## DIRECTORS' REPORT

On behalf of the Board of the Director's I am pleased to present the Directors Report for the first Quarter of 2009.

The Bank reported a net loss of Rs. 84.50m which was anticipated due to fully allocating the cost of the 66 branches opened last year. This quarter was the first in which the Bank was absorbing the cost of its expansion, whilst earnings were to follow in the coming months.

By the Grace of Allah , operationally, the Bank did exceptionally well. There has been a 32% growth in deposits which has come almost entirely from the retail segment. 74% of the increase has been in Current and Savings Accounts and even with the Term Deposits, the majority of increase has been in deposit schemes of five and ten year tenures, directed towards individuals and households. BankIslami, I am pleased to report, has probably the highest concentration of retail deposits in the Industry today. The increase in deposits is also well reflected by the growth in the number of customer accounts which grew by a hefty 39%. Asset deployment remained slow mainly due to slower credit off take, however, the pipe- line is healthy. Overall the quality of assets remains good and the Bank has not yet taken entirely the benefit of Forced Sale Values in its provisioning. We expect the Bank to break-even in the third quarter and is expected to report positive earnings for the year 2009. There are no plans to open any new branches this year as was stated in the annual report.

In other areas, deployment of the core banking IT system remained on track. The first stage is expected to be completed by end of August giving BankIslami a distinctive edge in technology. The selected system, iMal, is the only Shariah compliant core banking system available in the market.

PACRA has maintained long term entity rating of 'A-' and short term rating of 'A2' .

Our sincere gratitude to the State Bank of Pakistan and the Securities and Exchange Commission of Pakistan for all their kind support and guidance. The Board would also like to place on record its appreciation to all our employees for their continued commitment and hard work.

For and on behalf of the Board

**Hasan A Bilgrami**  
Chief Executive Officer.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 Business Combination are recognised at their fair values at the acquisition date.

**NOTES TO THE INTERIM CONDENSED  
FINANCIAL STATEMENTS**  
FOR THE QUARTER ENDED MARCH 31, 2009 (UNAUDITED)

Goodwill arising on acquisition is recognised as an asset and initially measured at cost, being the excess of the cost of the business combination over the Group’s interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised. If, after reassessment, the Group’s interest in the net fair value of the acquiree’s identifiable assets, liabilities and contingent liabilities exceeds the cost of the business combination, the excess is recognised immediately in profit or loss.

**6.2 Goodwill**

Goodwill arising on the acquisition of a subsidiary or a jointly controlled entity represents the excess of the cost of acquisition over the Group’s interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiary or jointly controlled entity recognised at the date of acquisition. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill is allocated to each of the Group’s cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated will be tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.
