1981 CENSUS REPORT OF KARACHI DIVISION

MAY 1984

**POPULATION CENSUS ORGANISATION
STATISTICS DIVISION
GOVERNMENT OF PAKISTAN
ISLAMABAD**

P R E F A C E

The fourth decennial Population Census was conducted from 1st to 15th March, 1981. This preceded by the first ever fullfledged Housing Census from 1st to 15th December, 1980. In the Population Census, two questionnaires were used; a short one (Annexure—A) containing questions on names of household members, their relationship to head of household, sex, age, marital status, religion, literacy, ability to read the Holy Quran (for Muslims only), educational attainment and language spoken in the household and a long one (Annexure—B) which included all questions of the short questionnaire and some more namely, field of education, district of previous residence, duration of residence at present district, activity, employment status, occupation, industry, disability, etc. The long questionnaire was used for households selected on probability basis. The sample covered 9.7 per cent of households in rural areas and 8.2 per cent in urban areas.

This report comprises four parts. In part—I, general description of the division and the main findings of the 1980 Housing Census and the 1981 Population Census have been highlighted. Part—II and Part—III consist of Statistical Tables of the Housing Census and the Population Census respectively. In Part—IV, various annexures mentioned in the text of this report have been given.

The tabulation of topics common in both the questionnaires pertains to complete enumeration, whereas tabulation of additional topics in the long questionnaire are the estimates based on the sample data.

The number and scope of statistical tables have been extended and cover data from the Housing Census (Annexure—D) also. Definitions and concepts of the topics in the questionnaires and tables are given at annexure—E. Map of Karachi division is at annexure—I.

Population census, conducted once in a decade, is a gigantic operation of immense national importance. This report gives a demographic profile of the division. Thousands of field and office workers have contributed in producing this report. Our Organisation owes a deep debt of gratitude to all those who worked at different stages of census operations and made their inputs for this final output. We hope that the data presented in this report will be used for planning the progress of the people of this division.

Dated: **May 5, 1984**

Part—I
GENERAL DESCRIPTION OF THE DIVISION
AND
MAIN FINDINGS OF THE CENSUSES

SECTION – 1 GENERAL DESCRIPTION OF THE DIVISION

1.1 Location

The division derives its name from its divisional headquarters, which is the biggest city of Pakistan and provincial capital of Sind. The city is said to have been founded by a small community of fishermen and a few businessmen in the 18th century. The city at the time was called Kulachi Jo—Goth (village of Kulachi) or Kulachi—Jo—Kun (Kulachi's well). The name was changed to Kurrachee in the early British days and in the course of time to its present name of Karachi.

The Karachi division comprised only one district at the time of the 1972 Census. It now stands split into three districts, namely, Karachi East, Karachi West and Karachi South. The Karachi Metropolitan Corporation falls in all the three districts. The entire area of Shakra—e—Faisal, Korangi Creek, Malir Cantonment and a small part of Karachi Cantonment fall in Karachi East district, while Manora cantonment and the major part of Karachi cantonment fall in Karachi South district. The rural areas fall partly in Karachi East and partly in Karachi West districts. Because of this peculiar division and overlap of boundaries of administrative districts vis-a-vis local bodies administrative units, this report deals with Karachi division as a whole.

The Division lies from 24°—45' to 25°—15' north latitudes and 66°—37' to 67°—37' east longitudes.

It is bounded by Dadu district in north-east, by Thatta district in south-east, by the Arabian Sea in south and by Lasbela district of Baluchistan Province in the West.

The total area of the Division is 3,527 sq.kms., of which Karachi East district is 2,407 sq.kms., Karachi West district 998 sq.kms., and Karachi South district 122 sq.kms.

1.2 Topography

Karachi may broadly be divided into two parts. The hilly areas in north and west and an undulating plain and coastal area in south-east. The hills in Karachi are the off-shoots of the Kirthar Range. The hills in north may be divided into two series of parallel ranges. The first series run for about 55 kilometres, along the boundary of Karachi division with Dadu district, approximately in north-south direction. These hills are known as Mol Jabal in north and Gandak in south. They vary in elevation from about 300 to 450 metres above sea level. The highest point in these hills is about 528 metres in the extreme north where the boundary of Karachi meets with the boundary of Lasbela and Dadu districts. The second series are in the middle of the northern half of Karachi. These hills run in north-east to south-west direction for about 40 kilometres. The southern part of these hills is known as Mari Gati. These hills also vary in elevation from about 300 to 450 metres above sea level. The area lying between the above ranges is drained towards north-west in the northern half and to south and then to west in the southern half. However, the land to west of the second series of hills (Mari Gati) drain straight to west. A third series of low lying hills extend from Mari Gati, in south-west direction, almost parallel to the Hub river upto the cape Monze. These hills vary in elevation from about 300 to 400 metres above sea level. All these hills are devoid of vegetation and have wide intervening plains and dry river beds and water channels.

The south-eastern plain and coastal area of Karachi has a few isolated hills. Most of the area is, however, barren. In some parts where soil is fertile and water available, the land is used for cultivation.

Karachi has a long coastal line. Hawkes Bay, Paradise Point, Sands Pit, and Clifton are the famous sea beaches. China Creek and Korangi Creek provide excellent calm water channels for rowing and water skiing. In the remote past, the sea made in-roads and several islands were formed. Of these islands, Keamari, Clifton and Ghizri are connected. Among important islands which are away from the shore line are Shamsh Pir, Baba, Bhit, Bunker, Salehabad and Manora.

1.3 Climate

The temperature is moderate in Karachi but the relative humidity is high in some months and varies from 58 per cent in December which is the driest month to 85 per cent in August which is the wettest of all the months. For the greater part of the year, a cool evening breeze is a great boon to the inhabitants of this area. The hottest months are May and June when the mean maximum temperature generally jumps to 35°C. The daily temperature at Manora Island and Drigh road, only 10 kilometres apart, vary appreciably. Drigh road is always hotter during the day and cooler during the night. The daily variation in temperature between Manora Island and Drigh road is sometimes as much as 9°C. At times, when the chilly Quetta winds blow from the north, the temperature drops even below 5°C, but such periods are rare. For almost half the year, including the monsoons, the winds blow south-west to west. The wind direction during winter changes to east and north-east, maintaining an ideal temperature of about 21°C. January is the coolest and the pleasant month of the year.

Karachi has scanty rainfall but surprising variations from year to year. The average annual rainfall is approximately 256 mm. but in certain years rainfall is higher and it may pour heavily within a short period of 48 hours. With such unusually heavy rain the entire city is flooded, choking the drainage system, and flooding the low-lying areas making the Karachites' life miserable. The rainy season stretches between July and August, during which it remains practically clouded every day.

The mean maximum and minimum temperatures and precipitation, recorded at Mauripur Metereological Station, are given in the following table:—

Month	Mean temperature (°C)		Precipitation (millimetres)
	Maximum	Minimum	
January	24.9	11.9	6.0
February	27.1	13.8	5.0
March	30.0	18.6	18.0
April	32.7	22.8	3.0
May	35.0	25.8	0.0
June	33.9	28.4	2.0
July	32.7	27.7	110.0
August	31.2	27.0	11.0
September	31.2	25.6	62.0
October	32.7	22.6	0.0
November	30.9	17.8	14.0
December	26.3	13.4	25.0
Annual	30.7	21.3	256.0

Source: Meteorological Department, Government of Pakistan, Islamabad.

1.4 Agriculture

Since Karachi is primarily an industrial city, with occupations in services providing employment to a large number of people in the city, agriculture is a relatively smaller operation in terms of generating income and employment. Karachi is highly dependent on Sind and rest of the country for its food and other agricultural products. These products also serve as essential raw material for Karachi's industry.

There are no canals for irrigation in the area, and so irrigation is done by other methods. Water Treatment Plants at Sher Shah and Mahmoodabad are the permanent sources of water for irrigation and manure. The water Treatment Plant at Mahmoodabad irrigates agricultural farms near Landhi and Malir. Irrigation water is used from the dam near Thando Nullah, while tube-wells are used in the area of Deh Bund Murad Khan. The agricultural farms are located in patches in the outer areas of the Division.

In 1979-80, the farm area was 272,000 hectares. The cultivated area was 41,000 hectares, out of which, however, 24,000 hectares were net sown. The cropped area was 46,000 hectares.

The area under forest was 74,000 hectares. Dhabegi and Thano Bula Khan are the two forest ranges in Karachi Division.

The soil and climate of Karachi is best suited for papaya cultivation. Mangoes, chikoos, dates, guavas and other fruits are also grown here. Cultivation of coconut and banana is also done along the coastal area.

The area and production figures of major crops and fruits grown during 1981-82, are given in the following table:—

Crops/Fruits	Area (hectares)	Production (tonnes)
<i>Jawar</i>	1,400	600
Mung	814	384
Guar-seed	566	240
Castor-seed	340	330
Wheat	300	300
Mango	587	3,924
Dates	99	251
Banana	77	695
Guava	61	145

Source: Agricultural Statistics of Pakistan, 1982, Food & Agricultural Division Islamabad.

1.5 Fisheries

Karachi is the hub of marine fishing in Pakistan. Excellent fishing spots are found near the coast, since all favourable conditions, i.e. shallow continental shelf, clear sun light and mingling of salt and fresh water are available. Shoals of edible fish are also found

near the coast. Salmon, pomfret, sardine and prawns are always available. The fish from Karachi is supplied to the other parts of the country and also exported. The foreign exchange earnings from the exports of fish amounted to Rs.128 millions in 1980-81.

1.6 Industry

At the time of Independence, Karachi had just a handful of industrial units to speak of. Today it has become the most developed and leading industrial area in the country.

There are over 1,713 registered industrial units in the city with a value of net fixed assets exceeding Rs.4 billions.

The number of major industrial units by type are given below:—

1. Food preparations	73
2. Beverage industries	10
3. Tobacco manufacturing	8
4. Textile manufacturing	453
5. Leather & leather products	29
6. Foot wear and wearing	18
7. Paper and paper products	13
8. Printing, publishing and allied industries	87
9. Drugs and pharmaceutical	56
10. Manufacturing of other chemical products	49
11. Manufacturing of rubber products	20
12. Manufacturing of plastic products	25
13. Iron and steel base industries	75
14. Manufacturing of fabricated metal products	36
15. Manufacturing of transport equipments	49
16. Manufacturing of handicrafts	27
17. Miscellaneous manufacturing industries	102
18. Textile dying and bleaching	55
19. Knitting and hosiery	62

The Pakistan Steel Mills, the only one of its kind in Pakistan, employs 22,000 workers. Set up at a cost of Rs.19 billions, eventually, the Steel Mills will become a major source for raw material to local industry. Various downstream projects which are off-shoots of the Steel Mills have already started production, with many others in the final stages. Further raw material is brought to Karachi from Gadani, 100 km. away: Gadani is the world's second biggest site for ship-breaking and material from here is sent to the Steel Re-rolling Plants in the city.

The setting up of the Export Promotion Zone (EPZ) is a further boon to the industrialization of Karachi. The E.P.Z. will offer subsidized rates and various tax and other exemptions as incentives to industrialists. Along with foreign capital, local industry can make use of these facilities and expand production and employment.

Port Bin Qasim designed to handle bulk cargo, will further facilitate the business and industrial community as the import and export of goods becomes easier.

1.7 Communications

Karachi is the most industrialised and commercialised area in Pakistan. It is essential that such a city should have an adequate communication network, whether it be with the rest of the country or within the city itself.

Karachi airport is the biggest in the country in terms of size and passengers handled. A flight leaves or lands in Karachi every 15 minutes with connections to all the major cities of the country and the world. On average, 11,700 passengers use the airport each day, while cargo handled exceeds 300 metric tonnes per day.

The harbour at Karachi is the main sea port of Pakistan and one of the busiest in the Arabian sea. The port is under the management of the Karachi Port Trust (K.P.T), established in 1886. As the needs of the city have grown, Karachi harbour has expanded, but has not been able to take the full load of ships coming into the harbour. For this reason, a new port at Bin Qasim is being built, which will be used mainly for bulk cargo, thus easing the pressure on the Karachi harbour.

Karachi is the southern terminal of the Pakistan Railways and has two stations linked with the National Railway network. Apart from this, the city is the only one in Pakistan which has a Circular Railway System for its populace. This mode of urban travel is still one of the cheapest in the city.

Karachi is linked with foreign countries through its gateway telephone exchange. In 1981, there were 251 post offices, 21 telegraph offices and 99,110 telephone connections in the city.

1.8 Education

Karachi prizes itself for being one of the leading educational cities in the country. Since the time of Independence, when the city lacked an adequate educational system, a large number of institutions have been set up at all levels.

There are two government universities in Karachi, alongwith the only private university in Pakistan. In the University of Karachi many students come from foreign countries. Apart from having various faculties associated with the university, it has a few institutions which are known nationally and internationally as centres of excellence.

The H.E. J. Institute of Chemistry, the Institute of Business Administration, the Institute of Marine Biology and the Applied Economics Research Centre are located on the Campus. These institutes have been carrying out research work and producing students of a standard comparable to any university in the developed countries. The N.E.D. University of Engineering & Technology has more than 3,000 students. There are two other Government Medical Colleges in the city. The Dow Medical College, set up in 1946, and the Sind Medical College set up in 1973, produce 600 doctors annually.

The number of educational institutions and enrolment of students, during 1980-81, are given in the following table:—

Institution	Number	Enrolment
Technical Institutes		
College of Technology	1	1,834
Polytechnic	3	1,469
Commerce	2	343
Vocational	3	3,336
Colleges		
Degree	45	71,287
Post-graduate	9	5,415
Professional	6	5,415
Schools		
High	447	251,920
Middle	251	33,146
Primary	1,847	538,909
Teacher's Training Institute	1	355

Source: Directorate of Education, Government of Sind, Karachi.

1.8 Health

Karachi has 107 hospitals having 7,122 beds and 513 dispensaries with 227 beds. There are two Rural Health Centres having 30 beds and 3 T.B. clinics having 40 beds.

SECTION 2 — MAIN FINDINGS OF 1980 HOUSING CENSUS

2.1 Housing units, Household size and Rooms

There were 858,035 housing units in the division of Karachi, out of which 95 per cent were in urban areas. Most of the housing units (76 per cent) were small comprising either one or two rooms. The percentage of such small housing units was more (94 per cent) in rural areas than in urban areas (75 per cent). There were seven persons per housing unit and three persons per room.

2.2 Tenure

Sixty five per cent housing units were owner-occupied, nine per cent rent-free and 26 per cent rented. In rural areas, 85, 7 and 8 per cent housing units were owner-occupied, rent-free and rented respectively. The corresponding figures in urban areas were 64, 9 and 27 per cent.

2.3 Period of Construction

Nine per cent housing units had been constructed before the creation of Pakistan in 1947, 48 per cent during 1947-70, 22 per cent during 1971-75 and the remaining during 1976-80. In seventies, 43 per cent housing units were constructed in rural areas as compared to 43 per cent in urban areas, indicating same pace of construction in rural and urban areas.

2.4 Construction Material of Outer Walls and Roofs

The main construction material of outer walls was baked bricks/blocks/stones cement bonded, which was used in 84 per cent housing units. Baked bricks/stones mud bonded were used in eight per cent and wood in two per cent housing units. In rural areas, baked bricks/blocks/stones cement bonded were the main construction material used in 47 per cent, whereas in urban areas the main construction material was also baked bricks/blocks/stones cement bonded used in 86 per cent housing units.

R.C.C./R.B.C. were the main construction material of roofs used in 42 per cent housing units and 22 per cent had girder, beam and baked bricks. In urban areas, R.C.C./R.B.C. was used in 44 per cent housing units as compared to only 19 per cent in rural areas.

2.5 Source of Drinking Water

Most of the households (90 per cent) used piped water for drinking. Five per cent households used hand pump water and two per cent spring/river/stream water for this purpose. In urban areas, piped water was mostly used (92 per cent households) for drinking as compared to the same facility of water mostly used (60 per cent households) in rural areas.

2.6 Source of Light

Sixty six per cent households used electricity for lighting, 32 per cent used kerosene and the remaining used other sources. In urban areas, 68 per cent households used electricity and 30 per cent used kerosene. In rural areas, 73 per cent households used kerosene and 26 per cent used electricity.

2.7 Cooking Fuel Used

Gas was used by 37 per cent households. Thirty five per cent households used kerosene and 24 per cent used wood/brush-wood. In rural areas, 80 per cent households used wood/brush-wood and 15 per cent households used either gas or kerosene; whereas in urban areas, 39 and 36 per cent households used gas and kerosene respectively.

2.8 Availability of Kitchen, Bathroom and Latrine Facilities

The data on availability of kitchen, bathroom and latrine facilities were collected from urban areas only. Separate kitchens and bathrooms were available in 68 and 73 per cent housing units. Five and seven per cent households were sharing kitchen and bathroom facilities with others. Twenty seven and 20 per cent housing units had no kitchen and bathroom facility. Eighty eight per cent housing units had latrine facility but without flush.

SECTION 3 – MAIN FINDINGS OF 1981 POPULATION CENSUS

3.1 Population Size, Growth and Distribution

The total population of Karachi division was 5,437,984 according to the 1981 Population Census. It increased by 50.8 per cent during the 1972-81 intercensal period (8 years and 5½ months) at an average annual growth rate of 4.96 per cent.

The total area of the division is 3,527 sq. kms., which gives a population density of 1,542 persons per sq. km.

The following table gives intercensal increase in population size since the 1951 Population Census :—

Description	1951	1961	1972	1981
Population	1,137,667	2,044,044	3,606,746	5,437,984
Intercensal increase (per cent)	—	79.7	76.5	50.8
Average annual growth rate (per cent)	—	6.05	5.0	4.96

The urban population was 5,208,132 (i.e. 95.7 per cent) which grew at an average annual growth rate of 4.8 per cent during 1972-81.

There are 84 (excluding one uninhabited) Mauzas in Karachi Division. Thirteen Mauzas had a population of five thousands and above each, 28 had one thousand to five thousands, 36 had two hundreds to one thousand and 6 had less than 200 each.

3.2 Sex, Age and Marital Status Composition

The sex ratio (males per 100 females) was 119 and was same in rural and urban areas.

The population of infants (below 1 year) was 2.5 per cent. The children below 5 and 15 years were 14.4 and 41.5 per cent respectively. The adult population (18 years and above) was 52.2 per cent and the population eligible to vote (21 years and above)

was 43.7 per cent. The women of child-bearing age (15–49 years) were 1,189,538, i.e. 47.9 per cent of the female population. The age-dependency ratio i.e. ratio of population below 15 and above 64 years to population of 15 to 64 years was 78 per cent.

The population of 15 years and above was 3,182,569, out of which 32.9 per cent were never married, 62.1 per cent currently married, 0.2 per cent divorced and 4.8 per cent widowed.

3.3 Literacy and Educational Attainment

The literacy ratio was 55.0 per cent. It was 56.6 per cent in urban and 17.1 per cent in rural areas. The male literacy ratio was 60.0 per cent as compared to 48.8 per cent of females.

The Muslim population of 10 years and above was 3,760,474, out of which 55.6 per cent could read the Holy Quran — 28.9 per cent males and 26.7 per cent females.

The population of 5 years and above was 4,657,030, out of which 23.1 per cent were attending educational institutions. The enrolment ratios for rural and urban areas were 8.0 and 23.7 per cent respectively. For age group 5–19 years, it was 46.0 per cent — 47.3 per cent for males and 44.6 per cent for females. The enrolment ratios for age groups 5–9, 10–14, 15–19 and 20–24 years were 36.6, 59.2, 42.8 and 16.3 per cent respectively.

There were 2,019,842 persons who had passed primary and above levels of education, out of them 35.6, 21.5, 21.6, 9.2, 8.3 and 1.7 per cent had completed primary, middle, Matriculation, inter-mediate, graduation (general education) and post-graduation respectively.

3.4 Civilian Labour Force

The labour force (persons working and looking for work) constituted 25.8 per cent of the total population. The labour force participation rates for urban and rural areas were 25.7 and 29.1 per cent respectively. These rates for males and females were 45.1 and 2.8 per cent respectively.

The un-employment rate was 7.4 per cent — 7.6 per cent in urban and 2.9 per cent in rural areas. The male and female un-employment rates were 7.4 and 8.2 per cent respectively.

The major occupation group was "Production and related workers, transport equipment operators and labourers", which constituted 39.3 per cent of the total labour force. The other important occupation groups were "Sales-workers" and "Clerical and related workers", which were 15.8 and 7.8 per cent respectively of the total labour force.

The major economic activity in the division was "Community, social and personal services", which absorbed 21.7 per cent of the total working population. The other important economic activities were "Manufacturing" and "Whole-sale and retail trade and restaurants and hotels", which employed 19.4 and 19.3 per cent respectively of the total working population.

3.5 Migration

The total in-migrants were 1,728,213 i.e 31.8 per cent of the total population. They were 1.7 per cent in rural and the remaining in urban areas. The male and female in-migrants were 58.9 and 41.2 per cent respectively. The persons who had migrated into the division during the last 5 years i.e. after March, 1976 were 19.5 per cent, while 16.3 per cent had migrated before 5 years but after March, 1971. The remaining 64.2 per cent had migrated 10 years earlier. During the last decade 58,672 persons had gone abroad — 1,208 from rural and the remaining 57,464 from urban areas and at the time of census enumeration they were still residing there.

3.6 Languages Spoken

The common language spoken by 54.3 per cent households is Urdu. Karachi being the biggest commercial and industrial centre of the country has a population representing every part of the country who speak different languages. According to the 1981 Population Census Punjabi was the next language spoken by 13.6 per cent households. Pushto, Sindhi, Baluchi and Hindko were spoken by 8.7, 6.3, 4.4 and 1.0 per cent households respectively. The remaining 11.7 per cent households were speaking other languages.

DEFINITIONS AND CONCEPTS

Urban Areas

All localities which were either metropolitan corporation, municipal corporation, municipal committee, town committee or cantonment at the time of the census, were treated as urban.

Household

A household means a group of persons living together who have collective arrangement for eating. A person living alone was also considered to constitute a household. The distinguishing characteristic of a household is its common cooking arrangement.

Housing Unit

A housing unit means a separate and independent place of abode, inhabited by one household and, if vacant, meant for habitation by one household. It does not necessarily mean a separate building. A building may have one or more housing units. Furthermore, any place not intended for habitation but occupied by a household at the time of census was also treated as a housing unit.

Room

A room is defined as a space in a housing unit having a roof and walls from roof to floor. This includes sleeping, dining, drawing, study, children's and servant's rooms but excludes kitchen, bathroom, latrine, store, balcony, porch and motor garage.

Age

Age is recorded as of the last birthday.

Marital Status

Marital status has been classified into never-married, married, widowed and divorced. Never-married applies to persons who have never been married. Married includes all persons who are at present married and living as husband and wife as well as those married persons living apart but having a living wife/husband. Those couples, whose marriage (Nikah) had been solemnized but giving away ceremony had not taken place, were also treated as married. Widowed applies to a person whose husband or wife was dead but who had not married again. Divorced applies to both divorcer and divorcee, if not remarried.

Religion

Religion is recorded and tabulated as informed by the respondents.

Literate

A person who can read a newspaper and write a simple letter, in any language, is treated as literate.

Field of Education

- (a) *General Education*
It includes educational programmes of primary, middle, matriculation, intermediate and bachelor's degree in arts or science.
- (b) *Technical/Engineering*
It includes engineering educational programmes in the fields of electrical, electronic, industrial, metallurgical, mining, mechanical, agricultural, forestry, chemical, petro-chemical, aviation, nautical, etc. It also includes programmes in survey, drafting and designing, all types of engineering technician programmes, all types of trade, craft and industrial programmes. Architectural and town planning programmes are also included.
- (c) *Medicine/Tib*
It includes educational programmes of medical diagnostic and treatment techniques, medicine and surgery, medical X-ray techniques, dentistry, pharmacy, etc.
- (d) *Health*
It includes educational programmes of public health, nursing, mid-wifery and other health related auxiliary programmes.
- (e) *Commerce/Business Administration*
It includes educational programmes of typing, shorthand, clerical, secretarial, operation of office machines, book keeping, accountancy, electric data processing, business administration, marketing and sales, financial management and investment analysis, public administration, institutional administration, personal administration and other commercial, business and public administration programmes.
- (f) *Teaching*
It includes all educational programmes which enable the teachers to teach all types of subjects to all categories of students. It includes education science programmes.
- (g) *Agriculture/Forestry/Animal Husbandry*
It includes educational programmes of agriculture, forestry and fishing including general agriculture, animal husbandry, horticulture and gardening, crop husbandry, agricultural technology, food sciences and technology, veterinary, medicine, fishery science and technology, etc.
- (h) *Law*
It includes educational programmes in jurisprudence, history of law, international law, labour law and maritime law, and other laws.

Civilian Labour Force

The civilian labour force means persons of 10 years and above age, of either sex, who are working for pay or profit and those not working but looking for work.

The labour force participation rate means the percentage persons in labour force to total population.

In collection of the labour force data "usual status" approach has been adopted as against the approach of labour force surveys, where data is usually collected on "current status" basis.

Occupation

Occupation means the main job, profession, trade or kind/type of work usually performed by a person. In case of more than one occupation, the principal occupation is recorded. The principal occupation is that in which the person works most of the time.

Economic Activity (Industry)

Economic activity/industry means the activity of the organisation, or business in which a person usually works.

Employment Status**(a) Self-employed**

Self-employed is a person who operates his own farm, business, or industry or practices a profession but does not employ any hired help, paid either in cash or kind.

(b) Government employee

A Government employee is a person who works in any government/semi government organisation for pay.

(c) Private employee

A Private employee is a person who works, for pay, for person/farm/shop/firm/organisation/office which is not run or managed by the federal/provincial/local government/autonomous body.

(d) Employer

Employer means a person who operates his own farm, business or industry or practices a profession and who employs one or more persons for the purpose.

(e) Un-paid family helper

Un-paid family helper means a person who works, without pay or profit, on family farm, business or industry.

Migrant Population

The migrant population means those who have moved from one administrative district to another administrative district. It excludes population who have moved within a district.

Disability

Disability refers to the physical and organic handicap of a person due to natural deformity or deficient functioning of any limb resulting from accident, disease, etc. It includes blind, deaf & dumb, crippled, mentally retarded and insane.

PAKISTAN STANDARD CLASSIFICATION OF OCCUPATIONS**Major Group O/1 : Professional, Technical and Related Workers**

<i>Minor group</i>	<i>Title</i>
0-1	Physical scientists and related technicians
0-2/0-3	Architects, engineers and related technicians

2-0	Legislative officials and government administrators
2-1	Managers (including directors, working proprietors)

Major Group 3: Clerical and Related Workers

3-0	Clerical supervisors
3-1	Government executive officials (non-gazetted)
3-2	Stenographers, Typists, and card & tape punching machine operators
3-3	Book-keeper cashier and related workers
3-4	Computing machine operators
3-5	Transport and communications supervisors
3-6	Transport conductors
3-7	Mail distribution clerks and workers
3-8	Tele-communication operators
3-9	Clerical and related workers not elsewhere classified

Major Group 4 : Sales Workers

4-0	Managers (whole-sale and retail trade)
4-1	Working proprietors (whole-sale and retail trade)

- 4-2 Sales supervisors and buyers
- 4-3 Technical salesmen, commercial travellers and manufacturer's agents
- 4-4 Insurance, real estate, securities and business service salesmen and auctioneers
- 4-5 Salesmen, shop assistants and related workers
- 4-9 Sales workers not elsewhere classified (including money-lenders)

Major Group 5 : Service Workers

- 5-0 Managers (catering and lodging services)
- 5-1 Working proprietors (catering and lodging services)
- 5-2 House-keeping and related service supervisors
- 5-3 Cooks, waiters, bartenders and related workers
- 5-4 Maids and related house-keeping service workers not elsewhere classified
- 5-5 Building caretakers, char-workers, cleaners and related workers
- 5-6 Launderers, dry cleaners and pressers
- 5-7 Hairdressers, barbers, beauticians and related workers
- 5-8 Protective service workers
- 5-9 Service workers not elsewhere classified

**Major Group 6 : Agricultural, Animal Husbandry and Forestry Workers,
Fishermen and Hunters**

- 6-0 Farm managers and supervisors
- 6-1 Farmers, agricultural and animal husbandry workers
- 6-3 Forestry workers
- 6-4 Fishermen, hunters and related workers

**Major Group 7/8/9 : Production and Related Workers, Transport Equipment
Operators and Labourers**

- 7-0 Production supervisors and general foremen
- 7-1 Miners, quarrymen, well drillers and related workers
- 7-2 Metal processors
- 7-3 Wood preparation workers and paper makers
- 7-4 Chemical processors and related workers
- 7-5 Spinners, weavers, knitters, dyers and related workers
- 7-6 Tanners, felle-mongers and pelt dressers
- 7-7 Food and beverage processors
- 7-8 Tobacco preparers and tobacco product makers
- 7-9 Tailors, dress makers, sewers, upholsterers and related workers
- 8-0 Shoemakers and Leather goods makers
- 8-1 Cabinet makers and related wood workers
- 8-2 Stone cutters and carvers
- 8-3 Blacksmiths, tool makers and machine tool operators
- 8-4 Machinery fitters, machine assemblers and precision instrument makers
(except electrical)
- 8-5 Electrical fitters and related electrical and electronics workers

- 8-6 Broadcasting station and sound equipment operators and cinema projectionists
- 8-7 Plumbers, welders, sheet metal and structural metal preparers and erectors
- 8-8 Jewellery and precious metal workers
- 8-9 Glass formers, potters and related workers
- 9-0 Rubber and plastics product makers
- 9-1 Paper and paper board products makers
- 9-2 Printers and related workers
- 9-3 Printers
- 9-4 Production and related workers not elsewhere classified
- 9-5 Bricklayers, carpenters and other construction workers
- 9-6 Stationary engines and related equipment operators
- 9-7 Material-handling and related equipment operators, dockers and freight handlers
- 9-8 Transport equipment operators
- 9-9 Labourers not elsewhere classified

Major Group X : Workers not Classifiable by Occupation
