## COMPANY PROFILE

*The Company was incorporated on 18 November 1984 as a private limited company in Pakistan and subsequently converted into a public limited company on 30 December 1987. The shares of the Company are listed on Pakistan Stock Exchange (formerly they were listed on all Stock Exchanges of Pakistan) with effect from 27 June 1995. The principal activity of the Company is manufacturing and sale of Plastic and Crown Caps, PET Resin, PET Preform and BOPET Resin. The registered office of the Company is situated in Karachi.*

*Due to continuing depressed polyester staple fibre market situation, the Board has decided to convert existing fibre manufacturing plant into PET resin manufacturing plant by making necessary modifications*

*and addition in existing plant. PET resin manufacturing facility has started its commercial production in October 2016*

*The commencement of PET Resin manufacturing would enable the Company to go further downstream in packaging industry and provide complete one window solution to beverage industry customers which has shown continuous growth in double figure over years. The Company is now poised to participate in growing needs of beverage consumption by playing an integral role by being a priority one-window supplier to multinational bottlers and local brand owners in Pakistan.*

## PRODUCT INFORMATION

### Plastic and Crown Caps

*The role of caps and closure is to seal and preserve the product inside each bottle. Pakistan Synthetics Limited (PSL) provides bottlers capping solutions that provide secure sealing, safe opening, consistent and consumer friendly removal torques, effective tamper evidence and application optimization. PSL understands how important excellent application performance and line efficiency are for bottlers. The caps by PSL reflect the bottler's individual brand identity; we have a wide range of colors and offer customized printing while fully maintaining product integrity and safety.*

### PET Resin and PET Preform

*Polyethylene terephthalate (PET) is the most common thermoplastic polymer resin of the polyester family. Because PET is an excellent water and moisture barrier material, plastic bottles made from PET are used for soft drinks, still water, edible oil industry and pharmaceutical sector. The convenience attached with plastic packaging is paramount in increasing the consumption of PET in Pakistan.*

## DIRECTORS' REPORT

### **RIGHT ISSUE**

During the year, the Company has issued 50 right shares for every 100 shares held i.e. 50% at a right price of Rs. 18 per share (including a premium of Rs. 8 per share). These shares were allotted on December 17, 2019.

### **PRINCIPAL RISKS AND UNCERTAINTIES**

The Company is exposed to certain inherent risks and uncertainties. However, we consider the following as key risks:

- Adverse movement in foreign exchange rates and commodity prices
- Adverse movement in industrial utilities pricing
- Adverse movement in policy rate of State Bank of Pakistan

### **BUSINESS OVERVIEW AND FUTURE OUTLOOK**

Financial Year 2020 proved to be yet another challenging year for your Company in particular and for global corporates in general. Amidst a global pandemic, International markets have witnessed steepest decline in PET Resin pricing where prices fall from USD 1000/MT in the beginning of financial year to around USD 650/MT in June 2020. Such steep decline has resulted in massive inventory loss thereby deteriorating gross profit margins. The Company has reacted proactively during the time of crisis and has taken necessary steps to minimize its impact. Going forward, the market is expected to slowly recover as global lockdowns ease resulting in renewed demand. However, international PET Resin prices may come under pressure from a possible second wave of the COVID-19.

On domestic front, the Federal and Provincial government in Pakistan responded well to the pandemic and has taken necessary measures to control impact of COVID-19. Further, State Bank of Pakistan has also responded well by curtailing policy rate to 7% to provide much needed breathing space to industry. With lock down easing and declining cases of COVID-19 in Pakistan, domestic demand is expected to recover. Hence, we remain optimistic for future.

### **WEBSITE**

All our stakeholders and general public can visit the Company's website, [www.pslpet.com](http://www.pslpet.com), which has a designated section for investors containing relevant information.

### **SUBSEQUENT EVENT**

The Directors report that no material change or commitment has taken place, other than those disclosed which has affected the financial position of the company from the end of the financial year up to the date of this report.

### کاروباری جائزہ اور مستقبل کی صورت حال

مالی سال 2020 کو خاص طور آپ کی کمپنی اور عام طور پر عالمی کارپوریٹس کے لیے ایک اور مشکل سال کے طور پر دیکھا۔ عالمی وبائی بیماری کے درمیان ، بین الاقوامی منڈیوں میں پیٹ ریزن کی قیمتوں میں انتہائی تیزی سے کمی دیکھنے میں آئی ہے جہاں مالی سال کے آغاز میں قیمتیں MT / 1000 سے جون 2020 میں 650 امریکی ڈالر / MT کے قریب ہیں۔ اس قدر تیزی سے گراؤ کے نتیجے میں بڑے پیمانے پر انویٹری نقصان ہوا جس کے نتیجے میں مجموعی منافع کا مارجن بگڑ گیا۔ کمپنی نے بحران کے وقت فعال رد عمل کا اظہار کیا ہے اور اس کے اثرات کو کم سے کم کرنے کے لئے ضروری اقدامات اٹھائے ہیں۔ مستقبل میں مارکیٹ کے آہستہ آہستہ صحت یاب ہونے کی توقع کی جارہی ہے کیونکہ عالمی سطح پر لاک ڈاؤن میں کمی کے نتیجے میں نئی طلب حاصل ہوگی۔ تاہم ، پیٹ ریزن کی بین الاقوامی قیمت COVID-19 کی دوسری لہر کے دباؤ میں آسکتی ہیں۔

گھریلو محاذ پر پاکستان میں وفاقی اور صوبائی حکومت نے وبائی مرض سے نمٹنے کے لئے عمدہ رد عمل ظاہر کیا ہے اور COVID-19 کے اثرات پر قابو پانے کے لئے ضروری اقدامات اٹھائے ہیں۔ مزید یہ کہ اسٹیٹ بینک آف پاکستان نے بھی صنعتوں کو سمنبھالنے کے لئے پالیسی کی شرح کو 7% پر کم کر کے اچھا رد عمل ظاہر کیا ہے۔ پاکستان میں COVID-19 کے لاک ڈاؤن میں آسانی اور کمی واقعات کے بعد ، گھریلو مانگ کی بحالی متوقع ہے۔ لہذا ، ہم مستقبل کے لئے پر امید ہیں۔

## **INDEPENDENT AUDITOR'S REVIEW REPORT**

**To the members of Pakistan Synthetics Limited**

**Review Report on the Statement of Compliance contained in Listed Companies  
(Code of Corporate Governance) Regulations, 2019**

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of **Pakistan Synthetics Limited** (the Company) for the year ended 30 June 2020 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended 30 June 2020.

## **INDEPENDENT AUDITOR'S REPORT**

**To the members of Pakistan Synthetics Limited**

**Report on the Audit of the Financial Statements**

### **Opinion**

We have audited the annexed financial statements of **Pakistan Synthetics Limited** (the Company), which comprise the statement of financial position as at 30 June 2020, and the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 30 June 2020 and of the loss and other comprehensive income, the changes in equity and its cash flows for the year then ended.

### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a

**Information Other than the Financial Statements and Auditors’ Report Thereon**

Management is responsible for the other information. The other information comprises the information included in the Company’s Annual Report for 30 June 2020 but does not include the financial statements and our auditors’ report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, then we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of Management and Board of Directors for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in

## KPMG Taseer Hadi & Co.

Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

## KPMG Taseer Hadi & Co.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);

KPMG Taseer Hadi & Co.

- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditor's report is **Mohammad Mahmood Hussain**.

## Notes to the Financial Statements

FOR THE YEAR ENDED 30 JUNE 2020

### 1. STATUS AND NATURE OF BUSINESS

*Pakistan Synthetics Limited (the Company) was incorporated on 18 November 1984 as a private limited company in Pakistan and subsequently converted into a public limited company on 30 December 1987. The shares of the Company are listed on Pakistan Stock Exchange with effect from 27 June 1995. The principal activity of the Company is manufacturing and sale of Plastic Caps and Crown Caps, PET resin and BOPET resin. The registered office of the Company is situated at 3rd floor, K.D.L.B, building 58 West Wharf, Karachi.*

*Further, PET preform manufacturing plant of the Company commenced commercial production on 16 May, 2018.*

*The manufacturing facility of the Company is situated at F-1,2,3 and 13,14 & 15, Hub Industrial Trading Estate, District Lasbella Balochistan and Plot No. A-5, N.W.I.Z, Port Qasim Authority, Karachi having sales offices located at Karachi.*

### 2. IMPACT OF COVID-19 ON THE FINANCIAL STATEMENTS

*A novel strain of coronavirus (COVID-19) that first surfaced in China was classified as a pandemic by the World Health Organization on 11 March 2020, impacting countries globally including Pakistan. Government of Pakistan has taken certain measures to reduce the spread of the COVID-19 including lockdown of businesses, suspension of flight operations, intercity movements, cancellation of major events etc. These measures have resulted in an overall economic slowdown, disruptions to various business and significant volatility in the Pakistan Stock Exchange (PSX). From March 2020 onwards till 30 June 2020 the Company was conducting business with some modifications to employee working and cancellation of certain events, among other modifications while following all necessary Standard Operating Procedures (SOPs). Subsequent to year end the situation has gradually improved in Pakistan. The Company will continue to actively monitor the situation and may take further actions as may be required by federal, provincial or local authorities or that are in the best interests of our employees, customers, partners, suppliers and stockholders. However, the management based on its assessment considers that there would be no significant impact that will adversely affect the Company's businesses, results of operations and financial condition in future period.*

### 3. BASIS OF PREPARATION

#### 3.1 Statement of compliance

*These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards as applicable in Pakistan comprise of:*

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;*
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and*
- Provisions of and directives issued under the Companies Act 2017.*

*Where provisions of and directives issued under the Companies Act 2017 differ from IFRS Standards or IFAS, the provisions of and directives issued under the Companies Act 2017 have been followed.*

## 3.2 Basis of measurement

*These financial statements have been prepared under the historical cost convention except as stated otherwise.*

## 3.3 Functional and presentation currency

*These financial statements are presented in Pakistan Rupees which is Company's functional currency. All financial information presented in Pakistan Rupees has been rounded to the nearest thousand, unless otherwise stated.*

## 3.4 Use of estimates and judgments

*In preparing these financial statements, management has made judgment, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to estimates are recognized prospectively. Information about judgments made in applying accounting policies that have the most significant effects on the amount recognized in the financial statements to the carrying amount of the assets and liabilities and assumptions and estimation uncertainties that have a significant risk resulting in a material adjustment in the subsequent year are set forth below:*

- i) Employee benefits (refer note 5.1)*
- ii) Income taxes (refer note 5.3)*
- iii) Property, plant and equipment (refer note 5.4)*
- iv) Intangible assets (refer note 5.5)*
- v) Stores and spares (refer note 5.6)*
- vi) Stock in trade (refer note 5.7)*
- vii) Impairment (refer note 5.2.1.7 and 5.8)*
- viii) Provisions (refer note 5.11)*

## 3.5 Standards, interpretations and amendments to published approved accounting standards that are not yet effective:

*The following International Financial Reporting Standards (IFRS Standards) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective for accounting periods beginning on or after 01 July 2020:*

- Amendment to IFRS 3 'Business Combinations' - Definition of a Business (effective for business combinations for which the acquisition date is on or after the beginning of annual period beginning on or after 1 January 2020). The IASB has issued amendments aiming to resolve the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The amendments clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments include an election to use a concentration test. The standard is effective for transactions in the future and therefore would not have an impact on past financial statements.*

---

# Pakistan Synthetics Limited

- *Amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors (effective for annual periods beginning on or after 1 January 2020). The amendments are intended to make the definition of material in IAS 1 easier to understand and are not intended to alter the underlying concept of materiality in IFRS Standards. In addition, the IASB has also issued guidance on how to make materiality judgments when preparing their general purpose financial statements in accordance with IFRS Standards.*
- *On 29 March 2018, the International Accounting Standards Board (the IASB) has issued a revised Conceptual Framework for Financial Reporting which is applicable immediately contains changes that will set a new direction for IFRS in the future. The Conceptual Framework primarily serves as a tool for the IASB to develop standards and to assist the IFRS Interpretations Committee in interpreting them. It does not override the requirements of individual IFRSs and any inconsistencies with the revised Framework will be subject to the usual due process - this means that the overall impact on standard setting may take some time to crystallize. The Companies may use the Framework as a reference for selecting their accounting policies in the absence of specific IFRS requirements. In these cases, companies should review those policies and apply the new guidance retrospectively as of 1 January 2020, unless the new guidance contains specific scope outs.*
- *Interest Rate Benchmark Reform which amended IFRS 9, IAS 39 and IFRS 7 is applicable for annual financial periods beginning on or after 1 January 2020. The G20 asked the Financial Stability Board (FSB) to undertake a fundamental review of major interest rate benchmarks. Following the review, the FSB published a report setting out its recommended reforms of some major interest rate benchmarks such as IBORs. Public authorities in many jurisdictions have since taken steps to implement those recommendations. This has in turn led to uncertainty about the long-term viability of some interest rate benchmarks. In these amendments, the term 'interest rate benchmark reform' refers to the market-wide reform of an interest rate benchmark including its replacement with an alternative benchmark rate, such as that resulting from the FSB's recommendations set out in its July 2014 report 'Reforming Major Interest Rate Benchmarks' (the reform). The amendments made provide relief from the potential effects of the uncertainty caused by the reform. A company shall apply the exceptions to all hedging relationships directly affected by interest rate benchmark reform. The amendments are not likely to affect the financial statements of the Company.*
- *Amendments to IFRS-16 - IASB has issued amendments to IFRS 16 (the amendments) to provide practical relief for lessees in accounting for rent concessions. The amendments are effective for periods beginning on or after 1 June 2020, with earlier application permitted. Under the standard's previous requirements, lessees assess whether rent concessions are lease modifications and, if so, apply the specific guidance on accounting for lease modifications. This generally involves remeasuring the lease liability using the revised lease payments and a revised discount rate. In light of the effects of the COVID-19 pandemic, and the fact that many lessees are applying the standard for the first time in their financial statements, the Board has provided an optional practical expedient for lessees. Under the practical expedient, lessees are not required to assess whether eligible rent concessions are lease modifications, and instead are permitted to account for them as if they were not lease modifications. Rent concessions are eligible for the practical expedient if they occur as a direct consequence of the COVID-19 pandemic and if all the following criteria are met:*

# Pakistan Synthetics Limited

- *the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;*
- *any reduction in lease payments affects only payments originally due on or before 30 June 2021; and*
- *there is no substantive change to the other terms and conditions of the lease.*
- *Classification of liabilities as current or non-current (Amendments to IAS 1) effective for the annual period beginning on or after 1 January 2022. These amendments in the standards have been added to further clarify when a liability is classified as current. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entity's right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity shall apply those amendments retrospectively in accordance with IAS 8.*
- *Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37) effective for the annual period beginning on or after 1 January 2022 amends IAS 1 by mainly adding paragraphs which clarifies what comprise the cost of fulfilling a contract. Cost of fulfilling a contract is relevant when determining whether a contract is onerous. An entity is required to apply the amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). Restatement of comparative information is not required, instead the amendments require an entity to recognise the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate, at the date of initial application.*
- *Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16) effective for the annual period beginning on or after 1 January 2022, clarifies that sales proceeds and cost of items produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management e.g. when testing etc., are recognised in profit or loss in accordance with applicable Standards. The entity measures the cost of those items applying the measurement requirements of IAS 2. The standard also removes the requirement of deducting the net sales proceeds from cost of testing. An entity shall apply those amendments retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. The entity shall recognise the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented.*

## *Annual Improvements to IFRS standards 2018-2020:*

*The following annual improvements to IFRS standards 2018-2020 are effective for annual reporting periods beginning on or after 1 January 2022.*

- *IFRS 9 – The amendment clarifies that an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf, when it applies the '10 per cent' test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognise a financial liability.*
- *IFRS 16 – The amendment partially amends Illustrative Example 13 accompanying IFRS 16 by excluding the illustration of reimbursement of leasehold improvements by the lessor. The objective of the amendment is to resolve any potential confusion that might arise in lease incentives.*
- *IAS 41 – The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique.*

## 4. CHANGE IN ACCOUNTING POLICY

The Company has adopted IFRS 16 'Leases' from 01 July 2019 which is effective for annual periods beginning on or after 01 January 2019 and the key changes to the Company's accounting policies resulting from adoption of IFRS 16 are summarized below:

### 4.1 IFRS 16 'Leases'

International Accounting Standards Board (IASB) introduced IFRS 16 'Leases' which had a mandatory effective date for annual reporting periods beginning on or after 1 January 2019. By virtue of SRO 434(I)/2018, SECP made mandatory for all classes of companies to adopt IFRS 16 'Leases' for annual reporting periods beginning on or after 1 January 2019.

The Company has adopted IFRS 16 'Leases' from 1 July 2019. The impact of adoption of IFRS 16 and related accounting policies are disclosed in this note below. A number of other new standards are effective from 1 July 2019 but they do not have a significant effect on the Company and are therefore not stated in these financial statements.

The Company has applied IFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at 1 July 2019. Accordingly, the comparative information presented for FY 2019 has not been restated - i.e. it is presented, as previously reported, under IAS 17 and related interpretations. The details of the change in accounting policies are discussed below.

The Company has various lease agreements for head office, area offices and factory which were previously classified by the Company based on its assessment of whether the lease transferred substantially all of the risks and rewards of ownership. Under IFRS 16, the Company recognises right-of-use assets and lease liabilities for all the leases - i.e. these leases are on statement of financial position.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The lease liabilities are measured as the present value of remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 July 2019. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on 1 July 2019 is 14.57%.

Lease liabilities include the net present value of the following lease payments:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payment that are based on an index or a rate;
- Amounts expected to be payable by the lessee under residual value guarantees;
- The exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

# Pakistan Synthetics Limited

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising the following:

- The amount of the initial measurement of lease liability;
- Any lease payments made at or before the commencement date less any lease incentives received;
- Any initial direct costs, and
- Restoration costs.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases of properties that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on straight-line basis over the lease term.

The impact of adoption of IFRS 16 on the statement of financial position as at 30 June 2020 is as follows:

|                     | 30 June<br>2020  | 1 July<br>2019 |
|---------------------|------------------|----------------|
|                     | (Rupees in '000) |                |
| Right-of-use assets | <u>14,925</u>    | <u>22,388</u>  |
| Lease liability     | <u>18,020</u>    | <u>18,948</u>  |

## 5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company has consistently applied the following accounting policies to all years presented in these financial statements, except if mentioned otherwise (refer note 4).

### 5.1 Employee benefits

#### Defined benefit scheme

The Company operates an unfunded Gratuity Scheme (the Plan) for eligible employees of the Company. The Company's obligation under the scheme is determined through actuarial valuation carried out at each year end under the Projected Unit Credit Method. Remeasurements which comprise actuarial gains and losses are recognised immediately in statement of comprehensive income. The Company determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contribution and benefit payments. Interest cost and current service cost are recognised in statement of profit or loss. The latest actuarial valuation was conducted at the balance sheet date by a qualified professional firm of actuaries.

#### Compensated absences

The Company accounts for its liability towards accumulated compensated absences for the permanent employees as per the service rules of the Company.

## 5.2 Financial instruments

### 5.2.1 Financial assets

#### 5.2.1.1 Classification

On initial recognition, a financial asset is classified as measured at: amortised cost, FVOCI or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows ; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

#### Business model assessment

The Company's financial assets comprise of loans and receivables, the assessment of business model for other financial assets is made on a portfolio / asset basis. The information considered in making this assessment includes:

- the stated policies and objectives for the asset and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile or realising cash flows through the sale of the assets;
- how the performance of the portfolio / asset is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and its strategy for how those risks are managed;
- how managers of the business are compensated (e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected); and

# Pakistan Synthetics Limited

- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Company's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

## Assessment of whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment on debt securities, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are SPPI, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Company considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse loans); and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

On the basis of above assessment the Company determined that Held-to-collect business model is relevant for the Company as its financial assets comprise of only cash and cash equivalents and trade and other receivables. These financial assets are held to collect contractual cash flow.

### 5.2.1.2 Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period the Company changes its business model for managing financial assets.

### 5.2.1.3 Initial recognition and measurement

All financial assets are recognised at the time the Company becomes a party to the contractual provisions of the instrument. Financial assets are initially recognised at fair value plus, in the case of financial assets not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial assets.

### 5.2.1.4 Subsequent measurement

**Financial assets measured at amortized cost** These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest / mark-up income, foreign exchange gains and losses and impairment are recognised in the statement of profit or loss.

**Financial assets at FVTPL** These assets are subsequently measured at fair value. Net gains and losses, including any interest / mark-up or dividend income, are recognised in profit or loss.

# Pakistan Synthetics Limited

## **Equity Investments at FVOCI**

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in other comprehensive income and are never reclassified to the statement of profit or loss.

## **Debt Investments at FVOCI**

These assets are subsequently measured at fair value. Interest / mark-up income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit or loss. Other net gains and losses are recognised in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit or loss.

### **5.2.1.5 Trade receivables, loans and advances, deposits and other receivables**

These are classified at amortized cost and are initially recognised when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

### **5.2.1.6 Cash and cash equivalents**

Cash and cash equivalents for cash flow purposes include cash in hand and balances held with banks and short term running finance availed by the Company, which are payable on demand and form an integral part of the Company's cash management.

### **5.2.1.7 Impairment**

The Company recognises loss allowances for ECLs in respect of financial assets measured at amortised cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balance for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade and other receivables are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

# Pakistan Synthetics Limited

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than due for two hundred and ten days. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortised cost are deducted from the Gross carrying amount of the assets.

The Gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

## 5.2.1.8 Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and where the Company has transferred substantially all risks and rewards of ownership.

## 5.2.2 Financial liabilities

Financial liabilities are classified as measured at amortized cost or 'at fair value through profit or loss' (FVTPL). A financial liability is classified as at FVTPL if it is classified as held for trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the of profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of profit or loss. Any gain or loss on de-recognition is also recognised in the statement of profit or loss. Financial liabilities are derecognised when the contractual obligations are discharged or cancelled or have expired or when the financial liability's cash flows have been substantially modified.

### 5.2.2.1 Mark-up bearing borrowings and borrowing costs

Mark-up bearing borrowings are recognised initially at fair value, less attributable transaction cost. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortized cost with any difference between cost and redemption value being recognised in statement of profit or loss over the period of borrowings on an effective interest basis.

Borrowing costs are recognised as an expense in the period in which these are incurred, except to the extent that they are directly attributable to the acquisition or construction of a qualifying asset (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use or sale) in which case these are capitalised as part of cost of that asset.

### 5.2.2.2 Trade and other payables

Trade and other payables are recognised initially at fair value plus directly attributable cost, if any, and subsequently measured at amortized cost.

# Pakistan Synthetics Limited

## 5.2.3 *Derivative financial instruments*

*Derivatives are recognised initially at fair value; any attributable transaction costs are recognised in profit or loss as incurred. Subsequent to initial recognition, when a derivative financial instrument is not designated in a hedge relationship that qualifies for hedge accounting or when the derivative does not qualify for hedge accounting are measured at fair value and all changes in its fair value are recognised immediately in profit or loss.*

*The fair value of forward exchange contracts is estimated using appropriate valuation techniques. These are carried as assets when the fair value is positive and liabilities when the fair value is negative.*

## 5.2.4 *Offsetting of financial assets and financial liabilities*

*Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when there is legally enforceable right to set-off the recognised amounts and the Company intends either to settle on a net basis or to realise the assets and to settle the liabilities simultaneously.*

## 5.3 *Taxation*

*Income tax expense comprises current and deferred tax. Income tax expense is recognised in the statement of profit or loss, except to the extent that it relates to items recognised directly in equity or in statement of comprehensive income, in which case it is recognised in equity or in statement of comprehensive income respectively. In making the estimates for income taxes currently payable by the Company, the management looks at the current income tax law and the decisions of appellate authorities on certain issues in the past.*

### *Current*

*Provision for current taxation is based on taxable income at the current rates of taxation after taking into account tax credits and rebates available, if any. The charge for the current tax also includes adjustments where necessary, relating to prior years which arise from assessments framed / finalised during the year.*

### *Deferred*

*Deferred tax is recognised using balance sheet method, providing for temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using the tax rates enacted or substantively enacted at the balance sheet date.*

*Deferred tax liabilities are recognised for all taxable temporary differences. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefits will be realised.*

# Pakistan Synthetics Limited

## 5.4 Property, plant and equipment

### Operating assets

#### Initial recognition

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of such item can be measured reliably. Recognition of the cost in the carrying amount of an item of property, plant and equipment ceases when the items is in the location and condition necessary for it to be capable of operating in the manner intended by the management.

#### Measurement

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any. The cost of property, plant and equipment includes:

- (a) its purchase price including import duties, non refundable purchase taxes after deducting trade discounts and rebates;
- (b) any other costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management; and
- (c) borrowing costs, if any.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

#### Subsequent expenditure (including normal repairs and maintenance)

Expenditures incurred to replace a significant component of an item of property, plant and equipment is capitalised and the asset so replaced is retired. Other subsequent expenditure is capitalised only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the items can be measured reliably. All other expenditures (including normal repairs and maintenance) is recognised in the statement of profit or loss as an expense when it is incurred.

#### Depreciation

Depreciation on all items is charged on straight line method. The useful lives for depreciation are indicated in note 6.1 to these financial statements.

Depreciation on additions to property, plant and equipment is charged from the quarter the asset is available for use up to the quarter prior to disposal.

Depreciation methods, useful lives and residual values of each part of property, plant and equipment that is significant in relation to the total cost of the asset are reviewed, and adjusted if appropriate, at each balance sheet date.

#### Gains and losses on disposal

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of the property, plant and equipment, and is recognised in the statement of profit or loss.

---

# Pakistan Synthetics Limited

## *Capital work in progress*

*Capital work in progress is stated at cost less impairment loss, if any and consists of expenditures incurred (including any borrowing cost, if applicable) and advances made in the course of their construction and installation. Transfers are made to relevant asset category as and when assets are available for intended use.*

## **5.5 Intangible assets**

*Intangible assets acquired by the Company are stated at cost less accumulated amortisation and impairment losses, if any. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific assets to which it relates. All other expenditure is expensed as incurred.*

*Amortisation is charged to the statement of profit or loss on a straight-line basis over the estimated useful lives of intangible assets. Amortisation on additions to intangible assets is charged from the month in which an item is acquired or capitalised while no amortisation is charged for the month in which the item is disposed off.*

## **5.6 Stores and spares**

*Stores and spares are valued at weighted average cost except for items in transit which are stated at cost. Provision for obsolete and slow moving stores and spares is determined based on management's estimate regarding their future usability.*

## **5.7 Stock-in-trade**

*These are valued at lower of cost and net realisable value less impairment loss, if any. Cost is determined under the weighted average basis. Cost comprises all costs of purchases, cost of conversion and other costs incurred in bringing the inventories to their present location and condition, except for cost of work in process which comprises of raw material cost only as conversion costs are not significant.*

*Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.*

## **5.8 Impairment of non-financial assets**

*The carrying amounts of the Company's non financial assets, other than deferred tax assets and inventories are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such indication exists, the asset's recoverable amount, being higher of value of use and fair value less costs to sell, is estimated. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the statement of profit or loss.*

## 5.9 Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer. Revenue from operations of the Company are recognised when the goods are provided, and thereby the performance obligations are satisfied. Revenue consists of Plastic caps, Crown caps, PET Resin, BoPET Resin and Preform which generally include single performance obligation. The Company's contract performance obligations are fulfilled at the point in time when the goods are dispatched to the customer. Invoices are generated and revenue is recognised at that point in time, as the control has been transferred to the customers. Revenue is measured at fair value of the consideration received or receivable, excluding amount of sales tax. The Company assesses its revenue arrangements against specific criteria that must be met before revenue is recognised.

## 5.10 Foreign currency translation

Transactions in foreign currencies are translated into Pakistani Rupees at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into Pakistani Rupees at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into Pakistani Rupees at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in the statement of profit or loss and presented with in other operating expenses.

## 5.11 Provisions

A provision is recognised in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provisions are measured at the present value of expected expenditure, discounted at a pre tax rate that reflects current market assessment of the time value of money and the risk specific to the obligation. However, provisions are reviewed at each balance sheet date and adjusted to reflect current best estimate.

## 5.12 Discontinued operation

A discontinued operation is a component of the Company's business, the operations and cash flows of which can be clearly distinguished from rest of the Company's business and which:

- represents a separate major line of business or geographical area of operations,
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations or
- is a subsidiary acquired exclusively with a view to resale.

Classification as discontinued operation occurs on disposal, abandoning or when the operation meets the criteria to be classified as held for sale. When an operation is classified as discontinued operation, the comparative statement of profit or loss is represented as if the operation had been discontinued from the start of the comparative year.

# Pakistan Synthetics Limited

## 5.13 Asset held under Ijarah financing

Assets held under Ijarah financing are accounted for using the guidelines of Islamic Financial Accounting Standard-2 (IFAS 2), "Ijarah". The assets are not recognised on the Company's statement of financial position and payments made under Ijarah financing are recognised in the statement of profit or loss on a straight line basis over the term of the lease.

## 5.14 Dividend and appropriation

Dividend distribution to the Company's shareholders and appropriation to / from reserves is recognised in the period in which these are approved.

## 5.15 Government grants

Government grants are transfers of resources to an entity by a government entity in return for compliance with certain past or future conditions related to the entity's operating activities - e.g. a government subsidy. The definition of "government" refers to governments, government agencies and similar bodies, whether local, national or international.

The Company recognises government grants when there is reasonable assurance that grants will be received and the Company will be able to comply with conditions associated with grants.

Government grants are recognised at fair value, as deferred income, when there is reasonable assurance that the grants will be received and the Company will be able to comply with the conditions associated with the grants.

Grants that compensate the Company for expenses incurred, are recognised on a systematic basis in the income for the year in which the related expenses are recognised. Grants that compensate for the cost of an asset are recognised in income on a systematic basis over the expected useful life of the related asset.

A loan is initially recognised and subsequently measured in accordance with IFRS 9. IFRS 9 requires loans at below-market rates to be initially measured at their fair value - e.g. the present value of the expected future cash flows discounted at a market-related interest rate. The benefit that is the government grant is measured as the difference between the fair value of the loan on initial recognition and the amount received, which is accounted for according to the nature of the grant.

- 17.1 The Company made investments in ABL Islamic Income Fund during the year at a cost of Rs. 500,000, the unit price of which was Rs 10.802.

## 18. TAXATION - NET

- 18.1 This also includes minimum tax on turnover chargeable under section 113 of the Income Tax Ordinance, 2001 of Rs. 153.563 million. Minimum tax is paid where, the Company has suffered taxable losses or has insufficient taxable profits due to which actual tax liability is not sufficient to meet the minimum tax requirements as per the said section 113. The excess of minimum tax over actual tax chargeable (where actual tax is nil in case of taxable losses) is adjustable against taxable income of limited number of future years (refer Note 18.2). The Company has recognised the minimum tax paid in advance during the year as an asset because the management considers it probable that sufficient future taxable profits would be available against which this excess minimum tax can be utilised.

**24.1** The facility for running finance available from an associated banking company is for the purpose of meeting working capital requirements. The rate of mark-up is KIBOR plus 1.00% (2019: KIBOR plus 1.00%) per annum. These facilities mature within twelve months and are renewable. The arrangement is secured against first pari-passu charge by way of registered hypothecation over Company's stock and trade debts.

**24.2** Total amount of facility available against above borrowings amounted to Rs. 610.96 million (2019: Rs. 517.36 million). Further, as at 30 June 2020, the unavailed facilities from the above borrowings amounted to Rs. 266.23 million (2019: Rs. 126.68 million).

**24.3** The Company has obtained facility of Rs. 2,153.76 million (2019: Rs. 2,020.95 million) from Islamic banks for short term finance under Murabaha and Istisna financing arrangement and has availed Rs. 136.916 million under Murabaha financing and Rs. 1,294.454 million under Istisna financing as at 30 June 2020 (2019: Rs. 514.974 million under Murabaha financing and Rs. 1,484.836 million under Istisna financing). The rate of profit approved by the bank at time of disbursement ranges from 8.22% to 15.15% (2019: 7.26% to 14.06%) per annum. These facilities can be availed either in Pakistani rupees or in USD and carries profit at the preferential rate as approved by the banks from time to time and is based on KIBOR.

## 25. CONTINGENCIES AND COMMITMENTS

### 25.1 Contingencies

**25.1.1** The facility for opening letter of guarantees from an associated banking company amounted to Rs. 119.242 million (2019: Rs. 119.242 million). Bank guarantees amounting to Rs. 119.242 million (2019: Rs. 119.242 million) have been issued in favour of Sui Southern Gas Company Limited and Collector of Customs for payment of gas bills and clearance of import consignment while submitting bank guarantee against advance income tax to be deposited with national exchequer at import stage.

**25.1.2** In 2011, the Gas Infrastructure Development Cess was levied via GIDC Act, 2011 and further the rate of cess was amended via Finance Bill 2012 - 2013 which was challenged in the Supreme Court of Pakistan. The Supreme Court of Pakistan declared GIDC Act, 2011 to be unconstitutional and ultra vires on the grounds that GIDC is a 'Fee' and not a 'Tax' and in the alternative it is not covered by any entry relating to imposition or levy of tax under Part-I of the Federal Legislative list and on either counts the 'cess' could not have been introduced through a money bill under the Constitution.

# Pakistan Synthetics Limited

During 2015, Government passed a new law "Gas Infrastructure Development Cess Act, 2015 by virtue of which all prior enactments have been declared infructuous. The said Act levies GID Cess at Rs. 200/MMBTU on captive power consumption and at Rs.100/MMBTU on industrial connection from the date of passing of that Act. The Company has obtained a stay order on the retrospective application of the Act from The Honourable High Court of Sindh. The Company is confident of favourable outcome and therefore has not recorded a provision of Rs. 60.39 million (2019: Rs. 60.39 million) in these financial statements. However, the Company has recognised charge against GID cess from the date (i.e. April 2015) of the passing of the Act. On 26 October 2016, the High Court of Sindh held that enactment of GIDC Act 2015 is ultra-vires to the Constitution of Pakistan. Sui Southern Gas Company Limited has filed an intra-court appeal before the Divisional Bench of High Court of Sindh and is pending for adjudication.

On 12 August 2020, the Supreme Court of Pakistan issued its verdict and held that "the levy imposed under Gas Infrastructure Development Cess Act, 2015 is in accordance with the provisions of the Constitution". The Supreme Court has also held that "the provisions of Section 8 of the Act, which give retrospective effect to the charge and recovery of 'Cess' levied from the year 2011 are also declared to be valid being within the legislative competence of the Parliament.". The company has filed a review petition along with other parties with the Supreme Court of Pakistan to seek relief of the pre-act cess payable imposed under the GIDC Act 2015. The management in consultation with its legal advisor is confident that the relief against pre-act cess would be granted in result of the review petition.

**25.1.3** For the year 2015, the Company engaged tax advisor to file appeal against order passed under section 122(1) on account of disallowance of expenses on different heads. The appeal was filed and has been heard by the Learned Commissioner Inland Revenue (Appeals-II), LTU, Karachi. Based on consultation with tax advisor, the management is confident of favorable outcome and is not likely to sustain any loss from the cases and has not recorded any provision in this regard.

**25.1.4** Nine ex-workers of the Company have filed a case with National Industrial Relations Commission at Quetta Bench bearing case no. 07(01)/2015-Q and 07(169)/2016-Q for recovery of their final settlement amount. The Company is contesting the case vigorously. Based on consultation with legal advisor, the management is confident of favourable outcome and is not likely to sustain any loss from the cases and has not recorded any provision in this regard.

## **25.2 Commitments**

### **25.2.1 Letters of credit**

The Company has facilities of Rs. 2,269 million (2019: Rs. 2,362 million) for opening letters of credit including Rs. 800 million from an associated banking company (2019: Rs. 800 million). At 30 June 2020, the open letters of credits for stock in trade, stores and spares and for capital commitment amounted to Rs. 340.232 million (2019: Rs. 228.84 million) including Rs. 41.515 million from an associated banking company (2019: Rs. 74.39 million).

**25.2.2** The facilities disclosed in notes 25.1.1 and 25.2.1 are secured against ranking charge by way of registered hypothecation over Company's stock and trade debts, export bills sent to collection, documents of title to goods consigned to the Company, Banker's acceptance and Accepted Draft.

## 37. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

### Financial risk management

The Board of Directors of the Company has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

### Risk management framework

The Board of Directors are responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

### 37.1 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations. Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economics, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. Customers of Plastic caps, Crown caps, PET Resin, BoPET Resin and Preform are mostly food and beverages companies.

### Exposure to credit risk

Credit risk of the Company arises principally from the trade debts and bank balances. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date is as follows:

Bank balances are held with reputable banks with high quality credit ratings. At year end, the Company has bank balances with banks having credit ratings ranging from AA- to AAA.

## 37.2 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation, by having credit lines available as disclosed in note 24 to these financial statements. The Company ensures that it has sufficient cash on demand to meet expected working capital requirements. The following are the contractual maturities of financial liabilities, including interest payments and excluding the impact of netting agreements:

## 37.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

### 37.3.1 Currency risk

The Company is exposed to currency risk on foreign creditors that are denominated in a currency other than the respective functional currency of the Company. The Company's exposure to foreign currency risk is as follows:

|                              | 2020                         |                |              |

## Sensitivity analysis

A five percent depreciation of the rupee against the following currencies at 30 June would have decreased the equity and profit or loss by the after tax amounts shown below. This analysis assumes that all other variables, in particular interest rates remain constant.

|      | Equity and profit or loss |                 |
|------|---------------------------|-----------------|
|      | 2020                      | 2019            |
| USD  | (16,939)                  | (47,519)        |
| EURO | (1,405)                   | (2,710)         |
|      | <u>(18,344)</u>           | <u>(50,229)</u> |

A five percent appreciation of the rupees against the above currencies at 30 June would have had the equal but opposite effect on the above currency to the amounts shown above, on the basis that all other variables remain constant. The sensitivity analysis prepared is not necessarily indicative of the effects on profit for the year and assets / liabilities of the Company.

## 37.3.2 Interest rate risk

Interest rate risk is the risk that the fair value on future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest rate exposure arises from long term finance and short term borrowings.

At the reporting date the interest rate profile of the Company's significant interest bearing financial instruments was as follows:

|                                  | Interest rate  |                | Carrying amount    |                    |
|----------------------------------|----------------|----------------|--------------------|--------------------|
|                                  | 2020           | 2019           | 2020               | 2019               |

| Bank balances                    | 6.43% - 9%     | 3.85% - 6.43%  | <u>446</u>         | <u>90</u>          |
| <b>Variable rate instruments</b> |                |                |                    |                    |
| Long term finances               | 2.5% - 15.02%  | 6.81% - 13.69% | (350,242)          | (529,455)          |
| Long term payable                | -              | 3.05% - 7.01%  | -                  | (608,386)          |
| Short term borrowings            | 3.35% - 15.15% | 3.5% - 14.06%  | <u>(1,793,868)</u> | <u>(2,432,290)</u> |
|                                  |                |                | <u>(2,144,110)</u> | <u>(3,570,131)</u> |

## Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect statement of profit or loss.

## Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have decreased / (increased) profit after tax for the year by Rs. 28.571 million (2019: Rs. 25.348 million). This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2019.

The sensitivity analysis prepared is not necessarily indicative of the effects on profit for the year and assets / liabilities of the Company.

## 37.3.3 Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The company is not exposed to other price risk.

## 37.4 Fair value of financial instruments

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

|   | 2020                         |                |                                   |            |         |         |

## 41. CAPITAL RISK MANAGEMENT

The objective of the Company when managing capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and to maintain a strong capital base to support the sustained development of its businesses.

The Company manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend paid to the shareholders or issue new shares. The Company is not subject to externally imposed capital requirements.

## 42. INFORMATION ABOUT BUSINESS SEGMENTS

During the year, the management has reassessed the segment reporting process and concluded that discontinued business (refer note 34) is no more a segment because of no operation and not material to the business operation. Currently the Company deals in Plastic caps, Crown caps, PET Resin, BoPET Resin and Preform which is considered as single reportable segment as there is no process of reviewing and monitoring of operating activities, financial results, forecast / plan for the segment and no decision is made or allocation of resources by Chief Executive (key decision maker) for product wise. Further, there is no discrete information available specific to the segment nor the segment information presented to the Board of Directors and key decision makers. Therefore, disclosures of segment reporting has not been presented in these financial statements.

42.1 Management considers that revenue from its ordinary activities are shariah compliant.
