PRINTED BY THE MANAGER, PRINTING CORPORATION OF PAKISTAN PRESS, KARACHI. 1978

Price : Rs. 10.00

## P R E F A C E

The District in Pakistan is the basic unit of administration under a Deputy Commissioner and the focal point of all social, cultural, economic, administrative and developmental activities. It was, therefore, for the first time, decided in the 1961 Census that a separate report on each District be published. The need for publishing these District Census Reports was all the more felt in the absence of the regular publication of the District Gazetteers. Keeping in view these considerations it was decided to publish the District Census Reports of the 1972 Census as well. These reports will be found useful by the local administrators and planners in their day to day work and will also be of interest to the general reader since dull and dreary statistics of the District have been presented against the living background of its history, geography, traditions and culture.

2. The District Census Reports are in two parts :  
 PART I—General description of the District.  
 PART II—Statistical tables.
3. PART I—The general description of the District is further divided into the following five sections :
  - (i) *Geography*  
 Area, boundary, geology and physical features, climate, flora and fauna, forestry, irrigation, agriculture, industries, transport and trade.
  - (ii) *History and culture*  
 History, races and tribes, food and health, dress, occupations, culture, customs and traditions.
  - (iii) *Administrative set-up*  
 Executive, judiciary and revenue system, educational, medical and health facilities.
  - (iv) *Description of important/historical places*  
 Importance, cultural aspects, socio-economic conditions.

### (v) *Population*

Growth, distribution and composition of population.

It also includes 'District at a Glance' containing basic facts about the District and a few photographs of places of importance and scenic beauty as well as of the people and their cultural heritage. These photographs will be found to be fairly representative of the places and people of the District.

4. PART II—It includes twelve statistical tables. Statistics have been presented in these tables at different geographical levels keeping in view the importance of these statistics at these levels. Tables 4, 5 and 12 deserve special mention. Table 4 not only gives population by sex and age for rural and urban areas at District level but also at Tehsil/Taluka level and for individual urban areas. Table 5, which provides population by sex, age group and marital status has also been tabulated at the geographical levels similar to that of Table 4. These statistics had not been published in earlier censuses at these geographical levels and will be found of much help for the purpose of research on population dynamics which at the moment has engaged the attention of planners and researchers in all walks of life because of the population explosion problem being faced by Pakistan and many other countries. Table 12 gives Mauza statistics on population by sex, number of households and household size besides land area and local facilities. This table gives more information about Mauzas than published for the 1961 Census.

5. The reader may find that the 1972 District Census Reports do not contain all the data which was available in similar reports of the 1961 Census. This is because while planning the 1972 Census, many departures were made in the methodology and procedures from the practices followed in the past censuses with a view to improve the reliability and timeliness of data at as low a cost as possible.

(ii)

6. The 1972 Census was planned to be conducted in three phases, namely, Household Listing, Big Count and Housing, Economic and Demographic Survey :

PHASE I—The Household Listing was conducted from the 1st to 15th September, 1972 just before the Big Count in order to provide an up-to-date list of households for enumeration in the Big Count.

PHASE II—The Big Count was a cent-percent count of the total population conducted from the 16th to 30th September, 1972. In this operation basic characteristics of each individual, i.e., name, relationship to the head of household, sex, age, marital status, religion and literacy were collected. The District Census Reports contain data collected during this phase of the census operation only.

PHASE III—The Housing, Economic and Demographic (HED) Survey was a sample survey conducted during August to November, 1973 to obtain detailed data on almost all topics usually covered in a population and housing census. The HED Survey results will be published separately and will provide data on housing and housing conditions, migration, educational attainment, labour force, fertility, etc.

7. The initial responsibility of writing the District Census Reports was assigned to the Census District Officers/Deputy Commissioners concerned. These drafts were received in the provincial offices of the Census Organization where these were further examined. When the reports were received at the headquarters, it was found that in some cases the reports were not in accordance with the layout and instructions issued by the Census Organization. Besides, in many cases these lacked up-to-date information. Therefore, the work of vetting these reports was assigned to the officers of the Census Organization. There is no doubt that the first part of the District Census Reports of the 1972 Census are largely adaptations from the 1961 District Census Reports but these have been modified and revised wherever necessary to bring the information up-to-date as far as possible.

8. Statistical tables given in this report have been produced on computer. The use of computer for processing of census data was made for the first time. The work relating to the preparation of data for input to computer and quality control was the responsibility of the Data Preparation Centre of the Census Organization. The tabulation of data was done on the computer of the Statistics Division.

9. I am grateful to the officers and staff of various Ministries, Departments of the Federal and Provincial Governments and their officers at District and lower levels, public spirited men and women who gave their unstinted support, in the execution of the 1972 Census and preparation of the District Census Reports. I gratefully acknowledge the help that the Chief Secretaries of the Provincial Governments gave us in this regard. It was indeed creditable that in the atmosphere prevailing in 1972, they were able to collect thousands of enumerators and supervisory staff to undertake the huge task of census taking all over the country.

10. My special thanks are due to the Joint Secretary, Statistics Division and his officers for their valuable help for processing the census data on their computer. I am grateful to the Surveyor-General of Pakistan and his staff who have been generous with the supply of maps as and when required for the census work. I would also like to thank the Managing Director, Printing Corporation of Pakistan Ltd., and his officers for their unstinted support and prompt service at all stages of printing of the census reports.

11. I must also thank officers and staff of the Census Organization who worked untiringly in planning and conducting the census and to edit these reports. The material and data contained in these reports represents cumulative efforts of a large number of persons, both paid and unpaid, to whom I acknowledge a debt of gratitude. I am grateful to all of them and in the end I would like to thank again all those who took part in the 1972 Census operation in any capacity to make it a success.

BRIGADIER (Retd.) ABDUL LATIF,  
Census Commissioner.

## CENSUS PLANNING AND PROCEDURES

In planning the 1972 Census criticism about incomplete coverage and reliability of the 1961 Census data was kept in view at all stages of planning. Difficulties and problems faced in the planning and execution of the 1961 Census were also not lost sight of. The last census was found to suffer from lack of technical staff, inadequate maps, insufficient tabulation equipment, unscientific pre-testing and post-enumeration evaluation. In addition, the 1961 Census schedule contained too many questions resulting in not only under-enumeration but also lack of response to some of these questions. Therefore, certain fundamental departures were made in the 1972 Census from the practices followed in the 1961 Census with a view to overcome the above shortcomings.

2. The Census Commissioner as well as the Technical Advisory Committee were of the view that the basic questions on individuals, i.e., sex, age, marital status, etc., be asked on hundred percent enumeration basis, while all other questions on housing, economic and demographic characteristics be asked on sample basis. Thus, not only was the 1961 questionnaire bifurcated, but a few more questions on population and housing characteristics were added. It was also decided that instead of carrying out the post-enumeration census evaluation survey by the Census Organization themselves (which obviously would have produced biased results) the census evaluation survey be planned and conducted under the direction and supervision of an independent agency. To avoid confrontation of any problems in conducting the census pre-testing and rehearsal of all census steps was scientifically planned and conducted in urban as well as rural areas in all the Provinces. In order to make available the census results expeditiously and correctly the data was processed and tabulated on computer. With a view to creating discipline and getting the desired results from the enumerators, they were paid honoraria.

3. The 1972 Census was planned to be conducted in three phases, namely, Household Listing, Big Count, and Housing, Economic and Demographic Survey. The Big Count provided for enumeration of all persons living in

Pakistan on the dawn of 16th of September, 1972 excluding foreign diplomats and their dependent family members. All persons were enumerated at their usual places of residence, i.e., the place where they lived and slept usually (dejure enumeration). However, persons of armed forces (including prisoners of war) were enumerated at the places where their families were living because of the circumstances prevailing at the time of census taking. A simple questionnaire was used providing for collection of data on name of person, his relationship to head of household, sex, age, marital status, religion and literacy. This information was collected on hundred percent enumeration basis, whereas the data on complex population characteristics and housing topics was collected later through a sample survey. The Big Count was conducted from the 16th to 30th September, 1972 and was preceded by Household Listing operation for 15 days with the purpose to identify households for enumeration in the Big Count. The Big Count and Household Listing operations were conducted simultaneously in a few hilly areas which were not easily accessible to avoid the enumeration staff going twice to those areas. The sample survey called the Housing, Economic and Demographic (HED) Survey was conducted from August to November, 1973 and provided for collection of data from three hundred thousand households on housing conditions, migration, educational status, labour force, fertility, etc. Report on these aspects will be published separately. These steps resulted in a simple schedule and smaller assignments for enumerators and thus ensured better coverage and reliable data.

4. Improvements were made in delimitation of census areas by way of providing in advance corrected lists of Mauzas and updated maps of urban areas, which later helped the enumerators considerably in their enumeration work.

5. To overcome omissions of households and persons in enumerated households, special reporting centres were established in each village and different places in towns and cities so that people could report the missed households or persons. Wide publicity was given in this regard beside the regular census publicity campaign.

(iv)

6. In spite of the fact that the schedule of the Big Count was quite simple, elaborate arrangements were made that enumerators and their supervisors were properly and adequately trained in their duties. This included practical training before conducting the actual enumeration. Detailed procedures and guidelines for enumerators and their supervisors were laid down in two manuals—Manual of Instructions for Enumerators and Manual of Instructions for Supervisors. A Training Guide was also issued which contained specific and typical questions on the procedures and questionnaire to guide and provide answers in specific cases. This guide proved to be of immense value to the enumerators and the supervisory staff. Instructions which could not be covered in these manuals were issued later as Census Commissioner's Circulars. These instructions helped a lot in achieving uniformity in enumeration and better quality of reporting.

7. Some of the terms used in this report which may need explanation, are given below:—

**URBAN AREA**—Urban areas include Municipal Corporations, Municipal Committees, Cantonment Boards and Town Committees. Other places having a concentration of population of at least 5,000 persons in continuous collection of houses where the community sense was well developed and the community maintained public utilities, such as, roads, street lighting, water supply, sanitary arrangements, etc., were also treated as urban areas. These places were generally centres of trade and commerce with a population mostly non-agricultural and having comparatively higher literacy rate. As a special case, a few areas

having the above urban characteristics but population less than 5,000 persons were also treated as urban.

**HOUSEHOLD**—A household means a single person living alone or a group of persons living and eating together which may include family members, relatives, friends, servants and other non-relatives. Eating together implied common cooking arrangement.

**AGE**—Age has been reported in completed years except for infants whose age has been reported in completed months.

**MARITAL STATUS**—Marital status has been classified into never-married, married, widowed and divorced. Never married applies to persons who have never been married. Married includes all persons who are at present married and living as husband and wife as well as all other married persons living apart having a living wife/husband and who are not presently widowed or divorced. Widowed applies to a person whose husband or wife is dead and who has not married again. Divorced applies to both divorcer and divorcee, if not re-married.

**RELIGION**—Religion has been tabulated as reported by the respondents themselves.

**LITERATE**—A person who is able to read and write with understanding in any language is literate. This was a departure from the 1961 Census, where persons able to read and write (even without understanding) and able to read with understanding were treated as literates.

(h) Cantonment Board .. .. .	1
(i) Other Urban Areas .. .. .	5

*Badshahi Masjid built by the Mughal Emperor Aurangzeb*

## PART 1—GENERAL DESCRIPTION OF THE DISTRICT

## SECTION 1—GEOGRAPHY

## 1.1 NAME, LOCATION, BOUNDARY AND AREA

Lahore District takes its name from its headquarters city, which according to a Hindu legend was founded by Lauh, the son of Raja Ram of Ramayana.

The district lies between 30°-38' and 31°-44' north latitudes and 73°-38' and 74°-44' east longitudes. It is bounded on the north-west by Sheikhpura District, on east and north-east by the Indian districts of Amritsar and Ferozepur respectively and on south-west by Sahiwal District. An area of eleven square miles was transferred to Lahore District from Sheikhpura District some years ago. The total area of the district now stands at 2,227 square miles.

## 1.2 PHYSICAL FEATURES

The district of Lahore divides itself naturally into two divisions, namely; the central uplands covering portions of all its three tehsils, and the alluvial lands of the Ravi (both banks) and the Sutlej (right bank). There are no hills of any kind. The lowland which lies to the south is known as *Hithar*. The soil is, for the most part, a soft alluvial loam, easy to till but rather sandy to be genuinely fertile.

## 1.3 RIVERS AND CANALS

There are two rivers, the Ravi and the Sutlej, which flow through the district. The Ravi enters the district from Amritsar at Ichogil village and after a course of about 63 miles, leaves it near the village of Manga Hithar to enter Sahiwal District. Just in the north of Lahore City, the course of the river has been carefully diverted by Mahmud Booti Bund to protect the city from floods. The Sutlej flows along the south-eastern boundary of the district.

There are five canals which flow through the district, namely Lahore Branch of the Central Bari Doab Canal, Ravi-Bedian Link Canal, Upper Bari Doab Canal, Dipalpur Canal and Lower Bari Doab Canal. In the highlands of Bari Doab, there are, at intervals, drainage lines (*rohi*). The most important is the Hudiara *Rohi* which enters the district from Amritsar border and ultimately drains into the Ravi shortly before it reaches Sahiwal.

## 1.4 CLIMATE

The climate of the district is subject to large variations. From about the middle of December to the middle of February, it is cold. Light to moderate rain falls during January and February which is succeeded by a spell of pleasant spring weather. In April temperature starts rising and the two succeeding months are quite hot. Dust-storms occur occasionally during this season. Towards the end of June, monsoons start and during the following two-and-a-half months, spells of rainy weather alternate with intervals of sultry oppressive weather.

In May-June maximum temperature at times rises to 115°-F., or more. The minimum in winter goes down to near freezing point. The average rainfall throughout the year is 16 inches.

## 1.5 FLORA AND FAUNA

The flora of the district has been greatly modified by human agency. Of the old open forests of small trees and shrubs, there remain only a few *rakhs* or portions of forest which are kept as grazing grounds for cattle, etc. Amongst trees, the most important are *keikar* (acacia arabica), *shisham*, or *tahli* (dalbergia sissoo), *ber* (zizyphus jujuba), *tut* (morus alba), *sharinkh* (albisia lebbek), *dharek* (melia-azedarach), *phulai* (acacia modesta), and *nim*. *Pipal* (ficus religiosa) and *bohr* (ficus bengalensis)

are planted for shade. The growth in *rakhs* is composed mainly of three kinds of trees *jand* (*Prosopis spici-gera*), *karil* (*Capparis aphylla*), and *wan* (*Salvadora oleoides*). Occasionally *veru* (*Acacia leucophloea*) and *farash* (*Tamarix articulata*) are also found. *Pilchhi*, (*Tamarix dioica*) is found on moist sandy soil along the rivers and is used for wicker-work, basket making, etc.

Wolves and jackals are the only wild animals of any importance, the former being met with occasionally in the lowland wastes of Chunian Tehsil but jackals abound every where. Chhanga Manga reserve, which is quite a thick forest is the only area in which a few *nilgai*, pig, peafowl and hares are found.

#### 1.6 FORESTRY

There are both reserved and unclassed forests in the district. 13,784 acres are under compact forest, 2,066 acres under riverain or *Bela* forest and 1,401 miles under linear plantations in the district. The compact forests are at Chhanga Manga, Rakh Deosial and Sahj Bhuki. The riverain forest is at Jhoke Shadara.

The Chhanga Manga plantation was started in 1864 to meet the requirement of firewood of Railway Department. When the railway switched over to the use of coal, the firewood produced in this plantation was sent to the markets of Lahore and Amritsar for use as a fuel. Besides firewood, this plantation now produces timber for manufacture of furniture, building material and sport goods. The annual timber production of this plantation is 90,000 cft. of mulberry and *bakain*, 120,000 cft. of *shisham*, 10,000 cft. of poplar and *simal* and 20 lacks cft. firewood. The annual income from this forest is over 6 million of rupees. The area of this plantation is 12,511 acres. The forest based industries in this plantation are as follows :—

1. *Silk rearing* :—The local population rear about 4,000 ounces of silk annually on the mulberry leaves which are obtained from this plantation. They produce 700 maunds of silk. Mulberry twigs are used for manufacturing baskets.

2. *Honey and wax* :—Due to innumerable trees in this plantation, the bees have chosen it as their abode. About 400 maunds of honey and 200 maunds of wax is obtained annually.
3. *Cultivation of turmeric* :—Some of the area of this plantation is leased out annually for the cultivation of turmeric. About 50,000 maunds of raw turmeric is cultivated annually in this plantation.
4. *Wood seasoning* :—A wood seasoning plant has been established at the Chhanga Manga plantation. It produces 4,000 cft. of wooden slabs annually.

Being in the vicinity of Lahore, Chhanga Manga has become a suitable place for outdoor recreation. It is connected with Lahore both by railway and road and is about 44 miles from Lahore by road. About 20,000 visitors visit this plantation annually. A good spot for picnic, it has the facilities like mini tram joy ride, boating and angling in the lake, swimming pool, picnic areas, walking in the jungle and lodges for stay. There is not much of wild life in this forest except a few blue bull, hog deer, peacock, partridges, wild boars, porcupine, jackals, etc.

#### 1.7 IRRIGATION

Due to scanty and irregular rainfall, agriculture in the district largely depends on canals and partly on wells. The Lahore Branch of the Central Bari Doab Canal enters Lahore Tehsil near village Bhano and irrigates the north-western part of Lahore Tehsil. The south-eastern part of Lahore Tehsil, the north-western part of Kasur Tehsil and the east-central part of Chunian Tehsil are served by various distributaries of the Upper Bari Doab Canal. The Dipalpur Canal which starts from Balloki Headworks serves the north-western part of Chunian Tehsil. The Ravi-Bedian Link feeds the existing irrigation system in Lahore Tehsil.

Other means of irrigation are the Persian wells and occasionally *Jhalars* (a Persian wheel installed at the bank of a canal or pond).

### 1.8 AGRICULTURE

The main crops during *rabi* are wheat and gram and in *kharij* rice, cotton and sugarcane. In addition to these main crops, there are subsidiary crops known as *zaid rabi* and *zaid kharij* and *dobari*. A statement showing area and production of major crops during 1971-72 is given below :—

Crop	Area in acres	Production in tons
Wheat	466,000	246,000
Rice	126,000	76,000
Sugarcane	56,000	689,000
Cotton	98,000	48,000 (bales)

### 1.9 HORTICULTURE

Amongst fruits, oranges, mangoes, guavas, and mulberries are grown. Vegetables such as onion, radish, turnip, cauliflower, bitter gourd, lady-finger, *loki* and spinach are grown extensively. A statement showing area and production of major fruits during 1971-72 is given below :—

Fruits	Area in acres	Production in tons
Mangoes	1,808	6,642
Citrus	2,070	6,419
Guava	740	2,302
Pears	195	416
Peaches	143	305

### 1.10 LIVESTOCK

Buffaloes, cows, bullocks, donkeys, horses, sheep and goats are the common animals found in the district. Poultry birds are reared on commercial scale. According to the 1972-Agricultural Census there were 290,000 cattle; 526,000 buffaloes; 208,000 sheep; 1,176,000 goats; 4,000 camels; 14,000 horses and 67,000 donkeys in the district. The number of poultry birds stood at 500,000.

### 1.11 INDUSTRIES

Next to Karachi, Lahore is the biggest industrial centre of Pakistan. There has been a steady expansion in and around Lahore since Independence, because of the arrival of thousands of skilled artisans who were uprooted from the East Punjab and settled in Lahore. Two biggest engineering enterprises i.e., the Pakistan Railways Workshops and P.E.C.O. are located in Lahore. In all there are 819 registered units of various factories in Lahore District which constitute 29.3 per cent of the total number of registered factories in the Punjab Province. This is the largest percentage of industries in the Punjab Province. Out of 819 units, 743 employ, on an average, less than 100 persons each whereas 76 units employ more than 1,000 persons each.

These units manufacture cotton, woollen and silk cloth, carpets and rugs, *nanwar*, lace and *zari*, leather and rubber footwear, wearing apparel, pharmaceutical goods, soap, iron and steel products, heating, plumbing and lighting equipments, hardware, miscellaneous fabricated products, agriculture machinery, engine and turbines, textile machinery, printing machinery, metal working machinery, pumps and compressors, household machinery motor generator transformers, electric fans, communication equipments, cycle and rickshaws. There are also a good number of printing and publishing presses and body building workshops. Besides, there are units of canning and preservation food, edible oils, beverages, metal and furniture, rubber products, chemicals, glass products, safes, valuts, trunks and boats, manufacturing and repair of railway equipments, manufacturing of irons, toys and stationery equipments, etc.

## 1.12 COMMUNICATIONS

Lahore is the headquarters of the Pakistan Railways. The various railway lines within the district are :

- (a) The main Karachi-Peshawar railway line runs through the district in the heart of Lahore City. The portion of the main line between Lahore and Karachi was opened in 1865. The stations lying in the district, as one comes from Karachi are Wan Radha Ram, Pattoki, Chhanga Manga, Bhoel Asal, Kot Radha Kishan, Prem Nagar, Raiwind Junction, Jia Bagga, Kahna Kacha, Kot Lakhpur, Walton, Lahore Cantonment, Lahore Junction, Badami Bagh and Shahdara.
- (b) The Lahore-Jallo railway line which was opened in 1862 connected Lahore with Delhi, but as a result of Partition at the time of Independence, only the section upto Wagah came to the share of Pakistan. Lahore, Moghulpura, Harbanspura and Jallo are the only stations which lie on this line in Lahore District. This line is only used when traffic with India is opened.
- (c) Raiwind-Gandasinghwala railway line was opened in 1883 and connected Lahore with Bhatinda via Raiwind and Kasur. The portion falling to Pakistan's share now terminates at Gandasinghwala and the stations lying on this line in the district beginning from Raiwind, are Raja Jang, Roakhanwala, Athilpur, Kasur and Gandasinghwala.
- (d) Kasur-Lodhran railway line was opened in 1910. The stations which lie in the district of Lahore as one enters it from Lodhran side are Kanganpur, Kul Mokal, Usmanwala, Dholan, Khudian Khas, Bhila Hithar and Kasur.
- (e) Three Branch Lines viz. Shahdara-Shorkot, Shahdara-Lyallpur and Shahdara-Chak Amru take off from Shahdara Junction.

There is a net-work of roads in the district. In Lahore Tehsil there is no village that may be at a distance more than eight miles from the railways or a metalled road. There are three main highways in the district. The Pakistan Highway enters Lahore District at Wagha on the Amritsar border and traversing for 19.84 miles leaves the district near Shahdara. The Lahore-Ferozepur Road (42.47 miles) goes up to Gandasinghwala on the southern border. Fifty nine miles of the Lahore-Multan-Quetta Highway lies in Lahore District. It passes out of the district at Wan Radha Ram. Other metalled roads in the district are :—

1. Lahore-Hariker Road from Lahore Cantonment to Indo-Pakistan boundary (16 miles)
2. Chunian-Chhanga Manga Road (9 miles)
3. Kasur-Bhikiwind Border Road (3 miles)
4. Chunian-Kanganpur Road (8 miles)
5. Kasur-Khudian-Dipalpur Road which leaves the district beyond four miles of Thieng (37 miles)
6. Raiwind-Lulliani Road (11 miles)
7. Kotorana Link Road connecting the Ravi with Niazbeg village (4 miles)
8. Thakarke Link Road connecting the Ravi with Manga Mandi (1 mile)
9. Halla-Pattoki-Chunian-Chhanga Manga Road connecting Halla with Chhanga Manga (17 miles)
10. Niazbeg-Raiwind Road (15 miles)
11. Bhai Pheru-Mangtanwala Road (6 miles)

There are also fair-weather roads along canal banks which are well maintained by the Canal Department. There are 347 miles metalled roads and 8 miles un-metalled

roads, which are maintained by the Highway Department, in the district. There are 348 post offices and 30 telegraph offices in the district.

Lahore is the biggest airport in Pakistan after Karachi. It is linked by air with Karachi, Rawalpindi, Lyallpur, Multan, Quetta and Peshawar. Pakistan International Airlines operates its daily services on these routes.

### 1.13 TRADE AND TRADE CENTRES

Lahore is the biggest trade centre in the Punjab and export and import a sizeable quantity of different types of goods. Its major industrial items of trade include electrical fans, motors, transformers and electrical goods, machines and machine tools, steel and steel products, rubber and its products, bicycles and auto-cycles, food products, beverages, body buildings, handicrafts, leather shoes, printing and publishing, chemicals, photo goods and cinema films. Besides, it trades in agriculture produce and dry fruits.

Kasur, Khudian, Lulliani, Kot Radha Kishan, Pattoki, Chunian, Bhai Pheru, and Raiwind are the other important trade centres in the district.

## SECTION 2—HISTORY AND CULTURE

### 2.1 HISTORY

The history of Lahore District is that of its chief towns, Lahore and Kasur. Legend attributes the founding of Lahore to Lauh and of Kasur to Kusa, both sons of Raja Ram of Ramayana. The first mention of Lahore is found in the travels of Huen Tsang, the Chinese pilgrim, who visited Lahore in 650 A.D. He described it as a large Brahmanical city on the road leading to Jallundhar (India). All the inhabitants are idolators and there are no Muslims. It is probable that the capital of the kingdom of Lahore was transferred to Sialkot, as Alberuni speaks of Lahore as a province with its capital at Mandhukur.

At the end of the tenth century, the kingdom of Lahore was in the hands of a Brahman king and in 988 A.D., Jai Pal, the reigning monarch, was decisively beaten by Sabuktigin. Mahmud did not visit Lahore for more than twenty years after his first invasion of the Punjab, though he defeated Jai Pal in 1001 and Anand Pal in 1008. In 1034 Lahore was seized by Nialtigin, the governor of Multan, who however, was expelled. In 1036, Lahore became the capital of the Ghazanvide dominions east of the Indus. A final insurrection by the Hindus at Lahore was quelled by Mahmud and the city was left in the charge of Malik Ayaz, whom the Muslim tradition regards as the founder. During the reign of the first eight Ghazanvide kings Lahore was governed by viceroys as the headquarters of a province, but during the reign of Masud III (1099—1114), it was made the seat of the empire. After Masud's death, Muhammad Bahram governor of Lahore, rebelled against Bahram Shah in 1119 but was defeated and in 1153 Khusru Shah again transferred the seat of government to Lahore, where it remained till 1193.

The Ghazanavide ruler Khasran Malik at Lahore surrendered to Shahab-ud-din Ghouri. Shahab-ud-din was murdered in 1205 A.D. at Dayak in Jhelum District and Sultan Qutb-ud-din Aibak was declared as his successor. He ascended the throne in the royal palace of Lahore which was then known as "Qasr-i-Humayuni". From the death of Aaram Shah in 1211, the province of Lahore became a bone of contention between Altamish at Delhi and Nasir-ud-din, but Altamish defeated him in the following year and made himself master of the city in 1217. On the death of Altamish in 1236, Malik Ala-ud-Din Jani of Lahore broke out in revolt, and after he had been defeated and killed, Kabi-Khan-i-Ayaz of Lahore likewise rebelled in 1238 but submitted later.

Lahore was captured by the Mongols in 1241 and put to ransom. During the reign of Sultan Balban his son known as Sultan Sahid was murdered in 1280 A.D., on the banks of the Ravi. The *baradari* of Mirza Kamran was built at the site of Sabz Bagh. Muhammad's son Kai-Khusru was appointed governor of the Punjab in his place but was murdered in 1287. Under Ala-ud-Din Khilji, Ghazi Malik, afterwards the Emperor Tughlak Shah, received

charge of the territories of Dipalpur and Lahore. The Khokhars took Lahore in 1342. In 1398, Lahore was taken by a detachment of Taimur's army and seems to have lain desolate till it was rebuilt by Mubarak Shah in 1422. In 1441 Bahlol Khan Lodhi was appointed to the fiefs of Lahore and Dipalpur and seized the opportunity of turning against his master, Muhammad Shah. Lahore seems to have enjoyed a period of some peace under the Pathans, but in the reign of Ibrahim Lodhi, Daulat Khan Lodhi, Governor of Lahore, revolted and called in the aid of Babar. Lahore was plundered by Babar's troops in 1524, but in his final invasion in the following year he passed to the north of Lahore through Sialkot.

Lahore had its golden time under the Mughal rule and became a place of royal residence. In the words of Abul Fazl it grew to be "the grand resort of people of all nations". On the accession of Humayun, his younger brother, Kamran, took possession of Lahore and obtained the Punjab together with Kabul and Kandhar. During the struggle between Humayun and Sher Shah Suri, Lahore was the military headquarters of the Mughals. Humayun entered the city triumphantly in 1554. In 1563, however, Lahore was seized by Hakim Akbar's younger brother, who though expelled, made another assault in 1581, but was repelled by Akbar. Akbar held his court in Lahore from 1584 to 1598. Sometimes after Jehangir's succession in 1605, Prince Khusru escaped from Agra, seized the suburbs of Lahore and besieged the citadel with the connivance of the Sikh Guru, Arjan Dev. He was, however, quickly defeated. Jehangir fixed his court at Lahore in 1622. He died at Rajauri in Kashmir in 1627 but was buried at Lahore in accordance with his wishes.

Lahore was the scene of struggles between the rival claimants to the throne which ensued on the deaths of Akbar, Jehangir and Shah Jahan, though between 1628 and 1657 it enjoyed an interval of peace and prosperity under the rule of Ali Mardan Khan and Hakim Ali-ud-Din, more commonly known by his title of Wazir Khan. During the reign of Aurangzeb, Lahore had little connection with the political events of the time, due to the emperor's preoccupations in the south.

Almost immediately after the death of Aurangzeb, the Sikhs broke out into insurrection under one Banda and seriously threatened Lahore. In 1712 A.D., Emperor Bahadur Shah, marched to Lahore to crush the rebellion but died before he could achieve any decisive success. A conflict ensued outside the walls of Lahore between his son Jahandar Shah and Azimush Shah, in which the latter was defeated and drowned in the Ravi. Abdus Samad Khan defeated the rebels and took Banda prisoner. Under his son Zakriya Khan, the Province had peace for twenty-one years (1717—38). He, however, found it prudent to submit to Nadir Shah who accepted ransom in lieu of plundering Lahore.

Ahmad Shah Abdali occupied Lahore in 1748 and again in his second invasion after some resistance from Mir Mannu (Muin-ul-Mulk) the new governor. Ahmad Shah's fourth invasion took place in 1755 and Lahore was occupied and placed under Prince Taimur from whom, however, it was taken by the Sikhs under Jassa Singh. They were expelled by the Marhatahs in 1758 who installed Adina Beg as the governor. He died a few months later and the Marhata power was broken by Ahmad Shah's victory at Panipat in 1761. The Sikhs who again besieged Lahore were defeated in the following year, Kabuli Mal was left as governor. Kabuli Mal was ejected after Ahmad Shah's seventh invasion and the Sikhs again became master of Lahore. From 1767 to 1797 the Sikhs ruled Lahore unmolested, but in 1797 Shah Zaman put it to ransom. In the next year when he appeared again, he formally granted the chieftainship of Lahore to Ranjit Singh.

The overthrow of the Sikh power came about in the middle of the nineteenth century. The British Council of Regency at Lahore was established in December, 1846. At the conclusion of the Second Sikh War on the 29th March, 1849, Dalip Singh resigned and the government was handed over to the British.

The district as originally constituted under the British, lay wholly in the Bari Doab, with the exception of a group of estates around Shahdara. In 1855, however, some three hundred estates were transferred from Sheikhpura *Pargana* in the Gujranwala District to Lahore. The trans-Ravi

estates were then divided up. A few went to the Chunian and Lahore Tehsil but the great bulk were made into a separate Tehsil with its headquarters at Sharakpur. In the same year a small group of estates was transferred to Gugera, but barring that and other similar transfers between Lahore on the one side and Sahiwal and Ferozepur (India) on the other side, mainly due to river action, there was no great change in the constitution of the district until 1910, in which year Sharakpur Tehsil was transferred to Gujranwala District.

There is no other district in Pakistan which can compare with Lahore in importance both politically as well as culturally. In the political field events leading to Independence, Lahore was always in the forefront. It was at Lahore on 23rd March, 1940 that the All India Muslim League in its session held under the leadership of the Quaid-e-Azam Mohammad Ali Jinnah, unanimously adopted the historic Resolution on Pakistan. The district of Lahore was the first to receive the influx of refugees from India and bore the brunt of it with a spirit, of which history will remain proud. In 1955 provinces of the Punjab, N.W.F., Sind, Baluchistan and former states of Bahawalpur and Khairpur were formed into One-Unit, Lahore was made the capital of West Pakistan. In 1970, after the dismemberment of 'One-Unit' Lahore again became the capital of the Punjab.

## 2.2 TRIBES

The principal castes and tribes of the district are the Jats, Arains, Rajputs, Syeds, Pathans, Mughals, Sheikhs, Kamboh, Meos and Gujjars.

## 2.3 FOOD

The staple food of the city people is wheat, rice and pulses. Meat is frequently eaten specially in cities. Pulses and vegetables are quite common items of diet. The chief meals are taken just before midday and in the evening soon before sun-set, but the city folk generally have three meals-one early in the morning, the other at

midday and the third after sun-set. The ordinary food of villagers consists of *roti* made from flour of wheat, gram, barley, maize or *jawar*. In villages morning meal is usually taken with skimmed milk (*lassi*). The special dish for guests in rural areas consist of *halwa*, *sewaiyan*, chicken, mutton or sometimes beef, while in urban areas *pulao*, *zarda*, *biryani* and *korma* are served. Tea is almost universally popular in the cities and is regularly taken at breakfast and in the evenings.

## 2.4 DRESS AND ORNAMENTS

In urban areas, semi-western dress is worn by educated people while indigenous dress is worn, at home. The local dress consists of a *kurta* and loose loin cloth or *shalwar*. *Achkan* and *sherwani* are worn on formal occasions by most people. In villages, a *kurta* with a *tehdand*, *safa* or *pagri* is the common dress. The women's clothes are generally more colourful. The important item of the women's clothing are *shalwar*, *kamiz* and *dopatta* or *chaddar* to cover their heads and upper part of the body. *Phulkari* is a silk embroidered *shawl* often fancied by the rural women folk. *Saree* is only worn by women of the upper classes in cities on formal occasions. The common foot-wear in villages is *desi juti*. Shoes are worn by those living in cities and towns while women folk wear sandal, or *slippers*. While *pardah* is not generally observed by village women except in the upper rural society, it is common amongst the lower, middle and upper middle class in towns.

Ornaments of gold worn by well-to-do women are ear-rings, rings, necklace and bangles; silver ornaments are not generally used in cities, except amongst younger girls who wear them for the novelty of their designs.

## 2.5 DWELLINGS

In villages, houses are made of mud and wood, with flat roofs, which are made of beams and joints of roughly hewn timber laid over with earth. Generally the houses are single-storeyed. Inside the house, there

are two or three living rooms with small courtyards. The rooms generally have a door, a window and a few ventilators. Houses built of bricks belong to well-to-do *zamindars*. The poorer classes live in reed-huts. The houses are built close together and form a compact block, approached from narrow and zigzag lanes. Almost every village has its common guest house called *taqia* which combines the functions of a meeting place and a resort for rest and recreation both for the villagers and guests.

In urban areas houses are a mixture of old and modern styles of architecture. The houses are mostly built of bricks and concrete. Since Independence many new residential colonies have been built in Lahore.

## 2.6 OCCUPATIONS

Agriculture is the main occupation and source of livelihood for villagers. Women help men in agricultural operations besides household work. No subsidiary occupation of any importance is carried on in villages. Some farmers also ply their bullock carts on hire for transportation of commercial goods, fodder or firewood. *Mueens* form the professional or skilled sections of the rural society. They include village artisans like blacksmith, carpenter, shoe-maker, water-carrier, washerman, tailor, *tali*, barber and watchman.

Most of the people keep milch cattle and some carry milk daily to cities. Those who still remain unemployed seek employment in factories in cities or towns. Children are generally engaged for grazing the cattle. There are a few who carry on petty business like small-scale shop keeping.

In towns the occupations of people vary. A large number of people work in Government offices, private firms, mills, factories, workshops, and commercial business houses. Skilled as well as unskilled labour is employed in factories. A considerable number of people are engaged in running shops of all kinds from grocery to jewellery. Other deal in trade and commerce. In the field of transport, the strength of *tanga* drivers,

taxi-drivers, and motor rikshaw drivers, besides bus and lorry-drivers, is considerable. In Lahore City, where the work of construction of buildings is expanding, many masons, carpenters and other labourers are engaged on daily wages or on contract basis. Some people are engaged in fine arts and printing.

There are a number of banks and insurance companies which employ a large number of people. There is an ever-increasing number of lawyers and advocates concentrated in Lahore to pursue legal profession.

## 2.7 CULTURE, CUSTOMS AND TRADITIONS

The rural and urban population differ in their cultural pattern as well outdoor. Squatting around a *hugga* is a common pastime in villages either in the village *chowk* or a *taqia*. Local games like *guli-danda*, long jumps, *kabaddi*, etc., are played by boys, while girls play *guddi-gudda* (dolls). At night villagers occasionally assemble to hear recitation in a loud voice and a special tone from the classic romances like *Hir Waris Shah*, *Mirza Sahiban* or *Jangnama*. The women-folk in villages sing and dance only on the occasions of marriage within their houses and at the time of *tarenjan* (working together on their respective spinning-wheels at night) till late in the night. Wrestling is a common recreation and pastime amongst men.

In towns cricket and hockey are the most popular games while football and volley-ball are also played by college and school students. Kite-flying is also fairly popular in cities while cards and chess are the chief indoor games.

The birth of a male child is considered an occasion of great rejoicing. Soon after the birth of a child, the *mullah* or an elderly male member of the family recites *azan* into the ears of the child. Circumcision ceremony is performed soon after the birth or less commonly after a few years. *Aqiqa* ceremony is performed both for a male and a female child. One goat is sacrificed in the case of a girl and two in the case of a boy.

On the death of a person, neighbours, relatives and friends assemble at the house of the deceased to console the bereaved family. The dead body accompanied by the mourners is then carried to the grave-yard where *Namaz-e-Janaza* is offered before it is lowered into the grave. The death is mourned for three days, when *qul* ceremony is performed. On the 40th day, (*chaliswan*), *Quran-Ikhawani* is held and meal served to the poor.

Betrothal always precedes a marriage. The proposal is initiated by near relatives of the boy or girl. The women of both sides take leading part in finalising the proposal. The wedding may take place any time after betrothal. Marriage between the same sections of tribe or caste is customary, but inter-marriage between people of different tribes and castes in cities and towns is becoming more frequent. On the wedding day, relatives and friends of the boy assemble and proceed in procession to the girl's house. The marriage procession is generally headed by a musical band. The marriage party is received by the relatives and friends of the parents of the girl. The *nikah* ceremony is held and a feast is given to the marriage party. Alms are distributed to beggars. The party returns to the house of the bridegroom with the bride in a palanquin (*doli*) or a car. She stays for a couple of days and then returns to her father's house. The final bringing home of the bride is called *mukhlawa*. In villages the dowry is in the shape of cash, bonds and ornaments.

Eid-ul-Fitr and Eid-uz-Zaha are the two chief festivals. The other religious festivals celebrated both in villages and towns are *shabe-e-barat*. Celebrations on these occasions include preparation and exchange of sweet dishes, gifts and presents and charity to the poor. Shab-emeraj and shab-e-barat celebrations also include illuminations and praying throughout the night. *Eid-e-mellad-un-nabi* which is observed to celebrate the birthday of the Holy Prophet (peace be upon him) is celebrated with great enthusiasm in Lahore City and is the occasion for elaborate illuminations at night. Moharram is in commemoration of the martyrdom of Imam Hussain and male members of

his family as well as his followers. On the 10th of that month *tazias* are taken out. *Tazias* of Lahore are noted for their splendour.

The *urs* of Hazrat Data Ganj Bakhsh, and those of Hazrat Mian Mir and Shah Muhammad Ghaus in Lahore are also festive occasions celebrated in memory of those holy saints.

*Qadman-ka-Mela* is held in February outside the Delhi, Lahori and Shahalmi gates in Lahore; while *chiraghan-ka-mela* is held in the Shalimar Gardens on the last Saturday and Sunday of March every year.

The *urs* of Hazrat Bulle Shah is celebrated at Kasur and a *mela* is also held on that occasion.

The annual event of most considerable importance held in Lahore is the *awami mela* which is held usually in the middle of February every year at the Fortress Stadium Lahore.

### SECTION 3—ADMINISTRATIVE SET-UP

#### 3.1 EXECUTIVE, JUDICIARY AND REVENUE SYSTEM

Subject to the control of the Commissioner Lahore Division, the district is under the general charge of a Deputy Commissioner, who combines the functions of a District Magistrate as well as Collector. He is also responsible for the co-ordination of the functions of all nation-building departments in the district. He is assisted at the headquarters by Additional District Magistrate, a City Magistrate, a Cantonment Magistrate, a Corporation Magistrate, a Railway Magistrate and Extra Assistant Commissioners exercising magisterial powers, a Personal Assistant and a Treasury Officer. On the revenue side he is assisted by a Revenue Assistant at the headquarters with a Tehsildar. For revenue administration the district is divided into one sub-division and three tehsils viz., Kasur Sub-Division and

Lahore, Kasur and Chunian Tehsils. Kasur Sub-Division is in the charge of a Sub-Divisional Officer. He is assisted by a Revenue Assistant and two Assistant Commissioners and at Chunian, which is included in the sub-division, there is an Extra Assistant Commissioner, who functions as Resident Magistrate. At each of the headquarters of Kasur and Chunian Tehsils there is a Tehsildar and a Naib-Tehsildar.

The police administration in the district is headed by a Senior Superintendent of Police, who is assisted at headquarters by an Additional Superintendent of Police, Deputy Superintendents of Police and one Prosecuting Deputy Superintendent of Police. In Kasur Sub-Division, there is an Additional Superintendent of Police who has under him a Deputy Superintendent of Police each at Kasur and Pattoki, the latter being for the Chunian Tehsil. The district is divided into a number of police stations.

The principal judicial officer in the district is the District and Sessions Judge who is assisted by Additional Session Judges.

### 3.2 EDUCATIONAL FACILITIES

Lahore is the oldest seat of learning in Pakistan and is proud of its share in the educational development in the country. There are two universities viz., University of the Punjab and the Engineering University. Punjab University is the oldest university of Pakistan. In 1972 literacy ratio in the district was 32.5 percent. A statement showing number of institutions and students in 1971-72 is given below :—

Institutions/ Enrolment	Primary	Middle	High	College
No. of institutions	1,813	188	173	30
No. of Students	235,000	58,000	132,000	26,999

### 3.3 MEDICAL FACILITIES

Various agencies are involved in providing medical care in Lahore. The Government is largely responsible for providing health cover to the population. The hospitals run by Government are :—

1. Mayo Hospital
2. Cantonment General Hospital
3. Lahore General Hospital
4. Lady Willingdon Hospital
5. Lady Aitchison Hospital
6. Services Hospital
7. Data Darbar Hospital
8. Mental Hospital
9. Dental Hospital

Semi-Government agencies like railways, universities, WAPDA and social security organizations have medical department to serve the need of their employees.

The Lahore Municipal Corporation and other municipal committees and town committees in the district are responsible for preventive health programmes. Lahore Municipal Corporation in addition to preventive measure is also providing curative facilities in the form of out-patient dispensaries. There are 38 medical dispensaries serving in different areas in the corporation. It is also running one T.B. Clinic, nineteen M.C.H. and thirty-four vaccinations centres. There is also an infectious diseases hospital. There are a number of charitable and welfare organizations and trusts operating in the city. Sir Ganga Tam Trust, Red Crescent, Mother and Child Welfare Association and Anjuman Falah-o-Behood are amongst the more well known. Hospitals run by such bodies are Sir Ganga Ram Hospital, Gulab Devi Hospital, Janki Devi Hospital, Malik Jalal Din Trust Hospital and Kinaan Trust Hospital.

Sir Ganga Ram Hospital, a teaching Hospital attached to Fatima Jinnah Medical College, Lahore has indoor facilities for nearly 500 patients. The out-door dispensaries and mother and child health centres operated by such organizations number about thirty.

In the private sector nearly 4,000 registered doctors are practising in different areas of the city. In all there are 20 hospitals, 122 dispensaries, 25 rural health centres and 9 T.B. Clinics in the district.

#### SECTION 4—IMPORTANT HISTORICAL PLACES

##### 4.1 LAHORE CITY

Lahore, besides being the tehsil, district and divisional headquarters, is the capital of the Punjab Province. Prior to Independence it was the capital of undivided Punjab. It appears in the Muslim writings under the varied forms of Lahore, Loher, Lohawar, and Rahwar. In the chronicles of Rajputana it is mentioned under the name of Lahkot, and in the Deshvi-Bhanga, it is called Laypur. By the passage of time, it came to be known as Lahore.

Lahore, stands majestically on the left bank of the river Ravi about a mile or so from its present course. It has an elevation of 702 feet above sea level. It was formerly surrounded by a brick wall rising to a height of 30 feet and strengthened by a moat and other defences. The moat was filled in and the walls demolished. A garden now occupies the site of the trench and walls, encircling the city on every side except the north. A metalled road runs around the old city from the outer side of the rampart and access to the walled city is by 13 gates, starting from the east of the Fort, these are Raushanai Gate, Masti Gate, Kashmiri Gate, Khizri Gate, Yakki Gate, Delhi Gate, Akbari Gate, Mochi Gate, Shahalmi Gate (demolished during 1947 disturbances), Lahori Gate, Bhati and Taxali Gates.

Most of the old *abadis* namely Baghbanpura, Mughalpura, Misri Shah, Chah Miran, Naulakha, Garhi Shahu, Qila Gujjar Singh, Mozang, Ichhra, Nawan Kot, Qila Lachman Singh, Krishan Nagar, Sant Nagar, Ram Nagar and Raj Garh lie to the east and south of the city. Anarkali which lies to the south of the old city originally contained an area for the troops of Ranjit Singh when he invaded Lahore in 1800 A.D., but it was shifted to Mian Mir area by the British in 1851-52 on account of the place having become congested and unhealthy.

Since Independence many new colonies have come up. These new suburbs are known as Gulberg, Samanabad, Shadbagh, Bahawalpur House, Wahdat Colony, Poonch House Colony, Shadman Colony, Shah Jamal Colony, New Garden Town, New Muslim Town, National Bank Colony and Kot Lakhpat quarters.

The climate of Lahore is subject to large variations. From the middle of December to the middle of March, the air is dry and cold, and light rain occurs at intervals with cold-weather storms followed by a wave of high temperature. Thus rapid changes are a characteristic feature of the climatic conditions of this town. In April the temperature rises rapidly and the succeeding two months are very hot and dry. Hot westerly winds prevail frequently in the day time. Temperatures upwards of 110° F., in the shade are of frequent occurrence in the second half of May and during June, the highest hitherto being recorded at 120° F. Dust-storms occur occasionally during the hot season, relieving temporarily the intensity of heat. Towards the end of June, monsoon conditions appear resulting in alternate intervals of sultry oppressive weather and rains. The spring season although short-lived is very pleasant.

As regards educational institutions, Lahore leads all other towns in the Province. Besides, the University of the Punjab and University of Engineering, there are two medical colleges—the King Edward Medical College and Fatima Jinnah Medical College (exclusively for women). The former is 110 years old and is one of the oldest medical colleges in South Asia. The other colleges for professional, technical and general education are the Law College, College

of Commerce, Womens College of Home and Social Sciences, the University Oriental College, Aitchison College, Queen Mary College for Women and the Lady MacLagan Training College (for women teachers), Central Training College for Teachers (men), Dyal Singh College run by the Dyal Singh Trust Society, M.A.O. College for Boys; Lahore College for Women, Islamia College Civil Lines, Islamia College Railway Road. Foreman Christian College, APWA Women's College, Islamia College for Women, Kinnaird College for Women and Superior Science College. There are also a large number of high, middle and primary schools for boys and girls.

Besides, there are many other institutions which impart technical education; such as Tibbia College which imparts education in Unani medicines. In fact Lahore is called the city of schools and colleges.

Lahore has for long been the nerve centre of political, social, educational and cultural activities. Sir Syed Ahmed Khan called the people the "Zinda-Dillan-e-Punjab" and the Quaid-i-Azam called it the "Heart of Pakistan". There are a large number of social and cultural bodies, the most important of which are the Alhamra (Pakistan Art Council); the Tarikhi Majlis; the Lahore Art Group; the Cosmopolitan Cultural Association; the Anjuman Himayat-e-Islam; the Hilal-e-Ahmer; the Youth Movement; Y.M.C.A., Y.W.C.A.; the Writers Guild; Pakistan Tuberculosis Association and the All Pakistan Deaf and Dumb Welfare Society.

There are a large number of clubs, like the Gymkhana Club; the Cosmopolitan Club, the Rotary and Lions Clubs. On a hillock, in the Bagh-e-Jinnah, is an Open Air Theatre. There are over 50 cinemas in the city at different places. The city has the Lahore T.V. Station and also one of the most important radio stations of Radio Pakistan. It was here that the Radio Pakistan first commenced its broadcasts straight from the day of Independence. The University grounds on the Lower Mall towards Chauburji are the venue of inter-college sports, tournaments and contests.

There are a large number of hotels and restaurants located all over the city. Most important of these are the Intercontinental Hotel, Park Luxury Hotel at Shakra-i-Quaid Azam, Ambassador Hotel at Mamdot Road, Faletti's Hotel at Khalid-Bin-Walid Road, Parkway Hotel at Liaquat Ali Khan Road and Lahore Hotel at McLeod Road, Al-Farooq in Shah Alam Market, Al-Farooq Guest House, Gulberg, Asia Hotel at Railway Station, Caravan at McLeod Road, Indus at Shakra-i-Quaid Azam, Niamat Kadah, Anarkali and Zonobi's in Gulberg are the other important hotels in the city.

There is a network of well-maintained metalled roads connecting all places in and around the city and other cities in the Punjab. The Shakra-i-Quaid-i-Azam is the most important and has been widened to permit smooth and uninterrupted flow of ever increasing traffic, with side-roads on both sides from the Charing Cross up to Anarkali for pedestrians and cyclists.

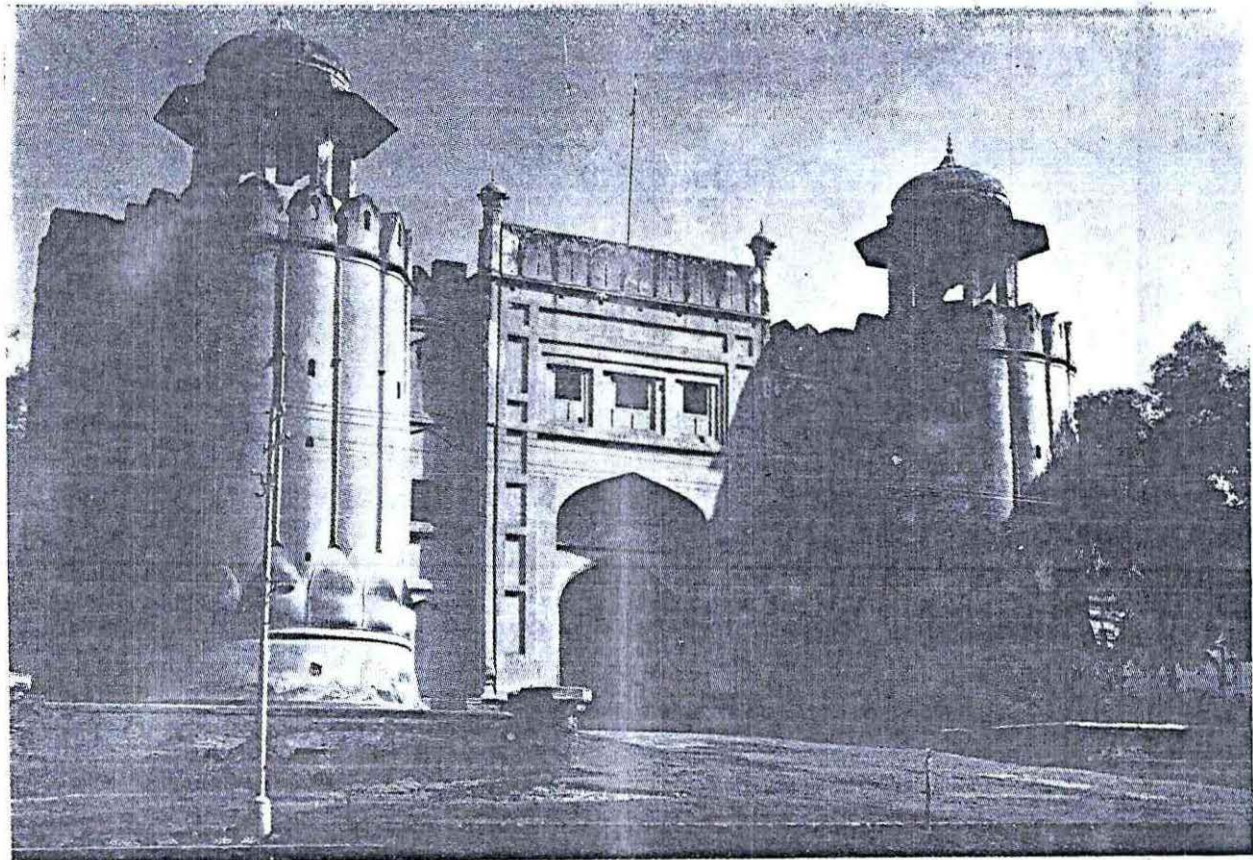

The Shakra-i-Quaid-i-Azam is not only the select shopping centre for the elite, but is also the nerve centre of social and cultural activities of the educated and cultured sections of the society. The portion between the Governor's House and the Museum is a busy shopping centre and hums with activity in the evenings. Alhamra, opposite Bagh-e-Jinnah is the venue of exhibitions of fine arts and for staging dramas by the Pakistan Art Council. There are big concerns dealing in automobiles. In the by-lanes, are the busy shopping centres like the Beadon Road and the Hall Road; the latter having monopoly for radios, etc. Near Anarkali area is the cluster of shops known as Commercial Buildings, which draw the largest crowds due to the assortment and variety of merchandize available from gold jewellery to pins. All big commercial banks and insurance companies have their offices on Shakra-i-Quaid-i-Azam. Down to the west are the Bank Square, the High Court, General Post Office, Central Telegraph Office, State Bank of Pakistan, and National Bank of Pakistan.

Next important is the Anarkali *Bazaar* which provides facilities to the buying public for its proximity of shops of all sorts and in it are situated the Bano *Bazaar*.

*Town Hall, Lahore*

*Shahi Qila, Lahore*

the Bakhshi Market, big cloth shops like the Bombay Cloth House, Idrees Barry & Co., etc. This is a very busy centre especially in evenings.

Brandreth Road is famous for diesel oil engines, pumps, hardware items and tools of all sorts. The Shaha-lam Market is the wholesale market for all kinds of general merchandise. The Nila Gumbad and Meleod Road area is the central place for firms dealing in motor accessories, cycles, motor cycles and baby-cycles, etc. The Urdu *Bazaar* is famous for dealers in books and stationery. Big firms of whole-sale dealers in paper and board are situated on Ganpat Road.

The Kashmiri *Bazaar* and *Dabbi Bazaar* are the other centres of business in cloth, footwear, caps, *tilla* and *zari* work. Close by lies the main cloth market known as Azam Market. In the city, Akbari *Mandi* is the wholesale market for foodgrains, dried fruits and other edibles, etc. In *Sua Bazaar* are the wholesale and retail traders in gold and silver ornaments and *zari* and *tilla* work. Near the *Sunehri Masjid* lies the small market where shops of utensil dealers are located.

Second hand clothes and other such articles can be had from the *Lunda Bazaar* and the *Kabari* shops in Bilal gunj area. The *Badami Bagh* is a big trade centre for vegetables, fruits, timber, firewood, steel-rolling, edible oil, etc.

#### 4.2 SHAHI QILA (THE FORT)

It is situated in the north-west of the walled part of Lahore. In history it had been called by various names, e.g., *Qila Lahore*, *Shahi Qila* and *Akbari Qila*. It was constructed by the Mughal Emperor Akbar in 1566 A.D., Additions to it were made by his son Jehangir and his grandson Aurangzeb during their rules. From excavations carried out in 1959 A.D., it was revealed that the mound on which this Fort is located has been a place of old civilizations. From diggings, brick made statues and a gold coin of the period of Mahmud

Ghazanvi were found. *Dewan Khana Aam* (House of Commons), *Dewan Khana Khas* (House of Lords), *Jehangiri Mahal* or *Daulat Khana Jehangiri* (Jehangiri palace), *Hathi Pol* (Elephant Way), *Shah Burj* or *Shish Mahal*; *Alamgiri Darwaza*, *Moti Masjid* (Pearl Mosque), *Khwab Ghah* (turned into museum during the English period) and *Shahi Hamam* (Bath room) are the important places of the Fort.

#### 4.3 BADSHAHI MASJID

In front of *Akbari Darwaza*, on the west of *Shahi Qila* this magnificent mosque is situated on a platform which is fifteen feet high. It is a magnificent structure of human determination and an artistic piece of an ideal conception of the Mughal architecture. It was built by Mughal Emperor Aurangzeb in 1674 A.D. at a cost of more than rupees six lakhs, under the general supervision of Fidai Khan Koha, a foster brother of Emperor Aurangzeb. Material used in its construction was brought from Ajmer and Jaipur (India).

It has four tall and lofty minarets each measuring 175 feet in height. In an earthquake, in 1840 A.D., the upper storey of minarets were badly damaged and were demolished leaving the height of each minaret equal to 144 feet. The beautiful and stately gateway to the east measuring 70 feet long, opens on a large and spacious courtyard (530 × 527 feet) covered with small flat bricks arranged to make several prayer seats. The mosque has a capacity for about 75,000 persons to offer their prayers at a time.

During the Sikh period the mosque was deserted and was used by the Sikh rulers as a stable. Entrance of the Muslims to this mosque was banned during the Sikh period. In 1806 A.D., on the recommendations of Sir John Lawrence, the then Chief Commissioner of the Punjab, it was returned to the Muslims. Officially, its renovation work was started in 1939 A.D., and with the continuous hard labour of 21 years, its repairs were completed in 1961 A.D.

#### 4.4 RELICS OF THE HOLY PROPHET (peace be upon him)

In a corridor (gallery) to the main entrance of the *Badshahi Masjid*, twenty three relics of the Holy Prophet Muhammad (peace be upon him), his daughter Fatima, Hazrat Ali, Hazrat Imam Hussain, Ghous-a-Azam and Khawaja Awas Kurni are exhibited in glass caskets. These relics have been said to be brought from Damascus and Rome by Amir Taimur when he conquered these cities. Through generations, these came into the hands of Babar who brought these to India. Later on these were sold, for Rs. 80,000 to Pir Muhammad and Shah Muhammad Raza by Begum Maryam Zamani mother of Emperor Jehangir. Pir Muhammad took his share of relics to Rasulnagar (District Gujranwala) from where these fell into the hands of the Sikhs when they conquered Rasulnagar. These have also been said to be taken away to Chawinda (Sialkot) by Maharaja Sher Singh. On his murder these went to Hira Singh and then to Jawaher Singh and finally were desposited in Qila Lahore through Maharani Jandan. On the conquest of the Punjab the British transferred these to the Muslims. Part of the relics with Shah Muhammad Raza, were purchased by Faqir Syed Nur-ud-din for the Muslims and were placed in the *Badshahi Masjid* for exhibition.

#### 4.5 MASJID WAZIR KHAN

This mosque of outstanding beauty and elegance, is situated in the old city on the side of the tomb of Syed Muhammad Ishaq, commonly known as Miran Badshah of Gazrum who came to Lahore during the time of Tughlaq, died and was buried there. The mosque was built in 1634 A.D., by Hakim Ali-ud-Din, a Pathan of Chiniot in Jhang District, who rose to the position of Wazir in the reign of Shahjahan and is generally known as Wazir Khan. It is a marvellous specimen of tile work; the building is entirely covered with arabesque paintings in tile mosaic. The floral patterns which have been used extensively on the walls, the arches and on the interior of the domes are the superb example of decoration in Persian style.

The mosque has been built on a raised platform which is approached by a flight of steps. The building has been divided into five compartments, each opening upon the spacious courtyard and is surmounted by a dome. A high minaret has been erected at each corner of the quadrangle, from where the best view of the old city is obtained.

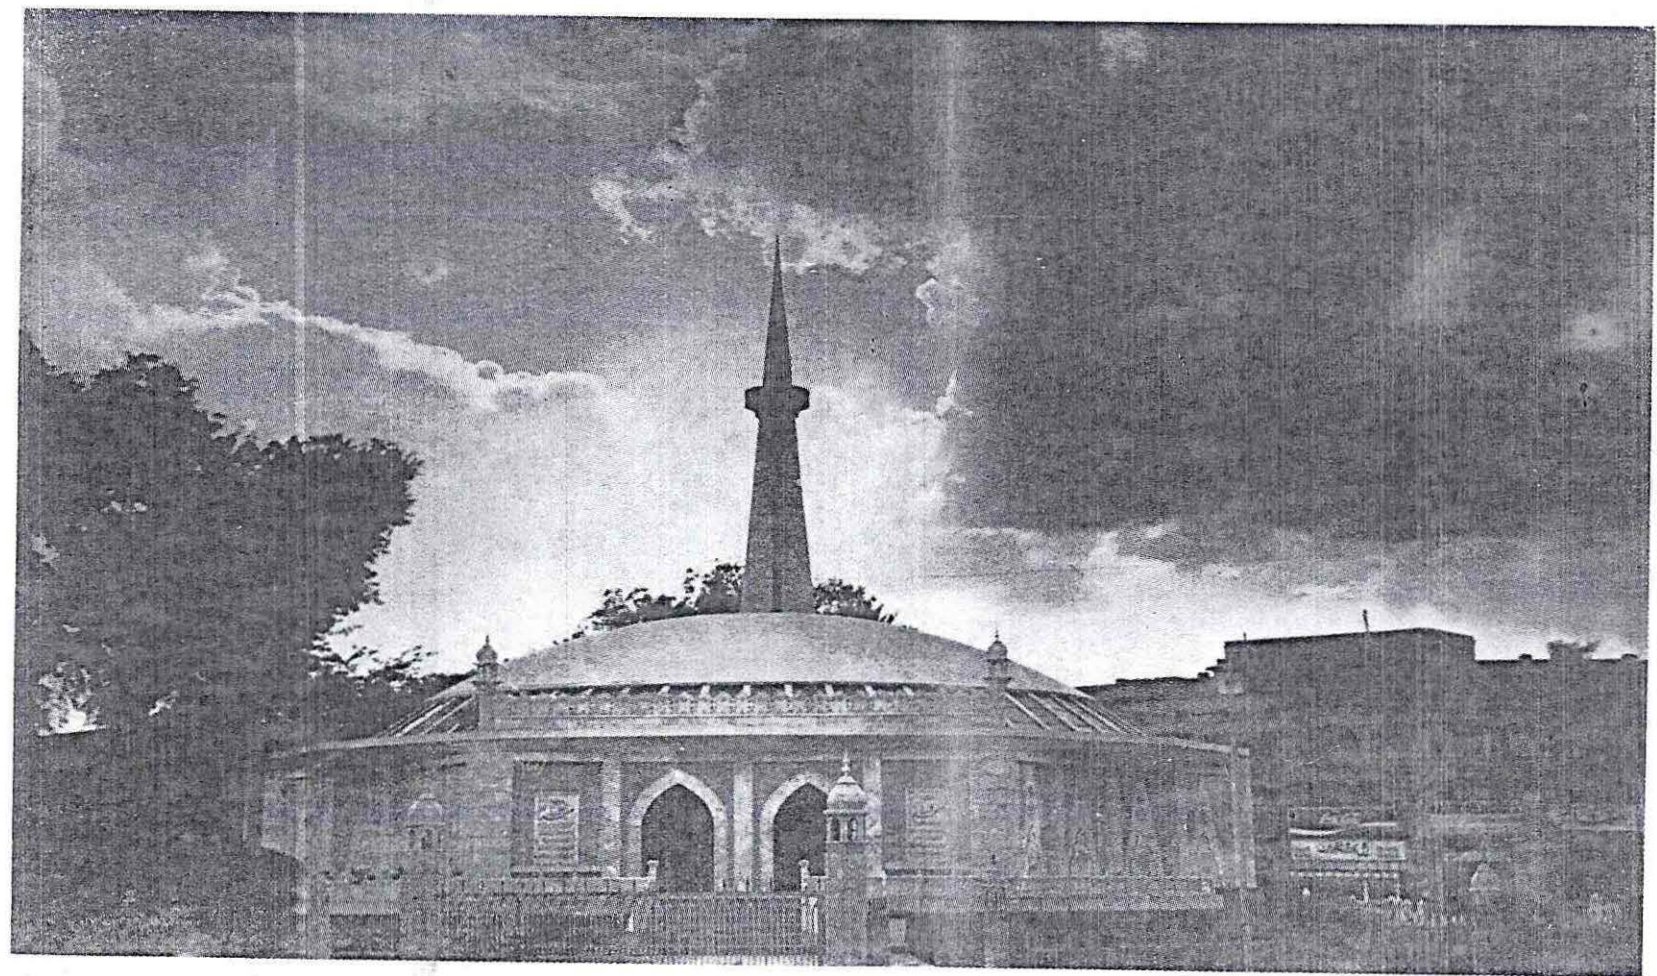

#### 4.6 MASJID DAI ANGA

The mosque of Dai Anga situated near the Railway Station is another remarkable specimen of mosaic work which was built in 1635 A.D., by Zebun Nisa Anga, a nurse of Emperor Shahjahan. It was at one time the most frequented mosque of the Mughal period, but has now decayed considerably. The spaces, specially some part of the walls and the interior of the domes, where decoration work is still visible, are exceptionally exquisite and beautiful. The floral and geometric designs as well as the *Qur'anic* inscriptions on the walls and domes give this holy edifice great elegance and grandeur. On the top of the central gateway the *Kalima* has been transcribed. This mosque was also converted into a powder magazine during the Sikh period but in the British regime it was purchased by an Englishman, who used it as an office. The Department of Archaeology, however, came forward and the building was declared as a protected monument.

#### 4.7 MASJID KUCHA DOGRAN

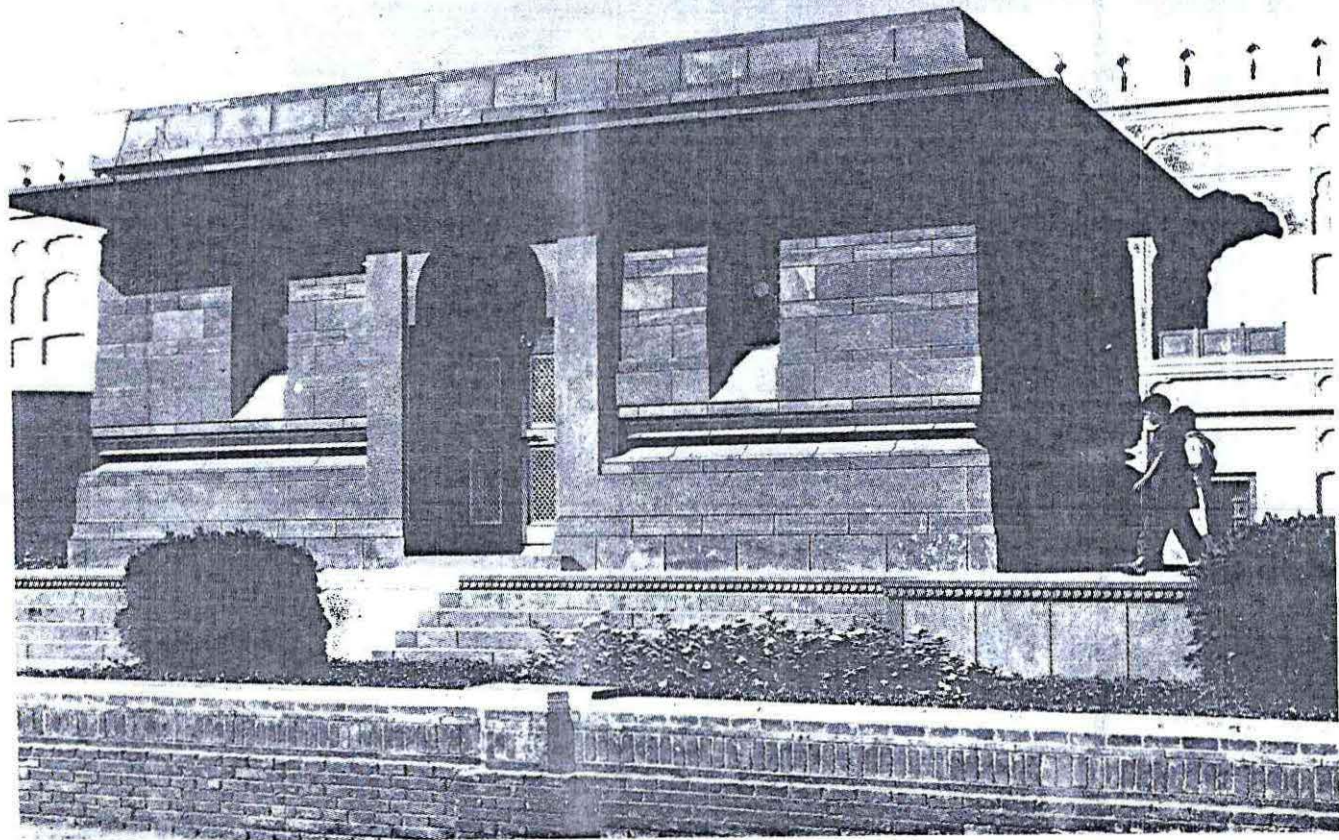

It was built during the Lodhi period by a courtier of Nawab Mahabat Khan, Viceroy of Lahore. This mosque is situated in a locality called Kucha Dogran between Lohari Gate and now dismantled Shahalmi Gate in the vicinity of *Chowk Mati*. The characteristic feature of this mosque is that it has been built one story below the surface of the main street. It is an extensive building having big halls for prayer and several side rooms and cells which were used by students. The main halls has lofty domes and wide arches. The hall, rooms and cells have so nicely been built that in spite of being one storey below the surface of the main street, it is airy and well lighted. The building is a unique specimen of the architectural remains of the pre-Mughal period in Lahore.

*Masjid-i-Shuhada built in 1970 in the memory of martyrs of 1965 Indo-Pakistan War*

*Tomb of Allama Iqbal*

#### 4.8 SUNEHRI MASJID

The *Sunehri Masjid* (Golden mosque) is situated in the Kashmiri Bazaar. It was built in 1853 A.D., by Nawab Syed Bhikari Khan, Deputy Governor of Lahore, during the reign of Muhammad Shah. It is erected on a raised platform about one storey above the level of the ground. It is a beautiful and graceful building, especially its three large golden domes are the most prominent part of the mosque.

#### 4.9 MASJID NAWAB IMAM-UD-DIN

This imposing building is situated in a locality called Chele Ka Hammam. It was built in 1849 A.D., by Nawab Imam-ud-Din Khan, Governor of Kashmir. Like *Sunehri Masjid* it is also built on a high platform which is approached by a flight of steps. The stately domes and the picturesque arches of the mosque are its notable features. There are several inscriptions, some of which give also the date of its foundation.

#### 4.10 BEGUM SHAHI MASJID

This mosque was built by Begum Maryam Zamani-mother of Emperor Jehangir in 1614 A.D., it is situated near Masti Gate about 100 yards outside the eastern wall of the Fort. It is a remarkable specimen showing the gradual development of the art of building of the period between the Pathans and the Mughals, a massive building re-presenting a curious but interesting picture of a style of the transitionary period; the large domes and the bulky arches are the best example of the Pathan style whilst the gateways, the balconies and the side rooms indicate Mughals influence. The interior of the walls is painted with colourful designs which is unrivalled in South Asia for its delicacy and lively variety. It has a spacious courtyard with a fountain for *woozu* (ablution).

#### 4.11 MASJID NILA GUMBAD

*Masjid Nila Gumbad* occupies a distinctive historical place among Lahore's ancient monuments and is one of the principal mosque in the city. The area in which

it lies is called the Nila Gumbad area, near the Anarkali Bazaar.

#### 4.12 MASJID-I-SHUHADA

This centrally air-conditioned mosque is on the Shahr-i-Quaid-i-Azam near the Regal *Chowk*. It was constructed in 1970 at the cost of rupees fourteen lakhs in the memory of martyrs of 1965 Indo-Pak War. In its construction marble stone from Mullah Gori hills (Khyber) and Black stone from Texila hills have been used. It has two storeys the basement houses store room and *woozu khana* (ablution). The ground floor comprises *mehrab* and prayer hall. *Mehrab* of this mosque resemble that of Masjid-i-Qurtaba. The indoor dome of the mosque is decorated with a wood work and chandelier donated by Sheikh Ziad-Bin-Sultan Alnihan, President of the Arab Emirates and People Republic of China respectively. Its minarets are 70 feet high. It has also a library.

#### 4.13 TOMB OF ALLAMA IQBAL

In the *Hazuri Bagh*, on the south-east of the main gateway of the *Badshahi Masjid* stands the small but imposing tomb of Doctor Sir Allama Iqbal the famous poet of the East. The death anniversary of Allama Iqbal is celebrated throughout Pakistan on the 21st of April every year.

#### 4.14 TOMB OF JEHANGIR

The tomb of the Mughal Emperor Jehangir is in Shahdara, on the right bank of the Ravi, three miles north-west of Lahore. In 1557 A.D., Nawab Mehdi Qasim Khan, a famous chief of Emperor Akbar built a garden on the right bank of the Ravi. This garden was known after his name as *Bagh Mehdi Qasim Khan*. Later when queen Nur Jehan took possession of this garden, she named it *Bagh-i-Dilkhusha*. In 1627 A.D., when Jehangir died, he was buried here. His tomb was built in accordance with the wishes of Nur Jehan and under her personal supervision. A large and beautiful garden was built around it to attract tourists. The *Maqbara* of Jehangir became so famous that

people forget its old name and it came to be known as *Maqbara-i-Jehangir*. The mausoleum is a majestic structure of surpassing beauty. Its four high minarets with their graceful cupolas of white marble are visible for miles around. Entrance is through a massive and lofty gate of red stone leading to a square enclosure called *Caravan Serai*. The long path extends upto the middle of the vast green ground and then turns to the right and terminates at a high gateway. Passing through it one enters the beautiful garden in front about 600 yards square, lined with water courses and small tanks dotted with fountains. The marble tomb is a majestic resting place of the cultured Mughal Emperor and is rightly termed as the Taj Mahal of Pakistan. It is approached by four corridors leading from the garden, three of which are closed by perforated marble screens. The roof of the main platform has a central arch having a marble pavilion bordered by marble railings. Within main platform are ranges of vaulted compartments with ornamented panels. The central chamber contains the marble grave-stone, the sarcophagus elaborately inlaid with *pietra dura* floral decoration and the 99 attributes of *Allah* (God) inscribed on the two sides, and on the top are verses from the Holy *Quran*. At the head is a Persian inscription of which the following is the translation; "The illuminated resting-place of His Majesty, the asylum of pardon, Nur-ud-Din Jehangir Badhshah A.H. 1037 (A.D. 1628)" giving the date of the erection of the sarcophagus and the date of Emperor's death as A.H. 1036 (A.D. 1627). The mausoleum is said to have been built by his devoted and favourite queen Nur Jehan and his successor son Shah Jehan.

#### 4.15 TOMB OF NUR JEHAN

Near the tomb of Asif Jah is the tomb of Nur Jehan, the devoted queen of Jehangir. She was an exceptional beauty, a politician, a poetess and a mighty queen. Her mausoleum is in a poor state. It seems, she could look into the future for there are her own verses, carved upon a wall of the mausoleum, which depicts its real present nature, devoid of all natural or man made beauty.

”بر مزار ماغریباں نے چراغ نے گلے  
نے پر پروانہ سوز نے صدائے بلبلے“

(On my tomb, there is no candle and no flowers, neither can the wing of the bird burnt nor there is singing of *Bulbul*).

#### 4.16 TOMB OF ASIF JAH

In another yard near the enclosure of Jehangir's tomb rests his faithful minister Asif Jah father-in-law of Shah Jahan who helped him wearing the crown after the death of Jehangir. This small and simple tomb shows a decayed plaster covering, out of which the precious stones were pulled out by the Sikhs.

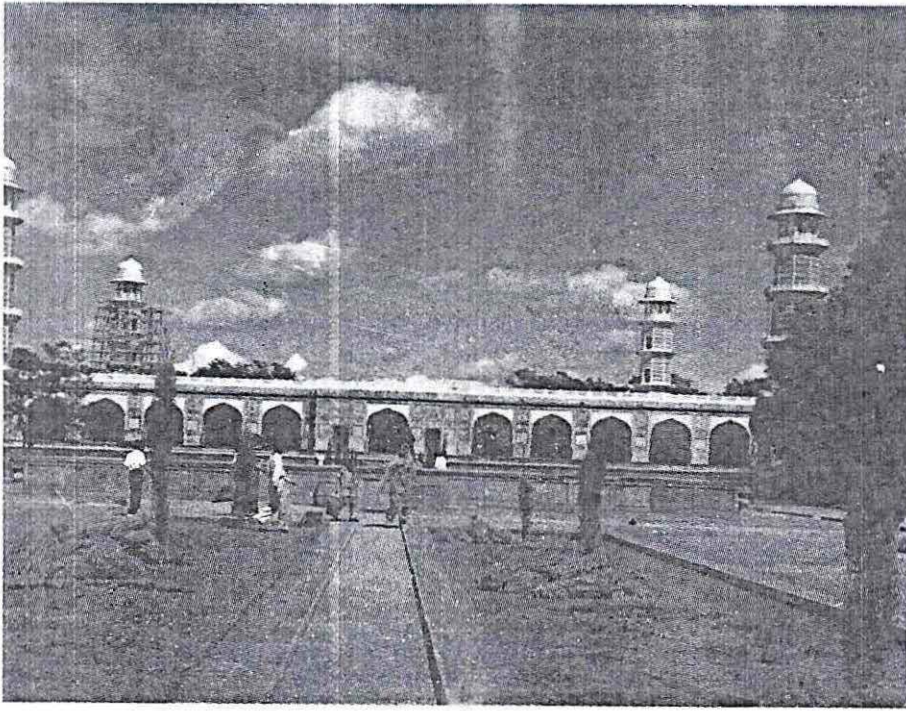

#### 4.17 TOMB OF ANARKALI

The tomb of Anarkali is situated in the main compound of the Civil Secretariat of the Punjab Government. According to one account *Anarkali* (Pomegranate blossom) was the title given to Nadira Begum or Sharif-un-Nisa who was a favourite slave girl of Emperor Akbar and on being suspected of returning a smile from Jehangir, son of the Emperor, then prince Salim, in the presence of the Emperor during a festival, was buried alive. This story lacks authenticity. The edifice was erected by Jehangir in 1600 A.D., and the marble tomb which once stood beneath the dome is now in a side chamber. On the gravestone are inscribed the 99 attributes of *Allah* (God) and a poignant Persian couplet said to have been composed by Jehangir himself, the translation of which is "Ah could I behold the face of my beloved once more; I would give thanks unto my God unto the day of Resurrection". The tomb which formerly stood in romantic surroundings was converted into a residence during the Sikh rule, and later into a church. It is at present used as a Historical Record Room. Anarkali the principal *bazaar* of Lahore City is named after her.

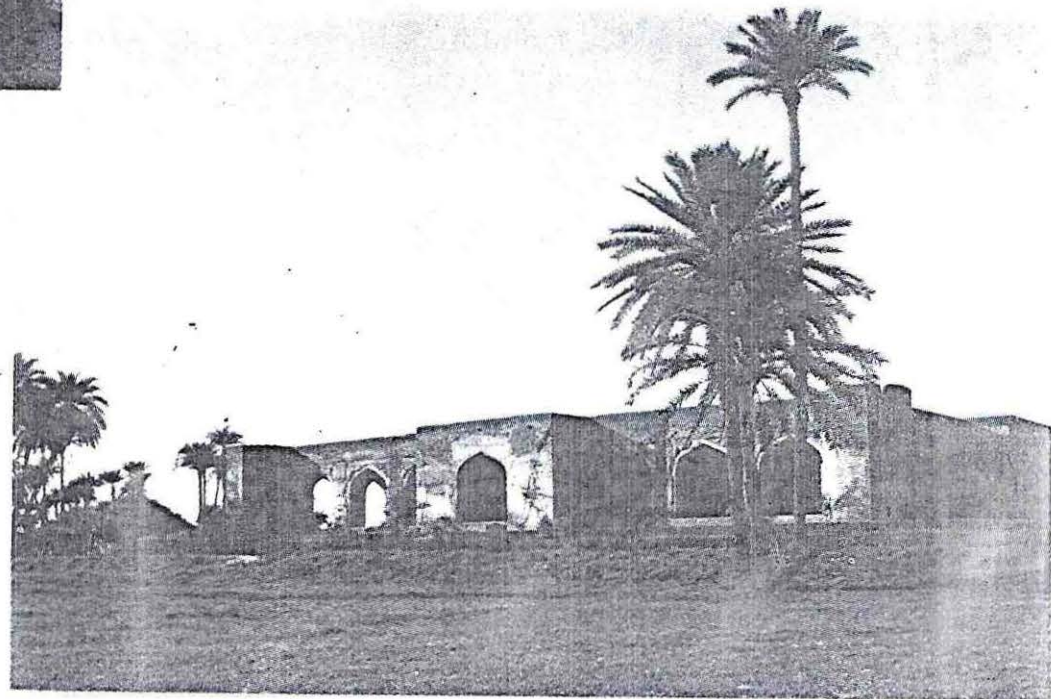

#### 4.18 TOMB OF QUTAB-UD-DIN AIBAK

The tomb of the slave king Qutab-ud-Din Aibak is in the side lane of Anarkali *Bazaar*. This lane is known after his name. It is said that Qutab-ud-Din Aibak died

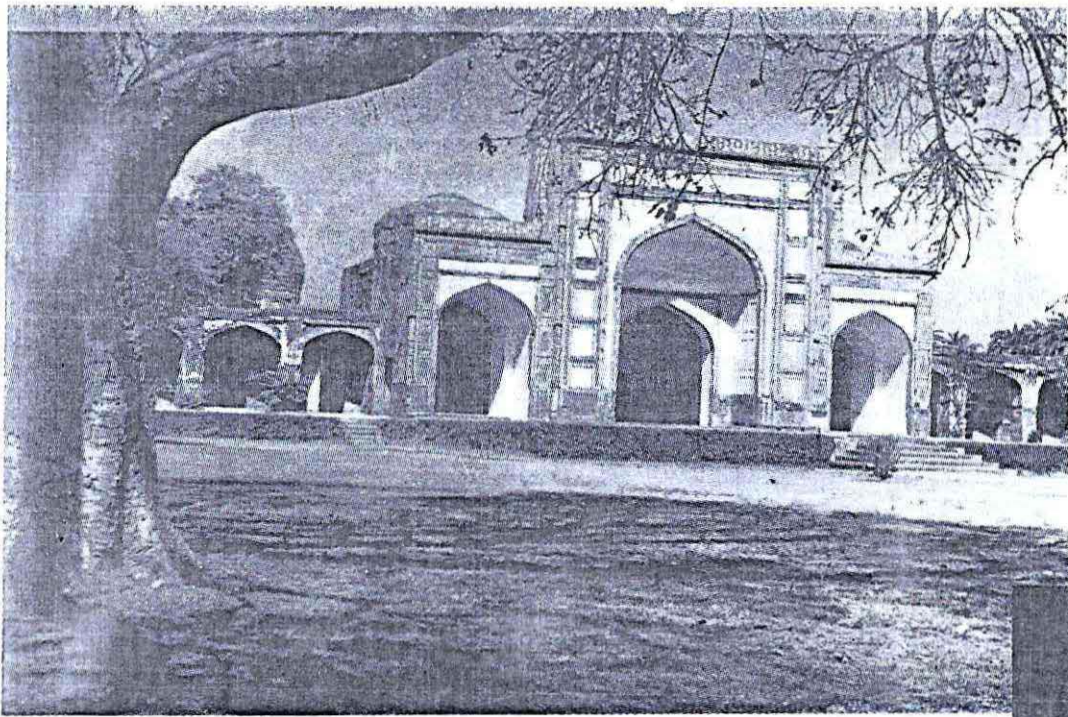

*Tomb of Emperor Jehangir*

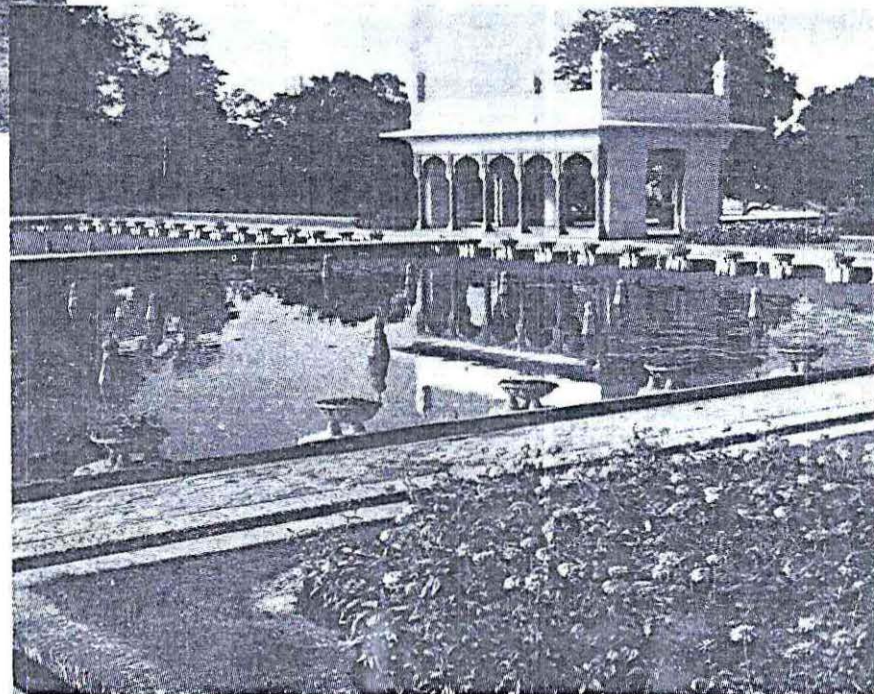

*Tomb of Nur Jahan*

*Tomb of Asif Jah*

*Shalimar Garden built by Emperor Shah Jehan in 1667 A. D.*

in Lahore while playing polo and was buried here. The tomb was neglected in the past and houses got constructed around it leaving a little space worth protecting this monument. However, the Government has managed to get the surrounding areas and renovation work on this tomb is in progress.

#### 4.19 TOMB OF ZEB-UN-NISA

About half a furlong from the *Zuhra Chowk* on the Multan Road, there is a tomb which is said to be of Zeb-un-Nisa, a daughter of Aurangzeb. She was a poetess and had compiled a volume of mystical poems, known as *Devan-i-Makhfi*.

#### 4.20 MAZAAR OF MIRAN SHAH

Mirza Shah Hussain Zanjani, popularly known as Miran Shah, was an Iranian saint who travelled widely in search of learning and finally settled down in Lahore to propagate Islam. He left in his spiritual lineage no less a celebrity than Khawaja Mueen-ud-Din Chishti of Ajmer, who passed a fairly long period in seclusion and meditation at this tomb and it was here that he saw the divine light.

The mausoleum of the saint is situated at the far end of Misri Shah. He was amongst the most celebrated saints of this Sub-Continent, and was born in the fifth century, A.H. at Zanjan, a village in Iran. He came primarily for sight seeing, but an urge to spread Islam asserted itself and he spent the rest of his life in Lahore.

#### 4.21 MAZAAR OF HAZRAT DATA GANJ BAKHSH

The tomb of Hazrat Data Ganj Bakhsh is situated in the Bilal Ganj area. He was a great *sufi* saint and was respected by the Muslims and the Hindu alike. Hazrat Mueen-ud-Din Chishti of Ajmer (India) led his *chila* (40 days of seclusion) at this place also. The *mazaar* is situated on a raised platform which is reached from the main *bazaar* below from flights of steps on three sides. Attached

to the shrine is a big mosque. It is still a place of homage for people from all parts of the country. The annual *urs* which is a popular event of Lahore is held in the month of February.

#### 4.22 MAZAAR OF HAZRAT MIAN MIR

The name of this saint is Mullah Shah but is generally known as Mian Mir Sahib. Dara Shikoh, brother of Aurangzeb, who was put to death by Aurangzeb, was a disciple of this saint. The mausoleum which lies in the cantonment area near the Cantonment Railway Station is of white marble and red sandstone with a mosque in the courtyard. The area of cantonment till 1906 was called Mian Mir after the famous saint and the railway station as Mian Mir Railway Station. The annual *urs* of the saint is celebrated with great festivity when people in thousands come to pay homage to the departed saint.

#### 4.23 SAMADH OF RANJIT SINGH

Near *Badshahi Masjid*, stands the mausoleum of Ranjit Singh with its rounded roof and projecting balconies. Its ceilings are elaborately decorated with tracery in stucco, inlaid with small convex mirrors and marble arches. In the centre is a raised stone platform on which is a marble lotus flower, surrounded by seven smaller ones. The central flower covers the ashes of the Maharaja, the others those of four wives and seven slave girls who perished in his funeral pyre. In small niches in the side walls are to be seen images of the ordinary Hindu gods, to abolish which was one of the original objects of the Sikh faith.

#### 4.24 SHALIMAR GARDENS

*Shalimar Gardens*, situated along the National Highway three miles east of Lahore City were laid out by Mughal Emperor Shah Jehan in 1667 A.D. These are built in Persian style and are enclosed by a high plas-

tered wall with domes at its various corners. These unparalleled and exquisite gardens, containing a marble pavilion standing amidst lovely tanks, dotted with gushing fountains and bordered with cyprus trees are a dreamland which was designed by Ali Mardan Khan, the celebrated engineer who was posted as Mughal viceroy of the Punjab. The garden was laid in seven terraces, of which only three covering an area of about forty acres remain, the remaining four having been destroyed. It took over seventeen months, at a cost of six lakhs of rupee, to complete the garden. Shalimar Garden forms the venue of garden parties by the citizens of Lahore in honour of foreign dignitaries.

#### 4.25 BAGH-I-JINNAH

In front of the Governor's House, on the right hand side of the Shakra-i-Quaid-i-Azam, people converge to a place, cool and bewitching, to relax and to stroll. The idea of laying out a garden at this place, then a desolate wilderness, was conceived in 1860 by a private body known as the Agri-Horticultural Garden. In later years, the garden was renamed Lawrence Gardens after the name of the then Lt. Governor of the Punjab. In 1876, Mr. E. Spooner was appointed its first Superintendent who developed this place into a green pleasure spot. Its open grassy lawns and flower beds present a panoramic view. On these lawns people relax and enjoy their evenings. It is irrigated by tube-wells and a canal from the Lahore Branch of the Bari Doab. The garden is the venue for receptions and parties to dignitaries. There are also a cricket ground and tennis lawn where a lot of national and international games are played. After independence this *bagh* was renamed as Jinnah Garden after the name of Quaid-i-Azam Mohammad Ali Jinnah, the founder of this nation. It covers an area of 141 acres, of this seventeen acres are under roads & buildings and ninety acres under clubs. Many new species of plants have been introduced from different countries.

The loveliest and the most attractive corner of the garden is the *Gulistan-e-Fatima*. Previously it was a rose park. But after Independence it was developed into a

small garden and named *Gulistan-e-Fatima* after Miss Fatima Jinnah, the sister of the Quaid-i-Azam Mohammad Ali Jinnah. Its first portion is decorated with roses and a dozen varieties of other flowers. There are benches to sit on and relax. In the centre, there is a sunlike square; on each of its corners sits a peacock trimmed out of a green hedge. The main gate serves as an entrance to its second portion. Right in the heart of this plot is a fountain. On each of its four corners there sits a peacock made of cement mixed with red brick powder and marble chips. This portion is also electrified and at night presents a picturesque view. Garden parties in the honour of foreign dignitaries are also held here.

Mughal Garden is a new addition to the *Bagh-i-Jinnah*. It was constructed in 1966 and comprises *batradari* with fountains on the pattern of Shalimar Garden.

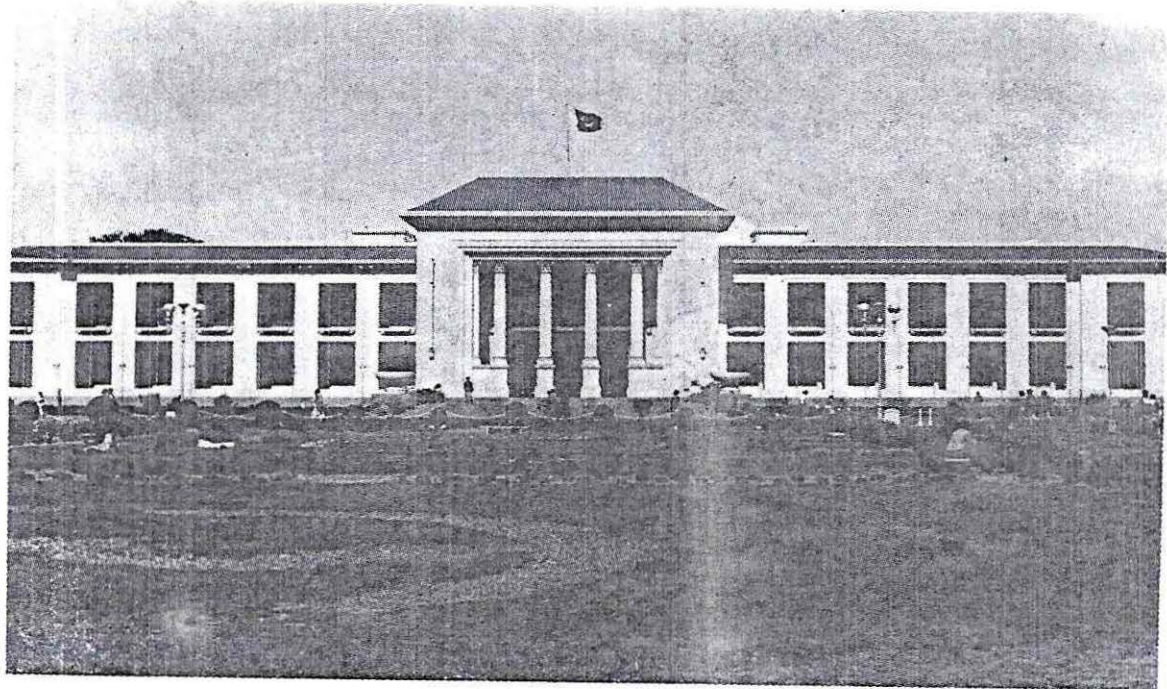

A small rose garden has been built near *Gulistan-e-Fatima*, where all kinds of roses have been planted. Rare species are nigrette, black prince and green rose.

To provide a place for worship in the *Bagh-i-Jinnah*, a beautiful mosque known as *Dar-ul-Islam* Mosque was built in 1961 by Colonel Haji Salamatullah. According to the old tradition of having a library with a mosque, *Dar-ul-Islam* Library was also added to this mosque. This library has more than 26,500 books relating to the subjects of medicine, history, engineering, life of the holy prophet, science and literature, etc.

#### 4.26 FORTRESS STADIUM

Across the Mian Mir railway bridge on the Shakra-i-Quaid-i-Azam, there is a Fortress Stadium under the administrative control of the military authorities. New pavilions have been constructed in this stadium. This stadium is a venue for military displays, parades and above all the *awami mela* which is held annually there. A modern shopping centre has also been added to the Stadium which in addition to the restaurant also caters the daily need of the area.

*Punjab Assembly Hall, Lahore*

*WAPDA House, Lahore*

#### 4.27 GADDAFI STADIUM

The need for all purposes modern stadium was badly felt when Lahore was fixed the venue of the second Pakistan national games. The Pakistan Railway Stadium where the games were organised could not accommodate such a large number of spectators. For the development of sports the foundation stone of the Gaddafi Stadium (then called the Lahore Stadium) was laid in 1950. It is situated on the Ferozepur-Lahore Road and covers an area of 94 acres. The entire area is surrounded by a boundary wall. It has all purposes area for athletics, cricket, foot ball, hockey, etc. It has a seating capacity for 25,000 spectators and is planned to be extended for 70,000 seats. Gaddafi Stadium houses administrative block, college block and residences for the staff of the college for physical education.

#### 4.28 PUNJAB ASSEMBLY HALL

The Punjab Assembly Building is situated on the Shakra-i-Quaid-i-Azam facing the Islamic Summit *Minar*. It is one of the most beautiful buildings of Lahore, most of the exterior of which is in red stone. Interior decoration of the building is mostly in teakwood. It was constructed in 1935 at a cost of Rs. 2,46,030. It is an oval shaped forty-five feet tall three storey building. The assembly hall is semi-circular in shape with a radius of 172 feet. Its capacity is 271 seats. It has a gallery and a lobby with a seating capacity of 120 persons. The ground floor has twenty-one rooms for various departments and administrative staff of the building, two committee rooms, one reception room, two lobbies, one cabinet room, one library and one dispensary. The first floor comprises twenty-nine rooms, speaker's chamber, chief ministers room, governor's room, two committee rooms, hall, galleries and lobbies. The basement contains air-conditioning plant and stores.

#### 4.29 WAPDA HOUSE

After creation of Water and Power Development Authority (WAPDA) it was felt that the *ad hoc* arrangements for its ever expanding office requirements

should be made as the hired accommodation arrangements were not desirable. The area to include the Mela Ram and Jodha Mal buildings with their compound on the Charing Cross was allotted for this purpose. The old buildings were demolished and keeping in view the architectural features of its surrounding buildings like Provincial Assembly Chambers and Benevolent Fund Commercial Building, it was planned to construct it as a 'X' shaped multi-storey building.

The construction of WAPDA House costing Rs. 4,26,73,000 was started in October 1963 and completed in 1967. Total covered area of this building is 54,000 sq. feet. This 110 feet high air-conditioned building has 11 storeys (including two basements). A central rotunda of 65 feet diameter, which is one of the permanent features of this building, has been provided and is topped at the roof level by a plexiglass. A beautiful air-conditioned mosque to accommodate 300 persons has also been provided on the first floor. It has a beautiful and spacious auditorium with seating capacity for 340 persons in the hall and 20 in the gallery. There is a good restaurant in the basement, parking for 100 cars has also been catered in the sub-basement. A portion of the building has been rented out to other agencies and a part is being used by WAPDA Headquarters.

The architectural features of this building were designed by Mr. Edward D. Stone, a famous architect of USA. However, the complicated structural designing were carried out by WAPDA engineers.

#### 4.30 LAHORE MUSEUM

Lahore Museum was founded in 1863, in Tollinton Market area. In 1895, the foundation of the present building which is near the old one was laid down from the funds raised throughout the Province to celebrate the Golden Jubilee of Queen Victoria.

The object was to provide a Provincial Institution containing a museum, library, and lecture rooms with sufficient capacity for instructional expansion into a technical college. In one of its blocks is located the National

College of Arts. The central gallery contains fine specimens of carved Mughal doorways and wood-work, representative collection of paintings dating from the Indo-Persian, Mughal, Sikh time and examples of modern times. Two galleries run east and west of the central gallery, that one the west being devoted to models of instruments, *luqqas*, jewellery, textiles, pottery and a small collection of armour. At the centre, are the famous collection of Graeco-Bactrian gallery in which are shown some interesting collections of Tibetan painted banners, statutes, carved curios, Nepalese brass work, a case of manuscripts and case containing finds of gold and silver ornaments and objects of art from Texila.

#### 4.31 LAHORE ZOO

It is situated on Shahra-i-Quaid-i-Azam, adjacent to *Bagh-i-Jinnah*. It was established in 1872 and is one of the best zoological garden in the Sub-Continent. It covers an area of 23 acres.

Zoo has been given a new shape by building new blocks for various birds and animals. Rare varieties of beast like ape, leopard, zebra, wild buffalo and giraffe have also been added in the zoo. Joy ride on elephant is also provided. For children there is a park within the premises of the zoo.

#### 4.32 THE CHAUBURJI

At the junction of the Lower Mall and Multan Road is a fine gate way, commonly called *Chauburji* (four minarets). It was once the entrance to the garden of Zeb-un-Nisa, the daughter of Aurangzeb. With the passage of time, garden had disappeared. *Chauburji* has now only three minarets left and is a protected monuments.

#### 4.33 THE ZAMZAMA

In the middle of Shahra-i-Quaid-i-Azam and in front of the Punjab University Hall stands on a raised platform the famous gun *Zamzama*. This gun is the largest

specimen of casting in the Sub-Continent and was made in 1761 A.D., by Shah Wali Khan, Wazir of Ahmad Shah Abdali, who used it in the battle of Panipat. After the departure of Ahmad Shah, the gun was left in the possession of the Sikhs and came to be regarded by them as talisman of supermacy. Ranjit Singh eventually employed it at the siege of Multan in 1818 A.D. From that date until removal in 1860 A.D., it was placed at the Delhi Gate of the city of Lahore. The inscription of the gun opens as follows :—

“By order of the Emperor (Ahmad Shah) Dur-i-Duran Shah Wali Khan the Wazir made this gun named *Zamzama*, the taker of strongholds”.

#### 4.34 MINAR-I-PAKISTAN

*Minar-i-Pakistan* is situated near the Lahore Fort in the spacious Iqbal Park (previously known as Minto Park), where the historic resolution for the creation of Pakistan was adopted on the 23rd March, 1940 by the all India Muslim League. In the memory of this historic event a monument was decided to be constructed at the spot where the resolution was passed.

The construction of *Minar-i-Pakistan* was started in March, 1960 and completed in October, 1968 at the cost of Rs. 7,058,000. The height of the *minar* is 196½ feet. The tower rises from the platform; shaped like a five pointed star, enclosed by two crescent shaped pools embracing each other. The tower is composed of ten vertical converging slabs interlaced with flower petals, glazed segment of domes with sight seeing platform and central spiral stair case having 300 steps. There is an electric lift to climb up the *minar*. It goes up to 165 feet high. The *minar* has a locally manufactured stainless dome which shines in sun light. The resolution of Pakistan has been inscribed on its walls in English, Urdu and Bengali languages. On the barrel of the *minar*, speeches made by Quaid-i-Azam are also written. Besides 99 attributes of God, verses from the Holy Quran, national anthem and poems of Dr. Alama Iqbal have also been engraved. Around the *minar* there are spacious parks with beautiful cyprus trees and flowers

all over. There is a good lighting arrangement in the park. The total area of the *minar* including parks is 22 acres. The marble, red and green stones of Mullaghori hills and Swat have been used in the construction of the *minar*.

The design of *Minar-i-Pakistan* was prepared by a famous architect, late Nasrud-Din-Murad who was in fact a Russian Muslim. For his affiliations with Islam and love for the new born Islamic State of Pakistan, he came and settled in Lahore. He personally carried out supervision of the construction of this monument. In recognition of his services for the *Minar-i-Pakistan*, the Government of Pakistan conferred upon him the honour of 'Tamgha-i-Imtiaz'.

#### 4.35 NEW RAVI BRIDGE

The New Ravi Bridge has been constructed downstream the old Ravi Bridge with a total cost of rupees 188 lakhs. It is 1,620 feet long and 61 feet 9 inches wide with dual carriage way each 23 feet wide. It has a maidan strip and 12 spans of 125 feet each.

#### 4.36 PUNJAB PUBLIC LIBRARY

The library was established in November, 1884 A.D. It is befittingly housed in a historic building constructed by Wazir Khan, a Mughal Governor of the Punjab, who also built the famous Wazir Khan Mosque. The building originally was a structure in the midst of a vast garden of which only a palm tree survives now. It is a public library, for reference, comprising official publications.

#### 4.37 PUNJAB UNIVERSITY

The old campus of the University of the Punjab is located on Shahra-i-Quaid-i-Azam opposite Lahore Museum. It was established during the British period in October, 1882 and was the fourth University, in order of construction, in Indo-Pak Sub-Continent. The other three were the Calcutta University, Allahabad University and Madras University. The Punjab University played a

leading roll in educating the masses of this part of the Sub-Continent. The area of the old Campus of the Punjab University is 44 acres which is not sufficient to meet the expanding requirements of the University. At present, it houses departments of English, Fine Arts, Pharmacy, Social Work, Islamic Studies and History.

To provide adequate facilities for teaching and research at the University level for 10,000 students together with residential accommodation for approximately half of them and the teaching and administrative staff a new campus was planned to be constructed at a suitable place. The site selected is on the Wahdat Road about 8 miles from the old Campus. It comprises an area of 1,200 acres including building, grounds, hostels, cafeteria and various departments. About 60 percent of the construction work has been completed. In the new University Campus eleven hostels for boys, three for girls, 250 houses for the staff members and a Students Union building have been constructed. It houses the departments of Mathematics, Statistics, Physics, Sociology, Economics, Geology, Business Administration, Journalism, Social Science, Geography, Political Science and History.

The Bari Doab Canal passes through the Campus area. Boats are provided by the Punjab University for boating in this canal. In addition to a modern cafeteria across the canal there is a canteen and a snack bar in the academic block of New Campus.

#### 4.38 KASUR TOWN

Kasur, the tehsil and sub-divisional headquarters is most important town after Lahore. It is a place of great antiquity and is identified by the historians as one of the places visited by the Chinese Pilgrim, Huen Tsang in the 7th century A.D., but it does not appear in history until late in the Muslim period when it was settled by the Pathans from the east of the Indus. These immigrants entered the town either in the reign of Babar or in that of his grandson Akbar and founded a considerable principality with territory on both sides of the Sutlej. When the Sikhs rose to power, they met great opposition from the Pathans of

Kasur. The Sikhs stormed the town in 1763 A.D., and again in 1770 A.D., and although they succeeded in holding it for a while, the Pathan leaders re-established their independence in 1794 A.D., and resisted also many subsequent attacks. The town of Kasur has been a municipality since 1885.

It is connected with Lahore by road and also by rail which takes off from the Raiwind Junction and runs

up to Lodhran. In pre-independence days Kasur was also connected by rail with Amritsar and Ferozepur (now in India) on one hand and Lahore on the other, and was a big brisk trade centre of grain and cotton.

In the heart of the town lies the *mazar* of a saint named Baba Bullhe Shah, a renowned Punjabi poet of his time whose annual *urs* is celebrated on the 27th *Jamad-us-Sani*.

## SECTION 5—POPULATION

## 5.1 GROWTH AND DISTRIBUTION

The total population of Lahore District was 3,774,007 according to the 1972-Census, whereas it was 2,479,687 in the 1961-Census. The percentage increase during the inter-

vening period of 11 years and 8 months between the two censuses was 52.2% with an annual growth rate of 3.7%. The following statement also shows at a glance the variation in population before 1961 starting from 1901 :—

Description	1901	1911	1921	1931	1941	1951	1961	1972
Population .. .. .	890,238	886,388	1,001,956	1,212,974	1,513,040	895,228	2,479,687	3,774,007
Increase/decrease over last census	—	—3,850	115,568	211,018	300,066	382,188	584,459	1,294,320
Percentage increase/decrease ..	—	—0.4	13.0	21.1	24.7	25.3	30.8	52.2

The total area of the district is 2,227 square miles which gives a population density of 1,694 persons per square mile.

The urban population of the district was 2,421,507 (i.e. 64.2%) and the rural population was 1,352,500 (i.e. 35.8%). The percentage increase in urban and rural areas during the last two censuses was 65.3% and 33.3% respectively against the total increase of 52.2%.

## 5.2 COMPOSITION

The male and female population was 2,045,324 and 1,728,683 respectively giving a sex ratio of 1,183 against 1,205 in the 1961 Census.

The infant (less than one year) population was 96,759 (i.e. 2.6%), 30.2% were less than 10 years and the adult (18 years and above) population was 51.0%.

The population of 10 years and above was 2,633,895 out of whom 1,076,930 (i.e. 40.9%) were never-married, 1,403,426 (i.e. 53.3%) were married 148,274 (i.e. 5.6%) were widowed and 5,265 (i.e. 0.2%) were divorced.

Out of the total population of 3,774,007 the Muslim population was 3,572,300 (i.e. 94.7%). Christians came after Muslims whose population was 186,414 (i.e. 4.9%).

The literacy ratio of the district was 32.5% for both sexes and 39.1% and 24.3% for males and females respectively. In urban areas the literacy ratio was 44.1% for both sexes and 50.9% and 35.6% for males and females respectively. In rural areas the literacy ratio was 11.2% for both sexes and 17.2% and 4.0% for males and females respectively.

**CENSUS PUBLICATIONS**

1. **CENSUS BULLETIN 1**

This bulletin contains provisional population figures by sex and variation between the 1961 and 1972 Censuses in respect of Provinces, Divisions, Districts and 20 big cities of Pakistan. (Price Re. 1.00)

2. **DISTRICT CENSUS REPORT**

There is one report for each district containing its description, *i.e.*, geography, history and culture, administrative set-up and important historical places of the District and statistical tables. (Price Rs. 10.00)

3. **CENSUS REPORT OF FEDERALLY ADMINISTERED TRIBAL AREAS**

This report is in respect of the federally administered tribal areas and similar to the District Census Reports. (Price Rs. 10.00)

4. **CENSUS REPORT OF FEDERAL CAPITAL TERRITORY, ISLAMABAD**

This report is also similar to the District Census Reports. (Price Rs. 4.00)

5. **PROVINCIAL CENSUS REPORT**

This report describes briefly the geography and population dynamics of each Province. There are 10 tables for each Province with brief explanatory notes. These tables are similar to the first 10 tables of the District Census Reports with the only difference that the level of tabulation by geographical areas is different.

(Price :—Punjab Rs. 25.00; Sind Rs. 22.00; N.W.F.P. Rs. 20.00; Baluchistan Rs. 15.00)

6. **PAKISTAN CENSUS REPORT**

This report includes the 1972 Census methodology and procedures and short description of Pakistan's geography and population dynamics. There are 10 statistical tables for Pakistan with brief explanatory notes. These tables are similar to the first 10 tables of the District Census Reports with the only difference that the level of tabulation by geographical areas is different. (Price Rs. 25.00)

7. **ADMINISTRATIVE REPORT**

This publication contains Census Commissioner's report in respect of the administrative planning and methodology of the 1972 Census. (Not for sale)
