DEVELOPMENT STATISTICS OF THE PUNJAB

BUREAU OF STATISTICS
GOVERNMENT OF THE PUNJAB
LAHORE

PREFACE

This is the fourth annual issue of "Development Statistics of the Punjab". Since 1972, this publication has been brought out in October/November, every year. Prior to 1972, Bureau of Statistics Published eight issues containing data on West Pakistan basis. The last three of these eight issues also included data for the four Provinces of the Punjab, S&N, N.W.F. and Baluchistan.

"The Development Statistics of the Punjab" contains socio-economic statistical information, arranged in twenty four separate sections. Available information has been presented in a format which facilitates planning and evaluation of development activities.

In order to make this Bulletin more informative and useful, explanatory notes on important sections such as Meteorology, Agriculture (Land Utilization, Acreage and Production of agricultural crops), Forestry, Fisheries, Foodgrains, Fuel & Power, Current Industrial Statistics, Census of Manufacturing Industries, Prices, Education and Health Sections have been added. The explanatory notes describe the scope of information, procedures of collection and compilation of relevant data, definitions of technical terms and statistical concepts and limitations of data presented. In some cases definitions, explanations and limitations of data concerning any particular table have been described in the "foot-notes".

Except as other-wise indicated statistical information presented in this publication relates only to the Province of the Punjab. Where it relates to the country as a whole, it has been specifically described in table-title. The break-down of Provincial data by administrative Units like Tehsils, Districts and Divisions has also been given.

As compared to the 1974-issue, certain changes have been introduced in this one. Continuing series have been up-dated. Less timely data have been eliminated. In particular, the data in respect of Principal Fruits have not been presented as more recent information was not available. Explanatory Notes have been revised to incorporate necessary changes. Many of the sections have undergone fairly extensive tabular re-arrangement. Format changes have been introduced to improve the organization of the subject-matter. The sources of information other than Bureau of Statistics, have been indicated for the concerned tables. Statistics which are compiled in the Bureau of Statistics, are presented without citation.

The users of the information are requested to communicate their comments and statistical needs for consideration in planning the future editions. The Bureau of Statistics gratefully acknowledges the cooperation extended by source agencies in providing the required information.

MOHAMMAD AFZAL
DIRECTOR

Bureau of Statistics,
Government of the Punjab,
2-Begum Road, Lahore.

October 13, 1975.

SYMBOLS AND EQUIVALENTS

--Zero or Insignificant

0 or 0.0= Magnitude less than half of unit employed.

...= Not available.

..= Not applicable.

N.R.= Not Reported.

*= Provisional, Preliminary or Estimated.

r= Revised.

N= Nitrogenous Fertilizer.

P₂ O₅= Phosphatic Fertilizer.

K= Potash.

Rs.= Rupees.

1 Acre= 4,840 Square Yards.

1 Tons= 2,240 Lbs.

1 Killogram= 2.2046 Lbs.

1 Cubic Foot= 0.0283 Cubic Meter.

1 Imperial Gallon= 1.20094 U.S. Gallons.

One Lac= 1,00,000=100 Thousands.

Ten Lacs= 10,00,000= 1 Million.

One Crore=1,00,00,000=10 Millions.

Conversion Coefficients and Factors

1 cubic foot	= 0.0283168 cubic metre
1 foot	= 0.304800 metre
1 yard	= 0.914400 metre
1 square mile	= (640 acres 2.589 988 square kilometres 258.998811 hectares)
1 acre	= (4840 square yards 0.404686 hectare)
1 short ton (2000 lbs)	= 0.907185 metric ton
1 long ton (2240 lbs)	= 1.016047 metric tons
1 bale (cotton)	= 392 lbs.
1 pound (lb.)	= 0.45359237 killogram
1 hundred weight (cwt)	= (112 lbs. 54.44 seers 50.80234544 killograms)
1 maund (md.)	= 37.32417216 killograms
1 seer	= 0.9331043 kilogram
1 chatak	= 1/16 seer
1 tola	= 11.6638038 grams
1 gross	= 144 numbers
1 passenger mile	= (1.609344 (Passenger (kilometres)
1 short ton mile	= (1.459972 metric ton (kilometres)
1 long ton mile	= (1.635169 metric ton (kilometres)
1 imperial gallon (gal.)	= (4.54596 litres 1.20095 U.S. gallons)
1 pint	= 0.5682454 litre

Note:- In some tables, totals may not tally due to rounding off of separate items.

LIST OF TABLES

<i>Table No.</i>	<i>Title</i>	<i>Page</i>
I- National Accounts		
1.	Gross National Product at Current Factor Cost, Pakistan, 1970-71 to 1974-75	1-2
2.	Gross National Product at Constant Factor Cost, Pakistan, 1970-71 to 1974-75	3
3.	Net National Product at Current Factor Cost, Pakistan, 1970-71 to 1974-75	4
4.	Net National Product at Constant Factor Cost, Pakistan, 1970-71 to 1974-75	5
5.	Gross Fixed Capital Formation by Economic Activity at Current Prices, Pakistan: 1969-70 to 1973-74	6-7
II- Meteorology		
	Explanatory Notes on Meteorology Section	8
6.	Rainfall at Selected Sections: 1970 to 1975	9
III- Agriculture		
	Explanatory Notes on Agriculture Section	10-12
7.	Canals Withdrawals: 1964-65 to 1974-75	13-14
8.	Tubewells by Districts and by Ownership: 1972 and 1974	15
9.	Diesel and Electric Tubewell by Districts: 1974	16
10.	Tubewells Installed, Electrified and Pumping in SCARPS' Areas: 1965 to 1975	17-20
11.	Pumpage Capacity and Actual Pumpage of SCARP-I Tubewells by Crop Seasons and by Schemes: 1964-65 to 1974-75	21-26
12.	Pumpage Capacity and Actual Pumpage of SCARP-II Tubewells by Crop Seasons and by Schemes: 1964-65 to 1974-75	27-31
13.	Pumpage Capacity and Actual Pumpage of SCARP-III Tubewells by Crop Seasons and by Schemes: 1968-69 to 1974-75	32

<i>Table No.</i>	<i>Title</i>	<i>Page</i>
14.	Pumpage capacity & Actual Pumpage of SCARP-IV Tubewells by Crop Seasons & by Schemes: 1969-70 to 1974-75	33
14-A	Sales of Fertilizers by Districts: 1967-68 to 1974-75	34
15.	Nutrients Present in Various Types of Fertilizers	35
16.	Prices of various Types of Fertilizers	36
17.	Distribution of Improved Seeds-Targets and Actuals: 1970-71 to 1975-76	37
18.	Distribution of Improved Seeds of Wheat and Cotton by Districts: 1969-70 to 1974-75	38-39
19.	Procurement of Pesticides; 1969-70 to 1974-75	40
20.	Area Treated with Pesticides by Crops: 1964-65 to 1974-75	41
21.	Land Utilization: 1964-65 to 1972-73	42
22.	Area and Land Utilization by Districts: 1972-73	43-44
23.	Area Irrigated by Different Sources: 1964-65 to 1974-75	45
24.	Area Irrigated by Different Sources by Tehsils: 1974-75	46-48
25.	Area Sown under Wheat, Rice Sugarcane and Cotton by Sources of Irrigation: 1964-65 to 1974-75	49-50
26.	Kharif and Rabi Acreage by Crops-Total and Irrigated: 1964-65 to 1974-75	51-53
27.	Kharif and Rabi Acreage Failed by Crops- Total and Irrigated: 1969-70 to 1974-75	54-55
28.	Area Sown-Total and Irrigated - under Major Crops: 1964-65 to 1974-75	56-57
29.	Production - Total and Irrigated - of Major Crops: 1964-65 to 1974-75	58-59
30.	Per Acre Yield-Total and Irrigated - of Major Crops: 1964-65 to 1974-75	60-61
31.	Area and Production - Total and Irrigated - of Wheat & Rice by varieties: 1969-70 to 1974-75	62-63
32.	Area Sown - Total and Irrigated-under Wheat by Districts: 1970-71 to 1974-75	64-65

<i>Table No.</i>	<i>Title</i>	<i>Page</i>
33.	Area Sown - Total and Irrigated-under Rice by Districts: 1970-71 to 1974-75	66
34.	Area Sown-Total and Irrigated-under Cotton by Districts: 1970-71 to 1974-75	67
35.	Area Sown - Total and Irrigated - under Sugarcane by Districts: 1970-71 to 1974-75	68
36.	Production - Total and Irrigated - of Wheat by Districts: 1970-71 to 1974-75	69
37.	Production - Total and Irrigated of Rice (Cleaned) by Districts: 1970-71 to 1974-75	70
38.	Production - Total and Irrigated-of Cotton by Districts: 1970-71 to 1974-75	71
39.	Production - Total and Irrigated - of Sugarcane by Districts: 1970-71 to 1974-75	72-73
40.	Area and Production of Various Oil Seeds: 1964-65 to 1974-75	74
41.	Area Sown- Total and Irrigated-under Minor Crops 1971-72 to 1974-75	75-76
42.	Production of Minor Crops; 1971-72 to 1974-75	77-78
IV. Food Grains		
	Explanatory Notes on Foodgrains Statistics Section	79
43.	Arrivals of Wheat in Mandies by Districts: 1969-70 to 1974-75	80
43-A.	Monthly Arrivals of Wheat in Mandies: 1969-70 to 1974-75	81
44.	Procurement of Wheat on Voluntary Basis by Districts: 1969-70 to 1974-75	82
45.	Offtake (Releases) of Wheat by Districts: 1969-70 to 1974-75	83
46.	Procurement, Releases and Arrivals of Wheat in Mandies: 1969-70 to 1974-75	84
47.	Stock Position of Wheat in Government Reserves on the First of Every Month: 1968-69 to 1974-75	85

<i>Table No.</i>	<i>Title</i>	<i>Page</i>
48.	Available Foodgrains Storage Capacity by Districts: 1975	86
V. Forestry		
	Explanatory Notes on Forest Statistics Section and	87-88
49.	Forest Area by Districts/by Enactment: 1972-73	89-90
50.	Area under Forests by Forest Divisions: 1968-69 to 1972-73	91
51.	Timber and Firewood Production (Quantity and Value): 1964-65 to 1973-74	92
VI. Animal Husbandry		
52.	Veterinary Hospitals, Dispensaries and Centres: 1969-70 to 1974-75	93
53.	Veterinary Hospitals, Dispensaries and Centres by Districts: 1973-74 and 1974-75	94
54.	Recognized Slaughter Houses by Districts:1973-74 & 1974-75	95
55.	Animals Vaccinated, Treated and Castrated: 1964-65 to 1974-75	96
56.	Animals Vaccinated, Treated and Castrated by Districts: 1973-74 and 1974-75	97
57.	Animals Slaughtered in Recognised and Un-recognized Slaughter Houses: 1970-71 to 1974-75	98
58.	Cattle Slaughtered in Recognized and Un-Recognized Slaughter Houses by Districts: 1973-74 and 1974-75	99
59.	Buffaloes Slaughtered in Recognized and Un-Recognized Slaughter Houses by Districts: 1973-74 and 1974-75	100
60.	Sheep Slaughtered in Recognized and Un-Recognized Slaughter Houses by Districts: 1973-74 & 1974-75	101
61.	Goats Slaughtered in Recognized and Un-Recognized Slaughter Houses by Districts: 1973-74 & 1974-75	102

<i>Table No.</i>	<i>Title</i>	<i>Page</i>
62.	Other Animals Slaughtered in Recognized and Un-Recognized Slaughter Houses by Districts: 1973-74 & 1974-75	103
VII. - Fisheries		
	Explanatory Notes on Fisheries Section	104
63.	Fish Production (Quantity and Value) by Divisions: 1964-65 to 1974-75	105
VIII. Fuel & Power		
	Explanatory Notes on Electricity Consumers Statistical Data	106-107
64.	Gas Consumption by Consumer Groups: 1964-65 to 1974-75	108
65.	Electricity Generation (Installed Capacity) by Power Stations, Northern Grid, WAPDA: 1967-68 to 1974-75	109-110
66.	New Electricity Connections given and Applications pending with WAPDA by Consumer Groups: 1965-66 to 1974-75	111
67.	Electricity Consumers and Units Sold by Categories, WAPDA: 1964-65 to 1974-75	112
68.	Electricity Revenue Assessed, WAPDA: 1964-65 to 1973-74	113
69.	Power Demand and Supply Position, Northern Grid: 1964-65 to 1974-75	114
IX- Mining		
70.	Production of Important Minerals: 1964-65 to 1974-75	115
X- Current Industrial Statistics		
	Explanatory Notes of Current Industrial Statistics Section	116-117
71.	Sugar Production and Stock: 1964-65 to 1974-75	118
72.	Employment in Selected Large-Scale Industries: 1970-71 to 1974-75	119-121
73.	Industrial Production of Selected Large-Scale Industries: 1970-71 to 1974-75	122-127

Table No.	Title	Page
XI- Census of Manufacturing Industries		
	Explanatory Notes of Census of Manufacturing Industries (CMI) Section	128-130
74.	Summary Data of Census of Manufacturing Industries: 1964-65 to 1968-69, 1970-71 to 1972-73	131
75.	Summary Statistics of Census of Manufacturing Industries by Major Industry Groups: 1972-73	132
76.	Summary Statistics of Census of Manufacturing Industries by Major Industry Groups: 1971-72	133
77.	Summary Statistics of Census of Manufacturing Industries by Major Industry Groups: 1970-71	134
78.	Summary Statistics of Census of Manufacturing Industries by Major Industry Groups: 1968-69	135
79.	Summary Statistics of Census of Manufacturing Industries by Major Industry Groups: 1967-68	136
80.	Summary Statistics of Census of Manufacturing Industries by Major Industry Groups: 1966-67	137
81.	Summary Statistics of Census of Manufacturing Industries by Major Industry Groups: 1966-67	138
82.	Summary Statistics of Census of Manufacturing Industries by Major Industry Groups: 1964-65	139
XII- Transport		
83.	Pakistan Railways' Locomotives, Freight and Passengers: 1970-71 to 1974-75	140
84.	Rail Passengers by Classes: 1964-65 to 1973-74	141
85.	Commodities Carried by Types by Pakistan Railways: 1969-70 to 1973-74	142-143
86.	Pakistan Railways' Passenger and Freight Traffic: 1964-65 to 1973-74	144
87.	Road Passenger and Freight Traffic: 1964-65 to 1973-74	145
88.	Motor Vehicles 'On Road' by Types: 1964-65 to 1973-74	146
89.	Motor Vehicles 'On Road' by Types & by Districts: 1973-74 (As on 30th June)	147
90.	P.I.A.'s Revenue Operation Statistics: 1969-70 to 1973-74	148

<i>Table No.</i>	<i>Title</i>	<i>Page</i>
 XIII- Communications		
91.	Postal Service Operations, Pakistan: 1969-70 to 1973-74	149
92.	Radio Licences by Districts: 1965 to 1972	150
93.	Tele-Communication's Service Operations, Pakistan: 1964-65 to 1973-74	151
94.	Telephones: 1964-65 to 1974-75	152
95.	Television Sets by Districts: 1970 to 1975 (As on 31st December)	153
96.	Television Sets by Selected Localities: 1974 & 1975 (As on 30th June)	154-157
 XIV- Roads & Road Accidents.		
97.	Road Mileage by Types Maintained by Highway Department: 1964-65 to 1973-74	158
98.	Road Mileage by Types Maintained by Highway Department by Districts: 1972-73 & 1973-74	159
99.	Expenditure on Construction and Maintenance of Roads Maintained by the Highway Department: 1964-65 to 1973-74	160
100.	Road Accidents and Casualties: 1964 to 1975	161
101.	Road Accidents and Casualties by Districts: 1974	162
 XV- Foreign Trade		
102.	Foreign Trade of Pakistan: 1964-65 to 1974-75	163
103.	Pakistan's Exports (FOB): 1971-72 to 1974-75	164
104.	Pakistan's Imports by Commodity Groups: 1971-72 to 1974-75	165-167
105.	Pakistan's Exports by Principal Countries: 1971-72 to 1974-75	168
106.	Pakistan's Imports by Principal Countries: 1971-72 to 1974-75	169
107.	Exports from Karachi Port: 1971-72 to 1974-75	170

<i>Table No.</i>	<i>Title</i>	<i>Page</i>
108.	Imports to Karachi Port: 1971-72 to 1974-75	171
	XVI- Prices	
	Explanatory Notes on Prices Section	172-174
109.	Index Numbers of Wholesale Prices by Commodity Groups, Pakistan: 1968-69 to 1974-75	175
110.	Index Numbers of Wholesale Prices (Food Group) by Commodities, Pakistan: 1968-69 to 1974-75 (1959-60=100)	176-179
111.	Index Numbers of Wholesale Prices (Raw Material Group) by Commodities, Pakistan: 1968-69 to 1974-75 (1959-60=100)	180
112.	Index Numbers of Wholesale Prices (Fuel, Lighting and Lubricants Group) by Commodities, Pakistan: 1968-69 to 1974-75 (1959-60=100)	181
113.	Index Numbers of Wholesale Prices (Manufactures Group) by Commodities, Pakistan: 1968-69 to 1974-75 (1959-60=100)	182-185
114.	Combined Consumer Price Index Numbers, by Categories of Employees, Pakistan: 1970-71 to 1974-75, (1969-70=100)	186
115.	Spot Bullion Quotations at Lahore: 1968-69 to 1974-75	187
116.	Monthly Average Wholesale Prices of Wheat (Desi) in Important Markets: January, 1974 to June, 1975	188
117.	Monthly Average Wholesale Prices of Wheat (Mexi Pak) in Important Markets: January, 1974 to June, 1975	189
118.	Monthly Average Wholesale Prices of Atta in Important Markets: January, 1974 to June, 1975	190
119.	Monthly Average Wholesale Prices of Rice (Basmati) in Important Markets: January 1974 to June, 1975	191
120.	Monthly Average Wholesale Prices of Barley in Important Markets: January, 1974 to June, 1975	192
121.	Monthly Average Wholesale Prices of Jowar in Important Markets: January, 1974 to June, 1975	193
122.	Monthly Average Wholesale Prices of Bajra in Important Markets: January, 1974 to June, 1975	194

<i>Table No .</i>	<i>Title</i>	<i>Page</i>
123.	Monthly Average Wholesale Prices of Maize in Important Markets: January, 1974 to June, 1975	195
124.	Monthly Average Wholesale Prices of Gowara in Important Markets: January, 1974 to June, 1975	196
125.	Monthly Average Wholesale Prices of Masoor (Whole) in Important Markets: January, 1974 to June, 1975	197
126.	Monthly Average Wholesale Prices of Moong (Whole) in Important Markets: January, 1974 to June, 1975	198
127.	Monthly Average Wholesale Prices of Mash (Whole) in Important Markets: January, 1974 to June, 1975	199
128.	Monthly Average Wholesale Prices of Gram (Whole) in Important Markets: January, 1974 to June, 1975	200
129.	Monthly Average Wholesale Prices of Masoor (Split) in Important Markets: January, 1974 to June, 1975	201
130.	Monthly Average Wholesale Prices of Mash (Split) in Important Markets: January, 1974 to June, 1975	202
131.	Monthly Average Wholesale Prices of Gram (Split) in Important Markets: January, 1974 to June, 1975	203
132.	Monthly Average Wholesale Prices of Gur (Fine) in Important Markets: January, 1974 to June, 1975	204
133.	Monthly Average Wholesale Prices of Shakkar in Important Markets: January, 1974 to June, 1975	205
134.	Monthly Average Wholesale Prices of Sugar (Desi) in Important Markets: January, 1974 to June, 1975	206
135.	Monthly Average Wholesale Prices of Toraa in Important Markets: January, 1974 to June, 1975	207
136.	Monthly Average Wholesale Prices of Sarsoon in Important Markets: January, 1974 to June, 1975	208
137.	Monthly Average Wholesale Prices of Apple in Important Markets: January, 1974 to June, 1975	209
138.	Monthly Average Wholesale Prices of Malta in Important Markets: January, 1974 to June, 1975	210
139.	Monthly Average Wholesale Prices of Kinno in Important Markets: January, 1974 to June, 1975	211
140.	Monthly Average Wholesale Prices of Banana in Important Markets: January, 1974 to June, 1975	212

<i>Table No.</i>	<i>Title</i>	<i>Page</i>
141.	Monthly Average Wholesale Prices of Potato in Important Markets: January, 1974 to June, 1975	213
142.	Monthly Average Wholesale Prices of Onion in Important Markets: January, 1974 to June, 1975	214
143.	Monthly Average Wholesale Prices of Chillies in Important Markets: January, 1974 to June, 1975	215
144.	Monthly Average Wholesale Prices of Raddish in Important Markets: January, 1974 to June, 1975	216
145.	Monthly Average Wholesale Prices of Peas in Important Markets: January, 1974 to June, 1975	217
146.	Monthly Average Wholesale Prices of Spinach in Important Markets: January, 1974 to June, 1975	218
147.	Monthly Average Wholesale Prices of Tobacco (Desi) in Important Markets: January, 1974 to June, 1975	219
148.	Monthly Average Wholesale Prices of Mutton in Important Markets: January, 1974 to June, 1975	220
149.	Monthly Average Wholesale Prices of Beef in Important Markets: January, 1974 to June, 1975	221
150.	Monthly Average Wholesale Prices of Milk (Buffaloes) in Important Markets: January, 1974 to June, 1975	222
151.	Monthly Average Wholesale Prices of Ghee (Desi) in Important Markets: January, 1974 to June, 1975	223
XVII- Education		
	Explanatory Notes on Education Section	224
152.	Educational Institutions by Sex: 1964-65 to 1972-73	225-226
153.	Enrolment by Sex and by Category of Educational Institutions: 1964-65 to 1972-73	227-230
154.	Teaching Staff by Sex and by Type of Educational Institutions: 1964-65 to 1972-73	231-232
155.	Number, Enrolment and Teaching Staff of Primary, Middle and High Schools by Sex and by Divisions: 1972-73	233
156.	Number, Enrolment and Teaching Staff of Intermediate and Degree Colleges by Sex and by Divisions: 1972-73	234
157.	Number, Enrolment and Teaching Staff of Primary, Middle and High Schools by Tehsils: 1972-73	235-238

Table No.	Title	Page
158.	Number, Enrolment and Teaching Staff of Intermediate and Degree Colleges by Tehsils: 1972-73	239-242
159.	Number, Enrolment and Teaching Staff of Normal and Vocational Schools, Polytechnic and Commercial Institutes by Division ^s and by Sex: 1972-73	243
160.	Number, Enrolment and Teaching Staff of Professional Colleges by Sex and by Type of Institution: 1972-73	244
161.	Enrolment by Sex at Various Levels of Education by Grades: 1972-73	245
162.	Enrolment by Sex and Age-groups at Various Levels of Education: 1971-72;	246
163.	Number of Successful Candidates by Sex of Various Universities: 1966 to 1972	247-249

16. Per Capita Gross Income (In Rupees)	740	774	933	1186	1447

(r) - Revised

* - Provisional or estimated

Note:- 1) Since sectoral adjustments, where applicable, have been made on the basis of latest population estimates of Planning Division giving growth rate of 2.9% for the period 1961-62 to 1969-70 (in place of previous growth rate of 2.6%) and 3.0% for the period 1970-71 to 1974-75 (in place of previous growth rate of 2.7%) therefore, minor differences may appear in the figures from those published in the previous issue of the Bulletin or elsewhere.

2) As per decision of National Accounts Committee in its twelfth meeting, the estimates have been revised from 1969-70 to 1972-73 by excluding the value added in Pakistan Broadcasting Corporation and Pakistan Television Corporation from Public Administration & Defence Sector as their contributions have been transferred to Transport, Storage and Communication Sector.

EXPLANATORY NOTES
ON
METEOROLOGICAL SECTION

This section includes rainfall yearly data for 1970 to 1974 and monthly data for 1974 and 1975 (January to June). The rainfall at the specified stations is recorded in ^{millimeters instead of} inches and cents ($1'' = 25.4$ Millimeters) at 0500, 0800 and 1700 Hrs. PST daily by the Meteorological Observers working in Meteorological Observatories at these stations. The Meteorological Observers not only record rainfall but many other Meteorological elements like, Pressure, Temperature (Maximum & Minimum) Dry & Wet bulb, ~~tem-~~perature, Humidity, Dew point temp., Horizontal visibility, Clouds, wind (Direction & Velocity) and other important weather phenomena like Thunder-storm, Lightning, Dust-storm, Hailstorm, Fog, Mist, etc. After recording all the Meteorological data at hours mentioned above in the Daily Pocket Register, the Meteorological Observers pass this data in coded form to Meteorological Office, Lahore Airport through telegrams. The Meteorological Office utilises this data to issue daily weather forecast. This data is also published in the Regional Daily Weather Report which is issued daily by the Meteorological Office, Lahore Airport.

2. The Meteorological Observations recorded daily at different hours are copied by the Observers in Monthly Meteorological Register and this Register is sent to Regional Centre at 46-Gilberg Road, Lahore in the first week of each succeeding month. These Registers are then thoroughly scrutinized by the trained Meteorological staff at Lahore and necessary corrections are applied where necessary.

3. The sums and averages and extreme values of all the Meteorological Observations are also worked out by the scrutinizing staff. On the basis of these monthly values over a long period of 30 years the normal values are worked out.

EXPLANATORY NOTES
ON
AGRICULTURE SECTION

I. This Section includes data for the years 1964-65 to 1974-75 on the following topics :-

- 1) Canals Withdrawals;
- 2) Tubewells Installed, Electrified and Pumping in SCARPS" areas, their Pumpage Capacity and Actual Pumpage;
- 3) Sales, Nutrients per Lb and Prices of Fertilizers;
- 4) Distribution of Improved Seeds;
- 5) Procurement of Pesticides and Area Treated with Pesticides;
- 6) Land Utilization;
- 7) Cropped Area Irrigated by Different Modes of Irrigation, Total Area Sown under various Crops (Total and Irrigated); Area Failed and
- 8) Production and Per Acre Yield of major Crops, Area and Production of various oil seeds, fruits and other minor Crops.

Data for this Section have been collected from various Sources indicated in the Tables.

II. Details about the collection and compilation of data relating to some of the important among the afore-said series are given below :-

i) Land Utilization:- Land Utilization Statistics are compiled by the Statistical Wing of the Agriculture Department. These Statistics are compiled from the information supplied annually by the Deputy Commissioners which is based upon summarisation of crop inspections entered in the Form-I of "Lal Kitab" of the Revenue Department.

Definitions of the terms used in the Land Utilization Statistics are given below :-

- 1) Current Fallow:- Comprises land which was not cultivated during a specified year, but was cultivated for at least one harvest during the preceding two harvests.

Contd.

- 2) Culturable Waste: comprises the cultivable land left uncultivated for four consecutive harvests.
- 3) Area not available for cultivation: includes barren or mountaneous land, area under roads, canals, rivers, sites of villages and houses and all such areas are devoted to use other than agriculture.
- 4) Area not reported: comprises the balance of the geographical area and reported area.

ii) Area under Crops:- Census of Crop Acreage is conducted by the Revenue Patwaris, twice a year, one for Kharif Season and other for Rabi Season in 24922 Mauzas of the Punjab Province. The Mauza-wise Crop Acreage Returns (Goshwara Jinswars) prepared manually by the Patwaris, are collected by the Bureau, through 73 Tehsildars. These returns are checked by the Bureau for completeness of coverage, coded and punched. Mauza-wise credibility checking is done with the help of the computer. Errors of coverage, recording and processing the data are thus minimized and the quality of actual Crop Acreages Statistics is improved. These statistics are utilized by the Agriculture Department in the preparation of final production estimates.

iii) Production of Crops:- For Wheat, Cotton, Rice, Maize and Sugar-cane, the Agriculture Department conducts Random Crop-Cutting Surveys. The observed data of these Surveys are edited in the light of available data on weather conditions, availability of water, use of fertilizers and other agricultural inputs. The Survey Estimates of yield-rates are then modified and utilized to prepare 'Official' Production Estimates.

For toehr crops, the yield-rates are estimated on the basis of 'Eye-estimates' of the field staff of both the Revenue and Agriculture Departments. The subjective yield-rates are then applied to estimate the 'Official' estimates of total out-turn of the remaining crops.

III. Limitations:-

i) Statistics if not available by due time are not useful for administrative and planning purposes, although such statistics may be useful for historical analyses. The timely availability of statistics depends on two factors, firstly, the receipt of reports from the Field Staff and secondly, their tabulation at the Provincial level. As far as the acreage under all crops is concerned, the Bureau of Statistics has been trying to reduce the time-lag in the collection of Goshwara Jinswars from the Revenue Field Staff and also in minimizing the tabulation time. The Bureau has been successful in reducing the tabulation time appreciably but since the Goshwara Jinswars are to be supplied by Patwaris and Tehsildars, no significant reduction in the time has been achieved despite all the efforts.

Contd.

ii) The delay in the availability of crop acreages to the Agriculture Department ultimately delays the preparation of Final Forecasts which also contain final production estimates.

iii) Most of agricultural statistics are by-products of the administrative activities of the Revenue Department. Since the collection of Statistics is not the objective or even a primary aim of the Revenue Department, the system has not provided for quality control on statistics derived from its records. The compilation of figures at all levels is done manually which undoubtedly contains errors of coverage, classifications, summations etc.

iv) Despite the fact that the Department of Agriculture over the past decade, has been able to place substantial statistical staff in the field, the desired improvement in statistics has not come about because the statistical staff in the field has been under the administrative charge of the Extension Wing which has quite often used them for purposes other than statistical work. Since the primary responsibility of this Wing is agricultural extension, it is not surprising that collateral extension duties assigned to statistical staff have often been given higher priority than statistical duties. This has seriously jeopardised the conduct of acreage and yield surveys.

IV. Kharif Crops season and Rabi Crops season run respectively from April to September and October to March.

V. Canal Withdrawals Data:-

For reporting Canal withdrawals data the canals have been grouped together as under :-

1)	Five Linked Canals	=	Upper and Lower Jhelum Canals + Upper and Lower Chenab Canals + Lower Bari Doab Canal.
2)	MR Link (Internal)	=	Marala - Ravi Link (Head - Tail)
3)	Haveli Canals	=	Rangpur+Haveli (Int) + Sidhnai
4)	Panjnad Canals	=	Panjnad + Abbasia
5)	Sutlej Valley Canals	=	Dipalpur + Eastern Sadiqia + Fordwah + Pakpatton + Bhalwal + Qaimpur + Mailsi
6)	Taunsa Canals	=	D.G. Khan Canal + Muzaffargarh Canal

EXPLANATORY NOTES

ON

FOODGRAINS STATISTICS SECTION

This Section includes data on the following topics:-

1. Procurement of Wheat by the Government on Voluntary basis.
2. Arrival of Wheat in Mandies.
3. Releases of Wheat from Provincial Reserves.
4. Stock position of Wheat in Provincial Reserves.
5. Available Foodgrains Storage capacity.

These data are supplied by the District Offices of the Food Department on the basis of records maintained by them. Wheat offered voluntarily by growers, zamindars, traders, agents etc., is purchased at the Procurement Price fixed by the Government at the Procurement Centres established by the Food Department for the purpose.

Releases of Wheat from Government reserves mainly relate to the Wheat issued to Roller Flour Mills for grinding and sale to consumers through Ration Depots, at fixed prices, to supplement the supplies of Wheat flour available in the open market. These stocks of Wheat are issued as a measure to stabilize open market prices of Wheat and Wheat atta.

Stock position of Wheat on the 1st of every month indicates the size of buffer stocks maintained by the Government as a lever against rise in prices of Wheat and Wheat Atta in the market.

The Wheat crop year runs from May to April

EXPLANATORY NOTES
ON
FOREST STATISTICS SECTION

The statistical tables included in this Section contain the designated forest areas by legal status and the outturn & value of timber and firewood in the Punjab.

I. DESIGNATED FOREST AREAS

These include all the wooded and non-wooded areas and the barren lands which are under the administrative control of the Punjab Forest Department for the afforestation and management purposes. It includes all the coniferous forests, scrub forests riverian forests, irrigated plantations, linear plantations and range lands.

The brief definitions of the categories of the Forest areas by legal status are:

(i) RESERVED FORESTS

The forest area under the control of the forest department declared as reserved forest under the Forest Act 1927. The rights and privileges are normally limited and settled.

(ii) PROTECTED FORESTS

The forest area under the control of Forest Department which has been declared as Protected Forest under the provision of Forest Act 1927.

(iii) UNCLASSIFIED FORESTS.

The Government Forests which are neither Reserved Forest nor Protected Forests.

(iv) SECTION 38 AREA

Private land / area handed over voluntarily by the owner to the forest department for management under Section 38 of Forest Act, 1927.

(v) CHOS ACT AREA

Lands taken up for soil and water conservation under the Chos Act.

(vi) RESUMED LANDS.

Lands taken over by Government under various Reforms or Martial Law Regulations.

(vii) GUZARA FOREST

The Forest area which are the joint property of the villagers and are being managed presently by the Forest Department.

(viii) CIVIL RESERVED FORESTS

Unclassed forests which are under the control of civil administration.

(ix) MILITARY RESERVED FORESTS

Lands belong to defence forces and are reserved by them for raising the trees.

II. PRODUCTION AND VALUE OF TIMBER & FIREWOOD

The information about the production & value of timber & firewood relates to Forest Department managed forests.

EXPLANATORY NOTESON
FISHERIES

The Statistical table contains data on fish production (Quantity and Value) during the years, 1964-65 to 1974-75. This data has been compiled on the basis of fish catches/Marketing recorded by the field staff of Fisheries Department in various districts of the Province. The annual price of commodity is calculated by taking the average of minimum and maximum transactions of different lots of fish in each month.

LIMITATIONS

There are a number of Limitations experienced in the collection and compilation of wholesale prices of fish, viz.

1. The commodity is not graded as it is perishable item. The fish is exposed for sale by Arhtis in different lots according to weight and freshness of catches, irrespective of various species. It is, therefore, not possible to assess the species-wise prices. The specimen with better individual weight and having comparatively better freshness normally fetch more price. There is often variation in the wholesale price of different lots in the same market.
2. There is no marketing act to regulate the sale of fish in the market.
3. The conceptual basis of price is not uniform in different markets of the Province.
4. The staff responsible for collection of prices are not statistics-oriented and, therefore, the quality of prices supplied is mostly under-rated.

STEPS FOR IMPROVEMENT

The infra-structural organization of the department is being suitably strengthened to ensure authentic collection of statistical data. Special orientation courses are also likely to be organized in the Fisheries Training Centre for the inservice personnel to acquaint with the necessary technical-know-how in relation to collection of statistical data.

EXPLANATORY NOTES

ON

ELECTRICITY CONSUMERS STATISTICAL DATA

Tables 66 and 68 given in this Section contain Statistics of number of Consumers, Units sold and revenue assessed respectively pertaining to the years 1964-65 to 1974-75.

2. The Statistics are compiled by the Statistical Cell of the office of the Chief Accountant (Power) from the basic data supplied monthly by the Revenue Officers for each station on prescribed Form.

3. Before the figures contained in the returns are posted in ledgers and compiled, statistical examination of reported data is performed by the Statistical Cell to verify their correctness and also to determine the average cost per unit under each category of tariff. The data supplied by all Revenue Officers (46 in number) for 255 stations is then compiled tariff-wise every month. At the end of the year, data of 12-months is further consolidated in various tabular forms and produced in a booklet form showing No. of consumers, Units Generated and sold, Revenue assessed and realised and outstanding arrears Region-wise and Province-wise.

4. Details about the collection and processing of the data by the Revenue Officers before its submission to the office of the Chief Accountant (P) are given below:-

- i) Forwarding lists (meter reading lists) are sent by the Sub Divisional Offices to the Revenue Offices for issuance of bills to the consumers.
 - ii) Both meter reading and billing to all the consumers falling in its jurisdiction is done by each S.D.O./ Revenue Office according to the scheduled programme and the whole process is completed during the month.
 - iii) After that consumers ledgers are closed by each Revenue Office for preparation for billing for the next month. Information from each ledger is transferred to Abstract ledgers of Revenue Offices. The consolidated figures are then posted in the prescribed form (E-I) and sent to the office of the
-

5. Definitions of various categories of consumers are as follows :-

i) General Supply for Domestic Purposes

General Supply for Domestic Purposes means a supply for Lamps, Fans and other single phase appliances installed in residences, Hospitals, Dispensaries, Places of worship and approved religious educational and charitable institutions.

ii) General Supply for Commercial Purposes

General Supply for Commercial Purposes means a supply for Lamps, Fans and other single phase appliances, installed in Government and Semi-Government Offices and Institutions, Commercial Offices and Commercial Establishments, such as shops, Hotels, Restaurants and Places of entertainment like, Cinemas, Theatres and Clubs etc.

iii) Industrial Supply

Industrial supply means a supply for bonafide industrial purposes in Factories and also for Water Pumps and Tube-wells operating on 3-phase 400 volts, other than those meant for the Irrigation or Reclamation of Agricultural land.

iv) Agricultural Supply

Agricultural Supply means supply for bonafide Agricultural Tube-wells and Lift Irrigation Pumps for the Irrigation and Agricultural land and reclamation and drainage scheme tube-wells.

v) Public Lighting Supply

Public Lighting Supply means a supply given to the Local Bodies charged with the public lighting, for the purpose of illuminating public lamps within the area of its jurisdiction.

vi) Bulk Supply

Bulk Supply means a supply given at one point to Licensee, a non-Licensee and other Government and Semi-Government and approved Institutions having their own distribution facilities.

5. Lyallpur (Gas)	-	-	-	-	-	-	-	100
6. Guddu (Gas)	-	-	-	-	-	-	9	9

The Definitions of Principal Hydro, small Hydro Thermal, Gas and Diesel type of electricity are as follows :-

1. Principal Hydro:

The power stations utilising water heads available at the Dams come under principal Hydro. The prime movers of the generator are run by discharging water through water turbines.

2. Small Hydro:

The power stations utilizing water heads available from the small Dams across canals come under small Hydro. The prime movers of the generators are run by discharging water through water turbines.

3. Thermal:

Thermal Stations are based on steam turbines utilizing steam raised in boilers using Sui Gas as a fuel in the Boilers.

4. Gas:

Unlike the conventional thermal stations, natural (Sui) Gas is burnt and this expanded directly in the gas turbine which is prime mover for the generator.

5. Diesel:

Conventional Diesel engines using high speed diesel oil are used as prime movers for the generators.

- Note:
- i) Northern Grid covers N.W.F.P. and Punjab Provinces and Guddu Power Station.
 - ii) There are Rawalpindi Electric Supply Co., and Multan Electric Supply Co. in the Punjab in addition to WAPDA.

EXPLANATORY NOTES
OF
CURRENT INDUSTRIAL STATISTICS SECTION

Two statistical tables included in this section contain data on Production and Employment during the years 1970-71, 1971-72, 1972-73, 1973-74 and 1974-75 in respect of 43 products manufactured by selected large scale Industries in the Punjab. These Industries account for about 70% of "Total Value Added" in manufacturing sector in the Province during 1970-71.

This information has been collected through Bureau's Monthly Survey of Industrial Production and Employment which was started in October, 1971. Industry-wise proformas are used for the purpose. Data from non-responding factories is collected by Bureau's officials through personal visits. The results of the Survey for a month are generally received by 25th of the following month.

Coverage is complete in respect of Cotton Yarn, Woollen and Worested Cloth, Vegetable Ghee, Sugar, Cigarettes, Cement, Caustic Soda, Soda Ash, Acid, Chemical Fertilizers, Paper and Paper Board, Bicycles, Transformers, Electric Meters, Switch Gears, Soft Drinks, Jute Textiles and Petroleum Products. Coverage for the remaining manufactured products is specified below :-

1. Cotton Cloth:- It covers all weaving units having 50 or more looms. The Production of these units was 99.3% of the total production of Cloth in Registered Factories which reported in Census of Manufacturing Industries: 1968-69.
2. Woollen Yarn, Knitting Wool and Blankets:- It excludes a few small units.
3. Footwear:- 13 large factories including Bata, Service, and Basco are being covered. Production of these factories was about 98% of Footwear Production in registered Units of the Province.

Contd.

4. Electric Fans:- All large and medium **size** factories are covered.
5. Electric Motors:- All known large and medium **size** factories are covered.
6. Steel Re-rolling and Diesel Engines:- Production and Employment pertains to Factories whose Production Capacity is about 70% of the total capacity of factories on the mailing list for the survey. It is not possible as yet to indicate what percentage of actual total production is covered.
7. Leather Tanning:- All large Tanneries are covered.
8. Paints and Varnishes:- All large and medium **size** factories are covered.
9. Cycle Tyres and Tubes:- All **Large** units are covered.

Steps for Improvement:- To complete coverage in respect of Footwear, Electric Motors, Steel Re-rolling and Diesel Engines Industries, efforts are being made to ensure response from outstanding Factories.

Efforts are made to keep the list of factories upto-date in consultation with Central Board of Revenue, PICIC, ADBP and Directorate of Labour Welfare, Punjab.

Scope of the monthly Survey of Industrial Production and Employment is being extended to more and Industries.

i) Sacking	'000' Lbs		63681
ii) Hessian	'000' Lbs		2472
iii) Twine	'000' Lbs		5293

a) Includes estimated Production of one factory.

b) Gallons converted to CWTs by taking
 Paints - 1 Gallon = 10 Lbs
 Varnishes - 1 Gallon = 8 Lbs.

EXPLANATORY NOTES

ON

CENSUS OF MANUFACTURING INDUSTRIES (CMI) SECTION

Tables given in this Section contain summary statistics of Number of Registered and Reporting Units; Value of Fixed Assets; Employment Cost; Industrial Cost; Value of Industrial Production and Gross Value Added. These statistics pertain to the years 1964-65 to 1968-69, 1970-71, 1971-72 and 1972-73 (Provisional).

The Annual Census of Manufacturing Industries (CMI) is conducted in the Punjab jointly by the Directorate of Industries and Mineral Development, Bureau of Statistics and Central Statistical Office, under the Industrial Statistics Act, 1942. The Census for 1969-70 was not conducted under this Act.

The work relating to the planning of the Census, preparation of Tabulation plan and preparation of list of Registered Factories is undertaken by the Statistics Division in consultation with the Central Ministeries and Provincial Departments.

Printing of Census Questionnaire, its mailing to all the registered establishments, collection of filled in questionnaires and their preliminary editing is accomplished by the Directorate of Industries, Punjab. Before the returns are processed statistical examination of reported data in the questionnaire is performed by the Bureau of Statistics.

The Census of Manufacturing Industries cover establishments which are registered under Section 2(j) and 5(i) of the Factories Act, 1934. Factories employing more than 20 workers on any working day during the year and using power are registered under Section 2(j), while Factories employing 10-19 workers and using power or employing 10 or more workers without using power are registered under Section 5(i). The Defence and Government establishments including railway work-shops though engaged in manufacturing activities and registered under the Factoris Act, 1934 are excluded from the scope of this Census.

Limitations of data collected under C.M.I. are as follows :-

- i) The mailing list used for the Census coverage is not uptodate.
 - ii) The filled-in questionnaires contain reporting errors and inconsistencies which are corrected during statistical editing. But the data on Value of Fixed Assets, Cost of Raw material and Value of Products and By-products are particularly very weak.
 - iii) Census results become available with a time-lag of 2-3 years due to the time taken by collection, editing and tabulation processes.
 - iv) The Census results have been tabulated on the basis of reporting factories, unadjusted for non-response. They are, therefore, not comparable over the years.
-

Definitions of Important terms used in the Census are given below:-

- i) Gross Value of Fixed Assets - It includes the book value of land, building, machinery and other fixed assets, i.e. equipment, vehicles, furnitures & fixtures as at the end of year.
- ii) Employment- It is the number of wages workers and salaried employees on the pay rolls on 31st December of the respective year.
- iii) Employment Cost - It includes wages and salaries, cash and non-cash benefits and amount paid to contract labour.
- iv) Industrial Cost - It includes cost of raw materials, fuel and electricity, payments to others for work done and payments for repair and maintenance.
- v) Gross Value of Industrial Production - It includes value of products and by-products, sale proceeds from industrial wastes, receipts for industrial work done or services rendered to others, sale of electricity and Value of net work-in-process. Value of products and by-products includes indirect taxes.
- vi) Gross Value Added - This is equal to Gross Value of Industrial Production less industrial Cost.

A list of codes of Major Industrial Groups is given below:-

LIST OF CODES FOR MAJOR INDUSTRIAL GROUPS AND THEIR DESCRIPTION

Major Industry Group Classification for 1964-65 to 1968-69	Description	Major Industry Group Classification since 1970-71
20	Food manufacturing Industries, Except Beverage Industries	311 & 312
21	Beverage Industries	313
22	Tobacco Manufacture	314
23	Manufacture of Textiles	320 & 321
24	Manufacture and repair of foot-wear	322 & 324
25	Manufacture of Wood, cork and allied products (Except furniture)	331
26.	Manufacture of Furniture and Fixtures	332
27	Manufacture of paper and paper products	341
28.	Printing, publishing and allied Industries	342

Major Industry Group Classification for 1964-65 to 1968-69	Description	Major Industry Group Classification since 1970-71
29	Manufacture of Leather and Leather Products except footwear and other wearing apparel	323
30	Manufacture of Rubber products except rubber footwear	355
31	Manufacture of Chemicals and chemical products	350,351 & 352
32.	Manufacture of products of petroleum and coal	354
33	Manufacture of Non-Metallic Mineral Products except products of petroleum and coal	361,362 & 369
34	Basic metal Industries	371 & 372
35.	Manufacture of metal products except Machinery and Transport equipment	380 & 381
36	Machinery except electrical machinery	382
37	Electrical Machinery, apparatus, appliances and supplies	383
38	Manufacture of Transport equipment	384
39	Miscellaneous manufacturing industries	325,385,386, 391,392,393 & 395

Steps for Improvement:-

1. The time-lag and poor quality of reported information is generally attributed to a very long and complicated questionnaire. Simplification of the existing questionnaire is under consideration of the Government.
2. It is considered that a general purpose questionnaire used for all Industries does not help proper reporting by each Industry. Use of Industry-wise Questionnaires for the Census is also under consideration.
3. Steps are under-way, in consultation with the Chief Inspector of Factories, who is responsible for registration of factories under the Factories Act, to prepare an upto-date list of factories to be covered under the Census.
4. Efforts are under-way to reduce the time taken in the collection, tabulation of Census returns and the release of Census results, so as to reduce the existing time-lag.

CENSUS OF MANUFACTURING INDUSTRIESTable 74 :- Summary Data of Census of Manufacturing Industries:
1964-65 to 1968-69, 1970-71 to 1972-73

TRANSPORTTable 87:- Road Passenger and Freight Traffic;
1964-65 to 1973-74

Year	(Millions)	
	Passenger Miles	Ton Miles
1964-65	5364	1710
1965-66	5239	1841
1966-67	5510	2152
1967-68	6137	2179
1968-69	6601	2182
1969-70	7109	2353
1970-71	7931	2151
1971-72	8162	2948
1972-73	9107	2408
1973-74	9906	2384

Note - i) Passenger Traffic:- This has been estimated by multiplying the number of Buses with average load per Bus and the average annual mileage of a Bus.

Source :- Transport Planning Cell, Planning & Development Deptt. Lahore.

According to the Outlines of Fourth Five Year Plan (Transport and Communication Sector) prepared by Planning and Development Board.

Average Number of Passengers Carried by Bus = 40

Annual Mileage covered by a Bus = 30,000

The number of Buses 'On Road' at the end of each year has been taken from Table 88 and after applying the above mentioned formula data given in Table 87 was produced.

ii) Freight Traffic:- This has been estimated by multiplying the number of Trucks and Delivery Vans, as given in Table 88 with average annual mileage of a Truck and average load. The outlines of Fourth Five Year Plan (Transport and Communication Sector) shows :-

Average Freight carried by a TRUCK = 4.5 Tons

Annual Average Mileage Covered by a Truck = 44,000

The data given in Table 87 have been produced after applying the above mentioned formula.

A.T.K. per Employee	Number	26835	33833	33868	30722	33210

Definitions of various items used in the above Table are given below :-

- 1) Tonne-Kilometer - One tonne (2,205 pounds) transported one statute Kilometers.
- 2) Available Tonne-Kilometers (ATKMS) - Number of tonnes available for the carriage of Passengers, Cargo and Mail, multiplied by the number of Kilometers they are flown.
- 3) Revenue Tonne-Kilometers (RTKMS) - Total tonnes of revenue traffic carried multiplied by the number of Kilometers it is flown.
- 4) Available Seat-Kilometers - Total seats available for revenue passengers multiplied by the number of Kilometers these seats are flown.
- 5) Revenue Passenger-Kilometers (RPKMS) - Total number of revenue passengers, carried multiplied by the Kilometers they are flown.
- 6) Load Factor - The percentage relationship of revenue load carried to capacity provided. The overall load factor relates PTKMS to ATKMS, the passenger load factor relates revenue passenger-kilometers to available seat-kilometers.

EXPLANATORY NOTES

ON
PRICE SECTION

This section includes data on the following topics :-

- (1) Index Numbers of Wholesale Prices of Selected Articles, Pakistan.
- (2) Index Number of Wholesale Prices by Groups, Pakistan.
- (3) Wholesale Prices of Major Agricultural Commodities and Livestock Products in Important Markets, Punjab.
- (4) Combined Consumer Price Index Number (General), for Industrial, Commercial and Government Employees, Pakistan.
- (5) Spot Bullion quotations at Lahore.

Sources of data for these series have been indicated for each Table. For (1), (2), (4) and (5), it is statistics Division, Karachi and for (3), the Directorate of Agriculture Economics and Marketing, Government of the Punjab, Lahore.

New series of consumer Price Index Numbers with 1969-70=100 as price base and weight base, 1972 have been introduced. The old series with 1961=100 & weight base 1955-56 stand disbandes after December, 1973. Accordingly the table relating to Consumer Prices Index (General) for clerical Wage Earners and Industrial Workers, Lahore has been eliminated and table of combined Consumer Price Index Numbers (General) for Industrial, Commercial and Government Employees, Pakistan (1969-70 = 100) has been added.

Technical details about collection and compilation of data pertaining to Monthly Average Wholesale Prices of Major Agricultural Commodities and Livestock Products by Directorate of Agriculture Economics and Marketing, Lahore, are given below :-

(i) Coverage :- There are one hundred and fourteen regulated markets functioning in the Punjab, but information regarding Wholesale Prices is obtained from only 24 important markets of Various district. About 125 items have, so far, been taken up for the collection of price data.

In this Bullétin, however, data for five most important Markets are being published.

(ii) Source:- The Market Committees record daily minimum and maximum Wholesale rates, based on actual transactions. These data pertain to all important agricultural commodities and Livestock products and are recorded on a prescribed Form. These Forms are sent to the Extra Assistant Director of Agriculture (Economics and Marketing) who makes necessary scrutiny of the data and prepares a Weekly Statement at the Distt.level. These statements are finally processed at the Provincial Headquarters.

(iii) Methodology:- The weekly and monthly average wholesale prices have been worked out as Simple Arithmetic Means. The number of observations taken up for the calculation of weekly average generally are 4-6 and for monthly average 20-25, depending upon the number of days the actual transaction in the respective market occurred. Each month has been divided into four weeks and weekly average was calculated accordingly to the following schedule of data :-

Ist week	...	Ist to 7th
2nd week	..	8th to 14th
3rd week	..	15th to 22nd
4th week	..	23th to 30th

(a) Calculation of Daily Average Price:- The Daily Average Price of a commodity is calculated by taking the average of the Minimum and Maximum Prices on each day of the week.

Example I

Minimum	= Rs. 17.00
Maximum	= Rs. 17.50
Average	= $\frac{\text{Rs. } 17.00 + \text{Rs. } 17.50}{2}$ = Rs. 17.25

(b) Calculation of Weekly Average Price:- Weekly Average Price is the Arithmetic Mean of the daily average.

Example II

Weekly Average Price of Wheat during the Ist week of December 1970, is calculated as follows :-

<u>1.12.70</u>			<u>2.12.70</u>			<u>3.12.70</u>			<u>4.12.70</u>		
Min.	Max.	Av.	Min.	Max.	Av.	Min.	Max.	Av.	Min.	Max.	Av.
N.A.			N.A.			18/-	18/-	18/-	18/-	18/-	18/-
<u>5.12.70</u>			<u>6.12.70</u>			<u>7.12.70</u>					
17/-	17/50	17/25									
			N.A.						N.A.		

$$\text{Weekly Average Price} = \frac{(\text{Rs. } 18.00 + \text{Rs. } 18.00 + \text{Rs. } 17.25)}{3} = \text{Rs. } 17.72$$

(c) Calculation for Monthly Average Price:- For calculation of Monthly Average Price of a commodity, weekly totals of average are entered on a separate sheet along with the number of days for which prices are available during a week.

Example III

Commodity	1st Week		2nd Week		3rd Week		4th Week	
	No. of Observations (Days)	Weekly Total	No. of Observations (Days)	Weekly Total	No. of Observations (Days)	Weekly Total	No. of Observations (Days)	Weekly Total
Wheat	3	53.25	4	72.00	5	88.00	6	110.00

In first week number of observations and total have been taken from Example II. Similarly, entries for 2nd 3rd and 4th weeks may be worked out.

Now take the Arithmetic Mean of weekly total as follows :-

Sum of 1st Week, 2nd Week, 3rd Week, 4th Week totals

Sum of Observations in 1st Week, 2nd Week, 3rd Week, 4th Week or Monthly Arithmetic Mean in the above example is

$$\frac{\text{Rs. } 53.25 + 72.00 + 88.00 + 110.00}{3 + 4 + 5 + 6} = \frac{\text{Rs. } 323.25}{18} = \text{Rs. } 17.96$$

(iv) Limitations :- There are a number of Limitations in collection and compilation of Wholesale Prices of Agricultural Commodities and Livestock Products; Some of these are given below :-

- (1) The agricultural items are not graded, except in case of exportable items like cotton. This causes a problem in watching the prices of the different qualities of any commodity in the same market and the prices of the same specifications and grades of any commodity over a period of time.
- (2) The average wholesale prices are calculated as simple arithmetic means. Weighing of the price data is not possible due to lack of information of quantities sold.
- (2) The conceptual basis of prices is not uniform in different markets of the Province.
- (4) The staff responsible for collection of prices needs training in Statistical methods for data collection to further improve the quality of prices.
- (5) Coverage of the number of markets is small, because of lack of resources.

PRICES

EXPLANATORY NOTESONEDUCATION SECTION

This Section includes annual data for the eight years 1964-65 to 1972-73, supplied by the Bureau of Education on the following topics :-

- (1) Number, Enrolment and Teaching Staff of Schools (Primary, Middle, High and Normal), Colleges (Inter, Degree and Professional), Universities (Punjab, Engineering and Agriculture) and Technical Institutes (Polytechnics, Vocational Schools and Commercial Institutes).
- (2) Enrolment at Various Levels of Education by Grades and by Age groups.
- (3) Number of successful candidates of various Universities of the Punjab.

There are five Directorates of Education; one for each of the Divisions of Rawalpindi, Sargodha, Lahore, Multan and Bahawalpur. Each of these Directorates have their Statistical Cells. Basic data of Schools are supplied by individual Institution to the respective District Education Officers, who tabulate these data and supply them to the Divisional Statistical Cells who, in turn, supply the same to the Bureau of Education, Lahore. Data for the schools situated in the Federal Capital Area, Islamabad are collected by the Education Bureau through the Central Bureau of Education of the Pakistan Government.

The colleges and Universities supply their data direct to the Bureau of Education, Lahore.

Board of Technical Education collects data from the Technical Institutions (Polytechnics, Commercial Institutes and Vocational Schools), which are under its administrative control. Data for these institutions are compiled by the Directorate of Technical Education and transmitted to the Education Bureau.

Definitions of the various types of institutions are given below :-

- (1) Primary School is an Institution comprising First to Five (I-V) Grades of Educational System.
- (2) Middle School is an Institution comprising First to Eight (I-VIII) Grades of Educational System.
- (3) High School is an Institution comprising First Ten (I-X) Grades.
- (4) Intermediate College is an Institution comprising of Two (XI and XII) Grades.
- (5) Degree College is an Institution comprising Four (XI to XIV) Grades.

EXPLANATORY NOTES

ON

HEALTH SECTION

This Section includes annual data for five years 1971-1975 supplied by the Statistical Section of the Health Department on the following topics :-

- (1) Number and Bed Strength of Hospitals, Dispensaries and Rural Health Centres and T.B. Clinics -- All Institutions and Institutions by Management Classification.
- (2) Number of Patients Treated in Hospitals, Dispensaries and Rural Health Centres -- Total Institutions and Patients Treated in Hospitals by Management Classification.

The Hospitals and dispensaries in the Province are required to keep statistics of all the outdoor and indoor patients in the 'Abstract Register'. From the information recorded in the 'Abstract Register' and other relevant registers the hospitals/dispensaries are required to supply annual statistical return to the District Health Offices. The information supplied relates to number of patients treated from different diseases, number and types of operations performed etc. The District Health Officers are to submit the consolidated returns to the Divisional Health Directorates where the information is tabulated at the Divisional level and sent to the Provincial Health Directorate for consolidation at Provincial Level.

On 1st January 1975, there were 1483 Health Institutions, *200 (Hospitals, 1158; Dispensaries 73, Rural Health Centres and 52 T.B. Clinics) in the Province. The Statistics are tabulated manually at various levels and detailed analysis of statistics is, therefore, not possible.

* These institutions partly cover the institutions run by Auqaf Department and Social Security Scheme. But these institutions do not include institutions run by Jail Department, Railways, Central Government, Defence Services and Private Doctors.

Note on Lists of Studies/Research Papers/Publications

(A) Planning and Development Department.

1974- issue of the "Development Statistics of the Punjab" contained lists of the following Studies/Research Papers issued by Planning & Development Department, Government of the Punjab:-

<u>Section</u>	<u>Area of Studies/Research Paper</u>
Transport Planning Cell	1. Rail and Highway Combined Studies. 2. Railway Studies. 3. Road Transport. 4. Highway Studies. 5. Economic Base Studies/Fourth Plan Projections. 6. Programme of Studies and Progress Reports.
Economic Research Project	Research Papers and Re-print of Research Papers concerning Planning and Socio-Economic Problems.

Moreover, a list of publications issued by Planning & Development Department was also included in 1974-issue. Persons interested in these Studies/Research Papers/Publications may refer to pages 337 to 351 of 1974-issue.

For further information regarding these Studies/Research Papers/Publications the following officers of Planning & Development Department may be contacted:-

1. Mr. Mohammad Ishaque, Assistant Chief, Transport Section (Telephone 66835).
2. Ch. Ghulam Qadir, Chief (Manpower), (Telephone 60143).
3. Dr. Syed Mushtaq Hussain, Chief Economist, (Telephone 69592 and 68011/275).

(B) Bureau of Statistics

A comprehensive list of the publications of the Bureau of Statistics was included in 1974-issue (Pages 352 to 355) & subsequently a "Catalogue of Publications" including the classified list of publications issued by Bureau of Statistics since its establishment in 1957 was also released separately in June, 1975. It is programmed to issue similar catalogue of Bureau of Statistics publications every year.
