#### Performance Review

The crushing season 2016-17 started as per usual practice on 15th November 2016. The notified price was Rs.182 per 40 Kgs while in Punjab it was Rs.180 per 40 Kgs. Crushing commenced smoothly at the prescribed rates, however, as the season matured prices increased considerably resultantly a decline in crushing was witnessed during the season under review. Unfortunately, the increase in cane price was not reflected in a corresponding increase in sugar price. Summary of the operational performance is set out as below:

|                     |        | 2016-17 | 2015-16 |
|---------------------|--------|---------|---------|
| Crushing duration   | Days   | 138     | 100     |
| Sugarcane crushed   | M.Tons | 425,803 | 499,871 |
| Sugar production    | M.Tons | 41,304  | 54,995  |
| Sugar recovery      | %      | 9.691   | 10.998  |
| Molasses production | M.Tons | 19,468  | 24,960  |
| Molasses recovery   | %      | 4.57    | 4.99    |

Directors who could not attend board meeting due to their preoccupations were granted leave of absence.

#### **Audit Committee**

The Board has constituted an Audit Committee consisting of three members including Chairman of the Committee. The committee regularly meets as per requirement of the code. The committee assists the Board in reviewing internal audit manual and internal audit system. During the year, four audit committee meetings were held and all meetings were attended by all members.

#### **Human Resource and Remuneration Committee**

The Board has constituted a Human Resource and Remuneration Committee consisting of three members including Chairman of the Committee in compliance with Code of Corporate Governance. During the year, four HR &M committee meetings was held and attended by all members.

#### Future prospect

The start of crushing campaign 2017-18 has been relatively uneven. The provincial government announced a support price of Rs. 182 per 40 Kgs. It is not feasible for the millers to crush cane at this support price since the prevailing rate of sugar in the local market is far less than the breakeven price of sugar needed to cover the variable and other fixed costs. Accordingly, PASMA has decided to shut down operations till the resolution of the matter with the growers.

The economic coordination committee of the cabinet (ECC) has decided to allow export of additional 1.5 million metric tons of sugar and cash support of PKR 10.70 / KG to the sugar millers. Furthermore, GOS in order to provide level playing field to the sugar millers of the province of Sindh has approved an additional subsidy of PKR 9.3 / KG on export of surplus sugar. The aggregate subsidy amount on export of sugar is PKR 20 / KG.

The management of the mill is excited to benefit from the scenario as given above. Accordingly, all resources have been mobilized to generate huge volume of export orders on priority basis and much to the content of the management sufficient confirm export orders are already in hand. ECC on conclusion of the season 2017-18 will sit again in April 2018 to identify the surplus stock of sugar and allow a onetime additional export policy, there after export subsidy willbecome a provincial matter.

In the backdrop of preceding paras your management anticipate a turnaround of the sugar industry and accordingly have mobilized all the resources at its disposal to generate huge volumes during the ongoing and upcoming seasons over the next 5 years.

#### Acknowledgement

We express our sincerest appreciation to our employees for their dedication and hard work and to our clients, business partners and shareholders for the support and confidence. The board also take this opportunity to express its gratitude to all the employees of Ansari Sugar Mill Limited for their untiring efforts.

On behalf of the Board of Directors

## REVIEW REPORT TO THE MEMBERS ON STATEMENT OF COMPLIANCE WITH CODE OF CORPORATE GOVERNANCE

We have reviewed the Statement of Compliance with the best practices contained in the Code of Corporate Governance (the "code") prepared by the Board of Directors of Ansari Sugar Mills Limited (the "Company") for the year ended September 30, 2017 to comply with the requirements of Listing Regulations No. 5.19 of the Pakistan Stock Exchange where the Company is listed.

The responsibility for compliance with the Code is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance, reflects the status of the Company's compliance with the provisions of the Code and report if it does not and to highlight any non-compliance with the requirements of the Code. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Code.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Code requires the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the best practices contained in the Code as applicable to the Company for the year ended September 30, 2017.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2017

#### 1 STATUS AND NATURE OF BUSINESS

Ansari Sugar Mills Limited (the Company) was incorporated in Pakistan on July 09, 1989 as a Public Limited Company and its shares are quoted in Pakistan Stock Exchanges. The principal business of the Company is manufacture and sale of white sugar. The registered office of the Company is situated Taluka Tando Mohammad Khan, District Hyderabad, Sindh.

#### 2 BASIS OF PREPARATION

#### 2.1 Statement of compliance

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by International Accounting Standard Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984. In case requirements differ, the provisions or directives of the Companies Ordinance, 1984 shall prevail.

#### 2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except for the land, factory buildings and plant and machinery stated at revalued amounts less accumulated depreciation and impairment losses, if any, certain staff retirement benefits stated at present value and long term investments and certain long term finances stated at amortised cost.

#### 2.3 Functional and presentation currency

These financial statements are presented in Pakistan Rupee which is also the Company's functional currency and figures are rounded off to nearest Rupee except stated otherwise.

#### 2.4 Significant accounting estimates and judgments

The preparation of financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise judgment, estimates and assumptions in the process of applying accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on going basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In the process of applying the Company's accounting policies, management has made the following estimates and judgments, which are significant to the financial statements:

- Useful lives of property, plant and equipment (note: 5)
- Provision against doubtful debts (note: 12)

| Amendments to IAS 27 'Separate Financial Statements' - Equity method in separate financial statements.   | January 1, 2016  |
| Other than the aforesaid standards, interpretations and amendments, the International  | Accounting Standards   |

Other than the aforesaid standards, interpretations and amendments, the International Accounting Standards Board (IASB) has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan:

- IFRS 1 First Time Adoption of International Financial Reporting Standards.
- · IFRS 9 Financial Instruments.
- IFRS 14 Regulatory Deferral Accounts.
- IFRS 15 Revenue from Contracts with Customers.
- IFRS 16 Leases.

## 3.3 Standards, amendments and interpretations that are not yet effective and have been early adopted by the Company.

TR - 32 "Accounting Director's loan" issued by ICAP on January 25, 2016 and applicable for financial statements for the period beginning on or after 1 January 2016 has been earlier adopted by the Company. Resultantly, the loan to an entity which is agreed to be paid at the discretion of the entity does not pass the test of liability and is to be recorded as equity at face value. This is not subsequently re-measured.

The decision by the entity at any time in future to deliver cash or any other financial asset to settle the director's loan would be a direct debit to equity.

#### 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### 4.1 Employees benefits

#### Defined benefit plan

The Company operates unfunded gratuity scheme for all its permanent employees. Provisions are made in the financial statements to cover obligations on the basis of actuarial valuation carried out every second year under the Projected Unit Credit method. The latest valuation was carried out at September 30, 2016. The year in which actuarial valuation is not carried out, provision is made for expected charge calculated by the actuary in the year in which valuation is carried out. All actuarial gains and losses are recognized in full in the period in which they occur in other comprehensive income. All the past service costs are recognized at the earlier of when the amendment or curtailment occurs and when the Company has recognized related restructuring or termination benefits.

#### Defined contribution plan

There is an approved funded contributory provident fund for all permanent employees. Equal monthly contributions are made by the Company and employees to the fund in accordance with the fund rules. Contributions are made by the employees at the rate of 10% of the basic salary. Retirement benefits are payable to staff on completion of prescribed qualifying period of service under these rules.

#### 4.3 Taxation

Income tax expense comprises current and deferred tax.

#### Current

Provision for current taxation is based on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year if enacted after taking into account tax credits, rebates and exemptions, if any. The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in previous years arising from assessments framed during the year for such years.

#### Deferred

Deferred tax is accounted for using the balance sheet liability method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Deferred tax is calculated at the rates that are expected to apply to the periods when the differences reverse based on tax rates that have been enacted or substantially enacted by the balance sheet date. Deferred tax is charged or credited in the profit and loss account, except in the case of items credited or charged to equity in which case it is included in the equity.

#### 4.4 Property, plant and equipment

These are stated at cost less accumulated depreciation and accumulated impairment losses, if any, except for freehold land, factory building, non factory building and plant and machinery which are stated at revalued amount less accumulated depreciation.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Major repairs and improvements are capitalized. All other repair and maintenance costs are charged to income during the period in which they are incurred.

The Company assesses at each balance sheet date that whether there is any indication that property, plant and equipment may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in income currently. The recoverable amount is the higher of an asset's fair value less cost to sell and value in use. Where an impairment loss is recognized, the depreciation charge is adjusted in the future periods to allocate the asset's revised carrying amount over its estimated useful life.

Depreciation is charged to income on reducing balance method so as to write off the written down value of assets over their estimated useful lives at rates disclosed in note 5. Depreciation on additions is charged from the quarter in which the assets become available for use while on disposals depreciation is charged upto the quarter of deletion.

Increases in the carrying amount arising on revaluation of fixed assets are credited to surplus on revaluation of fixed assets. Decreases that offset previous increases of the same assets are charged against this surplus, all other decreases are charged to income. Each year the difference between depreciation based on revalued carrying amount of the asset (the depreciation charged to the income) and depreciation based on the assets' original cost is transferred from surplus on revaluation of fixed assets to unappropriated profit. All transfers to/from surplus on revaluation of fixed assets are net of applicable deferred taxation.

Depreciation methods, residual values and useful lives of assets are reviewed at the end of each financial year, and adjusted if impact on depreciation is significant. During the year, the company has changed the method of depreciation on plant and machinery from reducing balance method to production unit method which has been applied prospectively as per the requirements of IAS 8.

Gains/ losses on disposal of property, plant and equipment are included in the income currently.

#### 4.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying capital asset under construction are capitalized and added to the project cost until such time the assets are substantially ready for their intended use, i.e., when they are capable of commercial production. All other borrowing costs are recognized as an expense in the income statement in the period in which they are incurred.

#### 4.6 Stores, spares and loose tools

These are valued at lower of cost and net realizable value except for items in transit, which are valued at cost comprising invoice value and related expenses incurred thereon up to the balance sheet date, cost is calculated on First In First Out (FIFO) basis. Obsolete and used stores, spares and loose tools are recorded at nil value.

#### 4.7 Stock-in-trade

The basis of valuation has been specified against each.

Net realizable value

Net realizable value

Provision for obsolete and slow moving stock are made as and when required. Net realizable value signifies the estimated selling price in the ordinary course of business and cost necessary to be included in order to make the sale.

#### 4.8 Trade debts

Trade debts are carried at original invoice amount less an estimate made for doubtful debts based on a review of all outstanding amounts at the year end. Bad debts are written off when identified.

#### 4.9 Revenue recognition

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable. Revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer.

Financial income is recognized as it accrues, using the effective mark up rates.

#### 4.10 Foreign currency transactions

All monetary assets and liabilities in foreign currencies are translated into rupees at the exchange rate prevailing on the balance sheet date. Transactions in foreign currencies are translated into rupees at the spot rate. All non-monetary items are translated into rupees at exchange rates prevailing on the date of transactions or on the date when fair values are determined. Exchange differences are included in the income currently.

#### 4.11 Provisions

Provisions are recognized when the Company has a present, legal or constructive obligation as a result of past event and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

#### 4.12 Impairment

The carrying amounts of the assets are reviewed at each balance sheet date to determine whether there is any indication of impairment of any asset or a group of assets. If any such indication exists, the recoverable amount of that asset is estimated and impairment losses are recognized in the profit and loss account.

### 4.13 Related party transactions

All transactions between the Company and related party are recorded at arm's length. Prices are determined in accordance with comparable uncontrolled price method, except for the allocation of expenses such as electricity, gas, water, repair and maintenance that are shared with the associated companies based on actual.

#### 4.14 Investments

### Held to maturity investments

When the Company has the positive intent and ability to hold debt securities to maturity, then such investments are classified as held to maturity. Held to maturity investments are recognised initially at fair value plus any directly attributable direct cost. Subsequent to initial recognition held to maturity investments are measured at amortized cost using the effective interest rate method, less any impairment losses.

### 4.15 Financial Instruments

#### Financial assets

Significant financial assets include investments, advances, receivables and cash & bank balances. Loans and receivables from clients are stated at their nominal value as reduced by provision for doubtful loans and receivables, investments are stated at amortised cost while other financial assets are stated at cost.

### Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Significant financial liabilities include short term and long term finances, interest accrued and trade and other payables. Certain long term finances are carried at amortised cost while other liabilities are stated at their nominal value.

### Recognition and derecognition

All the financial assets and liabilities are recognised at the time when the Company becomes party to the contractual provisions of the instrument. Financial assets are derecognized when the Company looses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognized when they are extinguished i.e. when the obligation specified in the contract is discharged or cancelled. Any gain or loss on derecognition of the financial assets and financial liabilities is taken to income.

## 4.16 Off setting of financial assets and liabilities

Financial assets and financial liabilities are only off-set and the net amount is reported in the financial statements when there is a legally enforceable right to off-set the recognized amounts and the Company intends to either settle on net basis or to realize the assets and settle the liability simultaneously.

## 4.17 Cash and cash equivalents

Cash and cash equivalents are carried at cost in the balance sheet. For the purpose of the cash flow statement, cash and cash equivalents comprises cash in hand and bank balances.

### 4.18 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in future for goods and services received.

## 4.19 Dividends

Dividend distribution to the shareholders is recognized as a liability in the period in which the dividends are approved.

### 4.20 Intangible asset and amortization

Intangible asset represents the cost of computer software acquired and is stated at cost less accumulated amortization and any identified impairment loss.

Amortization is charged to income on the straight line basis so as to write off the cost of an asset over its estimated useful life. Amortization on additions is charged from the quarter in which an asset is acquired or capitalized while no amortization is charged for the quarter in which the asset is disposed off. Amortization is being charged as specified in note 6.

## 19 PROVISION FOR QUALITY PREMIUM

This represents the amount of Quality Premium up to the years 2003-2004. The Federal Government in its steering meeting held on July 16, 2007 suspended the quality premium till decision of the Honorable Supreme Court of Pakistan/consensus on uniform formula is developed in the Ministry of Food and Agriculture.

The matter of quality premium has been declared unlawful by the Lahcre High Court while appeal against the conflicting judgment of the Sindh High Court is pending with the Honorable Supreme Court of Pakistan since the year 2004 after it granted leave to defend on the question of issue of quality premium. The Apex court also ordered that no coercive action for recovery of quality premium shall be taken against the mills till the case is decided. The Company has made the provision of the quality premium up to the year 2004. However with respect to quality premium for the year ranging within 2004 to 2007 the Company has adjusted subsidies paid above minimum cane price level against quality premium to the growers. The Company has no liability for the period 2007-03 due to recovery rate is less than the threshold of quality premium.

### 23 CONTINGENCIES AND COMMITMENTS

### 23.1 Contingencies

- 23.1.1 Excise duty rebate on excess production during the crushing season 1992-93 over the previous three years average production amounting to Rs. 11.969 million refunded by the department had been claimed back by the Collector of Customs and Central Excise on the ground that the amount was erroneously refunded. The Company has filed appeal before the High Court against the decision of the Sales Tax Appellate Tribunal Karachi. No provision has been made in accounts as in view of legal advisor the Company expects a favorable outcome.
- 23.1.2 Excise duty rebate on excess production during the crushing season 1993-94 over the previous three years average production amounting to Rs. 22.40 million refunded by the department had been claimed back by the Collector of Customs and Central Excise on the ground that the amount was erroneously refunded. The Sales Tax Appellate Tribunal decided the case in favor of Company vide its order dated 20-10-2003. Against the said order the department has filed appeal before the High Court. The Company expects a favorable outcome of the case in view of legal advisor, hence no provision has been made in these financial statements.
- 23.1.3 The Company is contesting an order passed by the Deputy Commissioner Inland Revenue (DCIR) raising demand of Rs. 12.971 million on account of short payment of SED by the Company during the period from October 2007 to March 2011. The Company preferred an appeal before the Commissioner inland Revenue (Appeals) against the order who passed a favorable order dated 10 January 2013. However, the department filed an appeal before the Appellate Tribunal Inland Revenue against the order. Meanwhile, the Honourable High Court of Sindh declared the Special Excise Duty as void-abinitio and of no legal effect. However, The Department has filed an appeal before Honourable Supreme Court of Pakistan against the decision of Honourable High Court of Sindh. The Company has made no provision as in view of its legal counsel the Company has a case on merit which is expected to be decided favourably.
- 23.1.4 The Company is contesting a case relating to additional sales tax amounting to Rs. 10.364 million on account of in house consumption of baggase as fuel for production during season 1996-97. The matter was under appeal at the Sales Tax Appellate Tribunal which passed an unfavorable order dated 22-05-2004. The other bench of the Tribunal had however remanded back similar case of other mills to the department to consider afresh the valuation aspect of baggase and exemption offered by the government for additional taxes and penalties on discharging only the principal sales tax liability in installments by the mills. The Company has preferred an appeal before the High Court against the order and has made no provision as in view of its legal council the Company has a case on merit which is expected to be decided favorably.
- 23.1.5 The Company is also contesting order passed by the Collector of sales tax raising demands of Rs.11.229 million by virtue of audit conducted by the sales tax auditors of the audit period 2003 to 2005. Against the above order, the Company preferred appeal before the Sales Tax Appellate Tribunal which resultantly set aside the order and remanded the instant case to Commissioner Inland Revenue with direction to hold fresh appellate proceeding against the set order. The matter was also being examined by Alternative Dispute Resolution Committee (ADRC). The Company made a payment of Rs. 0.771 million in this regard and recorded as asset. However, during the year the appeal has been disposed off in favour of the Company by the Commissioner Inland Revenue. The management has decided to charge the amount recorded as asset to profit and loss account as the management is of the view that the same will not be recoverable. No further provision has been made in this regard.
- 23.1.6 The Company is defending the case of further tax amounting to Rs. 31.181 million under the Sales Tax Act, 1990 pending adjudication before the High Court of Sindh. Earlier, the High Court maintained the favourable order of the Sales Tax Appellate Tribunal, Karachi wherein it was decided that the taxpayer companies were not required to charge impugned further tax. Upon the appeal of Collector of sales tax, the Honourable Supreme Court of Pakistan has remanded the case back to the High Court. The Company has paid a sum of Rs. 6.97 million in the same case in respect of further tax of Rs. 6.45 million and additional tax of Rs. 0.517 million under protest and recorded it as an asset in the financial statements. The Company expects that the High Court will maintain its previous favourable order, hence it does not expect any liability to be materialised and no provision is made in these financial statements.
- 23.1.7 As discussed in note 20.1, the Company has adjusted the quality premium against the subsidies paid above minimum cane price level for the year ranging from 2004 to 2007 to the growers. The Company has no liability for the period 2007-08 to 2011-12 due to recovery rate is less than the threshold of quality premium. However, for the season 2012-13 and 2013-14, as a matter of prudence the Company has not made any provision for quality premium amounting to Rs. 20.76 million (2015: Rs. 20.76 million).

## 35 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to the following risks from its use of financial Instruments:

- Credit risk
- Liquidity risk
- Market risk

The board of directors has the overall responsibility for the establishment and oversight of Company's risk management framework. The Board is also responsible for developing and monitoring the Company's risk management policies.

This note presents the information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to react changes in market conditions and the Company's activities.

### 35.1 Credit risk

Credit risk is the risk which arises with possibility that one party to financial instrument will fail to discharge its obligations and cause the other party to incur financial loss. The Company attempts to control credit risk by monitoring credit exposures, limiting transaction with specific counterparties and continually assessing the credit worthiness of counterparties.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions, Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

The Company is exposed to credit risk on long term investment, loans, advances, deposits, trade debts and other bank balances. The Company seeks to minimize the credit risk exposure through exposures only to customers considered credit worthy and obtaining securities where applicable. The maximum exposure to credit risk at the reporting date is as follows:

### 35.2 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. For this purpose the Company has sufficient running finance facilities available from commercial banks to meet its liquidity requirements. Further liquidity position of the Company is closely monitored through budgets, cash flow projections and comparison with actual results by the board.

Following is the maturity analysis of financial liabilities:

#### 35.3 Market risk

Market risk is a risk that the fair value of future cash flows of financial instruments will fluctuate because of changes in market prices such as foreign exchange rates, interest rates and equity price risks. The objective of market risk management is to manage and control market risk exposures within an acceptable range.

#### 35.3.1 Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is not exposed to any foreign currency risk, as the Company does not have any outstanding foreign currency balances.

#### 35.3.2 Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rate relates primarily to the Company's long term and short term loan facilities.

At the reporting date, the interest rate profile of the company's interest bearing financial instruments was as follows:

|                       | 2 0 1 7<br>Effective                | 2016<br>e Rate (%)                  | 2017Rupe      | 2016          |

## Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points (1%) in interest rates at the reporting date would have changed the Company's profit before tax for the year by the amount shown below, with all other variable held constant.

|                                      |   | 2017       | 2016       |
|--------------------------------------|---|------------|------------|
| Change in interest rates             | ± | 1%         | 1%         |
| Effect on Profit before tax (Rupees) | 土 | 49.935.441 | 40.064.262 |

The Company does not account for any fixed rate assets and liabilities at fair value through profit and loss. Therefore a change in interest rate at the reporting date would not affect the carrying value of any of Company's assets or liabilities.

### 35.4 Fair value of financial instruments

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arms length transaction. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Fair value of all financial assets and financial liabilities are estimated to approximate their respective carrying amount.

### 35.5 Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain a strong capital base. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, issue new shares and take other measures commensuration to the circumstances. The Company finances its expansions projects through equity, borrowings and management of its working capital with a view to maintaining an appropriate mix between various sources of finance to minimize risk.

The Company monitors capital using a gearing ratio, which is net debt divided by total shareholders equity and sponsors loan plus net debt. Net debt is calculated as total loans and borrowings including any finance cost thereon, less cash and bank balances. The Company's strategy was to maintain leveraged gearing.

The Company is not subject to externally imposed capital requirements.
