At the helm of the wheel

**Late General
Habibullah Khan
Khattak**

General Habibullah Khan Khattak was the Founder Chairman of the Bibojee Group of Companies.

Today, the Group is an industrial empire with an extensive portfolio of businesses comprising three cotton spinning mills, a woolen mill, two automobile assembling plants with extensive marketing setups, a general insurance company, Pakistan's largest tyre manufacturing company, a construction company and two Trusts for supporting education and wildlife protection.

GHANDHARA NISSAN LIMITED

An Illustrious Founder

Fondly known as 'Bibojee', General Habibullah Khan Khattak was born on October 17, 1913 in Wana. He was the son of the renowned personality Khan Bahadur Kuli Khan Khattak. He completed his F.Sc from Islamia College, Peshawar and gave an early glimpse of his potential when in 1934, he became one of 25 candidates to be selected from the Subcontinent from the First Course 'The Pioneers' at the Indian Military Academy, Dehradun.

During his career as a soldier, he rose swiftly through the ranks to become the Chief of Staff of the Pakistan Army at the young age of 45. He was mentioned in dispatches for gallantry in the Second World War and was later awarded Sitara-e-Pakistan and the American Legion of Merit. He retired from the Pakistan Army in December 1959 at the young age of 46 but instead of resting on his laurels, he soon embarked upon a new career as an industrialist, which was to bring him even greater fame and respect.

Core Values: Perseverance, Dynamism and Professionalism

The business empire of General Habibullah was built on the above-mentioned core values and with his innate knack of identifying sick units and expertly reviving them he made his Group emerge as one of the fastest growing industrial conglomerates of Pakistan. A man of vision, General Habibullah developed an informed insight into Pakistan's economy and was blessed with the Midas touch, essential for successful entrepreneurship. He is also credited with introducing the trend of professional management which was subsequently emulated by other Pakistani business houses. He believed that Human Resource is the most important and lasting asset of any business.

Philanthropy: The Love of Giving Back

In addition to being a gifted entrepreneur, General Habibullah was also a great philanthropist who believed in generously giving back to his country - his expertise, experience and financial resources. It was in that spirit that he founded the Waqf-e-Kuli Khan (WKK) in memory of his late father. WKK promotes education and is a fine example of Corporate Social Responsibility which has benefitted thousands of deserving students. The General was also a well-known animal lover, who established The Pakistan Wildlife Conservation Foundation (PWCF) for supporting wildlife in Pakistan. General Habibullah passed away on December 23, 1994 leaving behind a legacy of dynamic leadership, brilliant foresight and exceptional business acumen.

ملحقہ کمپنیوں (ملحقہ فریقین) کے ساتھ عمومی طریقہ کار کے مطابق کئے گئے سودوں کو بورڈ نے سہ ماہی بنیاد پر آڈٹ کمیٹی کی سفارش پر لسٹڈ کمپنیوں کی شق 15 (ادارتی نظم و ضبط) ریگولیشنز 2017 کے تحت منظور کئے۔

بورڈ کے اجلاس کے دوران اس بات کی نشاندہی کی گئی کہ چونکہ بورڈ کے ممبران کی ایک بڑی تعداد کا مفاد ان کی مشترکہ ڈائریکٹرشپ اور ملحقہ کمپنیوں میں ان کے حصص کی ملکیت کی وجہ سے ان سودوں سے وابستہ ہے، اس لئے ڈائریکٹران کی مطلوبہ تعداد موجود نہیں ہے جو کہ ان سودوں کی منظوری دے اس لئے ان کی منظوری سالانہ اجلاس عام میں حصص یافتگان سے لی جائے۔

مندرجہ بالا کو مد نظر رکھتے ہوئے، مالیاتی سال محتممہ 30 جون 2018 کے دوران ملحقہ کمپنیوں کے ساتھ کئے گئے سودے جنہیں آڈٹ شدہ مالیاتی گوشواروں کے متعلقہ نوٹس میں ظاہر کیا گیا ہے حصص یافتگان کے روبرو غور اور منظوری / توثیق کے لئے پیش کئے جائیں گے۔

اس قرارداد سے ڈائریکٹران کا مفاد صرف ان کی مشترکہ ڈائریکٹرشپ اور ان کی ملحقہ کمپنیوں میں حصص داری تک محدود ہے۔

(2) لاجنڈا آئٹم نمبر 4(b)۔ سال 30 جون 2019 کے دوران ملحقہ کمپنیوں کے ساتھ کئے جانے والے سودوں کی تشکیل کے لئے چیف ایگزیکٹو کو مجاز بنانا جس کے لئے ایک عمومی قرارداد منظور کی جائے۔

ملحقہ کمپنیوں کے ساتھ سودے عمومی طریقہ کار کے تحت انجام دیئے جائیں گے۔ بورڈ کے ممبران کی بڑی تعداد کا مفاد ان کی مشترکہ ڈائریکٹرشپ اور ملحقہ کمپنیوں میں حصص داری کی وجہ سے ان سودوں سے وابستہ ہے لہذا ملحقہ کمپنیوں کے ساتھ ان سودوں کی منظوری حصص یافتگان سے لی جائے گی۔

لسٹڈ کمپنیوں (ادارتی نظم و ضبط کے ضابطہ) ریگولیشنز 2017 کی شق 15 کی پاسداری کرتے ہوئے سال 30 جون 2019 کے دوران حصص یافتگان چیف ایگزیکٹو کو ملحقہ کمپنیوں کے ساتھ ہونے والے سودوں کی عمومی طریقہ کار کے مطابق منظوری کے لئے مجاز بنا سکتے ہیں۔

اس قرارداد سے ڈائریکٹران کا مفاد صرف ان کی مشترکہ ڈائریکٹرشپ اور ان کی ملحقہ کمپنیوں میں حصص داری تک محدود ہے۔

(3) نوٹس کا لاجنڈا آئٹم نمبر 5۔ میسرز گندھار ڈی ایف (پرائیویٹ) لمیٹڈ (GDFPL) جو کہ مکمل ملکیت میں ذیلی کمپنی ہے، کو 800 ملین روپے کی نقد قرضہ کی سہولت کی تجدید پر غور اور منظوری

جہاں سے وہ اجلاس میں شرکت نہیں کر سکتے تو پھر اگر میٹنگ میں بذریعہ وڈیو کانفرنس شریک ہونا چاہیں تو اجلاس سے 10 دن قبل مطلع کریں، اس صورت میں کمپنی اس شہر میں وڈیو کانفرنس کی سہولت کا اہتمام کرے گی بشرطیکہ وہ سہولت اس شہر میں دستیاب ہو۔ کمپنی سالانہ اجلاس عام کی تاریخ سے 5 دن قبل وڈیو کانفرنس کے مقام کے ساتھ مکمل ضروری معلومات سے ممبران کو مطلع کرے گی تاکہ وہ اس سہولت سے فائدہ اٹھا سکیں۔

CHAIRMAN'S REVIEW

I am pleased to present the 36th Annual Report of the Company for the year ended June 30, 2018.

Economy at a Glance

Pakistan's economy has continued to grow at an encouraging pace with positive macroeconomic factors such as GDP which had rose to record high level during the financial year 2017-18. The continued implementation of CPEC projects, new power generation capacity, sustained recovery of agriculture and strong growth in consumption were instrumental in achieving the recent performance.

Company's performance

The Company has been providing optimum mobility solutions to its customers by consistently adopting latest technologies and keeping up with emerging trends. Hence, the company has gained trust for reliability, durability and enduring stakeholder value.

Your Company has shown progress in the current year specially keeping into account the discontinuation of UD Trucks. Resultantly, the company has attained an after tax profit of Rs. 1,037.5 million (Rs. 409.9 million last year), contributed significantly by capital gain realized on disposal of shares of associated company.

As a development during the year, the Company launched JAC X-200 (light commercial vehicle) in the commercial market. This has been a good addition in company's product line and we are expecting good performance in this segment.

Future Outlook

Keeping in view the encouraging response from the market, we foresee improvements in market share of Dongfeng and JAC Trucks. Further, the newly introduced Renault Trucks is anticipated to add value to the company's revenue stream in the days ahead.

Acknowledgement

I take this opportunity to thank our valued customers for the trust they continued to place on us, the management team for its sincere efforts, the Board of Directors for their guidance and our principals Nissan Motor Co. چیئر مین کا جائزہ

میں کمپنی کی 36 ویں سالانہ رپورٹ برائے مختتمہ سال 30 جون 2018 پیش کرتا ہوں۔

معیشت کا مختصراً جائزہ

پاکستان کی معیشت حوصلہ افزا رفتار سے آگے بڑھ رہی ہے، بڑے اقتصادی عناصر جیسے جی ڈی پی میں مالیاتی سال 2017-18 کے دوران ریکارڈ سطح کا بلند ترین اضافہ ہوا ہے۔ سی پی ای سی پروجیکٹس پر مسلسل عملدرآمد، توانائی پیدا کرنے کی گنجائش میں اضافہ، زراعت کی پائیدار بحالی اور ایشیائے صرف میں مستحکم نمونے حالیہ کارکردگی کے حصول میں کلیدی کردار ادا کیا۔

کمپنی کی کارکردگی

تسلسل کے ساتھ جدید ٹیکنالوجی سے استفادہ اور نئے ابھرتے ہوئے رجحانات سے مطابقت پیدا کرتے ہوئے کمپنی نے اپنے گاہکوں کو اعلیٰ معیاری مصنوعات فراہم کیں۔ اس طرح دیرپا، پائیدار اور قابل بھروسہ مصنوعات فراہم کر کے کمپنی نے گاہکوں کا اعتماد حاصل کر لیا۔

UD ٹرس کی پیداوار منقطع ہونے کو مد نظر رکھتے ہوئے دیکھا جائے تو آپ کی کمپنی کی کارکردگی موجودہ سال میں بہتر رہی۔ جس کے نتیجے میں کمپنی کو بعد از ٹیکس منافع 1,037.5 ملین روپے (گزشتہ سال 409.9 ملین روپے) ہوا، اس طرح کمپنی کی جانب سے ملحقہ کمپنی کے حصص کی فروخت سے قابل ذکر سرمایہ جاتی منافع حاصل ہوا۔ سال کے دوران دوسری پیشقدمی یہ ہوئی کہ کمپنی نے JACX-200 (لائٹ کمر شیل و سیکل) کو کمر شیل مارکیٹ میں متعارف کروایا۔ یہ کمپنی کی مصنوعات میں ایک بہتر اضافہ ہے اور ہمیں اس شعبہ سے اچھی کارکردگی کی توقع ہے۔

مستقبل کی پیش بینی

مارکیٹ کے حوصلہ افزا ردعمل کو مد نظر رکھتے ہوئے ہمیں دیکھ رہے ہیں کہ ڈونگ فینگ اور JAC کی مانگ میں خاطر خواہ اضافہ متوقع ہے۔ مزید یہ کہ نئے متعارف کردہ رینالٹ ٹرکوں سے آنے والے دنوں میں کمپنی کی آمدن میں اضافہ ہوگا۔

اعتراف

اس موقع پر میں سال کے دوران اپنے معزز گاہکوں کے مسلسل اعتماد، انتظامی ٹیم کی مخلصانہ کوششوں، بورڈ آف ڈائریکٹرز کی رہنمائی اور ہمارے پرنسپلز نسان موٹر کمپنی (جاپان)، یو ڈی ٹرکس کارپوریشن (سابقہ نسان ڈیزل موٹر کمپنی لمیٹڈ جاپان)، ڈونگ فینگ کمر شیل و سیکل کمپنی (چائینہ)، ڈونگ فینگ آٹو موبائل کمپنی لمیٹڈ (چائینہ) انہوئی جیا ٹیکھوئی آٹو موبائل گروپ کارپوریشن لمیٹڈ (چائینہ) اور رینالٹ ٹرکس S.A.S. کے تعاون اور معاونت پر ان کا مشکور ہوں۔

These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key Audit Matters:

S.No. Key Audit Matters

How the matter was addressed in our audit

1. Compliance with Laws and Regulations and changes in 4th Schedule

The Companies Act, 2017 (the Act, 2017) promulgated on May 30, 2017. The Act, 2017 revised and replaced the Fourth Schedule of the Companies Ordinance, 1984 and brought changes in the presentation and disclosures of the financial statements by elimination of duplicative disclosures with IFRS disclosure requirements and incorporation of significant additional disclosures. These changes are applicable first time to the Company's financial statements for the year ended June 30, 2018.

Our audit procedures in respect of this area included:

Obtained an understanding of the related provisions and schedules of the Act, 2017 applicable to the Company and prepared document to assess the Company's compliance with the disclosure requirements of the Act, 2017;

We discussed the applicable changes with the Company's management and those charged with governance as to whether the Company is in compliance with such changes;

We also maintained a high level of vigilance when carrying out our other audit procedures for indication of non-compliance; and

Following are the Key Audit Matters:

S.No. Key Audit Matters

The changes are considered as a key audit matter in view of the extensive impacts on the financial statements of the Company.

Refer note 2, 6, 7, 10, 12.2, 15.3, 16.2, 38.2, 45, 47 and 49 for changes in disclosures made through the Act, 2017.

How the matter was addressed in our audit

We ensured that the financial statements have been prepared in accordance with the approved accounting standards as applicable in Pakistan and the Act, 2017.

2. Disposal of investment in an Associated Company and resulting gain

The Company during the year, after approval from its Board of Directors disposed-off 1.1 million shares of Ghandhara Industries Limited - an Associated Company and recorded a gain of Rs.925.5 million. The disposal made for generating cashflows to be used in planned expansion of car plant. We identified this area as key audit matter because the gain on disposal of shares constitutes 88.44% of profit before tax of the Company for the year ended June 30, 2018.

Refer note 2.1 and 9.1 of the financial statements.

Our audit procedures in respect of this area included:

Reviewed minutes of meeting of the Board of Directors regarding partial disposal of shares in Associated Company;

Verified number of shares disposed, share price and other relevant information from underlying supporting documents;

Performed recalculation for computation of gain on sale of shares; and

We also considered the adequacy of the disclosures made in the financial statements in relation to the above disposal.

3. Stock-in-trade

The Company's stock-in-trade has been increased significantly from Rs.277.69 million at June 30, 2017, to Rs.738.32 million at June 30, 2018. During the current financial year, the management increased the stock levels of the Company due to local assembly of JAC trucks. Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

3.2 Functional and presentation currency

These financial statements are presented in Pakistan Rupees which is the functional currency of the Company and figures are rounded off to the nearest thousand of rupees unless otherwise specified.

3.3 Changes in accounting standards and interpretations

3.3.1 Standards and amendments to approved accounting standards effective in current year

New and amended standards mandatory for the first time for the financial year beginning July 1, 2017:

- (a) Amendments to IAS 7, 'Statement of cash flows' are applicable for annual periods beginning on or after January 1, 2017. The amendment requires disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes.
- (b) Amendment to IAS 12, 'Income taxes' is applicable on annual periods beginning on or after January 1, 2017. The amendment clarifies deferred tax treatment for debt instrument and also addresses questions regarding determination of future taxable profit for the recognition test of deferred tax.
- (c) The Companies Act, 2017, promulgated last year, is applicable on the presentation of the financial statements for the current year. The Companies Act, 2017 has also revised the 4th Schedule to the Companies Ordinance, 1984 and brought changes in the presentation and disclosures of financial statement of the listed companies. These changes are applicable on the financial statements for the year ended June 30, 2018.

The other new standards, amendments to approved accounting standards and interpretations that are mandatory for the financial year beginning on July 1, 2017 are considered not to be relevant or to have any significant effect on the Company's financial reporting and operations.

3.3.2 Standards, amendments to approved accounting standards and interpretations that are not yet effective and have not been early adopted by the Company

The following new standards and amendments to approved accounting standards are not effective for the financial year beginning on July 1, 2017 and have not been early adopted by the Company:

- (a) IFRS 9, 'Financial instruments' is applicable in Pakistan on accounting periods beginning on or after July 1, 2018. IASB has published the complete version of IFRS 9, 'Financial instruments', which replaces the guidance in IAS 39. This final version includes requirements on the classification and measurement of financial assets and liabilities; it also includes an expected credit losses model that replaces the incurred loss impairment model currently being used. The standard not likely to have material impact on the Company's financial statements.
- (b) IFRS 15, 'Revenue from contracts with customers' is applicable in Pakistan on accounting periods beginning on or after July 1, 2018. The IASB has issued a new standard for the recognition of revenue. This will replace IAS 18 which covers contracts for goods and services and IAS 11 which covers construction contracts. The new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer – so the notion of control replaces the existing notion of risks and rewards. The standard permits a modified retrospective approach for the adoption. Under this approach entities will recognise transitional adjustments in retained earnings on the date of initial application (e.g. July 1, 2018), i.e. without restating the comparative period. They will only need to apply the new rules to contracts that are not completed as of the date of initial application. The Company has yet to assess the full impact of this standard on its financial statements.
- (c) Amendment to IAS 12 'Income taxes' as part of annual improvement 2015-2017 cycle is applicable on accounting periods beginning on or after January 1, 2019. The amendment clarifies that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognised consistently with the transactions that generated the distributable profits – i.e. in profit or loss, other comprehensive income or equity. The amendment is not likely to have material impact on the Company's financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

- (d) Amendments to IAS 23 'Borrowing Costs' as part of annual improvement 2015-2017 cycle is applicable on accounting periods beginning on or after January 1, 2019. The amendments clarify that the general borrowings pool used to calculate eligible borrowing costs excludes only borrowings that specifically finance qualifying assets that are still under development or construction. Borrowings that were intended to specifically finance qualifying assets that are now ready for their intended use or sale – or any non qualifying assets – are included in that general pool. This amendment will be applied prospectively to borrowing costs incurred on or after the date an entity adopts the amendments. The amendments are not likely to have material impact on the Company's financial statements.
- (e) IFRIC 22 'Foreign Currency Transactions and Advance Consideration' is applicable for annual periods beginning on or after January 1, 2018. The interpretation clarifies which date should be used for translation when a foreign currency transaction involves an advance payment or receipt. The related item is translated using the exchange rate on the date that the advance foreign currency was paid or received and the prepayment or deferred income recognised. The interpretation is not expected to have a material impact on the Company's financial statements.
- (f) IFRIC 23 'Uncertainty over Income Tax Treatment' is applicable for annual periods beginning on or after January 1, 2019. The interpretation clarifies the accounting for income tax when there is uncertainty over income tax treatment under IAS12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax. The interpretation is not expected to have a material impact on the Company's financial statements.

There are a number of other standards, amendments and interpretations to the published standards that are not yet effective and are also not relevant to the Company and, therefore, have not been presented here.

4. BASIS OF MEASUREMENT

4.1 These financial statements have been prepared under the historical cost convention, except for certain classes of property, plant and equipment which have been included at revalued amounts and provision for gratuity which is carried at present value of defined benefit obligation net of fair value of plan assets.

4.2 The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The areas where various assumptions and estimates are significant to the Company's financial statements or where judgment was exercised in application of accounting policies are as follows:

- (i) Estimate of useful lives and residual values of property, plant & equipment and intangible assets (notes 5.1 and 5.2)
- (ii) Stock-in-trade (note 5.6)
- (iii) Provision for staff benefits (note 5.11)
- (iv) Provision for warranty (note 5.13)
- (v) Provision for taxation (note 5.15)

5. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

5.1 Property, plant and equipment

5.1.1 Operating fixed assets

Owned assets

Operating fixed assets except for freehold land, building on freehold land and plant & machinery are stated at cost less accumulated depreciation and impairment loss, if any. Freehold land is stated at revalued amount and building on freehold land and plant & machinery are stated at revalued amounts less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Subsequent cost

Subsequent cost are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and its cost can be reliably measured. Cost incurred to replace a component of an item of operating fixed assets is capitalised and the asset so replaced is retired from use. Normal repairs and maintenance are charged to the profit or loss during the period in which they are incurred.

Depreciation

Depreciation on all items of operating fixed assets other than freehold land is charged to profit or loss applying the reducing balance method at the rates stated in note 7.1. Depreciation on additions to operating fixed assets is charged from the month in which an asset is acquired or capitalised while no depreciation is charged for the month in which the asset is disposed-off.

The depreciation method and useful lives of items of operating fixed assets are reviewed periodically and altered if circumstances or expectations have changed significantly. Any change is accounted for as a change in accounting estimate by changing depreciation charge for the current and future periods.

Disposal

Gains or losses on disposal or retirement of fixed assets are determined as the difference between the sale proceeds and the carrying amounts of assets and are included in the profit or loss.

Revaluation of assets

Revaluation is carried out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from the fair value. Any Surplus on revaluation of fixed assets is recognised in other comprehensive income and presented as a separate component of equity as "Surplus on revaluation of fixed assets", except to the extent that it reverses a revaluation decrease for the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. Any decrease in carrying amount arising on the revaluation of operating fixed assets is charged to profit or loss to the extent that it exceeds the balance, if any, held in the revaluation surplus on operating fixed assets relating to a previous revaluation of that asset. The revaluation reserve is not available for distribution to the Company's shareholders.

Leased assets

Fixed assets acquired by way of finance lease are stated at an amount equal to the lower of its fair value and present value of the minimum lease payments at inception of the lease less accumulated depreciation and impairment losses, if any.

Impairment

The Company assesses at each reporting date whether there is any indication that operating fixed assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is taken to profit or loss except for impairment loss on revalued assets, which is adjusted against related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of that asset.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

5.1.2 Capital work-in-progress

Capital work-in-progress is stated at cost less identified impairment loss, if any. All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. These are transferred to specific assets as and when assets are available for use.

5.2 Intangible assets

Intangible assets are stated at cost less accumulated amortisation and impairment loss, if any.

Cost associated with developing or maintaining computer software programs are recognised as an expense as incurred. Costs that are directly associated with identifiable and unique software products controlled by the Company and will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. Direct costs include staff cost, costs of the software development team and an appropriate portion of relevant overheads.

Subsequent expenditure

Expenditure which enhance or extend the performance of computer software programs beyond their original specifications are recognised as capital improvement and added to the original cost of the software.

Amortisation

Intangible assets are amortised using the reducing balance method at the rate stated in note 8.

5.3 Non current assets held for sale

Non current assets are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction rather than continuing use and sale is considered highly probable. They are stated at the lower of carrying amount and fair value less cost to sell.

5.4 Investments

5.4.1 Investments in Subsidiary and Associated Company

Investments in Subsidiary and Associated Company are carried at cost less impairment, if any. Impairment losses are recognised as an expense. At each reporting date, the Company reviews the carrying amounts of investments and its recoverability to determine whether there is an indication that such investments have suffered an impairment loss. If any such indication exists, the carrying amount of the investments is adjusted to the extent of impairment loss which is recognised as an expense in profit or loss.

5.4.2 Held to maturity

Held to maturity investments are non derivative financial assets with fixed or determinable payments and fixed maturity with a positive intention and ability to hold to maturity. They are included in non-current assets unless the investment matures or management intends to dispose-off it within 12 months of the end of the reporting date.

Subsequent to initial recognition held to maturity investments are carried at amortised cost using the effective interest method. Interest on held to maturity investments is calculated using the effective interest method and is recognised in the profit or loss.

5.4.3 Available for sale

Investments which are intended to be held for an undefined period of time but may be sold in response to the need for liquidity or changes in interest rates are classified as available for sale.

Subsequent to initial recognition at cost, these are re-measured at fair value, with any resultant gain or loss being recognised in other comprehensive income. Gains or losses on available for sale investments are recognised in other comprehensive income until the investments are sold or disposed-off, or until the investments are determined to be impaired, at that time cumulative gain or loss previously reported in other comprehensive income is included in current period's profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

5.5 Stores, spares and loose tools

Stores, spares and loose tools are stated at the cost which is based on weighted average cost less provision for obsolescence, if any. Items in transit are stated at cost comprising of invoice value plus other charges thereon accumulated upto the reporting date.

5.6 Stock-in-trade

These are valued at lower of cost and net realisable value. The cost of various classes of stock-in-trade is determined as follows:

<u>Stock category</u>	<u>Valuation method</u>
Complete Knock Down Kits (CKD)	Specific cost identification
Complete Built-up Units (CBU)	Specific cost identification
Local raw materials	At cost on weighted average basis.
Work-in-process and finished goods	At cost which comprises of raw materials, import incidentals, direct labour and appropriate portion of manufacturing overheads.
Stock-in-transit	At invoice price plus all charges paid thereon upto the reporting date.

Net realisable value signifies the estimated selling price in the ordinary course of business less costs necessary to be incurred in order to make the sale.

5.7 Trade debts and other receivables

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

5.11 Staff benefits

5.11.1 Defined benefit plan

The Company operates funded gratuity scheme which defines the amount of benefit that an employee will receive on retirement subject to minimum qualifying period of service under the scheme. The amount of retirement benefit is usually dependent on one or more factors such as age, years of service and salary. Provision for gratuity is made annually to cover obligation under the scheme in accordance with the actuarial recommendations. Latest actuarial valuation was conducted on June 30, 2018 on the basis of the projected unit credit method by an independent Actuary. The liability recognised in the statement of financial position in respect of defined benefit plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The amount arising as a result of re-measurement is recognised in the statement of financial position immediately, with a charge or credit to other comprehensive income in the periods in which they occur. Past-service cost, if any, are recognised immediately in income.

5.11.2 Defined contribution plan

The Company operates defined contribution plan (i.e. recognised provident fund scheme) for all its permanent employees. The Company and the employees make equal monthly contributions to the fund at the rate of 8.33% of the basic salary and cost of living allowance. 5.14 Research and development cost

Research and development cost is charged in the year in which it is incurred. Development costs previously charged to income are not recognised as an asset in the subsequent period.

5.15 Taxation

Income tax expense represents the sum of current tax payable, adjustments, if any, to provision for tax made in previous years arising from assessments framed during the year for such years and deferred tax.

Current

Provision of current tax is based on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year, if enacted.

Deferred

Deferred tax is accounted for using the balance sheet liability method in respect of all temporary differences arising from differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax base used in the computation of the taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit shall be available against which the deductible temporary differences, unused tax losses and tax credits can be utilised.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited in the profit or loss, except in the case of items credited or charged to equity in which case it is included in equity.

5.16 Financial assets and liabilities

Financial assets and financial liabilities are recognised at the time when the Company becomes a party to the contractual provisions of the instrument and derecognised when the Company loses control of contractual rights that comprise the financial assets and in the case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. These financial assets and liabilities are subsequently measured at fair value, amortised cost or cost as the case may be. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

5.17 Off-setting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counter party.

5.18 Provisions, contingent assets and contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Contingent assets are not recognised and are also not disclosed unless an inflow of economic benefits is probable and contingent liabilities are not recognised and are disclosed unless the probability of an outflow of resources embodying economic benefits is remote.

All other borrowing costs are charged to income in the period in which they are incurred.

5.21 Foreign currency translation

Transactions in foreign currencies are translated into reporting currency at the rates of exchange prevailing on the date of transactions. Monetary assets and liabilities denominated in foreign currencies are translated into reporting currency equivalents using year end foreign exchange rates. Non monetary assets and liabilities are translated using exchange rate that existed when the values were determined. The effect of the change is recognition and presentation of Rs.1,017.66 million for surplus on revaluation of fixed assets as a capital reserve i.e. separate component of equity and derecognition of surplus on revaluation of fixed assets of Rs.1,017.66 million, previously presented below equity in the statement of financial position. There is no impact of change in accounting policy on statement of profit or loss and other comprehensive income and statement of cash flows.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

The sensitivity of the defined benefit obligation to changes in principal assumptions is:

	Impact on define benefit obligation		
	Change in assumption	Increase in assumption	Decrease in assumption
Discount rate	1.00%	112,891	136,545
Increase in future salaries	1.00%	136,566	112,672

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and change in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the projected unit credit method at the end of reporting period) has been applied as when calculating the gratuity liability recognised within the statement of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

REVIEW REPORT ON THE STATEMENT OF COMPLIANCE CONTAINED IN LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2017

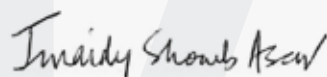

We have reviewed the enclosed Statement of Compliance with Listed Companies (Code of Corporate Governance) Regulations, 2017 (the Regulations) prepared by the Board of Directors of Ghandhara Nissan Limited (the Company) for the year ended June 30, 2018, in accordance with the requirements of regulation 40 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations requires the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions and also ensure compliance with the requirements of section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out procedures to assess and determine the Company's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

Responsibilities of Management and Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditor's report are Farrukh V. Junaidy from Junaidy Shoaib Asad and Raheel Ahmed from ShineWing Hameed Chaudhri & Co.

3. BASIS OF PREPARATION

3.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provision of and directives issued under the Companies Act, 2017.

Where provision of and directives issued under the Companies Act, 2017 differ from the IFRS, the provision of and directives issued under the Companies Act, 2017 have been followed.

3.2 Basis of consolidation

These consolidated financial statements include the financial statements of Holding Company and its Subsidiary Company. The Holding Company's direct interest in the Subsidiary Company is 99.99% as at June 30, 2018 and June 30, 2017.

Subsidiary is an entity over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Further, the Group also considers whether:

- it has power to direct the relevant activities of the subsidiary;
- is exposed to variable returns from the subsidiary; and
- decision making power allows the Group to affects its variable returns from the subsidiary.

Subsidiary is fully consolidated from the date on which control is transferred to the Group and is de-recognized from the date the control ceases.

Inter-company transactions, balances, income and expenses on transactions between group companies are eliminated. Profits and losses (unrealized) are also eliminated.

3.3 Transactions and non-controlling interests

The Group treats transactions with non-controlling interests that do not result in loss of control as transactions with equity owners of the Group. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

3.4 Functional and presentation currency

These consolidated financial statements are presented in Pakistan Rupees which is the functional currency of the Group and figures are rounded off to the nearest thousand of rupees unless otherwise specified.

3.5 Changes in accounting standards and interpretations

3.5.1 Standards and amendments to approved accounting standards effective in current year

New and amended standards mandatory for the first time for the financial year beginning July 1, 2017:

- (a) Amendments to IAS 7, 'Statement of cash flows' are applicable for annual periods beginning on or after January 1, 2017. The amendment requires disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

- (b) Amendment to IAS 12, 'Income taxes' is applicable on annual periods beginning on or after January 1, 2017. The amendment clarifies deferred tax treatment for debt instrument and also addresses questions regarding determination of future taxable profit for the recognition test of deferred tax.
- (c) The Companies Act, 2017, promulgated last year, is applicable on the presentation of the financial statements for the current year. The Companies Act, 2017 has also revised the 4th Schedule to the Companies Ordinance, 1984 and brought changes in the presentation and disclosures of financial statement of the listed companies. These changes are applicable on the financial statements for the year ended June 30, 2018.

The other new standards, amendments to approved accounting standards and interpretations that are mandatory for the financial year beginning on July 1, 2017 are considered not to be relevant or to have any significant effect on the Group's financial reporting and operations.

3.5.2 Standards, amendments to approved accounting standards and interpretations that are not yet effective and have not been early adopted by the Group

The following new standards and amendments to approved accounting standards are not effective for the financial year beginning on July 1, 2017 and have not been early adopted by the Group:

- (a) IFRS 9, 'Financial instruments' is applicable in Pakistan on accounting periods beginning on or after July 1, 2018. IASB has published the complete version of IFRS 9, 'Financial instruments', which replaces the guidance in IAS 39. This final version includes requirements on the classification and measurement of financial assets and liabilities; it also includes an expected credit losses model that replaces the incurred loss impairment model currently being used. The standard not likely to have material impact on the Group's financial statements.
- (b) IFRS 15, 'Revenue from contracts with customers' is applicable in Pakistan on accounting periods beginning on or after July 1, 2018. The IASB has issued a new standard for the recognition of revenue. This will replace IAS 18 which covers contracts for goods and services and IAS 11 which covers construction contracts. The new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer – so the notion of control replaces the existing notion of risks and rewards. The standard permits a modified retrospective approach for the adoption. Under this approach entities will recognise transitional adjustments in retained earnings on the date of initial application (e.g. July 1, 2018), i.e. without restating the comparative period. They will only need to apply the new rules to contracts that are not completed as of the date of initial application. The Group has yet to assess the full impact of this standard on its financial statements.
- (c) Amendment to IAS 12 'Income taxes' as part of annual improvement 2015-2017 cycle is applicable on accounting periods beginning on or after January 1, 2019. The amendment clarifies that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognised consistently with the transactions that generated the distributable profits – i.e. in profit or loss, other comprehensive income or equity. The amendment is not likely to have material impact on the Company's financial statements.
- (d) Amendments to IAS 23 'Borrowing Costs' as part of annual improvement 2015-2017 cycle is applicable on accounting periods beginning on or after January 1, 2019. The amendments clarify that the general borrowings pool used to calculate eligible borrowing costs excludes only borrowings that specifically finance qualifying assets that are still under development or construction. Borrowings that were intended to specifically finance qualifying assets that are now ready for their intended use or sale – or any non qualifying assets – are included in that general pool. This amendment will be applied prospectively to borrowing costs incurred on or after the date an entity adopts the amendments. The amendments are not likely to have material impact on the Group's financial statements.
- (e) IFRIC 22 'Foreign Currency Transactions and Advance Consideration' is applicable for annual periods beginning on or after January 1, 2018. The interpretation clarifies which date should be used for translation when a foreign currency transaction involves an advance payment or receipt. The related item is translated using the exchange rate on the date that the advance foreign currency was paid or received and the prepayment or deferred income recognised. The interpretation is not expected to have a material impact on the Company's financial statements.
- (f) IFRIC 23 'Uncertainty over Income Tax Treatment' is applicable for annual periods beginning on or after January 1, 2019. The interpretation clarifies the accounting for income tax when there is uncertainty over income tax treatment under IAS12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax. The interpretation is not expected to have a material impact on the Group's financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

There are a number of other standards, amendments and interpretations to the published standards that are not yet effective and are also not relevant to the Group and, therefore, have not been presented here.

4. BASIS OF MEASUREMENT

4.1 These consolidated financial statements have been prepared under the historical cost convention, except for certain classes of property, plant and equipment which have been included at revalued amounts and provision for gratuity which is carried at present value of defined benefit obligation net of fair value of plan assets.

4.2 The preparation of consolidated financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The areas where various assumptions and estimates are significant to the Group's financial statements or where judgment was exercised in application of accounting policies are as follows:

- (i) Estimate of useful lives and residual values of property, plant & equipment and intangible assets (notes 5.1 and 5.2)
- (ii) Stock-in-trade (note 5.6)
- (iii) Provision for staff benefits (note 5.11)
- (iv) Provision for warranty (note 5.13)
- (v) Provision for taxation (note 5.15)

5. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

5.1 Property, plant and equipment

5.1.1 Operating fixed assets Owned assets

Operating fixed assets except for freehold land, building on freehold land and plant & machinery are stated at cost less accumulated depreciation and impairment loss, if any. Freehold land is stated at revalued amount and building on freehold land and plant & machinery are stated at revalued amounts less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Subsequent cost

Subsequent cost are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and its cost can be reliably measured. Cost incurred to replace a component of an item of operating fixed assets is capitalised and the asset so replaced is retired from use. Normal repairs and maintenance are charged to the consolidated profit or loss during the period in which they are incurred.

Depreciation

Depreciation on all items of operating fixed assets other than freehold land is charged to profit or loss applying the reducing balance method at the rates stated in note 7.1. Depreciation on additions to operating fixed assets is charged from the month in which an asset is acquired or capitalised while no depreciation is charged for the month in which the asset is disposed-off.

The depreciation method and useful lives of items of operating fixed assets are reviewed periodically and altered if circumstances or expectations have changed significantly. Any change is accounted for as a change in accounting estimate by changing depreciation charge for the current and future periods.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

Disposal

Gains or losses on disposal or retirement of fixed assets are determined as the difference between the sale proceeds and the carrying amounts of assets and are included in the consolidated profit or loss.

Revaluation of assets

Revaluation is carried out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from the fair value. Any Surplus on revaluation of fixed assets is recognised in other comprehensive income and presented as a separate component of equity as "Surplus on revaluation of fixed assets", except to the extent that it reverses a revaluation decrease for the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. Any decrease in carrying amount arising on the revaluation of operating fixed assets is charged to profit or loss to the extent that it exceeds the balance, if any, held in the revaluation surplus on operating fixed assets relating to a previous revaluation of that asset. The revaluation reserve is not available for distribution to the Group's shareholders.

Leased assets

Fixed assets acquired by way of finance lease are stated at an amount equal to the lower of its fair value and present value of the minimum lease payments at inception of the lease less accumulated depreciation and impairment losses, if any.

Impairment

The Group assesses at each reporting date whether there is any indication that operating fixed assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is taken to consolidated profit or loss except for impairment loss on revalued assets, which is adjusted against related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of that asset.

5.1.2 Capital work-in-progress

Capital work-in-progress is stated at cost less identified impairment loss, if any. All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. These are transferred to specific assets as and when assets are available for use.

5.2 Intangible assets

Intangible assets are stated at cost less accumulated amortisation and impairment loss, if any.

Cost associated with developing or maintaining computer software programs are recognised as an expense as incurred. Costs that are directly associated with identifiable and unique software products controlled by the Group and will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. Direct costs include staff cost, costs of the software development team and an appropriate portion of relevant overheads.

Subsequent expenditure

Expenditure which enhance or extend the performance of computer software programs beyond their original specifications are recognised as capital improvement and added to the original cost of the software.

Amortisation

Intangible assets are amortised using the reducing balance method at the rate stated in note 8.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

5.3 Non current assets held for sale

Non current assets are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction rather than continuing use and sale is considered highly probable. They are stated at the lower of carrying amount and fair value less cost to sell.

5.4 Investments

5.4.1 Investments in an Associated Company

Investment in an Associate is accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the Group's share of profit or loss of the investee after the date of acquisition.

The Group's share of post acquisition profit or loss is recognised in the consolidated profit or loss, and its share of post acquisition movements in other comprehensive income is recognised in consolidated other comprehensive income with the corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an Associate equals or exceeds its interest in the Associate the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the Associate.

The Group determines at each reporting date whether there is any objective evidence that the investment in the Associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the Associate and its carrying value and recognises the amount adjacent to share of profit / loss of an Associate in the consolidated profit or loss.

5.4.2 Held to maturity

Held to maturity investments are non derivative financial assets with fixed or determinable payments and fixed maturity with a positive intention and ability to hold to maturity. They are included in non current assets unless the investment matures or management intends to dispose-off it within 12 months of the end of the reporting date.

Subsequent to initial recognition held to maturity investments are carried at amortised cost using the effective interest method. Interest on held to maturity investments is calculated using the effective interest method and is recognised in the consolidated profit or loss.

5.4.3 Available for sale

Investments which are intended to be held for an undefined period of time but may be sold in response to the need for liquidity or changes in interest rates are classified as available for sale.

Subsequent to initial recognition at cost, these are re-measured at fair value, with any resultant gain or loss being recognised in consolidated other comprehensive income. Gains or losses on available for sale investments are recognised in consolidated other comprehensive income until the investments are sold or disposed-off, or until the investments are determined to be impaired, at that time cumulative gain or loss previously reported in consolidated other comprehensive income is included in current period's consolidated profit or loss.

5.5 Stores, spares and loose tools

Stores, spares and loose tools are stated at the cost which is based on weighted average cost less provision for obsolescence, if any. Items in transit are stated at cost comprising of invoice value plus other charges thereon accumulated upto the reporting date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

5.6 Stock-in-trade

These are valued at lower of cost and net realisable value. The cost of various classes of stock-in-trade is determined as follows:

Stock category

Complete Knock Down Kits (CKD)
Complete Built-up Units (CBU)
Local raw materials
Work-in-process and finished goods

Stock-in-transit

Valuation method

Specific cost identification
Specific cost identification
At cost on weighted average basis.
At cost which comprises of raw materials, import incidentals, direct labour and appropriate portion of manufacturing overheads.
At invoice price plus all charges paid thereon upto the reporting date.

Net realisable value signifies the estimated selling price in the ordinary course of business less costs necessary to be incurred in order to make the sale.

5.7 Trade debts and other receivables

Trade debts are initially recognised at original invoice amount which is the fair value of consideration to be received in future and subsequently carried at cost less provision for doubtful debts, if any. Carrying amounts of trade and other receivables are assessed at each reporting date and a provision is made for doubtful receivables when collection of the amount is no longer probable. Debts considered irrecoverable are written-off.

5.8 Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities outstanding for more than 12 months as at the reporting date, in which case, they are classified as non current assets.

5.9 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of statement of cash flows, cash and cash equivalents include cash and bank balances, deposits held at call with banks and other short term highly liquid investments with original maturities of three months or less.

5.10 Mark-up bearing loans and borrowings

Mark-up bearing loans and borrowings are recorded at the proceeds received. Finance charges are accounted for on accrual basis.

5.11 Staff benefits - The Holding Company

5.11.1 Defined benefit plan

The Holding Company operates funded gratuity scheme which defines the amount of benefit that an employee will receive on retirement subject to minimum qualifying period of service under the scheme. The amount of retirement benefit is usually dependent on one or more factors such as age, years of service and salary. Provision for gratuity is made annually to cover obligation under the scheme in accordance with the actuarial recommendations. Latest actuarial valuation was conducted on June 30, 2018 on the basis of the projected unit credit method by an independent Actuary. The liability recognised in the consolidated statement of financial position in respect of defined benefit plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The amount arising as a result of re-measurement is recognised in the consolidated statement of financial position immediately, with a charge or credit to consolidated other comprehensive income in the periods in which they occur. Past-service cost, if any, are recognised immediately in income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

5.11.2 Defined contribution plan

The Holding Company operates defined contribution plan (i.e. recognised provident fund scheme) for all its permanent employees. The Company and the employees make equal monthly contributions to the fund at the rate of 8.33% of the basic salary and cost of living allowance. The assets of the fund are held separately under the control of trustees.

5.12 Trade and other payables

Trade and other payables are stated at their cost which is the fair value of the consideration to be paid in future for goods and services, whether or not billed.

5.13 Warranty obligations

The Group recognises the estimated liability, on an accrual basis, to repair parts of trucks under warranty at the reporting date, and recognises the estimated product warranty costs in consolidated profit or loss when the sale is recognised.

5.14 Research and development cost

Research and development cost is charged in the year in which it is incurred. Development costs previously charged to income are not recognised as an asset in the subsequent period.

5.15 Taxation

Income tax expense represents the sum of current tax payable, adjustments, if any, to provision for tax made in previous years arising from assessments framed during the year for such years and deferred tax.

Current

Provision of current tax is based on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year, if enacted.

Deferred

Deferred tax is accounted for using the balance sheet liability method in respect of all temporary differences arising from differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of the taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit shall be available against which the deductible temporary differences, unused tax losses and tax credits can be utilised.

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited in the consolidated profit or loss, except in the case of items credited or charged to equity in which case it is included in equity.

5.16 Financial assets and liabilities

Financial assets and financial liabilities are recognised at the time when the Group becomes a party to the contractual provisions of the instrument and derecognised when the Group loses control of contractual rights that comprise the financial assets and in the case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognition of financial assets and financial liabilities is included in the consolidated profit or loss for the year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

Financial instruments carried on the consolidated statement of financial position includes long term loans, long term deposits, trade debts, loans & advances, short term deposits, accrued interest / mark-up, investments, other receivables, cash and bank balances, liabilities against assets subject to finance lease, long term deposits, trade and other payables, accrued mark-up, running finance under mark-up arrangements. All financial assets and liabilities are initially measured at cost, which is the fair value of consideration given and received respectively. These financial assets and liabilities are subsequently measured at fair value, amortised cost or cost as the case may be. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

5.17 Off-setting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counter party.

5.18 Provisions, contingent assets and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Contingent assets are not recognised and are also not disclosed unless an inflow of economic benefits is probable and contingent liabilities are not recognised and are disclosed unless the probability of an outflow of resources embodying economic benefits is remote.

5.19 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable and is reduced for allowances such as taxes, sales returns, commission and discount. Revenue from different sources is recognised on the following basis:

Trading

- Vehicles are treated as sold when invoiced and delivered. Commission income is recognised on the basis of shipment.
- Spare part sales are recorded on the basis of dispatches made to the customers.

Manufacturing

- Vehicles are treated as sold when invoiced and dispatched to customers.

Other

- Return on bank deposits and term deposit receipts is accounted for an accrual basis.
- Dividend income is recognised when the right to receive payment is established.

5.20 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. All other borrowing costs are charged to income in the period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

5.21 Foreign currency translation

Transactions in foreign currencies are translated into reporting currency at the rates of exchange prevailing on the date of transactions. Monetary assets and liabilities denominated in foreign currencies are translated into reporting currency equivalents using year end foreign exchange rates. Non monetary assets and liabilities are translated using exchange rate that existed when the values were determined. Exchange differences on foreign currency translations are taken to consolidated profit or loss currently.

5.22 Impairment loss

The carrying amounts of the Group's assets are reviewed at each reporting date to identify circumstances indicating occurrence of impairment loss or reversal of provisions for impairment losses. If any indications exist, the recoverable amounts of such assets are estimated and impairment losses or reversals of impairment losses are recognised in the consolidated profit or loss. Reversal of impairment loss is restricted to the original cost of the asset.

5.23 Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the consolidated profit or loss attributable to ordinary shareholders of the Holding Company by the weighted average number of ordinary shares outstanding during the period.

5.24 Segment reporting

Segment information is presented on the same basis as that used for internal reporting purposes by the Chief Operating Decision Maker, who is responsible for allocating resources and assessing performance of the operating segments. On the basis of its internal reporting structure, the Group considers itself to be a single reportable segment.

5.25 Dividend and appropriation to reserves

Dividend and other appropriations to reserves are recognised in the period in which they are approved.

6. CHANGE IN ACCOUNTING POLICY

During the year, the Group changed its accounting policy for the surplus on revaluation of fixed assets, after enactment of the Companies Act, 2017, which has not carried forward requirement of disclosing the surplus on revaluation of fixed assets as a separate item below equity. Accordingly, in accordance with the requirements of International Accounting Standard - IAS 16, 'Property, plant and equipment', surplus on revaluation of fixed assets would now be presented within equity. The new accounting policy is explained in note 5.1.1.

The change in accounting policy has been accounted for retrospectively in accordance with the requirements of IAS 8 'Accounting policies, changes in accounting estimates and errors' and comparative figures have been restated.

The effect of the change is recognition and presentation of Rs.1,370 million for surplus on revaluation of fixed assets as a capital reserve i.e. separate component of equity and derecognition of surplus on revaluation of fixed assets of Rs.1,370 million, previously presented below equity in the statement of financial position. There is no impact of change in accounting policy on consolidated statement of profit or loss and other comprehensive income and statement of cash flows.

Discount rate	1.00%	112,891	136,545
Increase in future salaries	1.00%	136,566	112,672

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and change in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the projected unit credit method at the end of reporting period) has been applied as when calculating the gratuity liability recognised within the statement of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

26.3.9 Based on actuary's advice, the expected charge to consolidated profit or loss for the year ending June 30, 2019 amounts to Rs.10.102 million.
