bases etc. would be identified to help generate more revenue for the province. On the other hand initiatives would be implemented to get savings in expenditure. An example of such initiatives is 'Pay Roll Audit of Education Sector'. While main objective of the payroll audit remains to provide reasonable assurance that effective controls are in place to ascertain the integrity of transactions, some sizable fiscal space may also be created as a result of payroll audit. The exercise is in the pipeline to conduct payroll audit in the education department to identify gaps and accumulate some savings for the government. The resultant savings might be utilized on much needed public services.

#### **(v) Designing of Provincial Finance Commission (PFC) Award:**

Evidence suggests that decentralization of authority and responsibility for service delivery improves quality and delivery of public services. The creation of the local governments in 2001, especially the district governments, therefore required predictable, transparent and credible mechanism for intergovernmental transfers to provide adequate revenues for local services. The new local government system also provides for PFC mechanism to ensure uninterrupted financing of devolved service delivery functions through a system of formula based transfers. A study has been commissioned to assess the effectiveness of PFC transfers in Punjab. The study mainly appraises the adequacy, predictability and equalization effects of the PFC transfers. Another key feature of the analysis of the PFC mechanism also assesses the sustainability of local government expenditures, financed largely through transfers mandated under the PFC. Based on the recommendations of the study; PFC Award is being redesigned to fund the local governments to better respond to the needs of their people.

#### **PFM Reforms at District Level:**

A few reforms are also being planned at the district level to improve primary and secondary service delivery in education and health sector. These include:

#### **(i) District Needs Assessment for Needs Based Budgeting:**

Our district governments are mandated to manage and monitor the provision of basic services. However, very unfortunately they lack the capacity and the evidence to properly plan and manage budgets for the service delivery. Budgets at the district level are mainly result of incremental allocations over the previous year. Hardly any analysis goes into the allocation of funds. This leads to poor planning and budgeting for the services. In order to assess the needs of the people and find gaps in planning, budgeting and delivery of services, comprehensive needs assessment exercises in health and education sector are in the pipeline. The recommendations of the assessments will help district governments to prepare their budgets based on evidence of the people's needs. Needs Assessments in education and health sectors are designed to address specific service delivery objectives and investigate both generic issues such as flow of funds and lack of citizen engagement, and the needs of the different groups including women, girls, minorities and people with disabilities.

**(ii) Expenditure Tracking at Service Delivery Level:**

Efficiency, effectiveness and equity in the use of public resources are primary preconditions for delivery of quality public service. However, poor mechanisms for tracking and monitoring allocation and utilization of funds lead to poor public services. Besides unpredictability of funds allocation and transfers results in poor delivery of public services at the local level. Resultantly our service delivery units such as Basic Health Units (BHU) and Schools cannot deliver quality public services. Provincial Government is in the process of streamlining the transfer of funds from province to the districts and to the actual service delivery units such as BHU. Given that most of our service delivery units have no Drawing and Dispersing Officer (DDO), tracking of expenditures becomes impossible beyond DDO level. Therefore, an expenditure tracking exercise is being carried out to assess funds flow mechanisms and timeliness of transfers of funds to service delivery unit.

Evidence shows that availability of resources at the service provider level is not sufficient to produce desired results. Capacity to efficiently utilize the available funds also plays a critical role to this effect. 'How efficiently the available funds are utilized' is the focus of EQSDS (Expenditure and Quantity of Service Delivery Survey). A comprehensive EQSDS is also being conducted with the help of World Bank. The EQSDS will help improve efficiency of public spending for better public service.

**GENERAL PROVIDENT FUND**

The Punjab Government is not a contributor to General Provident Fund. Employee is the sole contributor to this benefit. The contributions are deducted by the Government from employees' salaries using subscription rates depending on the pay scales of employees. The GP Fund notional accounts thus created are credited with interest income based on interested rates announced by the Government on an annual basis. The account balances are paid to employees at the time of cessation of their service.

As per IPSAS25:

- definitions given in **paragraph 10** of the Standard, Employee Benefits are all forms of consideration given by an entity in exchange for service rendered by employees;
- introduction note **IN1** of the Standard, benefits that are not consideration in exchange for service rendered by employees or past employees of reporting entities are not within the scope of this Standard; and
- **paragraph 28** of the Standard, for a post retirement benefit plan to be classified as a defined contribution plan, the entity must pay fixed contributions into a **separate entity**.

Keeping in view the above paragraphs and the nature of the GP Fund benefit, it is interpreted that reporting of this scheme does not fall under this Standard. However, if disclosures are prepared as per IPSAS25, they would be as follows:
