DIRECTORS' REPORT

The Board of Directors of Al Meezan Mutual Fund Limited (AMMF) is pleased to present the un-audited financial statements of the company for the nine months ended March 31, 2011.

Brief Overview

During the first nine months of fiscal year 2011, Al Meezan Mutual Fund Limited (AMMF) provided a return of 26.41% to its investors while the benchmark index, Karachi Meezan Index (KMI-30) increased by 38% to 20,064 points. The KSE 100 index during the same period closed at 11,810 points posting a 21.5% increase.

Economic Review

The economic performance of the country improved significantly after the devastating floods in the first quarter of the fiscal year as most of the macro economic targets which were expected to slump in the aftermath of the floods showed signs of recovery. The revised GDP target for FY11 now stands at ~2.5-3% as compared to the initial target of 1.5%-2%. Inflation pressure eased off with CPI touching a low of 12.91% in February 2011 after recent respite in food inflation. Moreover, the government's commitment to reduce borrowing from SBP did materialize to some extent, where during the eight months total amount borrowed stood at Rs 76 billion and Rs 204 billion from SBP and commercial banks respectively. On account of these favorable developments, the SBP decided to keep the discount rate unchanged at 14% in the last two monetary policy statements against a total increase of 1.5% in the previous three monetary policy statements.

On the external front, the country's current account position showed a healthy picture with an overall deficit of USD 98 million in the eight months as compared to a massive deficit of USD 3 billion in the same period last year. The overall figure was bolstered by remittances (↑20.3% YoY) and exports which crossed USD 2 billion each for four consecutive months. These positive developments helped the country's FX reserves to hit an all time high of USD 17.9 billion as the currency showed a steady trend during the period under review.

On the fiscal side, the government's revenue collection crossed the Rs 1 trillion mark for the nine months of the fiscal year. To ensure the collection of the revised target of Rs 1,588 billion, some new tax measures were introduced for the remaining months of fiscal year including 15% flood surcharge, increase in special excise duty (SED) from 1% to 2.5% and withdrawal of zero rating facility to some key sectors including fertilizers. During the period under review, a single round of talks was held between government of Pakistan (GoP) and International Monetary Fund (IMF), where the parties principally agreed to enhance the fiscal deficit target to 5.3% of GDP for FY11.

Despite the government's effort to increase the tax base, implement RGST from the next fiscal year and limit the fiscal deficit, the talks with IMF regarding the release of last two tranches remained inconclusive with the next meeting likely in May 2011.

Equity Market Review

The stock market performed well during the first nine months of fiscal year 2011 primarily due to improved corporate earnings and continuing foreign inflows with the KSE-100 index rising by 21.47% to close at 11,810 points despite some correction seen in the last quarter. However, trading volumes remained low due to imposition of capital gains tax (CGT) from July and absence of a leveraged product. Average daily trading volume during the period under review declined by 51% to 85 million shares as compared to 172 million shares in the corresponding period last year.

The start of the fiscal year was initially bullish on the back of expectations of positive corporate results along with foreign interest, which helped the market to post an extraordinary return of 8.2% for the month of July. However, this rally was arrested by the unexpected 50 bps increase in the discount rate by State Bank in its bimonthly monetary policy statement at the end of July. Later, the market performance was further derailed by the devastating floods in the country which adversely affected major sectors of the economy leading to 1-2% cut in the GDP growth target of 4.5%. However, even after another 50 bps increase in discount rate in September, the investors shunned macroeconomic concerns and the sentiments remained bullish due to positive flows and positive corporate results. Since then the market witnessed a broad-based rally which was extended in the new calendar year as positive developments inched up investors' hopes of good result and payout expectations. Foreigners' net buying position boosted optimism in market as the third hike in the discount rate of 50bps in this fiscal year did not break the momentum of the market and KSE-100 rallied to year's peak of 12,768 points in mid of January, 2011.

The market underwent a correction of 12% since then as there was profit taking activity initiated by institutional investors. This was seen due to heightened political noise and strained foreign relations due to the Raymond Davis case in courts along with the uprising in the MENA region and the natural calamity in Japan. Subsequently, foreign investment which was the major trigger of the market rally in last few quarters remained at subdued levels of USD 52.5 million in third quarter of FY11, slightly thinning the fiscal year to date inflow to USD 302 million, while registering first monthly negative number of USD 16.2 million since May 09 in March FY 11.

Towards the end of the period under review, introduction of Margin Trading System (MTS) coupled with better than expected corporate results gave some support to the market and eventually helped the KSE 100 index to close at 11,810.

Performance Review

During the nine months of fiscal year 2011, Al Meezan Mutual Fund (AMMF) earned a gross income of Rs. 264 million as compared to an income of Rs. 480 million in the same period last year. The major sources of income were realized and unrealized capital gains of Rs. 126 million and Rs. 42 million respectively. Dividend income contributed Rs. 80 million, while profit on savings account at banks added Rs. 17 million. After accounting for expenses of Rs. 24 million, AMMF posted net profit of Rs. 240 million. This translates into earnings per share of Rs. 1.75 as compared to an earning per shares of Rs. 3.30 in the corresponding period last year. The net assets of the fund were Rs. 1,658 million as at period ended March 31, 2011 as compared to Rs. 1,521 as at the same period last year. The net asset value (NAV) per share appreciated from Rs. 10.21 as at June 30, 2010 to Rs. 12.05 as at March 31, 2011.

Acknowledgement

We take this opportunity to thank our valued investors for reposing faith in Al Meezan Investments making it the largest asset management company in the private sector in Pakistan. - 7.3 Net assets are as defined in Regulation 66 of NBFC Regulations, 2008.
- 7.4 190,000 shares of Oil & Gas Development Company Limited having market value of Rs 25.777 million (June 30, 2010: 26.921 million) have been pledged as collateral in favour of National Clearing Company of Pakistan Limited (NCCPL) against exposure margins and mark-to-market losses.

8 CONTINGENCY

The Finance Act 2008 introduced an amendment to the Workers' Welfare Fund Ordinance, 1971 (WWF Ordinance). As a result of this amendment it may be construed that all Collective Investment Schemes / mutual funds (CISs) whose income exceeds Rs 0.5 million in a tax year, have been brought within the scope of the WWF Ordinance, thus rendering them liable to pay contribution to WWF at the rate of two percent of their accounting or taxable income, whichever is higher. In this regard, a constitutional petition has been filed by certain CISs through their trustees in the Honorable High Court of Sindh (the Court), challenging the applicability of WWF to the CISs, which is pending adjudication. However, without prejudice to the above, the Management Company made a provision for WWF contribution in the annual financial statements for the year ended June 30, 2010.

Subsequent to the year ended June 30, 2010, a clarification was issued by the Ministry of Labour and Manpower (the Ministry) which stated that mutual funds are not liable to contribute to WWF on the basis of their income. This clarification was forwarded by Federal Board of Revenue (FBR) (being the collecting agency of WWF on behalf of the Ministry) to its members for necessary action. Based on this clarification, the FBR also withdrew notice of demand which it had earlier issued to one of the mutual funds for collection of WWF. Notices of demand have also been issued to several other mutual funds and the matter has been taken up by the respective mutual funds with the FBR for their withdrawal on the basis of the above referred clarification of the Ministry. No such notice was received by the Fund.

On December 14, 2010, the Ministry has filed its response against the constitutional petition requesting the Court to dismiss the petition. According to the legal counsel who is handling the case, there is a contradiction between the aforementioned clarification issued by the Ministry and the response filed by the Ministry in the Court.

However, the Management Company believes that the aforementioned constitutional petition pending in the Court has strong grounds for decision in favour of the mutual funds. Accordingly, the management has reversed the liability recognised as at June 30, 2010 amounting to Rs 7.122 million, during the current period. The aggregate unrecognised amount of WWF as at March 31, 2011 amounted to Rs 11.690 million.

There were no other contingencies and commitments outstanding as at March 31, 2011 and June 30, 2010.
